**EXPLANATION**

The Drinking Water and Groundwater Trust Fund was created in 2016 using \$276 million of MtBE trial judgement funds, as authorized by RSA 485-F. The purpose of the Trust Fund is to provide sustainable, long-term funding for the protection, preservation, and enhancement of the drinking water and groundwater resources of the state. The Drinking Water and Groundwater Advisory Commission was established to administer the Trust Fund and to provide guidance to the State on the use of the Trust Fund.

On February 8, 2021, the Advisory Commission voted to authorize \$82,500 as a grant to The Pound Road Water Works, Inc. for pump house upgrades which include replacing the old atmospheric tank, hydro-pneumatic tank and below-grade confined space facility with a new pump house, atmospheric tank, and variable frequency drive booster pumps. This grant will supplement funds through the New Hampshire Drinking Water State Revolving Fund (DWSRF). In the event that grant funds no longer become available, General funds will not be requested to support this program. This agreement has been approved by the Attorney General's Office as to form, substance and execution.
