

THE STATE OF NEW HAMPSHIRE
DEPARTMENT OF TRANSPORTATION

JEFF BRILLHART, P.E.
ACTING COMMISSIONER

Bureau of Construction
March 27, 2015

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with R.M. Piper, Inc. (Vendor 174180) of Plymouth, NH on the basis of a low bid of \$1,110,303.55 for construction of a single lane roundabout at the intersection of NH Route 12, Lake Street, and Swanzey Factory Road in Swanzey, from the date of Governor and Council approval through October 9, 2015 unless extended by the Department in accordance with the Standard Specifications. 100% Federal Funds.

Funding is available as follows for FY 2015 and is contingent upon the availability and continued appropriation of FY 2016 funds.

Funding is available as follows:	<u>FY 2015</u>	<u>FY 2016</u>
04-96-96-963515-3054		
Consolidated Federal Aid		
400-500870 Highway Contract Payments	\$50,000.00	\$1,060,303.55

2. Further authorize that a contingency in the amount of \$111,030.36 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 10% of the contract amount.

Funding is available as follows:	<u>FY 2015</u>
04-96-96-963515-3054	
Consolidated Federal Aid	
400-500870 Highway Contract Payments	\$111,030.36

EXPLANATION

This project is part of the annual Highway Safety Improvement Program (HSIP). The intent of this project is to reduce crashes and the severity of crashes through the construction of a roundabout at the intersection. NH Route 12 is a north-south commuter route between Troy, NH/ Northern Massachusetts, and Keene, NH. Lake Street and Swanzey Factory Road act as shortcuts between NH Route 101 and NH Route 32. Heavy traffic volume along NH Route 12 during the peak hours makes exiting the side streets difficult. The wide shoulders on NH Route 12 encourage through vehicles to bypass vehicles waiting to turn left, creating near misses with vehicles waiting on the side streets. In addition to the intersection safety concerns, the pavement on NH Route 12, Lake Street and Swanzey Factory Road is experiencing thermal cracking and longitudinal cracking. NH Route 12 was last resurfaced in 2002; Lake Street and Swanzey Factory Road, both State maintained roads, were last resurfaced in 1999.

The contingency amount is proposed to be 10% of the contract amount. Work in close proximity to underground utilities, and environmental concerns, including asbestos cement pipe removal, will increase the risk of overruns.

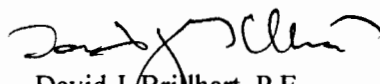

Although the bid costs exceeded the Department's estimate, the low bid is felt to be reasonable for the work involved. The bid was competitive (3 bidders). The cost differences are incremental across numerous items and generally are attributed to the relatively compact size of the project. Readvertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and that the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is 90% federal funds with 10% state match. Turnpike toll credit is being utilized for match requirements, effectively using 100% federal funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

David J. Brillhart, P.E.
Acting Commissioner

DJB/md

Department Estimate:	\$ 938,670.21
Contract Amount:	\$ 1,110,303.55
Over Estimate:	\$ 171,633.34

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This project involves construction of a modern single lane roundabout at the intersection of NH Route 12, Lake Street, and Swanzey Factory Road in Swanzey. The project also involves reconstruction of approximately 600 feet of NH Route 12, 300 feet of Lake Street, and 300 feet of Swanzey Factory Road. The work also includes drainage work, sidewalk construction, and water line replacement.

FEDERAL FUNDING: Construction Funding is from the Highway Safety Improvement Program at 90% Federal and 10% State funding with Turnpike Toll Credits applied to the State funding.

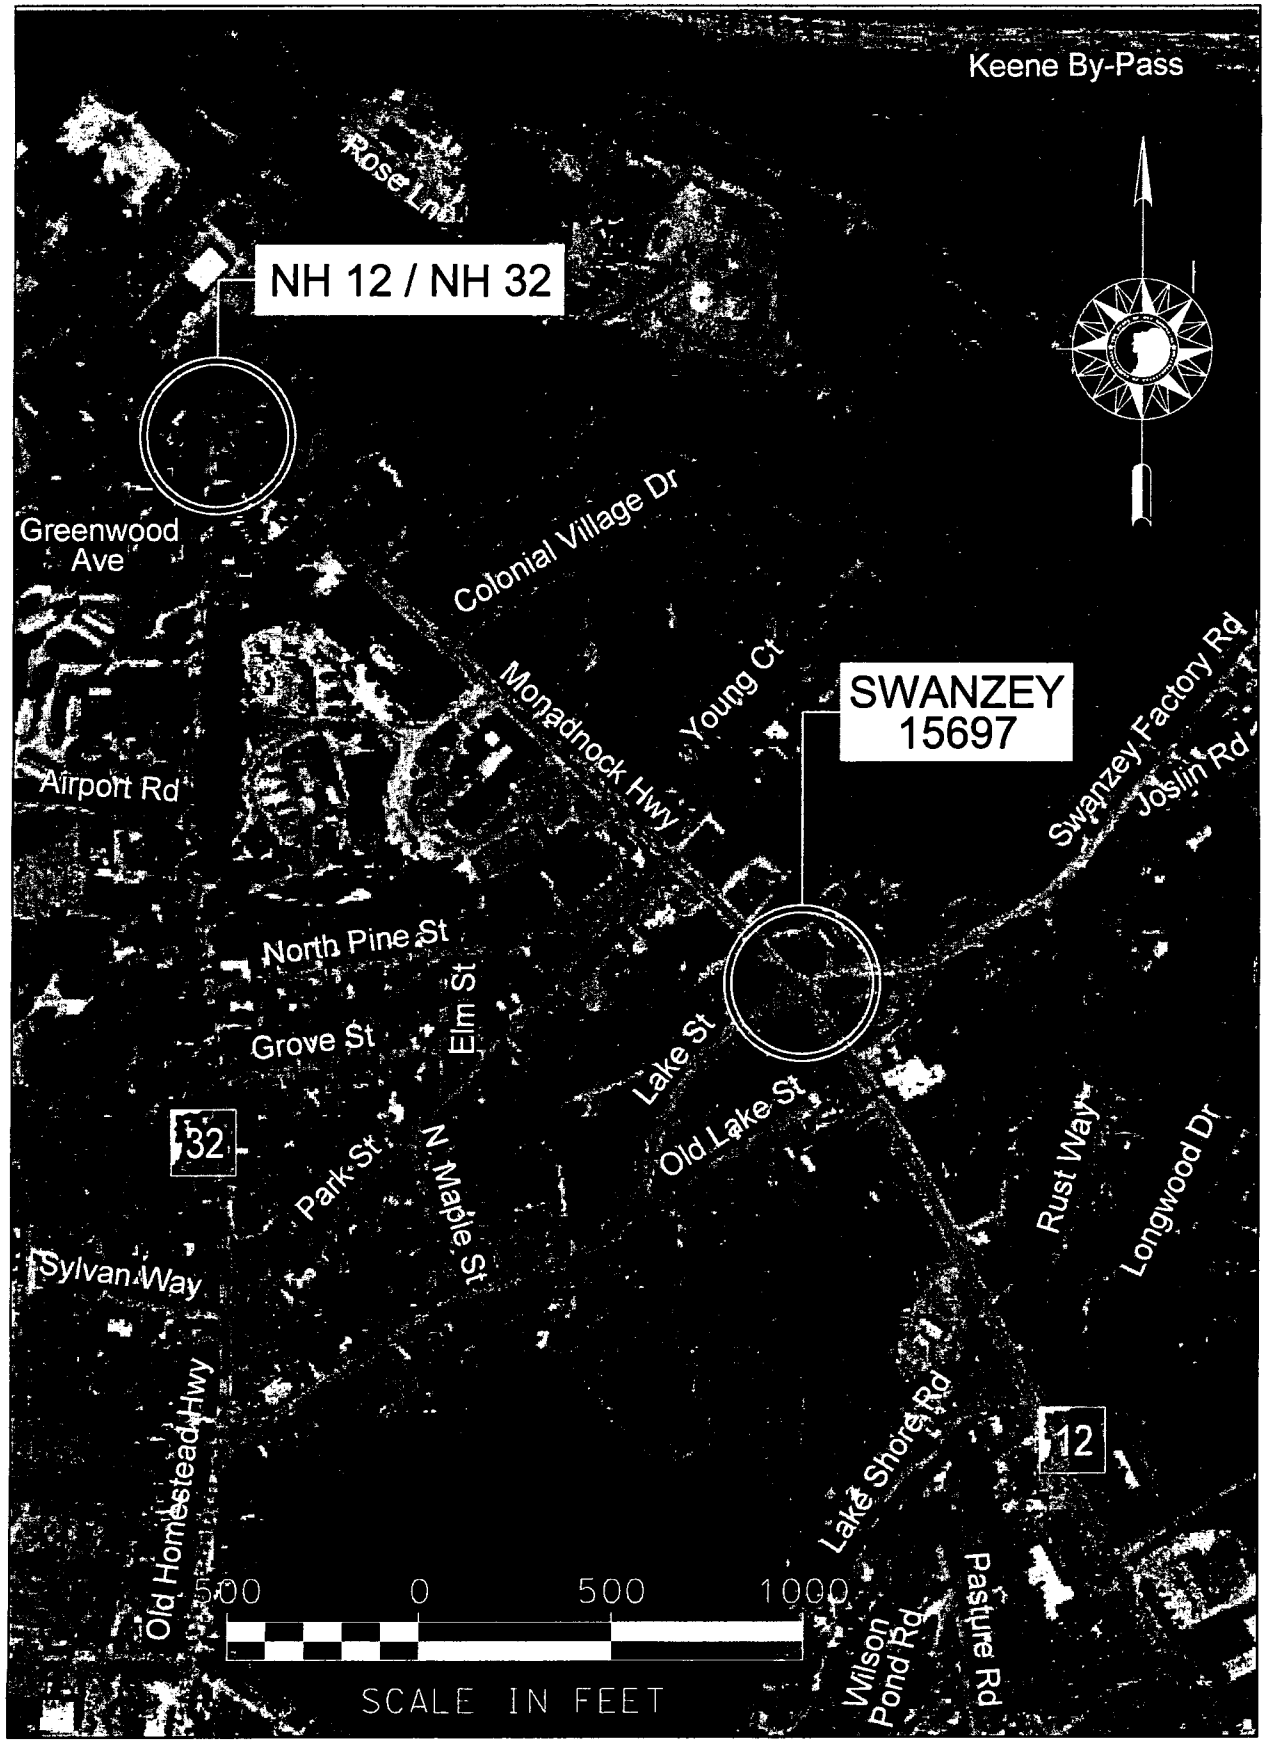

CONTINGENCY: The contingency amount is proposed to be approximately 10% of the contract amount. Work in close proximity to underground utilities, and environmental concerns, including asbestos cement pipe removal, will increase the risk of overruns.

PROJECT INITIATED: State's 10-Year Transportation Improvement Plan.

PROJECT EXPLANATION: This intersection was identified as a Highway Safety Improvement Program's (HSIP) 5% Report to be a location in need of safety improvements based on crash history. The intent of this project is to reduce crashes and the severity of crashes through the installation of a roundabout. NH Route 12 is a north-south commuter route between Troy, NH/ Northern Massachusetts, and Keene, NH. Lake Street and Swanzey Factory Road act as shortcuts between NH Route 101 and NH Route 32. Heavy traffic volume along NH Route 12 during the peak hours makes exiting the side streets difficult. The wide shoulders on NH Route 12 encourage through vehicles to bypass vehicles waiting to turn left, creating near misses with vehicles waiting on the side streets. In addition to the intersection safety concerns, the pavement on NH Route 12, Lake Street and Swanzey Factory Road is experiencing thermal cracking and longitudinal cracking. The project was originally constructed in the early 1970s. NH Route 12 was last resurfaced in 2002; Lake Street and Swanzey Factory Road, both State maintained roads, were last resurfaced in 1999.

TRAFFIC IMPLICATIONS: Phased construction including the use of a temporary road closure on Lake Street, and diversions on NH Route 12 and Swanzey Factory Road will be utilized to construct the roundabout. Short-term one-lane alternating two-way traffic will be permitted with the use of flaggers or Uniformed Officers to accommodate the remaining construction operations. Two-way traffic shall be maintained whenever possible and shall be restored prior to non-work hours. Daytime shoulder and lane closures will be allowed from 9 AM to 4 PM.

COMPLETION DATE: Friday, October 09, 2015
