

Victoria F. Sheehan
Commissioner

THE STATE OF NEW HAMPSHIRE
• DEPARTMENT OF TRANSPORTATION

William Cass, P.E.
Assistant Commissioner

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire 03301

Bureau of Construction
August 30, 2018

REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with Austin Construction, Inc. dba Stephen Austin Co. (Vendor 275378) of Concord, VT on the basis of a low bid of \$1,007,031.60 for replacement of the bridge carrying NH 18 over the Lafayette Brook, from the date of Governor and Council approval through July 26, 2019 unless extended by the Department in accordance with the Standard Specifications. 100% General Funds.

Funding is available in State Fiscal Year 2019 and is contingent upon the availability and continued appropriation of funds in Fiscal Year 2020 as follows, with the ability to adjust encumbrances through the Budget Office between State Fiscal Years if needed and justified:

Funding is available as follows:	<u>FY 2019</u>	<u>FY 2020</u>
04-96-963010-3897		
State-Owned Bridge Construction		
400-500870 Highway Contract Payments	\$900,000.00	\$107,031.60

2. Further authorize that a contingency in the amount of \$50,351.58 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 5% of the contract amount.

Funding is available as follows:	<u>FY 2019</u>	<u>FY 2020</u>
04-96-963010-3897		
State-Owned Bridge Construction		
400-500870 Highway Contract Payments		\$50,351.58

EXPLANATION

This project is part of the State's Ten Year Transportation Improvement Plan. This project involves the rehabilitation of the Red List bridge (Br. No. 089/099) that carries NH 18 over Lafayette Brook, and associated approach roadway improvements. The bridge is located on NH 18 approximately 2.6 miles north of I-93 Exit 34C, near the intersection of NH 18 and NH 141. The work begins on NH 18 approximately 350 feet south of the bridge, and continues northerly across the bridge approximately 775 feet. The work begins on NH 141 approximately 225 feet east of the intersection with NH 18, and continues westerly to the intersection with NH 18.

This project primarily involves addressing a Red List bridge by replacing the bridge superstructure. The existing bridge, built in 1932, has been on the Department's Red List of deficient bridges since 2010 due to the poor condition of the superstructure. Additionally, the project involves full box roadway reconstruction at the approaches to the bridge of approximately 350 feet of NH 18, and 180 feet of NH 141.

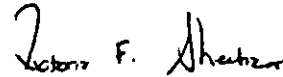

The contingency amount is proposed to be 5% of the construction total. The following factors involve higher risks that can potentially increase costs: inability to inspect some areas of the bridge prior to removal of the superstructure; accelerated schedule for the bridge work; and higher risks associated with working on older bridges.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project is 100% General funded with Red List Bridge appropriation from HB1817.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

Victoria F. Sheehan
Commissioner

VFS/md

Department Estimate: \$1,066,814.25
Contract Amount: \$1,007,031.60
Under Estimate: \$ 59,782.65

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This project involves the rehabilitation of the Red List bridge (Br. No. 089/099) that carries NH 18 over Lafayette Brook, and associated approach roadway improvements. The bridge is located on NH 18 approximately 2.6 miles north of I-93 Exit 34C, near the intersection of NH 18 and NH 141. The work begins on NH 18 approximately 350 feet south of the bridge, and continues northerly across the bridge approximately 775 feet. The work begins on NH 141 approximately 225 feet east of the intersection with NH 18, and continues westerly to the intersection with NH 18.

FEDERAL FUNDING: 100% Funded with revenue from HB1817 (PE and ROW: 80% federal funding with utilization of turnpike toll credits for the State's 20% match).

CONTINGENCY: The contingency amount is proposed to be 5% of the construction total. The following factors involve higher risks that can potentially increase costs: inability to inspect some areas of the bridge prior to removal of the superstructure; accelerated schedule for the bridge work; and higher risks associated with working on older bridges.

PROJECT INITIATED: State's 10-Year Transportation Improvement Plan.

PROJECT EXPLANATION: This project primarily involves addressing a Red List bridge by replacing the bridge superstructure. The existing bridge, built in 1932, has been on the Department's Red List of deficient bridges since 2010 due to the poor condition of the superstructure. Additionally, the project involves full box roadway reconstruction at the approaches to the bridge of approximately 350 feet of NH 18, and 180 feet of NH 141.

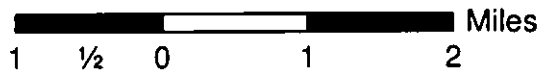

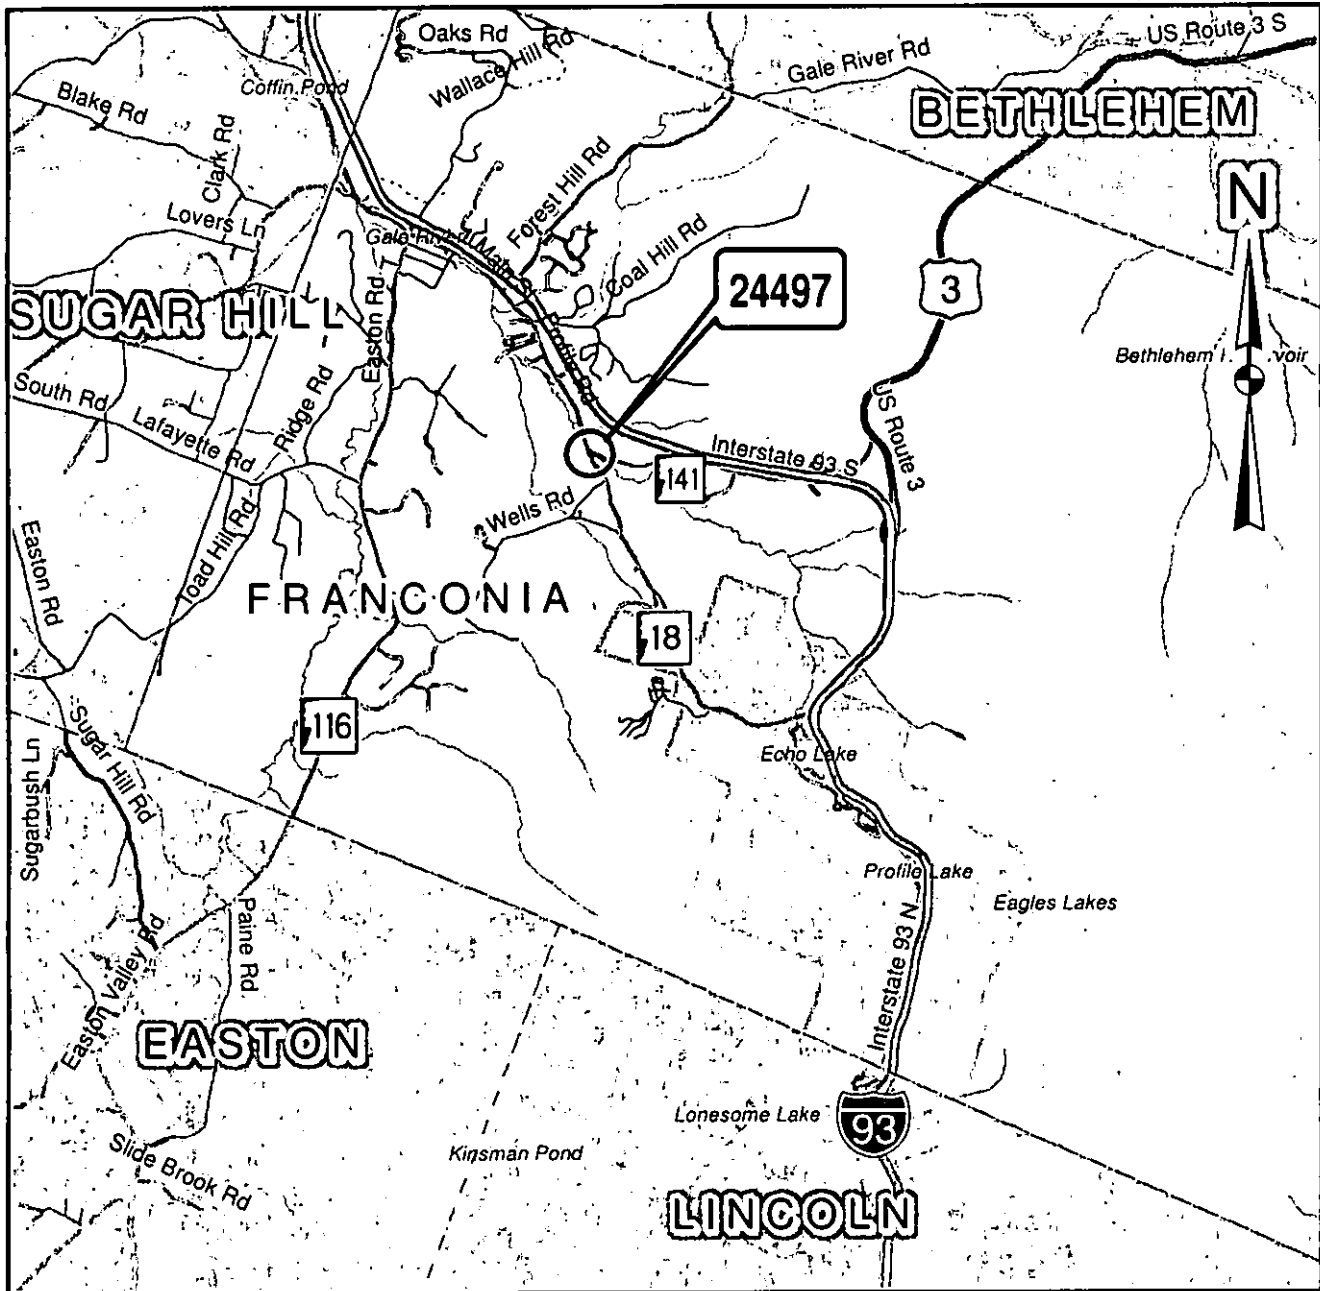

TRAFFIC IMPLICATION: The bridge will be closed, and traffic detoured via I-93 and NH 141 during bridge superstructure removal and replacement operations, for a period not to exceed 52 calendar days. The bridge closure will not begin prior to April 2, 2019. Short-term, temporary lane closures will be permitted with the approval of the Contract Administrator for other construction operations outside of the closure period.

INTERMEDIATE COMPLETION DATE: The intermediate completion date is as follows:

Two-Lane, Two-Way Traffic Pattern Restored, Detour Condition Removed: The bridge construction operations will be complete, except for diamond grinding of the concrete bridge deck, with traffic restored to a two-lane, two-way traffic pattern on 10-foot (min.) wide lanes, and with the roadway approaches paved to binder course no later than 52 calendar days after the date when the bridge is closed and traffic detoured. This date will be no later than June 14, 2019.

COMPLETION DATE: July 26, 2019
