EXPLANATION

As part of the goals for the Wildlife Conservation and Restoration program, an effort to develop and implement an urban wildlife education program in Manchester through the Amoskeag Fishways began during the 2003-2004 school year. This program has been extremely successful. Specific materials for the program were developed at the outset. In the years since, well over one hundred programs have been delivered in Manchester elementary schools, as well as programs for Manchester-based youth organizations and adults.

The Amoskeag Fishways partnership consists of Eversource, The Audubon Society of New Hampshire, The United States Fish and Wildlife Service and the New Hampshire Fish and Game Department. This partnership exists through a Memorandum of Cooperation signed in 1995. The Amoskeag Fishways with the Audubon Society of New Hampshire as fiscal agent is a sole source. The Amoskeag Fishways has established itself as an education facility for Manchester and the surrounding area and is the only center that focuses on natural resources and natural resources management. They have done an outstanding job in designing and implementing this program.

Her Excellency, Governor Margaret Wood Hassan
And the Honorable Council

This is a sole source contract because the Amoskeag Fishways is the only organization with experience and qualifications to continue this highly-specialized urban focused education program. Reaching urban audiences is an important part of the Fish and Game Department's efforts to increase awareness, knowledge and support for the state's wildlife resources. This contract allows for continuation and expansion of wildlife-focused programs into the Manchester community.

This continual expenditure was approved by the Conservation License Plate Committee on June 14, 2005.
