We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. HEADREST, INC.
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED JUNE 30, 2018 AND 2017

NOTE 1 – NATURE OF ORGANIZATION

Headrest, Inc. ("Headrest") is a New Hampshire nonprofit corporation that provides information and referral, crisis intervention and other related services through the use of a telephone hotline and office visitations. Headrest also provides counseling and emergency shelter to transients, and information to the community relating to drugs and alcohol.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

The summary of significant accounting policies of Headrest is presented to assist in understanding the Organization's financial statements. The financial statements and notes are representations of Headrest's management who is responsible for their integrity and objectivity. These accounting policies conform to U.S. generally accepted accounting principles and have been consistently applied in the preparation of the financial statements.

The financial statements of Headrest have been prepared on the accrual basis of accounting. The significant accounting policies followed are described below.

Financial statement presentation

Financial statement presentation follows the recommendations of the Financial Accounting Standards Board in its Statement of Financial Accounting Standards (SFAS) No. 117, "Financial Statements of Not-for-Profit Organizations". Under SFAS No. 117. Headrest is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Unrestricted net assets are comprised of operating revenues and expenses and contributions pledged which are not subject to any donor-imposed restrictions. Headrest, Inc. currently has $74,257 and $117,338 unrestricted net assets as of June 30, 2018 and 2017, respectively.

Temporary restricted net assets are comprised of contributions and gifts for which donor-imposed restrictions will be met either by the passage of time or the actions of the Organization. Headrest, Inc. currently has no temporarily restricted net assets as of June 30, 2018 and 2017, respectively.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Permanently restricted net assets include those assets for which donor-imposed restrictions stipulate that the asset be permanently maintained by the Organization. Headrest, Inc. has no permanently restricted net assets as of June 30, 2018 and 2017.

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash equivalents – For purposes of the statement of cash flows, Headrest considers all short-term investments with an original maturity of three months or less to be cash equivalents. At June 30, 2018 and 2017 there were no cash equivalents.

Assets limited as to use

Assets Limited as to Use represent board-designated assets for capital expenditures and reserves amounting to $35,460 and $26,184 at June 30, 2018 and 2017. Assets limited to use consist of cash and cash equivalents however these amounts have not been included in cash and cash equivalents for cash flow purposes.

Allowance for doubtful accounts – Headrest considers accounts receivable to be fully collectible, accordingly, no allowance for doubtful accounts is required.

Depreciation and fixed assets – Property and equipment are stated at cost if purchased and at fair market value on the date of the donations if donated. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as restricted or temporarily restricted support. Absent donor stipulations regarding how long those donated assets must be maintained, Headrest reports expirations of donor restrictions when the donated or acquired assets are placed in service as instructed by the donor. Headrest reclassifies temporarily restricted net assets to unrestricted net assets at that time. Depreciation is computed using straight-line and accelerated methods based on the estimated useful life of each asset. Estimated useful lives used for building and improvements are ten to thirty- nine years and for furniture and fixtures three to seven years.

Public support and revenue – All contributions are considered to be available or unrestricted use unless specifically restricted by the donor.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income taxes – The Organization is a not-for-profit organization that is exempt from income taxes under Section 501©(3) of the Internal Revenue Code and classified by the Internal Revenue Service as other than a private foundation.

The Organization adopted the recognition requirements for uncertain income tax positions as required by generally accepted accounting principles, with no cumulative effect adjustment required. Income tax benefits are recognized for income tax positions taken or expected to be taken in a tax return, only when it is determined that the income tax position will more –likely-than-not be sustained upon examination by taxing authorities. The Organization has analyzed tax positions taken for filing with the Internal Revenue Service and the state jurisdiction where it operates. The Organization believes that income tax filing positions will be sustained upon examination and does not anticipate any adjustments that would result in a material adverse affect on the Organization's financial condition, results of operations or cash flows. Accordingly, the Organization has not recorded any reserves, or related accruals for interest and penalties for uncertain income tax positions at June 30, 2018.

Donated services and materials - Donated supplies and equipment are reflected as contributions in the accompanying financial statements at their estimated fair market values.

Functional expenses – Functional and administrative expenses have been allocated among program services based on an analysis of personnel time and space utilized for the activities.

Please see attached financial details.

EXPLANATION

This request is **sole source** because the increase to the price limitation for eight (8) vendor exceeds ten (10) percent of the total contract value.

Substance use disorders develop when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet

major responsibilities at work, school, or home. The existence of a substance use disorder is determined using a clinical evaluation based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria.

This amendment will allow the above eight (8) vendors listed above in bold to continue and potentially expand access to residential treatment services provided to Medicaid-covered individuals with opioid use disorder (OUD). Funds in this amendment will be used to cover $100 of room and board payments for Medicaid beneficiaries with OUD in low and high intensity residential treatment services. These funds will support existing residential programs to continue serving the Medicaid population, which has been cited as a challenge by treatment providers as a result of differing rates of reimbursement between Medicaid and Commercial payers. The vendors above will also continue to offer their existing array of treatment services, including individual and group outpatient, intensive outpatient, partial hospitalization, transitional living, high and low intensity residential services.

This amendment is part of the State's recently approved plan under the State Opioid Response (SOR) grant, which identified access to residential treatment as a funding priority. The Substance Abuse and Mental Health Services Administration (SAMHSA) approved NH's proposal in September, with the expectation that funds are in services for communities within the third month of grant award. The eight (8) vendors above will use these funds to ensure that individuals with OUD receiving high or low intensity residential treatment have continued and/or expanded access to the necessary level of care, which increases their ability to achieve and maintain recovery.

Additionally, the Department will continue to monitor the performance of the Vendors through monthly and quarterly reports, conducting site visits, reviewing client records, and engaging in activities identified in the contract monitoring and quality improvement work referenced above. Contractor financial health is also being monitored monthly.

Should the Governor and Executive Council not authorize this request residential treatment programs may have to limit the availability of beds for individuals with OUD on Medicaid, which would delay access to care for those individuals.

Area served: Statewide.

Source of Funds: 69.35% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-14, Substance Abuse and Mental Health Services Administration State Opioid Response Grant, CFDA #93.788, and 13.50% General Funds and 17.15% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

5.1.3. Maintain an accurate accounting and records for all services billed, payments received and overpayments (if any) refunded.

5.2. The Contractor shall determine and charge accordingly for services provided to an eligible client under this contract, as follows:

5.2.1. First: Charge the client's private insurance up to the Contract Rate, in Exhibit B-1, Amendment #2, when the insurers' rates meet or are lower than the Contract Rate in Exhibit B-1, Amendment #2. Except when the client's deductible or copay creates a financial hardship as defined in section 3.3.

5.2.2. Second: Charge the client according to Exhibit B, Amendment #2, Section 7, Sliding Fee Scale, when the Contractor determines or anticipates that the private insurer will not remit payment for the full amount of the Contract Rate in Exhibit B-1, Amendment #2.

5.2.3. Third: If, any portion of the Contract Rate in Exhibit B-1, Amendment #2 remains unpaid, after the Contractor charges the client's insurer (if applicable) and the client, the Contractor shall charge the Department the balance (the Contract Rate in Exhibit B-1 Exhibit B-1, Amendment #2, Service Fee Table less the amount paid by private insurer and the amount paid by the client).

5.3. The Contractor agrees the amount charged to the client shall not exceed the Contract Rate in Exhibit B-1, Amendment #2, Service Fee Table multiplied by the corresponding percentage stated in Exhibit B, Amendment #2, Section 7 Sliding Fee Scale for the client's applicable income level.

5.4. The Contractor will assist clients who are unable to secure financial resources necessary for initial entry into the program by developing payment plans.

5.5. The Contractor shall not deny, delay or discontinue services for enrolled clients who do not pay their fees in Section 5.2.2 above, until after working with the client as in Section 5.4 above, and only when the client fails to pay their fees within thirty (30) days after being informed in writing and counseled regarding financial responsibility and possible sanctions including discharge from treatment.

5.6. The Contractor will provide to clients, upon request, copies of their financial accounts.

5.7. The Contractor shall not charge the combination of the public or private insurer, the client and the Department an amount greater than the Contract Rate in Exhibit B-1 Exhibit B-1, Amendment #2, except for:

5.7.1. Low-Intensity Residential Treatment as defined as ASAM Criteria, Level 3.1 (See Section 6 below).

5.8. In the event of an overpayment wherein the combination of all payments received by the Contractor for a given service (except in Exhibit B, Section 5.7.1) exceeds the Contract Rate stated in Exhibit B-1; Exhibit B-1, Amendment #2 Service Fee Table, the Contractor shall refund the parties in the reverse order, unless the overpayment was due to insurer, client or Departmental error.

5.9. In instances of payer error, the Contractor shall refund the party who erred, and adjust the charges to the other parties, according to a correct application of the Sliding Fee Schedule.

5.10. In the event of overpayment as a result of billing the Department under this contract when a third party payer would have covered the service, the Contractor must repay the state in an amount and within a timeframe agreed upon between the Contractor and the Department upon identifying the error.

14.3. The Contractor agrees to the Charitable Choice federal statutory provisions as follows:

Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

EXPLANATION

Action #1)

Requested Action #1 is **retroactive** because the Department and FIT/NHNH, Inc. were continuing to work on the scope of work and therefore, the contract was not completed in time to place the item on the agenda for the June 20, 2018 Governor and Executive Council meeting. The contract with Greater Nashua Council on Alcoholism and Hope on Haven Hill are being submitted after the release of audit reports to allow for Council review prior to entering into an Agreement, and to add contract monitoring language to address the audit findings. If these actions were not taken retroactively, the result would have been a gap in critical substance use disorder treatment and recovery support services in the State's two largest cities.

The Department requests approval of three (3) agreements. Ten (10) agreements were previously approved by Governor and Executive Council on June 20, 2018 Late Item G. These agreements will allow the Vendors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% of the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is determined using a clinical evaluation based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. Under the current iteration of these contracts, fifteen (15) vendors are delivering an array of treatment services, including individual and group outpatient, intensive outpatient, partial hospitalization, transitional living, high and low intensity residential, and ambulatory and residential withdrawal management services as well as ancillary recovery support services. While the array of services offered by each vendor varies slightly, together they enrolled 2994 individuals in service groups covered by the contract between May 1, 2017 and April 30, 2018. In 2016 there were 485 drug overdose deaths in New Hampshire with the death toll for 2017 at 428 as of April 20, 2018; however, the 2017 statistics are expected to increase slightly as cases are still pending analysis. This reduction in deaths indicates that the overall strategy including prevention, intervention, treatment, and recovery support services may be having a positive impact.

The Department published a Request for Applications for Substance Use Disorder Treatment and Recovery Support Services (RFA-2019-BDAS-01-SUBST) on the Department of Health and Humans Services website April 20, 2018 through May 10, 2018. The Department received sixteen (16) applications. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected fourteen applications (two (2) submitted by Grafton County were combined into one contract) to provide these services (See attached Summary Score Sheet).

Some of the Vendors' applications scored lower than anticipated; however, this was largely due to the Vendors providing a limited array of services and not to their experience and/or capacity to provide those services. In addition the Bureau of Drug and Alcohol Services is working with the Bureau of Improvement and Integrity to improve the contract monitoring and quality improvement process as well as taking steps to reposition staff to assist with this.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist; to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis; and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors through monthly and quarterly reports, conducting site visits, reviewing client records, and engaging in activities identified in the contract monitoring and quality improvement work referenced above. In addition, the Department is collecting baseline data on access, engagement, clinical appropriateness, retention, completion, and outcomes that will be used to create performance improvement goals in future contracts. Finally, contractor financial health is also being monitored monthly.

All thirteen (13) contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

Should the Governor and Executive Council determine to not authorize this Requested Action #1, the vendors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery.

Action #2)

Requested Action #2 seeks approval to amend ten (10) of the thirteen (13) agreements for the provision of substance use disorder treatment and recovery support services by modifying the scope to reduce the burden on the vendors in meeting contract requirements.

The changes to the contracts include removal of the requirement to continue providing services after the contract price limitation is reached, allowing for assistance to clients enrolling in insurance through the use of referrals to trained community providers, and an easing of supervision requirements that is not expected to negatively impact client care. Corrective action for compliance audits was also included. The changes were also made to the three (3) contracts being put forth in Action #1. These changes are being made as a part of the Department's response to provider's concerns over reimbursement rates with the goal of reducing the gap between the cost of providing services and the rate paid by the Department by reducing the administrative burden associated with service delivery without compromising client care.

These contracts were originally competitively bid.

Should the Governor and Executive Council determine to not authorize this Request Action #2, the gap between the cost of care and reimbursement rates will remain the same, which vendors have indicated may result in having to limit services provided under this contract. In addition, there would not be a requirement of a corrective actions plan should there be an audit which does not allow for a system to assist with improvement in services provided.

Area served: Statewide.

Source of Funds: 55.87% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-14, and 13.97% General Funds and 30.16% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Funds to support this request are available in State Fiscal Year 2019 in the following accounts, with the authority to adjust encumbrances between State Fiscal Years through the Budget Office without approval of the Governor and Executive Council, if needed and justified.

Please see attached financial details.

EXPLANATION

The Department requests approval of ten (10) agreements with a combined price limitation of $3,157,927 that will allow the Vendors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% of the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is

determined using a clinical evaluation based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. Three (3) more agreements will be submitted by the Department at a future Governor and Executive Council meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. Under the current iteration of these contracts, fifteen (15) vendors are delivering an array of treatment services, including individual and group outpatient, intensive outpatient, partial hospitalization, transitional living, high and low intensity residential, and ambulatory and residential withdrawal management services as well as ancillary recovery support services. While the array of services offered by each vendor varies slightly, together they enrolled 2994 individuals in service groups covered by the contract between May 1, 2017 and April 30, 2018. In 2016 there were 485 drug overdose deaths in New Hampshire with the death toll for 2017 at 428 as of April 20, 2016; however, the 2017 statistics are expected to increase slightly as cases are still pending analysis. This reduction in deaths indicates that the overall strategy including prevention, intervention, treatment, and recovery support services is having a positive impact.

The Department published a Request for Applications for Substance Use Disorder Treatment and Recovery Support Services (RFA-2019-BDAS-01-SUBST) on the Department of Health and Humans Services website April 20, 2018 through May 10, 2018. The Department received sixteen (16) applications. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected fourteen applications (two (2) submitted by Grafton County were combined into one contract) to provide these services (See attached Summary Score Sheet).

Some of the Vendors' applications scored lower than anticipated; however, this was largely due to the vendors providing a limited array of services and not to their experience and/or capacity to provide those services. In addition the Bureau of Drug and Alcohol Services is working with the Bureau of Improvement and Integrity to improve the contract monitoring and quality improvement process as well as taking steps to reposition staff to assist with this.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist; to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis; and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors through monthly and quarterly reports, conducting site visits, reviewing client records, and engaging in activities identified in the contract monitoring and quality improvement work referenced above. In addition, the Department is collecting baseline data on access, engagement, clinical appropriateness, retention, completion, and outcomes that will be used to create performance improvement goals in future contracts. Finally, contractor financial health is also being monitored monthly.

This contract includes language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

Should the Governor and Executive Council determine to not authorize this Request, the vendors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery.

Area served: Statewide.

Source of Funds: 55.87% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-14, and 13.97% General Funds and 30.16% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Easter Seals New Hampshire, Inc. and Subsidiaries

We have audited the accompanying consolidated financial statements of Easter Seals New Hampshire, Inc. and Subsidiaries (Easter Seals NH), which comprise the consolidated statements of financial position as of August 31, 2018 and 2017, and the related consolidated statements of activities and changes in net assets, functional expenses and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

To the Board of Directors
Easter Seals New Hampshire, Inc. and Subsidiaries

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Easter Seals NH as of August 31, 2018 and 2017, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying other financial information is presented for purposes of additional analysis rather than to present the financial position and results of operations of the individual companies and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 4, 2018, on our consideration of Easter Seals New Hampshire, Inc. and Subsidiaries' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Easter Seals New Hampshire's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Easter Seals New Hampshire, Inc. and Subsidiaries' internal control over financial reporting and compliance.

1. Corporate Organization and Purpose

Easter Seals New Hampshire, Inc. and Subsidiaries (Easter Seals NH) consists of various separate nonprofit entities: Easter Seals New Hampshire, Inc. (parent and service corporation); Easter Seals Maine, Inc. (Easter Seals ME); The Harbor Schools Incorporated (Harbor Schools) through August 31, 2018 (see note 14); Manchester Alcoholism Rehabilitation Center; and Easter Seals Vermont, Inc. (Easter Seals VT). Easter Seals New Hampshire, Inc. is the sole member of each subsidiary. Easter Seals NH is affiliated with Easter Seals, Inc. (the national headquarters for the organization).

Effective October 26, 2016, Agency Realty, Inc. was dissolved and all properties were transferred to Easter Seals New Hampshire, Inc.

Easter Seals NH's purpose is to provide (1) programs and services for people with disabilities and other special needs, (2) assistance to people with disabilities and their families, (3) assistance to communities in identifying and developing needed services for residents, and (4) a climate of acceptance for people with disabilities and other special needs which will enable them to contribute to the well-being of the community. Easter Seals NH operates programs throughout New Hampshire, Maine, and Vermont.

2. Summary of Significant Accounting Policies

Principles of Consolidation

The consolidated financial statements include the accounts of Easter Seals New Hampshire, Inc. and the subsidiaries of which it is the sole member as described in note 1. Significant intercompany accounts and transactions have been eliminated in consolidation.

Cash and Cash Equivalents

Easter Seals NH considers all highly liquid securities purchased with an original maturity of 90 days or less to be cash equivalents. Cash equivalents consist of cash, overnight repurchase agreements and money market funds, excluding assets limited as to use.

The management of Easter Seals NH has implemented a practice to establish cash reserves on hand. As of August 31, 2018 and 2017, approximately $2,277,000 and $1,705,000, respectively, of cash and cash equivalents, and approximately $3,003,000 and $2,816,000, respectively, of investments were on-hand under this practice. Because such funds are available and may be used in current operations, they have been classified as current in the accompanying consolidated statements of financial position.

Easter Seals NH maintains its cash and cash equivalents in bank deposit accounts which, at times, may exceed amounts guaranteed by the Federal Deposit Insurance Corporation. Financial instruments which subject Easter Seals to credit risk consist primarily of cash equivalents and investments. Easter Seals NH's investment portfolio consists of diversified investments, which are subject to market risk. Investments that exceeded 10% of investments include the Lord Abbett Short Duration Income A Fund with a balance of $2,847,749 and $2,816,344 as of August 31, 2018 and 2017, respectively.

2. Summary of Significant Accounting Policies (Continued)

Assets Limited as to Use and Investments

Assets limited as to use consists of cash and cash equivalents, short-term certificates of deposit with original maturities greater than 90 days, but less than one year, and investments. Investments are stated at fair value. Realized gains and losses on investments are computed on a specific identification basis. The changes in net unrealized and realized gains and losses on investments are recorded in other non-operating expenses, gains and losses in the accompanying consolidated statements of activities and changes in net assets. Donated securities are stated at fair value determined at the date of donation.

Beneficial Interest in Trust

Easter Seals NH is the beneficiary of a trust held by others. Easter Seals NH has recorded as an asset the fair value of its interest in the trust and such amount is included in permanently restricted net assets, based on the underlying donor stipulations. The change in the interest due to fair value change is recorded within other non-operating expenses, gains and losses as permanently restricted activity.

Fixed Assets

Fixed assets are recorded at cost less accumulated depreciation and amortization. Expenditures for maintenance and repairs are charged to expense as incurred, and expenditures for major renovations are capitalized. Depreciation is computed on the straight-line method over the estimated useful lives of the underlying assets. Leasehold improvements and the carrying value of equipment financed by capital leases are amortized using the straight-line method over the shorter of the lease term or the estimated useful life of the asset.

Fixed assets obtained by Easter Seals NH as a result of acquisitions on or after September 1, 2011 are recorded at estimated fair value as of the date of the acquisition in accordance with generally accepted accounting principles guidance for acquisitions by a not-for-profit entity.

Donated property and equipment not subject to donor stipulated conditions is recorded at fair value at the date of donation. If donors stipulate how long the assets must be used, the contributions are recorded as restricted support or, if significant uncertainties exist, as deferred revenue pending resolution of the uncertainties. In the absence of such stipulations, contributions of property and equipment are recorded as unrestricted support. See also note 7.

Intangible Assets and Long-Lived Assets

Accounting rules require that intangible assets with estimable or determinable useful lives be amortized over their respective estimated useful lives to their estimated residual values, and be reviewed by management for impairment.

Amortization expense recognized in 2017 totaled $33,131 related to a patient list obtained in the acquisition of Webster Place in 2012 (in May 2013, Webster Place was merged with Manchester Alcoholism Rehabilitation Center).

2. Summary of Significant Accounting Policies (Continued)

When there is an indication of impairment, management considers whether long-lived assets are impaired by comparing gross future undiscounted cash flows expected to be generated from utilizing the assets to their carrying amounts. If cash flows are not sufficient to recover the carrying amount of the assets, impairment has occurred and the assets are written down to their fair value. Significant estimates and assumptions are required to be made by management in order to evaluate possible impairment.

Based on current facts, estimates and assumptions, management believed that the patient list was impaired in 2017 and recorded $132,521 in impairment to write-off the remaining book value. Additionally, management believed that certain fixed assets were impaired in 2017 and recorded $635,111 in impairment related to those long-term assets. No other long-lived assets were deemed impaired at August 31, 2018 and 2017.

Bond Issuance Costs

Bond issuance costs are being amortized to interest expense using the straight-line method over the repayment period of the related bonds, or the expected time until the next refinancing, whichever is shorter. Interest expense recognized on the amortization of bond issuance costs during 2018 and 2017 was $6,109 and $5,069 respectively. The bond issuance costs are presented as a component of long-term debt on the accompanying consolidated statement of financial position.

Revenue Recognition

Revenue generated from services provided to the public is reported at the estimated net realizable amounts from clients, third-party payors and others based upon approved rates as services are rendered. A significant portion of Easter Seals NH's revenues are derived through arrangements with third-party payors. As such, Easter Seals NH is dependent on these payors in order to carry out its operating activities. There is at least a reasonable possibility that recorded estimates could change by a material amount in the near term. Differences between amounts previously estimated and amounts subsequently determined to be recoverable or payable are included in other fees and grants in the year that such amounts become known.

Revenues are recognized as earned, or attributable to the period in which specific terms of the funding agreement are satisfied, and to the extent that expenses have been incurred for the purposes specified by the funding source. Revenue balances in excess of the foregoing amounts are accounted for as deferred revenue until any restrictions are met or allowable expenditures are incurred.

The allowance for doubtful accounts is provided based on an analysis by management of the collectability of outstanding balances. Management considers the age of outstanding balances and past collection efforts in determining the allowance for doubtful accounts. Accounts are charged against the allowance for doubtful accounts when deemed uncollectible. The bad debt provision in 2018 and 2017 totaled $1,640,474 and $2,284,863 respectively, and is recorded against fees and grants from governmental agencies and others and contributions. The decrease in bad debt provision in 2018 is due to a shift to third-party payors for services provided by Manchester Alcoholism Rehabilitation Center and changes in payor mix. See also note 5.

2. **Summary of Significant Accounting Policies (Continued)**

Easter Seals NH has agreements with third-party payors that provide for payment at amounts different from its established rates. Payment arrangements include discounted charges and prospectively determined payments. Contractual allowances for program and other accounts receivable at August 31, 2018 and 2017 were $12,719,900 and $8,302,300, respectively. The total contractual adjustments provided in 2018 and 2017 totaled $50,711,300 and $42,812,400, respectively, and are recorded against fees and grants from governmental agencies and others. The increase in contractual adjustments in 2017 and 2018 are primarily due to growth in services provided by Manchester Alcoholism Rehabilitation Center and an increase in services being covered by third-party payors.

Unconditional contributions are recognized when pledged.

Advertising

Easter Seals NH's policy is to expense advertising costs as incurred.

Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis in the accompanying consolidated statements of activities and changes in net assets. Accordingly, certain costs have been allocated among the programs and supporting services based mainly on time records and estimates made by Easter Seals NH's management.

Charity Care (Unaudited)

Easter Seals NH has a formal charity care policy under which program fees are subsidized as determined by the Board of Directors. Free and subsidized services are rendered in accordance with decisions made by the Board of Directors and, at established charges, amounted to approximately $8,642,000 and $6,701,000 for the years ended August 31, 2018 and 2017, respectively.

Income Taxes

Easter Seals New Hampshire, Inc., Easter Seals ME, Easter Seals VT, Harbor Schools and Manchester Alcoholism Rehabilitation Center are exempt from both federal and state income taxes under Section 501(c)(3) of the Internal Revenue Code. Agency Realty, Inc., through to the date of its dissolution (see note 1) received a determination letter from the Internal Revenue Service stating that it qualifies for tax-exempt status under Section 501(c)(2) of the Internal Revenue Code.

Tax-exempt organizations could be required to record an obligation for income taxes as the result of a tax position historically taken on various tax exposure items including unrelated business income or tax status. In accordance with accounting principles generally accepted in the United States of America, assets and liabilities are established for uncertain tax positions taken or positions expected to be taken in income tax returns when such positions are judged to not meet the "more-likely-than-not" threshold, based upon the technical merits of the position.

2. **Summary of Significant Accounting Policies (Continued)**

Management has evaluated tax positions taken by Easter Seals New Hampshire, Inc. and its subsidiaries on their respective filed tax returns and concluded that the organizations have maintained their tax-exempt status, do not have any significant unrelated business income, and have taken no uncertain tax positions that require adjustment to or disclosure in the accompanying consolidated financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Estimates are used in accounting for the allowance for doubtful accounts, contractual allowances, workers' compensation liabilities and contingencies.

Derivatives and Hedging Activities

Accounting guidance requires that Easter Seals NH record as an asset or liability the fair value of the interest rate swap agreement described in note 10. Easter Seals NH is exposed to repayment loss equal to the net amounts receivable under the swap agreement (not the notional amount) in the event of nonperformance of the other party to the swap agreement. However, Easter Seals NH does not anticipate nonperformance and does not obtain collateral from the other party.

As of August 31, 2018 and 2017, Easter Seals NH had recognized a liability of $1,772,584 and $2,641,673, respectively, as a result of the interest rate swap agreements discussed in note 10. As a result of changes in the fair value of these derivative financial instruments, Easter Seals NH recognized an increase in net assets of $869,089 and $846,306 for the years ended August 31, 2018 and 2017, respectively, in the accompanying consolidated statements of activity and changes in net assets.

Increase in Net Assets from Operations

For purposes of display, transactions deemed by management to be ongoing, major or central to the provision of services are reported as revenue and expenses that comprise the increase in net assets from operations. The primary transactions reported as other non-operating expenses, gains and losses include the adjustment to fair value of interest rate swaps, the change in the fair value of beneficial interest in trust held by others, gains and losses on sales and disposals of fixed assets, and net realized and unrealized gains and losses on investments.

Recent Accounting Pronouncements

In May 2014, the FASB issued No. 2014-09, *Revenue from Contracts with Customers* (ASU 2014-09), which requires revenue to be recognized when promised goods or services are transferred to customers in amounts that reflect the consideration to which Easter Seals NH expects to be entitled in exchange for those goods and services. ASU 2014-09 will replace most existing revenue recognition guidance when it becomes effective. ASU 2014-09 is effective for Easter Seals NH on September 1, 2019. ASU 2014-09 permits the use of either the retrospective or cumulative effect transition method. Management is currently evaluating the impact that ASU 2014-09 will have on Easter Seals NH's consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842),* which requires that lease arrangements longer than twelve months result in an entity recognizing an asset and liability. The pronouncement is effective for Easter Seals NH beginning September 1, 2020, with early adoption permitted. The guidance may be adopted retrospectively. Management is currently evaluating the impact this guidance will have on Easter Seals NH's consolidated financial statements.

In August 2016, the FASB issued ASU No. 2016-14, *Not-for-Profit Entities (Topic 958): Presentation of Financial Statements of Not-for-Profit Entities* (ASU 2016-14). Under ASU 2016-14, there is a change in presentation and disclosure requirements for not-for-profit entities to provide more relevant information about their resources (and the changes in those resources) to donors, grantors, creditors, and other users. These include qualitative and quantitative requirements in net asset classes, investment return, expenses, liquidity and availability of resources and presentation of operating cash flows. ASU 2016-14 is effective for Easter Seals NH on September 1, 2018. Management is currently evaluating the impact of the pending adoption of ASU 2016-14 on Easter Seals NH's consolidated financial statements.

In June 2018, the FASB issued ASU No. 2018-08, *Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made.* Due to diversity in practice, ASU 2018-08 clarifies the definition of an exchange transaction as well as the criteria for evaluating whether contributions are unconditional or conditional. ASU 2018-08 is effective for Easter Seals NH on September 1, 2019, with early adoption permitted. Easter Seals NH is currently evaluating the impact that ASU 2018-08 will have on its consolidated financial statements.

Subsequent Events

Events occurring after the statement of financial position date are evaluated by management to determine whether such events should be recognized or disclosed in the consolidated financial statements. Management has evaluated events occurring between the end of Easter Seals NH's fiscal year end and December 4, 2018, the date these consolidated financial statements were available to be issued. See also note 15.

3. Classification of Net Assets

In accordance with the *Uniform Prudent Management of Institutional Funds Act* (UPMIFA), net assets are classified and reported based on the existence or absence of donor-imposed restrictions. Gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of donated assets. Temporarily restricted net assets are those whose use by Easter Seals NH has been limited by donors to a specific time period or purpose. When a donor restriction expires (when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of activities and changes in net assets as net assets released from restrictions. Permanently restricted net assets have been restricted by donors to be maintained by Easter Seals NH in perpetuity, the income from which is expendable to support all activities of the organization, or as stipulated by the donor.

Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the accompanying consolidated financial statements.

In accordance with UPMIFA, Easter Seals NH considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (a) the duration and preservation of the fund; (b) the purpose of the organization and the donor-restricted endowment fund; (c) general economic conditions; (d) the possible effect of inflation and deflation; (e) the expected total return from income and the appreciation of investments; (f) other resources of the organization; and (g) the investment policies of the organization.

3. Classification of Net Assets (Continued)

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor requires Easter Seals NH to retain as a fund of permanent duration. Deficiencies of this nature are reported in unrestricted net assets. There were no deficiencies between the fair value of the investments of the endowment funds and the level required by donor stipulation at August 31, 2018 or 2017.

Investment and Spending Policies

Easter Seals NH has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that Easter Seals NH must hold in perpetuity or for a donor-specified period. Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended to produce results that exceed the price and yield results of an appropriate market index while assuming a moderate level of investment risk. Easter Seals NH expects its endowment funds to provide an average rate of return over a five year period equal to the rate of 2% over the inflation rate. Actual returns in any given year may vary from this amount.

To satisfy its long-term rate-of-return objectives, Easter Seals NH relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). Easter Seals NH targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

Easter Seals NH may appropriate for distribution some or all of the earnings and appreciation on its endowment for funding of operations. In establishing this policy, Easter Seals NH considered the objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to, so long as it would not detract from Easter Seals NH's critical goals and initiatives, provide additional real growth through new gifts and investment return.

13. Fair Value of Financial Instruments

Fair value of a financial instrument is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at their measurement date. In determining fair value, Easter Seals NH uses various methods including market, income and cost approaches, and utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and the risks inherent in factors used in the valuation. These factors may be readily observable, market corroborated, or generally unobservable. Easter Seals NH utilizes valuation techniques that maximize the use of observable factors and minimizes the use of unobservable factors.

13. **Fair Value of Financial Instruments (Continued)**

Certain of Easter Seals NH's financial instruments are reported at fair value, which include beneficial interest held in trust, investments and the interest rate swap, and are classified by levels that rank the quality and reliability of the information used to determine fair value:

Level 1 – Valuations for financial instruments traded in active exchange markets, such as the New York Stock Exchange. Valuations are obtained from readily available pricing sources for market transactions involving identical instruments.

Level 2 – Valuations for financial instruments traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or similar instruments.

Level 3 – Valuations for financial instruments derived from other methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer or broker traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining fair value.

The following describes the valuation methodologies used to measure financial assets and liabilities at fair value. The levels relate to valuation only and do not necessarily indicate a measure of investment risk. There have been no changes in the methodologies used by Easter Seals NH at August 31, 2018 and 2017.

Investments and Assets Limited as to Use

Cash and cash equivalents are deemed to be Level 1. The fair values of marketable equity securities, and mutual funds that are based upon quoted prices in active markets for identical assets are reflected as Level 1. Investments in certain government and agency securities and corporate and foreign bonds where securities are transparent and generally are based upon quoted prices in active markets are valued by the investment managers and reflected as Level 2.

Beneficial Interest in Trust Held by Others

The beneficial interest in trust held by others has been assigned fair value levels based on the fair value levels of the underlying investments within the trust. The fair values of marketable equity securities, money market and mutual funds are based upon quoted prices in active markets for identical assets and are reflected as Level 1. Investments in marketable equity securities and mutual funds where securities are transparent and generally are based upon quoted prices in active markets are valued by the investment managers and reflected as Level 2.

Interest Rate Swap Agreement

The fair value for the interest rate swap liability is included in Level 3 and is estimated by the counterparty using industry standard valuation models. These models project future cash flows and discount the future amounts to present value using market-based observable inputs, including interest rates.

Please see attached financial details.

EXPLANATION

This request is **sole source** because the increase to the price limitation for eight (8) vendor exceeds ten (10) percent of the total contract value.

Substance use disorders develop when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet

major responsibilities at work, school, or home. The existence of a substance use disorder is determined using a clinical evaluation based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria.

This amendment will allow the above eight (8) vendors listed above in bold to continue and potentially expand access to residential treatment services provided to Medicaid-covered individuals with opioid use disorder (OUD). Funds in this amendment will be used to cover $100 of room and board payments for Medicaid beneficiaries with OUD in low and high intensity residential treatment services. These funds will support existing residential programs to continue serving the Medicaid population, which has been cited as a challenge by treatment providers as a result of differing rates of reimbursement between Medicaid and Commercial payers. The vendors above will also continue to offer their existing array of treatment services, including individual and group outpatient, intensive outpatient, partial hospitalization, transitional living, high and low intensity residential services.

This amendment is part of the State's recently approved plan under the State Opioid Response (SOR) grant, which identified access to residential treatment as a funding priority. The Substance Abuse and Mental Health Services Administration (SAMHSA) approved NH's proposal in September, with the expectation that funds are in services for communities within the third month of grant award. The eight (8) vendors above will use these funds to ensure that individuals with OUD receiving high or low intensity residential treatment have continued and/or expanded access to the necessary level of care, which increases their ability to achieve and maintain recovery.

Additionally, the Department will continue to monitor the performance of the Vendors through monthly and quarterly reports, conducting site visits, reviewing client records, and engaging in activities identified in the contract monitoring and quality improvement work referenced above. Contractor financial health is also being monitored monthly.

Should the Governor and Executive Council not authorize this request residential treatment programs may have to limit the availability of beds for individuals with OUD on Medicaid, which would delay access to care for those individuals.

Area served: Statewide.

Source of Funds: 69.35% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-14, Substance Abuse and Mental Health Services Administration State Opioid Response Grant, CFDA #93.788, and 13.50% General Funds and 17.15% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

EXPLANATION

Action #1)

Requested Action #1 is retroactive because the Department and FIT/NHNH, Inc. were continuing to work on the scope of work and therefore, the contract was not completed in time to place the item on the agenda for the June 20, 2018 Governor and Executive Council meeting. The contract with Greater Nashua Council on Alcoholism and Hope on Haven Hill are being submitted after the release of audit reports to allow for Council review prior to entering into an Agreement, and to add contract monitoring language to address the audit findings. If these actions were not taken retroactively, the result would have been a gap in critical substance use disorder treatment and recovery support services in the State's two largest cities.

The Department requests approval of three (3) agreements. Ten (10) agreements were previously approved by Governor and Executive Council on June 20, 2018 Late Item G. These agreements will allow the Vendors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% of the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is determined using a clinical evaluation based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. Under the current iteration of these contracts, fifteen (15) vendors are delivering an array of treatment services, including individual and group outpatient, intensive outpatient, partial hospitalization, transitional living, high and low intensity residential, and ambulatory and residential withdrawal management services as well as ancillary recovery support services. While the array of services offered by each vendor varies slightly, together they enrolled 2994 individuals in service groups covered by the contract between May 1, 2017 and April 30, 2018. In 2016 there were 485 drug overdose deaths in New Hampshire with the death toll for 2017 at 428 as of April 20, 2018; however, the 2017 statistics are expected to increase slightly as cases are still pending analysis. This reduction in deaths indicates that the overall strategy including prevention, intervention, treatment, and recovery support services may be having a positive impact.

The Department published a Request for Applications for Substance Use Disorder Treatment and Recovery Support Services (RFA-2019-BDAS-01-SUBST) on the Department of Health and Humans Services website April 20, 2018 through May 10, 2018. The Department received sixteen (16) applications. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected fourteen applications (two (2) submitted by Grafton County were combined into one contract) to provide these services (See attached Summary Score Sheet).

Some of the Vendors' applications scored lower than anticipated; however, this was largely due to the Vendors providing a limited array of services and not to their experience and/or capacity to provide those services. In addition the Bureau of Drug and Alcohol Services is working with the Bureau of Improvement and Integrity to improve the contract monitoring and quality improvement process as well as taking steps to reposition staff to assist with this.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist; to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis; and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors through monthly and quarterly reports, conducting site visits, reviewing client records, and engaging in activities identified in the contract monitoring and quality improvement work referenced above. In addition, the Department is collecting baseline data on access, engagement, clinical appropriateness, retention, completion, and outcomes that will be used to create performance improvement goals in future contracts. Finally, contractor financial health is also being monitored monthly.

All thirteen (13) contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

Should the Governor and Executive Council determine to not authorize this Requested Action #1, the vendors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery.

Action #2)

Requested Action #2 seeks approval to amend ten (10) of the thirteen (13) agreements for the provision of substance use disorder treatment and recovery support services by modifying the scope to reduce the burden on the vendors in meeting contract requirements.

The changes to the contracts include removal of the requirement to continue providing services after the contract price limitation is reached, allowing for assistance to clients enrolling in insurance through the use of referrals to trained community providers, and an easing of supervision requirements that is not expected to negatively impact client care. Corrective action for compliance audits was also included. The changes were also made to the three (3) contracts being put forth in Action #1. These changes are being made as a part of the Department's response to provider's concerns over reimbursement rates with the goal of reducing the gap between the cost of providing services and the rate paid by the Department by reducing the administrative burden associated with service delivery without compromising client care.

These contracts were originally competitively bid.

Should the Governor and Executive Council determine to not authorize this Request Action #2, the gap between the cost of care and reimbursement rates will remain the same, which vendors have indicated may result in having to limit services provided under this contract. In addition, there would not be a requirement of a corrective actions plan should there be an audit which does not allow for a system to assist with improvement in services provided.

Area served: Statewide.

Source of Funds: 55.87% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-14, and 13.97% General Funds and 30.16% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Funds to support this request are available in State Fiscal Year 2019 in the following accounts, with the authority to adjust encumbrances between State Fiscal Years through the Budget Office without approval of the Governor and Executive Council, if needed and justified.

Please see attached financial details.

EXPLANATION

The Department requests approval of ten (10) agreements with a combined price limitation of $3,157,927 that will allow the Vendors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% of the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is

determined using a clinical evaluation based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. Three (3) more agreements will be submitted by the Department at a future Governor and Executive Council meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. Under the current iteration of these contracts, fifteen (15) vendors are delivering an array of treatment services, including individual and group outpatient, intensive outpatient, partial hospitalization, transitional living, high and low intensity residential, and ambulatory and residential withdrawal management services as well as ancillary recovery support services. While the array of services offered by each vendor varies slightly, together they enrolled 2994 individuals in service groups covered by the contract between May 1, 2017 and April 30, 2018. In 2016 there were 485 drug overdose deaths in New Hampshire with the death toll for 2017 at 428 as of April 20, 2016; however, the 2017 statistics are expected to increase slightly as cases are still pending analysis. This reduction in deaths indicates that the overall strategy including prevention, intervention, treatment, and recovery support services is having a positive impact.

The Department published a Request for Applications for Substance Use Disorder Treatment and Recovery Support Services (RFA-2019-BDAS-01-SUBST) on the Department of Health and Humans Services website April 20, 2018 through May 10, 2018. The Department received sixteen (16) applications. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected fourteen applications (two (2) submitted by Grafton County were combined into one contract) to provide these services (See attached Summary Score Sheet).

Some of the Vendors' applications scored lower than anticipated; however, this was largely due to the vendors providing a limited array of services and not to their experience and/or capacity to provide those services. In addition the Bureau of Drug and Alcohol Services is working with the Bureau of Improvement and Integrity to improve the contract monitoring and quality improvement process as well as taking steps to reposition staff to assist with this.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist; to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis; and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors through monthly and quarterly reports, conducting site visits, reviewing client records, and engaging in activities identified in the contract monitoring and quality improvement work referenced above. In addition, the Department is collecting baseline data on access, engagement, clinical appropriateness, retention, completion, and outcomes that will be used to create performance improvement goals in future contracts. Finally, contractor financial health is also being monitored monthly.

This contract includes language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

Should the Governor and Executive Council determine to not authorize this Request, the vendors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery.

Area served: Statewide.

Source of Funds: 55.87% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-14, and 13.97% General Funds and 30.16% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. (5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Hope on Haven Hill, Inc. as of June 30, 2018, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2018

Note 1 - Summary of Significant Accounting Policies

Nature of Activities - Hope on Haven Hill, Inc. (The Organization) was organized November 25, 2015. The Organization is a level 3.5 substance abuse treatment facility serving homeless, pregnant and newly parenting mothers. The Organization was established to provide a nurturing therapeutic home environment for women with substance abuse disorder who are seeking recovery by providing a safe home with comprehensive addiction treatment services, family therapy, parenting classes, advance in education and life coaching to support families in their recovery from addiction.

Basis of Accounting - The financial statements of the Organization have been prepared on the accrual basis of accounting, and accordingly, reflect all significant receivables, payables, and other liabilities.

Basis of Presentation - Financial statement presentation follows the recommendation of the Financial Accounting Standards Board in its Statement of Financial Accounting Standards, *Financial Statements of Not-for-Profit Organizations*. Under this standard, the Organization is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

The Organization's net assets and its revenues and expenses are classified as temporarily restricted and unrestricted based on the existence or absence of donor-imposed restrictions. These classifications are defined as follows:

- Unrestricted net assets are not restricted by donors, or the donor-imposed restrictions have expired.
- Temporarily restricted net assets contain donor-imposed restrictions that permit the Organization to use or expend the donated assets as specified and are satisfied either by the passage of time or by actions of the Organization.
- Permanently restricted net assets include accumulated donations which require, by donor restriction, that the corpus be invested in perpetuity and only the income be made available for program operations in accordance with those restrictions imposed by the donor. There are no permanently restricted net assets as of June 30, 2018.

Cash and Cash Equivalents - For purposes of the Statement of Cash Flows, the Organization considers all unrestricted highly liquid investments which are readily convertible into known amounts of cash and have a maturity of three months or less when acquired to be cash equivalents. The Organization maintains cash balances at several banks. From time to time during the year ended June 30, 2018, the Organization's bank account balances may have exceeded federally insured limits. Management has evaluated this risk and considers it to be a normal business risk.

Donated Assets - Donated marketable securities and other noncash donations are recorded as contributions at their estimated fair values at the date of donation. Donations of inventory items held for resale are recognized when sold because the Organization does not have an objective measurement for determining fair value.

Donated Services - Donated services are reflected in the financial statements at the fair value of the services received only if the services (a) create or enhance nonfinancial assets or (b) require specialized skills that are provided by individuals possessing those skills and would typically need to be purchased if not provided by donation.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Income Tax Status - The Organization is exempt from federal and state income taxes under Section 501(c)(3) of the Internal Revenue Code. In addition, donations to the Organization qualify for the charitable contribution deduction under Section 170(b)(1)(A), and the Organization has been classified as an organization that is not a private foundation under Section 509(a)(2).

The federal informational tax return of the Organization is subject to examination, generally for three years after the returns are filed.

Note 1 - Summary of Significant Accounting Policies (continued)

Grants and Medical Billing Receivable - Grants and medical billing receivable are stated at the amount management expects to collect from outstanding balances. Management considers accounts receivable to be delinquent based on the date of unpaid invoices. Management provides for probable uncollectible amounts through a provision for bad debt expense and an adjustment to a valuation allowance based on its assessment of the current status of individual accounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a reduction to accounts receivable. There was no allowance for doubtful accounts as of June 30, 2018. The Organization does not require collateral when extending credit.

Property and Equipment - Property and equipment is stated at cost, less accumulated depreciation. Depreciation is provided for using the straight line method over the estimated useful lives of the related assets, which is 5 to 30 years. Normal repairs and maintenance are expensed as incurred. Upon sale or retirement of depreciable assets, the related cost and accumulated depreciation are removed from the accounts. Any gain or loss on the sale or retirement is recognized in current operations. Assets donated with explicit restrictions regarding their use, and contributions of cash that must be used to acquire property and equipment are reported as restricted support. Absent donor stipulations regarding how long those donated assets must be maintained, the Organization reports expirations of donor restrictions when the donated or acquired assets are placed in service as instructed by the donors. The Organization reclassifies temporarily restricted net assets to unrestricted net assets at that time.

Contributions - Unconditional promises to give are recognized as revenue when the underlying promises are received by the Organization. Gifts of cash and other assets are reported as temporarily restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the Statement of Activities and Changes in Net Assets as net assets released from restrictions. Temporarily restricted contributions which are both received and released within the same year are recorded as an increase in temporarily restricted net assets and net assets released from restrictions. A portion of the contributions received by the Organization are temporarily restricted for a specified geographic area. It is the Organization's policy to use such funds for the specified purpose as soon as practical and prudent.

Functional Allocation of Expenses - The expenses of providing various program and supporting services have been summarized on a functional basis in the statement of activities. Accordingly, certain expenses have been allocated among the programs and supporting services benefited. Allocations may be direct or indirect according to the type of expense incurred.

Advertising Costs - The Organization's policy is to expense advertising costs as they are incurred. Advertising expense totaled $14,804 in 2018

or discharge from treatment, is therefore indicated; or

2.8.5.3.3. Transfer/Discharge Criteria C: The patient has demonstrated a lack of capacity due to diagnostic or co-occurring conditions that limit his or her ability to resolve his or her problem(s). Treatment at a qualitatively different level of care or type of service, or discharge from treatment, is therefore indicated; or

   3.3. Notwithstanding Section 3.1 above, the Contractor must seek reimbursement from the State for services provided under this contract when a client needs a service that is covered by the payers listed in Section 3.1, but payment of the deductible or copay would constitute a financial hardship for the client.

4. The Contractor shall bill and seek reimbursement for actual services delivered by fee for services in Exhibit B-1, Amendment #1 Service Fee Table, unless otherwise stated.

4.1. The Contractor agrees the fees for services are all-inclusive contract rates to deliver the services (except for Clinical Evaluation which is an activity that is billed for separately) and are the maximum allowable charge in calculating the amount to charge the Department for services delivered as part of this Agreement (See Section 5 below).

5.2.2. Second: Charge the client according to Exhibit B, Amendment #1, Section 11, Sliding Fee Scale, when the Contractor determines or anticipates that the private insurer will not remit payment for the full amount of the Contract Rate in Exhibit B-1, Amendment #1.

5.2.3. Third: If, any portion of the Contract Rate in Exhibit B-1 Exhibit B-1, Amendment #1 remains unpaid, after the Contractor charges the client's insurer (if applicable) and the client, the Contractor shall charge the Department the balance (the Contract Rate in Exhibit B-1, Amendment #1, Service Fee Table less the amount paid by private insurer and the amount paid by the client).

5.3. The Contractor agrees the amount charged to the client shall not exceed the Contract Rate in Exhibit B-1, Amendment #1, Service Fee Table multiplied by the corresponding percentage stated in Exhibit B, Amendment #1, Section 11 Sliding Fee Scale for the client's applicable income level.

5.4. The Contractor will assist clients who are unable to secure financial resources necessary for initial entry into the program by developing payment plans.

5.5. The Contractor shall not deny, delay or discontinue services for enrolled clients who do not pay their fees in Section 5.2.2 above, until after working with the client as in Section 5.4 above, and only when the client fails to pay their fees within thirty (30) days after being informed in writing and counseled regarding financial responsibility and possible sanctions including discharge from treatment.

5.9. In instances of payer error, the Contractor shall refund the party who erred, and adjust the charges to the other parties, according to a correct application of the Sliding Fee Schedule.

5.10. In the event of overpayment as a result of billing the Department under this contract when a third party payer would have covered the service, the Contractor must repay the state in an amount and within a timeframe agreed upon between the Contractor and the Department upon identifying the error.

Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

EXPLANATION

Action #1)

Requested Action #1 is **retroactive** because the Department and FIT/NHNH, Inc. were continuing to work on the scope of work and therefore, the contract was not completed in time to place the item on the agenda for the June 20, 2018 Governor and Executive Council meeting. The contract with Greater Nashua Council on Alcoholism and Hope on Haven Hill are being submitted after the release of audit reports to allow for Council review prior to entering into an Agreement, and to add contract monitoring language to address the audit findings. If these actions were not taken retroactively, the result would have been a gap in critical substance use disorder treatment and recovery support services in the State's two largest cities.

The Department requests approval of three (3) agreements. Ten (10) agreements were previously approved by Governor and Executive Council on June 20, 2018 Late Item G. These agreements will allow the Vendors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% of the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is determined using a clinical evaluation based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. Under the current iteration of these contracts, fifteen (15) vendors are delivering an array of treatment services, including individual and group outpatient, intensive outpatient, partial hospitalization, transitional living, high and low intensity residential, and ambulatory and residential withdrawal management services as well as ancillary recovery support services. While the array of services offered by each vendor varies slightly, together they enrolled 2994 individuals in service groups covered by the contract between May 1, 2017 and April 30, 2018. In 2016 there were 485 drug overdose deaths in New Hampshire with the death toll for 2017 at 428 as of April 20, 2018; however, the 2017 statistics are expected to increase slightly as cases are still pending analysis. This reduction in deaths indicates that the overall strategy including prevention, intervention, treatment, and recovery support services may be having a positive impact.

The Department published a Request for Applications for Substance Use Disorder Treatment and Recovery Support Services (RFA-2019-BDAS-01-SUBST) on the Department of Health and Humans Services website April 20, 2018 through May 10, 2018. The Department received sixteen (16) applications. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected fourteen applications (two (2) submitted by Grafton County were combined into one contract) to provide these services (See attached Summary Score Sheet).

Some of the Vendors' applications scored lower than anticipated; however, this was largely due to the Vendors providing a limited array of services and not to their experience and/or capacity to provide those services. In addition the Bureau of Drug and Alcohol Services is working with the Bureau of Improvement and Integrity to improve the contract monitoring and quality improvement process as well as taking steps to reposition staff to assist with this.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist; to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis; and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors through monthly and quarterly reports, conducting site visits, reviewing client records, and engaging in activities identified in the contract monitoring and quality improvement work referenced above. In addition, the Department is collecting baseline data on access, engagement, clinical appropriateness, retention, completion, and outcomes that will be used to create performance improvement goals in future contracts. Finally, contractor financial health is also being monitored monthly.

All thirteen (13) contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

Should the Governor and Executive Council determine to not authorize this Requested Action #1, the vendors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery.

Action #2)

Requested Action #2 seeks approval to amend ten (10) of the thirteen (13) agreements for the provision of substance use disorder treatment and recovery support services by modifying the scope to reduce the burden on the vendors in meeting contract requirements.

The changes to the contracts include removal of the requirement to continue providing services after the contract price limitation is reached, allowing for assistance to clients enrolling in insurance through the use of referrals to trained community providers, and an easing of supervision requirements that is not expected to negatively impact client care. Corrective action for compliance audits was also included. The changes were also made to the three (3) contracts being put forth in Action #1. These changes are being made as a part of the Department's response to provider's concerns over reimbursement rates with the goal of reducing the gap between the cost of providing services and the rate paid by the Department by reducing the administrative burden associated with service delivery without compromising client care.

These contracts were originally competitively bid.

Should the Governor and Executive Council determine to not authorize this Request Action #2, the gap between the cost of care and reimbursement rates will remain the same, which vendors have indicated may result in having to limit services provided under this contract. In addition, there would not be a requirement of a corrective actions plan should there be an audit which does not allow for a system to assist with improvement in services provided.

Area served: Statewide.

Source of Funds: 55.87% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-14, and 13.97% General Funds and 30.16% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

12.3. To the extent possible, the Contractor shall bill for services provided under this contract through WITS. For any services that are unable to be billed through WITS, the contractor shall work with the Department to develop an alternative process for submitting invoices.

13. Funds in this contract may not be used to replace funding for a program already funded from another source.

14. The Contractor will keep detailed records of their activities related to Department funded programs and services.

Charitable Choice statutory provisions of the Public Health Service Act enacted by Congress in 2000 are applicable to the SAPT Block Grant program. No funds provided directly from SAMHSA or the relevant State or local government to organizations participating in applicable programs may be expended for inherently religious activities, such as worship, religious instruction, or proselytization. If an organization conducts such activities, it must offer them separately, in time or location, from the programs or services for which it receives funds directly from SAMHSA or the relevant State or local government under any applicable program, and participation must be voluntary for the program beneficiaries.

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.

2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.

The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.

4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.

5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.

6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
   7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
   7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

If any governmental license or permit shall be required for the operation of the said facility or the performance of the said services, the Contractor will procure said license or permit, and will at all times comply with the terms and conditions of each such license or permit. In connection with the foregoing requirements, the Contractor hereby covenants and agrees that, during the term of this Contract the facilities shall comply with all rules, orders, regulations, and requirements of the State Office of the Fire Marshal and the local fire protection agency, and shall be in conformance with local building and zoning codes, by-laws and regulations.

Prior to subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

   II. As required by law, pursuant to the terms set forth in paragraph d. below; or

Associate shall refrain from disclosing the PHI until Covered Entity has exhausted all remedies.

e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.

f. j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.

l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.

c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) Miscellaneous

a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.

c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.

d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) I, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

To the Board of Directors of
North Country Health Consortium, Inc. and Subsidiary
Littleton, New Hampshire

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of North Country Health Consortium, Inc. (a nonprofit organization) and Subsidiary, which comprise the consolidated statements of financial position as of September 30, 2018 and 2017, and the related consolidated statements of activities and changes in net assets, functional expenses, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Nature of Activities and Summary of Significant Accounting Policies

Nature of activities

North Country Health Consortium, Inc. and Subsidiary (NCHC) (the Organization) is a not-for-profit health center chartered under the laws of the State of New Hampshire. The Organization's mission is to lead innovative collaboration to improve the health status of the region. NCHC is engaged in promoting and facilitating access to services and programs that improve the health status of the area population, provide health training and educational opportunities for healthcare purposes, and provide region-wide dental services for an underserved and uninsured residents.

Effective October 1, 2017, the Organization assumed the operations of Friendship House, an outpatient drug and alcohol treatment facility and program from Tri County Community Action Program.

The Organization's wholly owned subsidiary, North Country ACO (the ACO), is a non-profit 501(c)(3) charitable corporation formed in December 2011. This entity was formed as an accountable care organization (ACO) with its purpose to support the programs and activities of the ACO participants to improve the overall health of their respective populations and communities. A nominal cash balance remains and activities have ceased.

The Organization's primary programs are as follows:

Network and Workforce Activities – To provide workforce education programs and promote oral health initiatives for the Organization's dental services.

Public Health and CSAP – To conduct community substance abuse prevention activities, coordination of public health networks, and promote community emergency response plan.

Dental Services and Molar – To sustain a program offering oral health services for children and low income adults in northern New Hampshire.

Following is a summary of the significant accounting policies used in the preparation of these consolidated financial statements.

Basis of accounting

Basis of accounting refers to when revenues and expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The Organization uses the accrual basis of accounting. Under the accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., measurable and earned. Measurable refers to the ability to quantify in monetary terms the amount of the revenue and receivable. Expenses are recognized when they become liable for payment.

Principles of consolidation

The accompanying consolidated financial statements include the accounts of North Country Health Consortium, Inc. and its wholly owned subsidiary, North Country ACO. All inter-company transactions and balances have been eliminated in consolidation.

Note 1. Nature of Activities and Summary of Significant Accounting Policies (Continued)

Use of estimates

In preparing the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentration of risk

The Organization's operations are affected by various risk factors, including credit risk and risk from geographic concentration and concentrations of funding sources. Management attempts to manage risk by obtaining and maintaining revenue funding from a variety of sources. A substantial portion of the Organization's activities are funded through grants and contracts with private, federal, and state agencies. As a result, the Organization may be vulnerable to the consequences of change in the availability of funding sources and economic policies at the agency level. The Organization generally does not require collateral to secure its receivables.

Revenue recognition

Below are the revenue recognition policies of the Organization:

Dental Patient Revenue
Dental services are recorded as revenue within the fiscal year related to the service period.

Grant and Contract Revenue
Grants and contracts are recorded as revenue in the period they are earned by satisfaction of grant or contract requirements.

Fees for Programs and Services
Fees for programs and services are recorded as revenue in the period the related services were performed.

Cash and cash equivalents

For purposes of the statement of cash flows, the Organization considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

Restricted cash - IDN

Restricted cash – IDN consists of advanced funding received from The State of New Hampshire Department of Health and Human Services for the Integrated Delivery Network program (IDN). The original advance of funds of $2,000,000 is to be used to fund the Organization's cost of administering the IDN over a period of five years, beginning in fiscal year 2017. The remaining balance is to be distributed to participants.

Note 1. Nature of Activities and Summary of Significant Accounting Policies (Continued)

For the years ending September 30, 2018 and 2017, these amounts were restricted as follows:

	2018	2017
Administration fee to the Organization	$ 1,200,000	$ 1,600,000
Distributions to participants	1,587,216	621,388
	$ 2,787,216	$ 2,221,388

Accounts receivable

The Organization has receivable balances due from dental services provided to individuals and from grants and contracts received from federal, state, and private agencies. Management reviews the receivable balances for collectability and records an allowance for doubtful accounts based on historical information, estimated contractual adjustments, and current economic trends. Management considers the individual circumstances when determining the collectability of past due amounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to earnings and a credit to accounts receivable. Any collection fees or related costs are expensed in the year incurred. The Organization recorded an allowance for doubtful accounts for estimated contractual adjustments for dental service of $598 and $7,776 as of September 30, 2018 and 2017, respectively, and an allowance for doubtful accounts for grants and contracts of $12,847 and $0 as of September 30, 2018 and 2017, respectively. The Organization does not charge interest on its past due accounts, and collateral is generally not required.

Certificates of deposit

The Organization has three certificates of deposit that may be withdrawn without penalty with one financial institution. These certificates carry original terms of 12 months to 24 months, have interest rates ranging from .40% to .55%, and mature at various dates through February 2020.

Property and equipment

Property and equipment is stated at cost less accumulated depreciation. The Organization generally capitalizes property and equipment with an estimated useful life in excess of one year and installed costs over $2,500. Lesser amounts are generally expensed. Purchased property and equipment is capitalized at cost.

Property and equipment are depreciated using the straight-line method using the following ranges of estimated useful lives:

Computers and equipment	3-7 years
Dental equipment	5-7 years
Furniture and fixtures	5-7 years
Vehicles	5 years

Depreciation expense totaled $33,482 and $30,209 for the years ended September 30, 2018 and 2017, respectively.

Note 1. Nature of Activities and Summary of Significant Accounting Policies (Continued)

Deferred revenue

Deferred revenue is related to advance payments on grants or advance billings relative to anticipated expenses or events in future periods. The revenue is realized when the expenses are incurred or as services are provided in the period earned.

Net assets

The Organization is required to report information regarding its financial position and activity according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Unrestricted net assets – consist of unrestricted amounts that are available for use in carrying out the mission of the Organization.

Temporarily restricted net assets – consist of those amounts that are donor restricted for a specific purpose. When a donor restriction expires, either by the passage of a stipulated time restriction or by the accomplishment of a specific purpose restriction, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. The Organization has elected, however, to show those restricted contributions whose restrictions are met in the same reporting period as they are received as unrestricted support. The Organization had no temporarily restricted net assets at September 30, 2018 and 2017.

Permanently restricted net assets – result from contributions from donors who place restrictions on the use of donated funds mandating that the original principal remain invested in perpetuity. The Organization had no permanently restricted net assets at September 30, 2018 and 2017.

Income taxes

The Organization and the ACO are exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code and are not classified as private foundations. However, income from certain activities not directly related to the Organization's tax-exempt purpose is subject to taxation as unrelated business income. The Organization had no unrelated business income activity subject to taxation for the year ended September 30, 2018.

The Organization had adopted the provisions of FASB ASC 740-10. FASB ASC 740-10 prescribes a recognition threshold and measurement attributable for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return, and provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. Based on management's evaluation, management has concluded that there were no significant uncertain tax positions requiring recognition in the financial statements at September 30, 2018.

Although the Organization is not currently the subject of a tax examination by the Internal Revenue Service or the State of New Hampshire, the Organization's tax years ended September 30, 2015 through September 30, 2018 are open to examination by the taxing authorities under the applicable statue of limitations.

Note 1. Nature of Activities and Summary of Significant Accounting Policies (Continued)

Functional expenses

The costs of providing the various programs and activities have been summarized on a functional basis in the Statement of Activities. Expenses are charged to programs based on direct expenses incurred and certain costs, including salaries and fringe benefits, are allocated to the programs and supporting services based upon related utilization and benefit.

Implementation of new accounting pronouncements

Management is reviewing the following Accounting Standards Updates (ASU) issued by the Financial Accounting Standards Board, which are effective for future years, for possible implementation and to determine their effect on the Organization's financial reporting.

ASU No. 2015-14, *Revenue from Contracts with Customers.* This ASU includes new revenue measurement and recognition guidance, as well as required additional disclosures. The ASU is effective for annual reporting beginning after December 15, 2018, and interim reporting periods within annual reporting beginning after December 15, 2019. The effect of this ASU has not been quantified.

ASU No. 2016-02, *Leases (Topic 842).* This ASU requires lessees to recognize the following for all leases (with the exception of short-term leases) at the commencement date; (1) a lease liability, which is the lessee's obligation to make lease payments arising from a lease, measured on a discounted basis; and (2) a right-of-use asset which is an asset that represents the lessee's right to use, or control the use of, a specified asset for the lease term. For short-term leases (term of twelve months or less), a lessee is permitted to make an accounting policy election by class of underlying asset not to recognize lease assets and lease liabilities. If a lessee makes the election, it should recognize lease expense for such leases generally on a straight-line basis over the lease term. The ASU is effective for annual periods, and interim reporting periods within those annual periods, beginning after December 15, 2019. The effect of this ASU has not been quantified.

ASU No. 2016-14, *Not-For-Profit Entities: Presentation of Financial Statements of Not-for-Profit Entities.* The ASU was issued to improve reporting by not-for-profit entities in the areas of net asset classifications and information provided about liquidity. This ASU is effective for fiscal years beginning after December 15, 2017, and interim periods within fiscal years beginning after December 15, 2018. This ASU will increase disclosures in the Organization's financial statements.

ASU No. 2016-18, *Statement of Cash Flows: Restricted Cash.* This ASU clarifies how to report restricted cash in the statement of cash flows. This ASU is effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. This ASU will have minimal effect on the Organization's financial statements.

Note 2. Cash Concentrations

The Organization maintains cash balances at two financial institutions. Their bank accounts at the institutions are insured by the Federal Deposit Insurance Corporation (FDIC) up to $250,000 per financial institution. The Organization's cash balances exceeded federally insured limits by $14,600 at September 30, 2018. The Organization has not experienced any losses with these accounts. Management believes the Organization is not exposed to any significant credit risk on cash as of September 30, 2018.

The Organization attempts to manage credit risk relative to cash concentrations by utilizing "sweep" accounts. The Organization maintains ICS Sweep accounts that invest cash balances in other financial institutions at amounts that do not exceed FDIC insurable limits. All cash at these institutions is held in interest-bearing money market accounts. Interest rates on these balances ranged from .10% to .15% as of September 30, 2018.

Note 3. Operating Leases

The Organization leases office space in Littleton, NH under a three year operating lease that expires in October 2020. The Organization has the option to renew the lease for two additional years.

In October 2017, the Organization assumed the operations of Friendship House, an outpatient drug and alcohol treatment facility and program. The Organization leases the premises under a five-year operating lease that expires March 2023, with monthly rent and CAM fee payments of $19,582. The CAM fee portion is to be adjusted annually. Since the inception of the lease, the agreement has been verbally and mutually amended to allow the Organization to pay actual expenses, such as utilities, repairs, mortgage, CAM, etc., in lieu of the $19,582 monthly payment.

In addition, the Organization leases satellite offices in Berlin, NH, Tamworth, NH, Woodsville, NH, North Conway, NH, and Conway, NH under month-to-month operating lease agreements.

Future minimum rental payments under lease commitments are as follows:

Year Ended September 30,	
2019	$ 160,297
2020	163,411
2021	65,431
2022	56,500
2023	28,250
Thereafter	-
	$ 473,889

Lease expense for the aforementioned leases was $132,746 and $62,100 for the years ended September 30, 2018 and 2017, respectively.

Note 4. Deferred Revenue

The summary of the components of deferred revenue as of September 30, are as follows:

	2018	2017
Deferred Revenue- IDN	$ 2,387,744	$ 2,215,782
Deferred Revenue- Other	266,676	169,483
Total	$ 2,654,420	$ 2,385,265

Deferred revenue - IDN

Under the terms of an agreement between the Centers for Medicare and Medicaid Services (CMS) and the State of New Hampshire Department of Health and Human Services, various Integrated Delivery Networks (IDN) are to be established within geographic regions across the state to develop programs to transform New Hampshire's behavioral health delivery system by strengthening community-based mental health and substance use disorder services and programs to combat the opioid crisis. The Organization has been designated to be the administrative lead of one of these IDNs.

In September 2016, the Organization was awarded a five-year demonstration project from the CMS, passed through the State of New Hampshire Department of Health and Human Services. At that date, the Organization was advanced $2,413,256 upon fulfillment of the condition of successful submission and state approval of an IDN Project Plan. Of that amount, $2,000,000 will be retained by the Organization as administrative fees for five years and the remaining funds will be disbursed to participants. For years two through five, the IDNs will continue to earn performance-based incentive funding by achieving defined targets and any funds received will be passed through to the participants.

Note 5. Related Party Transactions

A majority of the Organization's members and the Organization are also members of a Limited Liability Company. There were no transactions between the Limited Liability Company and the Organization's members in 2018 and 2017.

The Organization contracts various services from other organizations of which members of management of these other organizations may also be board members of North Country Health Consortium, Inc. and Subsidiary. Amounts paid to these organizations were $898,736 and $348,668 for the years ended September 30, 2018 and 2017, respectively. Outstanding amounts due to these organizations as of September 30, 2018 and 2017 amounted to $33,214 and $37,950, respectively. Outstanding amounts due from these organizations as of September 30, 2018 and 2017 amounted to $5,210 and $0, respectively.

Note 6. Retirement Plan

The Organization offers a defined contribution savings and investment plan (the Plan) under section 403(b) of the Internal Revenue Code. The Plan is available to all employees who are 21 years of age or older. There is no service requirement to participate in the Plan. Employee contributions are permitted and are subject to IRS limitations. Monthly employer contributions are $50 for each part-time employee and $100 for each full-time employee. Employer contributions for the years ended September 30, 2018 and 2017 were $61,990 and $26,291, respectively.

Note 7. Commitment and Contingencies

The Organization receives a significant portion of its support from various funding sources. Expenditure of these funds requires compliance with terms and conditions specified in the related contracts and agreements. These expenditures are subject to audit by the contracting agencies. Any disallowed expenditures would become a liability of the Organization requiring repayment to the funding sources. Liabilities resulting from these audits, if any, will be recorded in the period in which the liability is ascertained. Management estimates that any potential liability related to such audits will be immaterial.

Note 8. Federal Reports

Additional reports, required by *Government Auditing Standards* and Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, including the Schedule of Expenditures of Federal Awards, are included in the supplements to this report.

Note 9. Reclassifications

Certain reclassifications have been made to the financial statements for the year ended September 30, 2017 to conform with the current year presentation.

Note 10. Subsequent Events

Subsequent to year end, the Organization entered into a line of credit agreement with a local bank. The Organization has $500,000 of available borrowing capacity under this line of credit. The line of credit bears interest at the Wall Street Journal Prime Rate plus .50% and is secured by all assets of the Organization. The line of credit is due on demand and matures February 2020.

The Organization has evaluated subsequent events through March 26, 2019, the date the financial statements were available to be issued.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors of
North Country Health Consortium, Inc. and Subsidiary
Littleton, New Hampshire

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidated financial statements of North Country Health Consortium, Inc. and Subsidiary (the Organization) (a New Hampshire nonprofit organization), which comprise the consolidated statements of financial position as of September 30, 2018, and the related consolidated statements of activities and changes in net assets, functional expenses, and cash flows for the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated March 26, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered North Country Health Consortium, Inc. and Subsidiary's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of North Country Health Consortium, Inc. and Subsidiary's internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether North Country Health Consortium, Inc. and Subsidiary's consolidated financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Directors of
North Country Health Consortium, Inc. and Subsidiary
Littleton, New Hampshire

Report on Compliance for Each Major Federal Program

We have audited North Country Health Consortium, Inc. and Subsidiary's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of North Country Health Consortium, Inc. and Subsidiary's major federal programs for the year ended September 30, 2018. North Country Health Consortium, Inc. and Subsidiary's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statues, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of North Country Health Consortium, Inc. and Subsidiary's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about North Country Health Consortium, Inc. and Subsidiary's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of North Country Health Consortium, Inc. and Subsidiary's compliance.

Opinion on Each Major Federal Program

In our opinion, North Country Health Consortium, Inc. and Subsidiary complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2018.

Report on Internal Control Over Compliance

Management of North Country Health Consortium, Inc. and Subsidiary is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered North Country Health Consortium, Inc. and Subsidiary's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of North Country Health Consortium, Inc. and Subsidiary's internal control over compliance.

A deficiency in internal control over compliance-exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

EXPLANATION

Action #1)

Requested Action #1 is **retroactive** because the Department and FIT/NHNH, Inc. were continuing to work on the scope of work and therefore, the contract was not completed in time to place the item on the agenda for the June 20, 2018 Governor and Executive Council meeting. The contract with Greater Nashua Council on Alcoholism and Hope on Haven Hill are being submitted after the release of audit reports to allow for Council review prior to entering into an Agreement, and to add contract monitoring language to address the audit findings. If these actions were not taken retroactively, the result would have been a gap in critical substance use disorder treatment and recovery support services in the State's two largest cities.

The Department requests approval of three (3) agreements. Ten (10) agreements were previously approved by Governor and Executive Council on June 20, 2018 Late Item G. These agreements will allow the Vendors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% of the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is determined using a clinical evaluation based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. Under the current iteration of these contracts, fifteen (15) vendors are delivering an array of treatment services, including individual and group outpatient, intensive outpatient, partial hospitalization, transitional living, high and low intensity residential, and ambulatory and residential withdrawal management services as well as ancillary recovery support services. While the array of services offered by each vendor varies slightly, together they enrolled 2994 individuals in service groups covered by the contract between May 1, 2017 and April 30, 2018. In 2016 there were 485 drug overdose deaths in New Hampshire with the death toll for 2017 at 428 as of April 20, 2018; however, the 2017 statistics are expected to increase slightly as cases are still pending analysis. This reduction in deaths indicates that the overall strategy including prevention, intervention, treatment, and recovery support services may be having a positive impact.

The Department published a Request for Applications for Substance Use Disorder Treatment and Recovery Support Services (RFA-2019-BDAS-01-SUBST) on the Department of Health and Humans Services website April 20, 2018 through May 10, 2018. The Department received sixteen (16) applications. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected fourteen applications (two (2) submitted by Grafton County were combined into one contract) to provide these services (See attached Summary Score Sheet).

Some of the Vendors' applications scored lower than anticipated; however, this was largely due to the Vendors providing a limited array of services and not to their experience and/or capacity to provide those services. In addition the Bureau of Drug and Alcohol Services is working with the Bureau of Improvement and Integrity to improve the contract monitoring and quality improvement process as well as taking steps to reposition staff to assist with this.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist; to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis; and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors through monthly and quarterly reports, conducting site visits, reviewing client records, and engaging in activities identified in the contract monitoring and quality improvement work referenced above. In addition, the Department is collecting baseline data on access, engagement, clinical appropriateness, retention, completion, and outcomes that will be used to create performance improvement goals in future contracts. Finally, contractor financial health is also being monitored monthly.

All thirteen (13) contracts include language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

Should the Governor and Executive Council determine to not authorize this Requested Action #1, the vendors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery.

Action #2)

Requested Action #2 seeks approval to amend ten (10) of the thirteen (13) agreements for the provision of substance use disorder treatment and recovery support services by modifying the scope to reduce the burden on the vendors in meeting contract requirements.

The changes to the contracts include removal of the requirement to continue providing services after the contract price limitation is reached, allowing for assistance to clients enrolling in insurance through the use of referrals to trained community providers, and an easing of supervision requirements that is not expected to negatively impact client care. Corrective action for compliance audits was also included. The changes were also made to the three (3) contracts being put forth in Action #1. These changes are being made as a part of the Department's response to provider's concerns over reimbursement rates with the goal of reducing the gap between the cost of providing services and the rate paid by the Department by reducing the administrative burden associated with service delivery without compromising client care.

These contracts were originally competitively bid.

Should the Governor and Executive Council determine to not authorize this Request Action #2, the gap between the cost of care and reimbursement rates will remain the same, which vendors have indicated may result in having to limit services provided under this contract. In addition, there would not be a requirement of a corrective actions plan should there be an audit which does not allow for a system to assist with improvement in services provided.

Area served: Statewide.

Source of Funds: 55.87% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-14, and 13.97% General Funds and 30.16% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Please see attached financial details.

EXPLANATION

The Department requests approval of ten (10) agreements with a combined price limitation of $3,157,927 that will allow the Vendors listed to provide an array of Substance Use Disorder Treatment and Recovery Support Services statewide to children and adults with substance use disorders, who have income below 400% of the Federal Poverty level and are residents of New Hampshire or are homeless in New Hampshire. Substance use disorders occur when the use of alcohol and/or drugs causes clinically and functionally significant impairment, such as health problems, disability, and failure to meet major responsibilities at work, school, or home. The existence of a substance use disorder is

determined using a clinical evaluation based on Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition criteria. Three (3) more agreements will be submitted by the Department at a future Governor and Executive Council meeting.

These Agreements are part of the Department's overall strategy to respond to the opioid epidemic that continues to negatively impact New Hampshire's individuals, families, and communities as well as to respond to other types of substance use disorders. Under the current iteration of these contracts, fifteen (15) vendors are delivering an array of treatment services, including individual and group outpatient, intensive outpatient, partial hospitalization, transitional living, high and low intensity residential, and ambulatory and residential withdrawal management services as well as ancillary recovery support services. While the array of services offered by each vendor varies slightly, together they enrolled 2994 individuals in service groups covered by the contract between May 1, 2017 and April 30, 2018. In 2016 there were 485 drug overdose deaths in New Hampshire with the death toll for 2017 at 428 as of April 20, 2018; however, the 2017 statistics are expected to increase slightly as cases are still pending analysis. This reduction in deaths indicates that the overall strategy including prevention, intervention, treatment, and recovery support services is having a positive impact.

The Department published a Request for Applications for Substance Use Disorder Treatment and Recovery Support Services (RFA-2018-BDAS-01-SUBST) on the Department of Health and Humans Services website April 20, 2018 through May 10, 2018. The Department received sixteen (16) applications. These proposals were reviewed and scored by a team of individuals with program specific knowledge. The Department selected fourteen applications (two (2) submitted by Grafton County were combined into one contract) to provide these services (See attached Summary Score Sheet).

Some of the Vendors' applications scored lower than anticipated; however, this was largely due to the vendors providing a limited array of services and not to their experience and/or capacity to provide those services. In addition the Bureau of Drug and Alcohol Services is working with the Bureau of Improvement and Integrity to improve the contract monitoring and quality improvement process as well as taking steps to reposition staff to assist with this.

The Contract includes language to assist pregnant and parenting women by providing interim services if they are on a waitlist; to ensure clients contribute to the cost of services by assessing client income at intake and on a monthly basis; and to ensure care coordination for the clients by assisting them with accessing services or working with a client's existing provider for physical health, behavioral health, medication assisted treatment and peer recovery support services.

The Department will monitor the performance of the Vendors through monthly and quarterly reports, conducting site visits, reviewing client records, and engaging in activities identified in the contract monitoring and quality improvement work referenced above. In addition, the Department is collecting baseline data on access, engagement, clinical appropriateness, retention, completion, and outcomes that will be used to create performance improvement goals in future contracts. Finally, contractor financial health is also being monitored monthly.

This contract includes language that reserves the right to renew each contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of contracted services and Governor and Executive Council approval.

Should the Governor and Executive Council determine to not authorize this Request, the vendors would not have sufficient resources to promote and provide the array of services necessary to provide individuals with substance use disorders the necessary tools to achieve, enhance and sustain recovery.

Area served: Statewide.

Source of Funds: 55.87% Federal Funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, Substance Abuse Prevention and Treatment Block Grant, CFDA #93.959, Federal Award Identification Number TI010035-14, and 13.97% General Funds and 30.16% Other Funds from the Governor's Commission on Alcohol and Other Drug Abuse Prevention, Intervention and Treatment.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

9.1 As used in this Agreement, the word "data" shall mean all information and things developed or obtained during the performance of, or acquired or developed by reason of, this Agreement, including, but not limited to, all studies, reports, files, formulae, surveys, maps, charts, sound recordings, video recordings, pictorial reproductions, drawings, analyses, graphic representations, computer programs, computer printouts, notes, letters, memoranda, papers, and documents, all whether finished or unfinished.

9.3 Confidentiality of data shall be governed by N.H. RSA chapter 91-A or other existing law. Disclosure of data requires prior written approval of the State.

10. TERMINATION. In the event of an early termination of this Agreement for any reason other than the completion of the Services, the Contractor shall deliver to the Contracting Officer, not later than fifteen (15) days after the date of termination, a report ("Termination Report") describing in detail all Services performed, and the contract price earned, to and including the date of termination. The form, subject matter, content, and number of copies of the Termination Report shall be identical to those of any Final Report described in the attached EXHIBIT A.

11. CONTRACTOR'S RELATION TO THE STATE. In the performance of this Agreement the Contractor is in all respects an independent contractor, and is neither an agent nor an employee of the State. Neither the Contractor nor any of its officers, employees, agents or members shall have authority to bind the State or receive any benefits, workers' compensation or other emoluments provided by the State to its employees.

12. ASSIGNMENT/DELEGATION/SUBCONTRACTS.
The Contractor shall not assign, or otherwise transfer any interest in this Agreement without the prior written notice and consent of the State. None of the Services shall be subcontracted by the Contractor without the prior written notice and consent of the State.

13. INDEMNIFICATION. The Contractor shall defend, indemnify and hold harmless the State, its officers and employees, from and against any and all losses suffered by the State, its officers and employees, and any and all claims, liabilities or penalties asserted against the State, its officers and employees, by or on behalf of any person, on account of, based or resulting from, arising out of (or which may be claimed to arise out of) the acts or omissions of the Contractor. Notwithstanding the foregoing, nothing herein contained shall be deemed to constitute a waiver of the sovereign immunity of the State, which immunity is hereby reserved to the State. This covenant in paragraph 13 shall survive the termination of this Agreement.

14. INSURANCE.
14.1 The Contractor shall, at its sole expense, obtain and maintain in force, and shall require any subcontractor or assignee to obtain and maintain in force, the following insurance:
14.1.1 comprehensive general liability insurance against all claims of bodily injury, death or property damage, in amounts of not less than $1,000,000per occurrence and $2,000,000 aggregate ; and

or discharge from treatment, is therefore indicated; or

2.8.5.3.3. Transfer/Discharge Criteria C: The patient has demonstrated a lack of capacity due to diagnostic or co-occurring conditions that limit his or her ability to resolve his or her problem(s). Treatment at a qualitatively different level of care or type of service, or discharge from treatment, is therefore indicated; or
