EXPLANATION

As part of its grant application to the National Oceanic and Atmospheric Administration (NOAA), the NHDES Coastal Program submits an annual work program, which is reviewed and approved by NOAA. This year's annual work program includes a task for environmental and maritime heritage education and outreach. The NHDES Coastal Program funds to the Gundalow Company are targeted for education programs for school groups, residents, and the public that are designed to increase environmental literacy and public awareness of key environmental indicators affecting the water quality of the Great Bay Estuary as well as New Hampshire's history while under sail onboard the Coast Guard certified replica gundalow the *Piscataqua*. Additionally, the Gundalow Company will highlight current local management and conservation efforts through its Contemporary Coastal Issues speaker events; topics may include marine debris collection, river landscaping BMP's, climate change and invasive species, and oyster habitat restoration. This agreement is **SOLE SOURCE** because the nonprofit Gundalow Company is the only organization in coastal New Hampshire that offers environmental education programs onboard a historic "floating classroom" and whose mission is to protect the Piscataqua Region's maritime heritage and environment. The Gundalow's programs connect history with contemporary coastal issues such as water quality, habitat restoration, conservation, and stewardship.

His Excellency, Governor Christopher T. Sununu
and The Honorable Council

Page 2

The purpose of this agreement is to enable the Gundalow Company to schedule and conduct a series of onboard coastal and marine educational programs while under sail on New Hampshire's tidal rivers. The Gundalow Company operates a replica of the flat-bottomed gundalows of the 18th and early-19th century used to haul freight throughout the Piscataqua River and Great Bay tidal region of New Hampshire. The Gundalow Company uses the vessel to provide education to the general public throughout the region.

Total project costs are budgeted at \$356,999. NHDES will provide \$25,000 of the project costs through its Coastal Zone federal grant. The Gundalow Company will provide \$331,999 in matching funds.

In the event that Federal funds become no longer available, General funds will not be requested to support the project. This agreement has been approved by the Office of the Attorney General as to form, execution and content.

We respectfully request your approval.

Robert R. Scott, Commissioner
