THE STATE OF NEW HAMPSHIRE
DEPARTMENT OF TRANSPORTATION

Victoria F. Sheehan
Commissioner

William Cass, P.E.
Assistant Commissioner

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire 03301

Bureau of Construction
September 27, 2021

REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with K5 Corporation of Rockland, MA (Vendor 162024), on the basis of a low bid of \$391,239.24 for replacement and upgrade of signs on NH Route 101 in Epping, Brentwood and Exeter, from the date of Governor and Council approval through October 28, 2022, unless extended by the Department in accordance with the Standard Specifications. 100% Federal Funds.

Funding is available in State Fiscal Years 2022 and 2023, as follows, with the ability to adjust encumbrances through the Budget Office between State Fiscal Years if needed and justified:

Funding is available as follows:	<u>FY 2022</u>	<u>FY 2023</u>
04-96-96-963515-3054		
Consolidated Federal Aid		
400-500870 Highway Contract Payments	\$290,634.82	\$100,604.42

2. Further authorize that a contingency in the amount of \$39,123.92 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 10% of the contract amount.

Funding is available as follows:	<u>FY 2023</u>
04-96-96-963515-3054	
Consolidated Federal Aid	
400-500870 Highway Contract Payments	\$39,123.92

EXPLANATION

This project is part of the Bureau of Traffic - USSS Sign Program. This project consists of replacement of most regulatory, warning, guide, and motorist service signs on NH Route 101 eastbound and westbound on mainline and ramps between mile markers 115.0 and 125.0 including Exits 6 through 9 in Epping, Brentwood, and Exeter. The signs in these locations are being replaced due to poor retroreflectivity, peeling/delaminating sign materials, obsolete message content, incorrect text size/font and to otherwise restore MUTCD compliance.

This project addresses the needed replacement of signs to enhance safety, conform to the current MUTCD design standards, improve retroreflectivity, and provide better guidance for the motoring public.

The proposed contingency amount is 10% of the contract amount. This is to account for the potential overruns in traffic control and changes due to latent deficiencies in existing infrastructure proposed to be reused.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is: 80% Federal (Program: Update Signing State System (USSS)), with anticipated utilization of Turnpike Toll Credits for the State's 20% match, effectively using 100% Federal Funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Your approval of this resolution is respectfully requested.

Sincerely,

Victoria F. Sheehan
Commissioner

VFS/pcj

Department Estimate: \$403,713.95

Contract Amount: \$391,239.24

Under Estimate: \$ 12,474.71

August 22, 2021

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This project consists of replacement of most regulatory, warning, guide, and motorist service signs on NH Route 101 eastbound and westbound on mainline and ramps between mile markers 115.0 and 125.0 including Exits 6 through 9 in Epping, Brentwood, and Exeter. The signs in these locations are being replaced due to poor retroreflectivity, peeling/delaminating sign materials, obsolete message content, incorrect text size/font and to otherwise restore MUTCD compliance.

Work consists of replacing approximately 225 sign panels on existing or new support assemblies. All assemblies are ground mounted except for one overhead bridge-mounted sign support which will be reinforced and have the sign panels replaced. This bridge mounted sign is on the NH Route 27 bridge over NH Route 101 eastbound at mile marker 124.0. In addition, several obsolete ground mounted signs and sign supports will be removed entirely without replacement.

FEDERAL FUNDING: 80% (Program: Update Signing State System (USSS)) with anticipated utilization of Turnpike Toll Credits for the State's 20% match.

CONTINGENCY: The proposed contingency is 10% of the contract amount, and accounts for the potential overruns in traffic control and changes due to latent deficiencies in existing infrastructure proposed to be reused.

PROJECT INITIATED: Bureau of Traffic - USSS Sign Program

PROJECT EXPLANATION: This project addresses the needed replacement of signs to enhance safety, conform to the current MUTCD design standards, improve retroreflectivity, and provide better guidance for the motoring public.

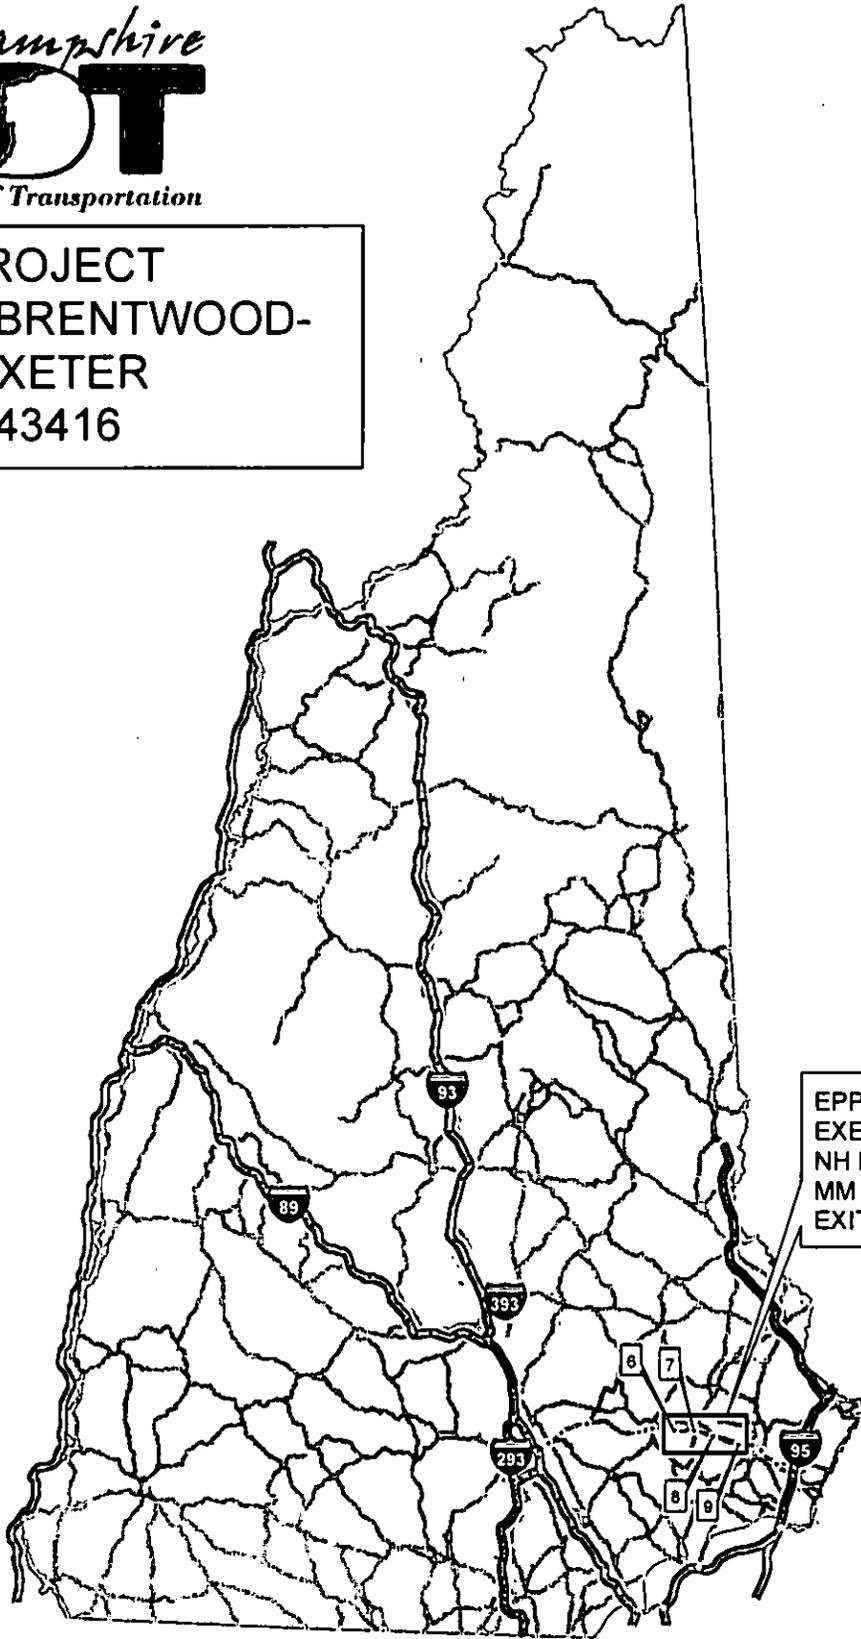

TRAFFIC IMPLICATIONS: Daily lane closures, shoulder closures, and night work are anticipated on this contract. Specifically, lane closures will be used to allow for the removal and installation of one overhead sign on a bridge structure. Any work requiring closure of mainline travel lanes or mainline shoulders shall be performed at night; however, lane closures and shoulders closures may be permitted during daytime, at the discretion of the Engineer. Uniformed officers will be required for both lane and shoulder closures due to the high-speed and high-volume nature of the roadway.
