Dept Environmental Services, Drinking Water and Groundwater Trust, Grants Non-Federal	\$2,600,000

EXPLANATION

The Drinking Water and Ground Water Trust Fund was created in 2016, using \$276 million of MtBE trial judgement funds, as authorized by RSA 485-F. The purpose of the Trust Fund is to provide sustainable, long-term funding for the protection, preservation, and enhancement of the drinking water and groundwater resources of the state. The Drinking Water and Groundwater Advisory Commission was established to administer the Trust Fund and to provide guidance to the State on the use of the Trust Fund.

On November 2, 2017, the Advisory Commission voted to authorize ten grants and eleven loans to various communities for drinking water improvement projects. The City of Dover's Aquifer Recharge and Interconnection Project request for \$2,600,000 was on the list for an initial round of funding from the Drinking Water and Groundwater Trust Fund. The City will use the grant funds to complete an interconnection with the City of Somersworth's drinking water system, which will act as an emergency supply for both systems in the event a well must be taken offline or other water system emergency. Additionally, the City will construct an aquifer recharge station in the Pudding Hill Aquifer. The recharge facility will withdraw water from the Bellamy River to be discharged to constructed sand basins to recharge water supply wells.

This agreement has been approved by the Attorney General's Office as to form, substance and execution.

We respectfully request your approval.

Robert R. Scott
Commissioner
