SB 367 Capital Investment	
400-500870 Highway Contract Payments	\$73,957.15

EXPLANATION

This project is part of the additional funding through SB 367, Proposed Road Toll Increase. This project involves pavement rehabilitation/reclaiming of approximately 3.65 miles at two locations in Maintenance District Five. The work will take place on 0.65 miles of Langford Road in Raymond and 3 miles of NH 121 in Auburn and Chester and involves reclaiming the existing pavement and resurfacing with a 4 inch and 3 inch overlay respectively. The pavement along these sections is in poor condition.

Page 2

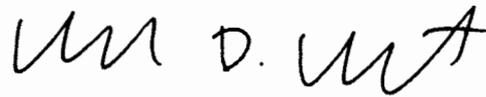

The rehabilitation will improve and extend the life of the highway riding surface and protect the subsurface base course materials. All of the proposed work will remain within the right-of-way.

The contingency amount is proposed to be 5% of the contract amount for: a large quantity of paving to be performed during a time of unpredictable fuel and asphalt prices, and the fact that the project may extend over two construction seasons.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

Christopher D. Clement, Sr.
Commissioner

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This project includes roadway rehabilitation in two locations within District 5.

- **Raymond:** Langford Road – Work begins at a pavement joint approximately 700-feet west of the Manor View Drive intersection and continues east for 0.65 miles ending just before the bridge joint of Bridge No. 106/122. The work includes reclaiming the existing roadway and paving 4" HBP along with installing underdrain (\$329,674.00).
- **Auburn – Chester:** Two segments shall be addressed along NH 121, totaling approximately 3.0 miles in length. The work includes reclaiming the existing roadway and paving 3"HBP along with installing underdrain and replacing noted culverts (\$1,348,111.00).
 - Work begins 100-feet west of the intersection of Wilson's Crossing Road and continues east for 1.85 miles to the Chester Town Line.
 - Work begins ½ mile east of the Chester Town line and continues east for 1.15 miles.

FEDERAL FUNDING: Construction funding for all locations is 100% funded through the SB367-4-CENT funding source.

CONTINGENCY: A contingency amount of 5% of the contract amount is proposed to account for: a large quantity of paving to be performed during a time of unpredictable fuel and asphalt prices, and the fact that the project may extend over two construction seasons.

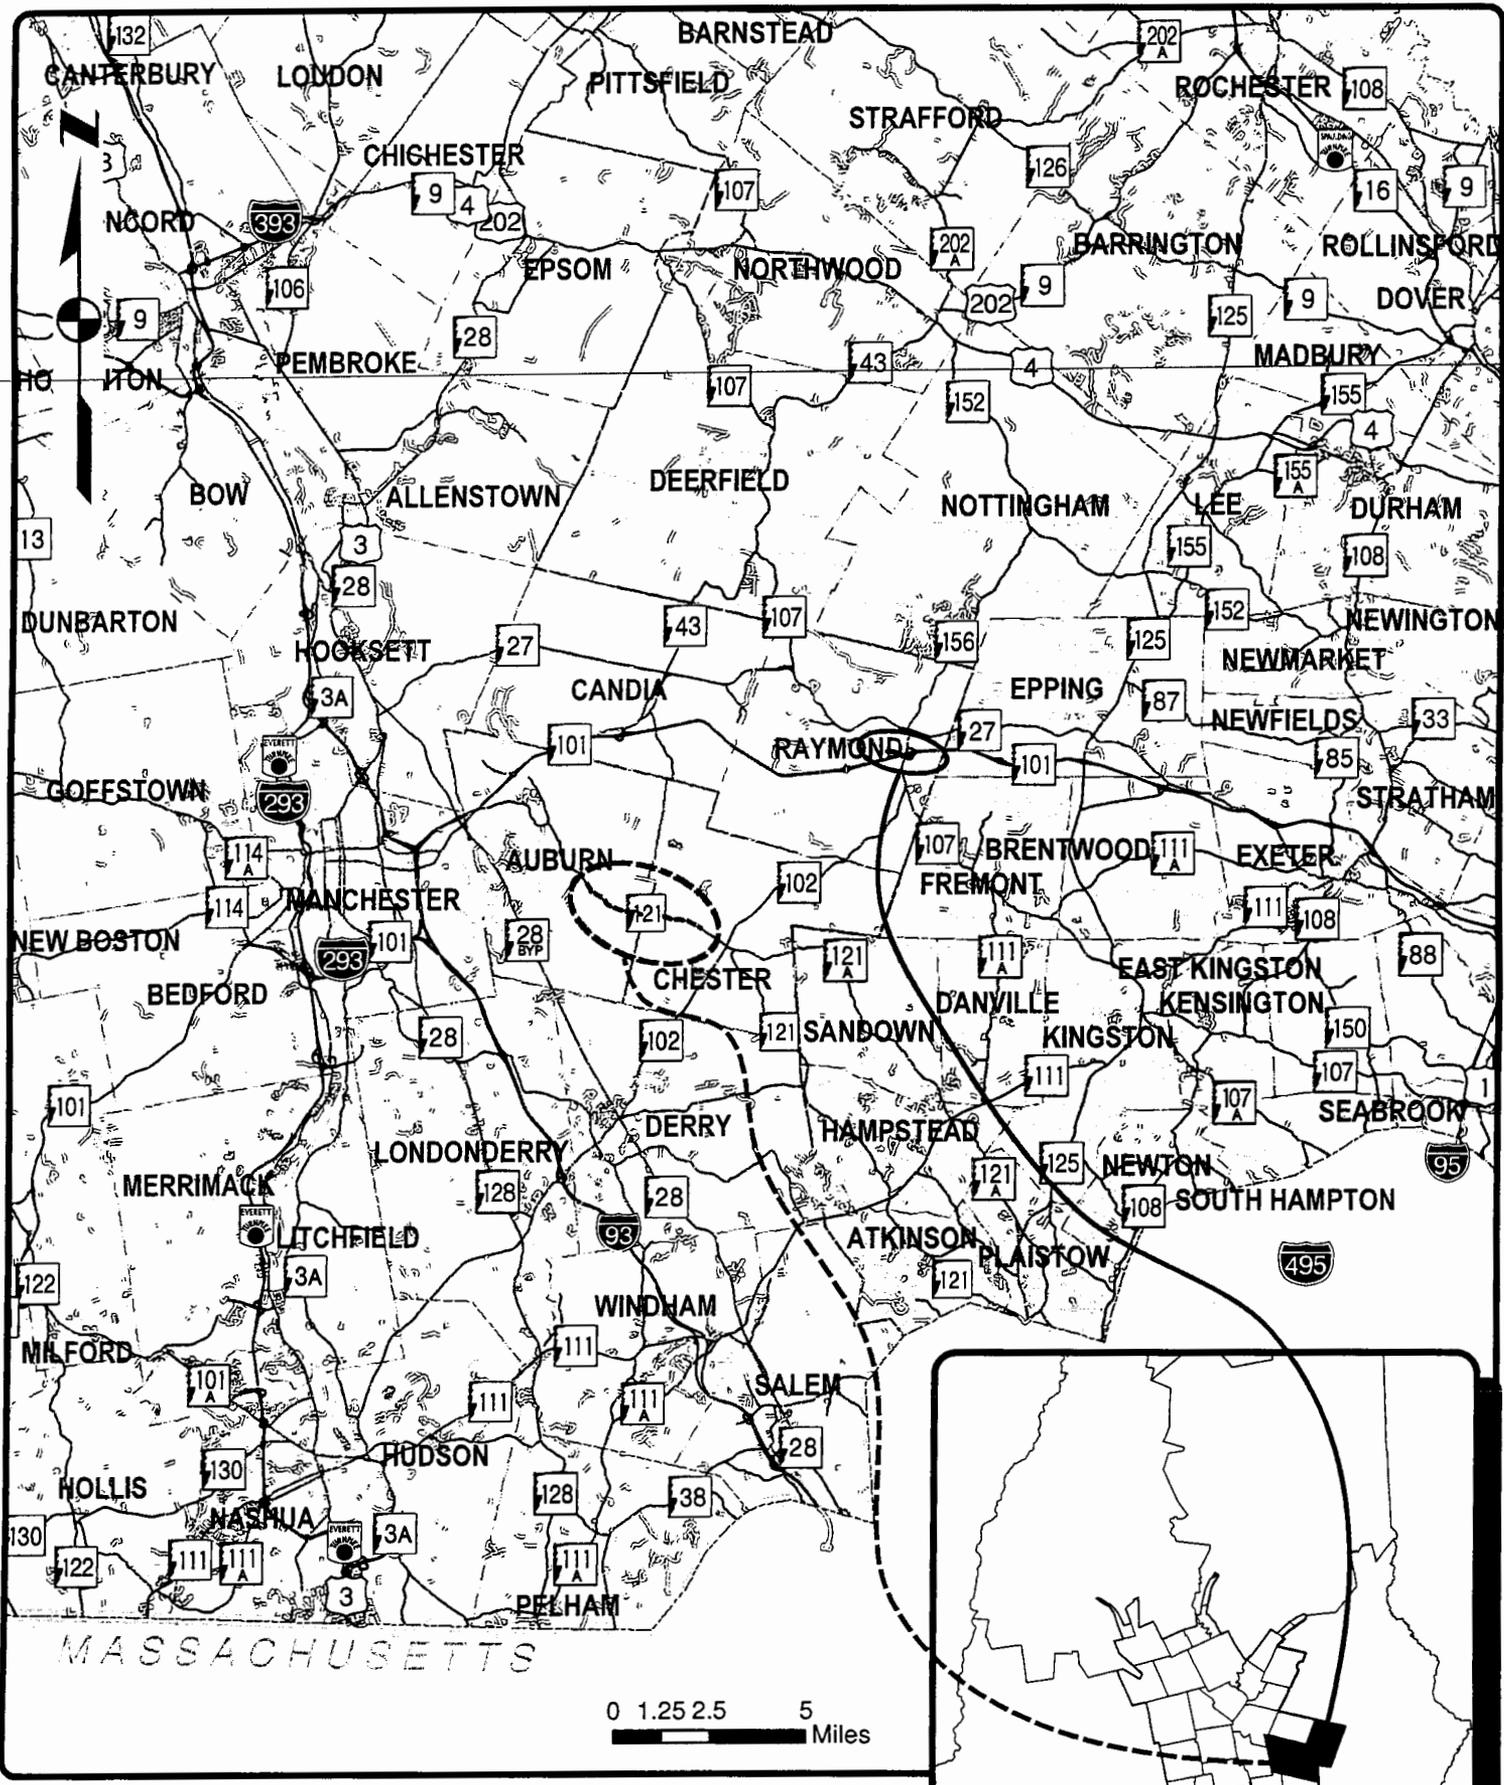

PROJECT INITIATED: Senate Bill 367.

PROJECT EXPLANATION: These roadways are located throughout District 5. These pavements are in poor condition. The intent of this project is to maintain and improve the riding surface and to extend the life of the existing roadways. Work on these locations will include reclaim pavement treatments along with drainage work. All proposed work will remain within the right-of-way.

District 5 has been allocated \$2,000,000 revenue from the Gas Tax Bill for Rehabilitation of Secondary Roads. Mont Vernon 29298 was previously advertised on 05/20/2014 and involves rehabilitation of a section of NH Route 13. This project utilizes \$322,215.00 of the allocated \$2,000,000 for District 5. District Maintenance forces had previously prepped the project area by updating all needed drainage, therefore only requiring reclamation/paving work.

TRAFFIC IMPLICATIONS: Minimal traffic implications are anticipated. Alternating one-way traffic will be utilized during work hours with traffic being restored to two lanes during non-work hours. Traffic will utilize an 11' minimum width with the use of flaggers when restricted to one lane. If this work cannot be handled without excessive backup, the work will be discontinued and normal traffic patterns will be restored.

COMPLETION DATE: Friday June 26, 2015.
