Concord, NH 03301

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, NH 03301

REQUESTED ACTION

Pursuant to RSA 14:30-a, VI, authorize the Department of Education, Bureau of School Safety and Facility Management to **retroactively** amend an accept and expend item for the NH Lead Removal Drinking Water funds in the amount of \$1.6 million from the NH Department of Environmental Services by extending the end date from September 30, 2019 to June 30, 2021; to continue to award grants to schools for 50% of the cost of lead abatement effective upon Fiscal Committee and Governor and Council approval. Originally approved by Fiscal Committee on July 25, 2019 (item # FIS19-159) and approved by Governor and Council on August 14, 2019 (item #53). 100% Transfers from Other Agencies.

EXPLANATION

This request is **Retroactive** because the item end date fell within the Continuing Resolution and did not align with the end date of the MOU, this was not discovered until we began planning to renew the MOU.

On January 23, 2019, the Governor and Executive Council authorized the approval of a grant agreement between the New Hampshire Department of Environmental Services (NHDES) and the New Hampshire Department of Education (NHDOE) in the total amount of \$1,600,000 under the provisions of RSA 485:F for the NH's K-12 Schools Removal of Lead in Drinking Water project.

This was as a result of an application that NHDOE submitted for a grant from the NH Drinking Water and Groundwater Trust Fund for support to our more than 630 schools with eliminating or reducing exposure to lead from their drinking water if it was found present.

SB247 Preventing Childhood Lead Poisoning from Paint and Water was adopted Feb 8, 2018 requiring all public and private schools and licensed childcare facilities to test for lead at all locations where water is available for consumption by children. This important legislation is intended to protect our children from the very serious, irreversible health effects from lead exposure which can include long-term problems with physical and mental growth and development, slowed body growth, kidney problems, hearing problems, seizures, brain damage, lower IQ level, learning delays,

The Honorable Ken Weyler, Chairman
Fiscal Committee of the General Court

His Excellency, Governor Christopher T. Sununu
and the Honorable Council

reduced attention span, and behavior problems. Our educational facilities are buildings where children are potentially exposed to lead in their drinking water every school day, from Kindergarten through 12th grade.

Approval of this item will allow NHDOE to reimburse public, public-charter, and non-public schools for 50% of lead abatement costs, where needed and as shown through testing. These abatements may include treatment or removal of the source (e.g., piping replacements and/or fixture replacements).

Listed below are answers to standard questions required of all Fiscal Committee item requests related to RSA 9:16-a, "Transfers authorized",- RSA 14:30-a, VI "Expenditure of funds over \$100,000 from any Non State Source", or RSA 124:15,"Positions Authorized", or both, and all emergency requests pursuant to " Chapter 145, subparagraph I, (a), Laws of 2019, making temporary appropriations for the expenses and encumbrances of the State of New Hampshire":

1. Is the action required of this request a result of the Continuing Resolution for FY 2020?

Yes.

2. If this request is retroactive what is the significance and importance of the action being effective from an earlier date?

The MOU was in effect and funds were disbursed for approved projects.

3. Is this a previously funded and ongoing program established through Fiscal Committee and Governor and Executive Council action? (If so, include as an attachment the original documents as approved and cite the specific dates of authorization and end dates for each action as part of your answer to this question.)

Yes, this request was previously approved by Fiscal Committee on March 8, 2019 (Item #FIS 19-059) and Governor and Council on March 27, 2019 (Item #50)

4. Was funding for this program included in the FY 2018-2019 enacted Budget or requested and denied?

No, these funds were awarded to the DOE in FY 19.

5. Is this program in total or in part, included in the vetoed FY 2020-2021 Operating Budget proposal currently pending for your department, or was it requested, and denied?

No, it was not included.

6. Does this program include, either positions or consultants, and if so are the positions filled, vacant, or have offers pending? (Please provide details for each position and note whether consultant contracts have been awarded.)

N/A.

7. What would be the effect should this program be discontinued or not initiated as a result of this request being denied?

If this program is discontinued, local communities will have to pay for 100% of the remediation costs. A new lead bill (SB247) passed last year requiring schools to test for lead and remediate. According to the Department of Environmental Services, lead can be poisonous to humans and animals, causing health problems from high blood

The Honorable Ken Weyler, Chairman
Fiscal Committee of the General Court

His Excellency, Governor Christopher T. Sununu
and the Honorable Council

pressure to nervous system disorders. Young children are the most at risk because their growing bodies absorb more lead than adults' bodies and their brains and nervous systems are more sensitive to its damaging effects.

We have been working closely with NHDES on the issue of the potential occurrence of lead in our school's drinking water and if approved, will continue to do so through the application process for these funds.

In the event Transfers from Other Agencies become no longer available, General Funds will not be requested to support this program. Attached is a copy of the Governor and Council Item which includes the agreement between NHDES and NHDOE. -

Respectfully submitted,

Frank Edelblut

October 23, 2020

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire - 03301

REQUESTED ACTION

Authorize the Department of Environmental Services (NHDES) to amend a Memorandum of Agreement (PO# 1065756) with the NH Department of Education (VC# 177900-B001) relative to the *Grants to New Hampshire Private and Public K-12 Schools to Reduce and Remove Lead in their Drinking Water* by extending the project period to December 31, 2022 from December 31, 2020, effective upon Governor and Council approval. No additional funding is involved in this request. The original grant was approved by Governor and Council on January 23, 2019, Item #76 and amended on June 5, 2019, Item #5G. 100% Drinking Water and Groundwater Trust Fund.

EXPLANATION

The current Memorandum of Agreement (MOA) and Amendment No. 1 with the Department of Education (DOE) has the project ending on December 31, 2020. NHDES was recently awarded \$870,000 from a federal grant program, the Environmental Protection Agency's Water Infrastructure Improvements for the Nation (WIIN), to perform a second round of lead testing in drinking water in schools and licensed childcare facilities. This testing is mandated by NH RSA 485:17-a, the provisions of which became effective July 1, 2019. It is anticipated that through the new outreach and sampling efforts, more schools will be identified that require and request assistance to perform lead remediation. By extending this MOA through December 2022, DOE will be able to continue to provide funding assistance to schools as needed. To date, only \$63,970.79 of the \$1,600,000 in grant funds have been disbursed.

This amendment was approved by the Office of the Attorney General as to form, execution and content. We respectfully request your approval.

Robert R. Scott, Commissioner

AMENDMENT No. 2
MEMORANDUM OF AGREEMENT BETWEEN
N.H. DEPARTMENT OF ENVIRONMENTAL SERVICES AND
N.H. DEPARTMENT OF EDUCATION

AGREEMENT RELATIVE TO GRANTS TO NEW HAMPSHIRE PRIVATE AND PUBLIC K-12 SCHOOLS TO
REDUCE AND REMOVE LEAD IN THEIR DRINKING WATER

This Agreement, hereinafter called the "Amendment," is by and between the Department of Education (NHDOE) and the Department of Environmental Services (NHDES).

WHEREAS, pursuant to a Memorandum of Agreement (MOA) approved by Governor and Council on January 23, 2019 and Amendment No. 1 approved by Governor and Council on June 5, 2019, NHDOE and NHDES agreed to perform certain services upon the terms and conditions specified in the MOA as specified therein; and

WHEREAS, the NHDOE and NHDES have agreed to amend the MOA in certain respects;

NOW THEREFORE, in consideration of the foregoing, and the covenants and conditions contained in the Agreement and set forth herein, the parties hereto do hereby agree as follows:

1. Change the project completion date described in the first paragraph from December 31, 2020 to December 31, 2022.
2. Change section 8. DURATION of the MOA to read:

The project duration extends from the date of approval by Governor and Council through December 31, 2022 for program activities, including and program year closeout, unless terminated by either party, or extended in writing by subsequent agreement of the parties and acceptance by Governor and Council.

Effective Date of Amendment: This Amendment shall take effect upon approval by the Governor and Executive Council of the State of New Hampshire.

Continuance of Agreement: Except as specifically amended and modified by the terms and conditions of this Amendment, the Agreement, and the obligations of the parties thereunder, shall remain in full force and effect in accordance with the terms and conditions set forth therein.

**MEMORANDUM OF AGREEMENT
BETWEEN
DEPARTMENT OF ENVIRONMENTAL SERVICES
AND
DEPARTMENT OF EDUCATION**

This Memorandum of Agreement (MOA) describes activities that have been agreed to between the New Hampshire Department of Environmental Services (NHDES) and the Department of Education (NHDOE) to utilize funding provided through the Drinking Water and Groundwater Trust Fund (DWGTF) funds received from NHDES for the purpose of providing grants to New Hampshire private and public K-12 schools to reduce and remove lead in their drinking water. This MOA will become effective upon approval by Governor and Executive Council. The project completion date is December 31, 2020.

NHDES issued recommendations for voluntary testing of lead in drinking water at all schools and daycares in Spring 2016, following increased awareness of lead toxicity to children from the water crisis in Flint, Michigan. On February 8, 2018, NH adopted Senate Bill 247 Preventing Childhood Lead Poisoning from Paint and Water. This law requires, among other actions, that all K-12 schools and licensed childcare facilities test lead in drinking water at all locations where water is available for consumption by children. The first round of testing is required to be completed by July 1, 2019, and every 5 years thereafter, until at least 3 consecutive rounds are below the standard.

Any locations showing 15 ppb (0.015 mg/L) or higher must be remediated. Remediation plans must be submitted and approved by NHDES and implemented within 30 days of the notification of test results to parents / guardians or as approved by the state. To support the lead remediation efforts in NH schools, a grant program totaling one million six hundred thousand dollars (\$1,600,000) was applied for and awarded from the DWGTF to reimburse public, public-charter, and non-public schools, K-12, for 50% of the lead remediation costs, where needed and as shown through testing.

For the purposes of this MOA, NHDES and NHDOE agree as follows:

1. NHDES and NHDOE shall assign appropriate staff to oversee the implementation of this MOA.
2. NHDES and NHDOE shall individually and collaboratively seek and utilize opportunities to disseminate information about availability of funding under the grant program.
3. NHDES will transfer to NHDOE the total of \$1,600,000 (the funds) to be administered by the DOE School Safety & Facility Management Bureau (SSFMB).

4. **CRITERIA FOR USE OF FUNDS:** The following process and criteria will be used by NHDOE to select projects to receive DWGTF lead remediation grant funding:
- a. Schools shall be eligible for funding for lead remediation projects approved by NHDES since February 8, 2018, which is when the law was signed.
 - b. Eligible projects include permanent lead removal solutions including, but not limited to, the removal/replacement of faucets, fixtures, fountains, solder, piping, and plumbing components as long as there is justification that what is being replaced is contributing to the lead levels.
 - c. Administrative costs shall be absorbed by NHDOE and shall not be charged against any of the transferred funds.
 - d. The school shall submit a remediation plan for any drinking water locations showing the presence of lead for NHDES approval. Any locations with levels of 15 ppb or higher are required to be addressed, but funding assistance will be eligible for remediation of levels of 5 ppb and higher. The remediation plan must include a budget and a request for grant funds.
 - e. Minimum grant amount that can be applied for is \$250 (total remediation cost \$500).
 - f. NHDES will approve the remediation plan and grant amount. NHDES will notify the school and NHDOE of approval. NHDOE will seek approval from Governor and Council for a list of grant projects approved by NHDES. The list will include the SAU number, school name, amount of grant, and a short description of the project.
 - g. After the work is completed the school will submit a signed request for reimbursement to NHDES along with all invoices, an acceptable post-remediation water sample, and an affidavit signed by all school board members attesting that the project is complete and the amount spent was in accordance with the approved remediation plan. If the request is complete NHDES will notify NHDOE to process payment.
 - h. NHDOE will reimburse the school up to 50% of the total eligible costs approved by DES, but not to exceed 50% of the estimated costs identified in the NHDES approved remediation plan.
5. **GRANT ROUNDS:** NHDOE and NHDES will partner to solicit grant applications in order to expend the funds, and will continue to do so until the funds are expended or the expiration of this agreement. Grant applications can be submitted year round and funds will be awarded on a first come first served basis.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, NH 03301

REQUESTED ACTION

Pursuant to RSA 14:30-a, VI, authorize the Department of Education, Bureau of School Safety and Facility Management to accept and expend NH Lead Removal Drinking Water funds in the amount of \$1,600,000.00 from the NH Department of Environmental Services effective upon Fiscal Committee and Governor and Council approval through September 30, 2019. The budget for Fiscal Year 2020 is listed below. 100% Transfers from Other Agencies.

Funds to be budgeted as follows:

Lead Removal Drinking Water Funds
Account: 06-56-56-563510-11810000

Class/Object	Description	FY 2020
001/405885	Inter-Agency Transfers	\$(1,600,000)
073/500583	Grants Non-Federal	\$1,600,000
	Total:	\$1,600,000

EXPLANATION

On January 23, 2019, the Governor and Executive Council authorized the approval of a grant agreement between the New Hampshire Department of Environmental Services (NHDES) and the New Hampshire Department of Education (NHDOE) in the total amount of \$1,600,000 under the provisions of RSA 485:F for the NH's K-12 Schools Removal of Lead in Drinking Water project. This agreement was subsequently amended and approved on June 5, 2019 (Item #5G), by changing the eligibility date for reimbursement from February 8, 2018 to May 17, 2016 to allow schools that were proactive in their lead remediation efforts.

This award was as a result of an application that NHDOE submitted for a grant from the NH Drinking Water and Groundwater Trust Fund for support to our more than 630 schools with eliminating or reducing exposure to lead from their drinking water if it was found present. This request was previously approved by Fiscal Committee on March 8, 2019 (Item #FIS 19-059) and Governor and Council on March 27, 2019 (Item #50). These funds were not included in the FY 2020/2021 budget.

Listed below are answers to standard questions required of all Fiscal Committee item requests, related to RSA 9:16-a, "Transfers authorized", RSA 14:30-a, VI "Expenditure of funds over \$100,000 from any Non State Source", or RSA 124:15, "Positions Authorized", or both, and all emergency requests pursuant to "Chapter 145, subparagraph I, (a), Laws of 2019, making temporary appropriations for the expenses and encumbrances of the State of New Hampshire":

1. Is the action required of this request a result of the Continuing Resolution for FY 2020?
No.
2. If this request is retroactive what is the significance and importance of the action being effective from an earlier date? N/A
3. Is this a previously funded and ongoing program established through Fiscal Committee and Governor and Executive Council action? (If so, include as an attachment the original documents as approved and cite the specific dates of authorization and end dates for each action as part of your answer to this question.) Yes, this request was previously approved by Fiscal Committee on March 8, 2019 (Item #FIS 19-059) and Governor and Council on March 27, 2019 (Item #50)
4. Was funding for this program included in the FY 2018-2019 enacted Budget or requested and denied? No, these funds were awarded to the DOE in FY 19.
5. Is this program in total or in part, included in the vetoed FY 2020-2021 Operating Budget proposal currently pending for your department, or was it requested and denied?
No, it was not included.
6. Does this program include, either positions or consultants, and if so are the positions filled, vacant, or have offers pending? (Please provide details for each position and note whether consultant contracts have been awarded.) N/A.

The Honorable Mary Jane Wallner, Chairman
Fiscal Committee of the General Court

His Excellency, Governor Christopher T. Sununu
and the Honorable Executive Council

June 28, 2019
Page 3 of 3

7. What would be the effect should this program be discontinued or not initiated as a result of this request being denied? If this program is discontinued, local communities will have to pay for 100% of the remediation costs. A new lead bill (SB247) passed last year requiring schools to test for lead and remediate. According to the Department of Environmental Services, lead can be poisonous to humans and animals, causing health problems from high blood pressure to nervous system disorders. Young children are the most at risk because their growing bodies absorb more lead than adults' bodies and their brains and nervous systems are more sensitive to its damaging effects.

SB247 Preventing Childhood Lead Poisoning from Paint and Water was adopted Feb 8, 2018 requiring all public and private schools and licensed childcare facilities to test for lead at all locations where water is available for consumption by children. This important legislation is intended to protect our children from the very serious, irreversible health effects from lead exposure which can include long-term problems with physical and mental growth and development, slowed body growth, kidney problems, hearing problems, seizures, brain damage, lower IQ level, learning delays, reduced attention span, and behavior problems. Our educational facilities are buildings where children are potentially exposed to lead in their drinking water every school day, from Kindergarten through 12th grade.

Approval of this item will allow NHDOE to reimburse public, public-charter, and non-public schools for 50% of lead abatement costs, where needed and as shown through testing. These abatements may include treatment or removal of the source (e.g., piping replacements and/or fixture replacements).

We have been working closely with NHDES on the issue of the potential occurrence of lead in our school's drinking water and if approved, will continue to do so through the application process for these funds.

Concord, New Hampshire 03301

APPROVED G & C
DATE 6/5/19
ITEM # 56

REQUESTED ACTION

Authorize the Department of Environmental Services to amend a Memorandum of Agreement with the Department of Education relative to the *Grants to New Hampshire Private and Public K-12 Schools to Reduce and Remove Lead in their Drinking Water* by lengthening the period of cost recovery allowed. No additional funding is involved in this request. The original grant was approved by Governor and Council on January 23, 2019, Item #76. 100% Drinking Water and Groundwater Trust Fund.

EXPLANATION

We are requesting this amendment in order to allow the Department of Education (DOE) to award grants to schools that were proactive in their lead remediation efforts. The DOE is using the grant funds to support lead remediation efforts in New Hampshire's schools by reimbursing schools, K-12, for 50% of the lead remediation costs, where needed and as shown through testing.

The current Memorandum of Agreement (MOA) with DOE allows grants to cover work completed by schools after February 8, 2018 which is when NH adopted Senate Bill 247 Preventing Childhood Lead Poisoning from Paint and Water. The New Hampshire Department of Environmental Services (NHDES) issued a letter to schools on May 17, 2016 that encouraged schools to test water from regularly used taps for lead. Several schools were proactive and sampled for lead and completed remediation work in 2016 and 2017. This amendment will change the eligible date for reimbursement by the grant from February 8, 2018 to May 17, 2016. To date, none of the \$1,600,000 grant funds have been spent, however, the program is starting to receive grant requests as more schools are completing their lead testing.

In the event that other funds become no longer available, General funds will not be requested to support this program. This amendment was approved by the Office of the Attorney General as to form, execution and content.

We respectfully request your approval,

Robert R. Scott
Commissioner

The State of New Hampshire
Department of Environmental Services

Robert R. Scott, Commissioner

January 3, 2019

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House

APPROVED
DATE: 1/23/19
ITEM # 76

REQUESTED ACTION

Authorize the Department of Environmental Services to enter into a Memorandum of Agreement (MOA) with the Department of Education (VC# 177900 B001), Concord, NH in the amount of \$1,600,000 for lead removal in drinking water at NH's schools, effective upon Governor & Council approval, through December 31, 2020. 100% Drinking Water and Groundwater Trust Fund.

Funding is available in the account as follows:

03-44-44-442010-3904-073-500580
Dept Environmental Services, Drinking Water and Groundwater Trust, Grants Non-Federal
FY 2019
\$1,600,000

EXPLANATION

The Drinking Water and Ground Water Trust Fund was created in 2016, using \$276 million of MtBE trial judgement funds, as authorized by RSA 485-F. The purpose of the Trust Fund is to provide sustainable, long-term funding for the protection, preservation, and enhancement of the drinking water and groundwater resources of the state. The Drinking Water and Groundwater Advisory Commission was established to administer the Trust Fund and to provide guidance to the State on the use of the Trust Fund.

On August 30, 2018, the Advisory Commission voted to authorize grants and loans for nineteen drinking water improvement projects. The Department of Education's NH's K-12 Schools - Removal of Lead in Drinking Water project request for \$1,600,000 was selected for grant funding from the Drinking Water and Groundwater Trust Fund. The District will use the grant funds to support the lead remediation efforts in NH schools by reimbursing public, public-charter, and non-public schools, K-12, for 50% of the lead remediation costs, where needed and as shown through testing.

This agreement has been approved by the Attorney General's Office as to form, substance and execution.

We respectfully request your approval.

MEMORANDUM OF AGREEMENT BETWEEN
N.H. DEPARTMENT OF ENVIRONMENTAL SERVICES
AND
N.H. DEPARTMENT OF EDUCATION

**AGREEMENT RELATIVE TO GRANTS TO NEW HAMPSHIRE PRIVATE AND PUBLIC K-12 SCHOOLS TO
REDUCE AND REMOVE LEAD IN THEIR DRINKING WATER**

This Agreement, hereinafter called the "Amendment," is by and between the Department of Education (NHDOE) and the Department of Environmental Services (NHDES).

WHEREAS, pursuant to a Memorandum of Agreement (MOA) approved by Governor and Council on January 23, 2019, NHDOE and NHDES agreed to perform certain services upon the terms and conditions specified in the MOA as specified therein; and

WHEREAS, the NHDOE and NHDES have agreed to amend the MOA in certain respects;

NOW THEREFORE, in consideration of the foregoing, and the covenants and conditions contained in the Agreement and set forth herein, the parties hereto do hereby agree as follows:

1. Change section 4 a. CRITERIA FOR USE OF FUNDS of the MOA to read:
 - a. Schools shall be eligible for funding for lead remediation projects approved by NHDES since May 17, 2016, which is when NHDES issued a letter requesting schools to sample.

Effective Date of Amendment: This Amendment shall take effect upon approval by the Governor and Executive Council of the State of New Hampshire.

Continuance of Agreement: Except as specifically amended and modified by the terms and conditions of this Amendment, the Agreement, and the obligations of the parties thereunder, shall remain in full force and effect in accordance with the terms and conditions set forth therein.
