and the Honorable Council

### EXPLANATION

The Department of Business and Economic Affairs (BEA) is requesting to accept and expend of American Rescue Plan (ARP) State and Local Fiscal Recovery Funds (FRF), through the Office of Planning and Development (Planning), to support the Regional Housing Needs Assessment Program.

This program will provide grants to Regional Planning Commissions (RPC) to complete assessments of the regional needs for housing for persons and families at all levels of income. Each RPC receiving a grant shall also complete a Fair Housing Equity Assessment to identify and describe factors that might be barring people from accessing adequate housing in the region.

This program will provide specific housing needs information for each region served by the nine RPCs. Understanding the housing needs for each region will be critical in advancing the statewide vision and planning needed to solve New Hampshire's housing shortage including affordable housing, so that adequate housing options to serve the needs and choices of NH citizens throughout their lifespans are available throughout the state. This program will also support implementation of the State's Council on Housing Stability's Strategic Plan 2021-2024.

Planning will also contract for the updating of population projections based on 2020 Census data and develop agreed upon Regional Housing Needs Assessment methodology in partnership with RPCs.

Each RPC will receive a grant in the amount of \$100,000 and Planning will utilize \$75,000 to administrate the program and engage in the population projections and methodology development.

For the last several years, adequate affordable housing has been a challenge for New Hampshire. That challenge has been exacerbated by the pandemic. Completing Regional Housing Assessments at this time will provide critical regional information needed to determine where and what types of housing development activities are needed in each region of the state. This program will provide that information so that municipalities can meet regional housing needs in a coordinated and unified manner.

This is an allowable use of ARP FRF funds under Section 602 (c)(1)(A) to respond to the public health emergency or its negative economic impacts. In the event that Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Taylor Caswell, Commissioner  
Department of Business and Economic Affairs
