

THE STATE OF NEW HAMPSHIRE
DEPARTMENT OF TRANSPORTATION

JEFF BRILLHART, P.E.
ACTING COMMISSIONER

Bureau of Construction
March 23, 2015

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with R.S. Audley, Inc. (Vendor 154222) of Bow, NH on the basis of a low bid of \$11,798,426.89 for the replacement of the existing red-listed bridge carrying I-95 over the Taylor River, in the Towns of Hampton Falls and Hampton, from the date of Governor and Council approval through May 18, 2018 unless extended by the Department in accordance with the Standard Specifications. 100% Turnpike Funds.

Funding is available as follows for FY 2015 and is contingent upon the availability and continued appropriation of FY 2016, FY 2017 and FY 2018 funds.

Funding is available as follows:	<u>FY 2015</u>	<u>FY 2016</u>	<u>FY 2017</u>	<u>FY 2018</u>
04-96-96-961017-7500				
Blue Star Memorial Turnpike				
400-500870 Highway Contract Payments \$	\$900,000	\$3,750,000	\$3,750,000	\$3,398,426.89

2. Further authorize that a contingency in the amount of \$353,952.81 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 3% of the contract amount and is reasonable for projects of this type.

Contingency Funding is available as follows:	<u>FY 2016</u>
04-96-96-961017-7500	
Blue Star Memorial Turnpike	
400-500870 Highway Contract Payments	\$353,952.81

EXPLANATION

This project is part of the Turnpike Capital Program. This project will replace the existing "red-list" I-95 bridge (Bridge priority #25) over the Taylor River in Hampton. The work involves replacing the existing 15' span x 205' long bridge with 2 new 72' span bridges (northbound and southbound). The work also involves repair to the existing fish ladder, connecting the new bridge to the existing spillway and minor spillway improvements to the Taylor River Pond dam. The work also includes a pavement overlay of approximately 1 mile along I-95 given traffic control phasing needs. The existing bridge was constructed in 1948, extended in 1973, and is in need of replacement. The existing fish ladder was constructed in the late 1960's and is in need of repair. The existing dam was constructed in 1950.

The contingency amount is proposed to be 3% of the contract amount. High traffic volumes, environmental concerns related to storm water management, and poor soils will increase the risk of overruns.

Although the bid costs exceeded the Department's estimate by approximately 2%, the bid was competitive (5 bidders) and the low bid is felt to be reasonable for the work involved. Readvertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

David J. Brillhart, P.E.
Acting Commissioner

DJB/md

Department Estimate: \$11,531,862.90

Contract Amount: \$11,798,426.89

Over Estimate: \$ 266,563.99

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This project is located in the Towns of Hampton Falls and Hampton along the Blue Star Turnpike (I-95) and involves replacement of the existing red-listed 8' high x 15' span x 205' long bridge that carries the Turnpike over the Taylor River. The existing bridge will be replaced with two 72' span bridges (one northbound and one southbound). As part of the bridge work, spillway improvements are required to connect the new bridge to the existing spillway. Minor repairs to the existing fish ladder are also included. The new bridges will be constructed in phases, while maintaining the existing four lanes of traffic in each direction on I-95, through the use of median traffic diversions. The project also includes the pavement overlay of approximately 4,950' for northbound along I-95, 4,150' for southbound along I-95, 1,500' for the northbound off ramp to the State of New Hampshire Liquor store, and 350' for the southbound on ramp from the State of New Hampshire Liquor store.

FEDERAL FUNDING: 0% (99% Turnpikes, 1% Other)

CONTINGENCY: The contingency amount is proposed to be approximately 3% of the contract amount. High traffic volumes, environmental concerns related to storm water management, and poor soils will increase the risk of overruns.

PROJECT INITIATED: State's 10-Year Transportation Improvement Plan

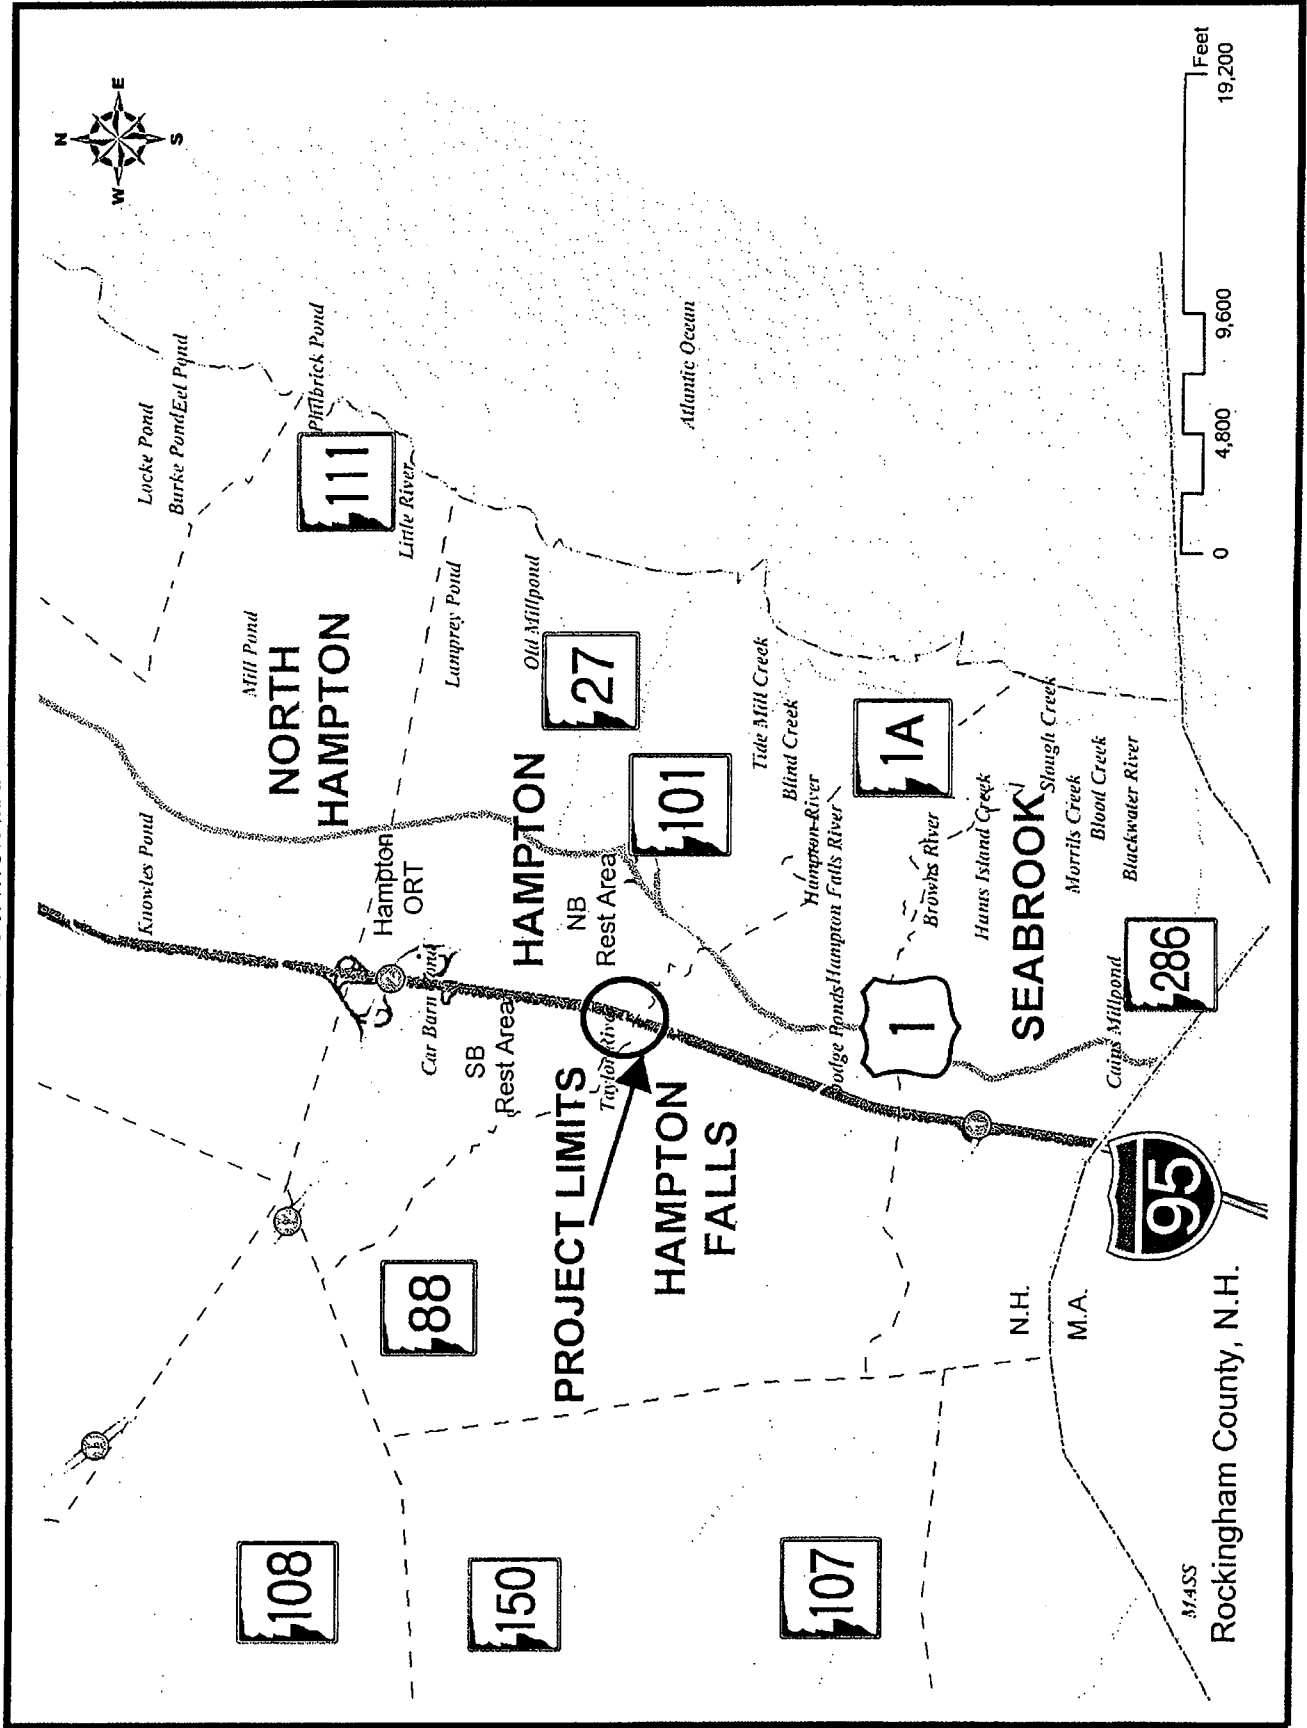

PROJECT EXPLANATION: This project will replace the existing "red-list" I-95 Bridge over the Taylor River in Hampton, repair the existing fish ladder, and complete minor spillway improvements to the Taylor River Pond dam. The existing bridge was constructed in 1948, extended in 1973, and is in need of replacement. The existing fish ladder was constructed in the late 1960's and is in need of repair. The existing dam was constructed in 1950.

TRAFFIC IMPLICATIONS: Four travel lanes (54' minimum paved width) in each direction will be maintained along the Blue Star Turnpike (I-95) with the following exception: temporary lane closures will be allowed for specific median access, cold planing, paving, and pavement marking operations. Lane closures will be discontinued whenever the Contract Administrator determines that the backups may contribute to either unsafe conditions or result in excessive delays for the traveling public. The bridge work will be constructed in 3 major phases, which will require the use of portable concrete barrier. This roadway is on the NETC Route, which will require minimum roadway widths to be maintained.

COMPLETION DATE: May 18, 2018

Hampton Falls - Hampton 13408B
