

THE STATE OF NEW HAMPSHIRE
DEPARTMENT OF TRANSPORTATION

Victoria F. Sheehan
Commissioner

William Cass, P.E.
Assistant Commissioner

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire 03301

Bureau of Construction
October 5, 2021

REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with W J Riegel Rail Solutions, LLC (Vendor 278914) of Selkirk, NY, on the basis of a single bid of \$1,350,763.97 for railway-highway reconstruction in Wilton, from the date of Governor and Council approval through August 26, 2022, unless extended by the Department in accordance with the Standard Specifications. 100% Federal Funds.

Funding is available in State Fiscal Years 2022 and 2023, with the ability to adjust encumbrances through the Budget Office between State Fiscal Years if needed and justified:

Funding is available as follows:	<u>FY 2022</u>	<u>FY 2023</u>
04-96-96-963515-3054		
Consolidated Federal Aid		
400-500870 Highway Contract Payments	\$1,129,729.85	\$221,034.12

2. Further authorize that a contingency in the amount of \$67,538.20 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 5% of the contract amount.

Funding is available as follows:	<u>FY 2022</u>
04-96-96-963515-3054	
Consolidated Federal Aid	
400-500870 Highway Contract Payments	\$67,538.20

EXPLANATION

This project is part of the State's Ten Year Transportation Improvement Plan under the Railroad Crossings & Signals Program (RR-RCS). The project is located at railroad crossing Wilton #844-302J at the intersection of NH Route 31 / Burns Hill Road. This crossing is owned by State of New Hampshire and operated by Milford-Bennington Railroad. Roadway construction work on NH Route 31 will extend approximately 100-ft south and 200-ft east. On Burns Hill Road work will extend approximately 200-ft west. Railroad track construction will begin approximately 50-ft south and end 150-ft north of the crossing.

Railroad improvements include installation of new cantilever and pedestal signals, signal equipment, and track reconstruction with concrete tubs across NH Route 31.

Roadway improvements include realignment of the NH Route 31/Burns Hill Road intersection to increase sight distance and improve traffic operations. Within the limits of the roadway, realignment and track improvement work will include full depth pavement reconstruction. The project also includes construction of a flush concrete truck apron, drainage improvements, updates to sidewalk ramps adjacent to the railroad crossing, and installation of updated signing and pavement markings.

This project is a Railroad safety improvement project. The purpose of this project is to improve safety for vehicular and rail traffic at the crossing. The existing intersection configuration and the railroad signals do not meet current federal requirements.

The proposed contingency amount is 5% of the contract amount. This is to account for the need to complete additional railroad improvements associated with the existing railroad signal cabinets and connections to the existing rail from the rigid concrete track crossing that may be identified during construction.

Although the bid costs exceeded the Department's estimate by 20.49%, the only bid received is felt to be reasonable for the work involved. There were seven items of significance that accounted for 100% of the overage. 72% of the overage was associated with mobilization, maintenance of traffic and flaggers. This project involves a significant amount of railroad specialty work. The limited amount of roadway work included, geographic location of the project, and available construction workforce impacted the level of competition and unit item bid prices received. Re-advertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

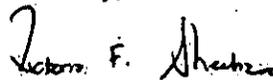

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is: 90% Federal (Railroad Crossings & Signals Program (RR-RCS)), with anticipated utilization of Turnpike Toll credits as the State's 10% match, effecting using 100% Federal Funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Your approval of this resolution is respectfully requested.

Sincerely,

Victoria F. Sheehan
Commissioner

VFS/pcj

Department Estimate: \$1,121,025.00
Contract Amount: \$1,350,763.97
Over Estimate: \$ 229,738.97

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: The project is located at railroad crossing Wilton #844-302J at the intersection of NH Route 31 / Burns Hill Road. This crossing is owned by State of New Hampshire and operated by Milford-Bennington Railroad. Roadway construction work on NH Route 31 will extend approximately 100-ft south and 200-ft east. On Burns Hill Road work will extend approximately 200-ft west. Railroad track construction will begin approximately 50-ft south and end 150-ft north of the crossing.

Railroad improvements include installation of new cantilever and pedestal signals, signal equipment, and track reconstruction with concrete tubs across NH Route 31.

Roadway improvements include realignment of the NH Route 31/Burns Hill Road intersection to increase sight distance and improve traffic operations. Within the limits of the roadway, realignment and track improvement work will include full depth pavement reconstruction. The project also includes construction of a flush concrete truck apron, drainage improvements, updates to sidewalk ramps adjacent to the railroad crossing, and installation of updated signing and pavement markings.

FEDERAL FUNDING: 90% (Railroad Crossings & Signals Program (RR-RCS)) utilizing Turnpike Toll credits as the State's 10% match.

CONTINGENCY: The proposed contingency amount is 5% of the contract amount. This is to account for the risks associated with completing railroad improvements with work to existing railroad signal cabinets and connecting into existing rail from the rigid concrete track crossing.

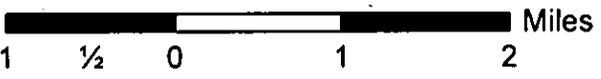

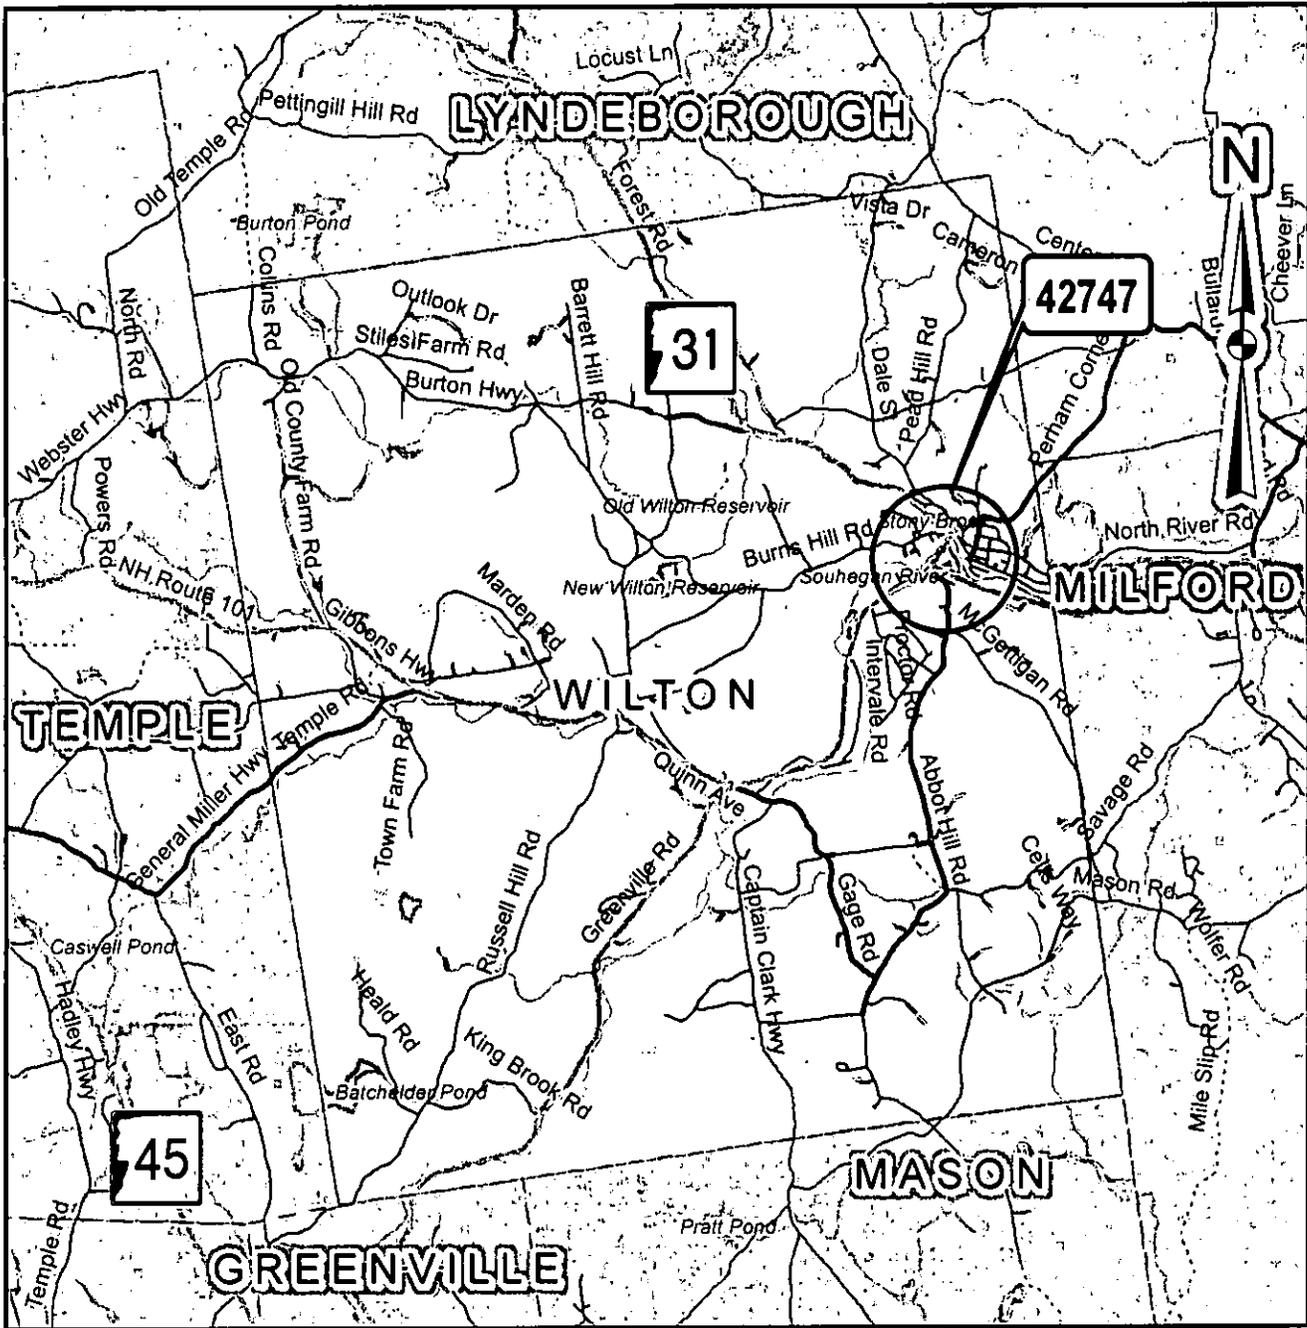

PROJECT INITIATED: Railroad Crossings & Signals Program (RR-RCS)

PROJECT EXPLANATION: This project is a Railroad safety improvement project. The purpose of this project is to improve safety for vehicular and rail traffic at the crossing. The existing intersection configuration and the railroad signals do not meet current federal requirements.

TRAFFIC IMPLICATION: A one-time seven-day full roadway closure of the intersection will be required for the project. Vehicular detours will be in place for all approaches during the closure. During this roadway closure, the track will be closed for a one-time consecutive 72-hour period to complete the railroad track work. During the track closure, pedestrian traffic will also be closed. All other work will be completed with short-term one-lane, alternating two-way traffic.

COMPLETION DATE: August 26, 2022

CERTIFICATE OF LIABILITY INSURANCE

DATE (MM/DD/YYYY)
10/21/2021

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURER(S), AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.

IMPORTANT: If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must have ADDITIONAL INSURED provisions or be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).
