EXPLANATION

Since the most recent amendment to this contract, the Contractor has changed their name from Concord Regional Visiting Nurse Association, Inc., to Granite VNA d/b/a Concord Regional Visiting Nurse Association, Inc. The Contractor changed their name as the result of a merger between Concord Regional Visiting Nurse Association, Inc., and Central New Hampshire Visiting Nurse Association & Hospice. The services provided by the Contractor are unchanged.

The purpose of this request is to continue providing foot care services to approximately 325 clients at New Hampshire Hospital who are considered high risk due to diabetes, medication, or medical history and to continue providing foot care education to clients not considered high risk.

The Department cannot determine how many individuals will be served from July 1, 2021 through June 30, 2023. Clients are considered high-risk when their medical history or medication put them at risk of developing potentially high-risk conditions including diabetes, with complications such as reduced sensation or circulation to the feet; a history of lower limb amputation; a foot infection; foot ulcer; peripheral vascular disease; rheumatoid arthritis; a neurological condition causing foot desensitization; immune-suppression; and infected in-growing toenails.

The Contractor conducts foot assessments and recommends a plan of care. Foot care services for high-risk clients include filing normal or slightly thickened toenails; filing rough or hard skin with a pumice or foot file; and applying emollient creams when skin is dry. Foot care education is provided to low-risk clients who do not have any of the high-risk factors but had a podiatric problem that required treatment by a podiatrist. Self-care education includes a demonstration of how to file nails safely, footwear advice and foot literature.

The Department will monitor contracted services by reviewing the Contractor's written progress notes for each individual who received services.

As referenced in Exhibit C-1, Revisions to General Provisions of the original contract, the parties have the option to extend the agreement for up to four (4) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for two (2) of the two (2) years available.

Should the Governor and Council not authorize this request, clients at New Hampshire Hospital may not have access to proper foot care education and foot care services necessary to remain in good health.

Area served: Statewide

In the event that the Other Funds become no longer available, General Funds will be requested to support this program.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

1. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Basis of Presentation

Net assets and revenues, expenses, gains, and losses are classified based on the existence or absence of donor-imposed restrictions in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 958, *Not-For-Profit Entities*. Net assets are classified as follows:

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Association. These net assets may be used at the discretion of the Association's management and the Board of Trustees (Board).

Net assets with donor restrictions: Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Association or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

Donor restricted contributions are reported as increases in net assets with donor restrictions. When a restriction expires, net assets are reclassified from net assets with donor restrictions to net assets without donor restrictions in the statements of operations and changes in net assets. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire property and equipment are reported as support with donor restrictions. Absent explicit donor stipulations as to how long-lived assets must be maintained, satisfactions of donor restrictions are reported when the property and equipment are acquired and placed in service.

Cash and Cash Equivalents and Certificates of Deposit

All liquid investments with an original maturity of three months or less are considered to be cash equivalents.

Patient Accounts Receivable

Patient accounts receivable is stated at the amount management expects to collect from outstanding balances. Management provides a reserve for payment adjustments based on its assessment of the current status of individual accounts. Balances that are still outstanding after management has used reasonable collection efforts are applied against the reserve for payment adjustments.

Investments

Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Consequently, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of financial position.

Funds have been pooled for investment purposes. Income received, and realized and unrealized gains and losses are apportioned to the participating funds based on their respective units in the pool, and then apportioned to the appropriate net asset categories according to donor restrictions and law. The units held by each fund are determined using fair value.

Property and Equipment

Purchased property and equipment are recorded at cost. Owned property and equipment are depreciated on the straight-line method over the estimated useful lives of the respective assets. Leasehold improvements are amortized by the straight-line method over the lesser of the lease term or the estimated useful life of the related asset.

Medicare Accelerated Payments

In response to the COVID-19 pandemic, the Centers for Medicare & Medicaid Services (CMS) made available an accelerated and advance payment program to Medicare providers. The Association received \$6,163,071 in April 2020. Under the program, CMS will begin recouping payment from claim payments one year after the advance was made for a period of seventeen months.

Paycheck Protection Program

On April 13, 2020, the Organization qualified for and received a loan in the amount of \$6,169,200 pursuant to the Paycheck Protection Program (PPP), a program implemented by the U.S. Small Business Administration (SBA) under the Coronavirus Aid, Relief, and Economic Security (CARES) Act and the Paycheck Protection Program and Health Care Enhancement Act. The loan is unsecured, has a two-year term with a maturity date of April 2022; bears an annual interest rate

of 1%; and shall be payable monthly beginning ten months after the end of the covered period. The principal and interest of the PPP are subject to forgiveness, upon the Association's request, to the extent that the proceeds are used to pay qualifying expenditures, including payroll costs, interest on mortgages, rent and utilities, incurred by the Association, provided certain conditions are met. It is the Association's intent to apply for forgiveness. Forgiveness is subject to the sole approval of the SBA. The Association has chosen to follow the conditional contribution model for the PPP and has opted to not record any income until forgiveness is received. The full amount of the PPP received is reported in the current liabilities section of the balance sheet at September 30, 2020.

Net Patient Service Revenue

Services to all patients are recorded as revenue when services are rendered at the estimated net realizable amounts from patients, third-party payors and others, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and in future periods as final settlements are determined. Patients unable to pay full charge, who do not have other third-party resources, are charged a reduced amount based on the Association's published sliding fee scale. Reductions in full charge are recognized when the service is rendered.

Performance obligations are determined based on the nature of the services provided by the Association. Revenue for performance obligations satisfied over time is recognized based on actual services rendered. Generally, performance obligations satisfied over time relate to patients receiving skilled and non-skilled services in their home or facility. The Association measures the period over which the performance obligation is satisfied from admission to the point when it is no longer required to provide services to that patient, which is generally at the time of discharge.

Providers of home health services to clients eligible for Medicare home health benefits are paid on a prospective basis, with no retrospective settlement. The prospective payment is based on the scoring attributed to the acuity level of the client at a rate determined by federal guidelines. As the performance obligations for home health services are met, revenue is recognized based upon the portion of the transaction price allocated to the performance obligation. The transaction price is the prospective payment determined for the medically necessary services.

Providers of hospice services to clients eligible for Medicare hospice benefits are paid on a fee-for-service basis, with no retrospective settlement, provided the Association's aggregate annual Medicare reimbursement is below a predetermined aggregate capitated rate. Revenue is recognized as the services are performed based on the fixed rate amount. As the performance obligations for hospice services are met, revenue is recognized based upon the portion of the transaction price allocated to the performance obligation. The transaction price is the predetermined aggregate capitated rate per day.

Because all of the Association's performance obligations relate to short-term periods of care, the Association has elected to apply the optional exemption provided in FASB ASC Subtopic 606-10-50-14 (a) and, therefore, is not required to disclose the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied or partially unsatisfied at the end of the reporting period.

Deficiency of Revenues and Other Support over Expenses

The Association has deemed all activities as ongoing, major, or central to the provision of healthcare services and, accordingly, they are reported as operating revenues and expenses, except for contributions, investment returns, and spending policy allotment releases which are recorded as nonoperating revenue and support. These topics are included in the deficiency of revenue and other support over expenses pursuant to the fair value option under FASB ASC Topic 825, *Financial Instruments*.

Income Taxes

The Association is a tax-exempt entity under Section 501(c)(3) of the Internal Revenue Code (IRC).

Newly Adopted Accounting Pronouncements

In 2020, the Association adopted FASB Accounting Standards Update (ASU) No. 2014-09, *Revenue from Contracts with Customers* (Topic 606), and related guidance, which supersedes accounting standards that previously existed under U.S. GAAP and provides a single revenue model to address revenue recognition to be applied by all companies. Under the new standard, which added Topic 606 to the ASC, entities recognize revenue when a customer obtains control of promised goods or services in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. ASU No. 2014-09 also requires companies to disclose additional information, including the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The Association elected to adopt this ASU retrospectively with the cumulative effect recognized at the date of initial application; therefore, the financial statements and related notes have been presented accordingly. The balance of accounts receivable at the beginning of 2019 was \$3,849,869. The adoption had no significant impact for the years ended September 30, 2020 and 2019.

The Association also adopted FASB ASU No. 2018-08, *Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made*, which clarifies and improves the accounting guidance for contributions received and contributions made. The amendments in this ASU assist entities in (1) evaluating whether transactions should be accounted for as contributions (nonreciprocal transactions) within the scope of ASC Topic No. 958, or as exchange (reciprocal) transactions subject to other accounting guidance, and (2) distinguishing between conditional and unconditional contributions. This ASU was adopted by the Association for the year ended September 30, 2020. Adoption of the ASU did not have a material impact on the Association's financial reporting.

Uncertainty Related to COVID-19

On March 11, 2020, the World Health Organization declared the Coronavirus disease (COVID-19), a global pandemic. In response to the global pandemic, CMS implemented certain relief measures and also issued guidance for limiting the spread of COVID-19. Local, U.S., and world governments have encouraged self-isolation to curtail the spread of COVID-19, by mandating the temporary shut-down of business in many sectors and imposing limitations on travel and the size and duration of group meetings. Many sectors are experiencing disruption to business operations and may feel further impacts related to delayed government reimbursement, volatility in investment returns, and reduced philanthropic support. There is unprecedented uncertainty surrounding the duration of the pandemic, its potential economic ramifications, and any government actions to mitigate them.

The U.S. government has responded with several phases of relief legislation as a response to the COVID-19 outbreak. Legislation enacted into law on March 27, 2020, called the CARES Act, a statute to address the economic impact of the COVID-19 outbreak. The CARES Act, among other things, 1) authorizes emergency loans to distressed businesses by establishing, and providing funding for, forgivable bridge loans, 2) provides additional funding for grants and technical assistance, 3) delays due dates for employer payroll taxes and estimated tax payments for corporations, and 4) revises provisions of the IRC, including those related to losses, charitable deductions, and business interest. The Association has received emergency federal grant funding under the CARES Act totaling \$1,476,600 to offset COVID-19 costs and lost revenues. The Association has released and reported \$87,448 as other operating revenues in the statement of operations for the year ended September 30, 2020 related to qualified COVID-19 costs. The remaining funds are reported in the current liabilities section of the statement of financial position under Provider Relief Funds at September 30, 2020 and will be either recognized or repaid during 2021.

Subsequent Events

For purposes of the preparation of these financial statements, management has considered transactions or events occurring through December 15, 2020, the date which the financial statements were available to be issued.

2. Availability and Liquidity of Financial Assets

As of September 30, 2020, the Association had working capital of \$2,301,320 and average days (based on normal expenditures) of cash and cash equivalents and certificates of deposit on hand of 151 and 47 at September 30, 2020 and 2019, respectively.

The Association has also board designated long-term investments that are intended to fund certain costs or projects that could be made available for general expenditure upon board approval. The Association has other assets restricted to use, which are more fully described in Note 6, and which are not available for general expenditure within the next year and not reflected in the amounts above.

The Association manages its cash and cash equivalents available to meet general expenditures following two guiding principles:

- Operating within a prudent range of financial soundness and stability.
- Maintaining adequate liquid assets.

Strategies Employed for Achieving Objectives

The primary objective of the investment funds is preserving the purchasing power of the assets. The investment funds are managed based on relative performance, in a manner that provides diversification, liquidity and a dependable source of income. The goal is to attain a rate of return equal to the Consumer Price Index plus 4%.

Funds with Deficiencies

From time to time, the fair value of assets associated with donor-restricted endowment funds may fall below the level that the donor or the State of New Hampshire Uniform Prudent Management of Institutional Funds Act (the Act) requires the Association to retain as a fund of perpetual duration ("underwater"). In accordance with GAAP, there were no such deficiencies at September 30, 2020 and 2019.

Spending Policy

The Association has interpreted the Act as allowing the Board to appropriate for expenditure for the uses and purposes for which the endowment fund is established, unless otherwise specified by the donor, so much of the net appreciation, realized and unrealized, in the fair value of the assets of the endowment fund over the historic dollar value of the fund as is prudent. In doing so, the Board must consider the long and short-term needs of the Association in carrying out its purpose, its present and anticipated financial requirements, expected total return on its investments, price level trends, and general economic conditions. For the years ended September 30, 2020 and 2019, the Board retained all appreciation over 7% on donor-restricted endowment funds in net assets with donor restrictions.

The Association developed an additional spending policy for funds donated to the Association without donor restrictions and designated by the Board as endowment funds. The policy is effective for the year ended September 30, 2020 and is a 3% annual draw calculated on a three year rolling market value historical average regardless of deficiencies due to temporary market fluctuations. The funds are released monthly and transferred from the investment account to the operating account to help support operations and continue to meet the Association's mission.

4. Beneficial Interest in Perpetual Trusts

The Association is a beneficiary of the Benjamin and Gertrude Couch, George Griffin, Jeanne C. and Walter W. Dwyer, and Thelma A. Larson Trusts, the assets of which are not in the possession of the Association. The Association has legally enforceable rights and claims to such assets, including the right to income therefrom. Consistent with the provisions of FASB ASC Topic 958 Subtopic 605, related to accounting for contributions received, these funds are included in the Association's financial statements. The fair value of the trust assets is reflected as an estimate of the present value of the future cash flows from the trusts and is reported as net assets with donor restrictions. Appreciation of the trusts is not available for expenditure by the Association unless the trustee decides to appropriate it. Total contributions from these trusts were \$70,172 in 2020 and \$81,537 in 2019.

CONCORD REGIONAL VISITING NURSE ASSOCIATION, INC.**Notes to Financial Statements****September 30, 2020 and 2019****7. Net Patient Service Revenue**

A summary of net patient service revenue for the years ended September 30 is as follows:

	<u>2020</u>	<u>2019</u>
Gross patient service revenue		
Medicare	\$ 27,635,809	\$ 26,630,723
Medicaid	2,389,612	2,156,751
Private patient	816,354	1,084,508
Other third-party	<u>3,493,424</u>	<u>3,988,904</u>
	34,335,199	33,860,886
Less contractual adjustments and charity care	<u>3,428,586</u>	<u>3,033,556</u>
Net patient service revenue	<u>\$ 30,906,613</u>	<u>\$ 30,827,330</u>

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. Compliance with such laws and regulations can be subject to future government review and interpretation, as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs. The Association believes that it is in substantial compliance with all applicable laws and regulations. However, there is at least a reasonable possibility that recorded estimates could change a material amount in the near term. Differences between amounts previously estimated and amounts subsequently determined to be recoverable or payable are included in net patient service revenue in the year that such amounts become known.

In assessing collectability, the Association has elected the portfolio approach. This portfolio approach is being used as the Association has similar contracts with similar classes of patients. The Association reasonably expects that the effect of applying a portfolio approach to a group of contracts would not differ materially from considering each contract separately. Management's judgment to group the contracts by portfolio is based on the payment behavior expected in each portfolio category. As a result, management believes aggregating contracts (which are at the patient level) by the particular payor or group of payors results in the recognition of revenue approximating that which would result from applying the analysis at the individual patient level.

8. Charity Care

The Association has a policy of providing charity care to its clients who are unable to pay. Eligible clients are identified based on their financial information obtained and subsequent analysis. Since the Association does not expect payment, estimated charges for charity care are not included in revenue.

The amount of home care charges foregone for services furnished under the Association's charity care policy was \$287,100 and \$196,300 for 2020 and 2019, respectively. Costs incurred for these activities approximated \$319,600 and \$208,600 for 2020 and 2019, respectively.

CONCORD REGIONAL VISITING NURSE ASSOCIATION, INC.**Notes to Financial Statements****September 30, 2020 and 2019**

The Association also provided services in other health-related activities, primarily to indigent patients, at rates substantially below cost. Costs incurred for these activities, for services to Medicaid patients, approximated \$1,508,000 and \$1,250,000 for 2020 and 2019, respectively.

The Association was able to provide the above charity care under sliding fee scale policies and in activities without established rates or at rates substantially below cost through a combination of local community support and state grants. Local community support consisted of contributions and municipal appropriations.

In 2020 and 2019, approximately 1% of nongovernmental home health and hospice clients served received services on a discounted basis.

9. Concentrations of Credit Risk

The Association generated approximately 87% and 85% of its gross patient service revenues from the New Hampshire Medicaid and federal Medicare programs in 2020 and 2019, respectively. Under these programs, the provider is reimbursed for the care of the qualified clients at amounts which may differ from its standard charges.

The Association grants credit without collateral to its patients, most of whom are local residents and insured under third-party payor agreements. The mix of receivables for patients and third-party payors at September 30 were as follows:

	<u>2020</u>	<u>2019</u>
Medicare	72 %	72 %
Medicare Advantage	11	10
Medicaid	4	2
Other third-party payors	11	11
Patients	<u>2</u>	<u>5</u>
	<u>100 %</u>	<u>100 %</u>

Due to the large concentration of clients who receive benefits from the Medicare reimbursement program, the Association is highly dependent upon regulatory authorities establishing reimbursement rates that are adequate to sustain the Association's operations.

10. Contingency**Malpractice Insurance**

The Association carries malpractice insurance coverage under a claims-made policy through a group risk sharing arrangement with CRHC. The policy is a claims-made policy that includes basic liability, as well as excess liability coverage on varying levels. The cost of purchasing the coverage is shared between the entities that have entered into the risk sharing agreement.

CONCORD REGIONAL VISITING NURSE ASSOCIATION, INC.**Notes to Financial Statements****September 30, 2020 and 2019**

Should the claims-made policy not be renewed or replaced with equivalent insurance, claims based on occurrences during its term, but reported subsequently, will be uninsured. The Association intends to renew its coverage on a claims-made basis and has no reason to believe that it may be prevented from renewing such coverage. The Association is subject to complaints, claims, and litigation due to potential claims which arise in the normal course of business. GAAP requires the Association to accrue the ultimate cost of malpractice claims when the incident that gives rise to the claim occurs, without consideration of insurance recoveries. Expected recoveries are presented as a separate asset. The Association has evaluated its exposure to losses arising from potential claims and determined that no such accrual is necessary for the years ended September 30, 2020 and 2019.

11. Functional Expenses

The Association provides various services to residents within its geographic location. Expenses related to providing these services are as follows:

	<u>2020</u>	<u>2019</u>
Program services		
Salaries and benefits	\$27,278,006	\$25,503,422

Notes to Financial Statements

September 30, 2020 and 2019

12. Retirement Plan

The Association sponsors a 401(k) profit sharing plan (Plan) that includes an Association match covering employees who meet certain age and time requirements. Contributions to the Plan were \$929,354 for 2020 and \$902,863 for 2019.

13. Deferred Compensation Plan

The Association had established a funded deferred compensation plan for the former President/Chief Executive Officer (CEO). The plan was designed to defer a portion of annual compensation and provide payments, as determined by the plan, at disability, retirement, death, separation from service, or for certain financial hardships. All amounts contributed and income earned under the funded plan are held in a trust and remain, until made available to the participant or designated beneficiary, the sole property and rights of the Association, and are included in other assets and other liabilities in the statements of financial position. The former President/CEO has elected distribution at a future time.

14. Related Party Transactions

The Association engages in activities with CRHC and its subsidiaries on a regular basis. Services provided to affiliates by the Association include nursing services of \$99,245 for 2020 and \$93,945 for 2019. Services purchased from affiliates by the Association include information system support, telephone services, and supplies of \$667,353 for 2020 and \$774,213 for 2019. The Association owed Concord Hospital \$86,064 and \$63,306 as of September 30, 2020 and 2019, respectively. These amounts are included in accounts payable in the statements of financial position.

The Association historically has purchased pharmaceuticals from entities which are owned by a member of the Board. The member is no longer on the Board, and there were no related party transactions during 2020. Total purchases were \$574,451 in 2019 and the Association owed these entities \$68,363 at September 30, 2019, which was included in accounts payable in the statements of financial position. The Association does not owe these entities any amount at September 30, 2020.

15. Fair Value of Financial Instruments

ASC Topic 820, *Fair Value Measurement*, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC Topic 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

CONCORD REGIONAL VISITING NURSE ASSOCIATION, INC.

Notes to Financial Statements

September 30, 2020 and 2019

Level 2: Significant observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The following table sets forth by level, within the fair value hierarchy, the Association's assets measured at fair value on a recurring basis as of September 30:

CONCORD REGIONAL VISITING NURSE ASSOCIATION, INC.**Notes to Financial Statements****September 30, 2020 and 2019**

Fair value of the investments is measured using quoted prices in active markets where available. Fair value of Level 2 corporate bonds is primarily based on estimates using market prices of comparable securities.

Fair value of the beneficial interest in perpetual trusts is measured based on quoted market prices of the investments in the trusts, but is classified as Level 3 as there is no market in which to trade the beneficial interest itself.

Changes in the fair value of assets classified as Level 3 are comprised of the following:

Balance, October 1, 2018	\$ 1,202,163
Change in value	<u>(21,451)</u>
Balance, September 30, 2019	1,180,712
Change in value	<u>3,276</u>
Balance, September 30, 2020	<u>\$ 1,183,988</u>

16. Merger Agreement

On July 1, 2020, the Association signed a merger agreement with Central New Hampshire VNA & Hospice to merge the two agencies with the Association being the surviving corporation. The anticipated effective date of the merger is December 31, 2020.

EXPLANATION

The purpose of this request is to continue providing foot care services to approximately three hundred twenty-five (325) clients at New Hampshire Hospital who are considered high risk due to diabetes, medication or medical history and to provide foot care education to clients not considered high risk.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
Page 2 of 2

The original agreement includes language in the Exhibit C-1, Revisions to General Provisions, that allows the Department to renew the contract for up to four (4) additional years, subject to the continued availability of funding, satisfactory performance of service, parties' written authorization and approval from the Governor and Executive Council. The Department is in agreement with renewing services for two (2) of the four (4) years at this time.

Clients are considered high-risk when their medical history or medication put them at risk of developing potentially high-risk conditions including diabetes, with complications such as reduced sensation or circulation to the feet; a history of lower limb amputation; a foot infection; foot ulcer; peripheral vascular disease; rheumatoid arthritis; a neurological condition causing foot desensitization; immuno-suppression; and infected in-growing toenail.

The Contractor conducts foot assessments and recommends a plan of care. Foot care services for high-risk clients include filing of normal or slightly thickened toenails, filing of rough or hard skin with a pumice or foot file and the application of emollient creams when skin is dry. Foot care education is provided to low-risk clients who do not have any of the high-risk factors but had a podiatric problem that required treatment by a podiatrist. Self-care education includes a demonstration of how to file nails safely, footwear advice and foot care literature. The Department is satisfied with the services currently being provided by the Contractor.

Should the Governor and Executive Council not authorize this request, clients at New Hampshire Hospital may not have access to proper foot care education and foot care services necessary to remain in good health.

Area served: New Hampshire Hospital's Acute Psychiatric Services Building

Source of funds: 36% General Funds and 64% Other Funds (Provider Fees)

In the event that the Other Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Jeffrey A. Meyers
Commissioner

AND OTHER RESPONSIBILITY MATTERS**

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

 - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).
