CHRISTOPHER D. CLEMENT, SR.
COMMISSIONER

JEFF BRILLHART, P.E.
ASSISTANT COMMISSIONER

Bureau of Construction
December 11, 2013

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with Wyman & Simpson, Inc. (Vendor 153246) of Richmond, ME on the basis of a low bid of \$1,364,754.00 for bridge rehabilitation work and safety improvements on the NH 111 bridge over I-95 in North Hampton, from the date of Governor and Council approval through September 5, 2014 unless extended by the Department in accordance with the Standard Specifications. 100% Turnpike Funds.

Funding is available as follows: FY 2014
04-96-96-961017-7025
Turnpike Renewal & Replacement
400-500870 Highway Contract Payments \$1,364,754.00

2. Further authorize that a contingency in the amount of \$68,237.70 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 5% of the contract amount and is reasonable for projects of this type.

Contingency Funding is available as follows: FY 2014
04-96-96-961017-7025
Turnpike Renewal & Replacement
400-500870 Highway Contract Payments \$68,237.70

EXPLANATION

This project is part of the Turnpike Renewal and Replacement Program. The improvements are needed to address deteriorating elements of the bridge. The work involves replacement of portions of the concrete deck, membrane and pavement, replacement of bridge joints and repairs to the abutment backwalls. A field inspection of the bridge revealed deterioration of the concrete bridge deck, which was confirmed by bridge deck condition testing. High chloride levels were found in portions of the bridge deck, requiring the replacement of those areas. This work will preserve and extend the service life the bridge.

The contingency amount is proposed to be 5% of the contract amount and is warranted due to the nature of full/partial depth deck repairs (estimated quantities based on a bridge deck condition survey).

Although the bid costs exceeded the Department's estimate, the low bid is felt to be reasonable for the work involved. The engineer's estimate underestimated the cost of the partial deck removal, basing it on deck area, and not necessarily considering all the fixed costs associated with the deck removal operation. Re-advertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

Christopher D. Clement, Sr.
Commissioner

CDC/md

Department Estimate:	\$1,214,586.30
Contract Amount:	<u>\$1,364,754.00</u>
Over Estimate:	\$ 150,167.70

PROJECT: North Hampton

FEDERAL NUMBER: N/A

STATE NO: 15848

DATE: October 7, 2013

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This project consists of bridge rehabilitation work and safety improvements on North Hampton Br. No. 081/093 carrying NH 111 over I-95.

The bridge rehabilitation work includes: replacement of portions of the concrete bridge deck, membrane and pavement; replacement of joints; replacement of the bridge rail and approach rail; repairs to abutment backwalls; and reconstruction and bituminous overlay of approximately 800 feet on NH 111. The raised sidewalk on the north side of the bridge will be removed.

FEDERAL FUNDING: 0%

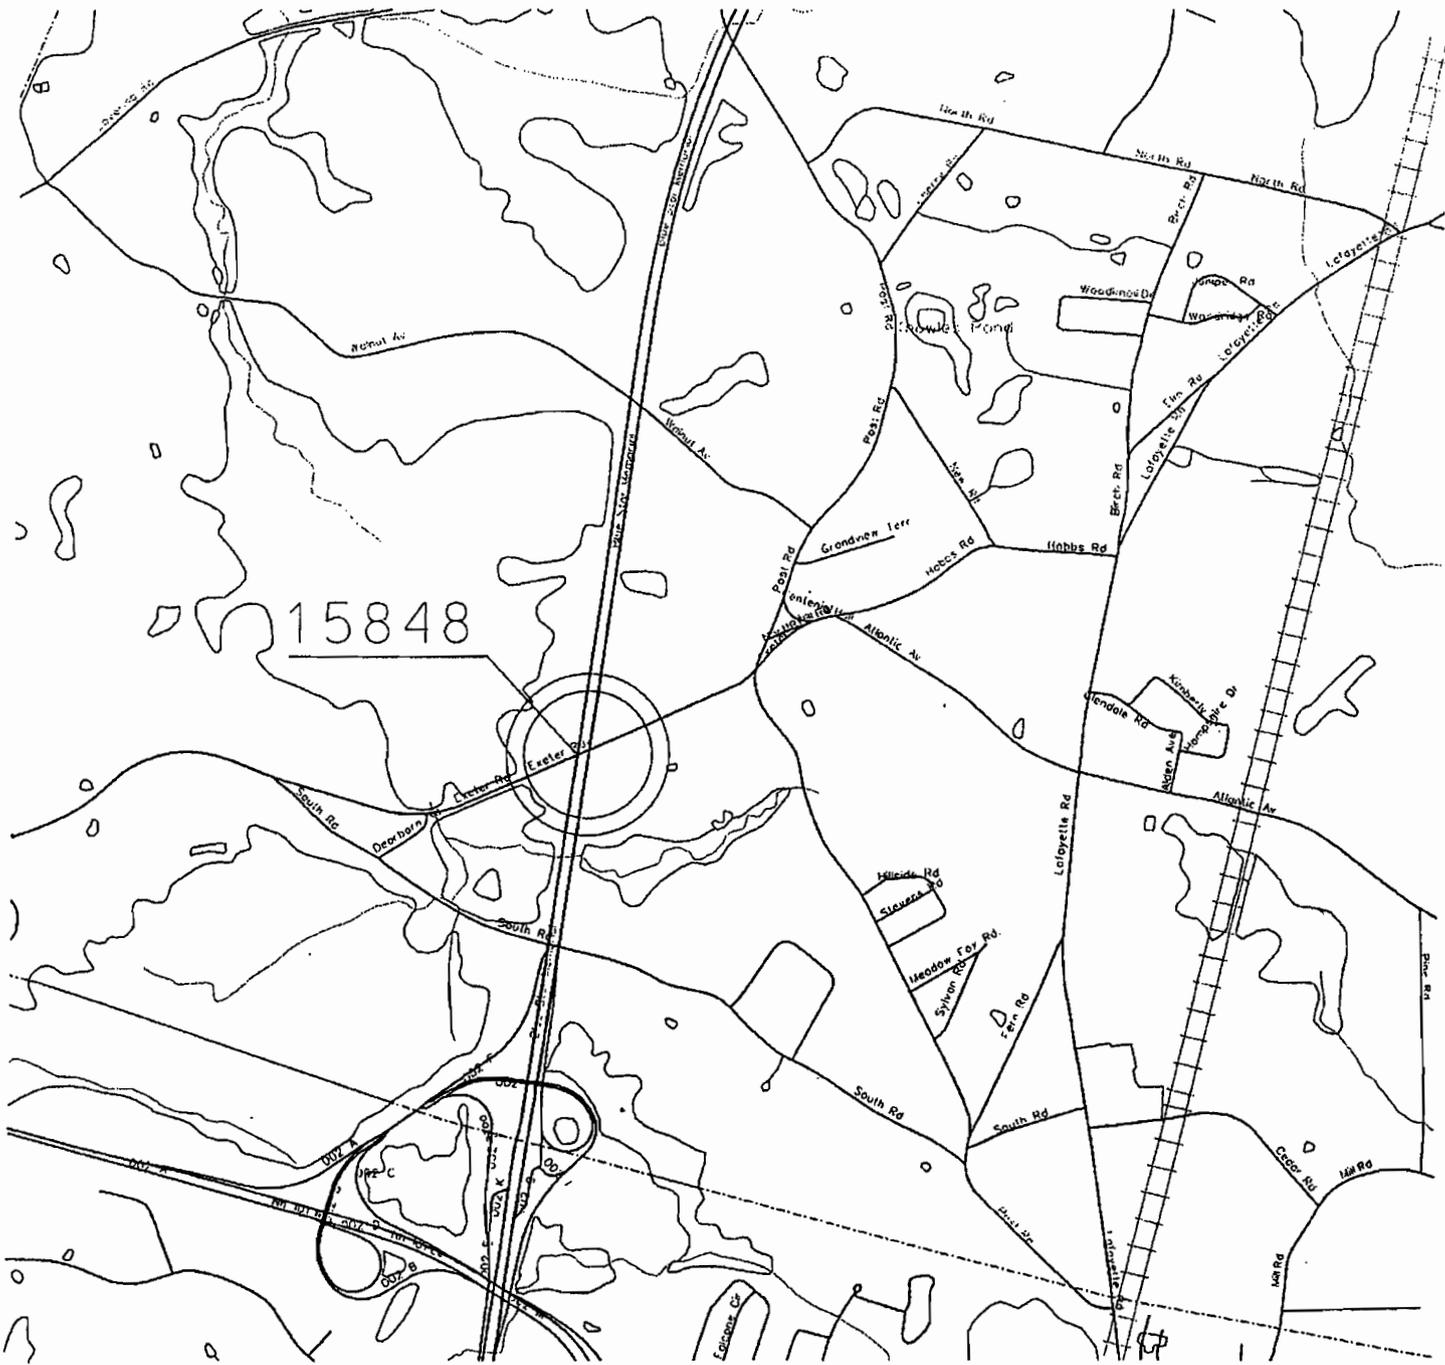

CONTINGENCY: A contingency amount is proposed to be 5% of the contract item total and is warranted due to the nature of full/partial depth deck repairs (estimated quantities based on a bridge deck condition survey).

PROJECT INITIATED: Under the Turnpike's "*Renewal and Replacement*" Program.

PROJECT EXPLANATION: The improvements are needed to address the bridge deck. A field inspection of the bridge revealed deterioration of the concrete bridge deck, which was confirmed by testing. High chloride levels were found in portions of the bridge deck, requiring the replacement of those areas.

TRAFFIC IMPLICATIONS: The bridge rehabilitation work will be performed in two phases. Alternating one-way traffic on NH 111 will be maintained on one lane using temporary traffic signals.

COMPLETION DATE: The completion date for this project is September 5, 2014.
