1. The Contractor's maximum yearly-authorized amount for preventive child care dollars is $20,000. Preventive child care shall not be authorized in excess of the standard rate. (see page 2 of this Exhibit).

   1.1 Out of this maximum yearly amount, for those families that the Contractor determines should receive preventive child care, the Contractor shall authorize no more than twelve weeks of child care services at a time.

   1.2 The Contractor shall maintain utilization data that includes the family's name and authorized amounts; this information shall accompany the Contractor's billing invoice submitted to DCYF on a monthly basis.

2. To access the preventive child care service, the Contractor shall identify an appropriate provider.

   2.1 The Contractor shall contact the designated DCYF preventive child care Provider Relations Specialist to authorize the family's enrollment into this service and provide the Specialist with the required family and provider contact information necessary to complete the authorization process through NH Bridges, by utilizing form 2096 (See Exhibit A-2) .

Notwithstanding anything to the contrary contained herein the covenants and conditions contained in the Paragraph shall survive the termination of the Contract for any reason whatsoever.

11. **Reports:** Fiscal and Statistical: The Contractor agrees to submit the following reports at the following times if requested by the Department.

Interim Financial Reports: Written interim financial reports containing a detailed description of all costs and non-allowable expenses incurred by the Contractor to the date of the report and containing such other information as shall be deemed satisfactory by the Department to justify the rate of payment hereunder. Such Financial Reports shall be submitted on the form designated by the Department or deemed satisfactory by the Department.
    11.2. Final Report: A final report shall be submitted within thirty (30) days after the end of the term of this Contract. The Final Report shall be in a form satisfactory to the Department and shall contain a summary statement of progress toward goals and objectives stated in the Proposal and other information required by the Department.

12. **Completion of Services:** Disallowance of Costs: Upon the purchase by the Department of the maximum number of units provided for in the Contract and upon payment of the price limitation hereunder, the Contract and all the obligations of the parties hereunder (except such obligations as, by the terms of the Contract are to be performed after the end of the term of this Contract and/or survive the termination of the Contract) shall terminate, provided however, that if, upon review of the Final Expenditure Report the Department shall disallow any expenses claimed by the Contractor as costs hereunder the Department shall retain the right, at its discretion, to deduct the amount of such expenses as are disallowed or to recover such sums from the Contractor.

If any governmental license or permit shall be required for the operation of the said facility or the performance of the said services, the Contractor will procure said license or permit, and will at all times comply with the terms and conditions of each such license or permit. In connection with the foregoing requirements, the Contractor hereby covenants and agrees that, during the term of this Contract the facilities shall comply with all rules, orders, regulations, and requirements of the State Office of the Fire Marshal and the local fire protection agency, and shall be in conformance with local building and zoning codes, by-laws and regulations.

16. **Subcontractors:** DHHS recognizes that the Contractor may choose to use subcontractors with greater expertise to perform certain health care services or functions for efficiency or convenience, but the Contractor shall retain the responsibility and accountability for the function(s). Prior to

subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

When the Contractor delegates a function to a subcontractor, the Contractor shall do the following:

16.1. Evaluate the prospective subcontractor's ability to perform the activities, before delegating the function

16.3. Monitor the subcontractor's performance on an ongoing basis

16.4. Provide to DHHS an annual schedule identifying all subcontractors, delegated functions and responsibilities, and when the subcontractor's performance will be reviewed

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

Act.

(3) Business Associate Use and Disclosure of Protected Health Information.

a. Business Associate shall not use, disclose, maintain or transmit Protected Health Information (PHI) except as reasonably necessary to provide the services outlined under Exhibit A of the Agreement. Further, Business Associate, including but not limited to all its directors, officers, employees and agents, shall not use, disclose, maintain or transmit PHI in any manner that would constitute a violation of the Privacy and Security Rule.

b. Business Associate may use or disclose PHI:
   I. For the proper management and administration of the Business Associate;
   II. As required by law, pursuant to the terms set forth in paragraph d. below; or
   III. For data aggregation purposes for the health care operations of Covered Entity.

c. To the extent Business Associate is permitted under the Agreement to disclose PHI to a third party, Business Associate must obtain, prior to making any such disclosure, (i) reasonable assurances from the third party that such PHI will be held confidentially and used or further disclosed only as required by law or for the purpose for which it was disclosed to the third party; and (ii) an agreement from such third party to notify Business Associate, in accordance with the HIPAA Privacy, Security, and Breach Notification Rules of any breaches of the confidentiality of the PHI, to the extent it has obtained knowledge of such breach.

d. The Business Associate shall not, unless such disclosure is reasonably necessary to provide services under Exhibit A of the Agreement, disclose any PHI in response to a request for disclosure on the basis that it is required by law, without first notifying Covered Entity so that Covered Entity has an opportunity to object to the disclosure and to seek appropriate relief. If Covered Entity objects to such disclosure, the Business

Associate shall refrain from disclosing the PHI until Covered Entity has exhausted all remedies.

e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

(3) Obligations and Activities of Business Associate.

a. The Business Associate shall notify the Covered Entity's Privacy Officer immediately after the Business Associate becomes aware of any use or disclosure of protected health information not provided for by the Agreement including breaches of unsecured protected health information and/or any security incident that may have an impact on the protected health information of the Covered Entity.

b. The Business Associate shall immediately perform a risk assessment when it becomes aware of any of the above situations. The risk assessment shall include, but not be limited to:

- The nature and extent of the protected health information involved, including the types of identifiers and the likelihood of re-identification;
- The unauthorized person used the protected health information or to whom the disclosure was made;
- Whether the protected health information was actually acquired or viewed
- The extent to which the risk to the protected health information has been mitigated.

The Business Associate shall complete the risk assessment within 48 hours of the breach and immediately report the findings of the risk assessment in writing to the Covered Entity.

c. The Business Associate shall comply with all sections of the Privacy, Security, and Breach Notification Rule.

d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.

e. Business Associate shall require all of its business associates that receive, use or have access to PHI under the Agreement, to agree in writing to adhere to the same restrictions and conditions on the use and disclosure of PHI contained herein, including the duty to return or destroy the PHI as provided under Section 3 (l). The Covered Entity shall be considered a direct third party beneficiary of the Contractor's business associate agreements with Contractor's intended business associates, who will be receiving PHI

pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard Paragraph #13 of the standard contract provisions (P-37) of this Agreement for the purpose of use and disclosure of protected health information.

f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

g. Within ten (10) business days of receiving a written request from Covered Entity, Business Associate shall provide access to PHI in a Designated Record Set to the Covered Entity, or as directed by Covered Entity, to an individual in order to meet the requirements under 45 CFR Section 164.524.

h. Within ten (10) business days of receiving a written request from Covered Entity for an amendment of PHI or a record about an individual contained in a Designated Record Set, the Business Associate shall make such PHI available to Covered Entity for amendment and incorporate any such amendment to enable Covered Entity to fulfill its obligations under 45 CFR Section 164.526.

i. Business Associate shall document such disclosures of PHI and information related to such disclosures as would be required for Covered Entity to respond to a request by an individual for an accounting of disclosures of PHI in accordance with 45 CFR Section 164.528.

j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.

l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) **Obligations of Covered Entity**

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.

c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) **Termination for Cause**

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) **Miscellaneous**

a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.

c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.

d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) I, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

IN WITNESS WHEREOF, the parties hereto have duly executed this Exhibit I.

FINANCIAL STATEMENTS

June 30, 2017 and 2016

With Independent Auditor's Report

BerryDunn

INDEPENDENT AUDITOR'S REPORT

Board of Directors
Families First of the Greater Seacoast

We have audited the accompanying financial statements of Families First of the Greater Seacoast, which comprise the balance sheets as of June 30, 2017 and 2016, and the related statements of operations, changes in net assets and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Families First of the Greater Seacoast as of June 30, 2017 and 2016, and the results of its operations, changes in its net assets and its cash flows for the years then ended, in accordance with U.S. generally accepted accounting principles.

Emphasis-of-Matter

As discussed in Note 1 to the financial statements under the heading s*ubsequent events*, Families First of the Greater Seacoast is anticipated to merge into Goodwin Community Health effective January 1, 2018.

1. Summary of Significant Accounting Policies

Organization

Families First of the Greater Seacoast (Organization) is a non-stock, not-for-profit corporation organized in New Hampshire. The Organization is a Federally Qualified Health Center (FQHC) which provides comprehensive medical and family support services, including primary care, dental, well child care, substance abuse counseling, parenting education, and home visitation programs to residents of the Seacoast region (New Hampshire and Maine).

Income Taxes

The Organization is a public charity under Section 501(c)(3) of the Internal Revenue Code. As a public charity, the Organization is exempt from state and federal income taxes on income earned in accordance with its tax-exempt purpose. Unrelated business income is subject to state and federal income tax. Management has evaluated the Organization's tax positions and concluded that the Organization has no unrelated business income or uncertain tax positions that require adjustment to the financial statements.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents consist of demand deposits and petty cash funds and exclude amounts whose use is limited by Board designation or donor-imposed restrictions.

Allowance for Uncollectible Accounts

Patient accounts receivable are stated at the amount management expects to collect from outstanding balances. Patient accounts receivable are reduced by an allowance for uncollectible accounts. In evaluating the collectibility of patient accounts receivable, the Organization analyzes its past history and identifies trends for each funding source. Management regularly reviews data about revenue in evaluating the sufficiency of the allowance for uncollectible accounts. Amounts not collected after all reasonable collection efforts have been exhausted are applied against the allowance for uncollectible accounts. The Organization has not changed its methodology for estimating the allowance for uncollectible accounts.

A reconciliation of the allowance for uncollectible accounts at June 30 is as follows:

	2017	2016
Balance, beginning of year	$ 62,155	$ 54,489
Provision	59,565	63,508
Write-offs	(48,862)	(55,842)
Balance, end of year	$ 72,858	$ 62,155

Grants Receivable

Grants receivable are stated at the amount management expects to collect from outstanding balances. All such amounts are considered collectible.

Investments

The Organization reports investments at fair value. Investments include donor endowment funds and board-designated assets. Accordingly, investments have been classified as non-current assets on the accompanying balance sheet regardless of maturity or liquidity. The Organization has established policies governing long-term investments, which are held within several investment accounts, based on the purposes for those investment accounts and their earnings.

Investment income and the change in fair value are included in the (deficit) excess of revenue over expenses, unless otherwise stipulated by the donor or State Law.

Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. As such, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the balance sheets.

Investment in Limited Liability Company

The Organization is one of eight members who have each made a capital contribution of $500 to Primary Health Care Partners, LLC (PHCP) during 2015. The Organization's investment in PHCP is reported using the equity method and the investment amounted to $20,298 and $16,204 at June 30, 2017 and 2016, respectively.

Assets Limited As To Use

Assets limited as to use include assets designated by the Board of Directors for future use and donor-restricted contributions to be held in perpetuity.

Property and Equipment

Property and equipment acquisitions are recorded at cost. Depreciation is provided over the estimated useful life of each class of depreciable asset and is computed on the straight-line method.

Gifts of long-lived assets, such as land, buildings, or equipment, are reported as unrestricted net assets and excluded from the (deficit) excess of revenue over expenses unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as temporarily restricted net assets. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Patient Deposits

Patient deposits consist of payments made by patients in advance of significant dental work based on quotes for the work to be performed.

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets include contributions and grants for which donor-imposed restrictions have not been met. Assets are released from restrictions as expenditures are made in line with restrictions called for under the terms of the donor.

Permanently restricted net assets have been restricted by donors to be maintained by the Organization in perpetuity, the income of which is primarily available for operations.

Patient Service Revenue

Patient service revenue is reported at the estimated net realizable amounts from patients, third-party payers, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payers. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

Charity Care

The Organization provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Organization does not pursue collection of amounts determined to qualify as charity care, they are not reported as net patient service revenue.

Donated Goods and Services

Various program help and support for the daily operations of the Organization's programs were provided by the general public of the communities served by the Organization. Donated supplies and services are recorded at their estimated fair values on the date of receipt. Donated supplies and services amounted to $329,396 and $294,007 for the years ended June 30, 2017 and 2016, respectively.

Donor-Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statements of operations as "net assets released from restrictions."

Promises to Give

Unconditional promises to give that are expected to be collected in future years are recorded at the present value of their estimated future cash flows. Given the short term nature of the pledges, they are not discounted and no reserve for uncollectible pledges has been established. Conditional promises to give are not included as support until the conditions are substantially met.

Functional Expenses

The Organization provides various services to residents within its geographic location. Expenses related to providing these services are as follows:

	2017	2016
Program services	**$ 5,793,757**	$ 5,202,419
Administrative and general	**603,067**	621,430
Fundraising	**152,842**	156,959
Total	**$ 6,549,666**	$ 5,980,808

(Deficit) Excess of Revenue Over Expenses

The statements of operations reflect the (deficit) excess of revenue over expenses. Changes in unrestricted net assets which are excluded from the (deficit) excess of revenue over expenses, consistent with industry practice, include contributions of long-lived assets (including assets acquired using contributions which, by donor restriction, were to be used for the purposes of acquiring such assets).

Subsequent Events

For purposes of the preparation of these financial statements, management has considered transactions or events occurring through December 13, 2017, the date that the financial statements were available to be issued. Management has not evaluated subsequent events after that date for inclusion in the financial statements.

In accordance with a Board-approved merger agreement dated August 1, 2017 and a plan of merger dated November 8, 2017, the operations of the Organization will merge into Goodwin Community Health on January 1, 2018. Goodwin Community Health will be the surviving entity with the new legal business name of Greater Seacoast Community Health. The Organization is awaiting written approval of the proposed merger from the Health Resources Services Administration.

Fair Value of Financial Instruments

Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) Topic 820, *Fair Value Measurement*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants and also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The fair value hierarchy within FASB ASC Topic 820 distinguishes three levels of inputs that may be utilized when measuring fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The following table sets forth by level, within the fair value hierarchy, the Organization's investments at fair value:

	Investments at Fair Value as of June 30, 2017			
	Level 1	Level 2	Level 3	Total
Money market funds	$ 6,461	-	-	6,461

Investment income	$ 5,916	$ 3,057
Change in fair value of investments	14,337	(5,851)

Change in fair value of investments	118,828	(46,053)
Total	$ 172,276	$ (23,660)

3. Pledges Receivable

Pledges receivable consisted of the following:

	2017	2016
Scheduled amounts due in:		
Less than one year	$ 245,354	$ 197,507

Pledges receivable have not been discounted as the amount is not material to the financial statements as a whole. The Organization believes all pledges are fully collectible.

4. Property and Equipment

Property and equipment consisted of the following:

	2017	2016
Leasehold improvements	$ 224,204	$ 179,031
Furniture, fixtures, and equipment	1,098,656	1,037,550

Less accumulated depreciation	(747,901)	(643,115)

5. Line of Credit

The Organization has a $250,000 line of credit with a local bank through May 2018. The line of credit is collateralized by accounts receivable. The interest rate at June 30, 2017 was 4.25%. There was no outstanding balance at June 30, 2017 and 2016.

6. Temporarily and Permanently Restricted Net Assets

Temporarily and permanently restricted net assets consisted of the following:

	2017	2016
Temporarily restricted

Total temporarily restricted	**$ 640,418**	$ 469,319
Permanently restricted		
Endowment	**$ 1,227,950**	$ 1,200,687

7. Endowments

Interpretation of Relevant Law

The Organization's endowments primarily consist of an investment portfolio managed by the Investment Sub-Committee. As required by U.S. GAAP, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

The Organization has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds, absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization classifies as a donor-restricted endowment (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent donor-restricted endowment gifts and (c) accumulations to the donor-restricted endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund, if any, is classified as temporarily restricted net assets until those amounts are appropriated for expenditure in a manner consistent with the standard of prudence prescribed by UPMIFA.

In accordance with UPMIFA, the Organization considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

(1) The duration and preservation of the fund;
(2) The purposes of the Organization and the donor-restricted endowment fund;
(3) General economic conditions;
(4) The possible effect of inflation and deflation;
(5) The expected total return from income and the appreciation of investments;
(6) Other resources of the Organization; and
(7) The investment policies of the Organization.

Spending Policy

The Organization has a policy of appropriating for expenditure an amount equal to 5% of the endowment fund's average fair market value over the prior 20 quarters. The earnings on the endowment fund are to be used for operations.

Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor requires the Organization to retain as a fund of perpetual duration. There were no such deficiencies as of June 30, 2017 and 2016.

Return Objectives and Risk Parameters

The Organization has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the Organization must hold in perpetuity. Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended to produce results that exceed or meet designated benchmarks while incurring a reasonable and prudent level of investment risk.

Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, the Organization relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Organization targets a diversified asset allocation that places a balanced emphasis on equity-based and income-based investments to achieve its long-term return objectives within prudent risk constraints.

Endowment Net Asset Composition by Type of Fund

The endowment net asset composition by type of fund is as follows:

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
2017				
Donor-restricted endowment funds	$ -	$ 257,478	$ 1,227,950	$ 1,485,428
2016				
Donor-restricted endowment funds	$ -	$ 176,247	$ 1,200,687	$ 1,376,934

The Organization had the following endowment-related activities:

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Endowment net assets, June 30, 2015	$ -	$ 267,234	$ 1,200,687	$ 1,467,921

8. Patient Service Revenue

Patient service revenue follows:

	2017	2016
Medicare	**$ 263,092**	$ 267,336
Medicaid	**1,489,762**	1,595,264
Third-party payers and private pay	**816,211**	764,525
Total patient service revenue	**$ 2,569,065**	$ 2,627,125

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. The Organization believes that it is in compliance with all laws and regulations. Compliance with such laws and regulations can be subject to future government review and interpretation, as well as significant regulatory action including fines, penalties and exclusion from the Medicare and Medicaid programs. Differences between amounts previously estimated and amounts subsequently determined to be recoverable or payable are included in patient service revenue in the year that such amounts become known.

A summary of the payment arrangements with major third-party payers follows:

Medicare

The Organization is reimbursed for the medical care of qualified patients on a prospective basis, with retroactive settlements related to vaccine costs only. The prospective payment is based on a geographically-adjusted rate determined by Federal guidelines. Overall, reimbursement is subject to a maximum allowable rate per visit. The Organization's Medicare cost reports have been audited by the Medicare administrative contractor through June 30, 2016.

Medicaid and Other Payers

The Organization also has entered into payment agreements with Medicaid and certain commercial insurance carriers, health maintenance organizations and preferred provider organizations. The basis for payment to the Organization under these agreements includes prospectively-determined rates per visit, discounts from established charges and capitated arrangements for primary care services on a per-member, per-month basis.

The Organization provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. The Organization estimates the costs associated with providing charity care by calculating the ratio of total cost to total charges, and then multiplying that ratio by the gross uncompensated charges associated with providing care to patients eligible for free care. The estimated cost of providing services to patients under the Organization charity care policy amounted to approximately $1,355,000 and $1,222,000 for the years ended June 30, 2017 and 2016, respectively.

The Organization is able to provide these services with a component of funds received through local community support and federal and state grants.

9. Retirement Plan

The Organization has a defined contribution plan under Internal Revenue Code Section 401(k) that covers substantially all employees. Employer discretionary contributions are funded at a percentage of eligible employees' salaries. The Organization contributed $94,241 for the year ended June 30, 2016. The Organization did not incur expenses under the plan for the year ended June 30, 2017.

10. Concentration of Risk

The Organization receives a significant amount of grants from the U.S. Department of Health and Human Services (DHHS). As with all government funding, these grants are subject to reduction or termination in future years. For the years ended June 30, 2017 and 2016, grants from DHHS (including both direct awards and awards passed through other organizations) represented approximately 85% of grants and contracts.

The Organization grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payer agreements. The mix of medical patient service revenue receivables from patients and third-party payers was as follows as of June 30:

	2017	2016
Medicare	14 %	15 %
Medicaid	38 %	45 %
Other	48 %	40 %
	100 %	100 %

11. Commitments and Contingencies

Medical Malpractice Insurance

The Organization is protected from medical malpractice risk as an FQHC under the Federal Tort Claims Act (FTCA). The Organization has additional medical malpractice insurance, on a claims-made basis, for coverage outside the scope of the protection of the FTCA. As of the year ended June 30, 2017, there were no known malpractice claims outstanding which, in the opinion of management, will be settled for amounts in excess of both FTCA and additional medical malpractice insurance coverage, nor are there any unasserted claims or incidents which require loss accrual. The Organization intends to renew the additional medical malpractice insurance coverage on a claims-made basis and anticipates that such coverage will be available.

Leases

The Organization leases office space and certain other office equipment under noncancelable operating leases. Future minimum lease payments under these leases are as follows:

2018	$ 172,023
2019	88,212
Total	$ 260,235

Rental expense amounted to $151,271 and $142,017 for the years ended June 30, 2017 and 2016, respectively. Rent expense includes a charge per square foot for utilities and housekeeping services.

We have audited the accompanying financial statements of Goodwin Community Health (the Organization), which comprise the balance sheet as of June 30, 2017, and the related statements of operations and changes in net assets and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Goodwin Community Health as of June 30, 2017, and the results of its operations, changes in its net assets and its cash flows for the year then ended, in accordance with U.S. generally accepted accounting principles.

1. Summary of Significant Accounting Policies

Organization

Goodwin Community Health (the Organization) is a non-stock, not-for-profit corporation organized in New Hampshire. The Organization is a Federally Qualified Health Center (FQHC) which provides prenatal care, social support, and public health services to low-income persons.

Income Taxes

The Organization is a public charity under Section 501(c)(3) of the Internal Revenue Code. As a public charity, the Organization is exempt from state and federal income taxes on income earned in accordance with its tax-exempt purpose. Unrelated business income is subject to state and federal income tax. Management has evaluated the Organization's tax positions and concluded that the Organization has no unrelated business income or uncertain tax positions that require adjustment to the financial statements.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents consist of demand deposits and petty cash funds.

Allowance for Uncollectible Accounts

Patient accounts receivable are stated at the amount management expects to collect from outstanding balances. Patient accounts receivable are reduced by an allowance for uncollectible accounts. In evaluating the collectability of patient accounts receivable, the Organization analyzes its past history and identifies trends for each funding source. Management regularly reviews data about revenue in evaluating the sufficiency of the allowance for uncollectible accounts. Amounts not collected after all reasonable collection efforts have been exhausted are applied against the allowance for uncollectible accounts.

A reconciliation of the allowance for uncollectible accounts at June 30, 2017 follows:

Balance, beginning of year	$ 128,995
Provision	365,013
Write-offs	(290,776)
Balance, end of year	$ 203,232

The increase in the allowance is primarily due to an increase in the amount due from patients with commercial insurance as a result of increased deductibles and co-pays.

Grants Receivable

Grants receivable are stated at the amount management expects to collect from outstanding balances. All such amounts are considered collectible.

Inventory

Inventory consisting of pharmaceutical drugs is valued first-in, first-out method and is measured at the lower of cost or market.

Investments

The Organization reports investments at fair value and has elected to report all gains and losses in the excess of revenues over expenses to simplify the presentation of these amounts in the statement of operations. Investments include board-designated assets for future operations and other purposes as identified by the Board of Directors. Accordingly, investments have been classified as non-current assets on the accompanying balance sheet regardless of maturity or liquidity. The Organization has established policies governing long-term investments.

Investment income and the change in fair value are included in the excess of revenue over expenses, unless otherwise stipulated by the donor or State Law.

Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. As such, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the balance sheet.

Investment in Limited Liability Company

The Organization is one of eight members who have each made a capital contribution of $500 to Primary Health Care Partners, LLC (PHCP) during 2015. The Organization's investment in PHCP is reported using the equity method and the investment amounted to $20,298 at June 30, 2017.

Property and Equipment

Property and equipment acquisitions are recorded at cost. Depreciation is provided over the estimated useful life of each class of depreciable asset and is computed on the straight-line method.

Gifts of long-lived assets, such as land, buildings, or equipment, are reported as unrestricted net assets and excluded from the excess of revenues over expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as temporarily restricted net assets. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Patient Deposits

Patient deposits consist of payments made by patients in advance of significant dental work based on quotes for the work to be performed.

Patient Service Revenue

Patient service revenue is reported at the estimated net realizable amounts from patients, third-party payers, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payers. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

Charity Care

The Organization provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Organization does not pursue collection of amounts determined to qualify as charity care, they are not reported as net patient service revenue.

340B Drug Pricing Program

The Organization, as an FQHC, is eligible to participate in the 340B Drug Pricing Program. The program requires drug manufacturers to provide outpatient drugs to FQHC's and other identified entities at a reduced price. The Organization operates a pharmacy and also contracts with local pharmacies under this program. The local pharmacies dispense drugs to eligible patients of the Organization and bill Medicare and commercial insurances on behalf of the Organization. Reimbursement received by the contracted pharmacies is remitted to the Organization, less dispensing and administrative fees. Gross revenue generated from the program is included in patient service revenue. Contracted expenses and drug costs incurred related to the program are included in other operating expenses. Expenses related to the operation of the Organization's pharmacy are categorized in the applicable operating expense classifications.

Donor-Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of operations as "net assets released from restrictions." Donor-restricted contributions whose restrictions are met in the same year as received are reflected as unrestricted contributions in the accompanying financial statements.

Functional Expenses

The Organization provides various services to residents within its geographic location. Expenses related to providing these services are as follows:

Program services	$ 8,756,283
Administrative and general	1,536,687
Fundraising	333,288
Total	$10,626,258

Excess of Revenue Over Expenses

The statement of operations reflects the excess of revenue over expenses. Changes in unrestricted net assets which are excluded from the excess of revenue over expenses, consistent with industry practice, include contributions of long-lived assets (including assets acquired using contributions which, by donor restriction, were to be used for the purposes of acquiring such assets).

Subsequent Events

For purposes of the preparation of these financial statements, management has considered transactions or events occurring through November 21, 2017, the date that the financial statements were available to be issued. Management has not evaluated subsequent events after that date for inclusion in the financial statements.

In accordance with a Board-approved merger agreement dated August 1, 2017 and a plan of merger dated November 8, 2017, the operations of Families First of the Greater Seacoast are anticipated to merge into the Organization on January 1, 2018. The Organization will be the surviving entity with the new legal business name of Greater Seacoast Community Health. The Organization is awaiting approval of the proposed merger by the State of New Hampshire and Health Resources Services Administration.

2. Investments and Fair Value Measurement

Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) Topic 820, *Fair Value Measurement*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants and also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

The fair value hierarchy within FASB ASC Topic 820 distinguishes three levels of inputs that may be utilized when measuring fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The following table sets forth by level, within the fair value hierarchy, the Organization's investments at fair value measured on a recurring basis:

	Investments at Fair Value as of June 30, 2017			
	Level 1	Level 2	Level 3	Total
Cash and cash equivalents	$ 270,317	$ -	$ -	$ 270,317
Municipal bonds	-	242,319	-	242,319
Exchange traded funds	228,280	-	-	228,280
Mutual funds	395,376	-	-	395,376
Total investments	$ 893,973	$ 242,319	$ -	$ 1,136,292

Municipal bonds are valued based on quoted market prices of similar assets.

3. Property and Equipment

Property and equipment consisted of the following at June 30, 2017:

Land	$ 718,427
Building and improvements	5,888,318
Furniture, fixtures, and equipment	1,552,983
Total cost	8,159,728
Less accumulated depreciation	2,155,141
Property and equipment, net	$ 6,004,587

The Organization's facility was built and renovated with federal grant funding under the ARRA - Capital Improvement Program and ACA - Capital Development Program. In accordance with the grant agreements, a Notice of Federal Interest (NFI) was required to be filed in the appropriate official records of the jurisdiction in which the property is located. The NFI is designed to notify any prospective buyer or creditor that the Federal Government has a financial interest in the real property acquired under the aforementioned grant; that the property may not be used for any purpose inconsistent with that authorized by the grant program statute and applicable regulations; that the property may not be mortgaged or otherwise used as collateral without the written permission of the Associate Administrator of the Office of Federal Assistance Management (OFAM) and the Health Resources and Services Administration (HRSA); and that the property may not be sold or transferred to another party without the written permission of the Associate Administrator of OFAM and HRSA.

4. Patient Service Revenue

Patient service revenue is as follows:

	Year ended June 30, 2017			
	Medical	Dental	Pharmacy	Total
Medicare	$ 726,055	$ -	$ 56,771	$ 782,826
Medicaid	2,146,149	387,028	137,237	2,670,414
Third-party payers and self pay	1,965,113	792,890	385,810	3,143,813
Total	4,837,317	1,179,918	579,818	6,597,053
Contracted pharmacy revenue	-	-	1,200,291	1,200,291
Total patient service revenue	$ 4,837,317	$ 1,179,918	$ 1,780,109	$ 7,797,344

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. The Organization believes that it is in compliance with all laws and regulations. Compliance with such laws and regulations can be subject to future government review and interpretation, as well as significant regulatory action including fines, penalties and exclusion from the Medicare and Medicaid programs. Differences between amounts previously estimated and amounts subsequently determined to be recoverable or payable are included in patient service revenue in the year that such amounts become known.

A summary of the payment arrangements with major third-party payers follows:

Medicare

The Organization is reimbursed for the medical care of qualified patients on a prospective basis, with retroactive settlements related to vaccine costs only. The prospective payment is based on a geographically-adjusted rate determined by Federal guidelines. Overall, reimbursement is subject to a maximum allowable rate per visit. The Organization's Medicare cost reports have been audited by the Medicare administrative contractor through June 30, 2016.

Medicaid and Other Payers

The Organization also has entered into payment agreements with Medicaid and certain commercial insurance carriers, health maintenance organizations and preferred provider organizations. The basis for payment to the Organization under these agreements includes prospectively-determined rates per visit, discounts from established charges and capitated arrangements for primary care services on a per-member, per-month basis.

The Organization provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. The Organization estimates the costs associated with providing charity care by calculating the ratio of total cost to total charges, and then multiplying that ratio by the gross uncompensated charges associated with providing care to patients eligible for free care. The estimated cost of providing services to patients under the Organization charity care policy amounted to approximately $479,000 for the year ended June 30, 2017.

The Organization is able to provide these services with a component of funds received through local community support and federal and state grants.

5. Retirement Plan

The Organization has a defined contribution plan under Internal Revenue Code Section 401(k) that covers substantially all employees. During 2017, contributions amounted to $107,862.

6. Food Vouchers

The Organization acts as a conduit for the State of New Hampshire's Special Supplemental Food Program for Women, Infants and Children (WIC). The value of food vouchers distributed by the Organization was $1,240,323 for the year ended June 30, 2017. These amounts are not included in the accompanying financial statements as they are not part of the contract the Organization has with the State of New Hampshire for the WIC program.

7. Concentration of Risk

The Organization has cash deposits in major financial institutions which exceed federal depository insurance limits. The financial institutions have a strong credit rating and management believes the credit risk related to these deposits is minimal.

The Organization grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payer agreements. At June 30, 2017, New Hampshire Medicaid represented 20%, and Medicare represented 18%, of gross accounts receivable. No other individual payer source exceeded 10% of the gross accounts receivable balance.

The Organization receives a significant amount of grants from the U.S. Department of Health and Human Services (DHHS). As with all government funding, these grants are subject to reduction or termination in future years. For the year ended June 30, 2017, grants from DHHS (including both direct awards and awards passed through other organizations) represented approximately 78% of grants, contracts, and contributions.

8. Malpractice Insurance

The Organization is protected from medical malpractice risk as an FQHC under the Federal Tort Claims Act (FTCA). The Organization has additional medical malpractice insurance, on a claims-made basis, for coverage outside the scope of the protection of the FTCA. As of June 30, 2017, there were no known malpractice claims outstanding which, in the opinion of management, will be settled for amounts in excess of both FTCA and insurance coverage, nor are there any unasserted claims or incidents which require loss accrual. The Organization intends to renew the additional medical malpractice insurance coverage on a claims-made basis and anticipates that such coverage will be available.

EXPLANATION

The purpose of this request is to renew contract services with these vendors for an additional two years. For a detailed summary of the changes please see attachment.

Comprehensive Family Support Services assist pregnant women and families with children up to the age of twenty-one (21) by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents to give families an opportunity to learn and grow.

The Division for Children, Youth and Families and the Division of Public Health Services have blended three family health and support related programs in to one program which is now represented as the Comprehensive Family Support Services.

Currently, there are twenty-five (25) community based family resource centers in operation across the State which provide a range of support services to families and children that focus on strengthening, supporting and building on the strengths and skills of individuals while also ensuring developmental screening for children six (6) and under. These centers are often key local stakeholders in groups that assess and advocate for the needs of local families.

The original contracts were competitively bid.

These contracts contain language which allows for the right to renew for up to four additional years based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

The Comprehensive Family Support Services program has served a total of 871 families and 1664 children in 2014. As a result, ninety-five percent (95%) of the families served achieved successful outcomes and remained uninvolved in a Division abuse or neglect case. The Division is satisfied with the services provided and is requesting approval to exercise two years of the renewal option reserving the Division's option to renew for the remaining two years based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

Should the Governor and Executive Council not authorize this request, the flexibility of community based family services may not be available to address the needs of children and families throughout the state which could cause an increase in the Division for Children, Youth and Families involvement for out of home placements. The services provided through these agreements help prevent separation of children from their families and afford them a safe, stable and supportive family environment.

FINANCIAL STATEMENTS

With Independent Auditor's Report

INDEPENDENT AUDITOR'S REPORT

Board of Directors
Families First of the Greater Seacoast

We have audited the accompanying financial statements of Families First of the Greater Seacoast, which comprise the balance sheet as of June 30, 2015, and the related statements of operations, changes in net assets, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Families First of the Greater Seacoast as of June 30, 2015, and the results of its operations, changes in its net assets and its cash flows for the year then ended, in accordance with U.S. generally accepted accounting principles.

1. Summary of Significant Accounting Policies

Organization

Families First of the Greater Seacoast (Organization) is a non-stock, not-for-profit corporation organized in New Hampshire. The Organization is a Federally Qualified Health Center (FQHC) which provides comprehensive medical and family support services, including primary care, dental, well child care, substance abuse counseling, parenting education, and home visitation programs to residents of the Seacoast (New Hampshire and Maine).

Income Taxes

The Organization is a public charity under Section 501(c)(3) of the Internal Revenue Code. As a public charity, the Organization is exempt from state and federal income taxes on income earned in accordance with its tax exempt purpose. Unrelated business income is subject to state and federal income tax. Management has evaluated the Organization's tax positions and concluded that the Organization has no unrelated business income or uncertain tax positions that require adjustment to the financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents consist of demand deposits and petty cash funds and exclude amounts whose use is limited by Board designation.

Patient Accounts Receivable

Patient accounts receivable are stated at the amount management expects to collect from outstanding balances. Patient accounts receivable are reduced by an allowance for uncollectible accounts. In evaluating the collectability of patient accounts receivable, the Organization analyzes its past history and identifies trends for each funding source. Management regularly reviews data about revenue in evaluating the sufficiency of the allowance for uncollectible accounts. Amounts not collected after all reasonable collection efforts have been exhausted are applied against the allowance for uncollectible accounts. The Organization has not changed its methodology for estimating the allowance for uncollectible accounts.

A reconciliation of the allowance for uncollectible accounts at June 30 is as follows:

	2015	2014
Balance, beginning of year	$ 51,984	$ 52,289
Provision	37,705	37,860
Write-offs	(35,200)	(38,165)
Balance, end of year	$ 54,489	$ 51,984

Investments

The Organization reports investments at fair value, and has elected to report all gains and losses in the excess (deficiency) of revenues over expenses to simplify the presentation of these amounts in the statement of operations. Investments include donor endowment funds and board designated assets. Accordingly, investments have been classified as non-current assets on the accompanying balance sheet regardless of maturity or liquidity. The Organization has established policies governing long-term investments, which are held within several investment accounts, based on the purposes for those investment accounts and their earnings.

Investment income and the recognized change in fair value are included in the excess (deficiency) of revenues over expenses unless otherwise stipulated by the donor or State Law.

Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. As such, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the balance sheets.

Assets Limited As To Use

Assets limited as to use include assets designated by the Board of Directors for future use and donor-restricted contributions to be held in perpetuity.

Property and Equipment

Property and equipment acquisitions are recorded at cost. Depreciation is provided over the estimated useful life of each class of depreciable asset and is computed on the straight-line method.

Gifts of long-lived assets such as land, buildings, or equipment are reported as unrestricted net assets, and excluded from the excess of revenues over expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as temporarily restricted net assets. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets include contributions and grants for which donor-imposed restrictions have not been met. Assets are released from restrictions as expenditures are made in line with restrictions called for under the terms of the donor.

Permanently restricted net assets have been restricted by donors to be maintained by the Organization in perpetuity, the income of which is primarily available for operations..

Patient Service Revenue

Patient service revenue is reported at the estimated net realizable amounts from patients, third-party payers, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payers. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

Charity Care

The Organization provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Organization does not pursue collection of amounts determined to qualify as charity care, they are not reported as net patient service revenue.

Donated Goods and Services

Various program help and support for the daily operations of the Organization's programs were provided by the general public of the communities served by the Organization. Donated supplies and services are recorded at their estimated fair values on the date of receipt. Donated supplies and services amounted to $147,044 and $265,395 for the years ended June 30, 2015 and 2014, respectively.

Donor-Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statements of operations as "net assets released from restrictions." Donor-restricted contributions whose restrictions are met in the same year as received are reflected as unrestricted contributions in the accompanying financial statements.

Promises to Give

Unconditional promises to give that are expected to be collected in future years are recorded at the present value of their estimated future cash flows. Given the short term nature of the pledges, they are not discounted and no reserve for uncollectible pledges has been established. Conditional promises to give are not included as support until the conditions are substantially met.

Functional Expenses

The Organization provides various services to residents within its geographic location. Expenses related to providing these services are as follows:

	2015	2014
Program services	$ 4,706,160	$ 4,511,400
Administrative and general	574,957	527,250
Fundraising	139,268	178,317
Total	$ 5,420,385	$ 5,216,967

Excess (Deficiency) of Revenues Over Expenses

The statements of operations reflect the excess (deficiency) of revenues over expenses. Changes in unrestricted net assets which are excluded from the excess (deficiency) of revenues over expenses, consistent with industry practice, include contributions of long-lived assets (including assets acquired using contributions which, by donor restriction, were to be used for the purposes of acquiring such assets).

Reclassification

Certain amounts in the 2014 financial statements have been reclassified to conform to the current year's presentation.

Subsequent Events

For purposes of the preparation of these financial statements, management has considered transactions or events occurring through November 11, 2015, the date that the financial statements were available to be issued. Management has not evaluated subsequent events after that date for inclusion in the financial statements.

2. Investments

Investments, stated at fair value, are as follows:

	2015	2014
Money market funds	$ 18,248	$ 152,451

Total investments	$ 1,641,619	$ 1,537,795

Fair Value of Financial Instruments

Financial Accounting Standards Board Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurement*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants and also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The fair value hierarchy within ASC Topic 820 distinguishes three levels of inputs that may be utilized when measuring fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The fair value measurement for all of the Organization's investments is based on Level 1 inputs at June 30, 2015 and 2014.

Investment income and gains (losses) for cash equivalents and investments consist of the following:

	2015	2014

Total temporarily restricted	$ 631,425	$ 1,276,902
Permanently restricted: Endowment	$ 1,200,687	$ 1,200,687

8. Endowments

Interpretation of Relevant Law

There were no board designated endowments. The Organization's endowments primarily consist of an investment portfolio managed by the Investment Sub-Committee. As required by U.S. GAAP, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

The Organization has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization classifies as a donor-restricted endowment (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent donor-restricted endowment gifts and (c) accumulations to the donor-restricted endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund, if any, is classified as temporarily restricted net assets until those amounts are appropriated for expenditure in a manner consistent with the standard of prudence prescribed by UPMIFA.

In accordance with UPMIFA, the Organization considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

(1) The duration and preservation of the fund
(2) The purposes of the Organization and the donor-restricted endowment fund
(3) General economic conditions
(4) The possible effect of inflation and deflation
(5) The expected total return from income and the appreciation of investments
(6) Other resources of the Organization
(7) The investment policies of the Organization

Spending Policy

The Organization has a policy of appropriating for expenditure an amount equal to 5% of the endowment fund's average fair market value over the prior 20 quarters.

Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor requires the Organization to retain as a fund of perpetual duration. There were no such deficiencies as of June 30, 2015 and 2014.

Return Objectives and Risk Parameters

The Organization has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the Organization must hold in perpetuity. Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended to produce results that exceed or meet designated benchmarks while incurring a reasonable and prudent level of investment risk.

Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, the Organization relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Organization targets a diversified asset allocation that places a balanced emphasis on equity-based and income-based investments to achieve its long-term return objectives within prudent risk constraints.

Endowment Net Asset Composition by Type of Fund

The endowment net asset composition by type of fund is as follows:

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
2015				
Donor-restricted endowment funds	$ -	$ 267,234	$ 1,200,687	$ 1,467,921
2014				
Donor-restricted endowment funds	$ -	$ 336,328	$ 1,200,687	$ 1,537,015

The Organization had the following endowment related activities for the years ended June 30, 2015 and 2014, respectively.

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Endowment net assets, June 30, 2014	$ -	$ 336,328	$ 1,200,687	$ 1,537,015

9. Patient Service Revenue

Patient service revenue follows:

	2015	2014
Medicare	$ 215,538	$ 200,204
Medicaid	1,307,387	927,295
Third party payers and private pay	629,423	495,972
Total patient service revenue	$ 2,152,348	$ 1,623,471

The Organization has agreements with the Centers for Medicare and Medicaid Services (Medicare) and New Hampshire and Maine Medicaid. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. The Organization believes that it is in compliance with all laws and regulations. Compliance with such laws and regulations can be subject to future government review and interpretation, as well as significant regulatory action including fines, penalties and exclusion from the Medicare and Medicaid programs. Differences between amounts previously estimated and amounts subsequently determined to be recoverable or payable are included in patient service revenue in the year that such amounts become known.

A summary of the payment arrangements with major third-party payers follows:

Medicare

As an FQHC, the Organization is reimbursed for the care of qualified patients at specified interim contractual rates during the year. Differences between the Medicare interim contractual rate and the cost of care as defined by the Principles of Reimbursement governing the program are determined and settled on a retrospective basis. Overall, reimbursement is subject to a maximum allowable rate per visit. The Organization's Medicare cost reports have been audited by the Medicare administrative contractor through June 30, 2013.

Other Payers

The Organization also has entered into payment agreements with Medicaid and certain commercial insurance carriers, health maintenance organizations and preferred provider organizations. The basis for payment to the Organization under these agreements includes prospectively determined rates per visit, discounts from established charges and capitated arrangements for primary care services on a per member, per month basis.

The Organization provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. The Organization estimates the costs associated with providing charity care by calculating the ratio of total cost to total charges, and then multiplying that ratio by the gross uncompensated charges associated with providing care to patients eligible for free care. The estimated cost of providing services to patients under the Organization charity care policy amounted to $1,661,000 and $1,971,000 for the years ended June 30, 2015 and 2014, respectively.

The Organization is able to provide these services with a component of funds received through local community support and federal and state grants.

10. Retirement Plan

The Organization has a defined contribution plan under Internal Revenue Code Section 401(k) that cover substantially all employees. Employer discretionary contributions are funded at a percentage of eligible employees' salaries. The Organization did not incur expenses under the plan for the years ended June 30, 2015 and 2014.

11. Concentration of Risk

The Organization has cash deposits in major financial institutions in excess of federal depository insurance limits. The financial institutions have a strong credit rating and management believes the credit risk related to these deposits is minimal.

The Organization grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payer agreements. The mix of medical patient service revenue receivables from patients and third-party payers was as follows as of June 30:

	2015	2014
Medicare	11 %	12 %
Medicaid	42 %	38 %
Other	47 %	50 %
	100 %	100 %

12. Commitments and Contingencies

Medical Malpractice Insurance

The Organization is protected from medical malpractice risk as an FQHC under the Federal Tort Claims Act (FTCA). The Organization has additional medical malpractice insurance, on a claims-made basis, for coverage outside the scope of the protection of the FTCA. As of the year ended June 30, 2015, there were no known malpractice claims outstanding which in the opinion of management, will be settled for amounts in excess of both FTCA and additional medical malpractice insurance coverage, nor are there any unasserted claims or incidents which require loss accrual. The Organization intends to renew the additional medical malpractice insurance coverage on a claims-made basis and anticipates that such coverage will be available.

EXPLANATION

The purpose of this amendment is to allow the vendor to adjust certain budget lines in order to meet contractual needs; and update the standard contract language in Exhibit C and Exhibit G. Families First of the Greater Seacoast underestimated the travel amount necessary for staff to fulfill the service requirement of this contract. The change has resulted in a request from the vendor to adjust the budget line items of Employee Benefits, Program Assess Tool and Travel. The Department supports the requested adjustments.

There are no additional funds being requested in this amendment. Other than the changes outlined in the paragraph above, all other terms and conditions remain unchanged from the original agreement approved by the Governor and Executive Council on June 18, 2014, (Item # 80).

Comprehensive Family Support Services assist pregnant women and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents and give families an opportunity to learn and grow.

This contract was awarded as the result of a competitive bid process. On January 21, 2014, the Division issued a Request for Proposal for Comprehensive Family Support Services to serve the eleven (11) catchment areas in the State of New Hampshire. Twelve proposals were received.

Families First of the Greater Seacoast was one (1) of the eleven (11) agencies selected in the competitive bid process.

Should the Governor and Executive Council not approve this request, the vendor would not be able to meet their contractual needs which could reduce the availability, accessibility, and quality of Comprehensive Family Support Services in the Carroll County area.

Area Served: Rockingham County area

Source of Funds: 100% Federal Funds

In the event that Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Mary Ann Cooney
Associate Commissioner

4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. 6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
   7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
   7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. EXPLANATION

Comprehensive Family Support Services assist pregnant women and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents and give families an opportunity to learn and grow.

The Division for Children, Youth and Families and Division of Public Health Services /Maternal Child Health Services blended three family health and support related programs, into one program. This Comprehensive Family Support Services represents such efforts.

New Hampshire DHHS Comprehensive Family Support Services:

In 2002, The Division for Children, Youth and Families, launched a family support partnership, entitled Comprehensive Family Support Services. Support and prevention-based services and programs were provided to thousands families and individuals throughout the state. Due to the success of these prevention-oriented programs, the Division for Children, Youth and Families has recognized the benefit of provider services to families as an effort to keep them from becoming involved in other systems of care.

Currently, there are 25 community-based family resource centers in operation across the State of New Hampshire, which provide a range of support services to families and children that focus on strengthening, supporting and building on the strengths and skills of individuals while also ensuring developmental screening for children six and under. These centers are often key local stakeholders in groups that assess and advocate for the needs of local families.

New Hampshire DHHS Home Visiting NH:

In 2001, the Division of Public Health Services Maternal and Child Health Section began Home Visiting New Hampshire, a statewide, family focused and child centered, preventive program that provides, health, education, support and linkages to community services to eligible, pregnant women and their families in their home until her child is twelve (12) months old. Contractors provide these services in nine (9) of the Division for Children, Youth and Families service areas. The goals of Home Visiting New Hampshire are to promote healthy pregnancy and birth outcomes, promote a safe and nurturing environment for children, and enhance families' life course and development.

Child and Family Health Support Services:

Child and Family Health Support Services have been available through local community health and home visiting agencies for approximately twenty years with funds that had previously supported the state's network of "well baby clinics". These services provide assistance with health care enrollment, referrals, case management, care coordination, education and counseling relative to the child and family and can be conducted by home, office visit or by telephone when appropriate. The goal of Child and Family Health Support Services is to promote the health and well-being of children from birth through age eighteen, with priority given to children birth through age ten.

This contract was competitively bid. On January 21, 2014 the Department issued a Request for Proposals to solicit proposals for the provision of Comprehensive Family Support Services to assist expectant women along with children and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. The request for proposals was available on the Department of Health and Human Services website from January 21, 2014 through March 10, 2014. There were 12 proposals submitted.

The proposals were evaluated by a team of Department of Health and Human Services employees with knowledge of the program requirements, the Division for Children, Youth and Families' Comprehensive Family Support Services program and the Division of Public Health Services, Maternal and Child Health Section. The team also included staff with significant business and management expertise.

The proposals were evaluated based on the criteria published in the Request for Proposals. Eleven of the twelve proposals were selected. The bid summary is attached.

The attached contract calls for the provision of these services for two years and reserves the Division's right to renew the agreement for up to four additional years, based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

Should Governor and Council not authorize this request, the flexibility of community–based family services may not be available to address the needs of children and families throughout the state which could cause an increase in the Division for Children, Youth and Families involvement for out-of-home placement, as these services help to prevent the separation of children from their families and afford them a safe, stable and supportive family environment.

Area Served: Statewide.

Source of Funds: 95.34% Federal Funds
4.66% General Funds

In the event that Federal Funds are no longer available, no additional General Funds will be requested to support this program.

1. The Contractor's maximum yearly-authorized amount for preventive child care dollars is $34,000. Preventive child care shall not be authorized in excess of the standard rate. (see page 2 of this Exhibit).

   1.1 Out of this maximum yearly amount, for those families that the Contractor determines should receive preventive child care, the Contractor shall authorize no more than twelve weeks of child care services at a time.

   1.2 The Contractor shall maintain utilization data that includes the family's name and authorized amounts; this information shall accompany the Contractor's billing invoice submitted to DCYF on a monthly basis.

2. To access the preventive child care service, the Contractor shall identify an appropriate provider.

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.

2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.

3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.

4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.

5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.

6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party fundors for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party fundors, the Department may elect to:
   7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
   7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

   8.2. Statistical Records: Statistical, enrollment, attendance or visit records for each recipient of services during the Contract Period, which records shall include all records of application and eligibility (including all forms required to determine eligibility for each such recipient), records regarding the provision of services and all invoices submitted to the Department to obtain payment for such services.

   9.1. Audit and Review: During the term of this Contract and the period for retention hereunder, the Department, the United States Department of Health and Human Services, and any of their designated representatives shall have access to all reports and records maintained pursuant to the Contract for purposes of audit, examination, excerpts and transcripts.

Notwithstanding anything to the contrary contained herein the covenants and conditions contained in the Paragraph shall survive the termination of the Contract for any reason whatsoever.

11. **Reports:** Fiscal and Statistical: The Contractor agrees to submit the following reports at the following times if requested by the Department.
    11.1. Interim Financial Reports: Written interim financial reports containing a detailed description of all costs and non-allowable expenses incurred by the Contractor to the date of the report and containing such other information as shall be deemed satisfactory by the Department to justify the rate of payment hereunder. Such Financial Reports shall be submitted on the form designated by the Department or deemed satisfactory by the Department.
    11.2. Final Report: A final report shall be submitted within thirty (30) days after the end of the term of this Contract. The Final Report shall be in a form satisfactory to the Department and shall contain a summary statement of progress toward goals and objectives stated in the Proposal and other information required by the Department.

12. **Completion of Services:** Disallowance of Costs: Upon the purchase by the Department of the maximum number of units provided for in the Contract and upon payment of the price limitation hereunder, the Contract and all the obligations of the parties hereunder (except such obligations as, by the terms of the Contract are to be performed after the end of the term of this Contract and/or survive the termination of the Contract) shall terminate, provided however, that if, upon review of the Final Expenditure Report the Department shall disallow any expenses claimed by the Contractor as costs hereunder the Department shall retain the right, at its discretion, to deduct the amount of such expenses as are disallowed or to recover such sums from the Contractor.

13. **Credits:** All documents, notices, press releases, research reports and other materials prepared during or resulting from the performance of the services of the Contract shall include the following statement:
    13.1. The preparation of this (report, document etc.) was financed under a Contract with the State of New Hampshire, Department of Health and Human Services, with funds provided in part by the State of New Hampshire and/or such other funding sources as were available or required, e.g., the United States Department of Health and Human Services.

14. **Prior Approval and Copyright Ownership:** All materials (written, video, audio) produced or purchased under the contract shall have prior approval from DHHS before printing, production, distribution or use. The DHHS will retain copyright ownership for any and all original materials produced, including, but not limited to, brochures, resource directories, protocols or guidelines, posters, or reports. Contractor shall not reproduce any materials produced under the contract without prior written approval from DHHS.

If any governmental license or permit shall be required for the operation of the said facility or the performance of the said services, the Contractor will procure said license or permit, and will at all times comply with the terms and conditions of each such license or permit. In connection with the foregoing requirements, the Contractor hereby covenants and agrees that, during the term of this Contract the facilities shall comply with all rules, orders, regulations, and requirements of the State Office of the Fire Marshal and the local fire protection agency, and shall be in conformance with local building and zoning codes, by-laws and regulations.

16. **Subcontractors:** DHHS recognizes that the Contractor may choose to use subcontractors with greater expertise to perform certain health care services or functions for efficiency or convenience, but the Contractor shall retain the responsibility and accountability for the function(s). Prior to

subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

When the Contractor delegates a function to a subcontractor, the Contractor shall do the following:

16.1. Evaluate the prospective subcontractor's ability to perform the activities, before delegating the function

16.2. Have a written agreement with the subcontractor that specifies activities and reporting responsibilities and how sanctions/revocation will be managed if the subcontractor's performance is not adequate

16.3. Monitor the subcontractor's performance on an ongoing basis

16.4. Provide to DHHS an annual schedule identifying all subcontractors, delegated functions and responsibilities, and when the subcontractor's performance will be reviewed

16.5. DHHS shall, at its discretion, review and approve all subcontracts.

If the Contractor identifies deficiencies or areas for improvement are identified, the Contractor shall take corrective action.

CERTIFICATION REGARDING DEBARMENT, SUSPENSION AND OTHER RESPONSIBILITY MATTERS

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.

6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
    11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
    11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
    11.3. are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (l)(b) of this certification; and
    11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.

12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:
    13.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.
    13.2. where the prospective lower tier participant is unable to certify to any of the above, such prospective participant shall attach an explanation to this proposal (contract).

b. Business Associate may use or disclose PHI:
   I. For the proper management and administration of the Business Associate;
   II. As required by law, pursuant to the terms set forth in paragraph d. below; or

If Covered Entity objects to such disclosure, the Business

Associate shall refrain from disclosing the PHI until Covered Entity has exhausted all remedies.

e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

(3) **Obligations and Activities of Business Associate.**

d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.

Business Associate shall require all of its business associates that receive, use or have access to PHI under the Agreement, to agree in writing to adhere to the same restrictions and conditions on the use and disclosure of PHI contained herein, including the duty to return or destroy the PHI as provided under Section 3 (l). The Covered Entity shall be considered a direct third party beneficiary of the Contractor's business associate agreements with Contractor's intended business associates, who will be receiving PHI

pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard Paragraph #13 of the standard contract provisions (P-37) of this Agreement for the purpose of use and disclosure of protected health information.

f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

h. Within ten (10) business days of receiving a written request from Covered Entity for an amendment of PHI or a record about an individual contained in a Designated Record Set, the Business Associate shall make such PHI available to Covered Entity for amendment and incorporate any such amendment to enable Covered Entity to fulfill its obligations under 45 CFR Section 164.526.

i. Business Associate shall document such disclosures of PHI and information related to such disclosures as would be required for Covered Entity to respond to a request by an individual for an accounting of disclosures of PHI in accordance with 45 CFR Section 164.528.

j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.

l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.

c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) Miscellaneous

a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.

c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.

d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) I, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

INDEPENDENT ACCOUNTANT'S REVIEW REPORT

To the Board of Directors of
TLC Family Resource Center, Inc.

We have reviewed the accompanying financial statements of TLC Family Resource Center, Inc. (a nonprofit corporation), which comprise the statement of financial position as of June 30, 2017, and the related statements of activities, cash flows and functional expenses for the year then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of Organization management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

NOTE A -- ORGANIZATION

TLC Family Resource Center, Inc., (the "Organization") is a non-profit organization established in 2004 for the purpose of promoting the physical and emotional health and safety of women and families expecting infants or with young children. The organization serves individuals in New Hampshire's Sullivan and lower Grafton Counties and is funded primarily through governmental financial assistance and program fees. A Board of Directors sets policy for the Organization and an Executive Director has the responsibility of direct management. During the year-ended June 30, 2017, the Organization's revenue sources as a percentage of total revenue were federal, state and municipal grants 56%, contributions and special event proceeds 34%, program fees and other income 10%.

NOTE B -- SIGNIFICANT ACCOUNTING POLICIES

Financial Statement Presentation: In accordance with Financial Accounting Standards Board (FASB) ASC 958-200, *Financial Statements of Not-for-Profit Organizations*, the Organization reports information regarding its financial position and activities according to three classes of net assets as follows:

> **Unrestricted net assets**: includes assets for which no restrictions as to use or program period have been imposed by the donor; unrestricted contributions, including service contracts, and unconditional promises to give are recorded as increases in the period received; expenses are recorded as decreases to unrestricted net assets when incurred.
>
> **Temporarily restricted net assets**: includes assets for which restrictions have been imposed as to use or program period; support and revenue is recognized as an increase when the restricted award or contribution is received; when the temporary restriction has expired the amount is reported as a separate reclassification which decreases temporarily restricted net assets and increases unrestricted net assets.
>
> **Permanently restricted net assets**: includes assets for which the donor has imposed a permanent restriction on the use of the funds. As of June 30, 2017, the organization had no permanently restricted net assets.

Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash and Cash Equivalents: The Organization considers all highly liquid investments with maturities of three months or less when purchased to be cash equivalents.

Advertising Costs: The Organization uses advertising to promote its programs and to fill positions. The costs of advertising are expensed as incurred. During the year ended June 30, 2017 advertising costs totaled $10,464.

NOTE B -- SIGNIFICANT ACCOUNTING POLICIES - Continued

Property and Equipment: Property, equipment, and improvements with costs greater than $500 are carried at cost. Major maintenance activities are capitalized if they extend the life of the property or equipment. Donations of property and equipment are recorded as support at their estimated fair value and recorded as unrestricted support or restricted support if the donor has restricted the donated asset for a specific purpose. Property, equipment, and improvements are depreciated using the straight-line method over the estimated useful lives of the assets. Depreciation expense for the year ended June 30, 2017 totaled $5,611.

Revenue Recognition: The Organization accounts for contributions in accordance with FASB ASC 958-605, *Accounting for Contributions Received and Contributions Made.* Under such statement, contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and/or nature of any donor restrictions. Unrestricted contributions, and restricted contributions for which the restrictions expire in the fiscal year in which the contributions are recognized, are reported as increases in unrestricted net assets. All other donor-restricted contributions are reported as increases in temporarily or permanently restricted net assets depending on the nature of the restrictions. When a restriction expires, temporarily restricted assets are reclassified to unrestricted assets.

Contributed Services, Facilities and Materials: During the year ended June 30, 2017 the Organization received direct and indirect contributions of services, facilities and materials related to its programs and fundraising efforts. The Organization operates a thrift store which sells donated clothing and housing goods. Because of the difficulty of valuing the donated inventory when it is received, the inventory donation is recognized as income on the statement of activities when the inventory is sold. Contributions of services creating or enhancing non-financial assets, or requiring specialized skills that would typically need to be purchased if not provided by donation, are recorded at their fair values in the period received. Materials and other assets received as donations are recorded and reflected in the accompanying financial statements at their fair values at the date of receipt.

Functional Allocation of Expenses: The costs of providing program activities have been summarized on a functional basis in the statement of activities. Support expenses not directly chargeable to program costs are allocated based on direct program expenses, units of service, or other program related methods. Certain prior year amounts have been reclassified for consistency with the current period presentation. These reclassifications had no effect on the reported changes in net assets.

Income Taxes: The Organization is exempt from federal and state taxes under section 501(c)(3) of the Internal Revenue Code and has been classified as an entity that is not a private foundation within the meaning of Section 509 (a) and qualifies for deductible contributions as provided in Section 170(b)(1)(A)(vi). The Center's Forms 990, Return of Organization Exempt from Income Tax, for the years ending June 30, 2017, 2016 and 2015 are subject to examination by the IRS, generally for three years after they were filed.

NOTE C -- GRANTS AND ACCOUNTS RECEIVABLE

The Organization is awarded cost reimbursement grants by various organizations. Revenues associated with these grants are recorded as the associated expenses are incurred. Receivables are considered impaired if full principal payments are not received in accordance with the contractual terms. It is the Organization's policy to charge off uncollectible receivables when management determines the receivable will not be collected. Grants and accounts receivable totaling $53,838 as of June 30, 2017 are composed of the following balances and are deemed by management to be fully collectible:

Accounts receivable	$ 3,380
County funding	7,500
State cost reimbursements	42,958
	$53,838

NOTE D -- CONTINGENT LIABILITIES

The Organization receives funds under various state and federal programs. Under the terms of these programs, the Organization is required to expend the funds within the designated period for purposes specified in the grant proposal. If expenditures of the funds are found not in compliance with the proposal, the Organization may be required to return those funds to the grantor. As of June 30, 2017, there were no known disallowed expenditures and, therefore, no provision has been made for this contingency.

NOTE E -- SUPPORT FROM GOVERNMENTAL UNITS

The Organization receives a substantial amount of its support from federal and state governments. A significant reduction in the level of this support, if this were to occur, may have an effect on the Organization's ability to continue its programs and activities.

NOTE F -- BANK LINE OF CREDIT

The Organization has a bank line of credit in the amount of $80,000 which was renewed in March 2017. The bank holds a security interest in all the assets of the Organization. The terms of the credit line include monthly payments of interest, based on the New York Prime rate adjusted monthly, and full payment of the outstanding balance for a minimum period of 30 days each year. As of June 30, 2017, the outstanding balance was $0.

NOTE G -- RESTRICTIONS ON ASSETS

Temporarily restricted net assets totaling $20,175 as of June 30, 2017 are related to Healthy Families program and IT support and equipment upgrades.

NOTE H -- OPERATING LEASE ARRANGEMENTS

The Organization leases its facility under a lease agreement, signed on December 1, 2011, which provides for twelve-month renewal periods based on a stipulated monthly rental payment plus utilities and a real estate tax escalation clause. This lease was extended for another year beginning July 1, 2017 at a monthly rent payment of $1,900, for a total lease commitment of $22,800. Facility lease payments for the year ended June 30, 2017 totaled $22,800.

On January 1, 2014 a four year photocopier lease was signed with monthly rent of $136. Photocopier lease expense for the year-ended June 30, 2017 totaled $1,632.

Future minimum lease payments are as follows:

Fiscal 2018	$24,432
Fiscal 2019	1,632
Total	$26,064

The Organization entered into a sublease agreement for a portion of their space on October 1, 2016. The sublease payments are $500 per month, plus reimbursement of utilities costs, with the agreement ending June 30, 2017. The agreement was renewed on a month-to-month basis as of July 1, 2017. The total sub-lease income plus utilities reimbursement received for the year ended June 30, 2017 was $7,193.

NOTE I -- FAIR VALUE OF FINANCIAL INSTRUMENTS

In accordance with FASB ASC 820, *Fair Value Measurements and Disclosures*, the Organization is required to disclose certain information about its financial assets and liabilities. As of June 30, 2017 the Organization has no financial instruments subject to the disclosure requirements. Cash and cash equivalents, grants and accounts receivable, accounts payable, accrued expenses, advances refundable, and fiscal agency funds are reported in the statement of financial position approximate fair values because of the short maturities of those instruments or because of the fixed rate of interest required to be paid.

NOTE J – FISCAL SPONSOR FUNDS

The Organization has several grant agreements to serve as a fiscal sponsor for a local initiative. Under the agreements the Organization received $31,500 for which $28,350 will be administered for the benefit of the local initiative and $3,150 will be earned as an administrative fee.

EXPLANATION

The purpose of this request is to renew contract services with these vendors for an additional two years. For a detailed summary of the changes please see attachment.

Comprehensive Family Support Services assist pregnant women and families with children up to the age of twenty-one (21) by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents to give families an opportunity to learn and grow.

The Division for Children, Youth and Families and the Division of Public Health Services have blended three family health and support related programs in to one program which is now represented as the Comprehensive Family Support Services.

Currently, there are twenty-five (25) community based family resource centers in operation across the State which provide a range of support services to families and children that focus on strengthening, supporting and building on the strengths and skills of individuals while also ensuring developmental screening for children six (6) and under. These centers are often key local stakeholders in groups that assess and advocate for the needs of local families.

The original contracts were competitively bid.

These contracts contain language which allows for the right to renew for up to four additional years based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

The Comprehensive Family Support Services program has served a total of 871 families and 1664 children in 2014. As a result, ninety-five percent (95%) of the families served achieved successful outcomes and remained uninvolved in a Division abuse or neglect case. The Division is satisfied with the services provided and is requesting approval to exercise two years of the renewal option reserving the Division's option to renew for the remaining two years based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

Should the Governor and Executive Council not authorize this request, the flexibility of community based family services may not be available to address the needs of children and families throughout the state which could cause an increase in the Division for Children, Youth and Families involvement for out of home placements. The services provided through these agreements help prevent separation of children from their families and afford them a safe, stable and supportive family environment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.

2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.

3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. 4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
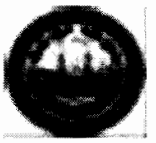
   7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
   7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;



7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

INDEPENDENT ACCOUNTANT'S REVIEW REPORT

To the Board of Directors of
Good Beginnings of Sullivan County, Inc.

We have reviewed the accompanying statement of financial position of Good Beginnings of Sullivan County, Inc. (a non-profit organization) as of June 30, 2015, and the related statements of activities, cash flows, and functional expenses for the year then ended. A review includes primarily applying analytical procedures to management's financial data and making inquiries of Organization management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statements.

Our responsibility is to conduct the review in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. Those standards require us to perform procedures to obtain limited assurance that there are no material modifications that should be made to the financial statements. We believe that the results of our procedures provide a reasonable basis for our report.

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

NOTE A -- ORGANIZATION

Good Beginnings of Sullivan County, Inc. (the "Organization") is a non-profit organization established in 2004 for the purpose of promoting the physical and emotional health and safety of women and families expecting infants or with young children. The organization serves individuals in New Hampshire's Sullivan and lower Grafton Counties and is funded primarily through governmental financial assistance and program fees. A Board of Directors sets policy for the Organization and an Executive Director has the responsibility of direct management. During the year-ended June 30, 2015, the Organization's revenue sources as a percentage of total revenue were federal, state and municipal grants 66%, and contributions and special event proceeds 22%.

NOTE B -- SIGNIFICANT ACCOUNTING POLICIES

Financial Statement Presentation: In accordance with Financial Accounting Standards Board (FASB) ASC 958-200, *Financial Statements of Not-for-Profit Organizations*, the Organization reports information regarding its financial position and activities according to three classes of net assets as follows:

Unrestricted net assets: includes assets for which no restrictions as to use or program period have been imposed by the donor; unrestricted contributions, including service contracts, and unconditional promises to give are recorded as increases in the period received; expenses are recorded as decreases to unrestricted net assets when incurred.

Temporarily restricted net assets: includes assets for which restrictions have been imposed as to use or program period; support and revenue is recognized as an increase when the restricted award or contribution is received; when the temporary restriction has expired the amount is reported as a separate reclassification which decreases temporarily restricted net assets and increases unrestricted net assets.

Permanently restricted net assets: includes assets for which the donor has imposed a permanent restriction on the use of the funds. As of June 30, 2015, the organization had no permanently restricted net assets.

Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash and Cash Equivalents: The Organization considers all highly liquid investments with maturities of three months or less when purchased to be cash equivalents.

NOTE B -- SIGNIFICANT ACCOUNTING POLICIES - Continued

Advertising Costs: The Organization uses advertising to promote its programs and to fill positions. The costs of advertising are expensed as incurred. During the year ended June 30, 2015 advertising costs totaled $7,931.

Property and Equipment: Property, equipment, and improvements with costs greater than $500 are carried at cost. Major maintenance activities are capitalized if they extend the life of the property or equipment. Donations of property and equipment are recorded as support at their estimated fair value and recorded as unrestricted support or restricted support if the donor has restricted the donated asset for a specific purpose. Property, equipment, and improvements are depreciated using the straight-line method over the estimated useful lives of the assets. Depreciation expense for the year ended June 30, 2015 totaled $1,903. Obsolete and fully depreciated telephone and computer equipment with a cost basis of $12,060 was removed from the statement of financial position as of June 30, 2015.

Revenue Recognition: The Organization accounts for contributions in accordance with FASB ASC 958-605, *Accounting for Contributions Received and Contributions Made*. Under such statement, contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and/or nature of any donor restrictions. Unrestricted contributions, and restricted contributions for which the restrictions expire in the fiscal year in which the contributions are recognized, are reported as increases in unrestricted net assets. All other donor-restricted contributions are reported as increases in temporarily or permanently restricted net assets depending on the nature of the restrictions. When a restriction expires, temporarily restricted assets are reclassified to unrestricted assets.

Contributed Services, Facilities and Materials: During the year ended June 30, 2015 the Organization received direct and indirect contributions of services, facilities and materials related to its programs and fundraising efforts. The Organization operates two thrift stores which sells donated clothing and housing goods. Because of the difficulty of valuing the donated inventory when it is received, the inventory donation is recognized as income on the statement of activities when the inventory is sold. No other amounts for donated services have been recognized in the accompanying statement of activities because the criteria for recognition under FASB ASC 958-605 have not been satisfied.

Functional Allocation of Expenses: The costs of providing program activities have been summarized on a functional basis in the statement of activities. Support expenses not directly chargeable to program costs are allocated based on direct program expenses, units of service, or other program related methods. Accordingly, certain costs have been allocated between program services and supporting services.

NOTE B -- SIGNIFICANT ACCOUNTING POLICIES - Continued

Income Taxes: The Organization is exempt from federal and state taxes under section 501(c)(3) of the Internal Revenue Code and has been classified as an entity that is not a private foundation within the meaning of Section 509 (a) and qualifies for deductible contributions as provided in Section 170(b)(1)(A)(vi). The Center's Forms 990, Return of Organization Exempt from Income Tax, for the years ending June 30, 2015, 2014 and 2013 are subject to examination by the IRS, generally for three years after they were filed. In accordance with FASB ASC 740-10, the Organization is under the opinion that there are no unsustainable positions that have been taken in regards to Federal or State income tax reporting requirements. Accordingly, management is not aware of any unrecognized tax benefits or liabilities that should be recognized in the accompanying statements.

NOTE C -- GRANTS AND ACCOUNTS RECEIVABLE

The Organization is awarded cost reimbursement grants by various organizations. Revenues associated with these grants are recorded as the associated expenses are incurred. Receivables are considered impaired if full principal payments are not received in accordance with the contractual terms. It is the Organization's policy to charge off uncollectible receivables when management determines the receivable will not be collected. Grants and accounts receivable totaling $46,998 as of June 30, 2015 are composed of the following balances and are deemed by management to be fully collectible:

Accounts receivable	$ 5,074
County funding	17,500
State cost reimbursements	24,424
	$46,998

NOTE D -- CONTINGENT LIABILITIES

The Organization receives funds under various state and federal programs. Under the terms of these programs, the Organization is required to expend the funds within the designated period for purposes specified in the grant proposal. If expenditures of the funds were found to not have been made in compliance with the proposal, the Organization might be required to return this portion of funds to the grantor. As of June 30, 2015, there were no known disallowed expenditures and, therefore, no provision has been made for this contingency.

NOTE E -- SUPPORT FROM GOVERNMENTAL UNITS

The Organization receives a substantial amount of its support from federal and state governments. A significant reduction in the level of this support, if this were to occur, may have an effect on the Organization's ability to continue its programs and activities.

NOTE F -- BANK LINE OF CREDIT

The Organization has a bank line of credit in the amount of $80,000 which was renewed in March 2015. The bank holds a security interest in all the assets of the Organization. The terms of the credit line include monthly payments of interest, based on the New York Prime rate adjusted monthly, and full payment of the outstanding balance for a minimum period of 30 days each year. As of June 30, 2015, the outstanding balance was $13,000.

NOTE G -- OPERATING LEASE ARRANGEMENTS

The Organization leases its facility under a lease agreement, signed on December 1, 2011, which provides for twelve-month renewal periods based on a stipulated monthly rental payment plus utilities and a real estate tax escalation clause. Lease payments on this facility for the year ended June 30, 2015 totaled $22,800.This lease was extended for another year beginning July 1, 2015 at a monthly rent payment of $1,900, for a total lease commitment of $22,800. Additionally, the Organization leases a photocopier with a minimum monthly rent of $188 based on a maximum of 7,500 copies at 2.5 cents per copy plus an additional amount for copies in excess of 7.500. Lease expense for the year-ended June 30, 2015 totaled $1,851. On January 1, 2015 a new four year lease was signed with monthly rent of $136. Future minimum lease payments are as follows:

Fiscal 2016	$24,432
Fiscal 2017	1,632
Fiscal 2018	1,632
Total	$27,696

EXPLANATION

Comprehensive Family Support Services assist pregnant women and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents and give families an opportunity to learn and grow.

The Division for Children, Youth and Families and Division of Public Health Services /Maternal Child Health Services blended three family health and support related programs, into one program. This Comprehensive Family Support Services represents such efforts.

New Hampshire DHHS Comprehensive Family Support Services:

In 2002, The Division for Children, Youth and Families, launched a family support partnership, entitled Comprehensive Family Support Services. Support and prevention-based services and programs were provided to thousands families and individuals throughout the state. Due to the success of these prevention-oriented programs, the Division for Children, Youth and Families has recognized the benefit of provider services to families as an effort to keep them from becoming involved in other systems of care.

Currently, there are 25 community-based family resource centers in operation across the State of New Hampshire, which provide a range of support services to families and children that focus on strengthening, supporting and building on the strengths and skills of individuals while also ensuring developmental screening for children six and under. These centers are often key local stakeholders in groups that assess and advocate for the needs of local families.

New Hampshire DHHS Home Visiting NH:

In 2001, the Division of Public Health Services Maternal and Child Health Section began Home Visiting New Hampshire, a statewide, family focused and child centered, preventive program that provides, health, education, support and linkages to community services to eligible, pregnant women and their families in their home until her child is twelve (12) months old. Contractors provide these services in nine (9) of the Division for Children, Youth and Families service areas. The goals of Home Visiting New Hampshire are to promote healthy pregnancy and birth outcomes, promote a safe and nurturing environment for children, and enhance families' life course and development.

Child and Family Health Support Services:

Child and Family Health Support Services have been available through local community health and home visiting agencies for approximately twenty years with funds that had previously supported the state's network of "well baby clinics". These services provide assistance with health care enrollment, referrals, case management, care coordination, education and counseling relative to the child and family and can be conducted by home, office visit or by telephone when appropriate. The goal of Child and Family Health Support Services is to promote the health and well-being of children from birth through age eighteen, with priority given to children birth through age ten.

This contract was competitively bid. On January 21, 2014 the Department issued a Request for Proposals to solicit proposals for the provision of Comprehensive Family Support Services to assist expectant women along with children and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. The request for proposals was available on the Department of Health and Human Services website from January 21, 2014 through March 10, 2014. There were 12 proposals submitted.

The proposals were evaluated by a team of Department of Health and Human Services employees with knowledge of the program requirements, the Division for Children, Youth and Families' Comprehensive Family Support Services program and the Division of Public Health Services, Maternal and Child Health Section. The team also included staff with significant business and management expertise.

The proposals were evaluated based on the criteria published in the Request for Proposals. Eleven of the twelve proposals were selected. The bid summary is attached.

The attached contract calls for the provision of these services for two years and reserves the Division's right to renew the agreement for up to four additional years, based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

Should Governor and Council not authorize this request, the flexibility of community–based family services may not be available to address the needs of children and families throughout the state which could cause an increase in the Division for Children, Youth and Families involvement for out-of-home placement, as these services help to prevent the separation of children from their families and afford them a safe, stable and supportive family environment.

Area Served: Statewide.

Source of Funds: 95.34% Federal Funds
4.66% General Funds

In the event that Federal Funds are no longer available, no additional General Funds will be requested to support this program.

SPECIAL PROVISIONS

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.

2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.

3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.

4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.

5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.

6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party fundors for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party fundors, the Department may elect to:
   7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
   7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

RECORDS: MAINTENANCE, RETENTION, AUDIT, DISCLOSURE AND CONFIDENTIALITY:

8. **Maintenance of Records:** In addition to the eligibility records specified above, the Contractor covenants and agrees to maintain the following records during the Contract Period:

   8.2. Statistical Records: Statistical, enrollment, attendance or visit records for each recipient of services during the Contract Period, which records shall include all records of application and eligibility (including all forms required to determine eligibility for each such recipient), records regarding the provision of services and all invoices submitted to the Department to obtain payment for such services.
   8.3. Medical Records: Where appropriate and as prescribed by the Department regulations, the Contractor shall retain medical records on each patient/recipient of services.

9. **Audit:** Contractor shall submit an annual audit to the Department within 60 days after the close of the agency fiscal year. It is recommended that the report be prepared in accordance with the provision of Office of Management and Budget Circular A-133, "Audits of States, Local Governments, and Non Profit Organizations" and the provisions of Standards for Audit of Governmental Organizations, Programs, Activities and Functions, issued by the US General Accounting Office (GAO standards) as they pertain to financial compliance audits.
   9.1. Audit and Review: During the term of this Contract and the period for retention hereunder, the Department, the United States Department of Health and Human Services, and any of their designated representatives shall have access to all reports and records maintained pursuant to the Contract for purposes of audit, examination, excerpts and transcripts.
   9.2. Audit Liabilities: In addition to and not in any way in limitation of obligations of the Contract, it is understood and agreed by the Contractor that the Contractor shall be held liable for any state or federal audit exceptions and shall return to the Department, all payments made under the Contract to which exception has been taken or which have been disallowed because of such an exception.

10. **Confidentiality of Records:** All information, reports, and records maintained hereunder or collected in connection with the performance of the services and the Contract shall be confidential and shall not be disclosed by the Contractor, provided however, that pursuant to state laws and the regulations of the Department regarding the use and disclosure of such information, disclosure may be made to public officials requiring such information in connection with their official duties and for purposes directly connected to the administration of the services and the Contract; and provided further, that the use or disclosure by any party of any information concerning a recipient for any purpose not directly connected with the administration of the Department or the Contractor's responsibilities with respect to purchased services hereunder is prohibited except on written consent of the recipient, his attorney or guardian.

Notwithstanding anything to the contrary contained herein the covenants and conditions contained in the Paragraph shall survive the termination of the Contract for any reason whatsoever.

11. **Reports:** Fiscal and Statistical: The Contractor agrees to submit the following reports at the following times if requested by the Department.
    11.1. Interim Financial Reports: Written interim financial reports containing a detailed description of all costs and non-allowable expenses incurred by the Contractor to the date of the report and containing such other information as shall be deemed satisfactory by the Department to justify the rate of payment hereunder. Such Financial Reports shall be submitted on the form designated by the Department or deemed satisfactory by the Department.
    11.2. Final Report: A final report shall be submitted within thirty (30) days after the end of the term of this Contract. The Final Report shall be in a form satisfactory to the Department and shall contain a summary statement of progress toward goals and objectives stated in the Proposal and other information required by the Department.

12. **Completion of Services:** Disallowance of Costs: Upon the purchase by the Department of the maximum number of units provided for in the Contract and upon payment of the price limitation hereunder, the Contract and all the obligations of the parties hereunder (except such obligations as, by the terms of the Contract are to be performed after the end of the term of this Contract and/or survive the termination of the Contract) shall terminate, provided however, that if, upon review of the Final Expenditure Report the Department shall disallow any expenses claimed by the Contractor as costs hereunder the Department shall retain the right, at its discretion, to deduct the amount of such expenses as are disallowed or to recover such sums from the Contractor.

13. **Credits:** All documents, notices, press releases, research reports and other materials prepared during or resulting from the performance of the services of the Contract shall include the following statement:
    13.1. The preparation of this (report, document etc.) was financed under a Contract with the State of New Hampshire, Department of Health and Human Services, with funds provided in part by the State of New Hampshire and/or such other funding sources as were available or required, e.g., the United States Department of Health and Human Services.

14. **Prior Approval and Copyright Ownership:** All materials (written, video, audio) produced or purchased under the contract shall have prior approval from DHHS before printing, production, distribution or use. The DHHS will retain copyright ownership for any and all original materials produced, including, but not limited to, brochures, resource directories, protocols or guidelines, posters, or reports. Contractor shall not reproduce any materials produced under the contract without prior written approval from DHHS.

15. **Operation of Facilities: Compliance with Laws and Regulations:** In the operation of any facilities for providing services, the Contractor shall comply with all laws, orders and regulations of federal, state, county and municipal authorities and with any direction of any Public Officer or officers pursuant to laws which shall impose an order or duty upon the contractor with respect to the operation of the facility or the provision of the services at such facility. If any governmental license or permit shall be required for the operation of the said facility or the performance of the said services, the Contractor will procure said license or permit, and will at all times comply with the terms and conditions of each such license or permit. In connection with the foregoing requirements, the Contractor hereby covenants and agrees that, during the term of this Contract the facilities shall comply with all rules, orders, regulations, and requirements of the State Office of the Fire Marshal and the local fire protection agency, and shall be in conformance with local building and zoning codes, by-laws and regulations.

16. **Subcontractors:** DHHS recognizes that the Contractor may choose to use subcontractors with greater expertise to perform certain health care services or functions for efficiency or convenience, but the Contractor shall retain the responsibility and accountability for the function(s). Prior to

subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

When the Contractor delegates a function to a subcontractor, the Contractor shall do the following:

16.1. Evaluate the prospective subcontractor's ability to perform the activities, before delegating the function

16.2. Have a written agreement with the subcontractor that specifies activities and reporting responsibilities and how sanctions/revocation will be managed if the subcontractor's performance is not adequate

16.3. Monitor the subcontractor's performance on an ongoing basis

16.4. Provide to DHHS an annual schedule identifying all subcontractors, delegated functions and responsibilities, and when the subcontractor's performance will be reviewed

16.5. DHHS shall, at its discretion, review and approve all subcontracts.

If the Contractor identifies deficiencies or areas for improvement are identified, the Contractor shall take corrective action.

CERTIFICATION REGARDING DEBARMENT, SUSPENSION AND OTHER RESPONSIBILITY MATTERS

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.

6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:

    11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.

12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:

b. Business Associate may use or disclose PHI:
   I. For the proper management and administration of the Business Associate;
   II. As required by law, pursuant to the terms set forth in paragraph d. below; or
   III. For data aggregation purposes for the health care operations of Covered Entity.

d. The Business Associate shall not, unless such disclosure is reasonably necessary to provide services under Exhibit A of the Agreement, disclose any PHI in response to a request for disclosure on the basis that it is required by law, without first notifying Covered Entity so that Covered Entity has an opportunity to object to the disclosure and to seek appropriate relief. If Covered Entity objects to such disclosure, the Business

Associate shall refrain from disclosing the PHI until Covered Entity has exhausted all remedies.

e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

(3) **Obligations and Activities of Business Associate.**

b. The Business Associate shall immediately perform a risk assessment when it becomes aware of any of the above situations. The risk assessment shall include, but not be limited to:

The Business Associate shall complete the risk assessment within 48 hours of the breach and immediately report the findings of the risk assessment in writing to the Covered Entity.

c. The Business Associate shall comply with all sections of the Privacy, Security, and Breach Notification Rule.

d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.

e. Business Associate shall require all of its business associates that receive, use or have access to PHI under the Agreement, to agree in writing to adhere to the same restrictions and conditions on the use and disclosure of PHI contained herein, including the duty to return or destroy the PHI as provided under Section 3 (l). The Covered Entity shall be considered a direct third party beneficiary of the Contractor's business associate agreements with Contractor's intended business associates, who will be receiving PHI

pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard Paragraph #13 of the standard contract provisions (P-37) of this Agreement for the purpose of use and disclosure of protected health information.

f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.

l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.

c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) Miscellaneous

a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.

c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.

d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) I, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

INDEPENDENT AUDITORS' REPORT

Board of Directors
Home Healthcare, Hospice and Community Services, Inc. and Affiliate
Keene, New Hampshire

We have audited the accompanying consolidated financial statements of Home Healthcare, Hospice and Community Services, Inc. and Affiliate (the Association), which comprise the consolidated balance sheet as June 30, 2017, and the related consolidated statements of operations, changes in net assets, and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Board of Directors
Home Healthcare, Hospice and Community Services, Inc. and Affiliate

Opinion

In our opinion, the 2017 consolidated financial statements referred to above present fairly, in all material respects, the financial position of Home Healthcare, Hospice and Community Services, Inc. and Affiliate as of June 30, 2017, and the results of their operations, changes in their net assets, and their cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Other Auditors

The 2016 consolidated financial statements were audited by other auditors, whose report dated January 5, 2017, expressed an unmodified opinion on those statements.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Home Healthcare, Hospice and Community Services, Inc. and Affiliate is a nonstock, nonprofit corporation in New Hampshire whose primary purpose is to act as a holding company and provide management services to its affiliate.

Affiliate

VNA at HCS, Inc. is a nonstock, nonprofit corporation in New Hampshire whose primary purposes are to provide home healthcare, hospice, and community services.

Principles of Consolidation

The consolidated financial statements include the accounts of Home Healthcare, Hospice and Community Services, Inc. and its affiliate, VNA at HCS, Inc. (collectively, the Association). They are related through a common board membership and common management. All significant intercompany balances and transactions have been eliminated in consolidation.

The Association prepares its consolidated financial statements in accordance with U.S. generally accepted accounting principles (U.S. GAAP) established by the Financial Accounting Standards Board (FASB). References to U.S. GAAP in these notes are to the FASB Accounting Standards Codification (ASC).

Income Taxes

The Association is a public charity under Section 501(c)(3) of the Internal Revenue Code. As a public charity, the Association is exempt from state and federal income taxes on income earned in accordance with its tax-exempt purpose. Unrelated business income is subject to state and federal income tax. Management has evaluated the Association's tax positions and concluded that the Association has no unrelated business income or uncertain tax positions that require adjustment to the consolidated financial statements.

Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include highly liquid investments with an original maturity of three months or less, excluding assets limited as to use.

The Association has cash deposits in a major financial institution which may exceed federal depository insurance limits. The Association has not experienced any losses in such accounts. Management believes it is not exposed to any significant risk with respect to these accounts.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Allowance for Uncollectible Accounts

Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible accounts by analyzing the Association's past history and identification of trends for all funding sources in the aggregate. In addition, balances in excess of 365 days are fully reserved. Management regularly reviews revenue data in evaluating the sufficiency of the allowance for uncollectible accounts. Amounts not collected after all reasonable collection efforts have been exhausted are applied against the allowance for uncollectible accounts.

A reconciliation of the allowance for uncollectible accounts follows as of June 30:

	2017	2016
Balance - Beginning of Year	$ 422,974	$ 332,144
Provision	899,032	392,553
Write-Offs	(746,618)	(301,723)
Balance - End of Year	$ 575,388	$ 422,974

Investments

Investments in short-term investment options are reported as current assets. Investments held for long-term return are reported as noncurrent assets.

The Association reports investments at fair value and has elected to report all gains and losses in the excess Deficit of Revenue Over Expenses to simplify the presentation of these amounts in the consolidated statement of operations, unless otherwise stipulated by the donor or state law.

Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. As such, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the consolidated balance sheets, statements of operations, and statements of changes in net assets.

Assets Limited as to Use

Assets limited as to use includes designated assets set aside by the Board of Directors and donor contributions.

Property and Equipment

Property and equipment are carried at cost less accumulated depreciation. Assets with an estimated useful life of more than one year and a historical cost in excess of $5,000 are capitalized. Maintenance, repairs, and minor renewals are expensed as incurred and renewals and betterments are capitalized. Provision for depreciation is computed using the straight-line method over the useful lives of the related assets.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the Association has been limited by donors.

Permanently restricted net assets have been restricted by donors to be maintained by the Association in perpetuity, the income from which is expendable and is recognized as temporarily restricted net assets.

Deferred Revenue

Deferred revenue represents advances on episodic payments that have not yet been earned. Revenue is recognized over the period in which treatment is provided (60 days) on a straight-line basis.

Patient Service Revenue

Providers of home health services to clients eligible for Medicare home health benefits are paid on a prospective basis, with no retrospective settlement. The prospective payment is based on the scoring attributed to the acuity level of the client at a rate determined by federal guidelines.

Providers of hospice services to clients eligible for Medicare hospice benefits are paid on a fee for service basis, with no retrospective settlement, provided the Association's aggregate annual Medicare reimbursement is below a predetermined aggregate capitated rate. Revenue is recognized as the services are performed based on the fixed rate amount.

Charges for services to all patients are recorded as revenue when services are rendered at the net realizable amounts from patients, third-party payors, and others, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and in future periods as final settlements are determined. Patients unable to pay full charge, who do not have other third-party resources, are charged a reduced amount based on the Association's published sliding fee scale. Reductions in full charge are recognized when the service is rendered.

Contributions

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received, which is then treated as cost. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified as unrestricted net assets and reported in the statement of operations as net assets released from restrictions. Donor-restricted contributions whose restrictions are met in the same year as received are reflected as unrestricted contributions in the accompanying consolidated financial statements.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Cost Allocations

The Association operates several related programs. Costs directly attributable to a program are charged to the respective program services. Management and general costs of the Association have been allocated between the programs on the basis of actual direct program costs.

Deficiency of Revenue Over Expenses

The statement of operations includes deficiency of revenue over expenses. Increases in unrestricted net assets which are excluded from deficiency of revenue over expenses, consistent with industry practice, including contributions of, and net assets released from donor restrictions related to, long-lived assets.

NOTE 2 INVESTMENTS AND ASSETS LIMITED AS TO USE

Fair Value Measurement

FASB ASC Topic 820, *Fair Value Measurement*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants and also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The fair value hierarchy within ASC Topic 820 distinguishes three levels of inputs that may be utilized when measuring fair value.

NOTE 2 INVESTMENTS AND ASSETS LIMITED AS TO USE (CONTINUED)

Fair Value Measurement (Continued)

Level 1 – Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entry has the ability to access as of the measurement date.

Level 2 – Significant observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3 – Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

All of the Association's investments were measured on a recurring basis.

Total Permanently Restricted	$ 234,231	$ 234,231

NOTE 6 ENDOWMENTS

The Association has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds, absent explicit donor stipulations to the contrary. As a result of this interpretation, the Association classifies as a donor-restricted endowment (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent donor-restricted endowment gifts, and (c) accumulations to the donor-restricted endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Association in a manner consistent with the standard of prudence prescribed by UPMIFA.

In accordance with the UPMIFA, the Association considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

1. The duration and preservation of the fund;
2. The purposes of the organization and the donor-restricted endowment fund;
3. General economic conditions;
4. The possible effect of inflation and deflation;
5. The expected total return from income and the appreciation of investments;
6. Other resources of the Association;
7. The investment policies of the Association;
8. The spending policy; and
9. Funds with deficiencies.

Return Objectives and Risk Parameters

The investment portfolio is managed to provide for the long-term support of the Association. Accordingly, these funds are managed with disciplined, longer-term investment objectives and strategies designed to meet cash flow and spending requirements. Management of the assets is designed to attain the maximum total return consistent with acceptable and agreed upon levels of risk. The Association benchmarks its portfolio performance against a number of commonly used indices.

NOTE 6 ENDOWMENTS (CONTINUED)

Strategies Employed for Achieving Objectives

To satisfy its long-term rate of return objectives, the Association relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Association targets an asset allocation strategy wherein assets are diversified among several asset classes. The pursuit of maximizing total return is tempered by the need to minimize the volatility of returns and preserve capital. As such, the Association seeks broad diversification among assets having different characteristics with the intent to endure lower relative performance in strong markets in exchange for greater downside protection in weak markets.

Spending Policy

The Association's spending policy is equal to investment returns. All available investment returns earned on endowments are expended, or released from endowment in the year earned.

NOTE 7 PATIENT SERVICE REVENUE

Patient service revenue is as follows as of June 30:

	2017	2016
Medicare	$ 11,144,888	$ 10,503,859
Medicaid	849,769	971,613
Other Third-Party Payors	2,528,221	2,103,203
Municipalities - Fees for Service	216,962	230,028
Private Pay	1,116,543	1,650,102
Total	$ 15,856,383	$ 15,458,805

NOTE 7 PATIENT SERVICE REVENUE (CONTINUED)

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. Compliance with such laws and regulations can be subject to future government review and interpretation, as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs. The Association believes that it is in substantial compliance with all applicable laws and regulations. However, there is at least a reasonable possibility that recorded estimates could change by a material amount in the near term. Differences between amounts previously estimated and amounts subsequently determined to be recoverable or payable are included in net patient service revenue in the year that such amounts become known.

The Association provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Association does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue.

The Association provided services in other health related activities, primarily to indigent patients, at rates substantially below cost. For certain activities, services were provided without charge. The Association estimates the costs associated with providing the other health related activities by applying Medicare cost report methodology to determine program costs less any net patient revenue generated by the program. The estimated costs incurred in these activities amounted to $1,762,256 and $2,684,818 for the years June 30, 2017 and 2016, respectively.

The Association is able to provide these services with a component of funds received through local community support and federal and state grants. Local community support consists of contributions received directly from the public, United Way, municipal appropriations, and investment income earned from assets limited as to use. Federal and state grants consisted of monies received from the state of New Hampshire.

NOTE 8 FUNCTIONAL EXPENSES

The Association provides various services to residents within its geographic location. Expenses related to providing these services are as follows as of June 30:

	2017	2016
Program Services	$ 15,751,865	$ 16,094,122
Administrative and General	3,467,743	3,226,206
Total	$ 19,219,608	$ 19,320,328

NOTE 9 MALPRACTICE INSURANCE

The Association insures its malpractice risks on a claims made basis. There was one known malpractice claim outstanding at June 30, 2017 and 2016. There were no unasserted claims or incidents which require loss accrual at June 30, 2017 or 2016. The Association intends to renew coverage on a claims made basis and anticipates that such coverage will be available.

Litigation

The Association is involved in litigation arising in the normal course of business. After consultation with legal counsel, management estimates these matters will be resolved without a material adverse effect on the Association's future financial position or results of operations.

NOTE 10 RETIREMENT PLAN

The Association sponsors a defined contribution plan. The retirement contributions by the Association amounted to $145,139 and $156,431 for 2017 and 2016, respectively.

NOTE 11 CONCENTRATION OF RISK

The Association grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor agreements. Following is a summary of accounts receivable, by funding source:

	2017	2016
Medicare	50%	50%
Medicaid	5%	4%
Other Third-Party Payors	45%	46%
Total	100%	100%

NOTE 12 SUBSEQUENT EVENTS

For financial reporting purposes, subsequent events have been evaluated by management through January 8, 2018, which is the date the consolidated financial statements were available to be issued.

EXPLANATION

The purpose of this request is to renew contract services with these vendors for an additional two years. For a detailed summary of the changes please see attachment.

Comprehensive Family Support Services assist pregnant women and families with children up to the age of twenty-one (21) by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents to give families an opportunity to learn and grow.

The Division for Children, Youth and Families and the Division of Public Health Services have blended three family health and support related programs in to one program which is now represented as the Comprehensive Family Support Services.

Currently, there are twenty-five (25) community based family resource centers in operation across the State which provide a range of support services to families and children that focus on strengthening, supporting and building on the strengths and skills of individuals while also ensuring developmental screening for children six (6) and under. These centers are often key local stakeholders in groups that assess and advocate for the needs of local families.

The original contracts were competitively bid.

These contracts contain language which allows for the right to renew for up to four additional years based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

The Comprehensive Family Support Services program has served a total of 871 families and 1664 children in 2014. As a result, ninety-five percent (95%) of the families served achieved successful outcomes and remained uninvolved in a Division abuse or neglect case. The Division is satisfied with the services provided and is requesting approval to exercise two years of the renewal option reserving the Division's option to renew for the remaining two years based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

Should the Governor and Executive Council not authorize this request, the flexibility of community based family services may not be available to address the needs of children and families throughout the state which could cause an increase in the Division for Children, Youth and Families involvement for out of home placements. The services provided through these agreements help prevent separation of children from their families and afford them a safe, stable and supportive family environment.

Area Served: Statewide

SPECIAL PROVISIONS

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.

2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.

3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.

4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.

5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.

6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
   7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
   7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

Prior to subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

INDEPENDENT AUDITOR'S REPORT

Board of Directors
VNA at HCS, Inc.

We have audited the accompanying financial statements of VNA at HCS, Inc., which comprise the balance sheet as of June 30, 2015, and the related statements of operations, changes in net assets, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of VNA at HCS, Inc. as of June 30, 2015, and the results of its operations, changes in its net assets and its cash flows for the year then ended, in accordance with U.S. generally accepted accounting principles.

1. Summary of Significant Accounting Policies

Organization

VNA at HCS, Inc. (the Association), is a non-stock, non-profit corporation in New Hampshire whose primary purpose is to provide home health care and hospice services to residents residing in the City of Keene and surrounding communities. The sole member of the Association is Home Healthcare, Hospice and Community Services, Inc.

Home Healthcare, Hospice and Community Services, Inc. is a non-stock, non-profit corporation in New Hampshire whose primary purposes are to act as a holding company and provide management services to VNA at HCS, Inc.

Basis of Presentation

Net assets and revenues, expenses, gains, and losses are classified as follows based on the existence or absence of donor-imposed restrictions in accordance with the provisions of Financial Accounting Standards Board Accounting Standards Codification Topic 958, *Not-for-Profit Entities*:

Unrestricted net assets - Net assets that are not subject to donor-imposed stipulations.

Temporarily restricted net assets - Net assets subject to donor-imposed stipulations that may or will be met by actions of the Association and/or the passage of time. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. Absent explicit donor stipulations about how long-lived assets must be maintained, the Association reports expirations of donor restrictions when the asset is placed in service.

Permanently restricted net assets - Net assets subject to donor imposed stipulations that they be maintained permanently by the Association. Generally, the donors of these assets permit the Association to use all or part of the income earned on related investments for general or specific purposes.

Income Taxes

The Association is a public charity under Section 501(c)(3) of the Internal Revenue Code. As a public charity, the Association is exempt from state and federal income taxes on income earned in accordance with its tax exempt purpose. Unrelated business income is subject to state and federal income tax. Management has evaluated the Association's tax positions and concluded that the Association has no unrelated business income or uncertain tax positions that require adjustment to the financial statements.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include highly liquid investments with an original maturity of three months or less, excluding assets limited as to use.

The Association has cash deposits in a major financial institution which may exceed federal depository insurance limits. The Association has not experienced any losses in such accounts. Management believes it is not exposed to any significant risk with respect to these accounts.

Allowance for Uncollectible Accounts

Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible accounts by analyzing its past history and identifies trends for all funding sources in the aggregate. In addition, balances in excess of 365 days are fully reserved. Management regularly reviews data about revenue in evaluating the sufficiency of the allowance for doubtful accounts. Amounts not collected after all reasonable collection efforts have been exhausted are applied against the allowance for uncollectible accounts.

A reconciliation of the allowance for uncollectible accounts follows:

	2015	2014
Balance, beginning of year	$ 357,315	$ 320,768
Provision	564,481	287,740
Write-offs	(589,652)	(251,193)
Balance, end of year	$ 332,144	$ 357,315

The increase in the current year provision is primarily due to Medicare billing inquiries, a home health industry wide issue.

Assets Limited as to Use

Assets limited as to use includes designated assets set aside by the Board of Directors and donor restricted contributions.

Property and Equipment

Property and equipment are carried at cost less accumulated depreciation. Maintenance repairs and minor renewals are expensed as incurred and renewals and betterments are capitalized. Provision for depreciation is computed using the straight-line method over the useful lives of the related assets.

Patient Service Revenue

Providers of home health services to clients eligible for Medicare home health benefits are paid on a prospective basis, with no retrospective settlement. The prospective payment is based on the scoring attributed to the acuity level of the client at a rate determined by federal guidelines.

Providers of hospice services to clients eligible for Medicare hospice benefits are paid on a fee-for-service basis, with no retrospective settlement, provided the Association's aggregate annual Medicare reimbursement is below a predetermined aggregate capitated rate. Revenue is recognized as the services are performed based on the fixed rate amount.

Standard charges for services to all patients are recorded as revenue when services are rendered at the net realizable amounts from patients, third-party payers and others, including estimated retroactive adjustments under reimbursement agreements with third-party payers. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and in future periods as final settlements are determined. Patients unable to pay full charge, who do not have other third party resources, are charged a reduced amount based on the Association's published sliding fee scale. Reductions in full charge are recognized when the service is rendered.

Contributions

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received, which is then treated as cost. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the statement of operations as net assets released from restrictions. Donor-restricted contributions whose restrictions are met in the same year as received are reflected as unrestricted contributions in the accompanying financial statements.

Cost Allocations

The Association operates several related programs. Costs directly attributable to a program are charged to the respective program services. Management and general costs of the Association have been allocated between the programs on the basis of actual direct program costs.

(Deficit) Excess Revenue Over Expenses

The statements of operations reflect the (deficit) excess of revenue over expenses. Changes in unrestricted net assets which are excluded from the (deficit) excess of revenue over expenses, consistent with industry practice, are contributions of long-lived assets (including assets acquired using contributions which, by donor restriction were to be used for the purposes of acquiring such assets).

2. Property and Equipment

Property and equipment is as follows:

	2015	2014
Furniture, fixtures, and equipment	$ 1,602,366	$ 1,527,057
Less accumulated depreciation	1,345,928	1,171,745
Total property and equipment, net	$ 256,438	$ 355,312

3. Temporarily and Permanently Restricted Net Assets

Temporarily and permanently restricted net assets are as follows:

	2015	2014
Temporarily restricted		
Meal sites	$ 2,777	$ 3,137
Respite	4,089	6,629
Shea charitable gifts	-	16,690
Total	$ 6,866	$ 26,456
Permanently restricted		
Hospice	$ 10,000	$ 10,000
Operations	8,623	8,658
Total	$ 18,623	$ 18,658

In 2015 the Association reviewed historical data relating to permanently restricted net assets and reclassified certain gifts to temporarily restricted net assets based upon interpretation of the initial donor intent.

4. Patient Service Revenue

Patient service revenue is as follows:

	2015	2014
Medicare	$ 9,881,992	$10,452,131
Medicaid	1,111,787	1,221,733
Other third-party payers	1,859,583	1,862,515
Municipalities - fee for service	184,362	149,068
Private pay	1,634,788	1,691,759
Total	$14,672,512	$15,377,206

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. Compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties and exclusion from the Medicare and Medicaid programs. The Association believes that it is in substantial compliance with all applicable laws and regulations. However, there is at least a reasonable possibility that recorded estimates could change by a material amount in the near term. Differences between amounts previously estimated and amounts subsequently determined to be recoverable or payable are included in net patient service revenue in the year that such amounts become known.

The Association provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Association does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue.

The Association provided services in other health-related activities, primarily to indigent patients, at rates substantially below cost. For certain activities, services were provided without charge. The Association estimates the costs associated with providing the other health-related activities by applying Medicare cost report methodology to determine program costs less any net patient revenue generated by the program. The estimated costs incurred in these activities amounted to $2,879,336 and $2,704,549 for the years June 30, 2015 and 2014, respectively.

The Association is able to provide these services with a component of funds received through local community support and federal and state grants. Local community support consists of contributions received directly from the public, United Way, municipal appropriations, and investment income earned from assets limited as to use. Federal and state grants consisted of monies received from the State of New Hampshire.

Deferred Revenue

Deferred revenue represents advances on episodic payments that have not yet been earned. Revenue is recognized over the period in which treatment is provided (60 days) on a straight-line basis.

5. Functional Expenses

The Association provides various services to residents within its geographic location. Expenses related to providing these services are as follows:

	2015	2014
Program services	**$15,287,565**	$15,525,389
Administrative and general	**3,054,725**	3,045,680
Total	**$18,342,290**	$18,571,069

6. Malpractice Insurance

The Association insures its malpractice risks on a claims-made basis. There were no known malpractice claims outstanding at June 30, 2015 and 2014, nor are there any unasserted claims or incidents which require loss accrual. The Association intends to renew coverage on a claims-made basis and anticipates that such coverage will be available.

7. Retirement Plan

The Association sponsors a defined contribution plan. The retirement contributions by the Association amounted to $119,444 and $112,136 for 2015 and 2014, respectively.

8. Related Party Transactions

The Association purchased management services from Home Healthcare, Hospice & Community Services, Inc. amounting to $3,054,725 and $3,045,680 and $219,444 and $73,043 in contract services for the years ended 2015 and 2014, respectively. The amounts due from Home Healthcare, Hospice & Community Services, Inc. for these services was $ 4,355,625 in 2015 and 4,918,954 in 2014.

9. Concentration of Risk

The Association grants credit without collateral to its patients, most of who are local residents and are insured under third-party payer agreements. At June 30, 2015, Medicare and Medicaid represented 51% and 10% of gross accounts receivable, respectively. No other individual payor source exceeded 10% of the gross receivable balance.

10. Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation.

11. Subsequent Events

For financial reporting purposes, subsequent events have been evaluated by management through November 5, 2015, which is the date the financial statements were available to be issued.

WORK HISTORY

8/2010- *Social Worker, Home Healthcare, Hospice and Community Services*

As a Maternal Child Health Social Worker, I provide assists clients and families in developing and implementing an appropriate plan of care to meet their needs. I conduct case finding activities in the community, and help families access all available support services for a healthy family.

6/2009-*Monadnock Family Service, Family Intervention Specialist*

In the position of Family Intervention Specialist, I visit families in their home and try to prevent abuse and neglect in potential situations. Often times, the families are in crises, whether it be food, shelter or financial short comings. More often than not, there are mental illnesses or substance abuse problems and we help families through those circumstances as well by referring them to appropriate agencies. When the crisis is stabilized, we can then focus on our primary goals of empowering parents to use proper parenting techniques.

2/2009- *Monadnock Family Services, Children's' Group Leader & CFSA*

As a Children's Group Leader, I monitor children while their parents attend classes to better themselves. I tend to the children's needs and ensure that their needs are met. I also maintain a curriculum to parallel what the parents are learning in their class, so children and parents are both educated on the same topics.

As a Community & Family Services Associate, I bring children to my home to try to portray what a healthy environment is where as they may not get that at home. I follow guidelines to initiate treatments to individual children, to work on certain goals, and to give them a break from their family and the family a break from them.

2004-2009 *Stay at home mom*

2002-2004 *Department of Health and Human Services, Division of Family Services, Family Services Specialist*

EXPLANATION

Comprehensive Family Support Services assist pregnant women and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents and give families an opportunity to learn and grow.

The Division for Children, Youth and Families and Division of Public Health Services /Maternal Child Health Services blended three family health and support related programs, into one program. This Comprehensive Family Support Services represents such efforts.

New Hampshire DHHS Comprehensive Family Support Services:

In 2002, The Division for Children, Youth and Families, launched a family support partnership, entitled Comprehensive Family Support Services. Support and prevention-based services and programs were provided to thousands families and individuals throughout the state. Due to the success of these prevention-oriented programs, the Division for Children, Youth and Families has recognized the benefit of provider services to families as an effort to keep them from becoming involved in other systems of care.

Currently, there are 25 community-based family resource centers in operation across the State of New Hampshire, which provide a range of support services to families and children that focus on strengthening, supporting and building on the strengths and skills of individuals while also ensuring developmental screening for children six and under. These centers are often key local stakeholders in groups that assess and advocate for the needs of local families.

New Hampshire DHHS Home Visiting NH:

In 2001, the Division of Public Health Services Maternal and Child Health Section began Home Visiting New Hampshire, a statewide, family focused and child centered, preventive program that provides, health, education, support and linkages to community services to eligible, pregnant women and their families in their home until her child is twelve (12) months old. Contractors provide these services in nine (9) of the Division for Children, Youth and Families service areas. The goals of Home Visiting New Hampshire are to promote healthy pregnancy and birth outcomes, promote a safe and nurturing environment for children, and enhance families' life course and development.

Child and Family Health Support Services:

Child and Family Health Support Services have been available through local community health and home visiting agencies for approximately twenty years with funds that had previously supported the state's network of "well baby clinics". These services provide assistance with health care enrollment, referrals, case management, care coordination, education and counseling relative to the child and family and can be conducted by home, office visit or by telephone when appropriate. The goal of Child and Family Health Support Services is to promote the health and well-being of children from birth through age eighteen, with priority given to children birth through age ten.

This contract was competitively bid. On January 21, 2014 the Department issued a Request for Proposals to solicit proposals for the provision of Comprehensive Family Support Services to assist expectant women along with children and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. The request for proposals was available on the Department of Health and Human Services website from January 21, 2014 through March 10, 2014. There were 12 proposals submitted.

The proposals were evaluated by a team of Department of Health and Human Services employees with knowledge of the program requirements, the Division for Children, Youth and Families' Comprehensive Family Support Services program and the Division of Public Health Services, Maternal and Child Health Section. The team also included staff with significant business and management expertise.

The proposals were evaluated based on the criteria published in the Request for Proposals. Eleven of the twelve proposals were selected. The bid summary is attached.

The attached contract calls for the provision of these services for two years and reserves the Division's right to renew the agreement for up to four additional years, based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

Should Governor and Council not authorize this request, the flexibility of community-based family services may not be available to address the needs of children and families throughout the state which could cause an increase in the Division for Children, Youth and Families involvement for out-of-home placement, as these services help to prevent the separation of children from their families and afford them a safe, stable and supportive family environment.

Area Served: Statewide.

In the event that Federal Funds are no longer available, no additional General Funds will be requested to support this program.

1. The Contractor's maximum yearly-authorized amount for preventive child care dollars is $20,000. Preventive child care shall not be authorized in excess of the standard rate. (see page 2 of this Exhibit).

   1.1 Out of this maximum yearly amount, for those families that the Contractor determines should receive preventive child care, the Contractor shall authorize no more than twelve weeks of child care services at a time.

   1.2 The Contractor shall maintain utilization data that includes the family's name and authorized amounts; this information shall accompany the Contractor's billing invoice submitted to DCYF on a monthly basis.

2. To access the preventive child care service, the Contractor shall identify an appropriate provider.

   2.1 The Contractor shall contact the designated DCYF preventive child care Provider Relations Specialist to authorize the family's enrollment into this service and provide the Specialist with the required family and provider contact information necessary to complete the authorization process through NH Bridges, utilizing form 2096 (See Exhibit A-2).

   2.2 The Provider Relations Specialist shall complete the authorization process to generate child care billing forms that will automatically be sent to the designated provider on a weekly basis.

   2.3 If the Contractor identifies a new child care provider that is willing to be certified by DCYF to provide preventive child care, the Contractor shall contact the Provider Relations Specialist and provide the name and address of the provider. Preventive child care services cannot be authorized until the provider has been certified by DCYF.

3. If the Contractor determines that child care services are required beyond the initial twelve-week authorization, the Contractor shall follow steps 2.1 and 2.2 above.

4. If the Contractor determines that authorized child care is no longer needed or appropriate, the Contractor shall contact the Provider Relations Specialist to request that this service be terminated for the applicable family.

5. The Contractor shall routinely track the amount of child care that it authorizes through DCYF. Upon reaching the yearly allotment, the Contractor shall notify DCYF in writing (e-mail is acceptable), to ensure that no further authorizations are processed.

6. DCYF shall monitor preventive child care usage based on the utilization data provided by the Contractor. Should monitoring reveal that authorized child care services are not being utilized (the child care provider does not submit invoices for payments); DCYF shall notify the Contractor to determine whether the authorization should remain active in the NH Bridges system.

   6.1 The Contractor shall contact the family and child care provider to determine the status of child care usage and notify them of the decision whether to continue or rescind authorization for child care resources not yet utilized.

Prior to

subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

   I. For the proper management and administration of the Business Associate;
   II. As required by law, pursuant to the terms set forth in paragraph d. below; or
   III. For data aggregation purposes for the health care operations of Covered Entity.

c. To the extent Business Associate is permitted under the Agreement to disclose PHI to a third party, Business Associate must obtain, prior to making any such disclosure, (i) reasonable assurances from the third party that such PHI will be held confidentially and used or further disclosed only as required by law or for the purpose for which it was disclosed to the third party; and (ii) an agreement from such third party to notify Business Associate, in accordance with the HIPAA Privacy, Security, and Breach Notification Rules of any breaches of the confidentiality of the PHI, to the extent it has obtained knowledge of such breach.

d. The Business Associate shall not, unless such disclosure is reasonably necessary to provide services under Exhibit A of the Agreement, disclose any PHI in response to a request for disclosure on the basis that it is required by law, without first notifying Covered Entity so that Covered Entity has an opportunity to object to the disclosure and to seek appropriate relief. If Covered Entity objects to such disclosure, the Business

Associate shall refrain from disclosing the PHI until Covered Entity has exhausted all remedies.

e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

(3) Obligations and Activities of Business Associate.

a. The Business Associate shall notify the Covered Entity's Privacy Officer immediately after the Business Associate becomes aware of any use or disclosure of protected health information not provided for by the Agreement including breaches of unsecured protected health information and/or any security incident that may have an impact on the protected health information of the Covered Entity.

b. The Business Associate shall immediately perform a risk assessment when it becomes aware of any of the above situations. The risk assessment shall include, but not be limited to:

- The nature and extent of the protected health information involved, including the types of identifiers and the likelihood of re-identification;
- The unauthorized person used the protected health information or to whom the disclosure was made;
- Whether the protected health information was actually acquired or viewed
- The extent to which the risk to the protected health information has been mitigated.

The Business Associate shall complete the risk assessment within 48 hours of the breach and immediately report the findings of the risk assessment in writing to the Covered Entity.

c. The Business Associate shall comply with all sections of the Privacy, Security, and Breach Notification Rule.

d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.

e. Business Associate shall require all of its business associates that receive, use or have access to PHI under the Agreement, to agree in writing to adhere to the same restrictions and conditions on the use and disclosure of PHI contained herein, including the duty to return or destroy the PHI as provided under Section 3 (l). The Covered Entity shall be considered a direct third party beneficiary of the Contractor's business associate agreements with Contractor's intended business associates, who will be receiving PHI

pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard Paragraph #13 of the standard contract provisions (P-37) of this Agreement for the purpose of use and disclosure of protected health information.

f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

g. Within ten (10) business days of receiving a written request from Covered Entity, Business Associate shall provide access to PHI in a Designated Record Set to the Covered Entity, or as directed by Covered Entity, to an individual in order to meet the requirements under 45 CFR Section 164.524.

h. Within ten (10) business days of receiving a written request from Covered Entity for an amendment of PHI or a record about an individual contained in a Designated Record Set, the Business Associate shall make such PHI available to Covered Entity for amendment and incorporate any such amendment to enable Covered Entity to fulfill its obligations under 45 CFR Section 164.526.

i. Business Associate shall document such disclosures of PHI and information related to such disclosures as would be required for Covered Entity to respond to a request by an individual for an accounting of disclosures of PHI in accordance with 45 CFR Section 164.528.

j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.

l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.

c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) Miscellaneous

a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.

c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.

d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) I, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

IN WITNESS WHEREOF, the parties hereto have duly executed this Exhibit I.

INDEPENDENT AUDITORS' REPORT

We have audited the accompanying financial statements of Lakes Region Community Services Council, Inc. (a nonprofit organization), which comprise the statements of financial position as of June 30, 2017 and 2016, and the related statements of cash flows, and notes to the financial statements for the years then ended, and the related statements of activities and functional expenses for the year ended June 30, 2017.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditors' Responsibility
Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Lakes Region Community Services Council, Inc. as of June 30, 2017 and 2016, and its cash flows for the years then ended, and the changes in its net assets for the year ended June 30, 2017 in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information
We have previously audited the Lakes Region Community Services Council, Inc.'s June 30, 2016 financial statements, and we expressed an unmodified opinion on those audited financial statements in our report dated September 30, 2016. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2016, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Report on Supplementary Information
Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The schedule of functional revenues on pages 17-19 is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

LAKES REGION COMMUNITY SERVICES COUNCIL, INC.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED JUNE 30, 2017 AND 2016

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Lakes Region Community Services Council, Inc. (the Council) is a New Hampshire nonprofit corporation organized exclusively for charitable purposes to ensure there is a coordinated and efficient program of human services dealing effectively with the problems and needs of the developmentally impaired of Belknap County, lower Grafton County and the surrounding communities.

Basis of Accounting

The financial statements of Lakes Region Community Services Council, Inc. have been prepared on the accrual basis of accounting.

Basis of Presentation

The Council is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets. The classes of net assets are determined by the presence or absence of donor restrictions.

Unrestricted: Net assets that are not subject to donor-imposed stipulations. Unrestricted net assets may be designated for specific purposes by action of the Board of Directors.

Temporarily Restricted: Net assets whose use is limited by donor-imposed stipulations that will either expire with the passage of time or be fulfilled or removed by actions of the Council.

Permanently Restricted: Reflects the historical cost of gifts (and in certain circumstances, the earnings from those gifts), subject to donor – imposed stipulations, which require the corpus to be invested in perpetuity to produce income for general or specific purposes.

As of June 30, 2017 and 2016, the Council had unrestricted and temporarily restricted net assets.

Cash and Cash Equivalents

For the purposes of the Statements of Cash Flows, the Council considers all demand deposits, money market funds, and short term investments with original maturities of three months or less to be cash equivalents.

Certificates of Deposits

The certificates of deposits are carried at fair value. Interest is accrued and recognized in income when earned.

Accounts Receivable

Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to activities and a credit to a valuation allowance based on historical account write-off patterns by the payor, adjusted as necessary to reflect current conditions. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable.

The Council has no policy for charging interest on overdue accounts nor are its accounts receivable pledged as collateral, except as disclosed in Note 3.

It is the policy of the Council to provide services to all eligible residents of central New Hampshire without regard to ability to pay. As a result of this policy, all charity care write-offs are recorded as reductions in revenue in the period in which services are provided. The accounts receivable allowance includes the estimated amount of charity care and contractual allowances included in the accounts receivable balances. The computation of the contractual allowance is based on historical ratios of fees charged to amounts collected.

Contributions

All contributions are considered to be available for unrestricted use unless specifically restricted by the donor. Amounts received that are restricted by the donor for future periods or for specific purposes are reported as temporarily restricted or permanently restricted support, depending on the nature of the restrictions. However, if a restriction is fulfilled in the same period in which the contribution is received, the Council reports the support as unrestricted.

Property, Plant and Depreciation

Property and equipment are recorded at cost or, if contributed, at estimated fair value at the date of contribution. Material assets with a useful life in excess of one year are capitalized. Depreciation is provided for using the straight-line method in amounts designed to amortize the cost of the assets over their estimated useful lives as follows:

Buildings and improvements	5 - 40 Years
Furniture, fixtures and equipment	3 - 10 Years

Costs for repairs and maintenance are expensed when incurred and betterments are capitalized. Assets sold or otherwise disposed of are removed from the accounts, along with the related accumulated depreciation, and any gain or loss is recognized.

Fair Value of Financial Instruments

The Council's financial instruments consist of cash, certificates of deposits, short-term receivables and payables and customer deposits. The carrying value for all such instruments, considering the terms, approximates fair value at June 30, 2017 and 2016.

Refundable Advances
Grants received in advance are recorded as refundable advances and recognized as revenue in the period in which the related services or expenditures are incurred.

Summarized Financial Information
The financial statements include certain prior-year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the Council's financial statements for the year ended June 30, 2016, from which the summarized information was derived.

Accrued Earned Time
The Council has accrued a liability for future compensated leave time that its employees have earned and which is vested with the employee.

Income Taxes
The Council is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. The Internal Revenue Service has determined the Council to be other than a private foundation.

Management has evaluated the Council's tax positions and concluded that the Council has maintained its tax-exempt status and has taken no uncertain tax positions that would require adjustment to the financial statements. With few exceptions, the Council is no longer subject to income tax examinations by the United States Federal or State tax authorities prior to 2014.

Advertising
The Council expenses advertising costs as incurred.

Functional Allocation of Expenses
The costs of providing the various programs and other activities have been summarized on a functional basis. Accordingly, costs have been allocated among the program services and supporting activities benefited.

Accounting Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Effective January 5, 2017 the Council renewed the revolving line of credit through December 31, 2017, and is collateralized by all of the business assets of the Council and guaranteed by related nonprofit organizations (see Note 8). At June 30, 2017 and 2016, the interest was stated at the bank's prime rate of 4.25% and 3.50%, respectively. There was no amount outstanding on this line of credit at June 30, 2017 and 2016.

4. RESTRICTIONS ON NET ASSETS

During the year ended June 30, 2012, the Council received donated surplus property in the form of a building. The temporarily restricted net assets at June 30, 2017 and 2016 consist of the net value of the building. The use of this building is restricted by deed for thirty years from the date of donation. As depreciation expense reduces the net book value of the building, temporarily restricted net assets are adjusted accordingly.

5. RETIREMENT PLAN

The Council maintains a retirement plan for all eligible employees. During the years ended June 30, 2017 and 2016, the Council made matching contributions of 100% of a participant's salary reduction that was not in excess of 1.5% of the participant's compensation. All employees who work one thousand hours per year are eligible to participate after one year of employment. The Council's contribution to the retirement plan for the years ended June 30, 2017 and 2016 was $53,148 and $63,923, respectively.

For the years ended June 30, 2017 and 2016, approximately 84% and 83%, respectively, of the total revenue was derived from Medicaid. The future existence of the Council is dependent upon continued support from Medicaid.

In order for the Council to receive Medicaid funding, they must be formally approved by the State of New Hampshire, Division of Mental Health and Developmental Services as the provider of services for developmentally disabled individuals for that region. In June 2016, the Council was re-designated for the period September 2015 through September 2020.

Medicaid receivables comprise approximately 76% and 87% of the total accounts receivable balances at June 30, 2017 and 2016, respectively.

7. LEASE COMMITMENTS

The Council has entered into various operating lease agreements to rent certain facilities and office equipment for their community residences and other programs. The terms of these leases range from one to ten years. The Council also leases various apartments on behalf of clients on a month-to-month basis. 9. CONTINGENCIES - GRANT COMPLIANCE

The Council receives funds under various state grants and from Federal sources. Under the terms of these agreements, the Council is required to use the funds within a certain period and for purposes specified by the governing laws and regulations. If expenditures were found not to have been made in compliance with the laws and regulations, the Council may be required to repay the funds.

No provisions have been made for this contingency because specific amounts, if any, have not been determined or assessed by government audits as of June 30, 2017.

10. CLIENT FUNDS

The Council administers funds for certain consumers. No asset or liability has been recorded for this amount. As of June 30, 2017 and 2016, client funds held by the Council aggregated $221,183 and $223,551, respectively.

11. CONCENTRATION OF CREDIT RISK

The Council maintains cash balances that, at times may exceed federally insured limits. The balances are insured by the Federal Deposit Insurance Corporation (FDIC) up to $250,000 at June 30, 2017 and 2016. In addition to FDIC coverage, certain deposits of the Council are insured or collateralized through other means. The Council has not experienced any losses in such accounts and believes it is not exposed to any significant risk with these accounts. At June 30, 2017 and 2016, cash balances in excess of FDIC coverage aggregated $280,370 and $617,057, respectively.

12. FINANCIAL INSTRUMENTS WITH OFF STATEMENT OF FINANCIAL POSITION RISK

The Council maintains a repurchase account agreement with a bank. A portion of the Council's overnight deposit bank balances are divided into amounts under the FDIC limit of $250,000 and swept into various insured bank accounts. This agreement provides flexibility to the Council by allowing them to maintain large cash balances in excess of the standard FDIC limit individually, but when spread across multiple banks, providing insurance for the full amount of the repurchase account.

13. CONTINGENT LIABILITY HEALTH INSURANCE COSTS

During the year ended June 30, 2016, the Council experienced significant health insurance claims exceeding the insurance company's estimates. As such, the insurance company informed the Council of the actuarial estimates of the increased health insurance costs incurred. The estimated liability associated with this health insurance cost was $200,000 for the year ended June 30, 2016. In accordance with Financial Accounting Standards Board ASC Topic 450-20, the Council had recorded this amount as a contingent liability.

During the year ended June 30, 2017 the Council's health insurance claims returned to historical levels. Management has evaluated the circumstances and determined that no contingent liability is necessary as of June 30, 2017.

14. RECLASSIFICATION

EXPLANATION

The purpose of this request is to renew contract services with these vendors for an additional two years. For a detailed summary of the changes please see attachment.

Comprehensive Family Support Services assist pregnant women and families with children up to the age of twenty-one (21) by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents to give families an opportunity to learn and grow.

The Division for Children, Youth and Families and the Division of Public Health Services have blended three family health and support related programs in to one program which is now represented as the Comprehensive Family Support Services.

Currently, there are twenty-five (25) community based family resource centers in operation across the State which provide a range of support services to families and children that focus on strengthening, supporting and building on the strengths and skills of individuals while also ensuring developmental screening for children six (6) and under. These centers are often key local stakeholders in groups that assess and advocate for the needs of local families.

The original contracts were competitively bid.

These contracts contain language which allows for the right to renew for up to four additional years based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

The Comprehensive Family Support Services program has served a total of 871 families and 1664 children in 2014. As a result, ninety-five percent (95%) of the families served achieved successful outcomes and remained uninvolved in a Division abuse or neglect case. The Division is satisfied with the services provided and is requesting approval to exercise two years of the renewal option reserving the Division's option to renew for the remaining two years based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

Should the Governor and Executive Council not authorize this request, the flexibility of community based family services may not be available to address the needs of children and families throughout the state which could cause an increase in the Division for Children, Youth and Families involvement for out of home placements. The services provided through these agreements help prevent separation of children from their families and afford them a safe, stable and supportive family environment.

SPECIAL PROVISIONS

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.

2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.

3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.

4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.

5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.

6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
   7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
   7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

RECORDS: MAINTENANCE, RETENTION, AUDIT, DISCLOSURE AND CONFIDENTIALITY:

8. **Maintenance of Records:** In addition to the eligibility records specified above, the Contractor covenants and agrees to maintain the following records during the Contract Period:

   8.2. Statistical Records: Statistical, enrollment, attendance or visit records for each recipient of services during the Contract Period, which records shall include all records of application and eligibility (including all forms required to determine eligibility for each such recipient), records regarding the provision of services and all invoices submitted to the Department to obtain payment for such services.
   8.3. Medical Records: Where appropriate and as prescribed by the Department regulations, the Contractor shall retain medical records on each patient/recipient of services.

9. **Audit:** Contractor shall submit an annual audit to the Department within 60 days after the close of the agency fiscal year. It is recommended that the report be prepared in accordance with the provision of Office of Management and Budget Circular A-133, "Audits of States, Local Governments, and Non Profit Organizations" and the provisions of Standards for Audit of Governmental Organizations, Programs, Activities and Functions, issued by the US General Accounting Office (GAO standards) as they pertain to financial compliance audits.
   9.1. Audit and Review: During the term of this Contract and the period for retention hereunder, the Department, the United States Department of Health and Human Services, and any of their designated representatives shall have access to all reports and records maintained pursuant to the Contract for purposes of audit, examination, excerpts and transcripts.
   9.2. Notwithstanding anything to the contrary contained herein the covenants and conditions contained in the Paragraph shall survive the termination of the Contract for any reason whatsoever.

11. **Reports:** Fiscal and Statistical: The Contractor agrees to submit the following reports at the following times if requested by the Department.
    11.1. Interim Financial Reports: Written interim financial reports containing a detailed description of all costs and non-allowable expenses incurred by the Contractor to the date of the report and containing such other information as shall be deemed satisfactory by the Department to justify the rate of payment hereunder. Such Financial Reports shall be submitted on the form designated by the Department or deemed satisfactory by the Department.
    11.2. Final Report: A final report shall be submitted within thirty (30) days after the end of the term of this Contract. The Final Report shall be in a form satisfactory to the Department and shall contain a summary statement of progress toward goals and objectives stated in the Proposal and other information required by the Department.

12. **Completion of Services:** Disallowance of Costs: Upon the purchase by the Department of the maximum number of units provided for in the Contract and upon payment of the price limitation hereunder, the Contract and all the obligations of the parties hereunder (except such obligations as, by the terms of the Contract are to be performed after the end of the term of this Contract and/or survive the termination of the Contract) shall terminate, provided however, that if, upon review of the Final Expenditure Report the Department shall disallow any expenses claimed by the Contractor as costs hereunder the Department shall retain the right, at its discretion, to deduct the amount of such expenses as are disallowed or to recover such sums from the Contractor.

13. **Credits:** All documents, notices, press releases, research reports and other materials prepared during or resulting from the performance of the services of the Contract shall include the following statement:
    13.1. 14. **Prior Approval and Copyright Ownership:** All materials (written, video, audio) produced or purchased under the contract shall have prior approval from DHHS before printing, production, distribution or use. The DHHS will retain copyright ownership for any and all original materials produced, including, but not limited to, brochures, resource directories, protocols or guidelines, posters, or reports. Contractor shall not reproduce any materials produced under the contract without prior written approval from DHHS.

15. **Operation of Facilities: Compliance with Laws and Regulations:** In the operation of any facilities for providing services, the Contractor shall comply with all laws, orders and regulations of federal, state, county and municipal authorities and with any direction of any Public Officer or officers pursuant to laws which shall impose an order or duty upon the contractor with respect to the operation of the facility or the provision of the services at such facility. If any governmental license or permit shall be required for the operation of the said facility or the performance of the said services, the Contractor will procure said license or permit, and will at all times comply with the terms and conditions of each such license or permit. In connection with the foregoing requirements, the Contractor hereby covenants and agrees that, during the term of this Contract the facilities shall comply with all rules, orders, regulations, and requirements of the State Office of the Fire Marshal and the local fire protection agency, and shall be in conformance with local building and zoning codes, by-laws and regulations.

more employees, it will maintain a current EEOP on file and submit an EEOP Certification Form to the OCR, certifying that its EEOP is on file. For recipients receiving less than $25,000, or public grantees with fewer than 50 employees, regardless of the amount of the award, the recipient will provide an EEOP Certification Form to the OCR certifying it is not required to submit or maintain an EEOP. Non-profit organizations, Indian Tribes, and medical and educational institutions are exempt from the EEOP requirement, but are required to submit a certification form to the OCR to claim the exemption. 19. **Subcontractors:** DHHS recognizes that the Contractor may choose to use subcontractors with greater expertise to perform certain health care services or functions for efficiency or convenience, but the Contractor shall retain the responsibility and accountability for the function(s). Prior to subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. INDEPENDENT AUDITORS' REPORT

We have audited the accompanying financial statements of Lakes Region Community Services Council, Inc. (a nonprofit organization), which comprise the statements of financial position as of June 30, 2015 and 2014, and the related statements of cash flows, and notes to the financial statements for the years then ended, and the related statements of activities and functional expenses for the year ended June 30, 2015.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditors' Responsibility
Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Lakes Region Community Services Council, Inc. as of June 30, 2015 and 2014, and its cash flows for the years then ended, and the changes in its net assets for the year ended June 30, 2015 in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information
We have previously audited the Lakes Region Community Services Council, Inc.'s June 30, 2014 financial statements, and we expressed an unmodified opinion on those audited financial statements in our report dated September 24, 2014. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2014, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Matters
Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The schedule of functional revenues on pages 17-19 is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED JUNE 30, 2015 AND 2014

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Lakes Region Community Services Council, Inc. (the Council) is a New Hampshire nonprofit corporation organized exclusively for charitable purposes to ensure there is a coordinated and efficient program of human services dealing effectively with the problems and needs of the developmentally impaired of Belknap County, lower Grafton County and the surrounding communities.

Basis of Accounting

The financial statements of Lakes Region Community Services Council, Inc. have been prepared on the accrual basis of accounting.

Basis of Presentation

The Council is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets. The classes of net assets are determined by the presence or absence of donor restrictions.

Unrestricted: Net assets that are not subject to donor-imposed stipulations. Unrestricted net assets may be designated for specific purposes by action of the Board of Directors.

Temporarily Restricted: Net assets whose use is limited by donor-imposed stipulations that will either expire with the passage of time or be fulfilled or removed by actions of the Council.

Permanently Restricted: Reflects the historical cost of gifts (and in certain circumstances, the earnings from those gifts), subject to donor – imposed stipulations, which require the corpus to be invested in perpetuity to produce income for general or specific purposes.

As of June 30, 2015 and 2014, the Council had unrestricted and temporarily restricted net assets.

Accounts Receivable

Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to activities and a credit to a valuation allowance based on historical account write-off patterns by the payor, adjusted as necessary to reflect current conditions. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable.

The Council has no policy for charging interest on overdue accounts nor are its accounts receivable pledged as collateral, except as disclosed in Note 3.

It is the policy of the Council to provide services to all eligible residents of central New Hampshire without regard to ability to pay. As a result of this policy, all charity care write-offs are recorded as reductions in revenue in the period in which services are provided. The accounts receivable allowance includes the estimated amount of charity care and contractual allowances included in the accounts receivable balances. The computation of the contractual allowance is based on historical ratios of fees charged to amounts collected.

Contributions

All contributions are considered to be available for unrestricted use unless specifically restricted by the donor. Amounts received that are restricted by the donor for future periods or for specific purposes are reported as temporarily restricted or permanently restricted support, depending on the nature of the restrictions. However, if a restriction is fulfilled in the same period in which the contribution is received, the Council reports the support as unrestricted.

Property and Depreciation

Property and equipment are recorded at cost or, if contributed, at estimated fair value at the date of contribution. Material assets with a useful life in excess of one year are capitalized. Depreciation is provided for using the straight-line method in amounts designed to amortize the cost of the assets over their estimated useful lives as follows:

Buildings and improvements	5 - 40 Years
Furniture, fixtures and equipment	3 - 10 Years

Costs for repairs and maintenance are expensed when incurred and betterments are capitalized. Assets sold or otherwise disposed of are removed from the accounts, along with the related accumulated depreciation, and any gain or loss is recognized.

Fair Value of Financial Instruments

The Council's financial instruments consist of cash, short-term receivables and payables, short-term notes payable and customer deposits. The carrying value for all such instruments, considering the terms, approximates fair value at June 30, 2015 and 2014.

Refundable Advances

Grants received in advance are recorded as refundable advances and recognized as revenue in the period in which the related services or expenditures are incurred.

Summarized Financial Information

The financial statements include certain prior-year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the Council's financial statements for the year ended June 30, 2014, from which the summarized information was derived.

Accrued Earned Time
The Council has accrued a liability for future compensated leave time that its employees have earned and which is vested with the employee.

Income Taxes
The Council is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. The Internal Revenue Service has determined the Council to be other than a private foundation.

Management has evaluated the Council's tax positions and concluded that the Council has maintained its tax-exempt status and has taken no uncertain tax positions that would require adjustment to the financial statements. With few exceptions, the Council is no longer subject to income tax examinations by the United States Federal or State tax authorities prior to 2011.

Advertising
The Council expenses advertising costs as incurred.

Functional Allocation of Expenses
The costs of providing the various programs and other activities have been summarized on a functional basis. Accordingly, costs have been allocated among the program services and supporting activities benefited.

Accounting Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events
Subsequent events have been evaluated through October 8, 2015, the date the financial statements were available to be issued.

EXPLANATION

Comprehensive Family Support Services assist pregnant women and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents and give families an opportunity to learn and grow.

The Division for Children, Youth and Families and Division of Public Health Services /Maternal Child Health Services blended three family health and support related programs, into one program. This Comprehensive Family Support Services represents such efforts.

New Hampshire DHHS Comprehensive Family Support Services:

In 2002, The Division for Children, Youth and Families, launched a family support partnership, entitled Comprehensive Family Support Services. Support and prevention-based services and programs were provided to thousands families and individuals throughout the state. Due to the success of these prevention-oriented programs, the Division for Children, Youth and Families has recognized the benefit of provider services to families as an effort to keep them from becoming involved in other systems of care.

Currently, there are 25 community-based family resource centers in operation across the State of New Hampshire, which provide a range of support services to families and children that focus on strengthening, supporting and building on the strengths and skills of individuals while also ensuring developmental screening for children six and under. These centers are often key local stakeholders in groups that assess and advocate for the needs of local families.

New Hampshire DHHS Home Visiting NH:

In 2001, the Division of Public Health Services Maternal and Child Health Section began Home Visiting New Hampshire, a statewide, family focused and child centered, preventive program that provides, health, education, support and linkages to community services to eligible, pregnant women and their families in their home until her child is twelve (12) months old. Contractors provide these services in nine (9) of the Division for Children, Youth and Families service areas. The goals of Home Visiting New Hampshire are to promote healthy pregnancy and birth outcomes, promote a safe and nurturing environment for children, and enhance families' life course and development.

Child and Family Health Support Services:

Child and Family Health Support Services have been available through local community health and home visiting agencies for approximately twenty years with funds that had previously supported the state's network of "well baby clinics". These services provide assistance with health care enrollment, referrals, case management, care coordination, education and counseling relative to the child and family and can be conducted by home, office visit or by telephone when appropriate. The goal of Child and Family Health Support Services is to promote the health and well-being of children from birth through age eighteen, with priority given to children birth through age ten.

This contract was competitively bid. On January 21, 2014 the Department issued a Request for Proposals to solicit proposals for the provision of Comprehensive Family Support Services to assist expectant women along with children and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. The request for proposals was available on the Department of Health and Human Services website from January 21, 2014 through March 10, 2014. There were 12 proposals submitted.

The proposals were evaluated by a team of Department of Health and Human Services employees with knowledge of the program requirements, the Division for Children, Youth and Families' Comprehensive Family Support Services program and the Division of Public Health Services, Maternal and Child Health Section. The team also included staff with significant business and management expertise.

The proposals were evaluated based on the criteria published in the Request for Proposals. Eleven of the twelve proposals were selected. The bid summary is attached.

The attached contract calls for the provision of these services for two years and reserves the Division's right to renew the agreement for up to four additional years, based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

Should Governor and Council not authorize this request, the flexibility of community–based family services may not be available to address the needs of children and families throughout the state which could cause an increase in the Division for Children, Youth and Families involvement for out-of-home placement, as these services help to prevent the separation of children from their families and afford them a safe, stable and supportive family environment.

Area Served: Statewide.

Source of Funds: 95.34% Federal Funds
4.66% General Funds

In the event that Federal Funds are no longer available, no additional General Funds will be requested to support this program.

SPECIAL PROVISIONS

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.

2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.

3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.

4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.

5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.

6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party fundors for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party fundors, the Department may elect to:
   7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
   7.2 Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

   8.2. Statistical Records: Statistical, enrollment, attendance or visit records for each recipient of services during the Contract Period, which records shall include all records of application and eligibility (including all forms required to determine eligibility for each such recipient), records regarding the provision of services and all invoices submitted to the Department to obtain payment for such services.

9. **Audit:** Contractor shall submit an annual audit to the Department within 60 days after the close of the agency fiscal year. It is recommended that the report be prepared in accordance with the provision of Office of Management and Budget Circular A-133, "Audits of States, Local Governments, and Non Profit Organizations" and the provisions of Standards for Audit of Governmental Organizations, Programs, Activities and Functions, issued by the US General Accounting Office (GAO standards) as they pertain to financial compliance audits.
   9.1. Audit and Review: During the term of this Contract and the period for retention hereunder, the Department, the United States Department of Health and Human Services, and any of their designated representatives shall have access to all reports and records maintained pursuant to the Contract for purposes of audit, examination, excerpts and transcripts.
   9.2. Audit Liabilities: In addition to and not in any way in limitation of obligations of the Contract, it is understood and agreed by the Contractor that the Contractor shall be held liable for any state or federal audit exceptions and shall return to the Department, all payments made under the Contract to which exception has been taken or which have been disallowed because of such an exception.

10. **Confidentiality of Records:** All information, reports, and records maintained hereunder or collected in connection with the performance of the services and the Contract shall be confidential and shall not be disclosed by the Contractor, provided however, that pursuant to state laws and the regulations of the Department regarding the use and disclosure of such information, disclosure may be made to public officials requiring such information in connection with their official duties and for purposes directly connected to the administration of the services and the Contract; and provided further, that the use or disclosure by any party of any information concerning a recipient for any purpose not directly connected with the administration of the Department or the Contractor's responsibilities with respect to purchased services hereunder is prohibited except on written consent of the recipient, his attorney or guardian.

Notwithstanding anything to the contrary contained herein the covenants and conditions contained in the Paragraph shall survive the termination of the Contract for any reason whatsoever.

11. **Reports:** Fiscal and Statistical: The Contractor agrees to submit the following reports at the following times if requested by the Department.
    11.1. Interim Financial Reports: Written interim financial reports containing a detailed description of all costs and non-allowable expenses incurred by the Contractor to the date of the report and containing such other information as shall be deemed satisfactory by the Department to justify the rate of payment hereunder. Such Financial Reports shall be submitted on the form designated by the Department or deemed satisfactory by the Department.
    11.2. Final Report: A final report shall be submitted within thirty (30) days after the end of the term of this Contract. The Final Report shall be in a form satisfactory to the Department and shall contain a summary statement of progress toward goals and objectives stated in the Proposal and other information required by the Department.

12. **Completion of Services:** Disallowance of Costs: Upon the purchase by the Department of the maximum number of units provided for in the Contract and upon payment of the price limitation hereunder, the Contract and all the obligations of the parties hereunder (except such obligations as, by the terms of the Contract are to be performed after the end of the term of this Contract and/or survive the termination of the Contract) shall terminate, provided however, that if, upon review of the Final Expenditure Report the Department shall disallow any expenses claimed by the Contractor as costs hereunder the Department shall retain the right, at its discretion, to deduct the amount of such expenses as are disallowed or to recover such sums from the Contractor.

13. **Credits:** All documents, notices, press releases, research reports and other materials prepared during or resulting from the performance of the services of the Contract shall include the following statement:
    13.1. The preparation of this (report, document etc.) was financed under a Contract with the State of New Hampshire, Department of Health and Human Services, with funds provided in part by the State of New Hampshire and/or such other funding sources as were available or required, e.g., the United States Department of Health and Human Services.

14. **Prior Approval and Copyright Ownership:** All materials (written, video, audio) produced or purchased under the contract shall have prior approval from DHHS before printing, production, distribution or use. The DHHS will retain copyright ownership for any and all original materials produced, including, but not limited to, brochures, resource directories, protocols or guidelines, posters, or reports. Contractor shall not reproduce any materials produced under the contract without prior written approval from DHHS.

15. **Operation of Facilities: Compliance with Laws and Regulations:** In the operation of any facilities for providing services, the Contractor shall comply with all laws, orders and regulations of federal, state, county and municipal authorities and with any direction of any Public Officer or officers pursuant to laws which shall impose an order or duty upon the contractor with respect to the operation of the facility or the provision of the services at such facility. If any governmental license or permit shall be required for the operation of the said facility or the performance of the said services, the Contractor will procure said license or permit, and will at all times comply with the terms and conditions of each such license or permit. In connection with the foregoing requirements, the Contractor hereby covenants and agrees that, during the term of this Contract the facilities shall comply with all rules, orders, regulations, and requirements of the State Office of the Fire Marshal and the local fire protection agency, and shall be in conformance with local building and zoning codes, by-laws and regulations.

16. **Subcontractors:** DHHS recognizes that the Contractor may choose to use subcontractors with greater expertise to perform certain health care services or functions for efficiency or convenience, but the Contractor shall retain the responsibility and accountability for the function(s). Prior to

subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

When the Contractor delegates a function to a subcontractor, the Contractor shall do the following:

16.1. Evaluate the prospective subcontractor's ability to perform the activities, before delegating the function

16.2. Have a written agreement with the subcontractor that specifies activities and reporting responsibilities and how sanctions/revocation will be managed if the subcontractor's performance is not adequate

16.3. Monitor the subcontractor's performance on an ongoing basis

16.4. Provide to DHHS an annual schedule identifying all subcontractors, delegated functions and responsibilities, and when the subcontractor's performance will be reviewed

16.5. DHHS shall, at its discretion, review and approve all subcontracts.

If the Contractor identifies deficiencies or areas for improvement are identified, the Contractor shall take corrective action.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.

6. 7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

   II. As required by law, pursuant to the terms set forth in paragraph d. below; or

d. The Business Associate shall not, unless such disclosure is reasonably necessary to provide services under Exhibit A of the Agreement, disclose any PHI in response to a request for disclosure on the basis that it is required by law, without first notifying Covered Entity so that Covered Entity has an opportunity to object to the disclosure and to seek appropriate relief. If Covered Entity objects to such disclosure, the Business

Associate shall refrain from disclosing the PHI until Covered Entity has exhausted all remedies.

e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

(3) Obligations and Activities of Business Associate.

a. b. The Business Associate shall immediately perform a risk assessment when it becomes aware of any of the above situations. The risk assessment shall include, but not be limited to:

d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.

Business Associate shall require all of its business associates that receive, use or have access to PHI under the Agreement, to agree in writing to adhere to the same restrictions and conditions on the use and disclosure of PHI contained herein, including the duty to return or destroy the PHI as provided under Section 3 (l). The Covered Entity shall be considered a direct third party beneficiary of the Contractor's business associate agreements with Contractor's intended business associates, who will be receiving PHI

pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard Paragraph #13 of the standard contract provisions (P-37) of this Agreement for the purpose of use and disclosure of protected health information.

f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

Within ten (10) business days of receiving a written request from Covered Entity for an amendment of PHI or a record about an individual contained in a Designated Record Set, the Business Associate shall make such PHI available to Covered Entity for amendment and incorporate any such amendment to enable Covered Entity to fulfill its obligations under 45 CFR Section 164.526.

i. Business Associate shall document such disclosures of PHI and information related to such disclosures as would be required for Covered Entity to respond to a request by an individual for an accounting of disclosures of PHI in accordance with 45 CFR Section 164.528.

j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.

l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.

c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) Miscellaneous

a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.

c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.

d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) I, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

INDEPENDENT AUDITORS' REPORT

Report on the Financial Statements

We have audited the accompanying financial statements of Family Resource Center at Gorham (a New Hampshire nonprofit organization), which comprise the statements of financial position as of June 30, 2017 and 2016, and the related statements of activities, cash flows, and functional expenses for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the organization's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Family Resource Center at Gorham as of June 30, 2017 and 2016, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 13, 2017, on our consideration of Family Resource Center at Gorham's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Family Resource Center at Gorham's internal control over financial reporting and compliance.

FAMILY RESOURCE CENTER AT GORHAM

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED JUNE 30, 2017 AND 2016

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

The Family Resource Center at Gorham (the Resource Center) is a voluntary, not-for-profit corporation incorporated under the laws of the State of New Hampshire (RSA 292) and organized exclusively for tax exempt charitable and educational purposes. The principal activity of the Resource Center is to deliver programming that empowers and educates children and families so they can overcome obstacles to healthy family development while providing access to social and educational services to underserved North Country populations. Primary programs include:

home visiting programs that deliver evidence based early child development and parenting support curricula which empowers parents and gives them the motivations and skills to improve parenting and foster healthy family dynamics;

afterschool programs that supports the academic, social and emotional developmental needsof students in grades K-8; and,

an IRS sanctioned Volunteer Income Tax Assistance (VITA) program that provides free tax preparation services to a continuum of the population with a focus on maximizing income tax refunds and earned income tax credits for all individuals entitled to claim such credits.

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Basis of Presentation

The Resource Center is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets. The classes of net assets are determined by the presence or absence of donor restrictions.

Unrestricted: Net assets that are not subject to donor-imposed stipulations. Board designated unrestricted net assets consist of cash and cash equivalents which are to be used only with a specific vote of the board.

Temporarily Restricted: Net assets whose use is limited by donor-imposed stipulations that will either expire with the passage of time or be fulfilled or removed by actions of the Resource Center. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. Absent explicit donor stipulations about how long long-lived assets must be maintained or the manner of their disposition, the Resource Center reports expirations of donor restrictions when the donated or acquired long-lived

assets are placed in service. The Resource Center reports expirations of continuing donor restrictions regarding use or disposition of long-lived assets over the assets' expected useful lives.

Permanently Restricted: Net assets that are subject to donor-imposed stipulations that they be maintained permanently by the Resource Center. Generally, the donors of these assets permit the Resource Center to use all or part of the income earned on related investments for general or specific purposes.

As of June 30, 2017 and 2016, the Resource Center had unrestricted and permanently restricted net assets.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include all monies in banks and liquid investments with maturity dates of less than three months. The carrying value of cash and cash equivalents approximates fair value because of the short maturities of those financial instruments.

Investments

Investments are accounted for according to Accounting Standards Codification (ASC) 958-320 *Not For Profit Entities – Investments – Debt and Equity Securities.* Under ASC 958-320, investments in marketable securities with readily determinable fair values and all investments in debt securities are valued at their fair values in the statement of financial position. Unrealized gains and losses are included in the change in net assets. Fair values of investments are based on quoted prices in active markets for identical investments.

Property and Equipment

Property and equipment is recorded at cost if purchased and at fair value if donated. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets as follows:

Furniture and equipment	5 - 15 years
Leasehold improvements	20 years

The Resource Center's policy is to capitalize all assets over $2,500 with an expected life of one year or longer. Assets sold or otherwise disposed of are removed from the accounts, along with the related depreciation allowance, and any gain or loss is recognized.

Contributions

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and/or nature of any donor or

time restrictions. A temporary restriction permits the Resource Center to use donated assets as specified for a particular purpose. Permanently restricted net assets are those that are required to be permanently maintained, but income from such investments may be used for specified purposes. All donor restricted support is reported as an increase in temporarily or permanently restricted net assets, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Contributed Services
From time to time, the Resource Center receives donated services in carrying out the mission and fundraising activities of the Resource Center. Such donations do not meet the criteria for recognition under ASC 958 and accordingly no amounts are reflected in the financial statements for those services.

Functional Allocation of Expenses
The costs of providing the various programs and other activities have been summarized in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Refundable Advances
The Resource Center records grant/contract revenue as a refundable advance until it is expended for the purpose of the grant/contract, at which time it is recognized as revenue.

Income Taxes
The Resource Center is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. In addition, the Resource Center qualifies for the charitable contribution deduction under Section 170(b)(1)(a) and has been classified as an organization that is not a private foundation.

Management has evaluated the Resource Center's tax positions and concluded that the Resource Center has maintained its tax-exempt status and has taken no uncertain tax positions that would require adjustment to the financial statements. With few exceptions, the Resource Center is no longer subject to income tax examinations by the United States Federal or State tax authorities prior to 2013.

Leased Facilities
The Resource Center leases its current facility from the Town of Gorham. In lieu of rent, the Resource Center is responsible for the cost of repairs and maintenance, insurance, utilities and rubbish removal. The lease is for a 20 year period and expires on May 19, 2018. The Resource Center in turn sublets space in the facility to other nonprofit and community agencies at an average rate of approximately $10 - $16 per square foot. All participating organizations must provide services to a client base that is at least 66% low and moderate income.

Grants Receivable
Grants receivable from various public and other nonprofit organizations at June 30, 2017 and 2016 were considered fully collectable and therefore no provisions for bad debts have been made in these financial statements.

Advertising
Advertising costs are expensed as incurred.

Subsequent Events
Subsequent events have been evaluated through September 13, 2017, which is the date that the financial statements were available to be issued.

Reclassifications
Certain amounts in the prior year financial statements have been reclassified for comparative purposes to conform with the presentation in the current year financial statements.

Fair Value of Financial Instruments
ASC Topic No. 820-10, *Financial Instruments*, provides a definition of fair value which focuses on an exit price rather than an entry price, establishes a framework in generally accepted accounting principles for measuring fair value which emphasizes that fair value is a market based measurement, not an entity specific measurement, and requires expanded disclosures about fair value measurements. In accordance with FASB ASC 820-10, the Resource Center may use valuation techniques consistent with market, income and cost approaches to measure fair value. As a basis for considering market participant assumptions in fair value measurements, ASC Topic 820-10 establishes a fair value hierarchy, which prioritizes the inputs used in measuring fair values. The hierarchy gives the highest priority to Level 1 measurements and the lowest priority to Level 3 measurements. The three levels of the fair value hierarchy under ASC Topic 820-10 are described as follows:

> ***Level 1*** – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.
>
> ***Level 2*** - Inputs to the valuation methodology are other than quoted market prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies.
>
> ***Level 3*** - Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

At June 30, 2017 and 2016, the Resource Center's investments were all classified as Level 1 and were based on fair value.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2017 and 2016.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Resource Center at year end.

The preceding method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Resource Center believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

2. DEMAND NOTE PAYABLE

In April 2013, the Resource Center entered into a revolving line of credit agreement with a bank. The revolving line of credit agreement provides for maximum borrowings up to $75,000 and is collateralized by a certificate of deposit held at the same bank. The revolving line of credit and the certificate of deposit both renew every six months. At June 30, 2017 and 2016, the interest rate on the revolving line of credit was stated at the bank's prime rate of 3.20%. There were no balances outstanding as of June 30, 2017 and 2016.

3. AGENCY DEPOSITS

The Resource Center serves as a fiscal agent for the Androscoggin Valley Community Partners (formerly the Berlin Area Healthcare Consortium), a collaborative effort of area health and social services agencies intended to provide health related education, information and communications to the communities of Berlin and Gorham. The amounts held on behalf of the consortium as of June 30, 2017 and 2016 were $22,187 and $22,181, respectively.

The Resource Center serves as a fiscal agent for the North Country Veterans Committee. The committee performs extensive outreach, education and awareness throughout the North Country of New Hampshire in building a stronger safety net for North Country veterans and their families. The amounts held on behalf of the committee as of June 30, 2017 and 2016 were $3,396 and $4,140, respectively.

4. REFUNDABLE ADVANCES

Refundable advances from program grants and contract advances at June 30, 2017 and 2016 totaled $29,260 and $22,448, respectively.

5. CONCENTRATION OF CREDIT RISK - CASH

The Resource Center maintains cash balances that, at times, may exceed federally insured limits. The cash balances are insured by the Federal Deposit Insurance Corporation (FDIC) up to $250,000 per bank at June 30, 2017 and 2016. The Resource Center has not experienced any losses in such accounts and believes it is not exposed to any significant risk with these accounts. At June 30, 2017 and 2016, there were no cash balances in excess of FDIC coverage.

6. UNRESTRICTED NET ASSETS - DESIGNATED

By vote of the Board of Directors, funds have been designated for long term building maintenance. Unrestricted net assets designated by the board was $16,835 and $14,627 at June 30, 2017 and 2016, respectively.

7. OPERATING LEASE OBLIGATIONS

The Organization has entered into a one-year operating lease agreement to rent satellite office space. The Organization also rents various other office space on a month to month basis. Rent expense under these agreements aggregated $10,545 and $8,995 for the years ended June 30, 2017 and 2016, respectively.

The approximate future minimum lease payments on the above leases is as follows:

Year Ending June 30	Amount
2018	$ 5,500

8. INVESTMENTS

Investments held in the form of mutual funds at Bank of America are stated at fair value. Realized gains and losses are determined on the specific identification method. Gains and losses (realized and unrealized) are reported in the statement of activities as increases or decreases to unrestricted net assets, except for those investments for which their use is restricted. Information on investments at June 30, 2017 and 2016 is presented as follows:

Year	Investment	Cost	Market Value	Excess of Market Over Cost	Investment Income
2017	Bank of America	$181,136	$203,775	$22,639	$4,872
2016	Bank of America	$153,575	$177,573	$23,987	$4,448

9. PERMANENTLY RESTRICTED NET ASSETS

In 2007, the Resource Center established a permanent endowment fund for the organization with the intent of accumulating donations and interest earnings of one million dollars. During 2013, the Resource Center began taking allowable distributions from the fund. Per the laws of the State of New Hampshire (RSA 292-B:4), 7% of the fair market value of the endowment fund, calculated on the basis of fair market value determined at least quarterly and averaged over a period of not less than three years may be appropriated for operating account expenditures.

The Not-for-Profit Entities Topic of the FASB ASC (ASC 958-205 and subsections) intends to improve the quality of consistency of financial reporting of endowments held by not-for-profit organizations. This Topic provides guidance on classifying the net assets associated with donor-restricted endowment funds held by organizations that are subject to an

enacted version of the Uniform Prudent Management Institutional Funds Act (UPMIFA). New Hampshire has adopted UPMIFA. The Topic also requires additional financial statement disclosures on endowments and related net assets.

The Resource Center has followed an investment and spending policy to ensure a total return (income plus capital change) necessary to preserve the principal of the fund and at the same time, provide a dependable source of support to help build healthier families and stronger communities.

In recognition of the prudence required of fiduciaries, the Resource Center only invests the fund in cash and mutual funds. The Resource Center has taken a risk adverse approach to managing the endowment fund in order to mitigate financial market risk such as interest rate, credit and overall market volatility, which could substantially impact the fair value of the endowment fund at any given time.

As of June 30, 2017 and 2016, the endowment fund was entirely composed of permanently restricted net assets.

Fund activity for June 30, 2017 and 2016 was as follows:

FAMILY RESOURCE CENTER AT GORHAM

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors
Family Resource Center at Gorham
Gorham, New Hampshire

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Family Resource Center at Gorham (a New Hampshire nonprofit organization), which comprise the statements of financial position as of June 30, 2017 and 2016, and the related statements of activities, cash flows and functional expenses for the years then ended, and the related notes to the financial statements, and have issued our report thereon dated September 13, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Family Resource Center at Gorham's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Family Resource Center at Gorham's internal control. Accordingly, we do not express an opinion on the effectiveness of Family Resource Center at Gorham's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did

not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Family Resource Center at Gorham's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

FAMILY RESOURCE CENTER AT GORHAM

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY UNIFORM GUIDANCE

To the Board of Directors
Family Resource Center at Gorham
Gorham, New Hampshire

Report on Compliance for Each Major Federal Program
We have audited Family Resource Center at Gorham's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Family Resource Center at Gorham's major federal programs for the year ended June 30, 2017. Family Resource Center at Gorham's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility
Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility
Our responsibility is to express an opinion on compliance for each of Family Resource Center at Gorham's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Family Resource Center at Gorham's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Family Resource Center at Gorham's compliance.

Opinion on Each Major Federal Program

In our opinion, Family Resource Center at Gorham complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

Report on Internal Control Over Compliance

Management of Family Resource Center at Gorham is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Family Resource Center at Gorham's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Family Resource Center at Gorham's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

EXPLANATION

The purpose of this request is to renew contract services with these vendors for an additional two years. For a detailed summary of the changes please see attachment.

Comprehensive Family Support Services assist pregnant women and families with children up to the age of twenty-one (21) by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents to give families an opportunity to learn and grow.

The Division for Children, Youth and Families and the Division of Public Health Services have blended three family health and support related programs in to one program which is now represented as the Comprehensive Family Support Services.

Currently, there are twenty-five (25) community based family resource centers in operation across the State which provide a range of support services to families and children that focus on strengthening, supporting and building on the strengths and skills of individuals while also ensuring developmental screening for children six (6) and under. These centers are often key local stakeholders in groups that assess and advocate for the needs of local families.

The original contracts were competitively bid.

These contracts contain language which allows for the right to renew for up to four additional years based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

The Comprehensive Family Support Services program has served a total of 871 families and 1664 children in 2014. As a result, ninety-five percent (95%) of the families served achieved successful outcomes and remained uninvolved in a Division abuse or neglect case. The Division is satisfied with the services provided and is requesting approval to exercise two years of the renewal option reserving the Division's option to renew for the remaining two years based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

Should the Governor and Executive Council not authorize this request, the flexibility of community based family services may not be available to address the needs of children and families throughout the state which could cause an increase in the Division for Children, Youth and Families involvement for out of home placements. The services provided through these agreements help prevent separation of children from their families and afford them a safe, stable and supportive family environment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

INDEPENDENT AUDITORS' REPORT

We have audited the accompanying financial statements of Family Resource Center at Gorham, (a nonprofit organization) which comprise the statements of financial position as of June 30, 2015 and 2014, and the related statements of cash flows, and notes to financial statements for the years then ended, and the related statement of activities and statement of functional expenses for the year ended June 30, 2015.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility
Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Family Resource Center at Gorham as of June 30, 2015 and 2014, and its cash flows for the years then ended, and the changes in its net assets for the year ended June 30, 2015 in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information
We have previously audited the Family Resource Center at Gorham's 2014 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated November 5, 2014. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2014, is consistent, in all material respects, with the audited financial statements from which it has been derived.

FAMILY RESOURCE CENTER AT GORHAM

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED JUNE 30, 2015 AND 2014

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

The Family Resource Center at Gorham (the Resource Center) is a voluntary, not-for-profit corporation incorporated under the laws of the State of New Hampshire (RSA 292) and organized exclusively for tax exempt charitable and educational purposes. The principal activity of the Resource Center is to deliver programming that empowers and educates children and families so they can overcome obstacles to healthy family development while providing access to social and educational services to underserved North Country populations. Primary programs include:

home visiting programs that deliver evidence based early child development and parenting support curricula which empowers parents and gives them the motivations and skills to improve parenting and foster healthy family dynamics;

afterschool programs that supports the academic, social and emotional developmental of students in grades K-8; and,

an IRS sanctioned Volunteer Income Tax Assistance (VITA) program that provides free tax preparation services to a continuum of the population with a focus on maximizing income tax refunds and earned income tax credits for all individuals entitled to claim such credits.

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Basis of Presentation

The Resource Center is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets. The classes of net assets are determined by the presence or absence of donor restrictions.

Unrestricted: Net assets that are not subject to donor-imposed stipulations. Board designated unrestricted net assets consist of cash and cash equivalents which are to be used only with a specific vote of the board.

Temporarily Restricted: Net assets whose use is limited by donor-imposed stipulations that will either expire with the passage of time or be fulfilled or removed by actions of the Resource Center. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. Absent explicit donor stipulations about how long long-lived assets must be maintained or the manner of their disposition, the Resource

Center reports expirations of donor restrictions when the donated or acquired long-lived assets are placed in service. The Resource Center reports expirations of continuing donor restrictions regarding use or disposition of long-lived assets over the assets' expected useful lives.

Permanently Restricted: Net assets that are subject to donor-imposed stipulations that they be maintained permanently by the Resource Center. Generally, the donors of these assets permit the Resource Center to use all or part of the income earned on related investments for general or specific purposes.

As of June 30, 2015 and 2014, the Resource Center has unrestricted and permanently restricted net assets.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include all monies in banks and liquid investments with maturity dates of less than three months. The carrying value of cash and cash equivalents approximates fair value because of the short maturities of those financial instruments.

Investments

Investments are accounted for according to Accounting Standards Codification (ASC) 958-320 *Not For Profit Entities – Investments – Debt and Equity Securities.* Under ASC 958-320, investments in marketable securities with readily determinable fair values and all investments in debt securities are valued at their fair values in the statement of financial position. Unrealized gains and losses are included in the change in net assets. Fair values of investments are based on quoted prices in active markets for identical investments.

Property and Equipment

Property and equipment is recorded at cost if purchased and at fair value if donated. Depreciation is computed using the straight line method over the estimated useful lives of the related assets as follows:

Furniture and equipment	5 - 15 years
Leasehold improvements	20 years

The Resource Center's policy is to capitalize all assets over $2,500 with an expected life of one year or longer. Assets sold or otherwise disposed of are removed from the accounts, along with the related depreciation allowance, and any gain or loss is recognized.

Contributions

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and/or nature of any donor or time restrictions. A temporary restriction permits the Resource Center to use donated assets as specified for a particular purpose. Permanently restricted net assets are those that are required to be permanently maintained, but income from such investments may be used for specified purposes. All donor restricted support is reported as an increase in temporarily or permanently restricted net assets, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Contributed Services

From time to time, the Resource Center receives donated services in carrying out the mission and fundraising activities of the Resource Center. Such donations do not meet the criteria for recognition under ASC 958 and accordingly no amounts are reflected in the financial statements for those services.

Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Refundable Advances

The Resource Center records grant/contract revenue as a refundable advance until it is expended for the purpose of the grant/contract, at which time it is recognized as revenue.

Income Taxes

The Resource Center is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. In addition, the Resource Center qualifies for the charitable contribution deduction under Section 170(b)(1)(a) and has been classified as an organization that is not a private foundation.

Management has evaluated the Resource Center's tax positions and concluded that the Resource Center has maintained its tax-exempt status and has taken no uncertain tax positions that would require adjustment to the financial statements. With few exceptions, the Resource Center is no longer subject to income tax examinations by the United States Federal or State tax authorities prior to 2011.

Leased Facilities

The Resource Center leases its current facility from the Town of Gorham. In lieu of rent, the Resource Center is responsible for the cost of repairs and maintenance, insurance, utilities and rubbish removal. The lease is for a 20 year period and expires on May 19, 2018. The Resource Center in turn sublets space in the facility to other nonprofit and community agencies at an average rate of approximately $10 - $14 per square foot. All participating organizations must provide services to a client base that is at least 66% low and moderate income.

Grants Receivable
Grants receivable from various public and other nonprofit organizations at June 30, 2015 and 2014 were considered fully collectable and therefore no provisions for bad debts have been made in these financial statements.

Advertising
Advertising costs are expensed as incurred.

Subsequent Events
Subsequent events have been evaluated through October 16, 2015, which is the date that the financial statements were available to be issued.

Prior Year's Information
The financial statements include certain prior year summarized comparative information in total but not by function. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the Resource Center's financial statements for the year ended June 30, 2014, from which the summarized information was derived.

Reclassifications
Certain amounts in the prior year financial statements have been reclassified for comparative purposes to conform with the presentation in the current year financial statements.

Fair Value of Financial Instruments
ASC Topic No. 820-10, *Financial Instruments*, provides a definition of fair value which focuses on an exit price rather than an entry price, establishes a framework in generally accepted accounting principles for measuring fair value which emphasizes that fair value is a market based measurement, not an entity specific measurement, and requires expanded disclosures about fair value measurements. In accordance with FASB ASC 820-10, the Resource Center may use valuation techniques consistent with market, income and cost approaches to measure fair value. As a basis for considering market participant assumptions in fair value measurements, ASC Topic 820-10 establishes a fair value hierarchy, which prioritizes the inputs used in measuring fair values. The hierarchy gives the highest priority to Level 1 measurements and the lowest priority to Level 3 measurements. The three levels of the fair value hierarchy under ASC Topic 820-10 are described as follows:

> ***Level 1*** – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.
>
> ***Level 2*** - Inputs to the valuation methodology are other than quoted market prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies.
>
> ***Level 3*** - Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

At June 30, 2015 and 2014, the Resource Center's investments were all classified as Level 1 and were based on fair value.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2015 and 2014.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Resource Center at year end.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Resource Center believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

2. DEMAND NOTE PAYABLE

In April 2013 the Resource Center entered into a revolving line of credit with a bank. The revolving line of credit provides for maximum borrowings up to $75,000 and is collateralized by a certificate of deposit held at the same bank. The revolving line of credit and the certificate of deposit both renew every six months. At June 30, 2015 and 2014, the interest rate on the revolving line of credit was stated at the bank's prime rate of 3.10% and 3.20%, respectively. The balance outstanding at June 30, 2015 was $29,500. There was no balance outstanding as of June 30, 2014.

3. AGENCY DEPOSITS

The Resource Center serves as a fiscal agent for the Androscoggin Valley Community Partners (formerly the Berlin Area Healthcare Consortium), a collaborative effort of area health and social services agencies intended to provide health related education, information and communications to the communities of Berlin and Gorham. The amounts held on behalf of the consortium as of June 30, 2015 and 2014 were $22,179 and $22,177, respectively

4. REFUNDABLE ADVANCES

Refundable advances from program grants and contract advances at June 30, 2015 and 2014 totaled $41,887 and $70,122, respectively.

5. CONCENTRATION OF CREDIT RISK - CASH

The Resource Center maintains cash balances that, at times, may exceed federally insured limits. The cash balances are insured by the Federal Deposit Insurance Corporation (FDIC) up to $250,000 per bank at June 30, 2015 and 2014. The Resource Center has not experienced any losses in such accounts and believes it is not exposed to any significant risk with these accounts. At June 30, 2015 and 2014, there were no cash balances in excess of FDIC coverage.

6. UNRESTRICTED NET ASSETS - DESIGNATED

By vote of the Board of Directors funds have been designated for long term building maintenance. Unrestricted net assets designated by the board was $12,219 and $9,210 at June 30, 2015 and 2014, respectively.

7. OPERATING LEASE OBLIGATIONS

The Organization has entered into a one year operating lease agreement to rent satellite office space. The Organization also rents various other office space on a month to month basis. Rent expense under these agreements aggregated $7,480 and $7,250 for the years ended June 30, 2015 and 2014, respectively.

The approximate future minimum lease payments on the above leases is as follows:

Year Ending June 30	Amount
2016	$ 6,000
Total	$ 6,000

8. INVESTMENTS

Investments held in the form of mutual funds at Bank of America are stated at fair value. Realized gains and losses are determined on the specific identification method. Gains and losses (realized and unrealized) are reported in the statement of activities as increases or decreases to unrestricted net assets, except for those investments for which their use is restricted. Information on investments at June 30, 2015 and 2014 is presented as follows:

Year	Investment	Cost	Market Value	Excess (Deficiency) of Market Over Cost	Investment Income
2015	Bank of America	$152,575	$177,349	$24,774	$4,243
2014	Bank of America	$158,775	$188,804	$30,029	$4,139

9. PERMANENTLY RESTRICTED NET ASSETS

In 2007, the Resource Center established a permanent endowment fund for the organization with the intent of accumulating donations and interest earnings of one million dollars. During 2013 the Resource Center began taking allowable distributions from the fund. Per the laws of the State of New Hampshire (RSA 292-B:4), 7% of the fair market value of the endowment fund, calculated on the basis of fair market value determined at least quarterly and averaged over a period of not less than three years may be appropriated for operating account expenditures.

The Not-for-Profit Entities Topic of the FASB ASC (ASC 958-205 and subsections) intends to improve the quality of consistency of financial reporting of endowments held by not-for-profit organizations. This Topic provides guidance on classifying the net assets associated with donor-restricted endowment funds held by organizations that are subject to an enacted version of the Uniform Prudent Management Institutional Funds Act (UPMIFA). New Hampshire has adopted UPMIFA. The Topic also requires additional financial statement disclosures on endowments and related net assets.

The Resource Center has followed an investment and spending policy to ensure a total return (income plus capital change) necessary to preserve the principal of the fund and at the same time, provide a dependable source of support to help build healthier families and stronger communities.

In recognition of the prudence required of fiduciaries, the Resource Center only invests the fund in cash and mutual funds. The Resource Center has taken a risk adverse approach to managing the endowment fund in order to mitigate financial market risk such as interest rate, credit and overall market volatility, which could substantially impact the fair value of the endowment fund at any given time.

As of June 30, 2015 and 2014 the endowment fund was entirely composed of permanently restricted net assets.

Fund activity for June 30, 2015 and 2014 was as follows:

	Balances as of June 30, 2014	Activity for the Year Ended June 30, 2015	Balances as of June 30, 2015

Attorney Megan Yaple
NH Department of Justice
Office of the Attorney General
33 Capitol Street
Concord, New Hampshire 03301

Good Morning Attorney Yaple,

I am writing to ask that you review the attached amendments between the Department of Health and Human Services, Division for Children, Youth and Families and The Family Resource Center at Gorham (Vendor # 162412-B001), 123 Main Street, Gorham, NH. The amendment has been signed by the Associate Commissioner and an authorized signor for the vendor. The vendor provides Comprehensive Family Support Services in the Berlin and Littleton District Office areas, and has requested the adjustment of several budget line items in State Fiscal Year 2015 in order to meet specified needs. The Governor and Executive Council approved the original agreements on June 18, 2014, (Item # 80). These are zero cost amendments with no change to any of the contracts end date of June 30, 2016.

Because of the language, in all of the contracts, in Exhibit B, Section 2.7, that reads:

2.7 *Notwithstanding paragraph 18 of the P-37, an amendment limited to the adjustment of the amounts between budget line items and/or State Fiscal Years, related items, and amendments of related budget exhibits, can be made by written agreement of both parties and do not require additional approval of the Governor and Executive Council*

I am asking that you review and sign off on the amendments as they do not need further action by the Governor and Executive Council.

The remainder of this letter is presented in the format typical of most Governor and Executive Council letters, so that you might have some context for your review.

Funds to support this request are available in the following accounts in State Fiscal Year 2015 and are anticipated to be available in State Fiscal Year 2016, upon the availability and continued appropriation of funds in the future operating budget with the ability to adjust encumbrances between State Fiscal Years through the Budget Office if needed and justified without further approval from the Governor and Executive Council.

EXPLANATION

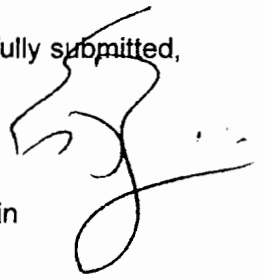
The purpose of these amendments is to allow the vendor to adjust certain budget lines in each of the contracts in order to meet contractual needs; and to update the standard contract language in Exhibit C and Exhibit G for each contract. The vendor underestimated the Travel, Occupancy and Printing expenses for the Berlin District Office area and the Subcontracting expenses in the Littleton District Office area. The change has resulted in a request from the vendor to adjust the Salary/Wages, Benefits, Occupancy, Travel and Printing budget lines in the Berlin area contract, the salary, benefits and subcontractor budget lines in the Littleton area contract. The Department supports the requested adjustments.

There are no additional funds being requested in this amendment. Other than the changes outlined in the paragraph above, all other terms and conditions remain unchanged from the original agreement approved by the Governor and Executive Council on June 18, 2014, (Item # 80).

Comprehensive Family Support Services assist pregnant women and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents and give families an opportunity to learn and grow.

This contract was awarded as the result of a competitive bid process. On January 21, 2014, the Division issued a Request for Proposal for Comprehensive Family Support Services to serve the eleven (11) catchment areas in the State of New Hampshire. Twelve proposals were received.

The Family Resource Center at Gorham was awarded two (2) of the eleven (11) contracts selected in the competitive bid process.



Should the Governor and Executive Council not approve this request, the vendor would not be able to meet their contractual needs which could reduce the availability, accessibility, and quality of Comprehensive Family Support Services in the Manchester, Concord and Southern District Office areas.

Area Served: Berlin and Littleton District Office areas

Source of Funds: 100% Federal Funds

In the event that Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Eric Borrin
Director

SPECIAL PROVISIONS

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.

2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.

3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.

4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.

5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.

6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
   7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
   7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

EXPLANATION

Comprehensive Family Support Services assist pregnant women and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents and give families an opportunity to learn and grow.

The Division for Children, Youth and Families and Division of Public Health Services /Maternal Child Health Services blended three family health and support related programs, into one program. This Comprehensive Family Support Services represents such efforts.

New Hampshire DHHS Comprehensive Family Support Services:

In 2002, The Division for Children, Youth and Families, launched a family support partnership, entitled Comprehensive Family Support Services. Support and prevention-based services and programs were provided to thousands families and individuals throughout the state. Due to the success of these prevention-oriented programs, the Division for Children, Youth and Families has recognized the benefit of provider services to families as an effort to keep them from becoming involved in other systems of care.

Currently, there are 25 community-based family resource centers in operation across the State of New Hampshire, which provide a range of support services to families and children that focus on strengthening, supporting and building on the strengths and skills of individuals while also ensuring developmental screening for children six and under. These centers are often key local stakeholders in groups that assess and advocate for the needs of local families.

New Hampshire DHHS Home Visiting NH:

In 2001, the Division of Public Health Services Maternal and Child Health Section began Home Visiting New Hampshire, a statewide, family focused and child centered, preventive program that provides, health, education, support and linkages to community services to eligible, pregnant women and their families in their home until her child is twelve (12) months old. Contractors provide these services in nine (9) of the Division for Children, Youth and Families service areas. The goals of Home Visiting New Hampshire are to promote healthy pregnancy and birth outcomes, promote a safe and nurturing environment for children, and enhance families' life course and development.

Child and Family Health Support Services:

Child and Family Health Support Services have been available through local community health and home visiting agencies for approximately twenty years with funds that had previously supported the state's network of "well baby clinics". These services provide assistance with health care enrollment, referrals, case management, care coordination, education and counseling relative to the child and family and can be conducted by home, office visit or by telephone when appropriate. The goal of Child and Family Health Support Services is to promote the health and well-being of children from birth through age eighteen, with priority given to children birth through age ten.

This contract was competitively bid. On January 21, 2014 the Department issued a Request for Proposals to solicit proposals for the provision of Comprehensive Family Support Services to assist expectant women along with children and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. The request for proposals was available on the Department of Health and Human Services website from January 21, 2014 through March 10, 2014. There were 12 proposals submitted.

The proposals were evaluated by a team of Department of Health and Human Services employees with knowledge of the program requirements, the Division for Children, Youth and Families' Comprehensive Family Support Services program and the Division of Public Health Services, Maternal and Child Health Section. The team also included staff with significant business and management expertise.

The proposals were evaluated based on the criteria published in the Request for Proposals. Eleven of the twelve proposals were selected. The bid summary is attached.

The attached contract calls for the provision of these services for two years and reserves the Division's right to renew the agreement for up to four additional years, based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

Should Governor and Council not authorize this request, the flexibility of community–based family services may not be available to address the needs of children and families throughout the state which could cause an increase in the Division for Children, Youth and Families involvement for out-of-home placement, as these services help to prevent the separation of children from their families and afford them a safe, stable and supportive family environment.

Area Served: Statewide.

Source of Funds: 95.34% Federal Funds
4.66% General Funds

In the event that Federal Funds are no longer available, no additional General Funds will be requested to support this program.

SPECIAL PROVISIONS

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. Compliance with Federal and State Laws: If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.

2. Time and Manner of Determination: Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.

3. Documentation: In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.

4. Fair Hearings: The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.

5. Gratuities or Kickbacks: The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.

6. Retroactive Payments: Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

7. Conditions of Purchase: Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party fundors for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party fundors, the Department may elect to:
   7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
   7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

   8.2. Statistical Records: Statistical, enrollment, attendance or visit records for each recipient of services during the Contract Period, which records shall include all records of application and eligibility (including all forms required to determine eligibility for each such recipient), records regarding the provision of services and all invoices submitted to the Department to obtain payment for such services.
   8.3. Medical Records: Where appropriate and as prescribed by the Department regulations, the Contractor shall retain medical records on each patient/recipient of services.

9. Audit: Contractor shall submit an annual audit to the Department within 60 days after the close of the agency fiscal year. It is recommended that the report be prepared in accordance with the provision of Office of Management and Budget Circular A-133, "Audits of States, Local Governments, and Non Profit Organizations" and the provisions of Standards for Audit of Governmental Organizations, Programs, Activities and Functions, issued by the US General Accounting Office (GAO standards) as they pertain to financial compliance audits.
   9.1. Audit and Review: During the term of this Contract and the period for retention hereunder, the Department, the United States Department of Health and Human Services, and any of their designated representatives shall have access to all reports and records maintained pursuant to the Contract for purposes of audit, examination, excerpts and transcripts.
   9.2. Audit Liabilities: In addition to and not in any way in limitation of obligations of the Contract, it is understood and agreed by the Contractor that the Contractor shall be held liable for any state or federal audit exceptions and shall return to the Department, all payments made under the Contract to which exception has been taken or which have been disallowed because of such an exception.

Notwithstanding anything to the contrary contained herein the covenants and conditions contained in the Paragraph shall survive the termination of the Contract for any reason whatsoever.

11. Reports: Fiscal and Statistical: The Contractor agrees to submit the following reports at the following times if requested by the Department.
    11.1. Interim Financial Reports: Written interim financial reports containing a detailed description of all costs and non-allowable expenses incurred by the Contractor to the date of the report and containing such other information as shall be deemed satisfactory by the Department to justify the rate of payment hereunder. Such Financial Reports shall be submitted on the form designated by the Department or deemed satisfactory by the Department.
    11.2. Final Report: A final report shall be submitted within thirty (30) days after the end of the term of this Contract. The Final Report shall be in a form satisfactory to the Department and shall contain a summary statement of progress toward goals and objectives stated in the Proposal and other information required by the Department.

12. Completion of Services: Disallowance of Costs: Upon the purchase by the Department of the maximum number of units provided for in the Contract and upon payment of the price limitation hereunder, the Contract and all the obligations of the parties hereunder (except such obligations as, by the terms of the Contract are to be performed after the end of the term of this Contract and/or survive the termination of the Contract) shall terminate, provided however, that if, upon review of the Final Expenditure Report the Department shall disallow any expenses claimed by the Contractor as costs hereunder the Department shall retain the right, at its discretion, to deduct the amount of such expenses as are disallowed or to recover such sums from the Contractor.

13. Credits: All documents, notices, press releases, research reports and other materials prepared during or resulting from the performance of the services of the Contract shall include the following statement:
    13.1. The preparation of this (report, document etc.) was financed under a Contract with the State of New Hampshire, Department of Health and Human Services, with funds provided in part by the State of New Hampshire and/or such other funding sources as were available or required, e.g., the United States Department of Health and Human Services.

14. Prior Approval and Copyright Ownership: All materials (written, video, audio) produced or purchased under the contract shall have prior approval from DHHS before printing, production, distribution or use. The DHHS will retain copyright ownership for any and all original materials produced, including, but not limited to, brochures, resource directories, protocols or guidelines, posters, or reports. Contractor shall not reproduce any materials produced under the contract without prior written approval from DHHS.

15. Operation of Facilities: Compliance with Laws and Regulations: In the operation of any facilities for providing services, the Contractor shall comply with all laws, orders and regulations of federal, state, county and municipal authorities and with any direction of any Public Officer or officers pursuant to laws which shall impose an order or duty upon the contractor with respect to the operation of the facility or the provision of the services at such facility. If any governmental license or permit shall be required for the operation of the said facility or the performance of the said services, the Contractor will procure said license or permit, and will at all times comply with the terms and conditions of each such license or permit. In connection with the foregoing requirements, the Contractor hereby covenants and agrees that, during the term of this Contract the facilities shall comply with all rules, orders, regulations, and requirements of the State Office of the Fire Marshal and the local fire protection agency, and shall be in conformance with local building and zoning codes, by-laws and regulations.

16. Subcontractors: DHHS recognizes that the Contractor may choose to use subcontractors with greater expertise to perform certain health care services or functions for efficiency or convenience, but the Contractor shall retain the responsibility and accountability for the function(s). Prior to

subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

When the Contractor delegates a function to a subcontractor, the Contractor shall do the following:

16.1. Evaluate the prospective subcontractor's ability to perform the activities, before delegating the function

16.2. Have a written agreement with the subcontractor that specifies activities and reporting responsibilities and how sanctions/revocation will be managed if the subcontractor's performance is not adequate

16.3. Monitor the subcontractor's performance on an ongoing basis

16.4. Provide to DHHS an annual schedule identifying all subcontractors, delegated functions and responsibilities, and when the subcontractor's performance will be reviewed

16.5. DHHS shall, at its discretion, review and approve all subcontracts.

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.

6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled Certification Regarding Debarment, Suspension, Ineligibility and oluntary Exclusion - Lower Tier Covered Transactions, provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
    11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
    11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

    11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.

12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:

c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect usiness Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's nowledge of a breach by usiness Associate of the usiness Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.

c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.

d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

INDEPENDENT AUDITORS' REPORT

Report on the Financial Statements

We have audited the accompanying financial statements of Family Resource Center at Gorham (a New Hampshire nonprofit organization), which comprise the statements of financial position as of June 30, 2017 and 2016, and the related statements of activities, cash flows, and functional expenses for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the organization's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Family Resource Center at Gorham as of June 30, 2017 and 2016, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 13, 2017, on our consideration of Family Resource Center at Gorham's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Family Resource Center at Gorham's internal control over financial reporting and compliance.

FAMILY RESOURCE CENTER AT GORHAM

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED JUNE 30, 2017 AND 2016

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

The Family Resource Center at Gorham (the Resource Center) is a voluntary, not-for-profit corporation incorporated under the laws of the State of New Hampshire (RSA 292) and organized exclusively for tax exempt charitable and educational purposes. The principal activity of the Resource Center is to deliver programming that empowers and educates children and families so they can overcome obstacles to healthy family development while providing access to social and educational services to underserved North Country populations. Primary programs include:

home visiting programs that deliver evidence based early child development and parenting support curricula which empowers parents and gives them the motivations and skills to improve parenting and foster healthy family dynamics;

afterschool programs that supports the academic, social and emotional developmental needsof students in grades K-8; and,

an IRS sanctioned Volunteer Income Tax Assistance (VITA) program that provides free tax preparation services to a continuum of the population with a focus on maximizing income tax refunds and earned income tax credits for all individuals entitled to claim such credits.

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Basis of Presentation

The Resource Center is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets. The classes of net assets are determined by the presence or absence of donor restrictions.

Unrestricted: Net assets that are not subject to donor-imposed stipulations. Board designated unrestricted net assets consist of cash and cash equivalents which are to be used only with a specific vote of the board.

Temporarily Restricted: Net assets whose use is limited by donor-imposed stipulations that will either expire with the passage of time or be fulfilled or removed by actions of the Resource Center. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. Absent explicit donor stipulations about how long long-lived assets must be maintained or the manner of their disposition, the Resource Center reports expirations of donor restrictions when the donated or acquired long-lived

assets are placed in service. The Resource Center reports expirations of continuing donor restrictions regarding use or disposition of long-lived assets over the assets' expected useful lives.

Permanently Restricted: Net assets that are subject to donor-imposed stipulations that they be maintained permanently by the Resource Center. Generally, the donors of these assets permit the Resource Center to use all or part of the income earned on related investments for general or specific purposes.

As of June 30, 2017 and 2016, the Resource Center had unrestricted and permanently restricted net assets.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include all monies in banks and liquid investments with maturity dates of less than three months. The carrying value of cash and cash equivalents approximates fair value because of the short maturities of those financial instruments.

Investments

Investments are accounted for according to Accounting Standards Codification (ASC) 958-320 *Not For Profit Entities – Investments – Debt and Equity Securities.* Under ASC 958-320, investments in marketable securities with readily determinable fair values and all investments in debt securities are valued at their fair values in the statement of financial position. Unrealized gains and losses are included in the change in net assets. Fair values of investments are based on quoted prices in active markets for identical investments.

Property and Equipment

Property and equipment is recorded at cost if purchased and at fair value if donated. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets as follows:

Furniture and equipment	5 - 15 years
Leasehold improvements	20 years

The Resource Center's policy is to capitalize all assets over $2,500 with an expected life of one year or longer. Assets sold or otherwise disposed of are removed from the accounts, along with the related depreciation allowance, and any gain or loss is recognized.

Contributions

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and/or nature of any donor or

time restrictions. A temporary restriction permits the Resource Center to use donated assets as specified for a particular purpose. Permanently restricted net assets are those that are required to be permanently maintained, but income from such investments may be used for specified purposes. All donor restricted support is reported as an increase in temporarily or permanently restricted net assets, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Contributed Services
From time to time, the Resource Center receives donated services in carrying out the mission and fundraising activities of the Resource Center. Such donations do not meet the criteria for recognition under ASC 958 and accordingly no amounts are reflected in the financial statements for those services.

Functional Allocation of Expenses
The costs of providing the various programs and other activities have been summarized in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Refundable Advances
The Resource Center records grant/contract revenue as a refundable advance until it is expended for the purpose of the grant/contract, at which time it is recognized as revenue.

Income Taxes
The Resource Center is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. In addition, the Resource Center qualifies for the charitable contribution deduction under Section 170(b)(1)(a) and has been classified as an organization that is not a private foundation.

Management has evaluated the Resource Center's tax positions and concluded that the Resource Center has maintained its tax-exempt status and has taken no uncertain tax positions that would require adjustment to the financial statements. With few exceptions, the Resource Center is no longer subject to income tax examinations by the United States Federal or State tax authorities prior to 2013.

Leased Facilities
The Resource Center leases its current facility from the Town of Gorham. In lieu of rent, the Resource Center is responsible for the cost of repairs and maintenance, insurance, utilities and rubbish removal. The lease is for a 20 year period and expires on May 19, 2018. The Resource Center in turn sublets space in the facility to other nonprofit and community agencies at an average rate of approximately $10 - $16 per square foot. All participating organizations must provide services to a client base that is at least 66% low and moderate income.

Grants Receivable
Grants receivable from various public and other nonprofit organizations at June 30, 2017 and 2016 were considered fully collectable and therefore no provisions for bad debts have been made in these financial statements.

Advertising
Advertising costs are expensed as incurred.

Subsequent Events
Subsequent events have been evaluated through September 13, 2017, which is the date that the financial statements were available to be issued.

Reclassifications
Certain amounts in the prior year financial statements have been reclassified for comparative purposes to conform with the presentation in the current year financial statements.

Fair Value of Financial Instruments
ASC Topic No. 820-10, *Financial Instruments*, provides a definition of fair value which focuses on an exit price rather than an entry price, establishes a framework in generally accepted accounting principles for measuring fair value which emphasizes that fair value is a market based measurement, not an entity specific measurement, and requires expanded disclosures about fair value measurements. In accordance with FASB ASC 820-10, the Resource Center may use valuation techniques consistent with market, income and cost approaches to measure fair value. As a basis for considering market participant assumptions in fair value measurements, ASC Topic 820-10 establishes a fair value hierarchy, which prioritizes the inputs used in measuring fair values. The hierarchy gives the highest priority to Level 1 measurements and the lowest priority to Level 3 measurements. The three levels of the fair value hierarchy under ASC Topic 820-10 are described as follows:

> ***Level 1*** – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.
>
> ***Level 2*** - Inputs to the valuation methodology are other than quoted market prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies.
>
> ***Level 3*** - Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

At June 30, 2017 and 2016, the Resource Center's investments were all classified as Level 1 and were based on fair value.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2017 and 2016.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Resource Center at year end.

The preceding method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Resource Center believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

2. DEMAND NOTE PAYABLE

In April 2013, the Resource Center entered into a revolving line of credit agreement with a bank. The revolving line of credit agreement provides for maximum borrowings up to $75,000 and is collateralized by a certificate of deposit held at the same bank. The revolving line of credit and the certificate of deposit both renew every six months. At June 30, 2017 and 2016, the interest rate on the revolving line of credit was stated at the bank's prime rate of 3.20%. There were no balances outstanding as of June 30, 2017 and 2016.

3. AGENCY DEPOSITS

The Resource Center serves as a fiscal agent for the Androscoggin Valley Community Partners (formerly the Berlin Area Healthcare Consortium), a collaborative effort of area health and social services agencies intended to provide health related education, information and communications to the communities of Berlin and Gorham. The amounts held on behalf of the consortium as of June 30, 2017 and 2016 were $22,187 and $22,181, respectively.

The Resource Center serves as a fiscal agent for the North Country Veterans Committee. The committee performs extensive outreach, education and awareness throughout the North Country of New Hampshire in building a stronger safety net for North Country veterans and their families. The amounts held on behalf of the committee as of June 30, 2017 and 2016 were $3,396 and $4,140, respectively.

4. REFUNDABLE ADVANCES

Refundable advances from program grants and contract advances at June 30, 2017 and 2016 totaled $29,260 and $22,448, respectively.

5. CONCENTRATION OF CREDIT RISK - CASH

The Resource Center maintains cash balances that, at times, may exceed federally insured limits. The cash balances are insured by the Federal Deposit Insurance Corporation (FDIC) up to $250,000 per bank at June 30, 2017 and 2016. The Resource Center has not experienced any losses in such accounts and believes it is not exposed to any significant risk with these accounts. At June 30, 2017 and 2016, there were no cash balances in excess of FDIC coverage.

6. UNRESTRICTED NET ASSETS - DESIGNATED

By vote of the Board of Directors, funds have been designated for long term building maintenance. Unrestricted net assets designated by the board was $16,835 and $14,627 at June 30, 2017 and 2016, respectively.

7. OPERATING LEASE OBLIGATIONS

The Organization has entered into a one-year operating lease agreement to rent satellite office space. The Organization also rents various other office space on a month to month basis. Rent expense under these agreements aggregated $10,545 and $8,995 for the years ended June 30, 2017 and 2016, respectively.

The approximate future minimum lease payments on the above leases is as follows:

Year Ending June 30	Amount
2018	$ 5,500

8. INVESTMENTS

Investments held in the form of mutual funds at Bank of America are stated at fair value. Realized gains and losses are determined on the specific identification method. Gains and losses (realized and unrealized) are reported in the statement of activities as increases or decreases to unrestricted net assets, except for those investments for which their use is restricted. Information on investments at June 30, 2017 and 2016 is presented as follows:

Year	Investment	Cost	Market Value	Excess of Market Over Cost	Investment Income
2017	Bank of America	$181,136	$203,775	$22,639	$4,872
2016	Bank of America	$153,575	$177,573	$23,987	$4,448

9. PERMANENTLY RESTRICTED NET ASSETS

In 2007, the Resource Center established a permanent endowment fund for the organization with the intent of accumulating donations and interest earnings of one million dollars. During 2013, the Resource Center began taking allowable distributions from the fund. Per the laws of the State of New Hampshire (RSA 292-B:4), 7% of the fair market value of the endowment fund, calculated on the basis of fair market value determined at least quarterly and averaged over a period of not less than three years may be appropriated for operating account expenditures.

The Not-for-Profit Entities Topic of the FASB ASC (ASC 958-205 and subsections) intends to improve the quality of consistency of financial reporting of endowments held by not-for-profit organizations. This Topic provides guidance on classifying the net assets associated with donor-restricted endowment funds held by organizations that are subject to an

enacted version of the Uniform Prudent Management Institutional Funds Act (UPMIFA). New Hampshire has adopted UPMIFA. The Topic also requires additional financial statement disclosures on endowments and related net assets.

The Resource Center has followed an investment and spending policy to ensure a total return (income plus capital change) necessary to preserve the principal of the fund and at the same time, provide a dependable source of support to help build healthier families and stronger communities.

In recognition of the prudence required of fiduciaries, the Resource Center only invests the fund in cash and mutual funds. The Resource Center has taken a risk adverse approach to managing the endowment fund in order to mitigate financial market risk such as interest rate, credit and overall market volatility, which could substantially impact the fair value of the endowment fund at any given time.

As of June 30, 2017 and 2016, the endowment fund was entirely composed of permanently restricted net assets.

Fund activity for June 30, 2017 and 2016 was as follows:

	Balances as of June 30, 2016	Activity for the Year Ended June 30, 2017	Balances as of June 30, 2017

FAMILY RESOURCE CENTER AT GORHAM

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors
Family Resource Center at Gorham
Gorham, New Hampshire

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Family Resource Center at Gorham (a New Hampshire nonprofit organization), which comprise the statements of financial position as of June 30, 2017 and 2016, and the related statements of activities, cash flows and functional expenses for the years then ended, and the related notes to the financial statements, and have issued our report thereon dated September 13, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Family Resource Center at Gorham's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Family Resource Center at Gorham's internal control. Accordingly, we do not express an opinion on the effectiveness of Family Resource Center at Gorham's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did

not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Family Resource Center at Gorham's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Family Resource Center at Gorham's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Family Resource Center at Gorham's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Family Resource Center at Gorham's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Family Resource Center at Gorham's compliance.

Opinion on Each Major Federal Program

In our opinion, Family Resource Center at Gorham complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

Report on Internal Control Over Compliance

Management of Family Resource Center at Gorham is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Family Resource Center at Gorham's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Family Resource Center at Gorham's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

EXPLANATION

The purpose of this request is to renew contract services with these vendors for an additional two years. For a detailed summary of the changes please see attachment.

Comprehensive Family Support Services assist pregnant women and families with children up to the age of twenty-one (21) by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents to give families an opportunity to learn and grow.

The Division for Children, Youth and Families and the Division of Public Health Services have blended three family health and support related programs in to one program which is now represented as the Comprehensive Family Support Services.

Currently, there are twenty-five (25) community based family resource centers in operation across the State which provide a range of support services to families and children that focus on strengthening, supporting and building on the strengths and skills of individuals while also ensuring developmental screening for children six (6) and under. These centers are often key local stakeholders in groups that assess and advocate for the needs of local families.

The original contracts were competitively bid.

These contracts contain language which allows for the right to renew for up to four additional years based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

The Comprehensive Family Support Services program has served a total of 871 families and 1664 children in 2014. As a result, ninety-five percent (95%) of the families served achieved successful outcomes and remained uninvolved in a Division abuse or neglect case. The Division is satisfied with the services provided and is requesting approval to exercise two years of the renewal option reserving the Division's option to renew for the remaining two years based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

Should the Governor and Executive Council not authorize this request, the flexibility of community based family services may not be available to address the needs of children and families throughout the state which could cause an increase in the Division for Children, Youth and Families involvement for out of home placements. The services provided through these agreements help prevent separation of children from their families and afford them a safe, stable and supportive family environment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

INDEPENDENT AUDITORS' REPORT

We have audited the accompanying financial statements of Family Resource Center at Gorham, (a nonprofit organization) which comprise the statements of financial position as of June 30, 2015 and 2014, and the related statements of cash flows, and notes to financial statements for the years then ended, and the related statement of activities and statement of functional expenses for the year ended June 30, 2015.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility
Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Family Resource Center at Gorham as of June 30, 2015 and 2014, and its cash flows for the years then ended, and the changes in its net assets for the year ended June 30, 2015 in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information
We have previously audited the Family Resource Center at Gorham's 2014 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated November 5, 2014. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2014, is consistent, in all material respects, with the audited financial statements from which it has been derived.

FAMILY RESOURCE CENTER AT GORHAM

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED JUNE 30, 2015 AND 2014

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

The Family Resource Center at Gorham (the Resource Center) is a voluntary, not-for-profit corporation incorporated under the laws of the State of New Hampshire (RSA 292) and organized exclusively for tax exempt charitable and educational purposes. The principal activity of the Resource Center is to deliver programming that empowers and educates children and families so they can overcome obstacles to healthy family development while providing access to social and educational services to underserved North Country populations. Primary programs include:

home visiting programs that deliver evidence based early child development and parenting support curricula which empowers parents and gives them the motivations and skills to improve parenting and foster healthy family dynamics;

afterschool programs that supports the academic, social and emotional developmental of students in grades K-8; and,

an IRS sanctioned Volunteer Income Tax Assistance (VITA) program that provides free tax preparation services to a continuum of the population with a focus on maximizing income tax refunds and earned income tax credits for all individuals entitled to claim such credits.

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Basis of Presentation

The Resource Center is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets. The classes of net assets are determined by the presence or absence of donor restrictions.

Unrestricted: Net assets that are not subject to donor-imposed stipulations. Board designated unrestricted net assets consist of cash and cash equivalents which are to be used only with a specific vote of the board.

Temporarily Restricted: Net assets whose use is limited by donor-imposed stipulations that will either expire with the passage of time or be fulfilled or removed by actions of the Resource Center. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. Absent explicit donor stipulations about how long long-lived assets must be maintained or the manner of their disposition, the Resource

Center reports expirations of donor restrictions when the donated or acquired long-lived assets are placed in service. The Resource Center reports expirations of continuing donor restrictions regarding use or disposition of long-lived assets over the assets' expected useful lives.

Permanently Restricted: Net assets that are subject to donor-imposed stipulations that they be maintained permanently by the Resource Center. Generally, the donors of these assets permit the Resource Center to use all or part of the income earned on related investments for general or specific purposes.

As of June 30, 2015 and 2014, the Resource Center has unrestricted and permanently restricted net assets.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include all monies in banks and liquid investments with maturity dates of less than three months. The carrying value of cash and cash equivalents approximates fair value because of the short maturities of those financial instruments.

Investments

Investments are accounted for according to Accounting Standards Codification (ASC) 958-320 *Not For Profit Entities – Investments – Debt and Equity Securities.* Under ASC 958-320, investments in marketable securities with readily determinable fair values and all investments in debt securities are valued at their fair values in the statement of financial position. Unrealized gains and losses are included in the change in net assets. Fair values of investments are based on quoted prices in active markets for identical investments.

Property and Equipment

Property and equipment is recorded at cost if purchased and at fair value if donated. Depreciation is computed using the straight line method over the estimated useful lives of the related assets as follows:

Furniture and equipment	5 - 15 years
Leasehold improvements	20 years

The Resource Center's policy is to capitalize all assets over $2,500 with an expected life of one year or longer. Assets sold or otherwise disposed of are removed from the accounts, along with the related depreciation allowance, and any gain or loss is recognized.

Contributions

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and/or nature of any donor or time restrictions. A temporary restriction permits the Resource Center to use donated assets as specified for a particular purpose. Permanently restricted net assets are those that are required to be permanently maintained, but income from such investments may be used for specified purposes. All donor restricted support is reported as an increase in temporarily or permanently restricted net assets, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Contributed Services

From time to time, the Resource Center receives donated services in carrying out the mission and fundraising activities of the Resource Center. Such donations do not meet the criteria for recognition under ASC 958 and accordingly no amounts are reflected in the financial statements for those services.

Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Refundable Advances

The Resource Center records grant/contract revenue as a refundable advance until it is expended for the purpose of the grant/contract, at which time it is recognized as revenue.

Income Taxes

The Resource Center is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. In addition, the Resource Center qualifies for the charitable contribution deduction under Section 170(b)(1)(a) and has been classified as an organization that is not a private foundation.

Management has evaluated the Resource Center's tax positions and concluded that the Resource Center has maintained its tax-exempt status and has taken no uncertain tax positions that would require adjustment to the financial statements. With few exceptions, the Resource Center is no longer subject to income tax examinations by the United States Federal or State tax authorities prior to 2011.

Leased Facilities

The Resource Center leases its current facility from the Town of Gorham. In lieu of rent, the Resource Center is responsible for the cost of repairs and maintenance, insurance, utilities and rubbish removal. The lease is for a 20 year period and expires on May 19, 2018. The Resource Center in turn sublets space in the facility to other nonprofit and community agencies at an average rate of approximately $10 - $14 per square foot. All participating organizations must provide services to a client base that is at least 66% low and moderate income.

Grants Receivable
Grants receivable from various public and other nonprofit organizations at June 30, 2015 and 2014 were considered fully collectable and therefore no provisions for bad debts have been made in these financial statements.

Advertising
Advertising costs are expensed as incurred.

Subsequent Events
Subsequent events have been evaluated through October 16, 2015, which is the date that the financial statements were available to be issued.

Prior Year's Information
The financial statements include certain prior year summarized comparative information in total but not by function. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the Resource Center's financial statements for the year ended June 30, 2014, from which the summarized information was derived.

Reclassifications
Certain amounts in the prior year financial statements have been reclassified for comparative purposes to conform with the presentation in the current year financial statements.

Fair Value of Financial Instruments
ASC Topic No. 820-10, *Financial Instruments*, provides a definition of fair value which focuses on an exit price rather than an entry price, establishes a framework in generally accepted accounting principles for measuring fair value which emphasizes that fair value is a market based measurement, not an entity specific measurement, and requires expanded disclosures about fair value measurements. In accordance with FASB ASC 820-10, the Resource Center may use valuation techniques consistent with market, income and cost approaches to measure fair value. As a basis for considering market participant assumptions in fair value measurements, ASC Topic 820-10 establishes a fair value hierarchy, which prioritizes the inputs used in measuring fair values. The hierarchy gives the highest priority to Level 1 measurements and the lowest priority to Level 3 measurements. The three levels of the fair value hierarchy under ASC Topic 820-10 are described as follows:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.

Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies.

Level 3 - Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

At June 30, 2015 and 2014, the Resource Center's investments were all classified as Level 1 and were based on fair value.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2015 and 2014.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Resource Center at year end.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Resource Center believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

2. DEMAND NOTE PAYABLE

In April 2013 the Resource Center entered into a revolving line of credit with a bank. The revolving line of credit provides for maximum borrowings up to $75,000 and is collateralized by a certificate of deposit held at the same bank. The revolving line of credit and the certificate of deposit both renew every six months. At June 30, 2015 and 2014, the interest rate on the revolving line of credit was stated at the bank's prime rate of 3.10% and 3.20%, respectively. The balance outstanding at June 30, 2015 was $29,500. There was no balance outstanding as of June 30, 2014.

3. AGENCY DEPOSITS

The Resource Center serves as a fiscal agent for the Androscoggin Valley Community Partners (formerly the Berlin Area Healthcare Consortium), a collaborative effort of area health and social services agencies intended to provide health related education, information and communications to the communities of Berlin and Gorham. The amounts held on behalf of the consortium as of June 30, 2015 and 2014 were $22,179 and $22,177, respectively

4. REFUNDABLE ADVANCES

Refundable advances from program grants and contract advances at June 30, 2015 and 2014 totaled $41,887 and $70,122, respectively.

5. **CONCENTRATION OF CREDIT RISK - CASH**

The Resource Center maintains cash balances that, at times, may exceed federally insured limits. The cash balances are insured by the Federal Deposit Insurance Corporation (FDIC) up to $250,000 per bank at June 30, 2015 and 2014. The Resource Center has not experienced any losses in such accounts and believes it is not exposed to any significant risk with these accounts. At June 30, 2015 and 2014, there were no cash balances in excess of FDIC coverage.

6. **UNRESTRICTED NET ASSETS - DESIGNATED**

By vote of the Board of Directors funds have been designated for long term building maintenance. Unrestricted net assets designated by the board was $12,219 and $9,210 at June 30, 2015 and 2014, respectively.

7. **OPERATING LEASE OBLIGATIONS**

The Organization has entered into a one year operating lease agreement to rent satellite office space. The Organization also rents various other office space on a month to month basis. Rent expense under these agreements aggregated $7,480 and $7,250 for the years ended June 30, 2015 and 2014, respectively.

The approximate future minimum lease payments on the above leases is as follows:

Year Ending June 30	Amount
2016	$ 6,000
Total	$ 6,000

8. **INVESTMENTS**

Investments held in the form of mutual funds at Bank of America are stated at fair value. Realized gains and losses are determined on the specific identification method. Gains and losses (realized and unrealized) are reported in the statement of activities as increases or decreases to unrestricted net assets, except for those investments for which their use is restricted. Information on investments at June 30, 2015 and 2014 is presented as follows:

Year	Investment	Cost	Market Value	Excess (Deficiency) of Market Over Cost	Investment Income
2015	Bank of America	$152,575	$177,349	$24,774	$4,243
2014	Bank of America	$158,775	$188,804	$30,029	$4,139

9. PERMANENTLY RESTRICTED NET ASSETS

In 2007, the Resource Center established a permanent endowment fund for the organization with the intent of accumulating donations and interest earnings of one million dollars. During 2013 the Resource Center began taking allowable distributions from the fund. Per the laws of the State of New Hampshire (RSA 292-B:4), 7% of the fair market value of the endowment fund, calculated on the basis of fair market value determined at least quarterly and averaged over a period of not less than three years may be appropriated for operating account expenditures.

The Not-for-Profit Entities Topic of the FASB ASC (ASC 958-205 and subsections) intends to improve the quality of consistency of financial reporting of endowments held by not-for-profit organizations. This Topic provides guidance on classifying the net assets associated with donor-restricted endowment funds held by organizations that are subject to an enacted version of the Uniform Prudent Management Institutional Funds Act (UPMIFA). New Hampshire has adopted UPMIFA. The Topic also requires additional financial statement disclosures on endowments and related net assets.

The Resource Center has followed an investment and spending policy to ensure a total return (income plus capital change) necessary to preserve the principal of the fund and at the same time, provide a dependable source of support to help build healthier families and stronger communities.

In recognition of the prudence required of fiduciaries, the Resource Center only invests the fund in cash and mutual funds. The Resource Center has taken a risk adverse approach to managing the endowment fund in order to mitigate financial market risk such as interest rate, credit and overall market volatility, which could substantially impact the fair value of the endowment fund at any given time.

As of June 30, 2015 and 2014 the endowment fund was entirely composed of permanently restricted net assets.

Fund activity for June 30, 2015 and 2014 was as follows:

	Balances as of June 30, 2014	Activity for the Year Ended June 30, 2015	Balances as of June 30, 2015

May 29, 2015

Attorney Megan Yaple
NH Department of Justice
Office of the Attorney General
33 Capitol Street
Concord, New Hampshire 03301

Good Morning Attorney Yaple,

I am writing to ask that you review the attached amendments between the Department of Health and Human Services, Division for Children, Youth and Families and The Family Resource Center at Gorham (Vendor # 162412-B001), 123 Main Street, Gorham, NH. The amendment has been signed by the Associate Commissioner and an authorized signor for the vendor. The vendor provides Comprehensive Family Support Services in the Berlin and Littleton District Office areas, and has requested the adjustment of several budget line items in State Fiscal Year 2015 in order to meet specified needs. The Governor and Executive Council approved the original agreements on June 18, 2014, (Item # 80). These are zero cost amendments with no change to any of the contracts end date of June 30, 2016.

Because of the language, in all of the contracts, in Exhibit B, Section 2.7, that reads:

2.7 *Notwithstanding paragraph 18 of the P-37, an amendment limited to the adjustment of the amounts between budget line items and/or State Fiscal Years, related items, and amendments of related budget exhibits, can be made by written agreement of both parties and do not require additional approval of the Governor and Executive Council*

I am asking that you review and sign off on the amendments as they do not need further action by the Governor and Executive Council.

The remainder of this letter is presented in the format typical of most Governor and Executive Council letters, so that you might have some context for your review.

Funds to support this request are available in the following accounts in State Fiscal Year 2015 and are anticipated to be available in State Fiscal Year 2016, upon the availability and continued appropriation of funds in the future operating budget with the ability to adjust encumbrances between State Fiscal Years through the Budget Office if needed and justified without further approval from the Governor and Executive Council.

EXPLANATION

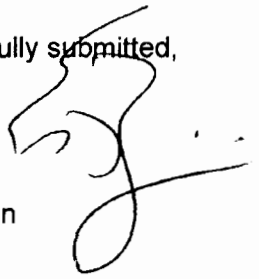
The purpose of these amendments is to allow the vendor to adjust certain budget lines in each of the contracts in order to meet contractual needs; and to update the standard contract language in Exhibit C and Exhibit G for each contract. The vendor underestimated the Travel, Occupancy and Printing expenses for the Berlin District Office area and the Subcontracting expenses in the Littleton District Office area. The change has resulted in a request from the vendor to adjust the Salary/Wages, Benefits, Occupancy, Travel and Printing budget lines in the Berlin area contract, the salary, benefits and subcontractor budget lines in the Littleton area contract. The Department supports the requested adjustments.

There are no additional funds being requested in this amendment. Other than the changes outlined in the paragraph above, all other terms and conditions remain unchanged from the original agreement approved by the Governor and Executive Council on June 18, 2014, (Item # 80).

Comprehensive Family Support Services assist pregnant women and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents and give families an opportunity to learn and grow.

This contract was awarded as the result of a competitive bid process. On January 21, 2014, the Division issued a Request for Proposal for Comprehensive Family Support Services to serve the eleven (11) catchment areas in the State of New Hampshire. Twelve proposals were received.

The Family Resource Center at Gorham was awarded two (2) of the eleven (11) contracts selected in the competitive bid process.



Should the Governor and Executive Council not approve this request, the vendor would not be able to meet their contractual needs which could reduce the availability, accessibility, and quality of Comprehensive Family Support Services in the Manchester, Concord and Southern District Office areas.

Area Served: Berlin and Littleton District Office areas

Source of Funds: 100% Federal Funds

In the event that Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Eric Borrin
Director

SPECIAL PROVISIONS

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.

2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.

3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.

4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.

5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.

6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
   7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
   7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

   8.2. Statistical Records: Statistical, enrollment, attendance or visit records for each recipient of services during the Contract Period, which records shall include all records of application and eligibility (including all forms required to determine eligibility for each such recipient), records regarding the provision of services and all invoices submitted to the Department to obtain payment for such services.
   8.3. Medical Records: Where appropriate and as prescribed by the Department regulations, the Contractor shall retain medical records on each patient/recipient of services.

9. **Audit:** Contractor shall submit an annual audit to the Department within 60 days after the close of the agency fiscal year. It is recommended that the report be prepared in accordance with the provision of Office of Management and Budget Circular A-133, "Audits of States, Local Governments, and Non Profit Organizations" and the provisions of Standards for Audit of Governmental Organizations, Programs, Activities and Functions, issued by the US General Accounting Office (GAO standards) as they pertain to financial compliance audits.
   9.1. Audit and Review: During the term of this Contract and the period for retention hereunder, the Department, the United States Department of Health and Human Services, and any of their designated representatives shall have access to all reports and records maintained pursuant to the Contract for purposes of audit, examination, excerpts and transcripts.
   9.2. Notwithstanding anything to the contrary contained herein the covenants and conditions contained in the Paragraph shall survive the termination of the Contract for any reason whatsoever.

11. **Reports:** Fiscal and Statistical: The Contractor agrees to submit the following reports at the following times if requested by the Department.
    11.1. Interim Financial Reports: Written interim financial reports containing a detailed description of all costs and non-allowable expenses incurred by the Contractor to the date of the report and containing such other information as shall be deemed satisfactory by the Department to justify the rate of payment hereunder. Such Financial Reports shall be submitted on the form designated by the Department or deemed satisfactory by the Department.
    11.2. Final Report: A final report shall be submitted within thirty (30) days after the end of the term of this Contract. The Final Report shall be in a form satisfactory to the Department and shall contain a summary statement of progress toward goals and objectives stated in the Proposal and other information required by the Department.

12. **Completion of Services:** Disallowance of Costs: Upon the purchase by the Department of the maximum number of units provided for in the Contract and upon payment of the price limitation hereunder, the Contract and all the obligations of the parties hereunder (except such obligations as, by the terms of the Contract are to be performed after the end of the term of this Contract and/or survive the termination of the Contract) shall terminate, provided however, that if, upon review of the Final Expenditure Report the Department shall disallow any expenses claimed by the Contractor as costs hereunder the Department shall retain the right, at its discretion, to deduct the amount of such expenses as are disallowed or to recover such sums from the Contractor.

13. **Credits:** All documents, notices, press releases, research reports and other materials prepared during or resulting from the performance of the services of the Contract shall include the following statement:

14. **Prior Approval and Copyright Ownership:** All materials (written, video, audio) produced or purchased under the contract shall have prior approval from DHHS before printing, production, distribution or use. The DHHS will retain copyright ownership for any and all original materials produced, including, but not limited to, brochures, resource directories, protocols or guidelines, posters, or reports. Contractor shall not reproduce any materials produced under the contract without prior written approval from DHHS.

15. **Operation of Facilities: Compliance with Laws and Regulations:** In the operation of any facilities for providing services, the Contractor shall comply with all laws, orders and regulations of federal, state, county and municipal authorities and with any direction of any Public Officer or officers pursuant to laws which shall impose an order or duty upon the contractor with respect to the operation of the facility or the provision of the services at such facility. If any governmental license or permit shall be required for the operation of the said facility or the performance of the said services, the Contractor will procure said license or permit, and will at all times comply with the terms and conditions of each such license or permit. In connection with the foregoing requirements, the Contractor hereby covenants and agrees that, during the term of this Contract the facilities shall comply with all rules, orders, regulations, and requirements of the State Office of the Fire Marshal and the local fire protection agency, and shall be in conformance with local building and zoning codes, by-laws and regulations.

EXPLANATION

Comprehensive Family Support Services assist pregnant women and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents and give families an opportunity to learn and grow.

The Division for Children, Youth and Families and Division of Public Health Services /Maternal Child Health Services blended three family health and support related programs, into one program. This Comprehensive Family Support Services represents such efforts.

New Hampshire DHHS Comprehensive Family Support Services:

In 2002, The Division for Children, Youth and Families, launched a family support partnership, entitled Comprehensive Family Support Services. Support and prevention-based services and programs were provided to thousands families and individuals throughout the state. Due to the success of these prevention-oriented programs, the Division for Children, Youth and Families has recognized the benefit of provider services to families as an effort to keep them from becoming involved in other systems of care.

Currently, there are 25 community-based family resource centers in operation across the State of New Hampshire, which provide a range of support services to families and children that focus on strengthening, supporting and building on the strengths and skills of individuals while also ensuring developmental screening for children six and under. These centers are often key local stakeholders in groups that assess and advocate for the needs of local families.

New Hampshire DHHS Home Visiting NH:

In 2001, the Division of Public Health Services Maternal and Child Health Section began Home Visiting New Hampshire, a statewide, family focused and child centered, preventive program that provides, health, education, support and linkages to community services to eligible, pregnant women and their families in their home until her child is twelve (12) months old. Contractors provide these services in nine (9) of the Division for Children, Youth and Families service areas. The goals of Home Visiting New Hampshire are to promote healthy pregnancy and birth outcomes, promote a safe and nurturing environment for children, and enhance families' life course and development.

Child and Family Health Support Services:

Child and Family Health Support Services have been available through local community health and home visiting agencies for approximately twenty years with funds that had previously supported the state's network of "well baby clinics". These services provide assistance with health care enrollment, referrals, case management, care coordination, education and counseling relative to the child and family and can be conducted by home, office visit or by telephone when appropriate. The goal of Child and Family Health Support Services is to promote the health and well-being of children from birth through age eighteen, with priority given to children birth through age ten.

This contract was competitively bid. On January 21, 2014 the Department issued a Request for Proposals to solicit proposals for the provision of Comprehensive Family Support Services to assist expectant women along with children and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. The request for proposals was available on the Department of Health and Human Services website from January 21, 2014 through March 10, 2014. There were 12 proposals submitted.

The proposals were evaluated by a team of Department of Health and Human Services employees with knowledge of the program requirements, the Division for Children, Youth and Families' Comprehensive Family Support Services program and the Division of Public Health Services, Maternal and Child Health Section. The team also included staff with significant business and management expertise.

The proposals were evaluated based on the criteria published in the Request for Proposals. Eleven of the twelve proposals were selected. The bid summary is attached.

The attached contract calls for the provision of these services for two years and reserves the Division's right to renew the agreement for up to four additional years, based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

Should Governor and Council not authorize this request, the flexibility of community–based family services may not be available to address the needs of children and families throughout the state which could cause an increase in the Division for Children, Youth and Families involvement for out-of-home placement, as these services help to prevent the separation of children from their families and afford them a safe, stable and supportive family environment.

Area Served: Statewide.

Source of Funds: 95.34% Federal Funds
4.66% General Funds

In the event that Federal Funds are no longer available, no additional General Funds will be requested to support this program.

SPECIAL PROVISIONS

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. Compliance with Federal and State Laws: If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.

2. Time and Manner of Determination: Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.

3. Documentation: In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.

4. Fair Hearings: The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.

5. Gratuities or Kickbacks: The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.

6. Retroactive Payments: Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

7. Conditions of Purchase: Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party fundors for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party fundors, the Department may elect to:
   7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
   7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

   8.2. Statistical Records: Statistical, enrollment, attendance or visit records for each recipient of services during the Contract Period, which records shall include all records of application and eligibility (including all forms required to determine eligibility for each such recipient), records regarding the provision of services and all invoices submitted to the Department to obtain payment for such services.
   8.3. Medical Records: Where appropriate and as prescribed by the Department regulations, the Contractor shall retain medical records on each patient/recipient of services.

9. Audit: Contractor shall submit an annual audit to the Department within 60 days after the close of the agency fiscal year. It is recommended that the report be prepared in accordance with the provision of Office of Management and Budget Circular A-133, "Audits of States, Local Governments, and Non Profit Organizations" and the provisions of Standards for Audit of Governmental Organizations, Programs, Activities and Functions, issued by the US General Accounting Office (GAO standards) as they pertain to financial compliance audits.
   9.1. Audit and Review: During the term of this Contract and the period for retention hereunder, the Department, the United States Department of Health and Human Services, and any of their designated representatives shall have access to all reports and records maintained pursuant to the Contract for purposes of audit, examination, excerpts and transcripts.
   9.2. Audit Liabilities: In addition to and not in any way in limitation of obligations of the Contract, it is understood and agreed by the Contractor that the Contractor shall be held liable for any state or federal audit exceptions and shall return to the Department, all payments made under the Contract to which exception has been taken or which have been disallowed because of such an exception.

Notwithstanding anything to the contrary contained herein the covenants and conditions contained in the Paragraph shall survive the termination of the Contract for any reason whatsoever.

11. Reports: Fiscal and Statistical: The Contractor agrees to submit the following reports at the following times if requested by the Department.
    11.1. Interim Financial Reports: Written interim financial reports containing a detailed description of all costs and non-allowable expenses incurred by the Contractor to the date of the report and containing such other information as shall be deemed satisfactory by the Department to justify the rate of payment hereunder. Such Financial Reports shall be submitted on the form designated by the Department or deemed satisfactory by the Department.
    11.2. Final Report: A final report shall be submitted within thirty (30) days after the end of the term of this Contract. The Final Report shall be in a form satisfactory to the Department and shall contain a summary statement of progress toward goals and objectives stated in the Proposal and other information required by the Department.

12. Completion of Services: Disallowance of Costs: Upon the purchase by the Department of the maximum number of units provided for in the Contract and upon payment of the price limitation hereunder, the Contract and all the obligations of the parties hereunder (except such obligations as, by the terms of the Contract are to be performed after the end of the term of this Contract and/or survive the termination of the Contract) shall terminate, provided however, that if, upon review of the Final Expenditure Report the Department shall disallow any expenses claimed by the Contractor as costs hereunder the Department shall retain the right, at its discretion, to deduct the amount of such expenses as are disallowed or to recover such sums from the Contractor.

13. Credits: All documents, notices, press releases, research reports and other materials prepared during or resulting from the performance of the services of the Contract shall include the following statement:
    13.1. 14. Prior Approval and Copyright Ownership: All materials (written, video, audio) produced or purchased under the contract shall have prior approval from DHHS before printing, production, distribution or use. The DHHS will retain copyright ownership for any and all original materials produced, including, but not limited to, brochures, resource directories, protocols or guidelines, posters, or reports. Contractor shall not reproduce any materials produced under the contract without prior written approval from DHHS.

15. Operation of Facilities: Compliance with Laws and Regulations: In the operation of any facilities for providing services, the Contractor shall comply with all laws, orders and regulations of federal, state, county and municipal authorities and with any direction of any Public Officer or officers pursuant to laws which shall impose an order or duty upon the contractor with respect to the operation of the facility or the provision of the services at such facility. If any governmental license or permit shall be required for the operation of the said facility or the performance of the said services, the Contractor will procure said license or permit, and will at all times comply with the terms and conditions of each such license or permit. In connection with the foregoing requirements, the Contractor hereby covenants and agrees that, during the term of this Contract the facilities shall comply with all rules, orders, regulations, and requirements of the State Office of the Fire Marshal and the local fire protection agency, and shall be in conformance with local building and zoning codes, by-laws and regulations.

16. Subcontractors: DHHS recognizes that the Contractor may choose to use subcontractors with greater expertise to perform certain health care services or functions for efficiency or convenience, but the Contractor shall retain the responsibility and accountability for the function(s). Prior to

subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

When the Contractor delegates a function to a subcontractor, the Contractor shall do the following:

16.1. Evaluate the prospective subcontractor's ability to perform the activities, before delegating the function

16.2. Have a written agreement with the subcontractor that specifies activities and reporting responsibilities and how sanctions/revocation will be managed if the subcontractor's performance is not adequate

16.3. Monitor the subcontractor's performance on an ongoing basis

16.4. Provide to DHHS an annual schedule identifying all subcontractors, delegated functions and responsibilities, and when the subcontractor's performance will be reviewed

16.5. DHHS shall, at its discretion, review and approve all subcontracts.

If the Contractor identifies deficiencies or areas for improvement are identified, the Contractor shall take corrective action.

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.

6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled Certification Regarding Debarment, Suspension, Ineligibility and oluntary Exclusion - Lower Tier Covered Transactions, provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
    11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
    11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

    11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.

12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:
    13.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.
    13.2. where the prospective lower tier participant is unable to certify to any of the above, such prospective participant shall attach an explanation to this proposal (contract).

c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect usiness Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's nowledge of a breach by usiness Associate of the usiness Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.

c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.

d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.
