Table with 5 columns: Account Number, FY 2018, FY 2019, FY 2020, FY 2021. Rows include Consolidated Federal Aid and Gen Consultants Non-Benefit.

The Consolidated Federal Fund, AU 3054, is utilized at this time to encumber funds for this request. Actual funding sources will be determined by each particular project incurring expenses as a result of this request.

EXPLANATION

The Department requires professional construction engineering and inspection consultant services for various transportation projects located throughout the state. Contracts with three consultant firms are needed to supplement the Bureau of Construction's staff in order to increase its capacity to address construction inspection needs on single or multiple construction projects.

The consultant selection process employed by the Department for this qualifications-based contract is in accordance with RSAs 21-I:22, 21-I:22-c, 21-I:22-d, 228:4 and 228:5-a, and all applicable Federal laws and the Department's "Policies and Procedures for Consultant Contract Procurement, Management, and Administration" dated August 25, 2017.

The consultant selection process for this qualifications-based contract was initiated by a solicitation for consultant services for three (3) Statewide On-Call Construction Engineering and Inspection Services contracts. The assignment was listed as a "Project Soliciting for Interest" on the Department's website on March 10, 2017, asking for letters of interest from qualified firms.

Assistant Commissioner. Upon receipt of that approval, six shortlisted firms were notified on May 9, 2017 through a technical "Request For Proposal" (RFP). Committee members individually rated the firms' technical proposals on June 22, 2017 using a written ballot to score each firm on the basis of comprehension of the assignment, clarity of the proposal, capacity to perform in a timely manner, quality and experience of the project manager and the team, and overall suitability for the assignment. (A compilation of the completed individual rating ballots and the ranking summary form is attached.) The individual rankings were then totaled to provide an overall ranking of the six firms, and the Committee's ranking was submitted to the Assistant Commissioner for consideration and approval. Upon receipt of the Assistant Commissioner's approval, the short listed firms were notified of the results and the three (3) highest-ranking firms were asked to submit a fee proposal for negotiations.

The long list of thirteen (13) consultant firms that were considered for this assignment, with the six short-listed firms shown in bold, is as follows:
