EXPLANATION

This request is **sole source** because the Public Health Laboratories utilizes the Gen-Probe Hologic Luminometer 50 Equipment System, a complex and costly instrument system provided by Gen-Probe Sales and Service, Inc. In exchange for the use of the Hologic Luminometer 50 Equipment System, the associated reagent kits and supplies used to perform the testing for the disease tuberculosis (TB) and other mycobacteria species must by contract, be purchased through Gen-Probe Sales and Service, Inc. Gen-Probe Sales and Service, Inc. remains responsible for all necessary maintenance the system requires including any software updates as needed.

The purpose of this agreement is for the purchase of reagents and other consumable supplies in order to perform mycobacteria probe assays to distinguish Mycobacteria tuberculosis from other Mycobacteria species utilizing the Hologic Luminometer 50 Equipment System. This system can quickly diagnose tuberculosis and identify patients that should be kept in isolation to prevent the further spread of this infectious disease, or identify patients that can be safely taken off isolation which saves the high costs of hospitalization. Each State Fiscal Year during the term of the Agreement, the Laboratory will submit a requisition to the Department of Administrative Services, and a Purchase Order will be issued, which allows for ordering reagents and supplies as needed throughout each State Fiscal Year.

Gen-Probe Sales and Service has been providing the instrument and upgrades for the Hologic Luminometer 50 Equipment System for over twenty-five years. The Public Health Laboratories is satisfied with the vendor's customer service, ease of ordering, the quality of the products, and the performance and maintenance of the instrument.

This agreement contains extension language that allows for the option to extend the contract for up to three (3) additional years contingent upon satisfactory delivery of services, available funding, agreement of both parties and approval of Governor and Executive Council.

Should the Governor and Executive Council not approve this request, the Public Health Laboratories would no longer have use of the Hologic Luminometer Equipment System provided by Gen-Probe to conduct laboratory tests. Therefore, the Public Health Laboratories would be required to purchase an expensive replacement system as well as a service and maintenance agreement which would increase the cost of laboratory services.

Area Served: Statewide

Source of Funds: 59% Federal Funds, 41% General Funds

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.
