EXPLANATION

Funds in this agreement with the five (5) vendors will be used to administer the Granite Workforce Case Management Services Pilot Project to provide barrier case management services statewide that will assist eligible individuals with eliminating or reducing barriers to employment in order to connect to the labor market and long-term career opportunities enhancing economic independence.

This request represents the one (1) remaining contract, as listed in bold. The Governor and Executive Council previously approved the other four (4) contracts at the January 23, 2019 Governor and Executive Council meeting (Item #16).

The vendors will provide case management services that address, reduce and/or resolve barriers to employment. Vendors must:

- Develop plans through ongoing assessment and support with participants to reduce, eliminate, and/or mitigate barriers to employment, which will allow participants to connect securely to the labor market.
- Collaborate with local service providers in order to connect low income individuals to services for identified barrier reduction, mitigation and/or resolution.
- Work collaboratively with NHES Granite Workforce staff to co-case manage participant activities and services provided.
- Assist participants with seeking, obtaining and providing exemption or good cause verification from Granite Advantage Health Care Program community engagement requirements through the exemption or good cause process, as appropriate.

The New Hampshire Employment Security (NHES) will refer individuals deemed to be in need of assistance with removing or reducing barriers to employment to community providers. Once individual barriers are reduced, resolved and/or managed, individuals will be referred back to NHES for job placement and/or entry into an education/training/apprenticeship program.

The vendors will work with NHES staff to support individuals resolving barriers in order to enter, maintain and connect to the labor market, which includes the co-collaboration of the provision of employment support services authorized by NHES staff.

The Department estimates an anticipated seven-hundred (700) individuals may use this service statewide over the six (6) month pilot program period. The Contracts have a shared price limitation of \$560,000. The Department will be monitoring funding levels and will notify providers when the funding threshold has reached 85% utilization.

The following performance measures will be used to measure the effectiveness of the agreement:

- 100% of participants referred to the vendor by NHES will be contacted by the applicant's agency staff within five (5) business days from the referral date;
- 100% of enrolled participants will have a current barrier reduction plan and if the plan includes referral to additional community treatment agencies, the vendor will continue to case manage and monitor the individual's status in Granite Workforce providing the community treatment agency is not also under contract for Granite Workforce services with the Department;
- 80% of enrolled participants with a barrier reduction plan will have barriers reduced, resolved and/or managed within four (4) months from enrollment date and referred back to NHES for job placement and continued case management.

These vendors were selected through a competitive bid process. A Request for Applications was posted on The Department of Health and Human Services' web site from October 26, 2018 through November 15, 2018. The Department received seven (7) applications. The applications were reviewed and scored by a team of individuals with program specific knowledge. The review included a thorough discussion of the strengths and weaknesses of the applications. Five (5) of the seven (7) applicants were selected. The Bid Summary is attached.

As referenced in the Request for Applications and in Exhibit C-1 of these contracts, the Department has the option to extend services for up to four (4) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and approval of the Governor and Executive Council.

Should the Governor and Executive Council not authorize this request, an estimated seven-hundred (700) individuals in the Granite Advantage program with one or more barriers to employment would not receive barrier case management services, which would otherwise assist individuals with eliminating or reducing barriers resulting in connections to the labor market and long-term career opportunities.
