Explanation

This MOA is sole source for the State of New Hampshire due to the Commonwealth of Kentucky being the lead state and hosting jurisdiction as explained below; therefore, Kentucky's vendor selection and procurement processes were utilized. This MOA provides for the continued facilitation of the IFTA and a continued basis for the processing of New Hampshire's IFTA tax returns. This agreement is necessary as the Department of Safety's Road Toll and Field Audit Bureaus are responsible for collecting the Motor Vehicle Road Toll. These responsibilities include the administration, processing of returns, and auditing of the IFTA licensees whose operations are based in New Hampshire but who travel throughout the participating IFTA jurisdictions. IFTA consists of the 48 contiguous states and ten Canadian provinces.

New Hampshire and the jurisdictions of California, Connecticut, Kentucky, Maryland, Michigan, and Nevada joined together under this MOA to continue a multi-jurisdictional processing with Kentucky being the hosting jurisdiction and the lead state. By participating in the consortium, the Department is able to leverage the purchasing power of seven states which has resulted in cost savings that could not be achieved if NH were to do it alone.

Respectfully submitted,

Except as set forth in Subsection 2 of this Section, this Article shall apply to the exchange of any information in the possession of one participant jurisdiction which could reasonably be considered useful to other participant jurisdictions for the facilitation of tax administration. Such information includes, but is not limited to, lists of taxpayers or potential taxpayers including identifying data; tax or information returns or documents including supporting schedules, attachments, and lists; nexus information and questionnaires; research and revenue estimating materials; audit reports and other information regarding audit; collection and enforcement activities; appeals and criminal tax matters with respect to any taxpayer or group of taxpayers.
2. Information not Subject to Exchange. Notwithstanding Article I, the following information shall not be subject to exchange:
 - A. Information received from the U.S. Internal Revenue Service pursuant to Section 6103(d) of the Internal Revenue Code, or any other U.S. federal agency, unless the exchange is authorized in advance by the U.S. Internal Revenue Service or such other U.S. federal agency;

 - D. Information the disclosure of which is not in accord with the IPCMOA in the judgment of the participant jurisdiction from which the information is sought.

SECTION III. CONFIDENTIALITY

1. Each participant jurisdiction shall inform the others of the current statutory provisions of its state or province concerning confidentiality of the information exchanged, the penalties for unlawful disclosure thereof, and any amendments thereto, by providing this information to the primary clearinghouse.
2. The primary clearinghouse shall distribute the applicable statutory provisions of the state or province of each Signatory agency as they apply to the exchange of information pursuant to the IPCMOA including destruction policy. Each participant jurisdiction shall, at least annually, update the information by providing notification of any amendments to the primary clearinghouse at least 30 days prior to the effective date of such amendments when possible. The primary clearinghouse shall then notify the agency head, or his or her designee, of each Signatory agency of such amendments in a timely manner.

3. Each Signatory agency agrees to protect the confidentiality of any information obtained pursuant to the IPCMOA in accordance with the laws of its state or province; provided, however, notwithstanding the above, no participant jurisdiction to this IPCMOA shall disclose any information obtained pursuant to the IPCMOA to any other state or province without the explicit consent of the participant jurisdiction furnishing the information. In addition, no participant jurisdiction shall disclose any information obtained pursuant to the IPCMOA to any other agency, department or unit within the receiving state or province, or to any local government unit, except as otherwise provided in Section III, Subsection 4. Further, no information obtained pursuant to the IPCMOA shall be disclosed to officers, employees, or other members of a state or provincial legislature, except as required by the laws of the state or province of the receiving agency for purposes of an audit of the state or provincial tax agency or for the purposes of the audit of a refund of tax.
4. Nothing herein shall be construed so as to prohibit disclosure of any information obtained by virtue of the IPCMOA to the following:
 - A. Other employees, agents or authorized representatives of the receiving party who are charged with tax administration;
 - B. A legal representative of the receiving party for use in administrative, civil or criminal proceedings concerning tax administration purposes;
 - C. Other state or provincial employees, agents or authorized representatives to whom such disclosure is necessary in connection with the processing, storage, and transmission of such information;
 - D. Other state or provincial employees, agents or authorized representatives, charged by that state's or province's laws with the responsibility of auditing the activity of the signatory agencies; or,
 - E. To a duly designated officer of a state or provincial audit agency in conjunction with an audit of the state or province IFTA tax agency or for the purposes of the audit of a refund of IFTA tax.
5. Signatory agencies should require that independent contractors, consultants, agents or authorized representatives comply with all applicable confidentiality provisions prohibiting disclosure of any information obtained by virtue of the IPCMOA and should hold said parties subject to applicable penalties and/or prosecution for such unlawful disclosure under the civil and criminal laws of the state or province of the receiving agency.

SECTION IV. PROCEDURES FOR EXCHANGE OF INFORMATION

1. Types of Exchange.

- A. This provision of the IPCMOA constitutes a request by each Signatory agency for information obtained by any other participant jurisdiction or participant jurisdictions relative to the probable taxability of any taxpayer in the state or province of the Signatory agency, when practical.
- B. Information may be exchanged upon request, voluntarily transmitted, or on-line access (4.1A users only) granted where the providing participant jurisdiction believes that such information will be useful to the other participant jurisdiction for tax administration purposes. The providing participant jurisdiction may forward to the other participant jurisdiction sufficient details required to make a request for the information as provided in Section IV, Subsection 3 of the IPCMOA.
- C. The exchange may be on a one-time basis (e.g., request for one-quarters returns, etc.) or it may be established on an ongoing basis. Two or more agencies may establish written procedures regarding the method and frequency of the exchange based on their individual requirements.
- D. The exchange may also be through on-line access (4.1A users only) into the IFTA return processing system where the providing participant jurisdiction believes that such information will be useful to the requesting participant jurisdiction(s) for tax administration purposes. On-line access may be on a one-time basis (i.e., renewed annually) or it may be established on an ongoing basis. All requests must be authorized by the base participant jurisdiction and communicated to the primary clearinghouse for initiation of user access, which will be log-on specific, for the requesting participant jurisdiction. Authorization of on-line capability of IFTA information is encouraged.

2. Requirements of Persons Designated to Request and Receive Information.

- A. Each Signatory agency shall designate to the others, in writing or by verifiable electronic means, the personnel authorized to request and receive tax information on its behalf under the terms of the IPCMOA by providing, in writing, such information to the primary clearinghouse. Each party agrees to at least annually supply a list of authorized personnel to the primary clearinghouse. The primary clearinghouse shall provide all such information to each Signatory agency. The primary clearinghouse shall not be designated to receive any confidential information, but shall function as provided in Article II, paragraph 6.
- B. If there is any change affecting any designated individual's right of access to tax information or status as a participant jurisdiction's representative, the participant jurisdiction shall immediately advise the primary clearinghouse of such a change, in writing or verifiable electronic means, specifying that such individual is no longer

authorized to request and receive tax information. The primary clearinghouse shall immediately provide such information to each Signatory agency.

3. Requests for Information Between Participant Jurisdictions.

- A. Information may be requested at any time by any Signatory agency. Informal (e.g., telephone) inquiries regarding the availability of information for exchange are encouraged. Such inquiries will be verified, through a phone call, to a designee of the requesting participant jurisdiction's IFTA Commissioner.
- B. Formal requests for information shall be in writing or by verifiable electronic means from the requesting Signatory agency to the providing Signatory agency and must indicate the tax administration reason for the exchange if the reason is not apparent from the context of the request.
- C. Informal requests and voluntary exchanges shall be conducted under an established exchange procedure, as outlined in section IV.
- D. Each formal request shall also specify, to the extent such information is known and available, the following:
 - i. The name and address of each taxpayer for whom information is requested;
 - ii. The taxable period or periods for which information is desired and required;
 - iii. The taxpayer's employer identification number, social security number, or jurisdiction assigned account number; and,
 - iv. Any other information which may help to facilitate the exchange.
- E. If the providing Signatory agency approves of the information request and it requires on-line access to be granted, the providing Signatory agency shall provide written or verifiable electronic approval to the primary clearinghouse to update its listing of personnel authorized to have on-line access.

SECTION V. RETURN OR DESTRUCTION OF EXCHANGED INFORMATION

Information provided to the requesting participant jurisdiction remains the property of the furnishing jurisdiction. The recipient participant jurisdiction agrees to return all returns and/or information (along with all copies made thereof) to the furnishing participant jurisdiction, or to destroy the returns and/or information in conformity with the recipient's controlled destruction policy(ies) at the discretion of the furnishing jurisdiction.

It shall not be necessary for the recipient participant jurisdiction to return or destroy the information it disclosed in the course of judicial or administrative proceedings, to the extent that such information has become part of the record thereof.

SECTION VI. SUPPLEMENTAL IPCMOA

The IPCMOA may be supplemented by addenda between two or more Signatory agencies prescribing the nature, quality and operations for the continuous exchange of tax information. A secondary clearinghouse(s) may be appointed to administer the compilation and dissemination of certain information under the supplemental IPCMOA(s). The supplemental IPCMOA(s) shall prescribe the authority and responsibilities of the secondary clearinghouse(s). All provisions contained in the addenda must be consistent with the terms and conditions in the IPCMOA. If the addenda are intended to control in the event of a conflict, this shall be specifically stated in the addenda. In the absence of such language, the Article VII Exchange of IFTA Information shall control in the event of a conflict. Such Addenda will be considered to be part of the IPCMOA and will be binding on only the parties thereto, their agents and employees, and their successors in office to the same extent as the IPCMOA, unless limited by the addenda, or rescinded or amended or a Signatory agency withdraws from the IPCMOA, as provided in Article IX.

SECTION VII. COSTS

1. The Signatory agencies agree not to charge one another for the costs of routine reproduction of returns and return information mutually exchanged. The providing participant jurisdiction may charge a reasonable fee for furnishing tax returns and return information in magnetic tape format or under other non-routine circumstances. Such costs shall be agreed upon before they are incurred. Information requests shall not be denied on account of the cost alone, unless the requesting participant jurisdiction declines to pay the direct costs of the providing participant

jurisdiction and the request involves excessive time and resources in the opinion of the providing participant jurisdiction.

2. The participant jurisdictions also agree to cooperate to the extent practicable in allowing personnel of the requesting participant jurisdiction to inspect and copy information if they determine that the time demands of the information request exceed what they can reasonably supply.

SECTION VIII. TERMINATION OF EXCHANGE AGREEMENTS

UNDER THIS ARTICLE

1. Written notice of intent to terminate participation in Article VII of the IPCMOA shall be served by the terminating participant jurisdiction on the Policy and Management Advisory Committee and primary clearinghouse at least 30 days prior to the date of termination, when possible. The primary clearinghouse shall then notify the head of the agency, or his or her designee, of all other Signatory agencies.
2. Any unauthorized use or disclosure of state or provincial tax returns or return information furnished pursuant to the IPCMOA or inadequate procedures for safeguarding the confidentiality of such returns and return information by an agency constitutes grounds for immediate termination of Article VII of the IPCMOA, as to any, some or all Signatory agencies, and the exchange of information hereunder.
3. Any unauthorized disclosure or use of information of a participant jurisdiction shall be reported to that jurisdiction or its Signatory agency including therein the identification of the jurisdiction from which originated the unauthorized disclosure or use, the names of the people involved, the facts surrounding the disclosure or use and the measures to remedy the situation.

Help Desk Procedure	Date:
Recording Problem Severity Level	

1. Problem Reporting Procedure

The Help Desk documents all computer-related problems reported to them by Help Desk coordinators. Help Desk coordinators are designated by Selected Vendor. Problems can be either hardware or software problems. Problems can occur on either of the Department's mainframe computer systems, on any equipment connected to the Department's Local Area Network (LAN), or on any of the Department's stand-alone computer equipment. The Help Desk is responsible for documenting and tracking all computer-related problems reported. The Help Desk opens all user-reported problems, they resolve problems within their area of expertise, they assign problems they cannot resolve to an appropriate technical liaison, and they close all user-reported problems after verifying the problem's resolution with the DTF Help Desk coordinator who reported the problem.

2. The Help Desk Designates Severity Levels When Problems Are Opened

Each problem reported to the Help Desk requires a severity level. Severity levels reflect the degree to which the problem affects the DTF computer environment. Here is a list of severity level descriptions:

Severity Level	Description
1	Critical to DTF Multiple users cannot continue to work High profile user needs problem resolved as soon as possible
2	Of major importance to DTF User production seriously impaired
3	Normal DTF problem User can continue work or has a workaround
4	User question Request for inventory sticker to be replaced

3. The Help Desk Contacts Technical Liaisons and Selected Vendors to Work on Problems

If the Help Desk coordinator cannot resolve a problem, they send this problem to the appropriate technical Liaison or Department Selected Vendor for resolution.

If a problem is a severity level 2, 3, or 4, the Help Desk Contacts the technical liaison or Selected Vendor by agreed upon communications methods for the group involved. Selected Vendors who are not on site will be contacted via modem or by telephone. If the contact is a technical liaison who is a member of the Selected Vendor staff, contact will be via the Selected Vendor's problem tracking system or via the Selected Vendor's electronic mail system.

For severity level 1 problems, the technical contact must also be made aware of the problem via a telephone conversation or via a personal communication. If a severity level 1 problem is sent to a Selected Vendor, and the Selected Vendor does not call the person who reported the problem within one hour, or

the Selected Vendor is not on site within two hours, the Help Desk escalates the problem by contacting Selected Vendor management to inform them of the problem, and to request an immediate response from the Selected Vendor.

4. The Help Desk Monitors Severity 1 Problems Until They Are Closed

The Help Desk closely monitors all Severity 1 problems reported by users by taking the following actions:

- The Help Desk notifies appropriate Department management every time a Severity level 1 problem is opened by the user
- The Help Desk scans the Department's problem tracking system daily to determine whether any problem (originally reported at a lower level) has been elevated to a Severity level 1 problem. If a problem is elevated to Severity level 1, the Help desk notifies Department management that this problem has been elevated to a Severity 1 problem.
- The Help Desk notifies the Department management when any Severity level 1 problem has been downgraded to a lower severity level or when a Severity level 1 problem has been closed.
- The Help Desk notifies the user community when a Severity level 1 problem will immediately stop their work, providing an estimate of the downtime, when possible.
- The Help Desk notifies users via electronic mail bulletin boards, when critical files or applications will not be available for their use, providing an estimate of the downtime, when possible.
- The Help Desk keeps in constant contact with the Department staff and Selected Vendors who are working on Severity level 1 problems, providing user and management status updated when requested or when appropriate.

CHARGE-BACK METHODOLOGY

MODEL OBJECTIVE:

- Define the functions and activities that are subject to charge back.
- Associate functions to selected services.
- Set forth the rules for allocating cost to the participant jurisdictions.

DEFINITIONS:

KYDMC/SELECTED VENDOR FUNCTIONS: The administrative functions performed by Selected Vendor to support the selected services. Function costs include personnel expenses, non-personnel service expenses and supply costs.

SERVICE: The services selected by the participant jurisdictions, as outlined in the Memorandum of Agreement.

CHARGE-BACK RESPONSIBILITIES: The participant jurisdictions that are liable for the expenses associated with a function.

CHARGE-BACK RULES: The method used to allocate the cost of each service. The expenses are divided into three types:

- I. Equal -- Expenses that support all users of a function, regardless of volume, are shared equally among those jurisdictions (e.g., Bank Monitoring Funds Transfer).
- II. Direct -- Expenses related to an individual jurisdiction will be billed at a set rate or by the actual expense incurred.
 - The set rates will be billed at a predetermined rate based on either an hourly rate of the person or persons performing the function (e.g., Help Desk) or the cost incurred by Selected Vendor for performing a function (e.g., Printing & Mailing Returns).
An actual expense is a participant jurisdiction's expense billed to Selected Vendor, by an outside Selected Vendor. It will be passed on to the affected jurisdiction (e.g., Telecommunication Charges for Data Transmission)
- III. System Utilization -- Expenses influenced by volume are allocated proportionately. The jurisdiction's share of a proportional expense will be based on two factors. The first factor is the services selected by each jurisdiction. Each service requires a different level of system support. Jurisdictions that select services, which use more of the system, will share in more of the system related expense. The second factor is the participant jurisdiction's number of carriers. Jurisdictions are responsible for paying a percentage based on their volume of carriers.

The chart below quantifies the percentage of system use for each selected service:

	SELECTED SERVICES	PERCENTAGE OF SYSTEM UTILIZATION
1	PROFILE MAINTENANCE	12%
1.1	PRINT & MAIL RETURNS	0%
2	LOCKBOX RETURNS	0%
3	LOCKBOX FEE TRANSMITTAL	0%
4.0	FEE TRANSMITTALS PROCESSED THROUGH THE RPC	26%
4.1A	RETURNS & EXCEPTIONS PROCESSED THROUGH THE HOSTED SELECTED VENDOR SOLUTION	27%
4.1B	POSTING RETURN DATA TO THE RPC	14%
4.2	RETURNS & EXCEPTIONS PROCESSED THROUGH THE PARTICIPANT JURISDICTIONS PLATFORM	2%
5	MONTHLY SETTLEMENT	14%
6	SELECTED VENDOR AUDIT INTERFACE	5%

For example, if some jurisdiction accounts for 50% of the “RETURNS PROCESSED THROUGH THE RPC” (service 4.1), it would be responsible for 50% of the system related expense for that service, which is 42% of the total system support expense. The exceptions to this would be for jurisdictions that use the RPC software on their own platform (4.2) and monthly settlement (5). Numbers of carriers impacts neither service. Therefore, the jurisdictions using those services will share equally the 2% and 14% respectively, of the total system related expense for those services.

SOURCE DOCUMENTATION- The agency’s reports, systems and bureaus that record the data used to determine the expense of a function.

RATIONALE- The basis of the decision concerning the method of cost allocation.
