EXPLANATION

This request is **sole source** because the funding being added in State Fiscal Year 2018 exceeds 10% of the total contract value for each contract. The addional funding is being utilized by the vendors to increase staff capacity to provide services to families who had a an abuse/neglect assessment conducted by the Division for Children, Youth and Families that was closed unfounded or unfounded with conerns.

The purpose of these amendments is to increase capacity for programs and utilize one (1) of the two (2) years available for renewing services, as specified in Exhibit C-2 of the original agreements.

Comprehensive Family Support Services assist pregnant women and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents and give families an opportunity to learn and grow.

Below is a breakdown of those served in 2016 through the original Comprehensive Family Support Services contracts:

- Families served, 1,027.
- Family members served, 2,979.
- Total children served 1,695
- 50% of families served had a single caregiver.
- 48% of families served have mental health issues.
- 33 % of families served have chronic health issues.
- 93% of children served have child Medicaid insurance.
- 12% of adults served are without any insurance

Considering those served and program outcomes from 2014 to 2016 there have been considerable success for those who have participated and successfully completed or graduated from the program. Success is measured by future avoidance of DCYF services. Families are tracked for 3 years following the completion of services. Below are the outcome measures for the period identified

- 2014, 91.8%
- 2015, 93.1%
- 2016, 93.6%

Over the last several years the State of New Hampshire has seen a significant increase in the volume of families with open abuse and neglect cases. This translates to many more children in out of home care and significant increase in cost to the State of New Hampshire. By providing the additional resources through these amendments, the vendors will be able to increase services offered to the State's most vulnerable population.

With the increased funding, the vendors will be able to increase their ability to expand their service array to clients within their community by being able to employ one (1) to two (2) full time employees in order to manage their current wait list and to support the Division for Children, Youth and Families with assessments where substance abuse is an identified concern. Vendors will work with their communities to increase referrals for TANF exempt clients with children under the age of one (1) year. Vendors will increase their capacity to offer and implement prevention services to those most in need.

The services offered by these vendors are available to any family in the State of New Hampshire with children under the age of 21 years, with priority given to those families referred by the Division for Children Youth and Families. The Division for Children, Youth and Families will refer families who have had an abuse/neglect assessments closed unfounded or unfounded with concerns to the appropriate vendor in the service area. Families would then receive prevention services to assist them with decreasing famly stressors.

Although, prevention services are offered through the original Comprehensive Family Support Services contracts, these amendments will increase the vendor's capacity to provide additional resources. The additional services will allow vendors to increase the number of families served and the services offered, which include but are not limited to:

- Education.
- Parenting support.
- Case management.
- Assisted referrals.
- Home visiting resources.
- Budget management.
- Child development/

The Deppartment anticipates that by increasing the availability and quality of prevention services offered statewide there will be a reduction in incidents of child abuse and neglect, which would result in a reduction of open abuse/neglect cases with the Division for Children, Youth and Families.

The following performance measures/objectives will be used to measure the effectiveness of the agreement:

- 60% of families referred will enter and complete services. (Performance Measure)
- 95% of families who complete services will not be referred to DCYF within the following 3 years.(Performance Measure)

- Increase the number of families served with children under the age of 1. (Performance Measure)
- Increase the number of parents served under the age of 21. (Performance Measure)

Should Governor and Executive Council not authorize this request, the flexibility of community based family services may not be available to address the needs of children and families statewide, which could result in an increase in the Division for Children, Youth and Families involvement for out-of-home placement. Additionally families will not receive services that could assist with preventing the separation of children from their families by providing services that would result in parents providing a safe, stable and supportive family environment for their children.

Area served: Statewide

Source of Funds: 97.59% Federal Funds from Title IV-B Subpart I (CFDA#:93.645, FAIN: 1801NHCWSS), Promoting and Stable Families (CFDA#: 93.556, FAIN: 1801FPSS),Title XX Grants – SSBG (CFDA#: 93.667, FAIN: 1801NHSOSR), temporary Assistance to Needy Families (CFDA#: 93.558, FAIN: 17NHTANF), MCH Block Grant, 2.41% General Funds.

In the event that the Federal (or Other) Funds are no longer available, General Funds will not be requested to support this program.

Independent Auditors' Report

To the Board of Trustees
Child and Family Services of New Hampshire

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Child and Family Services of New Hampshire, which comprise the consolidated statement of financial position as of December 31, 2016, and the related consolidated statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not

for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Child and Family Services of New Hampshire as of December 31, 2016, and the changes in net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

We have previously audited Child and Family Services of New Hampshire's 2015 financial statements, and we expressed an unmodified opinion on those audited financial statements in our report dated March 23, 2016. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2015 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The Consolidated Schedule of Operating Expenses is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 28, 2017 on our consideration of Child and Family Services of New Hampshire's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Child and Family Services of New Hampshire's internal control over financial reporting and compliance.

CHILD AND FAMILY SERVICES OF NEW HAMPSHIRE

Notes to Consolidated Financial Statements
For the Year Ended December 31, 2016

1. Description of Organization

Child and Family Services of New Hampshire (the Organization) is a nonprofit organization, founded in 1850, that currently aids more than 20,000 individuals, statewide, through an array of social services.

These services span the life cycle from prenatal to seniors, and can be grouped into four basic categories:

1. **Early Childhood – Family Support & Education Services**
   Over 4,500 parents received education and support to improve parenting, strengthen families, prevent child abuse and neglect, and ensure healthy development of children. Over 500 young children starting life at a disadvantage received critical services to ensure a good beginning and to optimize their chance for life-long success. Some of the programs focused on early childhood include:

   Early Support and Services – Early Support and Services provides family-centered support and therapies to infants and toddlers who have developmental disabilities, delays or are at risk of developmental delays. Services work to optimize babies' cognitive, physical, emotional and social development, and chance for success. Services are provided in the child's natural environment (home, day care, playground, etc.).

   Home Visiting Services – A number of different prevention programs are offered in the home during those critical early years of a child's life. A spectrum of services includes support to new mothers and those struggling to parent; services for children with chronic health conditions; prenatal services for babies being born at a disadvantage into low-income families; and programs to encourage positive early parent/child relationships and promote optimal early childhood development. Services are provided by nurses, social workers, developmental specialists, occupational therapists, health educators, and home visitors.

   Adoption – A licensed child-placing agency, the Organization has been forming families through adoption since 1914. The Organization's adoption professionals provide home studies and adoption services for families looking to adopt and provide counselling and support to birth-parents who are considering the adoption option.

2. **Children, Youth, and Family - Intervention and Treatment Programs**
The Organization contracts with the State of New Hampshire, the federal government, and insurance companies, to provide a continuum of services for children, adolescents and young adults. Programs are delivered in the home, schools, or community, and include mental health counseling and substance abuse treatment, as well as a complex system of family stabilization and preservation programs, child protection services, and services for at-risk youth. Some of the programs include:

   Foster care – The Organization works with the State of New Hampshire in placing children who have been rescued from dangerous home environments, into safe, stable, loving homes. The Organization recruits and supports foster families and works to facilitate permanency for each child.

   Home Based Services – The Organization has a number of programs provided in the family home that are designed to help families who are struggling through daily life - where children are at risk. Services work to thwart domestic violence, rebuild families, and to improve family functioning. The Organization empowers families with the skills and resources they need to provide for their children and become self-sufficient.

3. **Runaway and Homeless Youth Services**
The Organization is the sole provider of services for runaway and homeless youth in Manchester and the Seacoast. A full spectrum of services features outreach to at-risk youth that includes survival aid on the streets and basic needs fulfillment at the drop-in center, as well as crisis intervention, educational and vocational advocacy, housing, and case management. The Organization also provides behavioral health and substance use counseling where needed. The Organization works with school systems, police, and other agencies in addressing the needs of New Hampshire's homeless youth.

4. **Senior Care and Independent Living**
The Organization helps seniors and individuals with chronic illness or disability to live at home safely and with dignity, and to maintain quality of life. Under the title of Home Care, services are delivered by homemakers, companions, personal care service providers, and LNAs. The Organization's caregivers go to client homes to help with everything from cooking and cleaning to personal hygiene, medication reminders, mobility, travel to appointments, paying bills, help with daily tasks, and communication with family members.

Additionally, the Organization runs two unique programs:

Camp Spaulding – Since 1921, Camp Spaulding has helped campers from all types of backgrounds enjoy the benefits of a traditional, resident camp experience. In 2015, the Organization formed a partnership with the YMCA of Greater Nashua whereby the Organization will own the camp and the YMCA will handle daily operations and summer programming. This collaboration will combine a 96 year camp history, an exceptional facility, strong community support, and the expertise of two premier New Hampshire nonprofit organizations.

The New Hampshire Children's Lobby – Established in 1971, the New Hampshire Children's Lobby is the advocacy wing of Child and Family Services. The program's mission is to improve the lives of children and families through legislative, judicial, and public policy initiatives. This combination of advocacy and direct service practice uniquely positions the Organization to serve the best interest of New Hampshire children.

2. Significant Accounting Policies

The Organization prepares its consolidated financial statements in accordance with generally accepted accounting principles promulgated in the United States of America (GAAP) for nonprofit organizations. The significant accounting and reporting policies used by the Organization are described subsequently to enhance the usefulness and understandability of the consolidated financial statements.

Net Assets

The consolidated financial statements report net assets and changes in net assets in three classes that are based upon the existence or absence of restrictions on use that are placed by its donors, as follows:

Unrestricted Net Assets

Unrestricted net assets are resources available to support operations. The only limits on the use of unrestricted net assets are the broad limits resulting from the nature of the Organization, the environment in which it operates, the purposes specified in its organizing documents and its application for tax-exempt status, and any limits resulting from contractual agreements with creditors and others that are entered into in the course of its operations.

Temporarily Restricted Net Assets

Temporarily restricted net assets are resources that are restricted by donors for use for a particular purpose or in a particular future period. The Organization's unspent contributions are classified in this net asset class if

the donor limited their use, as are the unspent appreciation of its donor-restricted endowment funds.

When a donor's restriction is satisfied, either by using the resources in the manner specified by the donor or by the passage of time, the expiration of the restriction is reported in the consolidated financial statements by reclassifying the net assets from temporarily restricted to unrestricted net assets.

Permanently Restricted Net Assets

Permanently restricted net assets are resources whose use by the Organization is limited by donor-imposed restrictions that neither expire by being used in accordance with a donor's restriction nor by the passage of time. The portion of the Organization's donor-restricted funds that must be maintained in perpetuity is classified in this net asset class, as is the Organization's beneficial interest in perpetual charitable trusts. Unless restricted by the donor, income earned on permanently restricted net assets is expendable to support operations, subject to certain restrictions.

All revenues and net gains are reported as increases in unrestricted net assets in the Statement of Activities unless the use of the related resources is subject to temporary or permanent donor restrictions. All expenses and net losses, other than losses on endowment investments, are reported as decreases in unrestricted net assets. Net losses on endowment investments reduce temporarily restricted net assets to the extent that temporarily restricted net gains from prior years are unspent and classified there; remaining losses are classified as decreases in unrestricted net assets. If an endowment fund has no net gains from prior years, such as when a fund is newly established, net losses are classified as decreases in unrestricted net assets.

Principles of Consolidation

The consolidated financial statements of the Organization include the accounts of Child and Family Services of New Hampshire and Child and Family Realty Corporation, a commonly controlled organization. All inter-organization transactions have been eliminated.

Comparative Financial Information

The accompanying financial statements include certain prior-year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with Accounting Principles Generally Accepted in the United States of America (GAAP). Accordingly, such information should be read in conjunction with the audited financial statements for the year ended December 31, 2015, from which the summarized information was derived.

Cash Equivalents

Cash equivalents are short term, interest bearing, highly liquid investments with original maturities of three months or less, unless the investments are held for meeting donor restrictions. Temporarily restricted cash investments held within investment portfolios are excluded from cash equivalents.

Investments

The Organization maintains pooled investment accounts for its restricted endowments. Realized and unrealized gains and losses are allocated to the individual endowments based on the relationship of the market value of each endowment to the total market value of the pooled investment accounts, as adjusted for additions to or deductions from those accounts.

Accounts Receivable and Revenue

Accounts receivable is recognized when qualifying costs are incurred for cost reimbursement grants or contracts or when a unit of service is provided for performance grants. Grant revenue from federal agencies is subject to independent audit under the Office of Management and Budget's, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards,* and review by grantor agencies. The review could result in the disallowance of expenditures under the terms of the grants or reductions of future grant awards. Based on prior experience, the Organization's management believes that costs ultimately disallowed, if any, would not materially affect the financial position of the Organization.

Allowance for Doubtful Accounts

The adequacy of the allowance for doubtful accounts for receivables is reviewed on an ongoing basis by the Organization's management and adjusted as required through the provision for doubtful accounts (bad debt expense). In determining the amount required in the allowance account, management has taken into account a variety of factors.

Beneficial Interest

The Organization is the beneficiary of perpetual charitable trusts. The beneficial interest in the trust is reported at its fair value, which is estimated as the fair value of the underlying trust assets. Distributions of income from the trust assets are restricted to use and are reported as increases in temporarily restricted net assets until expended in accordance with restrictions. The value of the beneficial interest in the trust is adjusted annually for the change in its estimated fair value. Those changes in value are reported as increases in permanently restricted net assets because the trust assets will never be distributed to the Organization.

Property and Equipment

Property and equipment is reported at cost, if purchased, and at fair value at the date of donation, if donated. Any such donations are reported as unrestricted support unless the donor has restricted the donated asset for a specific purpose. Assets donated with explicit restrictions regarding their use, and contributions of cash that must be used to acquire property and equipment, are reported as restricted support. Absent donor stipulations regarding how long those donated assets must be maintained, the Organization reports expirations of donor restrictions over the useful life of the asset. The Organization reclassifies temporarily restricted net assets to unrestricted net assets at that time.

Property and equipment is capitalized if it has a cost of $1,000 or more and a useful life when acquired of more than one year. Repairs and maintenance that do not significantly increase the useful life of the asset are expensed as incurred. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, as follows:

Buildings and improvements	15 – 50 years
Furniture, fixtures, and equipment	5 – 10 years
Vehicles	5 years
Software	5 years

Property and equipment is reviewed for impairment when a significant change in the asset's use or another indicator of possible impairment is present. No impairment losses were recognized in the consolidated financial statements in the current period.

Interest-Rate Swap

An interest-rate swap is utilized to mitigate interest-rate risk on bonds payable (Note 9). The related liability is reported at fair value in the Statement of Financial Position, and unrealized gains or losses are included in the Statement of Activities.

Accounting for Contributions

Contributions, including unconditional promises to give, are recognized when received. All contributions are reported as increases in unrestricted net assets unless use of the contributed assets is specifically restricted by the donor. Amounts received that are restricted by the donor to use in future periods or for specific purposes are reported as increases in either temporarily restricted or permanently restricted net assets, consistent with the nature of the restriction. Unconditional promises with payments due in future years have an implied restriction to be used in the year the payment is due, and therefore

are reported as temporarily restricted until the payment is due unless the contribution is clearly intended to support activities of the current fiscal year or is received with permanent restrictions. Conditional promises, such as matching grants, are not recognized until they become unconditional, that is, until all conditions on which they depend are substantially met.

Gifts-in-Kind Contributions

The Organization periodically receives contributions in a form other than cash. Contributed property and equipment is recognized as an asset at its estimated fair value at the date of gift, provided that the value of the asset and its estimated useful life meets the Organization's capitalization policy. Donated use of facilities is reported as contributions and as expenses at the estimated fair value of similar space for rent under similar conditions. If the use of the space is promised unconditionally for a period greater than one year, the contribution is reported as a contribution and an unconditional promise to give at the date of gift, and the expense is reported over the term of use. Donated supplies are recorded as contributions at the date of gift and as expenses when the donated items are placed into service or distributed.

The Organization benefits from personal services provided by a substantial number of volunteers. Those volunteers have donated significant amounts of time and services to the Organization's program operations and in its fund-raising campaigns. However, the majority of the contributed services do not meet the criteria for recognition in the consolidated financial statements. Generally Accepted Accounting Principles allow recognition of contributed services only if (*a*) the services create or enhance nonfinancial assets or (*b*) the services would have been purchased if not provided by contribution, require specialized skills, and are provided by individuals possessing those skills.

Functional Allocation of Expenses

The cost of providing the Organization's programs and other activities is summarized on a functional basis in the Consolidated Statement of Activities and Consolidated Statement of Functional Expenses. Expenses that can be identified with a specific program or support service are charged directly to that program or support service. Costs common to multiple functions have been allocated among the various functions benefited.

Management and general expenses include those costs that are not directly identifiable with any specific program, but which provide for the overall support and direction of the Organization.

Fundraising costs are expensed as incurred, even though they may result in contributions received in future years.

Use of Estimates

The preparation of the consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of revenues and expenses during the reporting period and the reported amounts of assets and liabilities at the date of the consolidated financial statements. On an ongoing basis, the Organization's management evaluates the estimates and assumptions based upon historical experience and various other factors and circumstances. The Organization's management believes that the estimates and assumptions are reasonable in the circumstances; however, the actual results could differ from those estimates.

Tax Status

Child and Family Services of New Hampshire is exempt from federal income tax under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(3). The Organization has also been classified as an entity that is not a private foundation within the meaning of Section 509(a) and qualifies for deductible contributions.

Child and Family Realty Corporation is exempt from federal income tax under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(25).

The Organization follows FASB ASC 740-10, *Accounting for Uncertainty in Income Taxes*, which clarifies the accounting for uncertainty in income taxes and prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. FASB ASC 740-10 did not have a material impact on the Organization's consolidated financial statements.

The Organization's Federal Form 990 (Return of Organization Exempt From Income Tax) are subject to examination by the IRS, generally for three years after filing.

Financial Instruments and Credit Risk

Deposit concentration risk is managed by placing cash accounts with financial institutions believed to be creditworthy. At times, amounts on deposit may exceed insured limits. To date, no losses have been experienced in any of these accounts. Credit risk associated with accounts and contributions receivable is considered to be limited due to high historical collection rates. Investments are made by diversified investment managers whose performance is monitored by the Board of Trustees. Although the fair values of investments are subject to fluctuation on a year-to-year basis, the Investment Committee believes that the investment policies and guidelines are prudent for the long-term welfare of the Organization.

Fair Value Measurements

The Organization reports its fair value measures using a three-level hierarchy that prioritizes the inputs used to measure fair value. This hierarchy, established by Generally Accepted Accounting Principles, requires that entities maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of inputs used to measure fair value are as follows:

- *Level 1.* Quoted prices for identical assets or liabilities in active markets to which the Organization has access at the measurement date.

- *Level 2.* Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include:

  — quoted prices for similar assets or liabilities in active markets;

  — quoted prices for identical or similar assets in markets that are not active;

  — observable inputs other than quoted prices for the asset or liability (for example, interest rates and yield curves); and

  — inputs derived principally from, or corroborated by, observable market data by correlation or by other means.

- *Level 3.* Unobservable inputs for the asset or liability. Unobservable inputs should be used to measure the fair value to the extent that observable inputs are not available.

When available, the Organization measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. However, Level 1 inputs are not available for many of the assets and liabilities that the Organization is required to measure at fair value (for example, unconditional promises to give and in-kind contributions).

The primary uses of fair value measures in the Organization's consolidated financial statements are:

- Initial measurement of noncash gifts, including gifts of investment assets and unconditional promises to give.
- Recurring measurement of endowment investments (Note 5).
- Recurring measurement of beneficial interests in trusts (Note 6).
- Recurring measurement of line of credit (Note 8).

- Recurring measurement of bonds payable and interest rate swap (Note 9).
- Recurring measurement of deferred loans (Note 10).

3. Accounts Receivable

Accounts receivable consisted of the following at December 31:

	2016			2015		
	Receivable	Allowance	Net	Receivable	Allowance	Net
Grants receivable	$ 497,717	$ (4,700)	$ 493,017	$ 578,576	$ (5,855)	$ 572,721
Fees for service	110,398	-	110,398	89,423	-	89,423
	$ 608,115	$ (4,700)	$ 603,415	$ 667,999	$ (5,855)	$ 662,144

4. Prepaid Expenses

Prepaid expenses at year end relate primarily to prepaid insurance and contracts.

5. Investments

Investments at fair value consist of mutual funds totaling $15,900,471 and $15,530,019 at December 31, 2016 and 2015, respectively.

Under the terms of the Organization's line of credit agreement (Note 8), the Organization has agreed not to pledge these investments as security on any other debt.

For the years ended December 31, 2016 and 2015, expenses relating to investment revenues, including management fees, amounted to $66,376 and $66,675, respectively, and have been netted against investment revenues in the accompanying Statements of Activities.

The Organization's policy is to avail itself of a Board-approved percentage of investment income for operations with any remaining interest, dividends, or appreciation reinvested. The spending policy approved by the Board of Trustees is 5% of the average fair market value of all investments over the previous twelve quarters.

As discussed in Note 2 to these consolidated financial statements, the Organization is required to report its fair value measurements in one of three levels, which are based on the ability to observe in the marketplace the inputs to the Organization's valuation techniques. Level 1, the most observable level of inputs, is for investments measured at quoted prices in active markets for

identical investments as of the December 31, 2016. Level 2 is for investments measured using inputs such as quoted prices for similar assets, quoted prices for the identical asset in inactive markets, and for investments measured at net asset value that can be redeemed in the near term. Level 3 is for investments measured using inputs that are unobservable, and is used in situations for which there is little, if any, market activity for the investment.

The Organization uses the following ways to determine the fair value of its investments:

Mutual funds: Determined by the published value per unit at the end of the last trading day of the year, which is the basis for transactions at that date.

6. Beneficial Interest Held in Trust

The Organization is the sole beneficiary of three funds that are administered by the New Hampshire Charitable Foundation (NHCF). Income from the funds is to provide assistance to children attending Camp Spaulding and for capital improvements to the camp. The fund resolution provides that distributions from the funds can be made at the discretion of the NHCF Board of Directors.

At December 31, 2016 and 2015, the fair market value of the funds, which approximates the present value of future benefits expected to be received, was $797,544 and $779,238, respectively. The Organization received $32,369 and $31,674 from the funds in 2016 and 2015, respectively.

In addition, the Organization has a split-interest in three charitable remainder trusts. The assets are held in trust by banks as permanent trustees of the trusts. The fair value of these beneficial interests is determined by applying the Organization's percentage interest to the fair value of the trust assets as reported by the trustee.

Trust	Percentage Interest	2016	2015
Greenleaf	100%	$ 375,595	$ 377,884
Spaulding	100%	315,182	324,270
Cogswell	50%	247,658	254,706
Total		$ 938,435	$ 956,860

In 2016 and 2015, income distributed by these trusts was $42,064 and $41,829, respectively. Beneficial interest in funds held by others is reported at its fair value, which is estimated as the present value of expected future cash inflows on a recurring basis. As discussed in Note 2, the valuation technique used by the Organization is a Level 3 measure because there are no

observable market transactions. Changes in the fair value of assets measured at fair value on a recurring basis using significant unobservable inputs are comprised of the following:

Balance at December 31, 2014	$ 1,865,853
Change in value of beneficial interest	(129,755)
Balance at December 31, 2015	1,736,098
Change in value of beneficial interest	(119)
Balance at December 31, 2016	$ 1,735,979

7. Property, Equipment and Depreciation

A summary of the major components of property and equipment is presented below:

	2016	2015
Land and land improvements	$ 1,114,949	$ 1,114,949
Buildings and improvements	7,938,789	7,821,572
Furniture, fixtures and equipment	699,160	697,565
Vehicles	88,391	88,391
Software	166,592	166,592
Subtotal	10,007,881	9,889,069
Less: accumulated depreciation	(3,686,230)	(3,363,994)
Total	$ 6,321,651	$ 6,525,075

8. Line of Credit

The Organization has a $1,500,000 revolving line of credit agreement with a bank. The line of credit expired on June 30, 2015, and was extended through June 30, 2017. The line carries a variable rate of interest at the Wall Street Journal prime rate (3.75% at December 31, 2016), adjusted at each change in the index. At December 31, 2016, the balance on this line of credit was $0.

9. Bonds Payable

During 2007, the New Hampshire Health and Education Facilities Authority (the "Authority") sold $5,540,000 of its Revenue Bonds, Child and Family Services Issue, Series 2007, and loaned the proceeds of the bonds to the Organization to refund its Series 1999 Series Bonds and to finance certain improvements to the Organization's facilities. The Series 2007 Bonds were issued with a variable interest rate determined on a weekly basis. Prior to issuing the Bonds, the Organization entered into an interest rate swap agreement (the "Swap Agreement") with Citizens Bank of NH (the "Counterparty")

for the life of the bond issue to hedge the interest rate risk associated with the Series 2007 Bonds. The interest rate swap agreement requires the Organization to pay the Counterparty a fixed rate of 3.915%; in exchange, the Counterparty will pay the Organization a variable rate on the notional amount based on the 67% of one month LIBOR. Counterparty payments to the Organization were intended to offset Organization payments of variable rate interest to bond holders. Counterparty credit worthiness and market variability can impact the variable rates received and paid by the Organization, with the potential of increasing Organization interest payments. As a result, the cost of the interest rate swap for 2016 and 2015 is added to interest expense in the Consolidated Statement of Functional Expenses. The bonds mature in 2038 and can be repaid at any time.

The Organization is required to include the fair value of the swap in the Consolidated Statement of Financial Position, and annual changes, if any, in the fair value of the swap in the Consolidated Statement of Activities. For example, during the bond's 30-year holding period, the annually calculated value of the swap will be reported as an asset if interest rates increase above those in effect on the date of the swap was entered into (and as an unrealized gain in the Consolidated Statement of Activities), which will generally be indicative that the net fixed rate the Organization is paying on the swap is below market expectations of rates during the remaining term of the swap. The swap will be reported as a liability (and as an unrealized loss in the Consolidated Statement of Activities) if interest rates decrease below those in effect on the date the swap was entered into, which will generally be indicative that the net fixed rate the Organization is paying on the swap is above market expectations of rates during the remaining term of the swap. The annual accounting adjustments of value changes in the swap transaction are non-cash recognition requirements, the net effect of which will be zero at the end of the bond's 30-year term. At December 31, 2016 and 2015, the Organization recorded the swap liability position of $1,168,384 and $1,306,823, respectively. During 2009, there occurred a downgrading of the credit rating of the Counterparty to the letter of credit reimbursement agreement, which triggered a mandatory tender of the Series 2007 Bonds in whole and a temporary conversion of one-hundred percent of the principal amount to a bank purchase mode under the terms of said letter of credit reimbursement agreement. Since it became evident that the credit markets would not soon return to normalcy, the Organization elected to convert the Series 2007 Bonds from a weekly rate mode to a bank purchase mode. This new bank purchase mode created a rate period in which the Series 2007 Bonds bear interest at the tax adjusted bank purchase rate of 68% of the sum of the adjusted period LIBOR (30 day) rate and 325 basis points. The bank purchase mode commenced on July 31, 2009 and expired on July 31, 2014; however, the expiration date was extended by the Counterparty and the Organization had the option to convert back to the weekly rate mode. The Series 2007 Bond documents require the Organization to comply with certain financial covenants. As of December 31, 2016, the Organization was in compliance with these covenants.

The following is a summary of future payments on the previously mentioned bonds payable:

Year	Amount

11. Endowment Funds

The Organization's endowment consists of various individual funds established for a variety of purposes. Its endowment includes both donor-restricted funds and funds designated by the Board of Trustees to function as endowments. As required by Generally Accepted Accounting Principles, net assets associated with endowment funds, including funds designated by the Board of Trustees to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Board-designated Investments

As of December 31, 2016, the Board of Trustees had designated $14,027,737 of unrestricted net assets as a general endowment fund to support the mission of the Organization. Since that amount resulted from an internal designation and is not donor-restricted, it is classified and reported as unrestricted net assets.

Donor-designated Endowments

The Board of Trustees of the Organization has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds, absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Organization in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Organization considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the various funds, (2) the purposes of the donor-restricted endowment funds, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, (6) other resources of the Organization, and (7) the Organization's investment policies.

Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or UPMIFA requires the Organization to retain as a fund of perpetual duration. In accordance with Generally Accepted Accounting Principles, deficiencies of this nature are required to be restored from either temporarily restricted or unrestricted net assets, depending on donor stipulations. These deficiencies result from unfavorable market fluctuations that occur causing the original donor restricted contribution, plus accumulated investment earnings that, in accordance with donor stipulations, are required to be added to the original contribution, to fall below the accumulated balances. Donor stipulations for permanently restricted-income restricted funds require the reclassification of realized and unrealized earnings to temporarily restricted net assets. Based on donor stipulations, there are no temporarily or permanently restricted funds in deficit.

Investment Policy

The Organization has adopted an investment and spending policy to ensure a total return (income plus capital change) necessary to preserve and enhance the principal of the fund and, at the same time, provide a dependable source of support for current operations and programs. The withdrawal from the fund

in support of current operations is expected to remain a constant percentage of the total fund, adjusted for new gifts to the fund.

In recognition of the prudence required of fiduciaries, reasonable diversification is sought where possible. Experience has shown financial markets and inflation rates are cyclical and, therefore, control of volatility will be achieved through investment styles. Asset allocation parameters have been developed for various funds within the structure, based on investment objectives, liquidity needs, and time horizon for intended use.

Measurement of investment performance against policy objectives will be computed on a total return basis, net of management fees and transaction costs. Total return is defined as dividend or interest income plus realized and unrealized capital appreciation or depreciation at fair market value.

Spending Policy

The Organization's spending policy is 5% of the average total endowment value over the trailing 12 quarters with a 1% contingency margin. This includes interest and dividends paid out to the Organization.

The net asset composition of endowment investments as of December 31, 2016 is as follows:

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total Net Endowment Assets
Donor-restricted endowment funds	$ -	$ 475,050	$ 1,397,684	$ 1,872,734

Total	$ 1,998,996	$ 2,211,441

13. Net Assets Released from Restriction

Net assets are released from restrictions by incurring expenses satisfying the restricted purpose, or by the passage of time.

14. Defined Contribution Plan

The Organization maintains a 403(b) Thrift Plan (the Plan). The Plan is a defined contribution plan that all eligible employees may immediately make elective participant contributions to upon hire. A pretax voluntary contribution is permitted by employees up to limits imposed by the Internal Revenue Code and other limitations specified in the Plan. There were no contributions made to the plan by the Organization for the years ended December 31, 2016 and 2015, respectively.

15. Operating Leases

The Organization leases office space under the terms of non-cancellable lease agreements that are scheduled to expire at various times through 2018. The Organization also rents additional facilities on a month to month basis. Rent expense under these agreements totaled $129,338 and $150,685 for the years ended December 31, 2016 and 2015, respectively.

16. Concentrations of Risk

The majority of the Organization's grants are received from agencies of the State of New Hampshire. As such, the Organization's ability to generate resources via grants is dependent upon the economic health of that area and of the State of New Hampshire. An economic downturn could cause a decrease in grants that coincides with an increase in demand for the Organization's services.

The Organization invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the Consolidated Statement of Financial Position.

17. Subsequent Events

Subsequent events have been evaluated through March 28, 2017, which is the date the consolidated financial statements were available to be issued. Events occurring after that date have not been evaluated to determine whether a change in the consolidated financial statements would be required.

EXPLANATION

The purpose of this request is to renew contract services with these vendors for an additional two years. For a detailed summary of the changes please see attachment.

Comprehensive Family Support Services assist pregnant women and families with children up to the age of twenty-one (21) by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents to give families an opportunity to learn and grow.

The Division for Children, Youth and Families and the Division of Public Health Services have blended three family health and support related programs in to one program which is now represented as the Comprehensive Family Support Services.

Currently, there are twenty-five (25) community based family resource centers in operation across the State which provide a range of support services to families and children that focus on strengthening, supporting and building on the strengths and skills of individuals while also ensuring developmental screening for children six (6) and under. These centers are often key local stakeholders in groups that assess and advocate for the needs of local families.

The original contracts were competitively bid.

These contracts contain language which allows for the right to renew for up to four additional years based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

The Comprehensive Family Support Services program has served a total of 871 families and 1664 children in 2014. As a result, ninety-five percent (95%) of the families served achieved successful outcomes and remained uninvolved in a Division abuse or neglect case. The Division is satisfied with the services provided and is requesting approval to exercise two years of the renewal option reserving the Division's option to renew for the remaining two years based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

Should the Governor and Executive Council not authorize this request, the flexibility of community based family services may not be available to address the needs of children and families throughout the state which could cause an increase in the Division for Children, Youth and Families involvement for out of home placements. The services provided through these agreements help prevent separation of children from their families and afford them a safe, stable and supportive family environment.

Independent Auditors' Report

To the Board of Trustees
Child and Family Services of New Hampshire

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Child and Family Services of New Hampshire, which comprise the consolidated statement of financial position as of December 31, 2014, and the related consolidated statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not

for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Child and Family Services of New Hampshire as of December 31, 2014, and the changes in net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

The prior year summarized comparative information has been derived from the consolidated financial statements of Child and Family Services of New Hampshire for the year ended December 31, 2013, which were audited by another auditor who expressed an unmodified opinion on those statements in their report dated March 19, 2014.

Other Matters

Emphasis of Matter

As discussed above, the financial statements Child and Family Services of New Hampshire as of December 31, 2013, and for the year then ended were audited by other auditors. As described in Note 17, these financial statements have been restated. We audited the adjustments described in Note 17 that were applied to restate the 2013 financial statements. In our opinion, such adjustments are appropriate and have been properly applied. However, we were not engaged to audit, review, or apply any procedures to the 2013 financial statements of the Organization other than with respect to such adjustments and, accordingly we do not express an opinion or any other form of assurance on the 2013 financial statements taken as a whole.

Other Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The Consolidated Schedule of Operating Expenses

is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 31, 2015 on our consideration of Child and Family Services of New Hampshire's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Child and Family Services of New Hampshire's internal control over financial reporting and compliance.

Child and Family Services of New Hampshire

Notes to Consolidated Financial Statements

For the Year Ended December 31, 2014

1. Description of Organization

Child and Family Services of New Hampshire (the Organization) is a nonprofit organization, founded in 1850, that currently aids more than 20,000 individuals, statewide, through an array of social services.

These services span the life cycle from prenatal to seniors, and can be grouped into four basic categories:

1. **Early Childhood – Family Support & Education Services**
   Over 4,500 parents received education and support to improve parenting, strengthen families, prevent child abuse and neglect, and ensure healthy development of children. Over 573 young children starting life at a disadvantage, received critical services to ensure a good beginning and to optimize their chance for life-long success. Some of the programs focused on early childhood include:

   Early Support and Services – Early Support and Services provides family-centered support and therapies to infants and toddlers who have developmental disabilities, delays or are at risk of developmental delays. Services work to optimize baby's cognitive, physical, emotional and social development, and chance for success. Services are provided in the child's natural environment (home, daycare, playground, etc.).

   Home Visiting Services – A number of different prevention programs are offered in the home during those critical early years of a child's life. A spectrum of services includes support to new mothers and those struggling to parent; services for children with chronic health conditions; prenatal services for babies being born at a disadvantage into low-income families; and programs to encourage positive early parent/child relationships and promote optimal early childhood development. Services are provided by nurses, social workers, developmental specialists, occupational therapists, health educators, and home visitors.

   Adoption – A licensed child-placing agency, the organization has been forming families through adoption since 1914. The Organization's adoption professionals provide home studies and adoption services for families looking to adopt and provide counselling and support to birthparents who are considering the adoption option.

2. **Children, Youth, and Family - Intervention and Treatment Programs**
The Organization contracts with the State of New Hampshire, the federal government, and insurance companies, to provide a continuum of services for children, adolescents and young adults. Programs are delivered in the home, schools, or community, and include mental health counseling and substance abuse treatment, as well as a complex system of family stabilization and preservation programs, child protection services, and services for at-risk youth. Some of the programs include:

   Foster care – The Organization works with the State of New Hampshire in placing children who've been rescued from dangerous home environments, into safe, stable, loving homes. The Organization recruits and supports foster families and works to facilitate permanency for each child.

   Home Based Services – The Organization has a number of programs provided in the family home that are designed to help families who are struggling through daily life - where children are at risk. Services work to thwart domestic violence, rebuild families, and to improve family functioning. The Organization empowers families with the skills and resources they need to provide for their children and become self-sufficient.

3. **Runaway and Homeless Youth Services**
The Organization is the sole provider of services for runaway and homeless youth in Manchester and the Seacoast. A full spectrum of services features outreach to at-risk youth that includes survival aid on the streets and basic needs fulfillment at the drop-in center, as well as crisis intervention, educational and vocational advocacy, housing, and case management. The Organization also provides behavioral health and substance use counseling where needed. The Organization works with school systems, police, and other agencies in addressing the needs of New Hampshire's homeless youth.

4. **Senior Care and Independent Living**
The Organization helps seniors and individuals with chronic illness or disability, to live at home safely and with dignity, and to maintain quality of life. Under the title of Home Care, services are delivered by homemakers, companions, personal care service providers, and LNAs. The Organization's caregivers go to client homes to help with everything from cooking and cleaning, to personal hygiene, medication reminders, mobility, travel to appointments, paying bills, help with daily tasks, and communication with family members.

Additionally, the Organization runs two unique programs:

Camp Spaulding – Since 1921, Camp Spaulding has helped campers from all types of backgrounds enjoy the benefits of a traditional, resident

camp experience. In 2015, the Organization formed a partnership with the YMCA of Greater Nashua whereby the Organization will own the camp and the YMCA will handle daily operations and summer programming. This collaboration will combine a 94 year camp history, and exceptional facility, strong community support, and the expertise of two premier New Hampshire nonprofit organizations.

The New Hampshire Children's Lobby – Established in 1971, the New Hampshire Children's Lobby is the advocacy wing of Child and Family Services. The program's mission is to improve the lives of children and families through legislative, judicial, and public policy initiatives. This combination of advocacy and direct service practice, uniquely positions the Organization to serve the best interest of New Hampshire children.

2. Significant Accounting Policies

The Organization prepares its consolidated financial statements in accordance with generally accepted accounting principles promulgated in the United States of America (GAAP) for nonprofit organizations. The significant accounting and reporting policies used by the Organization are described subsequently to enhance the usefulness and understandability of the consolidated financial statements.

Net Assets

The consolidated financial statements report net assets and changes in net assets in three classes that are based upon the existence or absence of restrictions on use that are placed by its donors, as follows:

Unrestricted Net Assets

Unrestricted net assets are resources available to support operations. The only limits on the use of unrestricted net assets are the broad limits resulting from the nature of the Organization, the environment in which it operates, the purposes specified in its organizing documents and its application for tax-exempt status, and any limits resulting from contractual agreements with creditors and others that are entered into in the course of its operations.

Temporarily Restricted Net Assets

Temporarily restricted net assets are resources that are restricted by donors for use for a particular purpose or in a particular future period. The Organization's unspent contributions are classified in this net asset class if the donor limited their use, as are the unspent appreciation of its donor-restricted endowment funds.

When a donor's restriction is satisfied, either by using the resources in the manner specified by the donor or by the passage of time, the expiration of the restriction is reported in the consolidated financial statements by reclassifying the net assets from temporarily restricted to unrestricted net assets.

Permanently Restricted Net Assets

Permanently restricted net assets are resources whose use by the Organization is limited by donor-imposed restrictions that neither expire by being used in accordance with a donor's restriction nor by the passage of time. The portion of the Organization's donor-restricted funds that must be maintained in perpetuity are classified in this net asset class, as is the Organization's beneficial interest in perpetual charitable trusts. Unless restricted by the donor, income earned on permanently restricted net assets is expendable to support operations, subject to certain restrictions.

All revenues and net gains are reported as increases in unrestricted net assets in the Statement of Activities unless the use of the related resources is subject to temporary or permanent donor restrictions. All expenses and net losses other than losses on endowment investments are reported as decreases in unrestricted net assets. Net losses on endowment investments reduce temporarily restricted net assets to the extent that temporarily restricted net gains from prior years are unspent and classified there; remaining losses are classified as decreases in unrestricted net assets. If an endowment fund has no net gains from prior years, such as when a fund is newly established, net losses are classified as decreases in unrestricted net assets.

Principles of Consolidation

The consolidated financial statements of the Organization include the accounts of Child and Family Services of New Hampshire and Child and Family Realty Corporation, a commonly controlled organization. All inter-organization transactions have been eliminated.

Cash Equivalents

Cash equivalents are short term, interest bearing, highly liquid investments with original maturities of three months or less, unless the investments are held for meeting donor restrictions. Temporarily restricted cash investments held within investment portfolios are excluded from cash equivalents.

Investments

The Organization maintains pooled investment accounts for its restricted endowments. Realized and unrealized gains and losses are allocated to the individual endowments based on the relationship of the market value of each endowment to the total market value of the pooled investment accounts, as adjusted for additions to or deductions from those accounts.

Accounts Receivable and Revenue

Accounts receivable is recognized when qualifying costs are incurred for cost reimbursement grants or contracts or when a unit of service is provided for performance grants. Grant revenue from federal agencies is subject to independent audit under the Office of Management and Budget Circular A-133 and review by grantor agencies. The review could result in the disallowance of expenditures under the terms of the grants or reductions of future grant awards. Based on prior experience, the Organization's management believes that costs ultimately disallowed, if any, would not materially affect the financial position of the Organization.

Allowance for Doubtful Accounts

The adequacy of the allowance for doubtful accounts for receivables is reviewed on an ongoing basis by the Organization's management and adjusted as required through the provision for doubtful accounts (bad debt expense). In determining the amount required in the allowance account for the year ended December 31, 2014, management has taken into account a variety of factors.

Beneficial Interest

The Organization is the beneficiary of perpetual charitable trusts. The beneficial interest in the trust is reported at its fair value, which is estimated as the fair value of the underlying trust assets. Distributions of income from the trust assets are restricted to use and are reported as increases in temporarily restricted net assets until expended in accordance with restrictions. The value of the beneficial interest in the trust is adjusted annually for the change in its estimated fair value. Those changes in value are reported as increases in permanently restricted net assets because the trust assets will never be distributed to the Organization.

Property and Equipment

Property and equipment is reported at cost, if purchased, and at fair value at the date of donation, if donated. Any such donations are reported as unrestricted support unless the donor has restricted the donated asset for a specific purpose. Assets donated with explicit restrictions regarding their use, and contributions of cash that must be used to acquire property and equipment, are reported as restricted support. Absent donor stipulations regarding how long those donated assets must be maintained, the Organization reports expirations of donor restrictions over the useful life of the asset. The Organization reclassifies temporarily restricted net assets to unrestricted net assets at that time.

Property and equipment is capitalized if it has a cost of $1,000 or more and a useful life when acquired of more than one year. Repairs and maintenance

that do not significantly increase the useful life of the asset are expensed as incurred. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, as follows:

Buildings and improvements	15 – 50 years
Furniture, fixtures, and equipment	5 – 10 years
Vehicles	5 years
Software	5 years

Property and equipment is reviewed for impairment when a significant change in the asset's use or another indicator of possible impairment is present. No impairment losses were recognized in the consolidated financial statements in the current period.

Accounting for Contributions

Contributions, including unconditional promises to give, are recognized when received. All contributions are reported as increases in unrestricted net assets unless use of the contributed assets is specifically restricted by the donor. Amounts received that are restricted by the donor to use in future periods or for specific purposes are reported as increases in either temporarily restricted or permanently restricted net assets, consistent with the nature of the restriction. Unconditional promises with payments due in future years have an implied restriction to be used in the year the payment is due, and therefore are reported as temporarily restricted until the payment is due unless the contribution is clearly intended to support activities of the current fiscal year or is received with permanent restrictions. Conditional promises, such as matching grants, are not recognized until they become unconditional, that is, until all conditions on which they depend are substantially met.

Gifts-in-Kind Contributions

The Organization periodically receives contributions in a form other than cash. Contributed property and equipment is recognized as an asset at its estimated fair value at the date of gift, provided that the value of the asset and its estimated useful life meets the Organization's capitalization policy. Donated use of facilities is reported as contributions and as expenses at the estimated fair value of similar space for rent under similar conditions. If the use of the space is promised unconditionally for a period greater than one year, the contribution is reported as a contribution and an unconditional promise to give at the date of gift, and the expense is reported over the term of use. Donated supplies are recorded as contributions at the date of gift and as expenses when the donated items are placed into service or distributed.

The Organization benefits from personal services provided by a substantial number of volunteers. Those volunteers have donated significant amounts of

time and services to the Organization's program operations and in its fund-raising campaigns. However, the majority of the contributed services do not meet the criteria for recognition in the consolidated financial statements. Generally Accepted Accounting Principles allow recognition of contributed services only if (*a*) the services create or enhance nonfinancial assets or (*b*) the services would have been purchased if not provided by contribution, require specialized skills, and are provided by individuals possessing those skills.

Expense Recognition and Allocation

The cost of providing the Organization's programs and other activities is summarized on a functional basis in the Consolidated Statement of Activities and Consolidated Statement of Functional Expenses. Expenses that can be identified with a specific program or support service are charged directly to that program or support service. Costs common to multiple functions have been allocated among the various functions benefited.

Management and general expenses include those costs that are not directly identifiable with any specific program, but which provide for the overall support and direction of the Organization.

Fundraising costs are expensed as incurred, even though they may result in contributions received in future years.

Use of Estimates

The preparation of the consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of revenues and expenses during the reporting period and the reported amounts of assets and liabilities at the date of the consolidated financial statements. On an ongoing basis, the Organization's management evaluates the estimates and assumptions based upon historical experience and various other factors and circumstances. The Organization's management believes that the estimates and assumptions are reasonable in the circumstances; however, the actual results could differ from those estimates.

Tax Status

Child and Family Services of New Hampshire is exempt from federal income tax under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(3). The Organization has also been classified as an entity that is not a private foundation within the meaning of Section 509(a) and qualifies for deductible contributions.

Child and Family Realty Corporation is exempt from federal income tax under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(25).

The Organization follows FASB ASC 740-10, *Accounting for Uncertainty in Income Taxes*, which clarifies the accounting for uncertainty in income taxes and prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. FASB ASC 740-10 did not have a material impact on the Organization's consolidated financial statements.

The Organization's Federal Form 990 (Return of Organization Exempt From Income Tax) are subject to examination by the IRS, generally for three years after filing.

Reclassifications

Certain accounts in the prior-year consolidated financial statements have been reclassified for comparative purposes to conform to the presentation in the current-year consolidated financial statements.

Fair Value Measurements

The Organization reports its fair value measures using a three-level hierarchy that prioritizes the inputs used to measure fair value. This hierarchy, established by Generally Accepted Accounting Principles, requires that entities maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of inputs used to measure fair value are as follows:

- *Level 1.* Quoted prices for identical assets or liabilities in active markets to which the Organization has access at the measurement date.

- *Level 2.* Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include:

    — quoted prices for similar assets or liabilities in active markets;

    — quoted prices for identical or similar assets in markets that are not active;

    — observable inputs other than quoted prices for the asset or liability (for example, interest rates and yield curves); and

    — inputs derived principally from, or corroborated by, observable market data by correlation or by other means.

- *Level 3.* Unobservable inputs for the asset or liability. Unobservable inputs should be used to measure the fair value to the extent that observable inputs are not available.

When available, the Organization measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. However, Level 1 inputs are not available for many of the assets and liabilities that the Organization is required to measure at fair value (for example, unconditional promises to give and in-kind contributions).

The primary uses of fair value measures in the Organization's consolidated financial statements are:

- initial measurement of noncash gifts, including gifts of investment assets and unconditional promises to give.
- recurring measurement of endowment investments (Note 4).
- recurring measurement of beneficial interests in trusts (Note 6).

3. Concentration of Credit Risk - Cash and Cash Equivalents

The carrying amount of the Organization's deposits with financial institutions was $890,520 at December 31, 2014. The difference between the carrying amount and the bank balance represents reconciling items such as deposits in transit and outstanding checks, which have not been processed by the bank at December 31, 2014. The bank balance is categorized as follows:

Insured by FDIC	$ 327,796
Uninsured and uncollateralized	564,264
Total Bank Balance	$ 892,060

4. Investments

Investments at fair value consist of the following at December 31, 2014:

Mutual funds	$ 16,578,298
U.S Treasury obligations	332,694
Total	$ 16,910,992

Under the terms of the Organization's line of credit agreement (Note 8), the Organization has agreed not to pledge these investments as security on any other debt.

For the years ended December 31, 2014 and 2013, expenses relating to investment revenues, including management fees, amounted to $91,915 and $86,474, respectively, and have been netted against investment revenues in the accompanying statements of activities.

The Organization's policy is to avail itself of a Board-approved percentage of investment income for operations with any remaining interest, dividends, or appreciation reinvested. The spending policy approved by the Board of Trustees is 5% of the average fair market value of all investments over the previous twelve quarters.

As discussed in Note 2 to these consolidated financial statements, the Organization is required to report its fair value measurements in one of three levels, which are based on the ability to observe in the marketplace the inputs to the Organization's valuation techniques. Level 1, the most observable level of inputs, is for investments measured at quoted prices in active markets for identical investments as of the December 31, 2014. Level 2 is for investments measured using inputs such as quoted prices for similar assets, quoted prices for the identical asset in inactive markets, and for investments measured at net asset value that can be redeemed in the near term. Level 3 is for investments measured using inputs that are unobservable, and is used in situations for which there is little, if any, market activity for the investment.

The Organization uses the following ways to determine the fair value of its investments:

Mutual funds: Determined by the published value per unit at the end of the last trading day of the year, which is the basis for transactions at that date.

U.S. Treasury Obligations: Determined by the closing bid price on the last business day of the fiscal year if actively traded.

5. Accounts Receivable

Receivables consisted of the following at December 31:

	2014			2013		
	Receivable	Allowance	Net	Receivable	Allowance	Net
Grants receivable	$ 539,091	$ (4,727)	$ 534,364	$ 639,140	$ (6,805)	$ 632,335
Fees for service	107,813	(1,428)	106,385	193,747	-	193,747
Travel advances	150	-	150	-	-	-
	$ 647,054	$ (6,155)	$ 640,899	$ 832,887	$ (6,805)	$ 826,082

6. Beneficial Interest Held in Trust

The Organization is the sole beneficiary of three funds that are administered by the New Hampshire Charitable Foundation (NHCF). One of the funds was established in 2005. Income from the funds is to provide assistance to children attending Camp Spaulding and for capital improvements to the camp. The fund resolution provides that distributions from the funds can be made at the

discretion of the NHCF Board of Directors. The Organization has received distributions from the funds over the last two years.

At December 31, 2014 and 2013, the fair market value of the funds, which approximates the present value of future benefits expected to be received, was $833,116 and $823,141, respectively. The Organization received $24,247 and $28,983 from the funds in 2014 and 2013, respectively.

In addition, the Organization has a split-interest in three charitable remainder trusts. The assets are held in trust by banks as permanent trustees of the trusts. The fair value of these beneficial interests is determined by applying the Organization's percentage interest to the fair value of the trust assets as reported by the trustee.

Trust	Percentage Interest	2014	2013
Greenleaf	100%	$ 405,687	$ 412,530
Spaulding	100%	351,865	358,793
Cogswell	50%	275,185	278,411
Total		$ 1,032,737	$ 1,049,734

In 2014 and 2013, income distributed by these trusts was $18,881 and $39,498, respectively. Beneficial interest in funds held by others is reported at its fair value, which is estimated as the present value of expected future cash inflows on a recurring basis. As discussed in Note 2, the valuation technique used by the Organization is a Level 3 measure because there are no observable market transactions. Changes in the fair value of assets measured at fair value on a recurring basis using significant unobservable inputs are comprised of the following:

Balance at December 31, 2012	$ 1,736,855
Change in value of beneficial interest	136,020
Balance at December 31, 2013	1,872,875
Change in value of beneficial interest	(7,022)
Balance at December 31, 2014	$ 1,865,853

7. Property, Equipment and Depreciation

A summary of the major components of property and equipment is presented below:

	2014	2013
Land and land improvements	$ 1,114,949	$ 1,144,949
Buildings and improvements	7,413,804	8,686,995
Furniture, fixtures and equipment	662,586	1,879,897
Vehicles	97,022	128,606
Software	166,590	168,608
Subtotal	9,454,951	12,009,055
Less: accumulated depreciation	(3,080,114)	(4,960,478)
Total	$ 6,374,837	$ 7,048,577

8. Line of Credit

The Organization has a $1,500,000 revolving line of credit agreement with a bank. The line of credit expired on June 30, 2014, and was extended through June 30, 2015. The line carries a variable rate of interest at the Wall Street Journal prime rate (3.25% at December 31, 2014), adjusted at each change in the index. At December 31, 2014 the balance on this line of credit was $0.

9. Bonds Payable

During 2007, the New Hampshire Health and Education Facilities Authority (the "Authority") sold $5,540,000 of its Revenue Bonds, Child and Family Services Issue, Series 2007, and loaned the proceeds of the bonds to the Organization to refund its Series 1999 Series Bonds and to finance certain improvements to the Organization's facilities. The Series 2007 Bonds were issued with a variable interest rate determined on a weekly basis. Prior to issuing the Bonds, the Organization entered into an interest rate swap agreement (the "Swap Agreement") with Citizens Bank of NH (the "Counter-party") for the life of the bond issue to hedge the interest rate risk associated with the Series 2007 Bonds. The interest rate swap agreement requires the Organization to pay the Counterparty a fixed rate of 3.915%; in exchange, the Counterparty will pay the Organization a variable rate on the notional amount based on the 67% of one month LIBOR. Counterparty payments to the Organization were intended to offset Organization payments of variable rate interest to bond holders. Counterparty credit worthiness and market variability can impact the variable rates received and paid by the Organization, with the potential of increasing Organization interest payments. As a result, the cost of the interest rate swap for 2014 and 2013 is added to interest expense in the statement of functional expense. The bonds mature in 2038 and can be repaid at any time.

The Organization is required to include the fair value of the swap in the Consolidated Statement of Financial Position, and annual changes, if any, in the fair value of the swap in the Consolidated Statement of Activities. For example, during the bond's 30-year holding period, the annually calculated value of the swap will be reported as an asset if interest rates increase above those in effect on the date of the swap was entered into (and as an unrealized gain in the Consolidated Statement of Activities), which will generally be indicative that the net fixed rate the Organization is paying on the swap is below market expectations of rates during the remaining term of the swap. The swap will be reported as a liability (and as an unrealized loss in the Consolidated Statement of Activities) if interest rates decrease below those in effect on the date the swap was entered into, which will generally be indicative that the net fixed rate the Organization is paying on the swap is above market expectations of rates during the remaining term of the swap. The annual accounting adjustments of value changes in the swap transaction are non-cash recognition requirements, the net effect of which will be zero at the end of the bond's 30-year term. At December 31, 2014 and 2013, the Organization recorded the swap liability position of approximately $1,326,080 and $937,081, respectively. During 2009, there occurred a downgrading of the credit rating of the Counterparty to the letter of credit reimbursement agreement, which triggered a mandatory tender of the Series 2007 Bonds in whole and a temporary conversion of one-hundred percent of the principal amount to a bank purchase mode under the terms of said letter of credit reimbursement agreement. Since it became evident that the credit markets would not soon return to normalcy, the Organization elected to convert the Series 2007 Bonds from a weekly rate mode to a bank purchase mode. This new bank purchase mode created a rate period in which the Series 2007 Bonds bear interest at the tax adjusted bank purchase rate of 68% of the sum of the adjusted period LIBOR (30 day) rate and 325 basis points. The bank purchase mode commenced on July 31, 2009 and expired on July 31, 2014; however, the expiration date was extended by the Counterparty and the Organization had the option to convert back to the weekly rate mode. The Series 2007 Bond documents require the Organization to comply with certain financial covenants. As of December 31, 2014, the Organization was in compliance with these covenants.

11. Endowment Funds:

The Organization's endowment consists of various individual funds established for a variety of purposes. Its endowment includes both donor-restricted funds and funds designated by the Board of Trustees to function as endowments. As required by Generally Accepted Accounting Principles, net assets associated with endowment funds, including funds designated by the Board of Trustees to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Board-designated Investments

As of December 31, 2014, the Board of Trustees had designated $14,963,027 of unrestricted net assets as a general endowment fund to support the mission of the Organization. Since that amount resulted from an internal designation and is not donor-restricted, it is classified and reported as unrestricted net assets.

Donor-designated Endowments

The Board of Trustees of the Organization has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Organization in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Organization considers the following factors in

making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the various funds, (2) the purposes of the donor-restricted endowment funds, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, (6) other resources of the Organization, and (7) the Organization's investment policies.

Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or UPMIFA requires the Organization to retain as a fund of perpetual duration. In accordance with generally accepted accounting principles, deficiencies of this nature are required to be restored from either temporarily restricted or unrestricted net assets, depending on donor stipulations. These deficiencies result from unfavorable market fluctuations that occur causing the original donor restricted contribution, plus accumulated investment earnings that, in accordance with donor stipulations, are required to be added to the original contribution, to fall below the accumulated balances. Donor stipulations for permanently restricted-income restricted funds require the reclassification of realized and unrealized earnings to temporarily restricted net assets. Based on donor stipulations there are no temporarily or permanently restricted funds in deficit.

Investment Policy

The Organization has adopted an investment and spending policy to ensure a total return (income plus capital change) necessary to preserve and enhance the principal of the fund and at the same time, provide a dependable source of support for current operations and programs. The withdrawal from the fund in support of current operations is expected to remain a constant percentage of the total fund, adjusted for new gifts to the fund.

In recognition of the prudence required of fiduciaries, reasonable diversification is sought where possible. Experience has shown financial markets and inflation rates are cyclical, and therefore, control of volatility will be achieved through investment styles. Asset allocation parameters have been developed for various funds within the structure, based on investment objectives, liquidity needs, and time horizon for intended use.

Measurement of investment performance against policy objectives will be computed on a total return basis, net of management fees and transaction costs. Total return is defined as dividend or interest income plus realized and unrealized capital appreciation or depreciation at fair market value.

Spending Policy

The spending policy is 5% of the average total endowment value over the trailing 12 quarters with a 1% contingency margin. This includes interest and dividends paid out to the Organization.

The net asset composition of the endowment investments as of December 31, 2014, is as follows:

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total Net Endowment Assets
Donor-restricted endowment funds	$ -	$ 594,052	$ 1,353,913	$ 1,947,965

Cumulative appreciation on permanently restricted net assets	594,052	582,272
Total	$ 1,955,656	$ 2,038,628

13. Net Assets Released from Restriction

Net assets are released from program restrictions by incurring expenses satisfying the restricted purpose.

14. Defined Contribution Plan

The Organization sponsored a defined contribution plan (the Plan) that covered all employees at day of hire and who were at least twenty-one years of age. A pretax voluntary contribution is permitted by employees up to limits imposed by the Internal Revenue Code and other limitations specified in the Plan. There were no contributions made to the plan by the Organization for the years ended December 31, 2014 and 2013, respectively.

15. Operating Leases

The Organization leases office space under the terms of non-cancellable lease agreements that are scheduled to expire at various times through 2018. The Organization also rents additional facilities on a month to month basis.

Rent expense under these agreements totaled $120,966 and $123,341 for the years ended December 31, 2014 and 2013, respectively.

Estimated future minimum lease payments on the above leases are as follows:

Year	Amount
2015	$ 82,707
2016	82,707
2017	16,217
2018	3,621
Total	$ 185,252

16. Concentrations of Risk

The majority of the Organization's grants are received from agencies of the State of New Hampshire. As such, the Organization's ability to generate resources via grants is dependent upon the economic health of that area and of the State of New Hampshire. An economic downturn could cause a decrease in grants that coincides with an increase in demand for the Organization's services.

The Organization invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment

securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the Consolidated Statement of Financial Position.

17. Beginning Net Assets Restatement

In fiscal year 2014, the Organization determined that certain funds previously categorized as temporarily restricted net assets were not subject to donor restrictions. In addition, deferred loans from NHHFA were restated to properly reflect their face value. Accordingly, beginning net assets as of December 31, 2014 have been restated in order to properly reflect donor restricted net assets, as follows:

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Net Assets, Beginning of Year	$ 14,136,915	$ 2,943,580	$ 3,121,389	$ 20,201,884
Reclassify program funds	904,952	(904,952)	-	-
Restate deferred loan balances	(904,957)	-	-	(904,957)
Net Assets, Beginning of Year, as restated	$ 14,136,910	$ 2,038,628	$ 3,121,389	$ 19,296,927

18. Subsequent Events

Subsequent events have been evaluated through March 31, 2015, which is the date the consolidated financial statements were available to be issued. Events occurring after that date have not been evaluated to determine whether a change in the consolidated financial statements would be required.

Attorney Megan Yaple
NH Department of Justice
Office of the Attorney General
33 Capitol Street
Concord, New Hampshire 03301

Good Morning Attorney Yaple,

I am writing to ask that you review the attached amendments between the Department of Health and Human Services, Division for Children, Youth and Families and Child and Family Services of New Hampshire (Vendor # 177166-B002), 464 Chestnut Street, Manchester, NH. The amendment has been signed by the Associate Commissioner and an authorized signor for the vendor. The vendor provides Comprehensive Family Support Services in the Manchester, Concord and Southern District Office areas, and has requested the adjustment of several budget line items in State Fiscal Year 2015 in order to meet specified needs. The Governor and Executive Council approved the original agreements on June 18, 2014, (Item # 80). These are zero cost amendments with no change to any of the contracts end date of June 30, 2016.

Because of the language, in all of the contracts, in Exhibit B, Section 2.7, that reads:

2.7 *Notwithstanding paragraph 18 of the P-37, an amendment limited to the adjustment of the amounts between budget line items and/or State Fiscal Years, related items, and amendments of related budget exhibits, can be made by written agreement of both parties and do not require additional approval of the Governor and Executive Council*

I am asking that you review and sign off on the amendments as they do not need further action by the Governor and Executive Council.

The remainder of this letter is presented in the format typical of most Governor and Executive Council letters, so that you might have some context for your review.

Funds to support this request are available in the following accounts in State Fiscal Year 2015 and are anticipated to be available in State Fiscal Year 2016, upon the availability and continued appropriation of funds in the future operating budget with the ability to adjust encumbrances between State Fiscal Years through the Budget Office if needed and justified without further approval from the Governor and Executive Council.

EXPLANATION

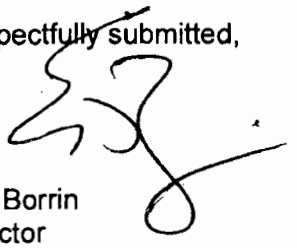
The purpose of these amendments is to allow the vendor to adjust certain budget lines in each of the contracts in order to meet contractual needs; and to update the standard contract language in Exhibit C and Exhibit G for each contract. The vendor underestimated the Staff Education and Training for the Manchester, Concord and Southern District Office areas as well as the subcontractor amount for the Concord and Southern District Office areas. The change has resulted in a request from the vendor to adjust the travel and staff training budget lines in the Manchester area contract, the salary, subcontractor and staff education and training budget line in the Concord area contract, and salary, subcontractor and staff education and training budget lines for the Southern area contract. The Department supports the requested adjustments.

There are no additional funds being requested for these amendments. Other than the updating the contract standard language in Exhibit C and Exhibit G and the budget line adjustments outlined above, all other terms and conditions remain unchanged from the original agreements approved by the Governor and Executive Council on June 18, 2014, (Item # 80).

Comprehensive Family Support Services assist pregnant women and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents and give families an opportunity to learn and grow.

This contract was awarded as the result of a competitive bid process. On January 21, 2014, the Division issued a Request for Proposal for Comprehensive Family Support Services to serve the eleven (11) catchment areas in the State of New Hampshire. Twelve proposals were received.

Child and Family Services of New Hampshire was awarded three (3) of the eleven (11) contracts selected in the competitive bid process.



Should the Governor and Executive Council not approve this request, the vendor would not be able to meet their contractual needs which could reduce the availability, accessibility, and quality of Comprehensive Family Support Services in the Manchester, Concord and Southern District Office areas.

Area Served: Manchester, Concord and Southern District Office areas

Source of Funds: 83.11% Federal Funds, 16.89% General Funds

In the event that Federal Funds become no longer available, no additional General Funds will not be requested to support this program.

Respectfully submitted,

Eric Borrin
Director

12. **Completion of Services:** Disallowance of Costs: Upon the purchase by the Department of the maximum number of units provided for in the Contract and upon payment of the price limitation hereunder, the Contract and all the obligations of the parties hereunder (except such obligations as, by the terms of the Contract are to be performed after the end of the term of this Contract and/or survive the termination of the Contract) shall terminate, provided however, that if, upon review of the Final Expenditure Report the Department shall disallow any expenses claimed by the Contractor as costs hereunder the Department shall retain the right, at its discretion, to deduct the amount of such expenses as are disallowed or to recover such sums from the Contractor.

EXPLANATION

Comprehensive Family Support Services assist pregnant women and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents and give families an opportunity to learn and grow.

The Division for Children, Youth and Families and Division of Public Health Services /Maternal Child Health Services blended three family health and support related programs, into one program. This Comprehensive Family Support Services represents such efforts.

New Hampshire DHHS Comprehensive Family Support Services:

In 2002, The Division for Children, Youth and Families, launched a family support partnership, entitled Comprehensive Family Support Services. Support and prevention-based services and programs were provided to thousands families and individuals throughout the state. Due to the success of these prevention-oriented programs, the Division for Children, Youth and Families has recognized the benefit of provider services to families as an effort to keep them from becoming involved in other systems of care.

Currently, there are 25 community-based family resource centers in operation across the State of New Hampshire, which provide a range of support services to families and children that focus on strengthening, supporting and building on the strengths and skills of individuals while also ensuring developmental screening for children six and under. These centers are often key local stakeholders in groups that assess and advocate for the needs of local families.

New Hampshire DHHS Home Visiting NH:

In 2001, the Division of Public Health Services Maternal and Child Health Section began Home Visiting New Hampshire, a statewide, family focused and child centered, preventive program that provides, health, education, support and linkages to community services to eligible, pregnant women and their families in their home until her child is twelve (12) months old. Contractors provide these services in nine (9) of the Division for Children, Youth and Families service areas. The goals of Home Visiting New Hampshire are to promote healthy pregnancy and birth outcomes, promote a safe and nurturing environment for children, and enhance families' life course and development.

Child and Family Health Support Services:

Child and Family Health Support Services have been available through local community health and home visiting agencies for approximately twenty years with funds that had previously supported the state's network of "well baby clinics". These services provide assistance with health care enrollment, referrals, case management, care coordination, education and counseling relative to the child and family and can be conducted by home, office visit or by telephone when appropriate. The goal of Child and Family Health Support Services is to promote the health and well-being of children from birth through age eighteen, with priority given to children birth through age ten.

This contract was competitively bid. On January 21, 2014 the Department issued a Request for Proposals to solicit proposals for the provision of Comprehensive Family Support Services to assist expectant women along with children and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. The request for proposals was available on the Department of Health and Human Services website from January 21, 2014 through March 10, 2014. There were 12 proposals submitted.

The proposals were evaluated by a team of Department of Health and Human Services employees with knowledge of the program requirements, the Division for Children, Youth and Families' Comprehensive Family Support Services program and the Division of Public Health Services, Maternal and Child Health Section. The team also included staff with significant business and management expertise.

The proposals were evaluated based on the criteria published in the Request for Proposals. Eleven of the twelve proposals were selected. The bid summary is attached.

The attached contract calls for the provision of these services for two years and reserves the Division's right to renew the agreement for up to four additional years, based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

Should Governor and Council not authorize this request, the flexibility of community–based family services may not be available to address the needs of children and families throughout the state which could cause an increase in the Division for Children, Youth and Families involvement for out-of-home placement, as these services help to prevent the separation of children from their families and afford them a safe, stable and supportive family environment.

Area Served: Statewide.

Source of Funds: 95.34% Federal Funds
4.66% General Funds

In the event that Federal Funds are no longer available, no additional General Funds will be requested to support this program.

SPECIAL PROVISIONS

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.

2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.

3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.

4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.

5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.

6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party fundors for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party fundors, the Department may elect to:
   7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
   7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

   8.2. Statistical Records: Statistical, enrollment, attendance or visit records for each recipient of services during the Contract Period, which records shall include all records of application and eligibility (including all forms required to determine eligibility for each such recipient), records regarding the provision of services and all invoices submitted to the Department to obtain payment for such services.

It is recommended that the report be prepared in accordance with the provision of Office of Management and Budget Circular A-133, "Audits of States, Local Governments, and Non Profit Organizations" and the provisions of Standards for Audit of Governmental Organizations, Programs, Activities and Functions, issued by the US General Accounting Office (GAO standards) as they pertain to financial compliance audits.
   9.1. Audit and Review: During the term of this Contract and the period for retention hereunder, the Department, the United States Department of Health and Human Services, and any of their designated representatives shall have access to all reports and records maintained pursuant to the Contract for purposes of audit, examination, excerpts and transcripts.
   9.2. Audit Liabilities: In addition to and not in any way in limitation of obligations of the Contract, it is understood and agreed by the Contractor that the Contractor shall be held liable for any state or federal audit exceptions and shall return to the Department, all payments made under the Contract to which exception has been taken or which have been disallowed because of such an exception.

Notwithstanding anything to the contrary contained herein the covenants and conditions contained in the Paragraph shall survive the termination of the Contract for any reason whatsoever.

11. **Reports:** Fiscal and Statistical: The Contractor agrees to submit the following reports at the following times if requested by the Department.
    11.1. Interim Financial Reports: Written interim financial reports containing a detailed description of all costs and non-allowable expenses incurred by the Contractor to the date of the report and containing such other information as shall be deemed satisfactory by the Department to justify the rate of payment hereunder. Such Financial Reports shall be submitted on the form designated by the Department or deemed satisfactory by the Department.
    11.2. Final Report: A final report shall be submitted within thirty (30) days after the end of the term of this Contract. The Final Report shall be in a form satisfactory to the Department and shall contain a summary statement of progress toward goals and objectives stated in the Proposal and other information required by the Department.

12. **Completion of Services:** Disallowance of Costs: Upon the purchase by the Department of the maximum number of units provided for in the Contract and upon payment of the price limitation hereunder, the Contract and all the obligations of the parties hereunder (except such obligations as, by the terms of the Contract are to be performed after the end of the term of this Contract and/or survive the termination of the Contract) shall terminate, provided however, that if, upon review of the Final Expenditure Report the Department shall disallow any expenses claimed by the Contractor as costs hereunder the Department shall retain the right, at its discretion, to deduct the amount of such expenses as are disallowed or to recover such sums from the Contractor.

13. **Credits:** All documents, notices, press releases, research reports and other materials prepared during or resulting from the performance of the services of the Contract shall include the following statement:
    13.1. The preparation of this (report, document etc.) was financed under a Contract with the State of New Hampshire, Department of Health and Human Services, with funds provided in part by the State of New Hampshire and/or such other funding sources as were available or required, e.g., the United States Department of Health and Human Services.

14. **Prior Approval and Copyright Ownership:** All materials (written, video, audio) produced or purchased under the contract shall have prior approval from DHHS before printing, production, distribution or use. The DHHS will retain copyright ownership for any and all original materials produced, including, but not limited to, brochures, resource directories, protocols or guidelines, posters, or reports. Contractor shall not reproduce any materials produced under the contract without prior written approval from DHHS.

15. **Operation of Facilities: Compliance with Laws and Regulations:** In the operation of any facilities for providing services, the Contractor shall comply with all laws, orders and regulations of federal, state, county and municipal authorities and with any direction of any Public Officer or officers pursuant to laws which shall impose an order or duty upon the contractor with respect to the operation of the facility or the provision of the services at such facility. If any governmental license or permit shall be required for the operation of the said facility or the performance of the said services, the Contractor will procure said license or permit, and will at all times comply with the terms and conditions of each such license or permit. In connection with the foregoing requirements, the Contractor hereby covenants and agrees that, during the term of this Contract the facilities shall comply with all rules, orders, regulations, and requirements of the State Office of the Fire Marshal and the local fire protection agency, and shall be in conformance with local building and zoning codes, by-laws and regulations.

16. **Subcontractors:** DHHS recognizes that the Contractor may choose to use subcontractors with greater expertise to perform certain health care services or functions for efficiency or convenience, but the Contractor shall retain the responsibility and accountability for the function(s). Prior to

subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

When the Contractor delegates a function to a subcontractor, the Contractor shall do the following:

16.1. Evaluate the prospective subcontractor's ability to perform the activities, before delegating the function

16.2. Have a written agreement with the subcontractor that specifies activities and reporting responsibilities and how sanctions/revocation will be managed if the subcontractor's performance is not adequate

16.3. Monitor the subcontractor's performance on an ongoing basis

16.4. Provide to DHHS an annual schedule identifying all subcontractors, delegated functions and responsibilities, and when the subcontractor's performance will be reviewed

CERTIFICATION REGARDING DEBARMENT, SUSPENSION AND OTHER RESPONSIBILITY MATTERS

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.

6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
    - 11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
    - 11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
    - 11.3. are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (I)(b) of this certification; and
    - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.

12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:
    - 13.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.
    - 13.2. where the prospective lower tier participant is unable to certify to any of the above, such prospective participant shall attach an explanation to this proposal (contract).

14. Further, Business Associate, including but not limited to all its directors, officers, employees and agents, shall not use, disclose, maintain or transmit PHI in any manner that would constitute a violation of the Privacy and Security Rule.

b. Business Associate may use or disclose PHI:
   I. For the proper management and administration of the Business Associate;
   II. As required by law, pursuant to the terms set forth in paragraph d. below; or
   III. For data aggregation purposes for the health care operations of Covered Entity.

c. To the extent Business Associate is permitted under the Agreement to disclose PHI to a third party, Business Associate must obtain, prior to making any such disclosure, (i) reasonable assurances from the third party that such PHI will be held confidentially and used or further disclosed only as required by law or for the purpose for which it was disclosed to the third party; and (ii) an agreement from such third party to notify Business Associate, in accordance with the HIPAA Privacy, Security, and Breach Notification Rules of any breaches of the confidentiality of the PHI, to the extent it has obtained knowledge of such breach.

d. The Business Associate shall not, unless such disclosure is reasonably necessary to provide services under Exhibit A of the Agreement, disclose any PHI in response to a request for disclosure on the basis that it is required by law, without first notifying Covered Entity so that Covered Entity has an opportunity to object to the disclosure and to seek appropriate relief. If Covered Entity objects to such disclosure, the Business

Associate shall refrain from disclosing the PHI until Covered Entity has exhausted all remedies.

e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

(3) Obligations and Activities of Business Associate.

a. The Business Associate shall notify the Covered Entity's Privacy Officer immediately after the Business Associate becomes aware of any use or disclosure of protected health information not provided for by the Agreement including breaches of unsecured protected health information and/or any security incident that may have an impact on the protected health information of the Covered Entity.

b. The Business Associate shall immediately perform a risk assessment when it becomes aware of any of the above situations. The risk assessment shall include, but not be limited to:

- The nature and extent of the protected health information involved, including the types of identifiers and the likelihood of re-identification;
- The unauthorized person used the protected health information or to whom the disclosure was made;

The Business Associate shall complete the risk assessment within 48 hours of the breach and immediately report the findings of the risk assessment in writing to the Covered Entity.

c. The Business Associate shall comply with all sections of the Privacy, Security, and Breach Notification Rule.

d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.

e. Business Associate shall require all of its business associates that receive, use or have access to PHI under the Agreement, to agree in writing to adhere to the same restrictions and conditions on the use and disclosure of PHI contained herein, including the duty to return or destroy the PHI as provided under Section 3 (l). The Covered Entity shall be considered a direct third party beneficiary of the Contractor's business associate agreements with Contractor's intended business associates, who will be receiving PHI

pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard Paragraph #13 of the standard contract provisions (P-37) of this Agreement for the purpose of use and disclosure of protected health information.

f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

g. Within ten (10) business days of receiving a written request from Covered Entity, Business Associate shall provide access to PHI in a Designated Record Set to the Covered Entity, or as directed by Covered Entity, to an individual in order to meet the requirements under 45 CFR Section 164.524.

h. Within ten (10) business days of receiving a written request from Covered Entity for an amendment of PHI or a record about an individual contained in a Designated Record Set, the Business Associate shall make such PHI available to Covered Entity for amendment and incorporate any such amendment to enable Covered Entity to fulfill its obligations under 45 CFR Section 164.526.

i. Business Associate shall document such disclosures of PHI and information related to such disclosures as would be required for Covered Entity to respond to a request by an individual for an accounting of disclosures of PHI in accordance with 45 CFR Section 164.528.

j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.

l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.

c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) Miscellaneous

a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.

c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.

d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) I, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

Independent Auditors' Report

To the Board of Trustees
Child and Family Services of New Hampshire

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Child and Family Services of New Hampshire, which comprise the consolidated statement of financial position as of December 31, 2016, and the related consolidated statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not

for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Child and Family Services of New Hampshire as of December 31, 2016, and the changes in net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

We have previously audited Child and Family Services of New Hampshire's 2015 financial statements, and we expressed an unmodified opinion on those audited financial statements in our report dated March 23, 2016. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2015 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The Consolidated Schedule of Operating Expenses is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 28, 2017 on our consideration of Child and Family Services of New Hampshire's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Child and Family Services of New Hampshire's internal control over financial reporting and compliance.

CHILD AND FAMILY SERVICES OF NEW HAMPSHIRE

Notes to Consolidated Financial Statements
For the Year Ended December 31, 2016

1. Description of Organization

Child and Family Services of New Hampshire (the Organization) is a nonprofit organization, founded in 1850, that currently aids more than 20,000 individuals, statewide, through an array of social services.

These services span the life cycle from prenatal to seniors, and can be grouped into four basic categories:

1. **Early Childhood – Family Support & Education Services**
   Over 4,500 parents received education and support to improve parenting, strengthen families, prevent child abuse and neglect, and ensure healthy development of children. Over 500 young children starting life at a disadvantage received critical services to ensure a good beginning and to optimize their chance for life-long success. Some of the programs focused on early childhood include:

   Early Support and Services – Early Support and Services provides family-centered support and therapies to infants and toddlers who have developmental disabilities, delays or are at risk of developmental delays. Services work to optimize babies' cognitive, physical, emotional and social development, and chance for success. Services are provided in the child's natural environment (home, day care, playground, etc.).

   Home Visiting Services – A number of different prevention programs are offered in the home during those critical early years of a child's life. A spectrum of services includes support to new mothers and those struggling to parent; services for children with chronic health conditions; prenatal services for babies being born at a disadvantage into low-income families; and programs to encourage positive early parent/child relationships and promote optimal early childhood development. Services are provided by nurses, social workers, developmental specialists, occupational therapists, health educators, and home visitors.

   Adoption – A licensed child-placing agency, the Organization has been forming families through adoption since 1914. The Organization's adoption professionals provide home studies and adoption services for families looking to adopt and provide counselling and support to birth-parents who are considering the adoption option.

2. **Children, Youth, and Family - Intervention and Treatment Programs**
The Organization contracts with the State of New Hampshire, the federal government, and insurance companies, to provide a continuum of services for children, adolescents and young adults. Programs are delivered in the home, schools, or community, and include mental health counseling and substance abuse treatment, as well as a complex system of family stabilization and preservation programs, child protection services, and services for at-risk youth. Some of the programs include:

   Foster care – The Organization works with the State of New Hampshire in placing children who have been rescued from dangerous home environments, into safe, stable, loving homes. The Organization recruits and supports foster families and works to facilitate permanency for each child.

   Home Based Services – The Organization has a number of programs provided in the family home that are designed to help families who are struggling through daily life - where children are at risk. Services work to thwart domestic violence, rebuild families, and to improve family functioning. The Organization empowers families with the skills and resources they need to provide for their children and become self-sufficient.

3. **Runaway and Homeless Youth Services**
The Organization is the sole provider of services for runaway and homeless youth in Manchester and the Seacoast. A full spectrum of services features outreach to at-risk youth that includes survival aid on the streets and basic needs fulfillment at the drop-in center, as well as crisis intervention, educational and vocational advocacy, housing, and case management. The Organization also provides behavioral health and substance use counseling where needed. The Organization works with school systems, police, and other agencies in addressing the needs of New Hampshire's homeless youth.

4. **Senior Care and Independent Living**
The Organization helps seniors and individuals with chronic illness or disability to live at home safely and with dignity, and to maintain quality of life. Under the title of Home Care, services are delivered by homemakers, companions, personal care service providers, and LNAs. The Organization's caregivers go to client homes to help with everything from cooking and cleaning to personal hygiene, medication reminders, mobility, travel to appointments, paying bills, help with daily tasks, and communication with family members.

Additionally, the Organization runs two unique programs:

Camp Spaulding – Since 1921, Camp Spaulding has helped campers from all types of backgrounds enjoy the benefits of a traditional, resident camp experience. In 2015, the Organization formed a partnership with the YMCA of Greater Nashua whereby the Organization will own the camp and the YMCA will handle daily operations and summer programming. This collaboration will combine a 96 year camp history, an exceptional facility, strong community support, and the expertise of two premier New Hampshire nonprofit organizations.

The New Hampshire Children's Lobby – Established in 1971, the New Hampshire Children's Lobby is the advocacy wing of Child and Family Services. The program's mission is to improve the lives of children and families through legislative, judicial, and public policy initiatives. This combination of advocacy and direct service practice uniquely positions the Organization to serve the best interest of New Hampshire children.

2. Significant Accounting Policies

The Organization prepares its consolidated financial statements in accordance with generally accepted accounting principles promulgated in the United States of America (GAAP) for nonprofit organizations. The significant accounting and reporting policies used by the Organization are described subsequently to enhance the usefulness and understandability of the consolidated financial statements.

Net Assets

The consolidated financial statements report net assets and changes in net assets in three classes that are based upon the existence or absence of restrictions on use that are placed by its donors, as follows:

Unrestricted Net Assets

Unrestricted net assets are resources available to support operations. The only limits on the use of unrestricted net assets are the broad limits resulting from the nature of the Organization, the environment in which it operates, the purposes specified in its organizing documents and its application for tax-exempt status, and any limits resulting from contractual agreements with creditors and others that are entered into in the course of its operations.

Temporarily Restricted Net Assets

Temporarily restricted net assets are resources that are restricted by donors for use for a particular purpose or in a particular future period. The Organization's unspent contributions are classified in this net asset class if

the donor limited their use, as are the unspent appreciation of its donor-restricted endowment funds.

When a donor's restriction is satisfied, either by using the resources in the manner specified by the donor or by the passage of time, the expiration of the restriction is reported in the consolidated financial statements by reclassifying the net assets from temporarily restricted to unrestricted net assets.

Permanently Restricted Net Assets

Permanently restricted net assets are resources whose use by the Organization is limited by donor-imposed restrictions that neither expire by being used in accordance with a donor's restriction nor by the passage of time. The portion of the Organization's donor-restricted funds that must be maintained in perpetuity is classified in this net asset class, as is the Organization's beneficial interest in perpetual charitable trusts. Unless restricted by the donor, income earned on permanently restricted net assets is expendable to support operations, subject to certain restrictions.

All revenues and net gains are reported as increases in unrestricted net assets in the Statement of Activities unless the use of the related resources is subject to temporary or permanent donor restrictions. All expenses and net losses, other than losses on endowment investments, are reported as decreases in unrestricted net assets. Net losses on endowment investments reduce temporarily restricted net assets to the extent that temporarily restricted net gains from prior years are unspent and classified there; remaining losses are classified as decreases in unrestricted net assets. If an endowment fund has no net gains from prior years, such as when a fund is newly established, net losses are classified as decreases in unrestricted net assets.

Principles of Consolidation

The consolidated financial statements of the Organization include the accounts of Child and Family Services of New Hampshire and Child and Family Realty Corporation, a commonly controlled organization. All inter-organization transactions have been eliminated.

Comparative Financial Information

The accompanying financial statements include certain prior-year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with Accounting Principles Generally Accepted in the United States of America (GAAP). Accordingly, such information should be read in conjunction with the audited financial statements for the year ended December 31, 2015, from which the summarized information was derived.

Cash Equivalents

Cash equivalents are short term, interest bearing, highly liquid investments with original maturities of three months or less, unless the investments are held for meeting donor restrictions. Temporarily restricted cash investments held within investment portfolios are excluded from cash equivalents.

Investments

The Organization maintains pooled investment accounts for its restricted endowments. Realized and unrealized gains and losses are allocated to the individual endowments based on the relationship of the market value of each endowment to the total market value of the pooled investment accounts, as adjusted for additions to or deductions from those accounts.

Accounts Receivable and Revenue

Accounts receivable is recognized when qualifying costs are incurred for cost reimbursement grants or contracts or when a unit of service is provided for performance grants. Grant revenue from federal agencies is subject to independent audit under the Office of Management and Budget's, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards,* and review by grantor agencies. The review could result in the disallowance of expenditures under the terms of the grants or reductions of future grant awards. Based on prior experience, the Organization's management believes that costs ultimately disallowed, if any, would not materially affect the financial position of the Organization.

Allowance for Doubtful Accounts

The adequacy of the allowance for doubtful accounts for receivables is reviewed on an ongoing basis by the Organization's management and adjusted as required through the provision for doubtful accounts (bad debt expense). In determining the amount required in the allowance account, management has taken into account a variety of factors.

Beneficial Interest

The Organization is the beneficiary of perpetual charitable trusts. The beneficial interest in the trust is reported at its fair value, which is estimated as the fair value of the underlying trust assets. Distributions of income from the trust assets are restricted to use and are reported as increases in temporarily restricted net assets until expended in accordance with restrictions. The value of the beneficial interest in the trust is adjusted annually for the change in its estimated fair value. Those changes in value are reported as increases in permanently restricted net assets because the trust assets will never be distributed to the Organization.

Property and Equipment

Property and equipment is reported at cost, if purchased, and at fair value at the date of donation, if donated. Any such donations are reported as unrestricted support unless the donor has restricted the donated asset for a specific purpose. Assets donated with explicit restrictions regarding their use, and contributions of cash that must be used to acquire property and equipment, are reported as restricted support. Absent donor stipulations regarding how long those donated assets must be maintained, the Organization reports expirations of donor restrictions over the useful life of the asset. The Organization reclassifies temporarily restricted net assets to unrestricted net assets at that time.

Property and equipment is capitalized if it has a cost of $1,000 or more and a useful life when acquired of more than one year. Repairs and maintenance that do not significantly increase the useful life of the asset are expensed as incurred. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, as follows:

Buildings and improvements	15 – 50 years
Furniture, fixtures, and equipment	5 – 10 years
Vehicles	5 years
Software	5 years

Property and equipment is reviewed for impairment when a significant change in the asset's use or another indicator of possible impairment is present. No impairment losses were recognized in the consolidated financial statements in the current period.

Interest-Rate Swap

An interest-rate swap is utilized to mitigate interest-rate risk on bonds payable (Note 9). The related liability is reported at fair value in the Statement of Financial Position, and unrealized gains or losses are included in the Statement of Activities.

Accounting for Contributions

Contributions, including unconditional promises to give, are recognized when received. All contributions are reported as increases in unrestricted net assets unless use of the contributed assets is specifically restricted by the donor. Amounts received that are restricted by the donor to use in future periods or for specific purposes are reported as increases in either temporarily restricted or permanently restricted net assets, consistent with the nature of the restriction. Unconditional promises with payments due in future years have an implied restriction to be used in the year the payment is due, and therefore

are reported as temporarily restricted until the payment is due unless the contribution is clearly intended to support activities of the current fiscal year or is received with permanent restrictions. Conditional promises, such as matching grants, are not recognized until they become unconditional, that is, until all conditions on which they depend are substantially met.

Gifts-in-Kind Contributions

The Organization periodically receives contributions in a form other than cash. Contributed property and equipment is recognized as an asset at its estimated fair value at the date of gift, provided that the value of the asset and its estimated useful life meets the Organization's capitalization policy. Donated use of facilities is reported as contributions and as expenses at the estimated fair value of similar space for rent under similar conditions. If the use of the space is promised unconditionally for a period greater than one year, the contribution is reported as a contribution and an unconditional promise to give at the date of gift, and the expense is reported over the term of use. Donated supplies are recorded as contributions at the date of gift and as expenses when the donated items are placed into service or distributed.

The Organization benefits from personal services provided by a substantial number of volunteers. Those volunteers have donated significant amounts of time and services to the Organization's program operations and in its fundraising campaigns. However, the majority of the contributed services do not meet the criteria for recognition in the consolidated financial statements. Generally Accepted Accounting Principles allow recognition of contributed services only if (*a*) the services create or enhance nonfinancial assets or (*b*) the services would have been purchased if not provided by contribution, require specialized skills, and are provided by individuals possessing those skills.

Functional Allocation of Expenses

The cost of providing the Organization's programs and other activities is summarized on a functional basis in the Consolidated Statement of Activities and Consolidated Statement of Functional Expenses. Expenses that can be identified with a specific program or support service are charged directly to that program or support service. Costs common to multiple functions have been allocated among the various functions benefited.

Management and general expenses include those costs that are not directly identifiable with any specific program, but which provide for the overall support and direction of the Organization.

Fundraising costs are expensed as incurred, even though they may result in contributions received in future years.

Use of Estimates

The preparation of the consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of revenues and expenses during the reporting period and the reported amounts of assets and liabilities at the date of the consolidated financial statements. On an ongoing basis, the Organization's management evaluates the estimates and assumptions based upon historical experience and various other factors and circumstances. The Organization's management believes that the estimates and assumptions are reasonable in the circumstances; however, the actual results could differ from those estimates.

Tax Status

Child and Family Services of New Hampshire is exempt from federal income tax under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(3). The Organization has also been classified as an entity that is not a private foundation within the meaning of Section 509(a) and qualifies for deductible contributions.

Child and Family Realty Corporation is exempt from federal income tax under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(25).

The Organization follows FASB ASC 740-10, *Accounting for Uncertainty in Income Taxes*, which clarifies the accounting for uncertainty in income taxes and prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. FASB ASC 740-10 did not have a material impact on the Organization's consolidated financial statements.

The Organization's Federal Form 990 (Return of Organization Exempt From Income Tax) are subject to examination by the IRS, generally for three years after filing.

Financial Instruments and Credit Risk

Deposit concentration risk is managed by placing cash accounts with financial institutions believed to be creditworthy. At times, amounts on deposit may exceed insured limits. To date, no losses have been experienced in any of these accounts. Credit risk associated with accounts and contributions receivable is considered to be limited due to high historical collection rates. Investments are made by diversified investment managers whose performance is monitored by the Board of Trustees. Although the fair values of investments are subject to fluctuation on a year-to-year basis, the Investment Committee believes that the investment policies and guidelines are prudent for the long-term welfare of the Organization.

Fair Value Measurements

The Organization reports its fair value measures using a three-level hierarchy that prioritizes the inputs used to measure fair value. This hierarchy, established by Generally Accepted Accounting Principles, requires that entities maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of inputs used to measure fair value are as follows:

- *Level 1.* Quoted prices for identical assets or liabilities in active markets to which the Organization has access at the measurement date.

- *Level 2.* Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include:

  — quoted prices for similar assets or liabilities in active markets;

  — quoted prices for identical or similar assets in markets that are not active;

  — observable inputs other than quoted prices for the asset or liability (for example, interest rates and yield curves); and

  — inputs derived principally from, or corroborated by, observable market data by correlation or by other means.

- *Level 3.* Unobservable inputs for the asset or liability. Unobservable inputs should be used to measure the fair value to the extent that observable inputs are not available.

When available, the Organization measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. However, Level 1 inputs are not available for many of the assets and liabilities that the Organization is required to measure at fair value (for example, unconditional promises to give and in-kind contributions).

The primary uses of fair value measures in the Organization's consolidated financial statements are:

- Initial measurement of noncash gifts, including gifts of investment assets and unconditional promises to give.
- Recurring measurement of endowment investments (Note 5).
- Recurring measurement of beneficial interests in trusts (Note 6).
- Recurring measurement of line of credit (Note 8).

- Recurring measurement of bonds payable and interest rate swap (Note 9).
- Recurring measurement of deferred loans (Note 10).

3. Accounts Receivable

Accounts receivable consisted of the following at December 31:

	2016			2015		
	Receivable	Allowance	Net	Receivable	Allowance	Net
Grants receivable	$ 497,717	$ (4,700)	$ 493,017	$ 578,576	$ (5,855)	$ 572,721
Fees for service	110,398	-	110,398	89,423	-	89,423
	$ 608,115	$ (4,700)	$ 603,415	$ 667,999	$ (5,855)	$ 662,144

4. Prepaid Expenses

Prepaid expenses at year end relate primarily to prepaid insurance and contracts.

5. Investments

Investments at fair value consist of mutual funds totaling $15,900,471 and $15,530,019 at December 31, 2016 and 2015, respectively.

Under the terms of the Organization's line of credit agreement (Note 8), the Organization has agreed not to pledge these investments as security on any other debt.

For the years ended December 31, 2016 and 2015, expenses relating to investment revenues, including management fees, amounted to $66,376 and $66,675, respectively, and have been netted against investment revenues in the accompanying Statements of Activities.

The Organization's policy is to avail itself of a Board-approved percentage of investment income for operations with any remaining interest, dividends, or appreciation reinvested. The spending policy approved by the Board of Trustees is 5% of the average fair market value of all investments over the previous twelve quarters.

As discussed in Note 2 to these consolidated financial statements, the Organization is required to report its fair value measurements in one of three levels, which are based on the ability to observe in the marketplace the inputs to the Organization's valuation techniques. Level 1, the most observable level of inputs, is for investments measured at quoted prices in active markets for

identical investments as of the December 31, 2016. Level 2 is for investments measured using inputs such as quoted prices for similar assets, quoted prices for the identical asset in inactive markets, and for investments measured at net asset value that can be redeemed in the near term. Level 3 is for investments measured using inputs that are unobservable, and is used in situations for which there is little, if any, market activity for the investment.

The Organization uses the following ways to determine the fair value of its investments:

Mutual funds: Determined by the published value per unit at the end of the last trading day of the year, which is the basis for transactions at that date.

6. Beneficial Interest Held in Trust

The Organization is the sole beneficiary of three funds that are administered by the New Hampshire Charitable Foundation (NHCF). Income from the funds is to provide assistance to children attending Camp Spaulding and for capital improvements to the camp. The fund resolution provides that distributions from the funds can be made at the discretion of the NHCF Board of Directors.

At December 31, 2016 and 2015, the fair market value of the funds, which approximates the present value of future benefits expected to be received, was $797,544 and $779,238, respectively. The Organization received $32,369 and $31,674 from the funds in 2016 and 2015, respectively.

In addition, the Organization has a split-interest in three charitable remainder trusts. The assets are held in trust by banks as permanent trustees of the trusts. The fair value of these beneficial interests is determined by applying the Organization's percentage interest to the fair value of the trust assets as reported by the trustee.

Trust	Percentage Interest	2016	2015
Greenleaf	100%	$ 375,595	$ 377,884
Spaulding	100%	315,182	324,270
Cogswell	50%	247,658	254,706
Total		$ 938,435	$ 956,860

In 2016 and 2015, income distributed by these trusts was $42,064 and $41,829, respectively. Beneficial interest in funds held by others is reported at its fair value, which is estimated as the present value of expected future cash inflows on a recurring basis. As discussed in Note 2, the valuation technique used by the Organization is a Level 3 measure because there are no

observable market transactions. Changes in the fair value of assets measured at fair value on a recurring basis using significant unobservable inputs are comprised of the following:

Balance at December 31, 2014	$ 1,865,853
Change in value of beneficial interest	(129,755)
Balance at December 31, 2015	1,736,098
Change in value of beneficial interest	(119)
Balance at December 31, 2016	$ 1,735,979

7. Property, Equipment and Depreciation

A summary of the major components of property and equipment is presented below:

	2016	2015
Land and land improvements	$ 1,114,949	$ 1,114,949
Buildings and improvements	7,938,789	7,821,572
Furniture, fixtures and equipment	699,160	697,565
Vehicles	88,391	88,391
Software	166,592	166,592
Subtotal	10,007,881	9,889,069
Less: accumulated depreciation	(3,686,230)	(3,363,994)
Total	$ 6,321,651	$ 6,525,075

8. Line of Credit

The Organization has a $1,500,000 revolving line of credit agreement with a bank. The line of credit expired on June 30, 2015, and was extended through June 30, 2017. The line carries a variable rate of interest at the Wall Street Journal prime rate (3.75% at December 31, 2016), adjusted at each change in the index. At December 31, 2016, the balance on this line of credit was $0.

9. Bonds Payable

During 2007, the New Hampshire Health and Education Facilities Authority (the "Authority") sold $5,540,000 of its Revenue Bonds, Child and Family Services Issue, Series 2007, and loaned the proceeds of the bonds to the Organization to refund its Series 1999 Series Bonds and to finance certain improvements to the Organization's facilities. The Series 2007 Bonds were issued with a variable interest rate determined on a weekly basis. Prior to issuing the Bonds, the Organization entered into an interest rate swap agreement (the "Swap Agreement") with Citizens Bank of NH (the "Counterparty")

for the life of the bond issue to hedge the interest rate risk associated with the Series 2007 Bonds. The interest rate swap agreement requires the Organization to pay the Counterparty a fixed rate of 3.915%; in exchange, the Counterparty will pay the Organization a variable rate on the notional amount based on the 67% of one month LIBOR. Counterparty payments to the Organization were intended to offset Organization payments of variable rate interest to bond holders. Counterparty credit worthiness and market variability can impact the variable rates received and paid by the Organization, with the potential of increasing Organization interest payments. As a result, the cost of the interest rate swap for 2016 and 2015 is added to interest expense in the Consolidated Statement of Functional Expenses. The bonds mature in 2038 and can be repaid at any time.

The Organization is required to include the fair value of the swap in the Consolidated Statement of Financial Position, and annual changes, if any, in the fair value of the swap in the Consolidated Statement of Activities. For example, during the bond's 30-year holding period, the annually calculated value of the swap will be reported as an asset if interest rates increase above those in effect on the date of the swap was entered into (and as an unrealized gain in the Consolidated Statement of Activities), which will generally be indicative that the net fixed rate the Organization is paying on the swap is below market expectations of rates during the remaining term of the swap. The swap will be reported as a liability (and as an unrealized loss in the Consolidated Statement of Activities) if interest rates decrease below those in effect on the date the swap was entered into, which will generally be indicative that the net fixed rate the Organization is paying on the swap is above market expectations of rates during the remaining term of the swap. The annual accounting adjustments of value changes in the swap transaction are non-cash recognition requirements, the net effect of which will be zero at the end of the bond's 30-year term. At December 31, 2016 and 2015, the Organization recorded the swap liability position of $1,168,384 and $1,306,823, respectively. During 2009, there occurred a downgrading of the credit rating of the Counterparty to the letter of credit reimbursement agreement, which triggered a mandatory tender of the Series 2007 Bonds in whole and a temporary conversion of one-hundred percent of the principal amount to a bank purchase mode under the terms of said letter of credit reimbursement agreement. Since it became evident that the credit markets would not soon return to normalcy, the Organization elected to convert the Series 2007 Bonds from a weekly rate mode to a bank purchase mode. This new bank purchase mode created a rate period in which the Series 2007 Bonds bear interest at the tax adjusted bank purchase rate of 68% of the sum of the adjusted period LIBOR (30 day) rate and 325 basis points. The bank purchase mode commenced on July 31, 2009 and expired on July 31, 2014; however, the expiration date was extended by the Counterparty and the Organization had the option to convert back to the weekly rate mode. The Series 2007 Bond documents require the Organization to comply with certain financial covenants. As of December 31, 2016, the Organization was in compliance with these covenants.

The following is a summary of future payments on the previously mentioned bonds payable:

Year	Amount
2017	$ 135,000
2018	140,000
2019	140,000
2020	150,000
2021	160,000

11. Endowment Funds

The Organization's endowment consists of various individual funds established for a variety of purposes. Its endowment includes both donor-restricted funds and funds designated by the Board of Trustees to function as endowments. As required by Generally Accepted Accounting Principles, net assets associated with endowment funds, including funds designated by the Board of Trustees to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Board-designated Investments

As of December 31, 2016, the Board of Trustees had designated $14,027,737 of unrestricted net assets as a general endowment fund to support the mission of the Organization. Since that amount resulted from an internal designation and is not donor-restricted, it is classified and reported as unrestricted net assets.

Donor-designated Endowments

The Board of Trustees of the Organization has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds, absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Organization in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Organization considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the various funds, (2) the purposes of the donor-restricted endowment funds, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, (6) other resources of the Organization, and (7) the Organization's investment policies.

Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or UPMIFA requires the Organization to retain as a fund of perpetual duration. In accordance with Generally Accepted Accounting Principles, deficiencies of this nature are required to be restored from either temporarily restricted or unrestricted net assets, depending on donor stipulations. These deficiencies result from unfavorable market fluctuations that occur causing the original donor restricted contribution, plus accumulated investment earnings that, in accordance with donor stipulations, are required to be added to the original contribution, to fall below the accumulated balances. Donor stipulations for permanently restricted-income restricted funds require the reclassification of realized and unrealized earnings to temporarily restricted net assets. Based on donor stipulations, there are no temporarily or permanently restricted funds in deficit.

Investment Policy

The Organization has adopted an investment and spending policy to ensure a total return (income plus capital change) necessary to preserve and enhance the principal of the fund and, at the same time, provide a dependable source of support for current operations and programs. The withdrawal from the fund

in support of current operations is expected to remain a constant percentage of the total fund, adjusted for new gifts to the fund.

In recognition of the prudence required of fiduciaries, reasonable diversification is sought where possible. Experience has shown financial markets and inflation rates are cyclical and, therefore, control of volatility will be achieved through investment styles. Asset allocation parameters have been developed for various funds within the structure, based on investment objectives, liquidity needs, and time horizon for intended use.

Measurement of investment performance against policy objectives will be computed on a total return basis, net of management fees and transaction costs. Total return is defined as dividend or interest income plus realized and unrealized capital appreciation or depreciation at fair market value.

Spending Policy

The Organization's spending policy is 5% of the average total endowment value over the trailing 12 quarters with a 1% contingency margin. This includes interest and dividends paid out to the Organization.

The net asset composition of endowment investments as of December 31, 2016 is as follows:

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total Net Endowment Assets

Changes in endowment net assets as of December 31, 2016 are as follows:

12. Temporarily Restricted Net Assets

Temporarily restricted net assets at December 31 were comprised of the following:

Total	$ 1,998,996	$ 2,211,441

13. Net Assets Released from Restriction

Net assets are released from restrictions by incurring expenses satisfying the restricted purpose, or by the passage of time.

14. Defined Contribution Plan

The Organization maintains a 403(b) Thrift Plan (the Plan). The Plan is a defined contribution plan that all eligible employees may immediately make elective participant contributions to upon hire. A pretax voluntary contribution is permitted by employees up to limits imposed by the Internal Revenue Code and other limitations specified in the Plan. There were no contributions made to the plan by the Organization for the years ended December 31, 2016 and 2015, respectively.

15. Operating Leases

The Organization leases office space under the terms of non-cancellable lease agreements that are scheduled to expire at various times through 2018. The Organization also rents additional facilities on a month to month basis. Rent expense under these agreements totaled $129,338 and $150,685 for the years ended December 31, 2016 and 2015, respectively.

16. Concentrations of Risk

The majority of the Organization's grants are received from agencies of the State of New Hampshire. As such, the Organization's ability to generate resources via grants is dependent upon the economic health of that area and of the State of New Hampshire. An economic downturn could cause a decrease in grants that coincides with an increase in demand for the Organization's services.

The Organization invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the Consolidated Statement of Financial Position.

17. Subsequent Events

Subsequent events have been evaluated through March 28, 2017, which is the date the consolidated financial statements were available to be issued. Events occurring after that date have not been evaluated to determine whether a change in the consolidated financial statements would be required.

EXPLANATION

The purpose of this request is to renew contract services with these vendors for an additional two years. For a detailed summary of the changes please see attachment.

Comprehensive Family Support Services assist pregnant women and families with children up to the age of twenty-one (21) by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents to give families an opportunity to learn and grow.

The Division for Children, Youth and Families and the Division of Public Health Services have blended three family health and support related programs in to one program which is now represented as the Comprehensive Family Support Services.

Currently, there are twenty-five (25) community based family resource centers in operation across the State which provide a range of support services to families and children that focus on strengthening, supporting and building on the strengths and skills of individuals while also ensuring developmental screening for children six (6) and under. These centers are often key local stakeholders in groups that assess and advocate for the needs of local families.

The original contracts were competitively bid.

These contracts contain language which allows for the right to renew for up to four additional years based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

The Comprehensive Family Support Services program has served a total of 871 families and 1664 children in 2014. As a result, ninety-five percent (95%) of the families served achieved successful outcomes and remained uninvolved in a Division abuse or neglect case. The Division is satisfied with the services provided and is requesting approval to exercise two years of the renewal option reserving the Division's option to renew for the remaining two years based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

Should the Governor and Executive Council not authorize this request, the flexibility of community based family services may not be available to address the needs of children and families throughout the state which could cause an increase in the Division for Children, Youth and Families involvement for out of home placements. The services provided through these agreements help prevent separation of children from their families and afford them a safe, stable and supportive family environment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Independent Auditors' Report

To the Board of Trustees
Child and Family Services of New Hampshire

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Child and Family Services of New Hampshire, which comprise the consolidated statement of financial position as of December 31, 2014, and the related consolidated statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not

for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Child and Family Services of New Hampshire as of December 31, 2014, and the changes in net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

The prior year summarized comparative information has been derived from the consolidated financial statements of Child and Family Services of New Hampshire for the year ended December 31, 2013, which were audited by another auditor who expressed an unmodified opinion on those statements in their report dated March 19, 2014.

Other Matters

Emphasis of Matter

As discussed above, the financial statements Child and Family Services of New Hampshire as of December 31, 2013, and for the year then ended were audited by other auditors. As described in Note 17, these financial statements have been restated. We audited the adjustments described in Note 17 that were applied to restate the 2013 financial statements. In our opinion, such adjustments are appropriate and have been properly applied. However, we were not engaged to audit, review, or apply any procedures to the 2013 financial statements of the Organization other than with respect to such adjustments and, accordingly we do not express an opinion or any other form of assurance on the 2013 financial statements taken as a whole.

Other Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The Consolidated Schedule of Operating Expenses

is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 31, 2015 on our consideration of Child and Family Services of New Hampshire's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Child and Family Services of New Hampshire's internal control over financial reporting and compliance.

Child and Family Services of New Hampshire

Notes to Consolidated Financial Statements

For the Year Ended December 31, 2014

1. Description of Organization

Child and Family Services of New Hampshire (the Organization) is a nonprofit organization, founded in 1850, that currently aids more than 20,000 individuals, statewide, through an array of social services.

These services span the life cycle from prenatal to seniors, and can be grouped into four basic categories:

1. **Early Childhood – Family Support & Education Services**
   Over 4,500 parents received education and support to improve parenting, strengthen families, prevent child abuse and neglect, and ensure healthy development of children. Over 573 young children starting life at a disadvantage, received critical services to ensure a good beginning and to optimize their chance for life-long success. Some of the programs focused on early childhood include:

   Early Support and Services – Early Support and Services provides family-centered support and therapies to infants and toddlers who have developmental disabilities, delays or are at risk of developmental delays. Services work to optimize baby's cognitive, physical, emotional and social development, and chance for success. Services are provided in the child's natural environment (home, daycare, playground, etc.).

   Home Visiting Services – A number of different prevention programs are offered in the home during those critical early years of a child's life. A spectrum of services includes support to new mothers and those struggling to parent; services for children with chronic health conditions; prenatal services for babies being born at a disadvantage into low-income families; and programs to encourage positive early parent/child relationships and promote optimal early childhood development. Services are provided by nurses, social workers, developmental specialists, occupational therapists, health educators, and home visitors.

   Adoption – A licensed child-placing agency, the organization has been forming families through adoption since 1914. The Organization's adoption professionals provide home studies and adoption services for families looking to adopt and provide counselling and support to birth-parents who are considering the adoption option.

2. **Children, Youth, and Family - Intervention and Treatment Programs**
The Organization contracts with the State of New Hampshire, the federal government, and insurance companies, to provide a continuum of services for children, adolescents and young adults. Programs are delivered in the home, schools, or community, and include mental health counseling and substance abuse treatment, as well as a complex system of family stabilization and preservation programs, child protection services, and services for at-risk youth. Some of the programs include:

   Foster care – The Organization works with the State of New Hampshire in placing children who've been rescued from dangerous home environments, into safe, stable, loving homes. The Organization recruits and supports foster families and works to facilitate permanency for each child.

   Home Based Services – The Organization has a number of programs provided in the family home that are designed to help families who are struggling through daily life - where children are at risk. Services work to thwart domestic violence, rebuild families, and to improve family functioning. The Organization empowers families with the skills and resources they need to provide for their children and become self-sufficient.

3. **Runaway and Homeless Youth Services**
The Organization is the sole provider of services for runaway and homeless youth in Manchester and the Seacoast. A full spectrum of services features outreach to at-risk youth that includes survival aid on the streets and basic needs fulfillment at the drop-in center, as well as crisis intervention, educational and vocational advocacy, housing, and case management. The Organization also provides behavioral health and substance use counseling where needed. The Organization works with school systems, police, and other agencies in addressing the needs of New Hampshire's homeless youth.

4. **Senior Care and Independent Living**
The Organization helps seniors and individuals with chronic illness or disability, to live at home safely and with dignity, and to maintain quality of life. Under the title of Home Care, services are delivered by homemakers, companions, personal care service providers, and LNAs. The Organization's caregivers go to client homes to help with everything from cooking and cleaning, to personal hygiene, medication reminders, mobility, travel to appointments, paying bills, help with daily tasks, and communication with family members.

Additionally, the Organization runs two unique programs:

Camp Spaulding – Since 1921, Camp Spaulding has helped campers from all types of backgrounds enjoy the benefits of a traditional, resident

camp experience. In 2015, the Organization formed a partnership with the YMCA of Greater Nashua whereby the Organization will own the camp and the YMCA will handle daily operations and summer programming. This collaboration will combine a 94 year camp history, and exceptional facility, strong community support, and the expertise of two premier New Hampshire nonprofit organizations.

The New Hampshire Children's Lobby – Established in 1971, the New Hampshire Children's Lobby is the advocacy wing of Child and Family Services. The program's mission is to improve the lives of children and families through legislative, judicial, and public policy initiatives. This combination of advocacy and direct service practice, uniquely positions the Organization to serve the best interest of New Hampshire children.

2. Significant Accounting Policies

The Organization prepares its consolidated financial statements in accordance with generally accepted accounting principles promulgated in the United States of America (GAAP) for nonprofit organizations. The significant accounting and reporting policies used by the Organization are described subsequently to enhance the usefulness and understandability of the consolidated financial statements.

Net Assets

The consolidated financial statements report net assets and changes in net assets in three classes that are based upon the existence or absence of restrictions on use that are placed by its donors, as follows:

Unrestricted Net Assets

Unrestricted net assets are resources available to support operations. The only limits on the use of unrestricted net assets are the broad limits resulting from the nature of the Organization, the environment in which it operates, the purposes specified in its organizing documents and its application for tax-exempt status, and any limits resulting from contractual agreements with creditors and others that are entered into in the course of its operations.

Temporarily Restricted Net Assets

Temporarily restricted net assets are resources that are restricted by donors for use for a particular purpose or in a particular future period. The Organization's unspent contributions are classified in this net asset class if the donor limited their use, as are the unspent appreciation of its donor-restricted endowment funds.

When a donor's restriction is satisfied, either by using the resources in the manner specified by the donor or by the passage of time, the expiration of the restriction is reported in the consolidated financial statements by reclassifying the net assets from temporarily restricted to unrestricted net assets.

Permanently Restricted Net Assets

Permanently restricted net assets are resources whose use by the Organization is limited by donor-imposed restrictions that neither expire by being used in accordance with a donor's restriction nor by the passage of time. The portion of the Organization's donor-restricted funds that must be maintained in perpetuity are classified in this net asset class, as is the Organization's beneficial interest in perpetual charitable trusts. Unless restricted by the donor, income earned on permanently restricted net assets is expendable to support operations, subject to certain restrictions.

All revenues and net gains are reported as increases in unrestricted net assets in the Statement of Activities unless the use of the related resources is subject to temporary or permanent donor restrictions. All expenses and net losses other than losses on endowment investments are reported as decreases in unrestricted net assets. Net losses on endowment investments reduce temporarily restricted net assets to the extent that temporarily restricted net gains from prior years are unspent and classified there; remaining losses are classified as decreases in unrestricted net assets. If an endowment fund has no net gains from prior years, such as when a fund is newly established, net losses are classified as decreases in unrestricted net assets.

Principles of Consolidation

The consolidated financial statements of the Organization include the accounts of Child and Family Services of New Hampshire and Child and Family Realty Corporation, a commonly controlled organization. All inter-organization transactions have been eliminated.

Cash Equivalents

Cash equivalents are short term, interest bearing, highly liquid investments with original maturities of three months or less, unless the investments are held for meeting donor restrictions. Temporarily restricted cash investments held within investment portfolios are excluded from cash equivalents.

Investments

The Organization maintains pooled investment accounts for its restricted endowments. Realized and unrealized gains and losses are allocated to the individual endowments based on the relationship of the market value of each endowment to the total market value of the pooled investment accounts, as adjusted for additions to or deductions from those accounts.

Accounts Receivable and Revenue

Accounts receivable is recognized when qualifying costs are incurred for cost reimbursement grants or contracts or when a unit of service is provided for performance grants. Grant revenue from federal agencies is subject to independent audit under the Office of Management and Budget Circular A-133 and review by grantor agencies. The review could result in the disallowance of expenditures under the terms of the grants or reductions of future grant awards. Based on prior experience, the Organization's management believes that costs ultimately disallowed, if any, would not materially affect the financial position of the Organization.

Allowance for Doubtful Accounts

The adequacy of the allowance for doubtful accounts for receivables is reviewed on an ongoing basis by the Organization's management and adjusted as required through the provision for doubtful accounts (bad debt expense). In determining the amount required in the allowance account for the year ended December 31, 2014, management has taken into account a variety of factors.

Beneficial Interest

The Organization is the beneficiary of perpetual charitable trusts. The beneficial interest in the trust is reported at its fair value, which is estimated as the fair value of the underlying trust assets. Distributions of income from the trust assets are restricted to use and are reported as increases in temporarily restricted net assets until expended in accordance with restrictions. The value of the beneficial interest in the trust is adjusted annually for the change in its estimated fair value. Those changes in value are reported as increases in permanently restricted net assets because the trust assets will never be distributed to the Organization.

Property and Equipment

Property and equipment is reported at cost, if purchased, and at fair value at the date of donation, if donated. Any such donations are reported as unrestricted support unless the donor has restricted the donated asset for a specific purpose. Assets donated with explicit restrictions regarding their use, and contributions of cash that must be used to acquire property and equipment, are reported as restricted support. Absent donor stipulations regarding how long those donated assets must be maintained, the Organization reports expirations of donor restrictions over the useful life of the asset. The Organization reclassifies temporarily restricted net assets to unrestricted net assets at that time.

Property and equipment is capitalized if it has a cost of $1,000 or more and a useful life when acquired of more than one year. Repairs and maintenance

that do not significantly increase the useful life of the asset are expensed as incurred. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, as follows:

Buildings and improvements	15 – 50 years
Furniture, fixtures, and equipment	5 – 10 years
Vehicles	5 years
Software	5 years

Property and equipment is reviewed for impairment when a significant change in the asset's use or another indicator of possible impairment is present. No impairment losses were recognized in the consolidated financial statements in the current period.

Accounting for Contributions

Contributions, including unconditional promises to give, are recognized when received. All contributions are reported as increases in unrestricted net assets unless use of the contributed assets is specifically restricted by the donor. Amounts received that are restricted by the donor to use in future periods or for specific purposes are reported as increases in either temporarily restricted or permanently restricted net assets, consistent with the nature of the restriction. Unconditional promises with payments due in future years have an implied restriction to be used in the year the payment is due, and therefore are reported as temporarily restricted until the payment is due unless the contribution is clearly intended to support activities of the current fiscal year or is received with permanent restrictions. Conditional promises, such as matching grants, are not recognized until they become unconditional, that is, until all conditions on which they depend are substantially met.

Gifts-in-Kind Contributions

The Organization periodically receives contributions in a form other than cash. Contributed property and equipment is recognized as an asset at its estimated fair value at the date of gift, provided that the value of the asset and its estimated useful life meets the Organization's capitalization policy. Donated use of facilities is reported as contributions and as expenses at the estimated fair value of similar space for rent under similar conditions. If the use of the space is promised unconditionally for a period greater than one year, the contribution is reported as a contribution and an unconditional promise to give at the date of gift, and the expense is reported over the term of use. Donated supplies are recorded as contributions at the date of gift and as expenses when the donated items are placed into service or distributed.

The Organization benefits from personal services provided by a substantial number of volunteers. Those volunteers have donated significant amounts of

time and services to the Organization's program operations and in its fund-raising campaigns. However, the majority of the contributed services do not meet the criteria for recognition in the consolidated financial statements. Generally Accepted Accounting Principles allow recognition of contributed services only if (*a*) the services create or enhance nonfinancial assets or (*b*) the services would have been purchased if not provided by contribution, require specialized skills, and are provided by individuals possessing those skills.

Expense Recognition and Allocation

The cost of providing the Organization's programs and other activities is summarized on a functional basis in the Consolidated Statement of Activities and Consolidated Statement of Functional Expenses. Expenses that can be identified with a specific program or support service are charged directly to that program or support service. Costs common to multiple functions have been allocated among the various functions benefited.

Management and general expenses include those costs that are not directly identifiable with any specific program, but which provide for the overall support and direction of the Organization.

Fundraising costs are expensed as incurred, even though they may result in contributions received in future years.

Use of Estimates

The preparation of the consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of revenues and expenses during the reporting period and the reported amounts of assets and liabilities at the date of the consolidated financial statements. On an ongoing basis, the Organization's management evaluates the estimates and assumptions based upon historical experience and various other factors and circumstances. The Organization's management believes that the estimates and assumptions are reasonable in the circumstances; however, the actual results could differ from those estimates.

Tax Status

Child and Family Services of New Hampshire is exempt from federal income tax under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(3). The Organization has also been classified as an entity that is not a private foundation within the meaning of Section 509(a) and qualifies for deductible contributions.

Child and Family Realty Corporation is exempt from federal income tax under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(25).

The Organization follows FASB ASC 740-10, *Accounting for Uncertainty in Income Taxes*, which clarifies the accounting for uncertainty in income taxes and prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. FASB ASC 740-10 did not have a material impact on the Organization's consolidated financial statements.

The Organization's Federal Form 990 (Return of Organization Exempt From Income Tax) are subject to examination by the IRS, generally for three years after filing.

Reclassifications

Certain accounts in the prior-year consolidated financial statements have been reclassified for comparative purposes to conform to the presentation in the current-year consolidated financial statements.

Fair Value Measurements

The Organization reports its fair value measures using a three-level hierarchy that prioritizes the inputs used to measure fair value. This hierarchy, established by Generally Accepted Accounting Principles, requires that entities maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of inputs used to measure fair value are as follows:

- *Level 1.* Quoted prices for identical assets or liabilities in active markets to which the Organization has access at the measurement date.

- *Level 2.* Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include:

    — quoted prices for similar assets or liabilities in active markets;

    — quoted prices for identical or similar assets in markets that are not active;

    — observable inputs other than quoted prices for the asset or liability (for example, interest rates and yield curves); and

    — inputs derived principally from, or corroborated by, observable market data by correlation or by other means.

- *Level 3.* Unobservable inputs for the asset or liability. Unobservable inputs should be used to measure the fair value to the extent that observable inputs are not available.

When available, the Organization measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. However, Level 1 inputs are not available for many of the assets and liabilities that the Organization is required to measure at fair value (for example, unconditional promises to give and in-kind contributions).

The primary uses of fair value measures in the Organization's consolidated financial statements are:

- initial measurement of noncash gifts, including gifts of investment assets and unconditional promises to give.
- recurring measurement of endowment investments (Note 4).
- recurring measurement of beneficial interests in trusts (Note 6).

3. Concentration of Credit Risk - Cash and Cash Equivalents

The carrying amount of the Organization's deposits with financial institutions was $890,520 at December 31, 2014. The difference between the carrying amount and the bank balance represents reconciling items such as deposits in transit and outstanding checks, which have not been processed by the bank at December 31, 2014. The bank balance is categorized as follows:

Insured by FDIC	$ 327,796
Uninsured and uncollateralized	564,264
Total Bank Balance	$ 892,060

4. Investments

Investments at fair value consist of the following at December 31, 2014:

Mutual funds	$ 16,578,298
U.S Treasury obligations	332,694
Total	$ 16,910,992

Under the terms of the Organization's line of credit agreement (Note 8), the Organization has agreed not to pledge these investments as security on any other debt.

For the years ended December 31, 2014 and 2013, expenses relating to investment revenues, including management fees, amounted to $91,915 and $86,474, respectively, and have been netted against investment revenues in the accompanying statements of activities.

The Organization's policy is to avail itself of a Board-approved percentage of investment income for operations with any remaining interest, dividends, or appreciation reinvested. The spending policy approved by the Board of Trustees is 5% of the average fair market value of all investments over the previous twelve quarters.

As discussed in Note 2 to these consolidated financial statements, the Organization is required to report its fair value measurements in one of three levels, which are based on the ability to observe in the marketplace the inputs to the Organization's valuation techniques. Level 1, the most observable level of inputs, is for investments measured at quoted prices in active markets for identical investments as of the December 31, 2014. Level 2 is for investments measured using inputs such as quoted prices for similar assets, quoted prices for the identical asset in inactive markets, and for investments measured at net asset value that can be redeemed in the near term. Level 3 is for investments measured using inputs that are unobservable, and is used in situations for which there is little, if any, market activity for the investment.

The Organization uses the following ways to determine the fair value of its investments:

Mutual funds: Determined by the published value per unit at the end of the last trading day of the year, which is the basis for transactions at that date.

U.S. Treasury Obligations: Determined by the closing bid price on the last business day of the fiscal year if actively traded.

5. Accounts Receivable

Receivables consisted of the following at December 31:

	2014			2013		
	Receivable	Allowance	Net	Receivable	Allowance	Net
Grants receivable	$ 539,091	$ (4,727)	$ 534,364	$ 639,140	$ (6,805)	$ 632,335
Fees for service	107,813	(1,428)	106,385	193,747	-	193,747
Travel advances	150	-	150	-	-	-
	$ 647,054	$ (6,155)	$ 640,899	$ 832,887	$ (6,805)	$ 826,082

6. Beneficial Interest Held in Trust

The Organization is the sole beneficiary of three funds that are administered by the New Hampshire Charitable Foundation (NHCF). One of the funds was established in 2005. Income from the funds is to provide assistance to children attending Camp Spaulding and for capital improvements to the camp. The fund resolution provides that distributions from the funds can be made at the

discretion of the NHCF Board of Directors. The Organization has received distributions from the funds over the last two years.

At December 31, 2014 and 2013, the fair market value of the funds, which approximates the present value of future benefits expected to be received, was $833,116 and $823,141, respectively. The Organization received $24,247 and $28,983 from the funds in 2014 and 2013, respectively.

In addition, the Organization has a split-interest in three charitable remainder trusts. The assets are held in trust by banks as permanent trustees of the trusts. The fair value of these beneficial interests is determined by applying the Organization's percentage interest to the fair value of the trust assets as reported by the trustee.

Trust	Percentage Interest	2014	2013
Greenleaf	100%	$ 405,687	$ 412,530
Spaulding	100%	351,865	358,793

In 2014 and 2013, income distributed by these trusts was $18,881 and $39,498, respectively. Beneficial interest in funds held by others is reported at its fair value, which is estimated as the present value of expected future cash inflows on a recurring basis. As discussed in Note 2, the valuation technique used by the Organization is a Level 3 measure because there are no observable market transactions. Changes in the fair value of assets measured at fair value on a recurring basis using significant unobservable inputs are comprised of the following:

Balance at December 31, 2012	$ 1,736,855
Change in value of beneficial interest	136,020
Balance at December 31, 2013	1,872,875
Change in value of beneficial interest	(7,022)
Balance at December 31, 2014	$ 1,865,853

Total	$ 6,374,837	$ 7,048,577

8. Line of Credit

The Organization has a $1,500,000 revolving line of credit agreement with a bank. The line of credit expired on June 30, 2014, and was extended through June 30, 2015. The line carries a variable rate of interest at the Wall Street Journal prime rate (3.25% at December 31, 2014), adjusted at each change in the index. At December 31, 2014 the balance on this line of credit was $0.

9. Bonds Payable

During 2007, the New Hampshire Health and Education Facilities Authority (the "Authority") sold $5,540,000 of its Revenue Bonds, Child and Family Services Issue, Series 2007, and loaned the proceeds of the bonds to the Organization to refund its Series 1999 Series Bonds and to finance certain improvements to the Organization's facilities. The Series 2007 Bonds were issued with a variable interest rate determined on a weekly basis. Prior to issuing the Bonds, the Organization entered into an interest rate swap agreement (the "Swap Agreement") with Citizens Bank of NH (the "Counter-party") for the life of the bond issue to hedge the interest rate risk associated with the Series 2007 Bonds. The interest rate swap agreement requires the Organization to pay the Counterparty a fixed rate of 3.915%; in exchange, the Counterparty will pay the Organization a variable rate on the notional amount based on the 67% of one month LIBOR. Counterparty payments to the Organization were intended to offset Organization payments of variable rate interest to bond holders. Counterparty credit worthiness and market variability can impact the variable rates received and paid by the Organization, with the potential of increasing Organization interest payments. As a result, the cost of the interest rate swap for 2014 and 2013 is added to interest expense in the statement of functional expense. The bonds mature in 2038 and can be repaid at any time.

The Organization is required to include the fair value of the swap in the Consolidated Statement of Financial Position, and annual changes, if any, in the fair value of the swap in the Consolidated Statement of Activities. For example, during the bond's 30-year holding period, the annually calculated value of the swap will be reported as an asset if interest rates increase above those in effect on the date of the swap was entered into (and as an unrealized gain in the Consolidated Statement of Activities), which will generally be indicative that the net fixed rate the Organization is paying on the swap is below market expectations of rates during the remaining term of the swap. The swap will be reported as a liability (and as an unrealized loss in the Consolidated Statement of Activities) if interest rates decrease below those in effect on the date the swap was entered into, which will generally be indicative that the net fixed rate the Organization is paying on the swap is above market expectations of rates during the remaining term of the swap. The annual accounting adjustments of value changes in the swap transaction are non-cash recognition requirements, the net effect of which will be zero at the end of the bond's 30-year term. At December 31, 2014 and 2013, the Organization recorded the swap liability position of approximately $1,326,080 and $937,081, respectively. During 2009, there occurred a downgrading of the credit rating of the Counterparty to the letter of credit reimbursement agreement, which triggered a mandatory tender of the Series 2007 Bonds in whole and a temporary conversion of one-hundred percent of the principal amount to a bank purchase mode under the terms of said letter of credit reimbursement agreement. Since it became evident that the credit markets would not soon return to normalcy, the Organization elected to convert the Series 2007 Bonds from a weekly rate mode to a bank purchase mode. This new bank purchase mode created a rate period in which the Series 2007 Bonds bear interest at the tax adjusted bank purchase rate of 68% of the sum of the adjusted period LIBOR (30 day) rate and 325 basis points. The bank purchase mode commenced on July 31, 2009 and expired on July 31, 2014; however, the expiration date was extended by the Counterparty and the Organization had the option to convert back to the weekly rate mode. The Series 2007 Bond documents require the Organization to comply with certain financial covenants. As of December 31, 2014, the Organization was in compliance with these covenants.

The following is a summary of future payments on the previously mentioned bonds payable:

Year	Amount
2015	$ 120,000
2016	125,000

11. Endowment Funds:

The Organization's endowment consists of various individual funds established for a variety of purposes. Its endowment includes both donor-restricted funds and funds designated by the Board of Trustees to function as endowments. As required by Generally Accepted Accounting Principles, net assets associated with endowment funds, including funds designated by the Board of Trustees to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Board-designated Investments

As of December 31, 2014, the Board of Trustees had designated $14,963,027 of unrestricted net assets as a general endowment fund to support the mission of the Organization. Since that amount resulted from an internal designation and is not donor-restricted, it is classified and reported as unrestricted net assets.

Donor-designated Endowments

The Board of Trustees of the Organization has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Organization in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Organization considers the following factors in

making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the various funds, (2) the purposes of the donor-restricted endowment funds, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, (6) other resources of the Organization, and (7) the Organization's investment policies.

Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or UPMIFA requires the Organization to retain as a fund of perpetual duration. In accordance with generally accepted accounting principles, deficiencies of this nature are required to be restored from either temporarily restricted or unrestricted net assets, depending on donor stipulations. These deficiencies result from unfavorable market fluctuations that occur causing the original donor restricted contribution, plus accumulated investment earnings that, in accordance with donor stipulations, are required to be added to the original contribution, to fall below the accumulated balances. Donor stipulations for permanently restricted-income restricted funds require the reclassification of realized and unrealized earnings to temporarily restricted net assets. Based on donor stipulations there are no temporarily or permanently restricted funds in deficit.

Investment Policy

The Organization has adopted an investment and spending policy to ensure a total return (income plus capital change) necessary to preserve and enhance the principal of the fund and at the same time, provide a dependable source of support for current operations and programs. The withdrawal from the fund in support of current operations is expected to remain a constant percentage of the total fund, adjusted for new gifts to the fund.

In recognition of the prudence required of fiduciaries, reasonable diversification is sought where possible. Experience has shown financial markets and inflation rates are cyclical, and therefore, control of volatility will be achieved through investment styles. Asset allocation parameters have been developed for various funds within the structure, based on investment objectives, liquidity needs, and time horizon for intended use.

Measurement of investment performance against policy objectives will be computed on a total return basis, net of management fees and transaction costs. Total return is defined as dividend or interest income plus realized and unrealized capital appreciation or depreciation at fair market value.

Spending Policy

The spending policy is 5% of the average total endowment value over the trailing 12 quarters with a 1% contingency margin. This includes interest and dividends paid out to the Organization.

The net asset composition of the endowment investments as of December 31, 2014, is as follows:

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total Net Endowment Assets
Donor-restricted endowment funds	$ -	$ 594,052	$ 1,353,913	$ 1,947,965

12. Temporarily Restricted Net Assets

Temporarily restricted net assets at December 31 were comprised the following:

	2014	2013
Program restrictions:		
Camp	$ 48,702	$ 49,194

Cumulative appreciation on permanently restricted net assets	594,052	582,272
Total	$ 1,955,656	$ 2,038,628

13. Net Assets Released from Restriction

Net assets are released from program restrictions by incurring expenses satisfying the restricted purpose.

14. Defined Contribution Plan

The Organization sponsored a defined contribution plan (the Plan) that covered all employees at day of hire and who were at least twenty-one years of age. A pretax voluntary contribution is permitted by employees up to limits imposed by the Internal Revenue Code and other limitations specified in the Plan. There were no contributions made to the plan by the Organization for the years ended December 31, 2014 and 2013, respectively.

15. Operating Leases

The Organization leases office space under the terms of non-cancellable lease agreements that are scheduled to expire at various times through 2018. The Organization also rents additional facilities on a month to month basis.

Rent expense under these agreements totaled $120,966 and $123,341 for the years ended December 31, 2014 and 2013, respectively.

Estimated future minimum lease payments on the above leases are as follows:

Year	Amount
2015	$ 82,707
2016	82,707
2017	16,217
2018	3,621
Total	$ 185,252

16. Concentrations of Risk

The majority of the Organization's grants are received from agencies of the State of New Hampshire. As such, the Organization's ability to generate resources via grants is dependent upon the economic health of that area and of the State of New Hampshire. An economic downturn could cause a decrease in grants that coincides with an increase in demand for the Organization's services.

The Organization invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment

securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the Consolidated Statement of Financial Position.

17. Beginning Net Assets Restatement

In fiscal year 2014, the Organization determined that certain funds previously categorized as temporarily restricted net assets were not subject to donor restrictions. In addition, deferred loans from NHHFA were restated to properly reflect their face value. Accordingly, beginning net assets as of December 31, 2014 have been restated in order to properly reflect donor restricted net assets, as follows:

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Net Assets, Beginning of Year	$ 14,136,915	$ 2,943,580	$ 3,121,389	$ 20,201,884
Reclassify program funds	904,952	(904,952)	-	-
Restate deferred loan balances	(904,957)	-	-	(904,957)

18. Subsequent Events

Subsequent events have been evaluated through March 31, 2015, which is the date the consolidated financial statements were available to be issued. Events occurring after that date have not been evaluated to determine whether a change in the consolidated financial statements would be required.

Office of the Attorney General

Concord, New Hampshire 03301

Good Morning Attorney Yaple,

I am writing to ask that you review the attached amendments between the Department of Health and Human Services, Division for Children, Youth and Families and Child and Family Services of New Hampshire (Vendor # 177166-B002), 464 Chestnut Street, Manchester, NH. The amendment has been signed by the Associate Commissioner and an authorized signor for the vendor. The vendor provides Comprehensive Family Support Services in the Manchester, Concord and Southern District Office areas, and has requested the adjustment of several budget line items in State Fiscal Year 2015 in order to meet specified needs. The Governor and Executive Council approved the original agreements on June 18, 2014, (Item # 80). These are zero cost amendments with no change to any of the contracts end date of June 30, 2016.

Because of the language, in all of the contracts, in Exhibit B, Section 2.7, that reads:

2.7 *Notwithstanding paragraph 18 of the P-37, an amendment limited to the adjustment of the amounts between budget line items and/or State Fiscal Years, related items, and amendments of related budget exhibits, can be made by written agreement of both parties and do not require additional approval of the Governor and Executive Council*

I am asking that you review and sign off on the amendments as they do not need further action by the Governor and Executive Council.

The remainder of this letter is presented in the format typical of most Governor and Executive Council letters, so that you might have some context for your review.

Funds to support this request are available in the following accounts in State Fiscal Year 2015 and are anticipated to be available in State Fiscal Year 2016, upon the availability and continued appropriation of funds in the future operating budget with the ability to adjust encumbrances between State Fiscal Years through the Budget Office if needed and justified without further approval from the Governor and Executive Council.

EXPLANATION

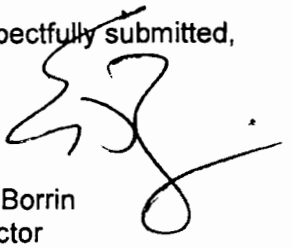
The purpose of these amendments is to allow the vendor to adjust certain budget lines in each of the contracts in order to meet contractual needs; and to update the standard contract language in Exhibit C and Exhibit G for each contract. The vendor underestimated the Staff Education and Training for the Manchester, Concord and Southern District Office areas as well as the subcontractor amount for the Concord and Southern District Office areas. The change has resulted in a request from the vendor to adjust the travel and staff training budget lines in the Manchester area contract, the salary, subcontractor and staff education and training budget line in the Concord area contract, and salary, subcontractor and staff education and training budget lines for the Southern area contract. The Department supports the requested adjustments.

There are no additional funds being requested for these amendments. Other than the updating the contract standard language in Exhibit C and Exhibit G and the budget line adjustments outlined above, all other terms and conditions remain unchanged from the original agreements approved by the Governor and Executive Council on June 18, 2014, (Item # 80).

Comprehensive Family Support Services assist pregnant women and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents and give families an opportunity to learn and grow.

This contract was awarded as the result of a competitive bid process. On January 21, 2014, the Division issued a Request for Proposal for Comprehensive Family Support Services to serve the eleven (11) catchment areas in the State of New Hampshire. Twelve proposals were received.

Child and Family Services of New Hampshire was awarded three (3) of the eleven (11) contracts selected in the competitive bid process.



Should the Governor and Executive Council not approve this request, the vendor would not be able to meet their contractual needs which could reduce the availability, accessibility, and quality of Comprehensive Family Support Services in the Manchester, Concord and Southern District Office areas.

Area Served: Manchester, Concord and Southern District Office areas

Source of Funds: 83.11% Federal Funds, 16.89% General Funds

In the event that Federal Funds become no longer available, no additional General Funds will not be requested to support this program.

Respectfully submitted,

Eric Borrin
Director

2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.

3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. 4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. EXPLANATION

Comprehensive Family Support Services assist pregnant women and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents and give families an opportunity to learn and grow.

The Division for Children, Youth and Families and Division of Public Health Services /Maternal Child Health Services blended three family health and support related programs, into one program. This Comprehensive Family Support Services represents such efforts.

New Hampshire DHHS Comprehensive Family Support Services:

In 2002, The Division for Children, Youth and Families, launched a family support partnership, entitled Comprehensive Family Support Services. Support and prevention-based services and programs were provided to thousands families and individuals throughout the state. Due to the success of these prevention-oriented programs, the Division for Children, Youth and Families has recognized the benefit of provider services to families as an effort to keep them from becoming involved in other systems of care.

Currently, there are 25 community-based family resource centers in operation across the State of New Hampshire, which provide a range of support services to families and children that focus on strengthening, supporting and building on the strengths and skills of individuals while also ensuring developmental screening for children six and under. These centers are often key local stakeholders in groups that assess and advocate for the needs of local families.

New Hampshire DHHS Home Visiting NH:

In 2001, the Division of Public Health Services Maternal and Child Health Section began Home Visiting New Hampshire, a statewide, family focused and child centered, preventive program that provides, health, education, support and linkages to community services to eligible, pregnant women and their families in their home until her child is twelve (12) months old. Contractors provide these services in nine (9) of the Division for Children, Youth and Families service areas. The goals of Home Visiting New Hampshire are to promote healthy pregnancy and birth outcomes, promote a safe and nurturing environment for children, and enhance families' life course and development.

Child and Family Health Support Services:

Child and Family Health Support Services have been available through local community health and home visiting agencies for approximately twenty years with funds that had previously supported the state's network of "well baby clinics". These services provide assistance with health care enrollment, referrals, case management, care coordination, education and counseling relative to the child and family and can be conducted by home, office visit or by telephone when appropriate. The goal of Child and Family Health Support Services is to promote the health and well-being of children from birth through age eighteen, with priority given to children birth through age ten.

This contract was competitively bid. On January 21, 2014 the Department issued a Request for Proposals to solicit proposals for the provision of Comprehensive Family Support Services to assist expectant women along with children and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. The request for proposals was available on the Department of Health and Human Services website from January 21, 2014 through March 10, 2014. There were 12 proposals submitted.

The proposals were evaluated by a team of Department of Health and Human Services employees with knowledge of the program requirements, the Division for Children, Youth and Families' Comprehensive Family Support Services program and the Division of Public Health Services, Maternal and Child Health Section. The team also included staff with significant business and management expertise.

The proposals were evaluated based on the criteria published in the Request for Proposals. Eleven of the twelve proposals were selected. The bid summary is attached.

The attached contract calls for the provision of these services for two years and reserves the Division's right to renew the agreement for up to four additional years, based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

Should Governor and Council not authorize this request, the flexibility of community–based family services may not be available to address the needs of children and families throughout the state which could cause an increase in the Division for Children, Youth and Families involvement for out-of-home placement, as these services help to prevent the separation of children from their families and afford them a safe, stable and supportive family environment.

Area Served: Statewide.

Source of Funds: 95.34% Federal Funds
4.66% General Funds

In the event that Federal Funds are no longer available, no additional General Funds will be requested to support this program.

Mary Ann Cooney

SPECIAL PROVISIONS

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.

2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.

3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.

4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.

5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.

6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party fundors for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party fundors, the Department may elect to:
   7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
   7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

It is recommended that the report be prepared in accordance with the provision of Office of Management and Budget Circular A-133, "Audits of States, Local Governments, and Non Profit Organizations" and the provisions of Standards for Audit of Governmental Organizations, Programs, Activities and Functions, issued by the US General Accounting Office (GAO standards) as they pertain to financial compliance audits.
   9.1. Audit and Review: During the term of this Contract and the period for retention hereunder, the Department, the United States Department of Health and Human Services, and any of their designated representatives shall have access to all reports and records maintained pursuant to the Contract for purposes of audit, examination, excerpts and transcripts.

Notwithstanding anything to the contrary contained herein the covenants and conditions contained in the Paragraph shall survive the termination of the Contract for any reason whatsoever.

11. **Reports:** Fiscal and Statistical: The Contractor agrees to submit the following reports at the following times if requested by the Department.
    11.1. Interim Financial Reports: Written interim financial reports containing a detailed description of all costs and non-allowable expenses incurred by the Contractor to the date of the report and containing such other information as shall be deemed satisfactory by the Department to justify the rate of payment hereunder. Such Financial Reports shall be submitted on the form designated by the Department or deemed satisfactory by the Department.
    11.2. Final Report: A final report shall be submitted within thirty (30) days after the end of the term of this Contract. The Final Report shall be in a form satisfactory to the Department and shall contain a summary statement of progress toward goals and objectives stated in the Proposal and other information required by the Department.

12. **Completion of Services:** Disallowance of Costs: Upon the purchase by the Department of the maximum number of units provided for in the Contract and upon payment of the price limitation hereunder, the Contract and all the obligations of the parties hereunder (except such obligations as, by the terms of the Contract are to be performed after the end of the term of this Contract and/or survive the termination of the Contract) shall terminate, provided however, that if, upon review of the Final Expenditure Report the Department shall disallow any expenses claimed by the Contractor as costs hereunder the Department shall retain the right, at its discretion, to deduct the amount of such expenses as are disallowed or to recover such sums from the Contractor.

13. **Credits:** All documents, notices, press releases, research reports and other materials prepared during or resulting from the performance of the services of the Contract shall include the following statement:
    13.1. The preparation of this (report, document etc.) was financed under a Contract with the State of New Hampshire, Department of Health and Human Services, with funds provided in part by the State of New Hampshire and/or such other funding sources as were available or required, e.g., the United States Department of Health and Human Services.

14. **Prior Approval and Copyright Ownership:** All materials (written, video, audio) produced or purchased under the contract shall have prior approval from DHHS before printing, production, distribution or use. The DHHS will retain copyright ownership for any and all original materials produced, including, but not limited to, brochures, resource directories, protocols or guidelines, posters, or reports. Contractor shall not reproduce any materials produced under the contract without prior written approval from DHHS.

15. **Operation of Facilities: Compliance with Laws and Regulations:** In the operation of any facilities for providing services, the Contractor shall comply with all laws, orders and regulations of federal, state, county and municipal authorities and with any direction of any Public Officer or officers pursuant to laws which shall impose an order or duty upon the contractor with respect to the operation of the facility or the provision of the services at such facility. If any governmental license or permit shall be required for the operation of the said facility or the performance of the said services, the Contractor will procure said license or permit, and will at all times comply with the terms and conditions of each such license or permit. In connection with the foregoing requirements, the Contractor hereby covenants and agrees that, during the term of this Contract the facilities shall comply with all rules, orders, regulations, and requirements of the State Office of the Fire Marshal and the local fire protection agency, and shall be in conformance with local building and zoning codes, by-laws and regulations.

16. **Subcontractors:** DHHS recognizes that the Contractor may choose to use subcontractors with greater expertise to perform certain health care services or functions for efficiency or convenience, but the Contractor shall retain the responsibility and accountability for the function(s). Prior to

subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

When the Contractor delegates a function to a subcontractor, the Contractor shall do the following:

16.1. Evaluate the prospective subcontractor's ability to perform the activities, before delegating the function

16.2. Have a written agreement with the subcontractor that specifies activities and reporting responsibilities and how sanctions/revocation will be managed if the subcontractor's performance is not adequate

16.3. Monitor the subcontractor's performance on an ongoing basis

16.4. Provide to DHHS an annual schedule identifying all subcontractors, delegated functions and responsibilities, and when the subcontractor's performance will be reviewed

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.

l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.

c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.

d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) I, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

Child and Family Services of New Hampshire

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Child and Family Services of New Hampshire, which comprise the consolidated statement of financial position as of December 31, 2016, and the related consolidated statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not

for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Child and Family Services of New Hampshire as of December 31, 2016, and the changes in net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

We have previously audited Child and Family Services of New Hampshire's 2015 financial statements, and we expressed an unmodified opinion on those audited financial statements in our report dated March 23, 2016. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2015 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The Consolidated Schedule of Operating Expenses is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 28, 2017 on our consideration of Child and Family Services of New Hampshire's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Child and Family Services of New Hampshire's internal control over financial reporting and compliance.

CHILD AND FAMILY SERVICES OF NEW HAMPSHIRE

Notes to Consolidated Financial Statements
For the Year Ended December 31, 2016

1. Description of Organization

Child and Family Services of New Hampshire (the Organization) is a nonprofit organization, founded in 1850, that currently aids more than 20,000 individuals, statewide, through an array of social services.

These services span the life cycle from prenatal to seniors, and can be grouped into four basic categories:

1. **Early Childhood – Family Support & Education Services**
   Over 4,500 parents received education and support to improve parenting, strengthen families, prevent child abuse and neglect, and ensure healthy development of children. Over 500 young children starting life at a disadvantage received critical services to ensure a good beginning and to optimize their chance for life-long success. Some of the programs focused on early childhood include:

   Early Support and Services – Early Support and Services provides family-centered support and therapies to infants and toddlers who have developmental disabilities, delays or are at risk of developmental delays. Services work to optimize babies' cognitive, physical, emotional and social development, and chance for success. Services are provided in the child's natural environment (home, day care, playground, etc.).

   Home Visiting Services – A number of different prevention programs are offered in the home during those critical early years of a child's life. A spectrum of services includes support to new mothers and those struggling to parent; services for children with chronic health conditions; prenatal services for babies being born at a disadvantage into low-income families; and programs to encourage positive early parent/child relationships and promote optimal early childhood development. Services are provided by nurses, social workers, developmental specialists, occupational therapists, health educators, and home visitors.

   Adoption – A licensed child-placing agency, the Organization has been forming families through adoption since 1914. The Organization's adoption professionals provide home studies and adoption services for families looking to adopt and provide counselling and support to birth-parents who are considering the adoption option.

2. **Children, Youth, and Family - Intervention and Treatment Programs**
The Organization contracts with the State of New Hampshire, the federal government, and insurance companies, to provide a continuum of services for children, adolescents and young adults. Programs are delivered in the home, schools, or community, and include mental health counseling and substance abuse treatment, as well as a complex system of family stabilization and preservation programs, child protection services, and services for at-risk youth. Some of the programs include:

   Foster care – The Organization works with the State of New Hampshire in placing children who have been rescued from dangerous home environments, into safe, stable, loving homes. The Organization recruits and supports foster families and works to facilitate permanency for each child.

   Home Based Services – The Organization has a number of programs provided in the family home that are designed to help families who are struggling through daily life - where children are at risk. Services work to thwart domestic violence, rebuild families, and to improve family functioning. The Organization empowers families with the skills and resources they need to provide for their children and become self-sufficient.

3. **Runaway and Homeless Youth Services**
The Organization is the sole provider of services for runaway and homeless youth in Manchester and the Seacoast. A full spectrum of services features outreach to at-risk youth that includes survival aid on the streets and basic needs fulfillment at the drop-in center, as well as crisis intervention, educational and vocational advocacy, housing, and case management. The Organization also provides behavioral health and substance use counseling where needed. The Organization works with school systems, police, and other agencies in addressing the needs of New Hampshire's homeless youth.

4. **Senior Care and Independent Living**
The Organization helps seniors and individuals with chronic illness or disability to live at home safely and with dignity, and to maintain quality of life. Under the title of Home Care, services are delivered by homemakers, companions, personal care service providers, and LNAs. The Organization's caregivers go to client homes to help with everything from cooking and cleaning to personal hygiene, medication reminders, mobility, travel to appointments, paying bills, help with daily tasks, and communication with family members.

Additionally, the Organization runs two unique programs:

Camp Spaulding – Since 1921, Camp Spaulding has helped campers from all types of backgrounds enjoy the benefits of a traditional, resident camp experience. In 2015, the Organization formed a partnership with the YMCA of Greater Nashua whereby the Organization will own the camp and the YMCA will handle daily operations and summer programming. This collaboration will combine a 96 year camp history, an exceptional facility, strong community support, and the expertise of two premier New Hampshire nonprofit organizations.

The New Hampshire Children's Lobby – Established in 1971, the New Hampshire Children's Lobby is the advocacy wing of Child and Family Services. The program's mission is to improve the lives of children and families through legislative, judicial, and public policy initiatives. This combination of advocacy and direct service practice uniquely positions the Organization to serve the best interest of New Hampshire children.

2. Significant Accounting Policies

The Organization prepares its consolidated financial statements in accordance with generally accepted accounting principles promulgated in the United States of America (GAAP) for nonprofit organizations. The significant accounting and reporting policies used by the Organization are described subsequently to enhance the usefulness and understandability of the consolidated financial statements.

Net Assets

The consolidated financial statements report net assets and changes in net assets in three classes that are based upon the existence or absence of restrictions on use that are placed by its donors, as follows:

Unrestricted Net Assets

Unrestricted net assets are resources available to support operations. The only limits on the use of unrestricted net assets are the broad limits resulting from the nature of the Organization, the environment in which it operates, the purposes specified in its organizing documents and its application for tax-exempt status, and any limits resulting from contractual agreements with creditors and others that are entered into in the course of its operations.

Temporarily Restricted Net Assets

Temporarily restricted net assets are resources that are restricted by donors for use for a particular purpose or in a particular future period. The Organization's unspent contributions are classified in this net asset class if

the donor limited their use, as are the unspent appreciation of its donor-restricted endowment funds.

When a donor's restriction is satisfied, either by using the resources in the manner specified by the donor or by the passage of time, the expiration of the restriction is reported in the consolidated financial statements by reclassifying the net assets from temporarily restricted to unrestricted net assets.

Permanently Restricted Net Assets

Permanently restricted net assets are resources whose use by the Organization is limited by donor-imposed restrictions that neither expire by being used in accordance with a donor's restriction nor by the passage of time. The portion of the Organization's donor-restricted funds that must be maintained in perpetuity is classified in this net asset class, as is the Organization's beneficial interest in perpetual charitable trusts. Unless restricted by the donor, income earned on permanently restricted net assets is expendable to support operations, subject to certain restrictions.

All revenues and net gains are reported as increases in unrestricted net assets in the Statement of Activities unless the use of the related resources is subject to temporary or permanent donor restrictions. All expenses and net losses, other than losses on endowment investments, are reported as decreases in unrestricted net assets. Net losses on endowment investments reduce temporarily restricted net assets to the extent that temporarily restricted net gains from prior years are unspent and classified there; remaining losses are classified as decreases in unrestricted net assets. If an endowment fund has no net gains from prior years, such as when a fund is newly established, net losses are classified as decreases in unrestricted net assets.

Principles of Consolidation

The consolidated financial statements of the Organization include the accounts of Child and Family Services of New Hampshire and Child and Family Realty Corporation, a commonly controlled organization. All inter-organization transactions have been eliminated.

Comparative Financial Information

The accompanying financial statements include certain prior-year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with Accounting Principles Generally Accepted in the United States of America (GAAP). Accordingly, such information should be read in conjunction with the audited financial statements for the year ended December 31, 2015, from which the summarized information was derived.

Cash Equivalents

Cash equivalents are short term, interest bearing, highly liquid investments with original maturities of three months or less, unless the investments are held for meeting donor restrictions. Temporarily restricted cash investments held within investment portfolios are excluded from cash equivalents.

Investments

The Organization maintains pooled investment accounts for its restricted endowments. Realized and unrealized gains and losses are allocated to the individual endowments based on the relationship of the market value of each endowment to the total market value of the pooled investment accounts, as adjusted for additions to or deductions from those accounts.

Accounts Receivable and Revenue

Accounts receivable is recognized when qualifying costs are incurred for cost reimbursement grants or contracts or when a unit of service is provided for performance grants. Grant revenue from federal agencies is subject to independent audit under the Office of Management and Budget's, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards,* and review by grantor agencies. The review could result in the disallowance of expenditures under the terms of the grants or reductions of future grant awards. Based on prior experience, the Organization's management believes that costs ultimately disallowed, if any, would not materially affect the financial position of the Organization.

Allowance for Doubtful Accounts

The adequacy of the allowance for doubtful accounts for receivables is reviewed on an ongoing basis by the Organization's management and adjusted as required through the provision for doubtful accounts (bad debt expense). In determining the amount required in the allowance account, management has taken into account a variety of factors.

Beneficial Interest

The Organization is the beneficiary of perpetual charitable trusts. The beneficial interest in the trust is reported at its fair value, which is estimated as the fair value of the underlying trust assets. Distributions of income from the trust assets are restricted to use and are reported as increases in temporarily restricted net assets until expended in accordance with restrictions. The value of the beneficial interest in the trust is adjusted annually for the change in its estimated fair value. Those changes in value are reported as increases in permanently restricted net assets because the trust assets will never be distributed to the Organization.

Property and Equipment

Property and equipment is reported at cost, if purchased, and at fair value at the date of donation, if donated. Any such donations are reported as unrestricted support unless the donor has restricted the donated asset for a specific purpose. Assets donated with explicit restrictions regarding their use, and contributions of cash that must be used to acquire property and equipment, are reported as restricted support. Absent donor stipulations regarding how long those donated assets must be maintained, the Organization reports expirations of donor restrictions over the useful life of the asset. The Organization reclassifies temporarily restricted net assets to unrestricted net assets at that time.

Property and equipment is capitalized if it has a cost of $1,000 or more and a useful life when acquired of more than one year. Repairs and maintenance that do not significantly increase the useful life of the asset are expensed as incurred. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, as follows:

Buildings and improvements	15 – 50 years
Furniture, fixtures, and equipment	5 – 10 years
Vehicles	5 years
Software	5 years

Property and equipment is reviewed for impairment when a significant change in the asset's use or another indicator of possible impairment is present. No impairment losses were recognized in the consolidated financial statements in the current period.

Interest-Rate Swap

An interest-rate swap is utilized to mitigate interest-rate risk on bonds payable (Note 9). The related liability is reported at fair value in the Statement of Financial Position, and unrealized gains or losses are included in the Statement of Activities.

Accounting for Contributions

Contributions, including unconditional promises to give, are recognized when received. All contributions are reported as increases in unrestricted net assets unless use of the contributed assets is specifically restricted by the donor. Amounts received that are restricted by the donor to use in future periods or for specific purposes are reported as increases in either temporarily restricted or permanently restricted net assets, consistent with the nature of the restriction. Unconditional promises with payments due in future years have an implied restriction to be used in the year the payment is due, and therefore

are reported as temporarily restricted until the payment is due unless the contribution is clearly intended to support activities of the current fiscal year or is received with permanent restrictions. Conditional promises, such as matching grants, are not recognized until they become unconditional, that is, until all conditions on which they depend are substantially met.

Gifts-in-Kind Contributions

The Organization periodically receives contributions in a form other than cash. Contributed property and equipment is recognized as an asset at its estimated fair value at the date of gift, provided that the value of the asset and its estimated useful life meets the Organization's capitalization policy. Donated use of facilities is reported as contributions and as expenses at the estimated fair value of similar space for rent under similar conditions. If the use of the space is promised unconditionally for a period greater than one year, the contribution is reported as a contribution and an unconditional promise to give at the date of gift, and the expense is reported over the term of use. Donated supplies are recorded as contributions at the date of gift and as expenses when the donated items are placed into service or distributed.

The Organization benefits from personal services provided by a substantial number of volunteers. Those volunteers have donated significant amounts of time and services to the Organization's program operations and in its fund-raising campaigns. However, the majority of the contributed services do not meet the criteria for recognition in the consolidated financial statements. Generally Accepted Accounting Principles allow recognition of contributed services only if (*a*) the services create or enhance nonfinancial assets or (*b*) the services would have been purchased if not provided by contribution, require specialized skills, and are provided by individuals possessing those skills.

Functional Allocation of Expenses

The cost of providing the Organization's programs and other activities is summarized on a functional basis in the Consolidated Statement of Activities and Consolidated Statement of Functional Expenses. Expenses that can be identified with a specific program or support service are charged directly to that program or support service. Costs common to multiple functions have been allocated among the various functions benefited.

Management and general expenses include those costs that are not directly identifiable with any specific program, but which provide for the overall support and direction of the Organization.

Fundraising costs are expensed as incurred, even though they may result in contributions received in future years.

Use of Estimates

The preparation of the consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of revenues and expenses during the reporting period and the reported amounts of assets and liabilities at the date of the consolidated financial statements. On an ongoing basis, the Organization's management evaluates the estimates and assumptions based upon historical experience and various other factors and circumstances. The Organization's management believes that the estimates and assumptions are reasonable in the circumstances; however, the actual results could differ from those estimates.

Tax Status

Child and Family Services of New Hampshire is exempt from federal income tax under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(3). The Organization has also been classified as an entity that is not a private foundation within the meaning of Section 509(a) and qualifies for deductible contributions.

Child and Family Realty Corporation is exempt from federal income tax under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(25).

The Organization follows FASB ASC 740-10, *Accounting for Uncertainty in Income Taxes*, which clarifies the accounting for uncertainty in income taxes and prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. FASB ASC 740-10 did not have a material impact on the Organization's consolidated financial statements.

The Organization's Federal Form 990 (Return of Organization Exempt From Income Tax) are subject to examination by the IRS, generally for three years after filing.

Financial Instruments and Credit Risk

Deposit concentration risk is managed by placing cash accounts with financial institutions believed to be creditworthy. At times, amounts on deposit may exceed insured limits. To date, no losses have been experienced in any of these accounts. Credit risk associated with accounts and contributions receivable is considered to be limited due to high historical collection rates. Investments are made by diversified investment managers whose performance is monitored by the Board of Trustees. Although the fair values of investments are subject to fluctuation on a year-to-year basis, the Investment Committee believes that the investment policies and guidelines are prudent for the long-term welfare of the Organization.

Fair Value Measurements

The Organization reports its fair value measures using a three-level hierarchy that prioritizes the inputs used to measure fair value. This hierarchy, established by Generally Accepted Accounting Principles, requires that entities maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of inputs used to measure fair value are as follows:

- *Level 1.* Quoted prices for identical assets or liabilities in active markets to which the Organization has access at the measurement date.

- *Level 2.* Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include:

  — quoted prices for similar assets or liabilities in active markets;

  — quoted prices for identical or similar assets in markets that are not active;

  — observable inputs other than quoted prices for the asset or liability (for example, interest rates and yield curves); and

  — inputs derived principally from, or corroborated by, observable market data by correlation or by other means.

- *Level 3.* Unobservable inputs for the asset or liability. Unobservable inputs should be used to measure the fair value to the extent that observable inputs are not available.

When available, the Organization measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. However, Level 1 inputs are not available for many of the assets and liabilities that the Organization is required to measure at fair value (for example, unconditional promises to give and in-kind contributions).

The primary uses of fair value measures in the Organization's consolidated financial statements are:

- Initial measurement of noncash gifts, including gifts of investment assets and unconditional promises to give.
- Recurring measurement of endowment investments (Note 5).
- Recurring measurement of beneficial interests in trusts (Note 6).
- Recurring measurement of line of credit (Note 8).

- Recurring measurement of bonds payable and interest rate swap (Note 9).
- Recurring measurement of deferred loans (Note 10).

3. Accounts Receivable

Accounts receivable consisted of the following at December 31:

	2016			2015		
	Receivable	Allowance	Net	Receivable	Allowance	Net
Grants receivable	$ 497,717	$ (4,700)	$ 493,017	$ 578,576	$ (5,855)	$ 572,721
Fees for service	110,398	-	110,398	89,423	-	89,423
	$ 608,115	$ (4,700)	$ 603,415	$ 667,999	$ (5,855)	$ 662,144

4. Prepaid Expenses

Prepaid expenses at year end relate primarily to prepaid insurance and contracts.

5. Investments

Investments at fair value consist of mutual funds totaling $15,900,471 and $15,530,019 at December 31, 2016 and 2015, respectively.

Under the terms of the Organization's line of credit agreement (Note 8), the Organization has agreed not to pledge these investments as security on any other debt.

For the years ended December 31, 2016 and 2015, expenses relating to investment revenues, including management fees, amounted to $66,376 and $66,675, respectively, and have been netted against investment revenues in the accompanying Statements of Activities.

The Organization's policy is to avail itself of a Board-approved percentage of investment income for operations with any remaining interest, dividends, or appreciation reinvested. The spending policy approved by the Board of Trustees is 5% of the average fair market value of all investments over the previous twelve quarters.

As discussed in Note 2 to these consolidated financial statements, the Organization is required to report its fair value measurements in one of three levels, which are based on the ability to observe in the marketplace the inputs to the Organization's valuation techniques. Level 1, the most observable level of inputs, is for investments measured at quoted prices in active markets for

identical investments as of the December 31, 2016. Level 2 is for investments measured using inputs such as quoted prices for similar assets, quoted prices for the identical asset in inactive markets, and for investments measured at net asset value that can be redeemed in the near term. Level 3 is for investments measured using inputs that are unobservable, and is used in situations for which there is little, if any, market activity for the investment.

The Organization uses the following ways to determine the fair value of its investments:

Mutual funds: Determined by the published value per unit at the end of the last trading day of the year, which is the basis for transactions at that date.

6. Beneficial Interest Held in Trust

The Organization is the sole beneficiary of three funds that are administered by the New Hampshire Charitable Foundation (NHCF). Income from the funds is to provide assistance to children attending Camp Spaulding and for capital improvements to the camp. The fund resolution provides that distributions from the funds can be made at the discretion of the NHCF Board of Directors.

At December 31, 2016 and 2015, the fair market value of the funds, which approximates the present value of future benefits expected to be received, was $797,544 and $779,238, respectively. The Organization received $32,369 and $31,674 from the funds in 2016 and 2015, respectively.

In addition, the Organization has a split-interest in three charitable remainder trusts. The assets are held in trust by banks as permanent trustees of the trusts. The fair value of these beneficial interests is determined by applying the Organization's percentage interest to the fair value of the trust assets as reported by the trustee.

Trust	Percentage Interest	2016	2015
Greenleaf	100%	$ 375,595	$ 377,884
Spaulding	100%	315,182	324,270
Cogswell	50%	247,658	254,706
Total		$ 938,435	$ 956,860

In 2016 and 2015, income distributed by these trusts was $42,064 and $41,829, respectively. Beneficial interest in funds held by others is reported at its fair value, which is estimated as the present value of expected future cash inflows on a recurring basis. As discussed in Note 2, the valuation technique used by the Organization is a Level 3 measure because there are no

observable market transactions. Changes in the fair value of assets measured at fair value on a recurring basis using significant unobservable inputs are comprised of the following:

Balance at December 31, 2014	$ 1,865,853
Change in value of beneficial interest	(129,755)
Balance at December 31, 2015	1,736,098
Change in value of beneficial interest	(119)
Balance at December 31, 2016	$ 1,735,979

7. Property, Equipment and Depreciation

A summary of the major components of property and equipment is presented below:

	2016	2015
Land and land improvements	$ 1,114,949	$ 1,114,949
Buildings and improvements	7,938,789	7,821,572
Furniture, fixtures and equipment	699,160	697,565
Vehicles	88,391	88,391

Subtotal	10,007,881	9,889,069
Less: accumulated depreciation	(3,686,230)	(3,363,994)
Total	$ 6,321,651	$ 6,525,075

8. Line of Credit

The Organization has a $1,500,000 revolving line of credit agreement with a bank. The line of credit expired on June 30, 2015, and was extended through June 30, 2017. The line carries a variable rate of interest at the Wall Street Journal prime rate (3.75% at December 31, 2016), adjusted at each change in the index. At December 31, 2016, the balance on this line of credit was $0.

9. Bonds Payable

During 2007, the New Hampshire Health and Education Facilities Authority (the "Authority") sold $5,540,000 of its Revenue Bonds, Child and Family Services Issue, Series 2007, and loaned the proceeds of the bonds to the Organization to refund its Series 1999 Series Bonds and to finance certain improvements to the Organization's facilities. The Series 2007 Bonds were issued with a variable interest rate determined on a weekly basis. Prior to issuing the Bonds, the Organization entered into an interest rate swap agreement (the "Swap Agreement") with Citizens Bank of NH (the "Counterparty")

for the life of the bond issue to hedge the interest rate risk associated with the Series 2007 Bonds. The interest rate swap agreement requires the Organization to pay the Counterparty a fixed rate of 3.915%; in exchange, the Counterparty will pay the Organization a variable rate on the notional amount based on the 67% of one month LIBOR. Counterparty payments to the Organization were intended to offset Organization payments of variable rate interest to bond holders. Counterparty credit worthiness and market variability can impact the variable rates received and paid by the Organization, with the potential of increasing Organization interest payments. As a result, the cost of the interest rate swap for 2016 and 2015 is added to interest expense in the Consolidated Statement of Functional Expenses. The bonds mature in 2038 and can be repaid at any time.

The Organization is required to include the fair value of the swap in the Consolidated Statement of Financial Position, and annual changes, if any, in the fair value of the swap in the Consolidated Statement of Activities. For example, during the bond's 30-year holding period, the annually calculated value of the swap will be reported as an asset if interest rates increase above those in effect on the date of the swap was entered into (and as an unrealized gain in the Consolidated Statement of Activities), which will generally be indicative that the net fixed rate the Organization is paying on the swap is below market expectations of rates during the remaining term of the swap. The swap will be reported as a liability (and as an unrealized loss in the Consolidated Statement of Activities) if interest rates decrease below those in effect on the date the swap was entered into, which will generally be indicative that the net fixed rate the Organization is paying on the swap is above market expectations of rates during the remaining term of the swap. The annual accounting adjustments of value changes in the swap transaction are non-cash recognition requirements, the net effect of which will be zero at the end of the bond's 30-year term. At December 31, 2016 and 2015, the Organization recorded the swap liability position of $1,168,384 and $1,306,823, respectively. During 2009, there occurred a downgrading of the credit rating of the Counterparty to the letter of credit reimbursement agreement, which triggered a mandatory tender of the Series 2007 Bonds in whole and a temporary conversion of one-hundred percent of the principal amount to a bank purchase mode under the terms of said letter of credit reimbursement agreement. Since it became evident that the credit markets would not soon return to normalcy, the Organization elected to convert the Series 2007 Bonds from a weekly rate mode to a bank purchase mode. This new bank purchase mode created a rate period in which the Series 2007 Bonds bear interest at the tax adjusted bank purchase rate of 68% of the sum of the adjusted period LIBOR (30 day) rate and 325 basis points. The bank purchase mode commenced on July 31, 2009 and expired on July 31, 2014; however, the expiration date was extended by the Counterparty and the Organization had the option to convert back to the weekly rate mode. The Series 2007 Bond documents require the Organization to comply with certain financial covenants. As of December 31, 2016, the Organization was in compliance with these covenants.

The following is a summary of future payments on the previously mentioned bonds payable:

Year	Amount
2017	$ 135,000
2018	140,000
2019	140,000
2020	150,000
2021	160,000
Thereafter	3,755,005

Note payable to the New Hampshire Housing and Finance Authority dated May 22, 2007. The face amount of the note is $700,000, does not require the payment of interest, and is due in 30 years. The note is secured by real estate located in Manchester, New Hampshire.

11. Endowment Funds

The Organization's endowment consists of various individual funds established for a variety of purposes. Its endowment includes both donor-restricted funds and funds designated by the Board of Trustees to function as endowments. As required by Generally Accepted Accounting Principles, net assets associated with endowment funds, including funds designated by the Board of Trustees to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Board-designated Investments

As of December 31, 2016, the Board of Trustees had designated $14,027,737 of unrestricted net assets as a general endowment fund to support the mission of the Organization. Since that amount resulted from an internal designation and is not donor-restricted, it is classified and reported as unrestricted net assets.

Donor-designated Endowments

The Board of Trustees of the Organization has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds, absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Organization in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Organization considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the various funds, (2) the purposes of the donor-restricted endowment funds, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, (6) other resources of the Organization, and (7) the Organization's investment policies.

Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or UPMIFA requires the Organization to retain as a fund of perpetual duration. In accordance with Generally Accepted Accounting Principles, deficiencies of this nature are required to be restored from either temporarily restricted or unrestricted net assets, depending on donor stipulations. These deficiencies result from unfavorable market fluctuations that occur causing the original donor restricted contribution, plus accumulated investment earnings that, in accordance with donor stipulations, are required to be added to the original contribution, to fall below the accumulated balances. Donor stipulations for permanently restricted-income restricted funds require the reclassification of realized and unrealized earnings to temporarily restricted net assets. Based on donor stipulations, there are no temporarily or permanently restricted funds in deficit.

Investment Policy

The Organization has adopted an investment and spending policy to ensure a total return (income plus capital change) necessary to preserve and enhance the principal of the fund and, at the same time, provide a dependable source of support for current operations and programs. The withdrawal from the fund

in support of current operations is expected to remain a constant percentage of the total fund, adjusted for new gifts to the fund.

In recognition of the prudence required of fiduciaries, reasonable diversification is sought where possible. Experience has shown financial markets and inflation rates are cyclical and, therefore, control of volatility will be achieved through investment styles. Asset allocation parameters have been developed for various funds within the structure, based on investment objectives, liquidity needs, and time horizon for intended use.

Measurement of investment performance against policy objectives will be computed on a total return basis, net of management fees and transaction costs. Total return is defined as dividend or interest income plus realized and unrealized capital appreciation or depreciation at fair market value.

Spending Policy

The Organization's spending policy is 5% of the average total endowment value over the trailing 12 quarters with a 1% contingency margin. This includes interest and dividends paid out to the Organization.

The net asset composition of endowment investments as of December 31, 2016 is as follows:

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total Net Endowment Assets
Donor-restricted endowment funds	$ -	$ 475,050	$ 1,397,684	$ 1,872,734

Changes in endowment net assets as of December 31, 2016 are as follows:

Total	$ 1,998,996	$ 2,211,441

13. Net Assets Released from Restriction

Net assets are released from restrictions by incurring expenses satisfying the restricted purpose, or by the passage of time.

14. Defined Contribution Plan

The Organization maintains a 403(b) Thrift Plan (the Plan). The Plan is a defined contribution plan that all eligible employees may immediately make elective participant contributions to upon hire. A pretax voluntary contribution is permitted by employees up to limits imposed by the Internal Revenue Code and other limitations specified in the Plan. There were no contributions made to the plan by the Organization for the years ended December 31, 2016 and 2015, respectively.

15. Operating Leases

The Organization leases office space under the terms of non-cancellable lease agreements that are scheduled to expire at various times through 2018. The Organization also rents additional facilities on a month to month basis. Rent expense under these agreements totaled $129,338 and $150,685 for the years ended December 31, 2016 and 2015, respectively.

16. Concentrations of Risk

The majority of the Organization's grants are received from agencies of the State of New Hampshire. As such, the Organization's ability to generate resources via grants is dependent upon the economic health of that area and of the State of New Hampshire. An economic downturn could cause a decrease in grants that coincides with an increase in demand for the Organization's services.

The Organization invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the Consolidated Statement of Financial Position.

17. Subsequent Events

Subsequent events have been evaluated through March 28, 2017, which is the date the consolidated financial statements were available to be issued. Events occurring after that date have not been evaluated to determine whether a change in the consolidated financial statements would be required.

EXPLANATION

The purpose of this request is to renew contract services with these vendors for an additional two years. For a detailed summary of the changes please see attachment.

Comprehensive Family Support Services assist pregnant women and families with children up to the age of twenty-one (21) by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents to give families an opportunity to learn and grow.

The Division for Children, Youth and Families and the Division of Public Health Services have blended three family health and support related programs in to one program which is now represented as the Comprehensive Family Support Services.

Currently, there are twenty-five (25) community based family resource centers in operation across the State which provide a range of support services to families and children that focus on strengthening, supporting and building on the strengths and skills of individuals while also ensuring developmental screening for children six (6) and under. These centers are often key local stakeholders in groups that assess and advocate for the needs of local families.

The original contracts were competitively bid.

These contracts contain language which allows for the right to renew for up to four additional years based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

The Comprehensive Family Support Services program has served a total of 871 families and 1664 children in 2014. As a result, ninety-five percent (95%) of the families served achieved successful outcomes and remained uninvolved in a Division abuse or neglect case. The Division is satisfied with the services provided and is requesting approval to exercise two years of the renewal option reserving the Division's option to renew for the remaining two years based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

Should the Governor and Executive Council not authorize this request, the flexibility of community based family services may not be available to address the needs of children and families throughout the state which could cause an increase in the Division for Children, Youth and Families involvement for out of home placements. The services provided through these agreements help prevent separation of children from their families and afford them a safe, stable and supportive family environment.

Area Served: Statewide

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Independent Auditors' Report

To the Board of Trustees
Child and Family Services of New Hampshire

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Child and Family Services of New Hampshire, which comprise the consolidated statement of financial position as of December 31, 2014, and the related consolidated statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not

for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Child and Family Services of New Hampshire as of December 31, 2014, and the changes in net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

The prior year summarized comparative information has been derived from the consolidated financial statements of Child and Family Services of New Hampshire for the year ended December 31, 2013, which were audited by another auditor who expressed an unmodified opinion on those statements in their report dated March 19, 2014.

Other Matters

Emphasis of Matter

As discussed above, the financial statements Child and Family Services of New Hampshire as of December 31, 2013, and for the year then ended were audited by other auditors. As described in Note 17, these financial statements have been restated. We audited the adjustments described in Note 17 that were applied to restate the 2013 financial statements. In our opinion, such adjustments are appropriate and have been properly applied. However, we were not engaged to audit, review, or apply any procedures to the 2013 financial statements of the Organization other than with respect to such adjustments and, accordingly we do not express an opinion or any other form of assurance on the 2013 financial statements taken as a whole.

Other Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The Consolidated Schedule of Operating Expenses

is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 31, 2015 on our consideration of Child and Family Services of New Hampshire's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Child and Family Services of New Hampshire's internal control over financial reporting and compliance.

Child and Family Services of New Hampshire

Notes to Consolidated Financial Statements

For the Year Ended December 31, 2014

1. Description of Organization

Child and Family Services of New Hampshire (the Organization) is a nonprofit organization, founded in 1850, that currently aids more than 20,000 individuals, statewide, through an array of social services.

These services span the life cycle from prenatal to seniors, and can be grouped into four basic categories:

1. **Early Childhood – Family Support & Education Services**
   Over 4,500 parents received education and support to improve parenting, strengthen families, prevent child abuse and neglect, and ensure healthy development of children. Over 573 young children starting life at a disadvantage, received critical services to ensure a good beginning and to optimize their chance for life-long success. Some of the programs focused on early childhood include:

   Early Support and Services – Early Support and Services provides family-centered support and therapies to infants and toddlers who have developmental disabilities, delays or are at risk of developmental delays. Services work to optimize baby's cognitive, physical, emotional and social development, and chance for success. Services are provided in the child's natural environment (home, daycare, playground, etc.).

   Home Visiting Services – A number of different prevention programs are offered in the home during those critical early years of a child's life. A spectrum of services includes support to new mothers and those struggling to parent; services for children with chronic health conditions; prenatal services for babies being born at a disadvantage into low-income families; and programs to encourage positive early parent/child relationships and promote optimal early childhood development. Services are provided by nurses, social workers, developmental specialists, occupational therapists, health educators, and home visitors.

   Adoption – A licensed child-placing agency, the organization has been forming families through adoption since 1914. The Organization's adoption professionals provide home studies and adoption services for families looking to adopt and provide counselling and support to birth-parents who are considering the adoption option.

2. **Children, Youth, and Family - Intervention and Treatment Programs**
The Organization contracts with the State of New Hampshire, the federal government, and insurance companies, to provide a continuum of services for children, adolescents and young adults. Programs are delivered in the home, schools, or community, and include mental health counseling and substance abuse treatment, as well as a complex system of family stabilization and preservation programs, child protection services, and services for at-risk youth. Some of the programs include:

   Foster care – The Organization works with the State of New Hampshire in placing children who've been rescued from dangerous home environments, into safe, stable, loving homes. The Organization recruits and supports foster families and works to facilitate permanency for each child.

   Home Based Services – The Organization has a number of programs provided in the family home that are designed to help families who are struggling through daily life - where children are at risk. Services work to thwart domestic violence, rebuild families, and to improve family functioning. The Organization empowers families with the skills and resources they need to provide for their children and become self-sufficient.

3. **Runaway and Homeless Youth Services**
The Organization is the sole provider of services for runaway and homeless youth in Manchester and the Seacoast. A full spectrum of services features outreach to at-risk youth that includes survival aid on the streets and basic needs fulfillment at the drop-in center, as well as crisis intervention, educational and vocational advocacy, housing, and case management. The Organization also provides behavioral health and substance use counseling where needed. The Organization works with school systems, police, and other agencies in addressing the needs of New Hampshire's homeless youth.

4. **Senior Care and Independent Living**
The Organization helps seniors and individuals with chronic illness or disability, to live at home safely and with dignity, and to maintain quality of life. Under the title of Home Care, services are delivered by homemakers, companions, personal care service providers, and LNAs. The Organization's caregivers go to client homes to help with everything from cooking and cleaning, to personal hygiene, medication reminders, mobility, travel to appointments, paying bills, help with daily tasks, and communication with family members.

Additionally, the Organization runs two unique programs:

Camp Spaulding – Since 1921, Camp Spaulding has helped campers from all types of backgrounds enjoy the benefits of a traditional, resident

camp experience. In 2015, the Organization formed a partnership with the YMCA of Greater Nashua whereby the Organization will own the camp and the YMCA will handle daily operations and summer programming. This collaboration will combine a 94 year camp history, and exceptional facility, strong community support, and the expertise of two premier New Hampshire nonprofit organizations.

The New Hampshire Children's Lobby – Established in 1971, the New Hampshire Children's Lobby is the advocacy wing of Child and Family Services. The program's mission is to improve the lives of children and families through legislative, judicial, and public policy initiatives. This combination of advocacy and direct service practice, uniquely positions the Organization to serve the best interest of New Hampshire children.

2. Significant Accounting Policies

The Organization prepares its consolidated financial statements in accordance with generally accepted accounting principles promulgated in the United States of America (GAAP) for nonprofit organizations. The significant accounting and reporting policies used by the Organization are described subsequently to enhance the usefulness and understandability of the consolidated financial statements.

Net Assets

The consolidated financial statements report net assets and changes in net assets in three classes that are based upon the existence or absence of restrictions on use that are placed by its donors, as follows:

Unrestricted Net Assets

Unrestricted net assets are resources available to support operations. The only limits on the use of unrestricted net assets are the broad limits resulting from the nature of the Organization, the environment in which it operates, the purposes specified in its organizing documents and its application for tax-exempt status, and any limits resulting from contractual agreements with creditors and others that are entered into in the course of its operations.

Temporarily Restricted Net Assets

Temporarily restricted net assets are resources that are restricted by donors for use for a particular purpose or in a particular future period. The Organization's unspent contributions are classified in this net asset class if the donor limited their use, as are the unspent appreciation of its donor-restricted endowment funds.

When a donor's restriction is satisfied, either by using the resources in the manner specified by the donor or by the passage of time, the expiration of the restriction is reported in the consolidated financial statements by reclassifying the net assets from temporarily restricted to unrestricted net assets.

Permanently Restricted Net Assets

Permanently restricted net assets are resources whose use by the Organization is limited by donor-imposed restrictions that neither expire by being used in accordance with a donor's restriction nor by the passage of time. The portion of the Organization's donor-restricted funds that must be maintained in perpetuity are classified in this net asset class, as is the Organization's beneficial interest in perpetual charitable trusts. Unless restricted by the donor, income earned on permanently restricted net assets is expendable to support operations, subject to certain restrictions.

All revenues and net gains are reported as increases in unrestricted net assets in the Statement of Activities unless the use of the related resources is subject to temporary or permanent donor restrictions. All expenses and net losses other than losses on endowment investments are reported as decreases in unrestricted net assets. Net losses on endowment investments reduce temporarily restricted net assets to the extent that temporarily restricted net gains from prior years are unspent and classified there; remaining losses are classified as decreases in unrestricted net assets. If an endowment fund has no net gains from prior years, such as when a fund is newly established, net losses are classified as decreases in unrestricted net assets.

Principles of Consolidation

The consolidated financial statements of the Organization include the accounts of Child and Family Services of New Hampshire and Child and Family Realty Corporation, a commonly controlled organization. All inter-organization transactions have been eliminated.

Cash Equivalents

Cash equivalents are short term, interest bearing, highly liquid investments with original maturities of three months or less, unless the investments are held for meeting donor restrictions. Temporarily restricted cash investments held within investment portfolios are excluded from cash equivalents.

Investments

The Organization maintains pooled investment accounts for its restricted endowments. Realized and unrealized gains and losses are allocated to the individual endowments based on the relationship of the market value of each endowment to the total market value of the pooled investment accounts, as adjusted for additions to or deductions from those accounts.

Accounts Receivable and Revenue

Accounts receivable is recognized when qualifying costs are incurred for cost reimbursement grants or contracts or when a unit of service is provided for performance grants. Grant revenue from federal agencies is subject to independent audit under the Office of Management and Budget Circular A-133 and review by grantor agencies. The review could result in the disallowance of expenditures under the terms of the grants or reductions of future grant awards. Based on prior experience, the Organization's management believes that costs ultimately disallowed, if any, would not materially affect the financial position of the Organization.

Allowance for Doubtful Accounts

The adequacy of the allowance for doubtful accounts for receivables is reviewed on an ongoing basis by the Organization's management and adjusted as required through the provision for doubtful accounts (bad debt expense). In determining the amount required in the allowance account for the year ended December 31, 2014, management has taken into account a variety of factors.

Beneficial Interest

The Organization is the beneficiary of perpetual charitable trusts. The beneficial interest in the trust is reported at its fair value, which is estimated as the fair value of the underlying trust assets. Distributions of income from the trust assets are restricted to use and are reported as increases in temporarily restricted net assets until expended in accordance with restrictions. The value of the beneficial interest in the trust is adjusted annually for the change in its estimated fair value. Those changes in value are reported as increases in permanently restricted net assets because the trust assets will never be distributed to the Organization.

Property and Equipment

Property and equipment is reported at cost, if purchased, and at fair value at the date of donation, if donated. Any such donations are reported as unrestricted support unless the donor has restricted the donated asset for a specific purpose. Assets donated with explicit restrictions regarding their use, and contributions of cash that must be used to acquire property and equipment, are reported as restricted support. Absent donor stipulations regarding how long those donated assets must be maintained, the Organization reports expirations of donor restrictions over the useful life of the asset. The Organization reclassifies temporarily restricted net assets to unrestricted net assets at that time.

Property and equipment is capitalized if it has a cost of $1,000 or more and a useful life when acquired of more than one year. Repairs and maintenance

that do not significantly increase the useful life of the asset are expensed as incurred. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, as follows:

Buildings and improvements	15 – 50 years
Furniture, fixtures, and equipment	5 – 10 years
Vehicles	5 years
Software	5 years

Property and equipment is reviewed for impairment when a significant change in the asset's use or another indicator of possible impairment is present. No impairment losses were recognized in the consolidated financial statements in the current period.

Accounting for Contributions

Contributions, including unconditional promises to give, are recognized when received. All contributions are reported as increases in unrestricted net assets unless use of the contributed assets is specifically restricted by the donor. Amounts received that are restricted by the donor to use in future periods or for specific purposes are reported as increases in either temporarily restricted or permanently restricted net assets, consistent with the nature of the restriction. Unconditional promises with payments due in future years have an implied restriction to be used in the year the payment is due, and therefore are reported as temporarily restricted until the payment is due unless the contribution is clearly intended to support activities of the current fiscal year or is received with permanent restrictions. Conditional promises, such as matching grants, are not recognized until they become unconditional, that is, until all conditions on which they depend are substantially met.

Gifts-In-Kind Contributions

The Organization periodically receives contributions in a form other than cash. Contributed property and equipment is recognized as an asset at its estimated fair value at the date of gift, provided that the value of the asset and its estimated useful life meets the Organization's capitalization policy. Donated use of facilities is reported as contributions and as expenses at the estimated fair value of similar space for rent under similar conditions. If the use of the space is promised unconditionally for a period greater than one year, the contribution is reported as a contribution and an unconditional promise to give at the date of gift, and the expense is reported over the term of use. Donated supplies are recorded as contributions at the date of gift and as expenses when the donated items are placed into service or distributed.

The Organization benefits from personal services provided by a substantial number of volunteers. Those volunteers have donated significant amounts of

time and services to the Organization's program operations and in its fund-raising campaigns. However, the majority of the contributed services do not meet the criteria for recognition in the consolidated financial statements. Generally Accepted Accounting Principles allow recognition of contributed services only if (*a*) the services create or enhance nonfinancial assets or (*b*) the services would have been purchased if not provided by contribution, require specialized skills, and are provided by individuals possessing those skills.

Expense Recognition and Allocation

The cost of providing the Organization's programs and other activities is summarized on a functional basis in the Consolidated Statement of Activities and Consolidated Statement of Functional Expenses. Expenses that can be identified with a specific program or support service are charged directly to that program or support service. Costs common to multiple functions have been allocated among the various functions benefited.

Management and general expenses include those costs that are not directly identifiable with any specific program, but which provide for the overall support and direction of the Organization.

Fundraising costs are expensed as incurred, even though they may result in contributions received in future years.

Use of Estimates

The preparation of the consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of revenues and expenses during the reporting period and the reported amounts of assets and liabilities at the date of the consolidated financial statements. On an ongoing basis, the Organization's management evaluates the estimates and assumptions based upon historical experience and various other factors and circumstances. The Organization's management believes that the estimates and assumptions are reasonable in the circumstances; however, the actual results could differ from those estimates.

Tax Status

Child and Family Services of New Hampshire is exempt from federal income tax under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(3). The Organization has also been classified as an entity that is not a private foundation within the meaning of Section 509(a) and qualifies for deductible contributions.

Child and Family Realty Corporation is exempt from federal income tax under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(25).

The Organization follows FASB ASC 740-10, *Accounting for Uncertainty in Income Taxes*, which clarifies the accounting for uncertainty in income taxes and prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. FASB ASC 740-10 did not have a material impact on the Organization's consolidated financial statements.

The Organization's Federal Form 990 (Return of Organization Exempt From Income Tax) are subject to examination by the IRS, generally for three years after filing.

Reclassifications

Certain accounts in the prior-year consolidated financial statements have been reclassified for comparative purposes to conform to the presentation in the current-year consolidated financial statements.

Fair Value Measurements

The Organization reports its fair value measures using a three-level hierarchy that prioritizes the inputs used to measure fair value. This hierarchy, established by Generally Accepted Accounting Principles, requires that entities maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of inputs used to measure fair value are as follows:

- *Level 1.* Quoted prices for identical assets or liabilities in active markets to which the Organization has access at the measurement date.

- *Level 2.* Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include:

    — quoted prices for similar assets or liabilities in active markets;

    — quoted prices for identical or similar assets in markets that are not active;

    — observable inputs other than quoted prices for the asset or liability (for example, interest rates and yield curves); and

    — inputs derived principally from, or corroborated by, observable market data by correlation or by other means.

- *Level 3.* Unobservable inputs for the asset or liability. Unobservable inputs should be used to measure the fair value to the extent that observable inputs are not available.

When available, the Organization measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. However, Level 1 inputs are not available for many of the assets and liabilities that the Organization is required to measure at fair value (for example, unconditional promises to give and in-kind contributions).

The primary uses of fair value measures in the Organization's consolidated financial statements are:

- initial measurement of noncash gifts, including gifts of investment assets and unconditional promises to give.
- recurring measurement of endowment investments (Note 4).
- recurring measurement of beneficial interests in trusts (Note 6).

3. Concentration of Credit Risk - Cash and Cash Equivalents

The carrying amount of the Organization's deposits with financial institutions was $890,520 at December 31, 2014. The difference between the carrying amount and the bank balance represents reconciling items such as deposits in transit and outstanding checks, which have not been processed by the bank at December 31, 2014. The bank balance is categorized as follows:

Insured by FDIC	$ 327,796
Uninsured and uncollateralized	564,264
Total Bank Balance	$ 892,060

4. Investments

Investments at fair value consist of the following at December 31, 2014:

Mutual funds	$ 16,578,298
U.S Treasury obligations	332,694
Total	$ 16,910,992

Under the terms of the Organization's line of credit agreement (Note 8), the Organization has agreed not to pledge these investments as security on any other debt.

For the years ended December 31, 2014 and 2013, expenses relating to investment revenues, including management fees, amounted to $91,915 and $86,474, respectively, and have been netted against investment revenues in the accompanying statements of activities.

The Organization's policy is to avail itself of a Board-approved percentage of investment income for operations with any remaining interest, dividends, or appreciation reinvested. The spending policy approved by the Board of Trustees is 5% of the average fair market value of all investments over the previous twelve quarters.

As discussed in Note 2 to these consolidated financial statements, the Organization is required to report its fair value measurements in one of three levels, which are based on the ability to observe in the marketplace the inputs to the Organization's valuation techniques. Level 1, the most observable level of inputs, is for investments measured at quoted prices in active markets for identical investments as of the December 31, 2014. Level 2 is for investments measured using inputs such as quoted prices for similar assets, quoted prices for the identical asset in inactive markets, and for investments measured at net asset value that can be redeemed in the near term. Level 3 is for investments measured using inputs that are unobservable, and is used in situations for which there is little, if any, market activity for the investment.

The Organization uses the following ways to determine the fair value of its investments:

Mutual funds: Determined by the published value per unit at the end of the last trading day of the year, which is the basis for transactions at that date.

U.S. Treasury Obligations: Determined by the closing bid price on the last business day of the fiscal year if actively traded.

5. Accounts Receivable

Receivables consisted of the following at December 31:

	2014			2013		
	Receivable	Allowance	Net	Receivable	Allowance	Net
Grants receivable	$ 539,091	$ (4,727)	$ 534,364	$ 639,140	$ (6,805)	$ 632,335
Fees for service	107,813	(1,428)	106,385	193,747	-	193,747
Travel advances	150	-	150	-	-	-
	$ 647,054	$ (6,155)	$ 640,899	$ 832,887	$ (6,805)	$ 826,082

6. Beneficial Interest Held in Trust

The Organization is the sole beneficiary of three funds that are administered by the New Hampshire Charitable Foundation (NHCF). One of the funds was established in 2005. Income from the funds is to provide assistance to children attending Camp Spaulding and for capital improvements to the camp. The fund resolution provides that distributions from the funds can be made at the

discretion of the NHCF Board of Directors. The Organization has received distributions from the funds over the last two years.

At December 31, 2014 and 2013, the fair market value of the funds, which approximates the present value of future benefits expected to be received, was $833,116 and $823,141, respectively. The Organization received $24,247 and $28,983 from the funds in 2014 and 2013, respectively.

In addition, the Organization has a split-interest in three charitable remainder trusts. The assets are held in trust by banks as permanent trustees of the trusts. The fair value of these beneficial interests is determined by applying the Organization's percentage interest to the fair value of the trust assets as reported by the trustee.

Trust	Percentage Interest	2014	2013
Greenleaf	100%	$ 405,687	$ 412,530
Spaulding	100%	351,865	358,793
Cogswell	50%	275,185	278,411
Total		$ 1,032,737	$ 1,049,734

In 2014 and 2013, income distributed by these trusts was $18,881 and $39,498, respectively. Beneficial interest in funds held by others is reported at its fair value, which is estimated as the present value of expected future cash inflows on a recurring basis. As discussed in Note 2, the valuation technique used by the Organization is a Level 3 measure because there are no observable market transactions. Changes in the fair value of assets measured at fair value on a recurring basis using significant unobservable inputs are comprised of the following:

Balance at December 31, 2012	$ 1,736,855
Change in value of beneficial interest	136,020
Balance at December 31, 2013	1,872,875
Change in value of beneficial interest	(7,022)
Balance at December 31, 2014	$ 1,865,853

7. Property, Equipment and Depreciation

A summary of the major components of property and equipment is presented below:

	2014	2013
Land and land improvements	$ 1,114,949	$ 1,144,949

Less: accumulated depreciation	(3,080,114)	(4,960,478)
Total	$ 6,374,837	$ 7,048,577

8. Line of Credit

The Organization has a $1,500,000 revolving line of credit agreement with a bank. The line of credit expired on June 30, 2014, and was extended through June 30, 2015. The line carries a variable rate of interest at the Wall Street Journal prime rate (3.25% at December 31, 2014), adjusted at each change in the index. At December 31, 2014 the balance on this line of credit was $0.

9. Bonds Payable

During 2007, the New Hampshire Health and Education Facilities Authority (the "Authority") sold $5,540,000 of its Revenue Bonds, Child and Family Services Issue, Series 2007, and loaned the proceeds of the bonds to the Organization to refund its Series 1999 Series Bonds and to finance certain improvements to the Organization's facilities. The Series 2007 Bonds were issued with a variable interest rate determined on a weekly basis. Prior to issuing the Bonds, the Organization entered into an interest rate swap agreement (the "Swap Agreement") with Citizens Bank of NH (the "Counter-party") for the life of the bond issue to hedge the interest rate risk associated with the Series 2007 Bonds. The interest rate swap agreement requires the Organization to pay the Counterparty a fixed rate of 3.915%; in exchange, the Counterparty will pay the Organization a variable rate on the notional amount based on the 67% of one month LIBOR. Counterparty payments to the Organization were intended to offset Organization payments of variable rate interest to bond holders. Counterparty credit worthiness and market variability can impact the variable rates received and paid by the Organization, with the potential of increasing Organization interest payments. As a result, the cost of the interest rate swap for 2014 and 2013 is added to interest expense in the statement of functional expense. The bonds mature in 2038 and can be repaid at any time.

The Organization is required to include the fair value of the swap in the Consolidated Statement of Financial Position, and annual changes, if any, in the fair value of the swap in the Consolidated Statement of Activities. For example, during the bond's 30-year holding period, the annually calculated value of the swap will be reported as an asset if interest rates increase above those in effect on the date of the swap was entered into (and as an unrealized gain in the Consolidated Statement of Activities), which will generally be indicative that the net fixed rate the Organization is paying on the swap is below market expectations of rates during the remaining term of the swap. The swap will be reported as a liability (and as an unrealized loss in the Consolidated Statement of Activities) if interest rates decrease below those in effect on the date the swap was entered into, which will generally be indicative that the net fixed rate the Organization is paying on the swap is above market expectations of rates during the remaining term of the swap. The annual accounting adjustments of value changes in the swap transaction are non-cash recognition requirements, the net effect of which will be zero at the end of the bond's 30-year term. At December 31, 2014 and 2013, the Organization recorded the swap liability position of approximately $1,326,080 and $937,081, respectively. During 2009, there occurred a downgrading of the credit rating of the Counterparty to the letter of credit reimbursement agreement, which triggered a mandatory tender of the Series 2007 Bonds in whole and a temporary conversion of one-hundred percent of the principal amount to a bank purchase mode under the terms of said letter of credit reimbursement agreement. Since it became evident that the credit markets would not soon return to normalcy, the Organization elected to convert the Series 2007 Bonds from a weekly rate mode to a bank purchase mode. This new bank purchase mode created a rate period in which the Series 2007 Bonds bear interest at the tax adjusted bank purchase rate of 68% of the sum of the adjusted period LIBOR (30 day) rate and 325 basis points. The bank purchase mode commenced on July 31, 2009 and expired on July 31, 2014; however, the expiration date was extended by the Counterparty and the Organization had the option to convert back to the weekly rate mode. The Series 2007 Bond documents require the Organization to comply with certain financial covenants. As of December 31, 2014, the Organization was in compliance with these covenants.

The following is a summary of future payments on the previously mentioned bonds payable:

Year	Amount
2015	$ 120,000
2016	125,000

Note payable to the New Hampshire Housing and Finance Authority dated May 22, 2007. The face amount of the note is $700,000, does not require the payment of interest, and is due in 30 years. The note is secured by real estate located in Manchester, New Hampshire.

11. Endowment Funds:

The Organization's endowment consists of various individual funds established for a variety of purposes. Its endowment includes both donor-restricted funds and funds designated by the Board of Trustees to function as endowments. As required by Generally Accepted Accounting Principles, net assets associated with endowment funds, including funds designated by the Board of Trustees to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Board-designated Investments

As of December 31, 2014, the Board of Trustees had designated $14,963,027 of unrestricted net assets as a general endowment fund to support the mission of the Organization. Since that amount resulted from an internal designation and is not donor-restricted, it is classified and reported as unrestricted net assets.

Donor-designated Endowments

The Board of Trustees of the Organization has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Organization in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Organization considers the following factors in

making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the various funds, (2) the purposes of the donor-restricted endowment funds, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, (6) other resources of the Organization, and (7) the Organization's investment policies.

Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or UPMIFA requires the Organization to retain as a fund of perpetual duration. In accordance with generally accepted accounting principles, deficiencies of this nature are required to be restored from either temporarily restricted or unrestricted net assets, depending on donor stipulations. These deficiencies result from unfavorable market fluctuations that occur causing the original donor restricted contribution, plus accumulated investment earnings that, in accordance with donor stipulations, are required to be added to the original contribution, to fall below the accumulated balances. Donor stipulations for permanently restricted-income restricted funds require the reclassification of realized and unrealized earnings to temporarily restricted net assets. Based on donor stipulations there are no temporarily or permanently restricted funds in deficit.

Investment Policy

The Organization has adopted an investment and spending policy to ensure a total return (income plus capital change) necessary to preserve and enhance the principal of the fund and at the same time, provide a dependable source of support for current operations and programs. The withdrawal from the fund in support of current operations is expected to remain a constant percentage of the total fund, adjusted for new gifts to the fund.

In recognition of the prudence required of fiduciaries, reasonable diversification is sought where possible. Experience has shown financial markets and inflation rates are cyclical, and therefore, control of volatility will be achieved through investment styles. Asset allocation parameters have been developed for various funds within the structure, based on investment objectives, liquidity needs, and time horizon for intended use.

Measurement of investment performance against policy objectives will be computed on a total return basis, net of management fees and transaction costs. Total return is defined as dividend or interest income plus realized and unrealized capital appreciation or depreciation at fair market value.

Spending Policy

The spending policy is 5% of the average total endowment value over the trailing 12 quarters with a 1% contingency margin. This includes interest and dividends paid out to the Organization.

The net asset composition of the endowment investments as of December 31, 2014, is as follows:

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total Net Endowment Assets
Donor-restricted endowment funds	$ -	$ 594,052	$ 1,353,913	$ 1,947,965

Temporarily restricted net assets at December 31 were comprised the following:

Total	$ 1,955,656	$ 2,038,628

13. Net Assets Released from Restriction

Net assets are released from program restrictions by incurring expenses satisfying the restricted purpose.

14. Defined Contribution Plan

The Organization sponsored a defined contribution plan (the Plan) that covered all employees at day of hire and who were at least twenty-one years of age. A pretax voluntary contribution is permitted by employees up to limits imposed by the Internal Revenue Code and other limitations specified in the Plan. There were no contributions made to the plan by the Organization for the years ended December 31, 2014 and 2013, respectively.

15. Operating Leases

The Organization leases office space under the terms of non-cancellable lease agreements that are scheduled to expire at various times through 2018. The Organization also rents additional facilities on a month to month basis.

Rent expense under these agreements totaled $120,966 and $123,341 for the years ended December 31, 2014 and 2013, respectively.

Estimated future minimum lease payments on the above leases are as follows:

Year	Amount
2015	$ 82,707
2016	82,707
2017	16,217
2018	3,621
Total	$ 185,252

16. Concentrations of Risk

The majority of the Organization's grants are received from agencies of the State of New Hampshire. As such, the Organization's ability to generate resources via grants is dependent upon the economic health of that area and of the State of New Hampshire. An economic downturn could cause a decrease in grants that coincides with an increase in demand for the Organization's services.

The Organization invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment

securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the Consolidated Statement of Financial Position.

17. Beginning Net Assets Restatement

In fiscal year 2014, the Organization determined that certain funds previously categorized as temporarily restricted net assets were not subject to donor restrictions. In addition, deferred loans from NHHFA were restated to properly reflect their face value. Accordingly, beginning net assets as of December 31, 2014 have been restated in order to properly reflect donor restricted net assets, as follows:

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Net Assets, Beginning of Year	$ 14,136,915	$ 2,943,580	$ 3,121,389	$ 20,201,884

18. Subsequent Events

Subsequent events have been evaluated through March 31, 2015, which is the date the consolidated financial statements were available to be issued. Events occurring after that date have not been evaluated to determine whether a change in the consolidated financial statements would be required.

Attorney Megan Yaple
NH Department of Justice
Office of the Attorney General
33 Capitol Street
Concord, New Hampshire 03301

Good Morning Attorney Yaple,

I am writing to ask that you review the attached amendments between the Department of Health and Human Services, Division for Children, Youth and Families and Child and Family Services of New Hampshire (Vendor # 177166-B002), 464 Chestnut Street, Manchester, NH. The amendment has been signed by the Associate Commissioner and an authorized signor for the vendor. The vendor provides Comprehensive Family Support Services in the Manchester, Concord and Southern District Office areas, and has requested the adjustment of several budget line items in State Fiscal Year 2015 in order to meet specified needs. The Governor and Executive Council approved the original agreements on June 18, 2014, (Item # 80). These are zero cost amendments with no change to any of the contracts end date of June 30, 2016.

Because of the language, in all of the contracts, in Exhibit B, Section 2.7, that reads:

2.7 *Notwithstanding paragraph 18 of the P-37, an amendment limited to the adjustment of the amounts between budget line items and/or State Fiscal Years, related items, and amendments of related budget exhibits, can be made by written agreement of both parties and do not require additional approval of the Governor and Executive Council*

I am asking that you review and sign off on the amendments as they do not need further action by the Governor and Executive Council.

The remainder of this letter is presented in the format typical of most Governor and Executive Council letters, so that you might have some context for your review.

Funds to support this request are available in the following accounts in State Fiscal Year 2015 and are anticipated to be available in State Fiscal Year 2016, upon the availability and continued appropriation of funds in the future operating budget with the ability to adjust encumbrances between State Fiscal Years through the Budget Office if needed and justified without further approval from the Governor and Executive Council.

EXPLANATION

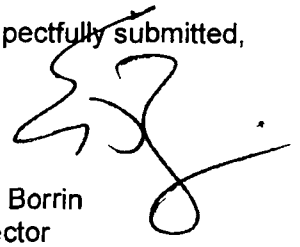
The purpose of these amendments is to allow the vendor to adjust certain budget lines in each of the contracts in order to meet contractual needs; and to update the standard contract language in Exhibit C and Exhibit G for each contract. The vendor underestimated the Staff Education and Training for the Manchester, Concord and Southern District Office areas as well as the subcontractor amount for the Concord and Southern District Office areas. The change has resulted in a request from the vendor to adjust the travel and staff training budget lines in the Manchester area contract, the salary, subcontractor and staff education and training budget line in the Concord area contract, and salary, subcontractor and staff education and training budget lines for the Southern area contract. The Department supports the requested adjustments.

There are no additional funds being requested for these amendments. Other than the updating the contract standard language in Exhibit C and Exhibit G and the budget line adjustments outlined above, all other terms and conditions remain unchanged from the original agreements approved by the Governor and Executive Council on June 18, 2014, (Item # 80).

Comprehensive Family Support Services assist pregnant women and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents and give families an opportunity to learn and grow.

This contract was awarded as the result of a competitive bid process. On January 21, 2014, the Division issued a Request for Proposal for Comprehensive Family Support Services to serve the eleven (11) catchment areas in the State of New Hampshire. Twelve proposals were received.

Child and Family Services of New Hampshire was awarded three (3) of the eleven (11) contracts selected in the competitive bid process.



Should the Governor and Executive Council not approve this request, the vendor would not be able to meet their contractual needs which could reduce the availability, accessibility, and quality of Comprehensive Family Support Services in the Manchester, Concord and Southern District Office areas.

Area Served: Manchester, Concord and Southern District Office areas

Source of Funds: 83.11% Federal Funds, 16.89% General Funds

In the event that Federal Funds become no longer available, no additional General Funds will not be requested to support this program.

Respectfully submitted,

Eric Borrin
Director

SPECIAL PROVISIONS

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.

2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.

3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.

4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.

5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.

6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
   7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
   7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

If any governmental license or permit shall be required for the operation of the said facility or the performance of the said services, the Contractor will procure said license or permit, and will at all times comply with the terms and conditions of each such license or permit. In connection with the foregoing requirements, the Contractor hereby covenants and agrees that, during the term of this Contract the facilities shall comply with all rules, orders, regulations, and requirements of the State Office of the Fire Marshal and the local fire protection agency, and shall be in conformance with local building and zoning codes, by-laws and regulations.

EXPLANATION

Comprehensive Family Support Services assist pregnant women and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents and give families an opportunity to learn and grow.

The Division for Children, Youth and Families and Division of Public Health Services /Maternal Child Health Services blended three family health and support related programs, into one program. This Comprehensive Family Support Services represents such efforts.

New Hampshire DHHS Comprehensive Family Support Services:

In 2002, The Division for Children, Youth and Families, launched a family support partnership, entitled Comprehensive Family Support Services. Support and prevention-based services and programs were provided to thousands families and individuals throughout the state. Due to the success of these prevention-oriented programs, the Division for Children, Youth and Families has recognized the benefit of provider services to families as an effort to keep them from becoming involved in other systems of care.

Currently, there are 25 community-based family resource centers in operation across the State of New Hampshire, which provide a range of support services to families and children that focus on strengthening, supporting and building on the strengths and skills of individuals while also ensuring developmental screening for children six and under. These centers are often key local stakeholders in groups that assess and advocate for the needs of local families.

New Hampshire DHHS Home Visiting NH:

In 2001, the Division of Public Health Services Maternal and Child Health Section began Home Visiting New Hampshire, a statewide, family focused and child centered, preventive program that provides, health, education, support and linkages to community services to eligible, pregnant women and their families in their home until her child is twelve (12) months old. Contractors provide these services in nine (9) of the Division for Children, Youth and Families service areas. The goals of Home Visiting New Hampshire are to promote healthy pregnancy and birth outcomes, promote a safe and nurturing environment for children, and enhance families' life course and development.

Child and Family Health Support Services:

Child and Family Health Support Services have been available through local community health and home visiting agencies for approximately twenty years with funds that had previously supported the state's network of "well baby clinics". These services provide assistance with health care enrollment, referrals, case management, care coordination, education and counseling relative to the child and family and can be conducted by home, office visit or by telephone when appropriate. The goal of Child and Family Health Support Services is to promote the health and well-being of children from birth through age eighteen, with priority given to children birth through age ten.

This contract was competitively bid. On January 21, 2014 the Department issued a Request for Proposals to solicit proposals for the provision of Comprehensive Family Support Services to assist expectant women along with children and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. The request for proposals was available on the Department of Health and Human Services website from January 21, 2014 through March 10, 2014. There were 12 proposals submitted.

The proposals were evaluated by a team of Department of Health and Human Services employees with knowledge of the program requirements, the Division for Children, Youth and Families' Comprehensive Family Support Services program and the Division of Public Health Services, Maternal and Child Health Section. The team also included staff with significant business and management expertise.

The proposals were evaluated based on the criteria published in the Request for Proposals. Eleven of the twelve proposals were selected. The bid summary is attached.

The attached contract calls for the provision of these services for two years and reserves the Division's right to renew the agreement for up to four additional years, based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

Should Governor and Council not authorize this request, the flexibility of community–based family services may not be available to address the needs of children and families throughout the state which could cause an increase in the Division for Children, Youth and Families involvement for out-of-home placement, as these services help to prevent the separation of children from their families and afford them a safe, stable and supportive family environment.

Area Served: Statewide.

Source of Funds: 95.34% Federal Funds
4.66% General Funds

In the event that Federal Funds are no longer available, no additional General Funds will be requested to support this program.

2. To access the preventive child care service, the Contractor shall identify an appropriate provider.

   2.1 The Contractor shall contact the designated DCYF preventive child care Provider Relations Specialist to authorize the family's enrollment into this service and provide the Specialist with the required family and provider contact information necessary to complete the authorization process through NH Bridges, utilizing form 2096 (See Exhibit A-2).

   2.2 The Provider Relations Specialist shall complete the authorization process to generate child care billing forms that will automatically be sent to the designated provider on a weekly basis.

   2.3 If the Contractor identifies a new child care provider that is willing to be certified by DCYF to provide preventive child care, the Contractor shall contact the Provider Relations Specialist and provide the name and address of the provider. Preventive child care services cannot be authorized until the provider has been certified by DCYF.

3. If the Contractor determines that child care services are required beyond the initial twelve-week authorization, the Contractor shall follow steps 2.1 and 2.2 above.

4. If the Contractor determines that authorized child care is no longer needed or appropriate, the Contractor shall contact the Provider Relations Specialist to request that this service be terminated for the applicable family.

5. The Contractor shall routinely track the amount of child care that it authorizes through DCYF. Upon reaching the yearly allotment, the Contractor shall notify DCYF in writing (e-mail is acceptable), to ensure that no further authorizations are processed.

6. DCYF shall monitor preventive child care usage based on the utilization data provided by the Contractor. Should monitoring reveal that authorized child care services are not being utilized (the child care provider does not submit invoices for payments); DCYF shall notify the Contractor to determine whether the authorization should remain active in the NH Bridges system.

   6.1 The Contractor shall contact the family and child care provider to determine the status of child care usage and notify them of the decision whether to continue or rescind authorization for child care resources not yet utilized.

7. If within the contract year, DCYF monitoring indicates that the Contractor's maximum yearly-authorized amount for preventive child care has been reached or is about to be reached, DCYF will alert the Contractor.

SPECIAL PROVISIONS

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.

2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.

3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.

4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.

5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.

6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party fundors for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party fundors, the Department may elect to:
   7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
   7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

RECORDS: MAINTENANCE, RETENTION, AUDIT, DISCLOSURE AND CONFIDENTIALITY:

8. **Maintenance of Records:** In addition to the eligibility records specified above, the Contractor covenants and agrees to maintain the following records during the Contract Period:
   8.1. Fiscal Records: books, records, documents and other data evidencing and reflecting all costs and other expenses incurred by the Contractor in the performance of the Contract, and all income received or collected by the Contractor during the Contract Period, said records to be maintained in accordance with accounting procedures and practices which sufficiently and properly reflect all such costs and expenses, and which are acceptable to the Department, and to include, without limitation, all ledgers, books, records, and original evidence of costs such as purchase requisitions and orders, vouchers, requisitions for materials, inventories, valuations of in-kind contributions, labor time cards, payrolls, and other records requested or required by the Department.
   8.2. Statistical Records: Statistical, enrollment, attendance or visit records for each recipient of services during the Contract Period, which records shall include all records of application and eligibility (including all forms required to determine eligibility for each such recipient), records regarding the provision of services and all invoices submitted to the Department to obtain payment for such services.
   8.3. Medical Records: Where appropriate and as prescribed by the Department regulations, the Contractor shall retain medical records on each patient/recipient of services.

9. **Audit:** Contractor shall submit an annual audit to the Department within 60 days after the close of the agency fiscal year. It is recommended that the report be prepared in accordance with the provision of Office of Management and Budget Circular A-133, "Audits of States, Local Governments, and Non Profit Organizations" and the provisions of Standards for Audit of Governmental Organizations, Programs, Activities and Functions, issued by the US General Accounting Office (GAO standards) as they pertain to financial compliance audits.
   9.1. Audit and Review: During the term of this Contract and the period for retention hereunder, the Department, the United States Department of Health and Human Services, and any of their designated representatives shall have access to all reports and records maintained pursuant to the Contract for purposes of audit, examination, excerpts and transcripts.
   9.2. Audit Liabilities: In addition to and not in any way in limitation of obligations of the Contract, it is understood and agreed by the Contractor that the Contractor shall be held liable for any state or federal audit exceptions and shall return to the Department, all payments made under the Contract to which exception has been taken or which have been disallowed because of such an exception.

10. **Confidentiality of Records:** All information, reports, and records maintained hereunder or collected in connection with the performance of the services and the Contract shall be confidential and shall not be disclosed by the Contractor, provided however, that pursuant to state laws and the regulations of the Department regarding the use and disclosure of such information, disclosure may be made to public officials requiring such information in connection with their official duties and for purposes directly connected to the administration of the services and the Contract; and provided further, that the use or disclosure by any party of any information concerning a recipient for any purpose not directly connected with the administration of the Department or the Contractor's responsibilities with respect to purchased services hereunder is prohibited except on written consent of the recipient, his attorney or guardian.

Notwithstanding anything to the contrary contained herein the covenants and conditions contained in the Paragraph shall survive the termination of the Contract for any reason whatsoever.

11. **Reports:** Fiscal and Statistical: The Contractor agrees to submit the following reports at the following times if requested by the Department.
    11.1. Interim Financial Reports: Written interim financial reports containing a detailed description of all costs and non-allowable expenses incurred by the Contractor to the date of the report and containing such other information as shall be deemed satisfactory by the Department to justify the rate of payment hereunder. Such Financial Reports shall be submitted on the form designated by the Department or deemed satisfactory by the Department.
    11.2. Final Report: A final report shall be submitted within thirty (30) days after the end of the term of this Contract. The Final Report shall be in a form satisfactory to the Department and shall contain a summary statement of progress toward goals and objectives stated in the Proposal and other information required by the Department.

12. **Completion of Services:** Disallowance of Costs: Upon the purchase by the Department of the maximum number of units provided for in the Contract and upon payment of the price limitation hereunder, the Contract and all the obligations of the parties hereunder (except such obligations as, by the terms of the Contract are to be performed after the end of the term of this Contract and/or survive the termination of the Contract) shall terminate, provided however, that if, upon review of the Final Expenditure Report the Department shall disallow any expenses claimed by the Contractor as costs hereunder the Department shall retain the right, at its discretion, to deduct the amount of such expenses as are disallowed or to recover such sums from the Contractor.

13. **Credits:** All documents, notices, press releases, research reports and other materials prepared during or resulting from the performance of the services of the Contract shall include the following statement:
    13.1. The preparation of this (report, document etc.) was financed under a Contract with the State of New Hampshire, Department of Health and Human Services, with funds provided in part by the State of New Hampshire and/or such other funding sources as were available or required, e.g., the United States Department of Health and Human Services.

14. **Prior Approval and Copyright Ownership:** All materials (written, video, audio) produced or purchased under the contract shall have prior approval from DHHS before printing, production, distribution or use. The DHHS will retain copyright ownership for any and all original materials produced, including, but not limited to, brochures, resource directories, protocols or guidelines, posters, or reports. Contractor shall not reproduce any materials produced under the contract without prior written approval from DHHS.

15. **Operation of Facilities: Compliance with Laws and Regulations:** In the operation of any facilities for providing services, the Contractor shall comply with all laws, orders and regulations of federal, state, county and municipal authorities and with any direction of any Public Officer or officers pursuant to laws which shall impose an order or duty upon the contractor with respect to the operation of the facility or the provision of the services at such facility. If any governmental license or permit shall be required for the operation of the said facility or the performance of the said services, the Contractor will procure said license or permit, and will at all times comply with the terms and conditions of each such license or permit. In connection with the foregoing requirements, the Contractor hereby covenants and agrees that, during the term of this Contract the facilities shall comply with all rules, orders, regulations, and requirements of the State Office of the Fire Marshal and the local fire protection agency, and shall be in conformance with local building and zoning codes, by-laws and regulations.

16. **Subcontractors:** DHHS recognizes that the Contractor may choose to use subcontractors with greater expertise to perform certain health care services or functions for efficiency or convenience, but the Contractor shall retain the responsibility and accountability for the function(s). Prior to

subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

When the Contractor delegates a function to a subcontractor, the Contractor shall do the following:

16.1. Evaluate the prospective subcontractor's ability to perform the activities, before delegating the function

16.2. Have a written agreement with the subcontractor that specifies activities and reporting responsibilities and how sanctions/revocation will be managed if the subcontractor's performance is not adequate

16.3. Monitor the subcontractor's performance on an ongoing basis

16.4. Provide to DHHS an annual schedule identifying all subcontractors, delegated functions and responsibilities, and when the subcontractor's performance will be reviewed

16.5. DHHS shall, at its discretion, review and approve all subcontracts.

If the Contractor identifies deficiencies or areas for improvement are identified, the Contractor shall take corrective action.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.

6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

    - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.

12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:

   II. As required by law, pursuant to the terms set forth in paragraph d. below; or

If Covered Entity objects to such disclosure, the Business

Associate shall refrain from disclosing the PHI until Covered Entity has exhausted all remedies.

e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

(3) Obligations and Activities of Business Associate.

a. b. The Business Associate shall immediately perform a risk assessment when it becomes aware of any of the above situations. The risk assessment shall include, but not be limited to:

d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.

pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard Paragraph #13 of the standard contract provisions (P-37) of this Agreement for the purpose of use and disclosure of protected health information.

f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.

l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.

c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) Miscellaneous

a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.

c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.

d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) I, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

IN WITNESS WHEREOF, the parties hereto have duly executed this Exhibit I.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. CHILDREN UNLIMITED, INC.
NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2016

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Purpose

Children Unlimited, Inc. (the "Entity") was organized as a nonprofit entity under Section 501(c)(3) of the Internal Revenue Code on November 24, 1986. The Entity was established for the purpose of providing developmental, educational, and therapeutic services to serve the needs of children from birth through five years of age and their families.

The accounting policies of Children Unlimited, Inc. conform to accounting principles generally accepted in the United States of America as applicable to nonprofit organizations except as indicated hereafter. The following is a summary of significant accounting policies.

Basis of Presentation

The financial statements have been prepared in accordance with the reporting pronouncements pertaining to Not-for-Profit Entities included within the FASB Accounting Standards Codification. The Entity is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets, based upon the existence or absence of donor-imposed restrictions.

Basis of Accounting

The financial statements have been prepared using the accrual basis of accounting.

Revenues from program services are recorded when earned. Other miscellaneous revenues are recorded upon receipt.

Recognition of Donor Restrictions

Contributions are recognized when the donor makes a promise to give to the Entity that is, in substance, unconditional. Contributions received are recorded as increases in unrestricted, temporarily restricted, or permanently restricted net assets, depending upon the existence and/or nature of any donor restrictions.

Allocation of Functional Expenses

The costs of providing various programs and other activities have been summarized on a functional basis in the accompanying statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services based on percentage allocations determined by the Entity's management.

Cash

Cash consists of demand deposits, cash on hand and all highly liquid investments with a maturity of ninety days or less.

Investments

Investments, which consist solely of certificates of deposit with a maturity of greater than ninety days from the date of issuance, are carried at their market value.

Property and Equipment

Property and equipment are stated at cost or estimated fair market value for donated assets. The Entity's policy is to capitalize expenditures for major improvements and to charge to operations expenditures which do not extend the lives of related assets in the period incurred. Depreciation is computed using the straight-line method over the following estimated useful lives:

	Years
Playground	5-15
Buildings and improvements	5-39
Furniture and fixtures	5-10
Equipment	5-15

Depreciation expense for the year ending June 30, 2016 was $47,146.

Accrued Earned Time

All full-time and part-time employees accrue earned time as they provide services. Earned time is accrued at a rate dependent upon length of service. Earned time may be accrued to a maximum of 240 hours. Upon termination of employment, any accrued/unused earned time will be paid at current rates of pay, except for employees who have been employed for less than 90 days.

Income Taxes

The Entity has received a determination letter from the Internal Revenue Service stating that it qualifies for tax-exempt status under Section 501(c)(3) of the Internal Revenue Code for its exempt function income. In addition, the Entity is not subject to state income taxes.

The Entity adopted FASB Accounting Standards Codification Topic 740 entitled *Accounting for Income Taxes* which requires the Entity to report uncertain tax positions for financial reporting purposes. FASB ASC 740 prescribes rules regarding how the Entity should recognize, measure and disclose in its financial statements, tax positions that were taken or will be taken on the Entity's tax returns that are reflected in measuring current or deferred income tax assets and liabilities. Differences between tax positions taken in a tax return and amounts recognized in the financial statements will generally result in an increase in a liability for income tax payable or a reduction in a deferred tax asset or an increase in a deferred tax liability. The Entity had no uncertain tax positions as of June 30, 2016 and, accordingly does not have any unrecognized tax benefits that need to be recognized or disclosed in the financial statements. As of June 30, 2016, the tax years ending June 30, 2015, 2014, and 2013 are open for possible tax examination.

Bad Debts

The Entity uses the reserve method for accounting for bad debts. It is the Entity's policy to charge off uncollectible receivables when management determines the receivable will not be collected. The allowance for doubtful accounts as of June 30, 2016 is $4,245.

Fundraising Activities

Fundraising expenses represent the cost of running special events by the Entity and totaled $2,030 for the year ending June 30, 2016.

Advertising Costs

Advertising costs are expensed as incurred. Advertising expense was $369 for the year ending June 30, 2016.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Fair Value of Financial Instruments

Cash, trade receivables, accounts payable, accrued expenses and other liabilities are carried in the financial statements at amounts which approximate fair value due to the inherently short-term nature of the transactions. The fair values determined for financial instruments are estimates, which for certain accounts may differ significantly from the amount which could be realized upon immediate liquidation.

NOTE 2—CONCENTRATION OF CREDIT RISK

The Entity maintains its cash and investment balances in two financial institutions. The balances are insured by the Federal Deposit Insurance Corporation up to a combined total of $250,000 per financial institution as of June 30, 2016. The bank balances may, at times, materially exceed federally insured limits. The Entity has not experienced any losses on such accounts. The Entity's uninsured cash balance was $0 as of June 30, 2016.

NOTE 3—INVESTMENTS

Fair Value Measurements

The Entity reports under the Fair Value Measurements pronouncements of the FASB Accounting Standards Codification (FASB ASC 820) which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs of valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below.

Level 1 - Inputs to the valuation methodology are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date.

Level 2 – Inputs to the valuation include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities that are not active;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs at the closing price reported on the active market on which the individual securities are traded.

Following is a description of the valuation methodologies used for assets measured at fair value.

Certificates of Deposit: Valued at acquisition cost plus accrued interest which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Entity believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table set forth by level, within the fair value hierarchy, the Entity's assets at fair value:

Assets at Fair Value as of June 30, 2016

	Level 1
Certificates of deposit	$ 29,025

Investment Valuation and Income Recognition

The Entity's investments as of June 30, 2016 are stated at fair value. Interest income is recorded on the accrual basis.

EXPLANATION

The purpose of this request is to renew contract services with these vendors for an additional two years. For a detailed summary of the changes please see attachment.

Comprehensive Family Support Services assist pregnant women and families with children up to the age of twenty-one (21) by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents to give families an opportunity to learn and grow.

The Division for Children, Youth and Families and the Division of Public Health Services have blended three family health and support related programs in to one program which is now represented as the Comprehensive Family Support Services.

Currently, there are twenty-five (25) community based family resource centers in operation across the State which provide a range of support services to families and children that focus on strengthening, supporting and building on the strengths and skills of individuals while also ensuring developmental screening for children six (6) and under. These centers are often key local stakeholders in groups that assess and advocate for the needs of local families.

The original contracts were competitively bid.

These contracts contain language which allows for the right to renew for up to four additional years based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

The Comprehensive Family Support Services program has served a total of 871 families and 1664 children in 2014. As a result, ninety-five percent (95%) of the families served achieved successful outcomes and remained uninvolved in a Division abuse or neglect case. The Division is satisfied with the services provided and is requesting approval to exercise two years of the renewal option reserving the Division's option to renew for the remaining two years based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

Should the Governor and Executive Council not authorize this request, the flexibility of community based family services may not be available to address the needs of children and families throughout the state which could cause an increase in the Division for Children, Youth and Families involvement for out of home placements. The services provided through these agreements help prevent separation of children from their families and afford them a safe, stable and supportive family environment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

MISSION STATEMENT

Children Unlimited, Inc. is a community based non-profit corporation 501(c)(3), which provides services through its Developmental Childcare Program, Family Centered Early Supports and Services Program, The Children's Academy (Inclusive Multi-Age Educational Program Pre-K - First Grade), and The Family Connections Resource Center (prenatal–21 years). All of Children Unlimited's services for children and families are provided within natural settings. The mission of Children Unlimited is to provide quality, evidence-based developmental/educational, family support and intervention strategies for each child and family who is enrolled in one of our programs.

Our children's programs offer unique opportunities for young children of all abilities to learn and play together. This type of inclusive learning environment is highly beneficial for the education, social and emotional well-being of all children. We recognize that children maybe at a certain chronological age but may not be at the same developmental level. We believe that each child is an individual and grows and develops at his/her own rate in accordance with his/her own ability. We aim to foster this developmental process and encourage each child to achieve his/her fullest potential. Children have a unique learning style displaying their own interests, strengths, and weaknesses. But children are first and foremost children with needs, interests, and concerns that are common to all children even though their rate of growth may vary.

We further believe that each child is part of a family system and that families have many strengths. We believe that all families should be mentored, supported and encouraged to access and enjoy the natural support of extended family, friends and activities within their community. Through our Family Connections Resource Center, we offer assistance and guidance to help parents access appropriate community resources, attend parenting classes or support groups, and to become better advocates for themselves and their children in the community. We encourage and facilitate parent-to-parent connections in order to reduce social isolation. We support parents in understanding the developmental, emotional/behavioral, and social issues that their children or youth may experience. We focus on teaching problem-solving and coping strategies, reducing family stressors, and helping families become more self-sufficient. The overall objective is to prevent domestic violence, child abuse and neglect. We believe that all families have unique qualities and we respect each family's individual beliefs, values and cultural norms. We also know that families have hopes and dreams for themselves and their children, and we recognize and support these aspirations.

Children Unlimited, Inc. believes that all of our programs and staff members will collaborate in a variety of ways in order to facilitate and support the most effective and positive outcomes for children and families. We strive to develop strong collaborative relationships with professionals throughout Carroll County who are also working to facilitate the health and well-being of children and families.

NOTES TO FINANCIAL STATEMENTS

June 30, 2015, With Comparative Totals for 2014

NOTE A – NATURE OF ORGANIZATION

Children Unlimited, Inc. (the Organization), located in Conway, New Hampshire, is a nonprofit corporation formed in 1986. The Organization offers a distinctive developmental childcare program with a special emphasis on caring and nurturing children ages six weeks through eight years old. The Organization provides an inclusive childcare program that allows children with typical development and special needs to play and learn together. The Organization is supported primarily through tuition, contributions, and grants received from both public and private sources.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The Organization reports information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Unrestricted Net Assets

The part of net assets of a not-for-profit organization that is neither permanently restricted nor temporarily restricted by donor-imposed stipulations.

Temporarily Restricted Net Assets

The part of the net assets resulting from contributions and other inflows of assets whose use by the organization is limited by donor-imposed stipulations that either expire by passage of time or can be fulfilled and removed by actions of the organization pursuant to those stipulations.

Permanently Restricted Net Assets

The Organization has no permanently restricted net assets

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Contributions

Contributions are recognized when the donor makes a promise to give to the Organization that is, in substance, unconditional. Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and/or nature of any donor designations. When net assets are used for their intended purpose, they are released and reclassified as unrestricted net assets.

All non-cash contributions are recorded at the estimated fair market value at the date of the contribution. They are considered available for unrestricted use, unless specifically restricted by the donor or subject to other legal restrictions.

Fixed Assets

Fixed assets are stated at cost, or, if donated, at the estimated fair market value at the date of donation. Depreciation is recorded using the straight-line method at various rates calculated to allocate the cost of the respective items over their estimated useful lives. Depreciation of buildings and other fixed assets is provided using estimated useful lives of three to thirty-nine years.

Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Cash Equivalents

For purposes of the statements of cash flows the Organization considers all savings, short-term investments and certificates of deposit to be cash equivalents.

EXPLANATION

The purpose of this amendment is to allow the vendor to adjust certain budget lines in order to meet contractual needs; and update the standard contract language in Exhibit C and Exhibit G. Children Unlimited, Inc. underestimated the necessary staff hours and the cost for educational trainings due to the combining of the other home visiting programs into this contract. The change has resulted in a request from the vendor to adjust the budget line items of Total Salary/Wages, Consultants, educational Supplies and Staff Education and Training. The Department supports the requested adjustments.

There are no additional funds being requested in this amendment. Other than the updating the contract standard language in Exhibit C and Exhibit G and the budget line adjustments outlined above, all other terms and conditions remain unchanged from the original agreement approved by the Governor and Executive Council on June 18, 2014, (Item # 80).

Comprehensive Family Support Services assist pregnant women and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents and give families an opportunity to learn and grow.

This contract was awarded as the result of a competitive bid process. On January 21, 2014, the Division issued a Request for Proposal for Comprehensive Family Support Services to serve the eleven (11) catchment areas in the State of New Hampshire. Twelve proposals were received.

Children Unlimited, Inc. was one (1) of the eleven (11) agencies selected in the competitive bid process.

Should the Governor and Executive Council not approve this request, the vendor would not be able to meet their contractual needs which could reduce the availability, accessibility, and quality of Comprehensive Family Support Services in the Carroll County area.

Area Served: Carroll County area

Source of Funds: 100% Federal Funds

In the event that Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Mary Ann Cooney
Associate Commissioner

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.

2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.

3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.

4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.

5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.

6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
   7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
   7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

EXPLANATION

Comprehensive Family Support Services assist pregnant women and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents and give families an opportunity to learn and grow.

The Division for Children, Youth and Families and Division of Public Health Services /Maternal Child Health Services blended three family health and support related programs, into one program. This Comprehensive Family Support Services represents such efforts.

New Hampshire DHHS Comprehensive Family Support Services:

In 2002, The Division for Children, Youth and Families, launched a family support partnership, entitled Comprehensive Family Support Services. Support and prevention-based services and programs were provided to thousands families and individuals throughout the state. Due to the success of these prevention-oriented programs, the Division for Children, Youth and Families has recognized the benefit of provider services to families as an effort to keep them from becoming involved in other systems of care.

Currently, there are 25 community-based family resource centers in operation across the State of New Hampshire, which provide a range of support services to families and children that focus on strengthening, supporting and building on the strengths and skills of individuals while also ensuring developmental screening for children six and under. These centers are often key local stakeholders in groups that assess and advocate for the needs of local families.

New Hampshire DHHS Home Visiting NH:

In 2001, the Division of Public Health Services Maternal and Child Health Section began Home Visiting New Hampshire, a statewide, family focused and child centered, preventive program that provides, health, education, support and linkages to community services to eligible, pregnant women and their families in their home until her child is twelve (12) months old. Contractors provide these services in nine (9) of the Division for Children, Youth and Families service areas. The goals of Home Visiting New Hampshire are to promote healthy pregnancy and birth outcomes, promote a safe and nurturing environment for children, and enhance families' life course and development.

Child and Family Health Support Services:

Child and Family Health Support Services have been available through local community health and home visiting agencies for approximately twenty years with funds that had previously supported the state's network of "well baby clinics". These services provide assistance with health care enrollment, referrals, case management, care coordination, education and counseling relative to the child and family and can be conducted by home, office visit or by telephone when appropriate. The goal of Child and Family Health Support Services is to promote the health and well-being of children from birth through age eighteen, with priority given to children birth through age ten.

This contract was competitively bid. On January 21, 2014 the Department issued a Request for Proposals to solicit proposals for the provision of Comprehensive Family Support Services to assist expectant women along with children and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. The request for proposals was available on the Department of Health and Human Services website from January 21, 2014 through March 10, 2014. There were 12 proposals submitted.

The proposals were evaluated by a team of Department of Health and Human Services employees with knowledge of the program requirements, the Division for Children, Youth and Families' Comprehensive Family Support Services program and the Division of Public Health Services, Maternal and Child Health Section. The team also included staff with significant business and management expertise.

The proposals were evaluated based on the criteria published in the Request for Proposals. Eleven of the twelve proposals were selected. The bid summary is attached.

The attached contract calls for the provision of these services for two years and reserves the Division's right to renew the agreement for up to four additional years, based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

Should Governor and Council not authorize this request, the flexibility of community–based family services may not be available to address the needs of children and families throughout the state which could cause an increase in the Division for Children, Youth and Families involvement for out-of-home placement, as these services help to prevent the separation of children from their families and afford them a safe, stable and supportive family environment.

Area Served: Statewide.

Source of Funds: 95.34% Federal Funds
4.66% General Funds

In the event that Federal Funds are no longer available, no additional General Funds will be requested to support this program.

SPECIAL PROVISIONS

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.

2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.

3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.

4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.

5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.

6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party fundors for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party fundors, the Department may elect to:
   7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
   7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

   8.2. Statistical Records: Statistical, enrollment, attendance or visit records for each recipient of services during the Contract Period, which records shall include all records of application and eligibility (including all forms required to determine eligibility for each such recipient), records regarding the provision of services and all invoices submitted to the Department to obtain payment for such services.

   9.1. Audit and Review: During the term of this Contract and the period for retention hereunder, the Department, the United States Department of Health and Human Services, and any of their designated representatives shall have access to all reports and records maintained pursuant to the Contract for purposes of audit, examination, excerpts and transcripts.
   9.2. Audit Liabilities: In addition to and not in any way in limitation of obligations of the Contract, it is understood and agreed by the Contractor that the Contractor shall be held liable for any state or federal audit exceptions and shall return to the Department, all payments made under the Contract to which exception has been taken or which have been disallowed because of such an exception.

Notwithstanding anything to the contrary contained herein the covenants and conditions contained in the Paragraph shall survive the termination of the Contract for any reason whatsoever.

11. **Reports:** Fiscal and Statistical: The Contractor agrees to submit the following reports at the following times if requested by the Department.
    11.1. Interim Financial Reports: Written interim financial reports containing a detailed description of all costs and non-allowable expenses incurred by the Contractor to the date of the report and containing such other information as shall be deemed satisfactory by the Department to justify the rate of payment hereunder. Such Financial Reports shall be submitted on the form designated by the Department or deemed satisfactory by the Department.
    11.2. Final Report: A final report shall be submitted within thirty (30) days after the end of the term of this Contract. The Final Report shall be in a form satisfactory to the Department and shall contain a summary statement of progress toward goals and objectives stated in the Proposal and other information required by the Department.

12. **Completion of Services:** Disallowance of Costs: Upon the purchase by the Department of the maximum number of units provided for in the Contract and upon payment of the price limitation hereunder, the Contract and all the obligations of the parties hereunder (except such obligations as, by the terms of the Contract are to be performed after the end of the term of this Contract and/or survive the termination of the Contract) shall terminate, provided however, that if, upon review of the Final Expenditure Report the Department shall disallow any expenses claimed by the Contractor as costs hereunder the Department shall retain the right, at its discretion, to deduct the amount of such expenses as are disallowed or to recover such sums from the Contractor.

13. **Credits:** All documents, notices, press releases, research reports and other materials prepared during or resulting from the performance of the services of the Contract shall include the following statement:
    13.1. The preparation of this (report, document etc.) was financed under a Contract with the State of New Hampshire, Department of Health and Human Services, with funds provided in part by the State of New Hampshire and/or such other funding sources as were available or required, e.g., the United States Department of Health and Human Services.

14. **Prior Approval and Copyright Ownership:** All materials (written, video, audio) produced or purchased under the contract shall have prior approval from DHHS before printing, production, distribution or use. The DHHS will retain copyright ownership for any and all original materials produced, including, but not limited to, brochures, resource directories, protocols or guidelines, posters, or reports. Contractor shall not reproduce any materials produced under the contract without prior written approval from DHHS.

15. **Operation of Facilities: Compliance with Laws and Regulations:** In the operation of any facilities for providing services, the Contractor shall comply with all laws, orders and regulations of federal, state, county and municipal authorities and with any direction of any Public Officer or officers pursuant to laws which shall impose an order or duty upon the contractor with respect to the operation of the facility or the provision of the services at such facility. If any governmental license or permit shall be required for the operation of the said facility or the performance of the said services, the Contractor will procure said license or permit, and will at all times comply with the terms and conditions of each such license or permit. In connection with the foregoing requirements, the Contractor hereby covenants and agrees that, during the term of this Contract the facilities shall comply with all rules, orders, regulations, and requirements of the State Office of the Fire Marshal and the local fire protection agency, and shall be in conformance with local building and zoning codes, by-laws and regulations.

16. **Subcontractors:** DHHS recognizes that the Contractor may choose to use subcontractors with greater expertise to perform certain health care services or functions for efficiency or convenience, but the Contractor shall retain the responsibility and accountability for the function(s). Prior to

subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

When the Contractor delegates a function to a subcontractor, the Contractor shall do the following:

16.1. Evaluate the prospective subcontractor's ability to perform the activities, before delegating the function

16.2. Have a written agreement with the subcontractor that specifies activities and reporting responsibilities and how sanctions/revocation will be managed if the subcontractor's performance is not adequate

16.3. Monitor the subcontractor's performance on an ongoing basis

16.4. Provide to DHHS an annual schedule identifying all subcontractors, delegated functions and responsibilities, and when the subcontractor's performance will be reviewed

16.5. DHHS shall, at its discretion, review and approve all subcontracts.

If the Contractor identifies deficiencies or areas for improvement are identified, the Contractor shall take corrective action.

CERTIFICATION REGARDING DEBARMENT, SUSPENSION AND OTHER RESPONSIBILITY MATTERS

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.

6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
    11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
    11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
    11.3. are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (l)(b) of this certification; and
    11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.

12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:
    13.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.

Further, Business Associate, including but not limited to all its directors, officers, employees and agents, shall not use, disclose, maintain or transmit PHI in any manner that would constitute a violation of the Privacy and Security Rule.

b. Business Associate may use or disclose PHI:
   I. For the proper management and administration of the Business Associate;
   II. As required by law, pursuant to the terms set forth in paragraph d. below; or
   III. For data aggregation purposes for the health care operations of Covered Entity.

c. To the extent Business Associate is permitted under the Agreement to disclose PHI to a third party, Business Associate must obtain, prior to making any such disclosure, (i) reasonable assurances from the third party that such PHI will be held confidentially and used or further disclosed only as required by law or for the purpose for which it was disclosed to the third party; and (ii) an agreement from such third party to notify Business Associate, in accordance with the HIPAA Privacy, Security, and Breach Notification Rules of any breaches of the confidentiality of the PHI, to the extent it has obtained knowledge of such breach.

d. The Business Associate shall not, unless such disclosure is reasonably necessary to provide services under Exhibit A of the Agreement, disclose any PHI in response to a request for disclosure on the basis that it is required by law, without first notifying Covered Entity so that Covered Entity has an opportunity to object to the disclosure and to seek appropriate relief. If Covered Entity objects to such disclosure, the Business

Associate shall refrain from disclosing the PHI until Covered Entity has exhausted all remedies.

e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

(3) Obligations and Activities of Business Associate.

a. The Business Associate shall notify the Covered Entity's Privacy Officer immediately after the Business Associate becomes aware of any use or disclosure of protected health information not provided for by the Agreement including breaches of unsecured protected health information and/or any security incident that may have an impact on the protected health information of the Covered Entity.

b. The Business Associate shall immediately perform a risk assessment when it becomes aware of any of the above situations. The risk assessment shall include, but not be limited to:

- The nature and extent of the protected health information involved, including the types of identifiers and the likelihood of re-identification;
- The unauthorized person used the protected health information or to whom the disclosure was made;
- Whether the protected health information was actually acquired or viewed

The Business Associate shall complete the risk assessment within 48 hours of the breach and immediately report the findings of the risk assessment in writing to the Covered Entity.

c. The Business Associate shall comply with all sections of the Privacy, Security, and Breach Notification Rule.

d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.

e. Business Associate shall require all of its business associates that receive, use or have access to PHI under the Agreement, to agree in writing to adhere to the same restrictions and conditions on the use and disclosure of PHI contained herein, including the duty to return or destroy the PHI as provided under Section 3 (l). The Covered Entity shall be considered a direct third party beneficiary of the Contractor's business associate agreements with Contractor's intended business associates, who will be receiving PHI

pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard Paragraph #13 of the standard contract provisions (P-37) of this Agreement for the purpose of use and disclosure of protected health information.

f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

g. Within ten (10) business days of receiving a written request from Covered Entity, Business Associate shall provide access to PHI in a Designated Record Set to the Covered Entity, or as directed by Covered Entity, to an individual in order to meet the requirements under 45 CFR Section 164.524.

h. Within ten (10) business days of receiving a written request from Covered Entity for an amendment of PHI or a record about an individual contained in a Designated Record Set, the Business Associate shall make such PHI available to Covered Entity for amendment and incorporate any such amendment to enable Covered Entity to fulfill its obligations under 45 CFR Section 164.526.

i. Business Associate shall document such disclosures of PHI and information related to such disclosures as would be required for Covered Entity to respond to a request by an individual for an accounting of disclosures of PHI in accordance with 45 CFR Section 164.528.

j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.

l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.

c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) Miscellaneous

a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.

c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.

d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) I, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

INDEPENDENT AUDITORS' REPORT

Report on the Financial Statements

We have audited the accompanying financial statements of Community Action Partnership of Strafford County (a New Hampshire nonprofit organization), which comprise the statements of financial position as of December 31, 2016 and 2015, and the related statements of cash flows, and notes to the financial statements for the years then ended, and the related statements of activities and functional expenses for the year ended December 31, 2016.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Community Action Partnership of Strafford County as of December 31, 2016 and 2015, and its cash flows for the years then ended, and the changes in its net assets for the year ended December 31, 2016 in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information
We have previously audited Community Action Partnership of Strafford County's 2015 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated June 1, 2016. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2015, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Matters
Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards
In accordance with *Government Auditing Standards*, we have also issued our report dated August 15, 2017, on our consideration of Community Action Partnership of Strafford County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Community Action Partnership of Strafford County's internal control over financial reporting and compliance.

NOTE 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Organization

Community Action Partnership of Strafford County (the Agency) is a 501(c)(3) private New Hampshire non-profit organization established under the provisions of the Equal Opportunity Act of 1964. Without services provided by the Agency, many local residents would be without a means to provide for their basic needs, including food, education, child care, utilities assistance, transportation, housing, emergency shelter and access to other services. The mission of the Agency is to educate, advocate and assist people in Strafford County to help meet their basic needs and promote self-sufficiency. The vision of the Agency is to eliminate poverty in Strafford County through compassion, education, self-sufficiency, transparency, accountability, team work, client focus and professionalism.

In addition to its administrative office located in Dover, the Agency maintains its outreach capacity by operating program offices in Farmington, Milton, Rochester, Dover and Somersworth. The Agency is funded by Federal, state, county and local funds, as well as United Way grants, public utilities, foundation and charitable grant funds, fees for service, private business donations, and donations from individuals. The Agency is governed by a tripartite board of directors made up of elected officials, community leaders from for-profit and non-profit organizations and residents who are low income. The board is responsible for assuring that the Agency continues to assess and respond to the causes and conditions of poverty in its community, achieve anticipated family and community outcomes, and remain administratively and fiscally sound. The Agency administers a wide range of coordinated programs to more than 15,000 people annually, and the programs are designed to have a measureable impact on poverty and health status among the most vulnerable residents: those under the age of 6, the elderly and those living in poverty. This coordinated approach is accomplished by providing a broad array of services that are locally defined, planned and managed with community agencies.

Basis of Accounting

The financial statements have been prepared using the accrual basis of accounting in accordance with Generally Accepted Accounting Principles (GAAP) of the United States.

Financial Statement Presentation

The financial statement presentation follows the recommendations of the Accounting Standard Codification No. 958-210, *Financial Statements of Not-For-Profit Organizations*. Under FASB ASC No. 958-210, the Agency is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets

and permanently restricted net assets. The classes of net assets are determined by the presence or absence of donor restrictions.

Unrestricted: Net assets that are not subject to donor-imposed stipulations. Unrestricted net assets may be designated for specific purposes by action of the Board of Directors.

Temporarily Restricted: Net assets whose use is limited by donor imposed stipulations that will either expire with the passage of time or be fulfilled or removed by actions of the Agency.

Permanently Restricted: Net assets reflecting the historical cost of gifts (and in certain circumstances, the earnings from those gifts), subject to donor-imposed stipulations, which require the corpus to be invested in perpetuity to produce income for general or specific purposes.

At December 31, 2016 and 2015 the Agency had unrestricted and temporarily restricted net assets.

Refundable Advances
Grants received in advance are recorded as refundable advances and recognized as revenue in the period in which the related services are performed or expenditures are incurred.

Contributions
All contributions are considered to be available for unrestricted use unless specifically restricted by donor. Amounts received that are restricted by the donor for future periods or for specific purposes are reported as temporarily restricted or permanently restricted support, depending on the nature of the restriction. However, if a restriction is fulfilled in the same period in which the contribution is received, the Agency reports the support as unrestricted.

Contributed Services
Donated services are recognized as contributions in accordance with FASB ASC No. 958, *Accounting for Contributions Received and Contributions Made,* if the services (a) create or enhance non-financial assets or (b) require specialized skills, and would otherwise be purchased by the Agency.

Volunteers provided various services throughout the year that are not recognized as contributions in the financial statements since the recognition criteria under FASB ASC No. 958 were not met.

Fair Value of Financial Instruments
Accounting Standard Codification No. 825, "Financial Instruments," requires the Agency to disclose estimated fair value for its financial instruments. The carrying amounts of cash, investments, accounts receivable, prepaid expenses, inventory, accounts payable, accrued expenses, and refundable advances approximate fair value because of the short maturity of those instruments.

Inventory
Inventory materials are fixtures for installation and recorded at cost or contributed value, using the first-in, first-out method.

Property and Depreciation
Property and equipment, which have a cost greater than $5,000, are capitalized at cost or, if donated, at the approximate fair value at the date of donation. Specific grants and awards may have a threshold lower than this amount and that program will abide by those guidelines. Assets are depreciated over their estimated useful lives using the straight-line method as follows:

Buildings and improvements	15 - 40 years
Furniture, equipment and machinery	3 - 10 years
Vehicles	5 - 7 years

Depreciation expense aggregated $53,517 and $43,903 for the years ended December 31, 2016 and 2015, respectively.

Accrued Earned Time
The Agency has accrued a liability of $79,490 and $81,878 at December 31, 2016 and 2015, respectively, for future compensated leave time that its employees have earned and which is vested with the employee.

Income Taxes
The Agency is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. The Internal Revenue Service has determined the Agency to be other than a private foundation. The Agency is also exempt from the New Hampshire Business Enterprise Tax.

Accounting Standard Codification No. 740, "Accounting for Income Taxes", establishes the minimum threshold for recognizing, and a system for measuring, the benefits of tax return positions in financial statements. Management has analyzed the Agency's tax position taken on its information returns for the years 2013 through 2016, and has concluded that no additional provision for income taxes is necessary in the Agency's financial statements.

Cash and Cash Equivalents
The Agency considers all highly liquid financial instruments with original maturities of three months or less to be cash equivalents.

Use of Estimates
The presentation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Advertising Expenses
The Agency expenses advertising costs as they are incurred. Total advertising costs for the years ended December 31, 2016 and 2015 amounted to $21,352 and $15,799, respectively.

In-kind Donations

The Agency pays below-market rent for the use of certain facilities. In accordance with generally accepted accounting principles, the difference between amounts paid for the use of the facilities and the fair market value of the rental space has been recorded as an in-kind donation and as an in-kind expense in the accompanying financial statements. The estimated fair value of the donation was determined to be $322,524 and $268,238 for the years ended December 31, 2016 and 2015, respectively.

The Agency also receives contributed professional services that are required to be recorded in accordance with FASB ASC No. 958. The estimated fair value of these services was determined to be $49,673 and $131,488 for the years ended December 31, 2016 and 2015, respectively.

The Agency also receives contributed food commodities and other goods that are required to be recorded in accordance with FASB ASC No. 958. The estimated fair value of these food commodities and goods was determined to be $159,190 and $46,463, respectively, for the year ended December 31, 2016. For the year ended December 31, 2015, the estimated fair value of these food commodities and goods was determined to be $136,081 and $96,644, respectively.

Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis. Accordingly, costs have been allocated among the program services and supporting activities benefited.

NOTE 2. PROPERTY

As of December 31, 2016 and 2015, property consisted of the following:

	2016	2015
Land, buildings and improvements	$ 926,666	$ 430,128
Furniture, equipment and machinery	522,213	522,213
Vehicles	249,779	249,779
Construction in progress	5,607	-

Less accumulated depreciation	777,214	723,696
Net property	$ 927,051	$ 478,424

NOTE 3. ACCOUNTS RECEIVABLE

Accounts receivable are stated at the amount management expects to collect from balances outstanding at year end. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable. The allowance for uncollectible accounts was estimated to be zero at December 31, 2016 and 2015. The Agency has no policy for charging interest on overdue accounts.

NOTE 4. PLEDGED ASSETS

As described in Note 5, all assets of the Agency are pledged as collateral under the Agency's demand note payable agreement.

NOTE 5. DEMAND NOTE PAYABLE

The Agency has available a revolving line of credit with a bank in the amount of $250,000. The note is payable upon demand, but in the absence of demand, is due on November 30, 2017. Interest is stated at the prime rate plus 1% which result in an interest rate of 4.75% and 4.50% at December 31, 2016 and 2015, respectively. The note is collateralized by all the assets of the Agency.

NOTE 6. TEMPORARILY RESTRICTED NET ASSETS

At December 31, 2016 and 2015, the Agency had $103,280 and $108,595 in net assets temporarily restricted by donor-imposed use restrictions, respectively.

NOTE 7. LEASE COMMITMENTS

Facilities occupied by the Agency for its community service programs are rented under the terms of various operating leases. For the years ended December 31, 2016 and 2015, the annual lease/rent expense for the leased facilities was $120,523 and $169,849, respectively. Certain equipment is leased by the Agency under the terms of various operating leases.

The approximate future minimum lease payments on the above leases are as follows:

Year Ended December 31	Amount
2017	$ 115,758
2018	22,917
2019	8,922
2020	7,104
2021	6,901
Total	$ 161,602

NOTE 8. RETIREMENT PLAN

The Agency maintains a 403(b) Plan and Trust (the Plan) covering substantially all employees. Employee contributions to the Plan are made at predetermined rates elected by employees. Additionally the Agency provides a matching contribution equal to 25% of the employee's contribution up to 5% of the employee's compensation. Effective April 1, 2016, the Agency instituted an auto enrollment feature mandating a minimum 1% employee contribution; however employees reserve the right to decline the auto enrollment. Employer matching contributions for the years ended December 31, 2016 and 2015 totaled $24,366 and $13,047, respectively.

NOTE 9. CONCENTRATION OF RISK

A large percentage of the Agency's total revenue was received from two contractors, the Federal Government and the State of New Hampshire. It is always considered to be at least reasonably possible that either contractor could be lost in the near term; however, Management feels this risk is of no particular concern at this time.

NOTE 10. CONCENTRATION OF CREDIT RISK

The Agency maintains its cash balances at several financial institutions in New Hampshire. The balances are insured by the Federal Deposit Insurance Corporation up to $250,000. The Agency maintains an agreement with its primary financial institution to collateralize the balances in excess of $250,000.

NOTE 11. CONTINGENCIES

The Agency receives grant funding from various sources. Under the terms of these agreements, the Agency is required to use the funds within a certain period and for purposes specified by the governing laws and regulations. If expenditures were found not to have been made in compliance with the laws and regulations, the Agency might be required to repay the funds. No provisions have been made for this contingency because specific amounts, if any, have not been determined or assessed as of December 31, 2016 and 2015.

NOTE 12. SUBSEQUENT EVENTS

Subsequent events are events or transactions that occur after the statement of financial position date, but before financial statements are available to be issued. Recognized subsequent events are events or transactions that provide additional evidence about conditions that existed at the statement of financial position date, including the estimates inherent in the process of preparing financial statements. Nonrecognized subsequent events are events that provide evidence about conditions that did not exist at the statement of financial position date, but arose after that date. Management has evaluated subsequent events through August 15, 2017, the date the December 31, 2016 financial statements were available for issuance.

COMMUNITY ACTION PARTNERSHIP OF STRAFFORD COUNTY

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors of
Community Action Partnership of Strafford County
Dover, New Hampshire

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Community Action Partnership of Strafford County (a New Hampshire nonprofit organization), which comprise the statements of financial position as of December 31, 2016 and 2015, and the related statements of cash flows, and the related notes to the financial statements for the years then ended, and the related statements of activities and functional expenses for the year ended December 31, 2016 and have issued our report thereon dated August 15, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Community Action Partnership of Strafford County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Community Action Partnership of Strafford County's internal control. Accordingly, we do not express an opinion on the effectiveness of Community Action Partnership of Strafford County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Community Action Partnership of Strafford County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

COMMUNITY ACTION PARTNERSHIP OF STRAFFORD COUNTY

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Directors of
Community Action Partnership of Strafford County
Dover, New Hampshire

Report on Compliance for Each Major Federal Program

We have audited Community Action Partnership of Strafford County's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Community Action Partnership of Strafford County's major federal programs for the year ended December 31, 2016. Community Action Partnership of Strafford County's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Community Action Partnership of Strafford County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Community Action Partnership of Strafford County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Community Action Partnership of Strafford County's compliance.

Opinion on Each Major Federal Program

In our opinion, Community Action Partnership of Strafford County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2016.

Report on Internal Control Over Compliance

Management of Community Action Partnership of Strafford County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Community Action Partnership of Strafford County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Community Action Partnership of Strafford County's internal control over compliance.

A *deficiency in internal control* over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

EXPLANATION

The purpose of this request is to renew contract services with these vendors for an additional two years. For a detailed summary of the changes please see attachment.

Comprehensive Family Support Services assist pregnant women and families with children up to the age of twenty-one (21) by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents to give families an opportunity to learn and grow.

The Division for Children, Youth and Families and the Division of Public Health Services have blended three family health and support related programs in to one program which is now represented as the Comprehensive Family Support Services.

Currently, there are twenty-five (25) community based family resource centers in operation across the State which provide a range of support services to families and children that focus on strengthening, supporting and building on the strengths and skills of individuals while also ensuring developmental screening for children six (6) and under. These centers are often key local stakeholders in groups that assess and advocate for the needs of local families.

The original contracts were competitively bid.

These contracts contain language which allows for the right to renew for up to four additional years based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

The Comprehensive Family Support Services program has served a total of 871 families and 1664 children in 2014. As a result, ninety-five percent (95%) of the families served achieved successful outcomes and remained uninvolved in a Division abuse or neglect case. The Division is satisfied with the services provided and is requesting approval to exercise two years of the renewal option reserving the Division's option to renew for the remaining two years based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

Should the Governor and Executive Council not authorize this request, the flexibility of community based family services may not be available to address the needs of children and families throughout the state which could cause an increase in the Division for Children, Youth and Families involvement for out of home placements. The services provided through these agreements help prevent separation of children from their families and afford them a safe, stable and supportive family environment.

SPECIAL PROVISIONS

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.

2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.

3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.

4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.

5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.

6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
   7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
   7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

RECORDS: MAINTENANCE, RETENTION, AUDIT, DISCLOSURE AND CONFIDENTIALITY:

8. **Maintenance of Records:** In addition to the eligibility records specified above, the Contractor covenants and agrees to maintain the following records during the Contract Period:
   8.1. Fiscal Records: books, records, documents and other data evidencing and reflecting all costs and other expenses incurred by the Contractor in the performance of the Contract, and all income received or collected by the Contractor during the Contract Period, said records to be maintained in accordance with accounting procedures and practices which sufficiently and properly reflect all such costs and expenses, and which are acceptable to the Department, and to include, without limitation, all ledgers, books, records, and original evidence of costs such as purchase requisitions and orders, vouchers, requisitions for materials, inventories, valuations of in-kind contributions, labor time cards, payrolls, and other records requested or required by the Department.
   8.2. Statistical Records: Statistical, enrollment, attendance or visit records for each recipient of services during the Contract Period, which records shall include all records of application and eligibility (including all forms required to determine eligibility for each such recipient), records regarding the provision of services and all invoices submitted to the Department to obtain payment for such services.
   8.3. Medical Records: Where appropriate and as prescribed by the Department regulations, the Contractor shall retain medical records on each patient/recipient of services.

9. **Audit:** Contractor shall submit an annual audit to the Department within 60 days after the close of the agency fiscal year. It is recommended that the report be prepared in accordance with the provision of Office of Management and Budget Circular A-133, "Audits of States, Local Governments, and Non Profit Organizations" and the provisions of Standards for Audit of Governmental Organizations, Programs, Activities and Functions, issued by the US General Accounting Office (GAO standards) as they pertain to financial compliance audits.
   9.1. Audit and Review: During the term of this Contract and the period for retention hereunder, the Department, the United States Department of Health and Human Services, and any of their designated representatives shall have access to all reports and records maintained pursuant to the Contract for purposes of audit, examination, excerpts and transcripts.
   9.2. Audit Liabilities: In addition to and not in any way in limitation of obligations of the Contract, it is understood and agreed by the Contractor that the Contractor shall be held liable for any state or federal audit exceptions and shall return to the Department, all payments made under the Contract to which exception has been taken or which have been disallowed because of such an exception.

10. **Confidentiality of Records:** All information, reports, and records maintained hereunder or collected in connection with the performance of the services and the Contract shall be confidential and shall not be disclosed by the Contractor, provided however, that pursuant to state laws and the regulations of the Department regarding the use and disclosure of such information, disclosure may be made to public officials requiring such information in connection with their official duties and for purposes directly connected to the administration of the services and the Contract; and provided further, that the use or disclosure by any party of any information concerning a recipient for any purpose not directly connected with the administration of the Department or the Contractor's responsibilities with respect to purchased services hereunder is prohibited except on written consent of the recipient, his attorney or guardian.

Notwithstanding anything to the contrary contained herein the covenants and conditions contained in the Paragraph shall survive the termination of the Contract for any reason whatsoever.

11. **Reports:** Fiscal and Statistical: The Contractor agrees to submit the following reports at the following times if requested by the Department.
    11.1. Interim Financial Reports: Written interim financial reports containing a detailed description of all costs and non-allowable expenses incurred by the Contractor to the date of the report and containing such other information as shall be deemed satisfactory by the Department to justify the rate of payment hereunder. Such Financial Reports shall be submitted on the form designated by the Department or deemed satisfactory by the Department.
    11.2. Final Report: A final report shall be submitted within thirty (30) days after the end of the term of this Contract. The Final Report shall be in a form satisfactory to the Department and shall contain a summary statement of progress toward goals and objectives stated in the Proposal and other information required by the Department.

12. **Completion of Services:** Disallowance of Costs: Upon the purchase by the Department of the maximum number of units provided for in the Contract and upon payment of the price limitation hereunder, the Contract and all the obligations of the parties hereunder (except such obligations as, by the terms of the Contract are to be performed after the end of the term of this Contract and/or survive the termination of the Contract) shall terminate, provided however, that if, upon review of the Final Expenditure Report the Department shall disallow any expenses claimed by the Contractor as costs hereunder the Department shall retain the right, at its discretion, to deduct the amount of such expenses as are disallowed or to recover such sums from the Contractor.

13. **Credits:** All documents, notices, press releases, research reports and other materials prepared during or resulting from the performance of the services of the Contract shall include the following statement:
    13.1. The preparation of this (report, document etc.) was financed under a Contract with the State of New Hampshire, Department of Health and Human Services, with funds provided in part by the State of New Hampshire and/or such other funding sources as were available or required, e.g., the United States Department of Health and Human Services.

14. **Prior Approval and Copyright Ownership:** All materials (written, video, audio) produced or purchased under the contract shall have prior approval from DHHS before printing, production, distribution or use. The DHHS will retain copyright ownership for any and all original materials produced, including, but not limited to, brochures, resource directories, protocols or guidelines, posters, or reports. Contractor shall not reproduce any materials produced under the contract without prior written approval from DHHS.

15. **Operation of Facilities: Compliance with Laws and Regulations:** In the operation of any facilities for providing services, the Contractor shall comply with all laws, orders and regulations of federal, state, county and municipal authorities and with any direction of any Public Officer or officers pursuant to laws which shall impose an order or duty upon the contractor with respect to the operation of the facility or the provision of the services at such facility. If any governmental license or permit shall be required for the operation of the said facility or the performance of the said services, the Contractor will procure said license or permit, and will at all times comply with the terms and conditions of each such license or permit. In connection with the foregoing requirements, the Contractor hereby covenants and agrees that, during the term of this Contract the facilities shall comply with all rules, orders, regulations, and requirements of the State Office of the Fire Marshal and the local fire protection agency, and shall be in conformance with local building and zoning codes, by-laws and regulations.

16. **Equal Employment Opportunity Plan (EEOP):** The Contractor will provide an Equal Employment Opportunity Plan (EEOP) to the Office for Civil Rights, Office of Justice Programs (OCR), if it has received a single award of $500,000 or more. If the recipient receives $25,000 or more and has 50 or

more employees, it will maintain a current EEOP on file and submit an EEOP Certification Form to the OCR, certifying that its EEOP is on file. For recipients receiving less than $25,000, or public grantees with fewer than 50 employees, regardless of the amount of the award, the recipient will provide an EEOP Certification Form to the OCR certifying it is not required to submit or maintain an EEOP. Non-profit organizations, Indian Tribes, and medical and educational institutions are exempt from the EEOP requirement, but are required to submit a certification form to the OCR to claim the exemption. 17. **Limited English Proficiency (LEP)**: As clarified by Executive Order 13166, Improving Access to Services for persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination on the basis of limited English proficiency (LEP). (a) This contract and employees working on this contract will be subject to the whistleblower rights and remedies in the pilot program on Contractor employee whistleblower protections established at 41 U.S.C. 4712 by section 828 of the National Defense Authorization Act for Fiscal Year 2013 (Pub. L. 112-239) and FAR 3.908.

19. **Subcontractors:** DHHS recognizes that the Contractor may choose to use subcontractors with greater expertise to perform certain health care services or functions for efficiency or convenience, but the Contractor shall retain the responsibility and accountability for the function(s). Prior to subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

    19.1. Evaluate the prospective subcontractor's ability to perform the activities, before delegating the function

INDEPENDENT AUDITORS' REPORT

Report on the Financial Statements

We have audited the accompanying financial statements of Community Action Partnership of Strafford County (a New Hampshire nonprofit organization), which comprise the statements of financial position as of December 31, 2014 and 2013, and the related statements of cash flows, and notes to the financial statements for the years then ended, and the related statements of activities and functional expenses for the year ended December 31, 2014.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Community Action Partnership of Strafford County as of December 31, 2014 and 2013, and its cash flows for the years then ended, and the changes in its net assets for the year ended December 31, 2014 in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

We have previously audited Community Action Partnership of Strafford County's 2013 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated June 24, 2014. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2013, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Matters

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 10, 2015, on our consideration of Community Action Partnership of Strafford County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Community Action Partnership of Strafford County's internal control over financial reporting and compliance.

NOTE 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Organization

Community Action Partnership of Strafford County (the Agency) is a 501(c)(3) private New Hampshire non-profit organization established under the provisions of the Equal Opportunity Act of 1964. Without services provided by the Agency, many local residents would be without a means to provide for their basic needs, including food, education, child care, utilities assistance, transportation, housing, emergency shelter and access to other services. The mission of the Agency is to educate, advocate and assist people in Strafford County to help meet their basic needs and promote self-sufficiency. The vision of the Agency is to eliminate poverty in Strafford County through compassion, education, self-sufficiency, transparency, accountability, team work, client focus and professionalism.

In addition to its administrative office located in Dover, the Agency maintains its outreach capacity by operating program offices in Farmington, Milton, Rochester, Dover and Somersworth. The Agency is funded by Federal, state, county and local funds, as well as United Way grants, public utilities, foundation and charitable grant funds, fees for service, private business donations, and donations from individuals. The Agency is governed by a tripartite board of directors made up of elected officials, community leaders from for-profit and non-profit organizations and residents who are low income. The board is responsible for assuring that the Agency continues to assess and respond to the causes and conditions of poverty in its community, achieve anticipated family and community outcomes, and remain administratively and fiscally sound. The Agency administers a wide range of coordinated programs to more than 15,000 people annually, and the programs are designed to have a measureable impact on poverty and health status among the most vulnerable residents: those under the age of 6, the elderly and those living in poverty. This coordinated approach is accomplished by providing a broad array of services that are locally defined, planned and managed with community agencies.

Basis of Accounting

The financial statements have been prepared using the accrual basis of accounting in accordance with Generally Accepted Accounting Principles (GAAP) of the United States.

Financial Statement Presentation

The financial statement presentation follows the recommendations of the Accounting Standard Codification No. 958-210, *Financial Statements of Not-For-Profit Organizations*. Under FASB ASC No. 958-210, the Agency is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets

and permanently restricted net assets. The classes of net assets are determined by the presence or absence of donor restrictions.

Unrestricted: Net assets that are not subject to donor-imposed stipulations. Unrestricted net assets may be designated for specific purposes by action of the Board of Directors.

Temporarily Restricted: Net assets whose use is limited by donor imposed stipulations that will either expire with the passage of time or be fulfilled or removed by actions of the Agency.

Permanently Restricted: Net assets reflecting the historical cost of gifts (and in certain circumstances, the earnings from those gifts), subject to donor-imposed stipulations, which require the corpus to be invested in perpetuity to produce income for general or specific purposes.

At December 31, 2014 and 2013 the Agency had unrestricted and temporarily restricted net assets.

Refundable Advances
Grants received in advance are recorded as refundable advances and recognized as revenue in the period in which the related services are performed or expenditures are incurred.

Contributions
All contributions are considered to be available for unrestricted use unless specifically restricted by donor. Amounts received that are restricted by the donor for future periods or for specific purposes are reported as temporarily restricted or permanently restricted support, depending on the nature of the restriction. However, if a restriction is fulfilled in the same period in which the contribution is received, the Agency reports the support as unrestricted.

Contributed Services
Donated services are recognized as contributions in accordance with FASB ASC No. 958, *Accounting for Contributions Received and Contributions Made,* if the services (a) create or enhance non-financial assets or (b) require specialized skills, and would otherwise be purchased by the Agency.

Volunteers provided various services throughout the year that are not recognized as contributions in the financial statements since the recognition criteria under FASB ASC No. 958 were not met.

Fair Value of Financial Instruments
Accounting Standard Codification No. 825, "Financial Instruments", requires the Agency to disclose estimated fair value for its financial instruments. The carrying amounts of cash, investments, accounts receivable, prepaid expenses, inventory, accounts payable, accrued expenses, and refundable advances approximate fair value because of the short maturity of those instruments.

Inventory
Inventory materials are fixtures for installation and recorded at cost or contributed value, using the first-in, first-out method.

Property and Depreciation
Property and equipment, which have a cost greater than $5,000, are capitalized at cost or, if donated, at the approximate fair value at the date of donation. Specific grants and awards may have a threshold lower than this amount and that program will abide by those guidelines. Assets are depreciated over their estimated useful lives using the straight-line method as follows:

Buildings and improvements	15 - 40 years
Furniture, equipment and machinery	3 - 10 years
Vehicles	5 - 7 years

Depreciation expense aggregated $69,333 and $78,719 for the years ended December 31, 2014 and 2013, respectively.

Accrued Earned Time
The Agency has accrued a liability of $78,154 and $80,592 at December 31, 2014 and 2013, respectively, for future compensated leave time that its employees have earned and which is vested with the employee.

Income Taxes
The Agency is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. The Internal Revenue Service has determined the Agency to be other than a private foundation. The Agency is also exempt from the New Hampshire Business Enterprise Tax.

Accounting Standard Codification No. 740, "Accounting for Income Taxes", establishes the minimum threshold for recognizing, and a system for measuring, the benefits of tax return positions in financial statements. Management has analyzed the Agency's tax position taken on its information returns for the years (2011 through 2014), for the purposes of implementation, and has concluded that no additional provision for income taxes is necessary in the Agency's financial statements.

Cash and Cash Equivalents
The Agency considers all highly liquid financial instruments with original maturities of three months or less to be cash equivalents.

Use of Estimates
The presentation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Advertising Expenses
The Agency expenses advertising costs as they are incurred. Total advertising costs for the years ended December 31, 2014 and 2013 amounted to $12,641 and $15,498, respectively.

In-kind Donations
The Agency pays below-market rent for the use of certain facilities. In accordance with generally accepted accounting principles, the difference between amounts paid for the use of the facilities and the fair market value of the rental space has been recorded as an in-kind donation and as an in-kind expense in the accompanying financial statements. The estimated fair value of the donation was determined to be $199,684 and $209,139 for the years ended December 31, 2014 and 2013, respectively.

The Agency also receives contributed professional services that are required to be recorded in accordance with FASB ASC No. 958. The estimated fair value of these services was determined to be $82,809 and $106,027 for the years ended December 31, 2014 and 2013, respectively.

The Agency also receives contributed food commodities and other goods that are required to be recorded in accordance with FASB ASC No. 958. The estimated fair value of these food commodities and goods was determined to be $132,268 and $25,070, respectively, for the year ended December 31, 2014. For the year ended December 31, 2013, the estimated fair value of these food commodities and goods was determined to be $170,871 and $12,207, respectively.

The Agency also received, in the form of an in-kind contribution, a portion of a bus that was placed in service during the year ended December 31, 2013. Under the terms of the agreement the Agency paid approximately $5,333 and received a bus with a value of approximately $53,834.

Functional Allocation of Expenses
The costs of providing the various programs and other activities have been summarized on a functional basis. Accordingly, costs have been allocated among the programs and supporting activities benefited.

Subsequent Events
Subsequent events have been evaluated through June 10, 2015, which is the date that the financial statements were available to be issued.

NOTE 12. CONCENTRATION OF CREDIT RISK

The Agency maintains its cash balances at several financial institutions in New Hampshire. The balances are insured by the Federal Deposit Insurance Corporation up to $250,000. The Agency maintains an agreement with its primary financial institution to collateralize the balances in excess of $250,000. At December 31, 2014 and 2013, there were no uninsured cash balances.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors of
Community Action Partnership of Strafford County
Dover, New Hampshire

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Community Action Partnership of Strafford County (a New Hampshire nonprofit organization), which comprise the statements of financial position as of December 31, 2014 and 2013, and the related statements of cash flows for the years then ended, and the related notes to the financial statements, and the related statements of activities and functional expenses for the year ended December 31, 2014 and have issued our report thereon dated June 10, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Community Action Partnership of Strafford County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Community Action Partnership of Strafford County's internal control. Accordingly, we do not express an opinion on the effectiveness of Community Action Partnership of Strafford County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Community Action Partnership of Strafford County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

COMMUNITY ACTION PARTNERSHIP OF STRAFFORD COUNTY

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

To the Board of Directors of
Community Action Partnership of Strafford County
Dover, New Hampshire

Report on Compliance for Each Major Federal Program

We have audited Community Action Partnership of Strafford County's (a New Hampshire nonprofit organization) compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Community Action Partnership of Strafford County's major federal programs for the year ended December 31, 2014. Community Action Partnership of Strafford County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Community Action Partnership of Strafford County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Community Action Partnership of Strafford County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Community Action Partnership of Strafford County's compliance.

Opinion on Each Major Federal Program

In our opinion, Community Action Partnership of Strafford County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2014.

Report on Internal Control Over Compliance

Management of Community Action Partnership of Strafford County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Community Action Partnership of Strafford County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Community Action Partnership of Strafford County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

EXPLANATION

Comprehensive Family Support Services assist pregnant women and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. These services are designed to enable families to access the services they need and want in their home communities. These prevention services empower parents and give families an opportunity to learn and grow.

The Division for Children, Youth and Families and Division of Public Health Services /Maternal Child Health Services blended three family health and support related programs, into one program. This Comprehensive Family Support Services represents such efforts.

New Hampshire DHHS Comprehensive Family Support Services:

In 2002, The Division for Children, Youth and Families, launched a family support partnership, entitled Comprehensive Family Support Services. Support and prevention-based services and programs were provided to thousands families and individuals throughout the state. Due to the success of these prevention-oriented programs, the Division for Children, Youth and Families has recognized the benefit of provider services to families as an effort to keep them from becoming involved in other systems of care.

Currently, there are 25 community-based family resource centers in operation across the State of New Hampshire, which provide a range of support services to families and children that focus on strengthening, supporting and building on the strengths and skills of individuals while also ensuring developmental screening for children six and under. These centers are often key local stakeholders in groups that assess and advocate for the needs of local families.

New Hampshire DHHS Home Visiting NH:

In 2001, the Division of Public Health Services Maternal and Child Health Section began Home Visiting New Hampshire, a statewide, family focused and child centered, preventive program that provides, health, education, support and linkages to community services to eligible, pregnant women and their families in their home until her child is twelve (12) months old. Contractors provide these services in nine (9) of the Division for Children, Youth and Families service areas. The goals of Home Visiting New Hampshire are to promote healthy pregnancy and birth outcomes, promote a safe and nurturing environment for children, and enhance families' life course and development.

Child and Family Health Support Services:

Child and Family Health Support Services have been available through local community health and home visiting agencies for approximately twenty years with funds that had previously supported the state's network of "well baby clinics". These services provide assistance with health care enrollment, referrals, case management, care coordination, education and counseling relative to the child and family and can be conducted by home, office visit or by telephone when appropriate. The goal of Child and Family Health Support Services is to promote the health and well-being of children from birth through age eighteen, with priority given to children birth through age ten.

This contract was competitively bid. On January 21, 2014 the Department issued a Request for Proposals to solicit proposals for the provision of Comprehensive Family Support Services to assist expectant women along with children and families with children up to the age of 21 years by promoting family wellness, decreasing family stressors and preventing child abuse and neglect. The request for proposals was available on the Department of Health and Human Services website from January 21, 2014 through March 10, 2014. There were 12 proposals submitted.

The proposals were evaluated by a team of Department of Health and Human Services employees with knowledge of the program requirements, the Division for Children, Youth and Families' Comprehensive Family Support Services program and the Division of Public Health Services, Maternal and Child Health Section. The team also included staff with significant business and management expertise.

The proposals were evaluated based on the criteria published in the Request for Proposals. Eleven of the twelve proposals were selected. The bid summary is attached.

The attached contract calls for the provision of these services for two years and reserves the Division's right to renew the agreement for up to four additional years, based upon the satisfactory delivery of services, continued availability of supporting funds, and Governor and Executive Council approval.

Should Governor and Council not authorize this request, the flexibility of community–based family services may not be available to address the needs of children and families throughout the state which could cause an increase in the Division for Children, Youth and Families involvement for out-of-home placement, as these services help to prevent the separation of children from their families and afford them a safe, stable and supportive family environment.

Area Served: Statewide.

Source of Funds: 95.34% Federal Funds
4.66% General Funds

In the event that Federal Funds are no longer available, no additional General Funds will be requested to support this program.
