(vendor code #156919), 27 Locke Road, Concord, New Hampshire 03301, for Professional Architectural Services for planning and design of various projects as necessary and required by the Department, by exercising a renewal option by increasing the price limitation by \$500,000 from \$1,000,000.00 to \$1,500,000.00 and by extending the completion date from June 30, 2021 to June 30, 2022 effective July 1, 2021 or upon Governor and Council approval, whichever is later.

The original contract was approved on June 19, 2019 (item #147) for a two (2) year period with the option for two (2) one (1) year renewals. The amount to be expended under this agreement shall not exceed \$500,000.00 per contract year.

This contract enables the Department to respond quickly to unscheduled project requests and possible emergencies regarding architectural and building issues. The decision as to which projects will be assigned will be made on a case-by-case basis, depending on the particular expertise required and the firm's current workload.

Federal Funds may be used to pay for these contract services and are provided to the State of New Hampshire - The Department of Military Affairs and Veterans Services by the National Guard Bureau pursuant to a Federal-State Master Cooperative Agreement for the mutual support of the New Hampshire Army National Guard. The contract agreement has been approved by the New Hampshire Department of Justice as to form, substance and execution.

Respectfully Submitted,

WHEREAS, pursuant to Form P-37, General Provisions, Paragraph 18, the Contract may be amended upon written agreement of the parties and approval from the Governor and Executive Council; and

WHEREAS, the parties agree to extend the term of the agreement, increase the price limitation, or modify the scope of services to support continued delivery of these services; and

NOW THEREFORE, in consideration of the foregoing and the mutual covenants and conditions contained in the Contract and set forth herein, the parties hereto agree to amend as follows:

1. Form P-37 General Provisions, Block 1.7, Completion Date, to read:

3. Modify Exhibit C, Special Provisions, to add the following provisions:

The Contractor acknowledges and agrees that this Agreement was entered into following the coronavirus disease 2019 (COVID-19) outbreak. The Contractor agrees that to the extent the COVID-19 outbreak, or any federal, state or local orders, regulations, rules, restrictions, or emergency declarations relating to COVID-19, disrupt, delay, or otherwise impact the Scope of Services to be performed by the Contractor as set forth in EXHIBIT A of this Agreement, any such disruption, delay, or other impact was foreseeable at the time this Agreement was entered into by the Parties and does not excuse the Contractor's performance under this Agreement. The Contractor agrees that any such impact, including any disruption to supply chains, workforce reductions, delays or interruptions in performance, or other effects on businesses, are not the fault of the State and the Contractor may not seek damages against the State for any such impacts.

By exercising any of the rights described within this subsection, the State does not waive any of its right under this Agreement.

In the event that a modification by the State under this subsection would result in a reduction of Services that cannot be supplemented during the remaining term of this Agreement with either replacement or substituted services of substantially similar value, the Parties shall submit an amendment to this Agreement with a commensurate reduction in the price. In order to facilitate reconciliation of services performed under this Agreement, the Contractor shall submit weekly reports detailing the following for any service not fully performed pursuant to the terms of the Agreement:

Disclosure of Information.

1. Contracting Officer has given prior written approval;
2. The information is otherwise in the public domain before the date of release; or
3. The information results from or arises during the performance of a project that involves no covered defense information (as defined in the clause at) and has been scoped and negotiated by the contracting activity with the contractor and research performer and determined in writing by the contracting officer to be fundamental research (which by definition cannot involve any covered defense information), in accordance with National Security Decision Directive 189, National Policy on the Transfer of Scientific, Technical and Engineering Information, in effect on the date of contract award and the Under Secretary of Defense(Acquisition, Technology, and Logistics) memoranda on

Fundamental Research, dated May 24, 2010, and on Contracted Fundamental Research, dated June 26, 2008 (available at DFARSPGI).

(a) Requests for approval under paragraph (a)(1) shall identify the specific information to be released, the medium to be used, and the purpose for the release. The Contractor shall submit its request to the Contracting Officer at least 10 business days before the proposed date for release.

(b) The Contractor agrees to include a similar requirement, including this paragraph (c), in each subcontract under this contract. Subcontractors shall submit requests for authorization to release through the prime contractor to the Contracting Officer.

National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2019 (Public Law 115-232)

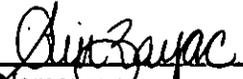

The grantee covenants and agrees that it will not use "covered telecommunications equipment or services," as that term is defined in Section 889 of the NDAA for FY 2019, as a substantial or essential component of any system or as critical technology as part of any system involved in the grantee's performance of this contract. The grantee further covenants and agrees that it will neither contract, nor permit to be contracted or subcontracted any part of its performance under this contract to any entity that uses such covered telecommunications equipment or services as a substantial or essential component of any system or as critical technology as part of any system.

REQUESTED ACTION

Authorize The Adjutant General's Department to enter into a contract agreement with The H.L. Turner Group, Inc. (vendor code #156919), 27 Locke Road, Concord, New Hampshire 03301, for Professional Architectural Services for planning and design of various projects as necessary and required by the Department. The contract period is July 1, 2019 through June 30, 2021. The amount to be expended under this agreement shall not exceed \$500,000.00 per contract year (for a total not to exceed \$1,000,000.00).

EXPLANATION

Five (5) different vendors have been selected to perform these contract services, and each project will be funded from accounts specific to each particular project. The majority of projects needing this type of work are maintenance/repair and Capital Budget projects.

The Department proposes to retain the firm of H.L. Turner to expedite the project workload and provide appropriate technical expertise as required for specific future projects. This contract will enable the Department to respond quickly to unscheduled project requests and possible emergencies regarding architectural and building issues. The decision as to which projects will be assigned will be made on a case-by-case basis, depending on the particular expertise required and the firm's current workload.

The request for qualifications used to identify the chosen vendor(s) and the selection process utilized by the Department for this project is in accordance with RSA 21-I:22, "Selection of Engineers, Architects and Surveyors", as many of these projects will need to have a professional architectural stamp to be legally sufficient.

A rating panel made up of employees from The Adjutant General's Department and the New Hampshire Army National Guard was formed and tasked with rating the proposals submitted. The rating panel members all brought different strengths and knowledge to the table which allowed for independent evaluation during the scoring process, thorough discussion, and weighing the different perspectives during the final rating process.

His Excellency Christopher T. Sununu
and The Honorable Executive Council
Page 2

A Legal Notice was published in the Manchester Union Leader newspaper seeking Requests for Proposals (Letters of Intent) to provide these services. The bid transmittal letter noted that more than one firm may be selected to perform these services. Twelve (12) vendors submitted letters of interest and nine (9) firms submitted Qualification Packets. Those nine (9) packets were all rated by the panel based on clarity of proposal, comprehension of assignment, work history with similar projects, capacity to do work in a timely manner, quality and experience of project managers and team members, overall suitability to the assignment, quality assurance protocols, and letters of reference.

Five (5) firms were subsequently chosen as the finalists based on the total combined score from their initial rating and the oral presentation score. The references provided by these five (5) vendors were then contacted to validate information provided, and the five (5) finalists were confirmed as selected.

The Adjutant General's Department negotiated with the vendor(s) to establish the rates of compensation. The rates were compared with recent New Hampshire Bureau of Public Works contracts for these services and a number of Federal Government General Services Administration contracts. The Adjutant General's Department determined that the negotiated rates are fair and reasonable. The Request for Qualifications was advertised with an initial base contract period with the option for two (2) one (1)-year renewal periods subject to the agreement of both parties and additional Governor and Council approval of such contract renewal(s).

A rating summary of H.L. Turner is attached, along with the rating of all firms who submitted a proposal for these services.

Federal Funds to pay for these contract services are provided to the State of New Hampshire - Adjutant General's Department by the National Guard Bureau pursuant to a Federal-State Master Cooperative Agreement for the mutual support of the New Hampshire National Guard. In the event that Federal Funds are not available for this contract, General Funds will not be used.

The contract agreement has been approved by the New Hampshire Department of Justice as to form, substance and execution.

Your approval is respectfully requested.

Respectfully Submitted,

David J. Mikolaities
Major General, NHNG
The Adjutant General

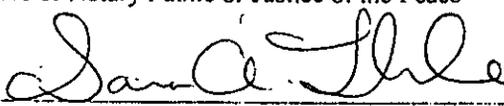

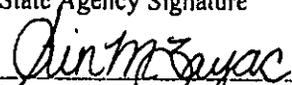

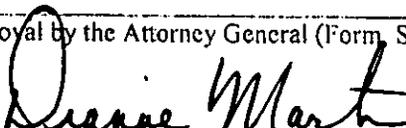

Notice: This agreement and all of its attachments shall become public upon submission to Governor and Executive Council for approval. Any information that is private, confidential or proprietary must be clearly identified to the agency and agreed to in writing prior to signing the contract.

P-37 AGREEMENT

EXHIBIT A: SCOPE OF SERVICES

Professional Architectural Services

GENERAL: The consultant shall furnish all labor, materials, and services as needed to perform consultative services as necessary in regards to mechanical, electrical, and structural engineering and analysis within the building, and construction services. The Consultant shall comply with all applicable federal, state and local laws, rules and regulations.

BACKGROUND: The Adjutant General's Department has approximately fifteen (15) Readiness Centers (RC), four (4) field maintenance shops (FMS), a combined surface maintenance shop (CSMS), a State Military Reservation (SMR), a 100-acre training site, a Regional Training Institute (RTI), an Army Aviation Support Facility (AASF), and other ancillary facilities statewide. The NHARNG facilities management office (FMO) located in Concord on the SMR has chief responsibility for all infrastructure support to include master planning, site development, design review, construction administration and facilities maintenance. Most facilities are approximately 50-years old and due to changes in building codes as well as technology our facilities do not meet our needs as a modern operational force or the needs of the citizens of our communities. Aging buildings and infrastructure are compromising mission success at our facilities due to the following reasons: variety of non-standardized systems installed during upgrades over the life of the building; original systems installed when the building was commissioned that may not be performing at peak efficiency due to end of life-cycle; lack of cohesive master plan for restoration and modernization of building systems; lack of ADA accessibility and code compliance at sites; lack of fire/life safety equipment; inefficient window air conditioning units installed; in addition to minimal upgrades in electrical and plumbing systems. The FMO is looking to obtain services to include construction administration of small projects in accordance with current state and federal statutes, as well as complete analysis of existing building systems, master plans and other deliverables for our facilities in order to correct current deficiencies and meet future operational requirements.

LIST OF POTENTIAL PROJECTS WITH GENERAL DESCRIPTIONS:

The following is a list of potential projects to be performed under this contract. The Adjutant General's Department may request the consultant to perform other services not specified that it determines are within the scope of the Agreement and the consultant has the technical qualifications to perform.

Architectural services: Design and provide plans and specifications for a variety of minor building construction/renovation projects to include: latrine upgrades, kitchen upgrades, large scale additions; door and window replacement; rehabilitation of concrete steps; UST removal; repaving of parking areas; sidewalk replacement; brick wall repointing as well as others. Provide construction documents at varying levels of design that include total project drawing coordination and management of other disciplines involved in the effort.

Structural engineering: Conduct structural analysis and design for projects within the building to include but not limited to: installation of overhead cranes, window replacement, door replacement, roof repairs up to entire roof replacement, minor building modifications; assess building loads in accordance with industry best practices; assess differential settlement in building foundations. Drawings and specs will be provided as required for the listed projects.

Mechanical engineering: Conduct evaluation and system analyses of existing HVAC systems with recommendations for sustainment, restoration or modernization; recommend time schedules and/or components for upgrade; provide drawings and parts schedules for recommendations.

Electrical engineering: Conduct load analysis at various locations and provide recommendations on upgrades; internal building lighting design; analysis of existing telephone/data systems; security systems. Ensure buildings are in code compliance at main distribution panels, service masts and internal building wiring. Make recommendations regarding building services based on present and future force structure. Incorporate NHARNG Electronic Security Systems (ESS) into designs as needed, such as door access control, CCTV, and vault security.

Master Planning: Develop and submit master plan for replacement or upgrade of mechanical systems; provide master maintenance schedule. Develop prioritization lists for building replacement based on present and future force structure.

Enhanced/Retro Commissioning: Act as or provide certified commissioning agent for future buildings as well as existing buildings. Systems original to building lack current balancing and may need to be adjusted to increase efficiency. Make recommendations on building systems to increase sustainability and environmental responsibility.

Construction Services: Provide opinions of cost for projects in design or under construction. Provide construction clerking services for projects under construction or to be constructed. Provide construction reports to the project managers. Attend project meetings, evaluate contractor submittals for conformance to contract specifications, make recommendations on proposed change orders, to include opinions on contractor methodology and costs, and take meeting minutes as required.

Project Management and Delivery Instruction:

Once the firm(s) is/are selected, the general anticipated project execution methodology will be:

1. The Adjutant General's Department shall determine project needs and develop a scope of work, or collaborate with the consultant to develop a scope of work. The scope of work shall include as a minimum: general project information, tasks to be completed, deliverables to be provided and a timetable for completion.
2. The Adjutant General's Department may request a short proposal and project fee estimate from the consultant(s).
3. The consultant(s) shall prepare a cost proposal. Cost proposals will be based on the time and materials rates (and overhead and profit if broken out separately) based on the approved rates established during negotiations.
4. The Adjutant General's Department will technically evaluate the cost proposal and determine the reasonableness of the cost proposal. If the proposal is determined to be reasonable, the Adjutant General's Department will issue a notice to proceed memorandum. If the project cost proposal is not determined to be reasonable, the Adjutant General's Department will request a justified modification from the consultant. Once an agreed upon cost proposal is established, the owner will issue a notice to proceed memorandum. The notice to proceed will include copies of the approved project scope of work and cost proposal.
5. The owner and the consultant shall attend a project kick-off meeting to clarify the manner of conducting the project, to review a proposed project schedule, a proposed outline of the project tasks to be executed and confirmation of expected deliverables.
6. The Adjutant General's Department may request monthly status reports for any project that exceeds one month in length, and/or between deliverables for specific project tasks. Status report will include: the specific project task that were completed, funds spent, a general outline of work to be completed in the coming month, and any issues that need to be addressed.
7. The consultant will submit invoices as specific project tasks and deliverables are completed and delivered to the owner's project manager. Invoicing for projects costs beyond the approved proposal cannot be issued without prior approval, and a written notice of cost increase approval is required. Invoicing and payment is further outlined in Exhibit B.
8. The consultant completes projects when all project tasks are accomplished in accordance with the project scope of work as determined by the owner.

EXHIBIT D - Environmental Management System
Notice for Contractors and Contractor employees

The New Hampshire Army National Guard (NHARNG) has implemented an environmental Management System (eMS), in accordance with Executive Orders 13423 and 13514, to guide its operations in an environmentally sound manner. Under its eMS, the NHARNG has identified significant activities, products or services that can interact with the environment (known as aspects) and potential environmental impacts from its operations. The significant environmental aspects are listed below:

- Energy Use
- Vehicle Travel (fleet) Between Work Stations

These significant aspects and their associated impacts are closely monitored by the NHARNG. Further, the NHARNG is tracking the success of the implementation plans established to achieve the NHARNG's objectives.

For the purposes of this notice, applicability is limited to those actions that the contractor or subsequent employees are likely to perform on NHARNG properties.

The primary purpose of this notice is to communicate the three basic tenets of the NHARNG's eMS policy:

- eMS (ISO 14001) is the management system the NHARNG uses to implement the Adjutant General's Environmental Policy;
- The eMS Environmental Policy commits the NHARNG to comply with environmental laws and regulations, to prevent pollution and to promote continual improvement of the eMS; and
- Contractors are responsible for knowing the environmental impacts of their services, and must understand the management requirements for any activities that could affect any of NHARNG's significant aspects, or that could result in potential environmental impacts.

Energy Use

The NHARNG is committed to reducing its consumption of energy. Reducing energy consumption may be realized by turning off electrical equipment when not in use, or reducing heating temperatures/increasing cooling temperatures, using alternative fuels (if available, such as E85 or biodiesel), etc. Contracts that include the use or installation of equipment will seek the most energy efficient technology within the scope of the contract.

Vehicle Travel (fleet) Between Work Stations

The NHARNG is committed to preventing pollution through monitoring of Federal GSA Fleet vehicle usage. Usage of fleet vehicles by contractors is prohibited.

Significant aspects likely to be affected by contractor's activities, products, or services:

Cryptoquip

The cryptoquip is a simple substitution cipher in which each letter used stands for another. If you think the X equals O, it will equal O throughout the puzzle. Single letters, short words and words using an apostrophe can give you clues to locating vowels. Solution is accomplished by trial and error.

H D O R X E V X R H K Y H Y B D Z E
 U G V D O E X J ' R A H H N R F G Z F Z E X
 J H S N J H S J F H A X K Z N X
 U H Y V X R : R Y B E V H B R Q X H E Q X .

Yesterday's Cryptoquip: I REALLY HAVE NO IDEA WHAT TO DO WITH THIS VERY HARD MINERAL. IT'S A CORUNDUM CONUNDRUM.

Steve Becker

There are many players who, upon picking up the East hand, would decide that this was a good time to review their plans for the rest of the day, or perhaps just take a short nap. They would reason that they were unlikely to do much bidding or contribute anything to the defense if, as seemed likely, an opponent wound up playing the contract.

But they would be dead wrong, because there is a card in the East hand that will sink South's four-heart contract, but only if East is paying full attention at the critical moment. It is a card that would not carry much weight in most deals, but it makes all the difference in this one.

North-South reached four hearts after locating their 4-4 heart fit. West led the king of spades and continued with the ace, East and South following to both spades. West then led another spade.

If East thought at this point that South must have another spade for his two-notrump opening, or if he had simply lost interest in the proceedings, he might have woodenly ruffed with the deuce.

If so, declarer would have overruffed with the three, played the A-K of trumps, conceded a trump to West and claimed the remainder to make his contract.

But a more alert East might realize that with the 9-8-7-5 of trumps in the dummy, ruffing with the six could do some serious damage to the contract if West held the A-10-x, K-10-x or Q-J-10 of trumps and declarer had actually started with a doubleton spade. In each case, ruffing with the six would promote an extra trump trick for West and so set the contract.

The deal occurred in a regional pairs championship, and to the credit of all those present, not a single declarer made four hearts. This means that no East was asleep at the switch at the critical moment
