**New Hampshire Homeland Security and Emergency Management (NHHSEM)
Emergency Management Performance Grant (EMPG) Guidance
FY 2011**

(Grant Performance Period: Oct. 1, 2010 – Sept. 30, 2013)

The purpose of the FY 2011 Emergency Management Performance Grant (EMPG) Program is to assist State and Local Governments and other eligible agencies in preparing for all hazards. EMPG focuses on Planning, Organization/Administrative, Equipment, Training, Exercises, Mitigation and Maintenance/Sustainment to enhance and sustain all-hazards emergency management capabilities.

As part of the FY 2011 EMPG Program, DHS-FEMA identified an overarching *priority*:

***Advancing “Whole Community” Security and Emergency Management:** “Whole Community” fosters a national emergency management approach and considers all aspects of a community to effectively prepare for, protect against, respond to, recover from, and mitigate against any terrorist attack or natural disaster. As the country experiences threats of terrorist attacks (foreign and domestic) and natural disasters, communities are challenged to develop collective, local abilities to withstand the potential impacts of these events, respond quickly, and recover in a way that sustains or improves the community’s overall well-being. Achieving this collective capacity calls for innovative approaches across the community, including emergency management to build up existing practices, institutions, and organizations that help make local communities successful, and that can leverage this infrastructure if and when an incident occurs.*

Effectiveness Measures: As part of the EMPG Program administration, grantees are required to provide quarterly reports that provide sufficient detail for NH HSEM to measure the effectiveness of this grant program and the impact it has state-wide.

Cost Match: The EMPG Program has a 50 percent (50%) Federal and 50 percent (50%) Local cost match (cash or in-kind) requirement. Unless otherwise authorized by law, Federal funds cannot be matched with other Federal funds. To meet matching requirements, the grantee contributions must be *reasonable, allowable, allocable, and necessary* under the grant program and must comply with all Federal requirements and regulations.

Allowable Costs: EMPG funding is available for projects that fall into the categories of – *Planning, Organization/Administrative, Equipment, Training, Exercises, Mitigation and Maintenance & Sustainment*. The following list of possible projects and activities is meant to guide you in selecting projects for an EMPG grant submission. This list of suggested projects is not intended to be all-inclusive. Local communities or agencies may have other specific projects and activities that reflect specific local needs based on local capability assessments and local hazards.

Planning

FY 2011 EMPG Program funds may be used for a range of emergency management planning activities. Planning provides a methodical way to engage the whole community in thinking through the life cycle of potential crises, determining required capabilities, and establishing a framework for roles and responsibilities. Planning must include participation from all stakeholders in the community who are able to contribute critical perspectives and may have a role in executing the plan. Planning should be flexible enough to address incidents of varying types and magnitudes.

Planning activities may include, but are not limited to, the following:

- **Create/update your Local Emergency Operations Plan (LEOP)** ** consistent with the Comprehensive Preparedness Guide (CPG) 101 v.2 November 2010 which serves as the foundation for State and local emergency planning. CPG 101 can be found at:
http://www.fema.gov/pdf/about/divisions/npd/CPG_101_V2.pdf.
- **Develop/Enhance an All-Hazards Mitigation Plan**** for your community, approvable by the Federal Emergency Management Agency (FEMA).
- Community-based planning to advance “whole community” security and emergency management.
- Modify existing incident management and emergency operations plans.
- Develop/enhance comprehensive emergency management plans.

- Develop/enhance logistics and resource management plans.
- Develop/enhance local evacuation plans, including alerts/warning, crisis communications, sheltering, and re-entry.

- Prepare a hazard mitigation project proposal for submission to NH HSEM.
- Develop/enhance dam emergency action plans.
- Develop/enhance a Continuity of Operations Plan (COOP)/Continuity of Government Plan (COG), following the DHS program guidance.
- Develop a local debris management plan.
- Develop/enhance a local shelter plan.
- Develop/enhance emergency management and operations plans to integrate citizen/volunteer and other non-governmental organization resources and participation.
- Develop/enhance other response and recovery plans, following the DHS program guidance.

**** A community must have the following two plans in place before NH HSEM will consider funding other projects: an updated LEOP and a FEMA approvable All-Hazards Mitigation Plan. Applicants may apply for funding for these plans in conjunction with other items.**

Organization/Administrative

EMPG Program funds may be used for all-hazards emergency management operations, staffing, and other day-to-day activities in support of emergency management. Proposed staffing activities should be linked to accomplishing emergency management-related projects and activities. This grant is project-driven.

- Program evaluations.
- Develop/enhance systems to monitor training programs.

Equipment

Allowable equipment categories for the FY 2011 EMPG Program are listed on the web-based version of the Authorized Equipment List (AEL) on the Responder Knowledge Base (RKB), which is sponsored by FEMA at <http://www.rkb.us>. Unless otherwise stated, equipment must meet all mandatory regulatory and/or FEMA-adopted standards to be eligible for purchase using these funds. In addition, agencies will be responsible for obtaining and maintaining all necessary certifications and licenses for the requested equipment.

The **select allowable equipment** includes equipment from the following AEL Categories:

- [04] Information Technology
- [05] Cyber Security Enhancement Equipment
- [06] Interoperable Communications Equipment (see note below)
- [07] Detection Equipment
- [10] Power Equipment (i.e., generators)

Grantees interested in developing a public safety broadband network in the 700 MHz band in their jurisdictions must adhere to the technical standards set forth in the FCC Waiver Order, or any succeeding FCC orders, rules, or regulations pertaining to broadband operations in the 700 MHz public safety band. The recipient shall also ensure projects support the Statewide Communication Interoperability Plan (SCIP).

Training

FY 2011 EMPG Program funds may be used for a range of emergency management-related training activities to enhance the capabilities of State and local emergency management personnel through the establishment, support, conduct, and attendance of training. Training should foster the development of a community oriented approach to emergency management that emphasizes engagement at the community level, strengthens best practices, and provides a path toward building sustainable resilience.

In no case is dual compensation allowable. That is, an employee of a unit of government may not receive compensation from their unit or agency of government AND from an award for a single period of time (e.g., 1:00 p.m. to 5:00 p.m.), even though such work may benefit both activities.
- **Travel** - Travel costs (e.g., airfare, mileage, per diem, hotel) are allowable as expenses by employees who are on travel status for official business related to approved training.

Exercises

Exercises implemented with grant funds should evaluate performance of the capabilities required to respond to the exercise scenario. Exercise activities should follow HSEEP Guidance which can be found at <https://hseep.dhs.gov>. Grantees are encouraged to develop exercises that test their Local EOPs. *Before applying for EMPG funds for an exercise, please contact the State's Exercise/Training Officer on availability for HSEEP funding which is 100% compared to 50% under EMPG.*

Allowable exercise-related costs include:

- Conduct multi-agency EOC exercise (tabletop or functional) and forward report to include after action reports to NH HSEM (external evaluation of exercise is strongly encouraged). Exercises might involve any of the following scenarios:

- Overtime and Backfill - The entire amount of overtime costs, including payments related to backfilling personnel, which are the direct result of time spent on the design, development and conduct of exercises are allowable expenses. These costs are allowed only to the extent the payment for such services is in accordance with the policies of the State or unit(s) of local government and has the approval of the State or the awarding agency, whichever is applicable. In no case is dual compensation allowable. That is, an employee of a unit of government may not receive compensation from their unit or agency of government AND from an award for a single period of time (e.g., 1:00 p.m. to 5:00 p.m.), even though such work may benefit both activities.

- Equipment that is purchased for permanent installation and/or use, beyond the scope of exercise conduct (e.g., electronic messaging signs).
- Durable and non-durable goods purchased for installation and/or use beyond the scope of exercise conduct.

Mitigation

Prior to applying for EMPG funds to do a Mitigation Project, it is recommended to first inquire on Hazard Mitigation-type Grants through the State Hazard Mitigation Officer, Lance Harbour. He can be reached at 603-223-3633.

Mitigation Activities may include:

- Brick and mortar projects, such as, installing drainage ditches, enlarging culverts, or installing riprap. No annual maintenance activities allowed, such as brush removal, or drainage clearing.
- Communications activities, such as communications studies, compatibility studies, and/or purchasing of communications equipment for interoperability.

Maintenance and Sustainment

The use of FEMA preparedness grant funds for maintenance contracts, warranties, repair or replacement costs, upgrades, and user fees are allowable under all active and future grant awards, unless otherwise noted. Grantees are reminded that **supplanting is not permitted under the EMPG Program**. Maintenance contracts and warranties, repair and replacement costs, upgrades, and/or user fees for equipment that was not originally purchased with preparedness grant funding may not be subsequently paid for with preparedness grant funding.

Maintenance and Sustainment may include:

- Maintenance Contracts and Warranties - To increase the useful life of the equipment, FEMA has determined that maintenance contracts and warranties may be purchased using grant funding from one FY to cover equipment purchased with funding from a different FY. The use of grant funding for the purchase of maintenance contracts and warranties must meet the following conditions:
 - Maintenance contracts and warranties may only be purchased for equipment that has been purchased using FEMA preparedness grant funding
 - To avoid supplementing Congressional appropriations for specific programs, maintenance contracts and warranties must be purchased using funds from the same grant program used to purchase the original equipment
 - The term of the maintenance contract or warranty shall not exceed the period of performance of the grant to which the contract is being charged.

Maintenance and Sustainment

Maintenance and Sustainment may include (cont.):

- **Repair and Replacement Costs** - The cost of repair and replacement parts for equipment purchased using FEMA preparedness grant funding is an allowable expense
 - Repair and replacement parts may only be purchased for equipment that has been purchased using FEMA preparedness grant funding
 - To avoid supplementing Congressional appropriations for specific programs, repair and replacement parts must be purchased using the same grant program used to purchase the original equipment
- **Upgrades** - FEMA preparedness grant funding may be used to upgrade previously purchased allowable equipment. For example, if the grantee purchased risk management software with EMPG Program funds in FY 2005 and would like to use FY 2011 grant funding to upgrade the software, this is allowable.
 - Upgrades may only be purchased for equipment that has been purchased using FEMA preparedness grant funding.
 - To avoid supplementing Congressional appropriations for specific programs, upgrades must be purchased using the same grant program used to purchase the original equipment.
- **User fees** - User fees are viewed as costs for specific services required to maintain and provide continued operation of equipment or systems. An example would be the recurring service fees associated with handheld radios or mobile data computers
 - User fees may only be paid for equipment that has been purchased using FEMA preparedness grant funding
 - To avoid supplementing congressional appropriations for specific programs, user fees must be paid for using the same grant program used to purchase the original equipment.
 - The service time purchased shall not exceed the period of performance of the grant to which the user fee is being charged.

Unallowable Costs/Items Not Funded

- General administrative projects. Administrative expenses must be directly connected to a specific Emergency Management-related project.
- The same/similar project will not be funded year after year.
- Expenditures for weapons systems and ammunition.
- Costs to support the hiring of sworn public safety officers for the purposes of fulfilling traditional public safety duties or to supplant traditional public safety positions and responsibilities.

**Board of Selectmen
Minutes of Meeting**

Meeting held upstairs in Town Hall

Monday – December 17, 2012

Attending: Town Manager Edward Samson

Selectmen Leon Rideout, Leo Enos and David Stickney

Others attending: Planning/Zoning Coordinator Benjamin Gaetjens-Oleson, Don Williams, Murray Vashaw, Alan Savage, Paul Thurston and Shane Beattie.

The meeting was called to order at 6:30 P.M., by Chairman Leon Rideout, followed by the Pledge of Allegiance.

Public Hearings:

The Public Hearing was called to order at 6:45 P.M.

First Hearing – for the town to adopt FEMA's revised Flood Insurance Rate Map (FIRM) and revisions of the Building Code Ordinance.

Second Hearing – For the town to accept unanticipated monies over \$5,000.00

At this time the hearings were held over until the Lancaster Fair Association had given their presentation as requested at the last meeting.

Edward Samson stated that the Lancaster Fair Association had always paid a fee in lieu of taxes but at this time they were asking for a full tax exemption and not to pay a payment-in-lieu. The payment-in-lieu agreement in the past consisted of payment for the town and county share of the annual tax bill, the school tax is not included. Their recent tax bill of 2011 was \$15,610 and for 2012 would be \$16,742 and the next billing would be about \$19,000. Mr. Samson stated that the reason for their request was that the monies were not being made to pay their share.

President Paul Thurston stated that over the last 2 years the profit and expenses of the fair have come closer and closer together, therefore they have not been able to invest back into the fair. He also stated that some of the buildings are in very bad shape and they have only been able to patch them and they have to rely on volunteers to do the work. They are also running against other fairs that are on the same weekend as Lancaster. They have looked into grants and other ways to make money. He stated that the businesses in town are making the money from the fair more than the fair itself. If they did not have to pay for their tax share it would help a great deal.

Leo Enos asked if the fair grounds are used for any other activities and what did they charge.

Mr. Thurston stated that they do lease it out and charge \$100. He stated that our area is to far up for people to come and hold events.

Mr. Samson, speaking as a Director, stated that when you say in lieu of, some pay and some don't. What is done for the town the week that the fair is on is very good for the town. If the town was to take over the land that is around the fair grounds it could only be used for recreational activities not for the fair. He said that he personally supports letting them have their request.

David Stickney stated that when he had his business he did see a lot of increase in sales at his place during the fair.

Shane Beattie, Vice President of the Fair Association, stated that when his family had the stores, they saw a great deal of business during that time also.

Don Williams asked if the fair would be better without having liquor served. He was told that there wasn't a beer tent last year and when there was there was always an officer there.

Mr. Thurston stated that they also have a \$176,000.00 note that they are paying on for

improvements to the fair grounds.

Mr. Samson stated that he would like to see them provide the Selectboard with a Financial Statement yearly and the Board would readdress the issue in 2 years.

A motion was made by Leo Enos and seconded by David Stickney to have the Lancaster Fair Association provide a Financial Statement to the Board of Selectmen every two years and be granted that they not have to pay in lieu of taxes. A vote was taken and the motion carried.

Mr. Thurston and Mr. Beattie thanked the Board for their understanding in the matter.

The meeting was reopened for the Public Hearing

Planning/Zoning Coordinator Benjamin Gaetjens-Oleson spoke saying that FEMA has updated their flood maps for Coos County. There were no changes in Lancaster as they did not conduct a study of the Flood Hazard Areas as they have in some of the other towns of the county. The new maps are actual aeriels with the flood zones overlain on them so actual structures and landmarks are seen in relation to the areas. The Board needs to adopt the resolution which approves the new maps and their inclusion by reference in the Town's Building Code Ordinance. This will ensure Lancaster residents can still receive subsidized flood insurance for their properties located in a Special Flood hazard Area.

A motion was made by David Stickney and seconded by Leo Enos to approve the new flood maps and accept the following resolution– Pursuant to RSA 674.57, by resolution of the Town of Lancaster Board of Selectmen, all lands designated as special flood hazard areas by the Federal Emergency Management Agency (FEMA) in its “Flood Insurance Study for the County of Coos, NH” dated February 20, 2013, together with the associated Flood insurance Rate Maps dated February 20, 2013, are declared to be part of the Town of Lancaster Building Coe Ordinance and are hereby incorporated by reference. A vote was taken and the motion carried.

Mr. Gaetjens-Oleson spoke on the unanticipated funds the Town will receive from the State of NH Department of Safety in the form of an Emergency Management Performance grant in the amount of \$11,364.00 to cover no more than 50% of the purchase of the Town's new cruiser and relevant equipment. The new cruiser will be properly equipped to act as a mobile EOC and command vehicle. He explained the purchase of the cruiser is acting as the Town's match enabling the purchase and installation of required equipment to be paid for by the State.

A motion was made by Leo Enos and seconded by David Stickney for the Town of Lancaster to accept the NH Emergency Management Performance Grant in the amount of \$11,364.00 to pay no more than 50% of the cost to purchase and equip a new Mobile Emergency Operations Center (EOC)/ command vehicle and four portable emergency scene spot lights and authorize Town Manager, Edward Samson to sign any and all paperwork relevant to the grant. A vote was taken and the motion carried.

The public hearings were closed at 6:50 P.M.

OLD BUSINESS:
