**EXPLANATION**

This project is part of the Ten Year Transportation Improvement Plan. This project is a safety improvement intended to address difficult egress from Pembroke Hill Road onto US 3 due to high traffic volumes on US 3. This problem is particularly pronounced during the AM peak hour when there is high traffic, including school buses, existing Pembroke Hill Road. The Bow Lane intersection is only 120 feet to the south of the Pembroke Hill Road intersection, and experiences similar difficulty accessing US 3. The work involves widening of US 3 to provide left turn lanes and signalize the intersection, relocating Bow Lane Road opposite Pembroke Hill Road, constructing curb and sidewalks on the west side of US 3, and rehabilitating existing sidewalks on the east side. Numerous crashes, including a fatality, have occurred at the intersection. The project will improve safety by providing signal controlled access, dedicated turn lanes and pedestrian crossing.

The contingency amount is proposed to be 7% of the contract amount. The work includes excavation and dewatering on a Parcel with known soil and water contamination, and numerous utility relocations. This project is also a one season contract, with fixed limits. Adjusting limits to offset quantity overruns is not practical. Phased construction and utility relocations under high traffic volumes also increases the risk of overruns.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and that the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is 80% federal funds with 20% state match. Turnpike toll credit is being utilized for match requirements, effectively using 100% federal funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

David J. Brillhart, P.E.  
Acting Commissioner

**October 29, 2014****SUPPLEMENTAL PROJECT INFORMATION SHEET**

**DESCRIPTION:** The project is a safety improvement at the US 3 / Bow Lane / Pembroke Hill Road intersection. The project begins on US 3, approximately 600' south of Pembroke Hill Rd, and extends north approximately 1,600' to a point approximately 290' north of Donna Drive. Work on Pembroke Hill Rd extends approximately 500' northeast of US 3, to Pearly Ave. Work on Bow Lane extends approximately 450' southwest of US 3. The project will widen US 3, construct left turn lanes, and signalize the intersection. Bow Lane will be reconstructed and relocated opposite Pembroke Hill Rd. The project also involves construction of curb and sidewalk on the west side of US 3, rehabilitation of sidewalks on the east side of US 3 and on Pembroke Hill Rd, modifications to guardrail and drainage, and overlay of US 3. Utility work includes adjustments to Town sewer manholes and relocation of gas, Town water, and aerial facilities.

**FEDERAL FUNDING:** 80% Federal Funding with Turnpike Toll Credits use anticipated for State's 20% match

**CONTINGENCY:** The contingency amount is proposed to be 7% of the contract amount or \$86,800. The work includes excavation and dewatering on a Parcel with known soil and water contamination, and numerous utility relocations. This project is also a one season contract, with fixed limits. Adjusting limits to offset quantity overruns is not practical. Phased construction and utility relocations under high traffic volumes also increases the risk of overruns.

**PROJECT INITIATED:** State 10-Year Transportation Improvement Program

**PROJECT EXPLANATION:** This project is a safety improvement intended to address difficult egress from Pembroke Hill Road onto US 3 due to high traffic volumes on US 3. This problem is particularly pronounced during the AM peak hour when there is high traffic, including school buses, exiting Pembroke Hill Road. The Bow Lane intersection is only 120 feet to the south of the Pembroke Hill Road intersection, and experiences similar difficulty accessing US 3. Numerous crashes, including a fatality, have occurred at the intersection.

**TRAFFIC IMPLICATIONS:** Two way traffic will be maintained on US 3 for the majority of the work. One lane, alternating two-way traffic will be required for some operations on US 3, Pembroke Hill Rd, and Bow Lane. Lane closures will not be allowed on US 3 during peak commuting hours. Lane closures on Pembroke Hill Rd will not be allowed during school drop off and pickup periods. Sidewalk rehabilitation on US 3 and Pembroke Hill Rd will be done while school is out of session.
