NOV18'21 PM 2:13 RCUD

THE STATE OF NEW HAMPSHIRE DEPARTMENT OF TRANSPORTATION

Victoria F. Sheehan Commissioner

William Cass, P.E. Assistant Commissioner

His Excellency, Governor Christopher T. Sununu and the Honorable Council State House Concord, New Hampshire 03301

Bureau of Construction October 26, 2021

REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with Brox Industries, Inc. (Vendor 177569) of Dracut, MA, on the basis of a low bid of \$5,072,517.73 for pavement preservation on NH 111 and NH 28 from the date of Governor and Council approval through September 22, 2023, unless extended by the Department in accordance with the Standard Specifications. 100% Federal Funds.

Funding is available in State Fiscal Years 2022 and 2023, and is contingent upon the availability and continued appropriation of funds in Fiscal Year 2024 as follows, with the ability to adjust encumbrances through the Budget Office between State Fiscal Years if needed and justified:

Table with 4 columns: Funding is available as follows, FY 2022, FY 2023, FY 2024. Row 1: 04-96-96-963515-3054 Consolidated Federal Aid. Row 2: 400-500870 Highway Contract Payments \$2,219,226.56 \$2,282,633.04 \$570,658.13

2. Further authorize that a contingency in the amount of \$253,625.89 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 5% of the contract amount.

Table with 2 columns: Funding is available as follows, FY 2024. Row 1: 04-96-96-963515-3054 Consolidated Federal Aid. Row 2: 400-500870 Highway Contract Payments \$253,625.89

EXPLANATION

This project is part of the State's Ten Year Transportation Improvement Plan. This project resurfaces 2 sections of Tier 2 roads (NH 28, NH 111) within 4 towns (Derry, Hudson, Londonderry, Windham) of District 5. The sections total approximately 11.5 miles in length.

- 20502 - Derry/Londonderry, NH 28, last paved in 2011, FW 2" HS inlay (0.9 mi), FW 2" HS overlay (0.1 mi), FW 3/4" paver shim (2.5 mi), FW BWC overlay (1.0 mi), 4.5 miles, preservation.
• 21053 - Hudson-Windham, NH 111, last paved in 2011, 13'x2" spot inlay (1.0 mi), FW 2" HS inlay (2.5 mi), FW BWC overlay (0.8 mi), TW+1' BWC w/fog seal of shoulders (3.7 mi), 7.0 miles, preservation.

This project was initiated through the CY 2022 Federal Tier 2 Resurfacing Program. The Pavement Management Section has reviewed the road segments included in this project and identified a need for pavement preservation pavement treatments. This project will improve roadway ride quality and extend pavement life.

The proposed contingency amount is 5% of the contract amount. This is to account for escalation in asphalt prices, that quantity calculations are based on aerial and street view photography and field conditions will vary, and that the sections will need to endure one additional winter season before the proposed work takes place.

Although the bid costs exceeded the Department's estimate by 5% the low bid of 2 bids received is felt to be reasonable for the work involved. Five items of significance accounted for 89% of the overage (structure excavation, pavement, guardrail terminal unit, impact attenuator, and pavement marking). Readvertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

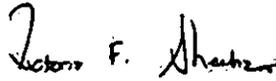

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is: 80% Federal (PAVE-T2-RESURF), with anticipated utilization of Turnpike Toll Credits for the State's 20% match, effectively using 100% Federal Funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Your approval of this resolution is respectfully requested.

Sincerely,

Victoria F. Sheehan
Commissioner

VFS/pcj

Department Estimate: \$4,741,503.65
Contract Amount: \$5,072,517.73
Over Estimate: \$ 331,014.08

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This project resurfaces 2 sections of Tier 2 roads (NH 28, NH 111) within 4 towns (Derry, Hudson, Londonderry, Windham) of District 5. The sections total approximately 11.5 miles in length.

Paving ID	Town/City	Road	Last Paved	Proposed Work	Length	Strategy
20502	Derry/Londonderry	NH 28	2011	FW 2" HS inlay (0.9 mi), FW 2" HS overlay (0.1 mi), FW ¾" paver shim (2.5 mi), FW BWC overlay (1.0 mi)	4.5	Preservation
21053	Hudson-Windham	NH 111	2011	13'x2" spot inlay (1.0 mi), FW 2" HS inlay (2.5 mi), FW BWC overlay (0.8 mi), TW+1' BWC w/ fog seal of shoulders (3.7 mi)	7.0	Preservation

FEDERAL FUNDING: 80% (PAVE-T2-RESURF), 20% (Turnpike Toll Credit)

CONTINGENCY: The proposed contingency amount is 5% of the contract amount. This is to account for escalation in asphalt prices, that quantity calculations are based on aerial and street view photography and field conditions will vary, and that the sections will need to endure one additional winter season before the proposed work takes place.

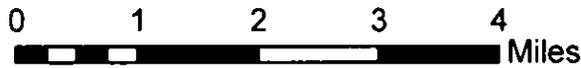

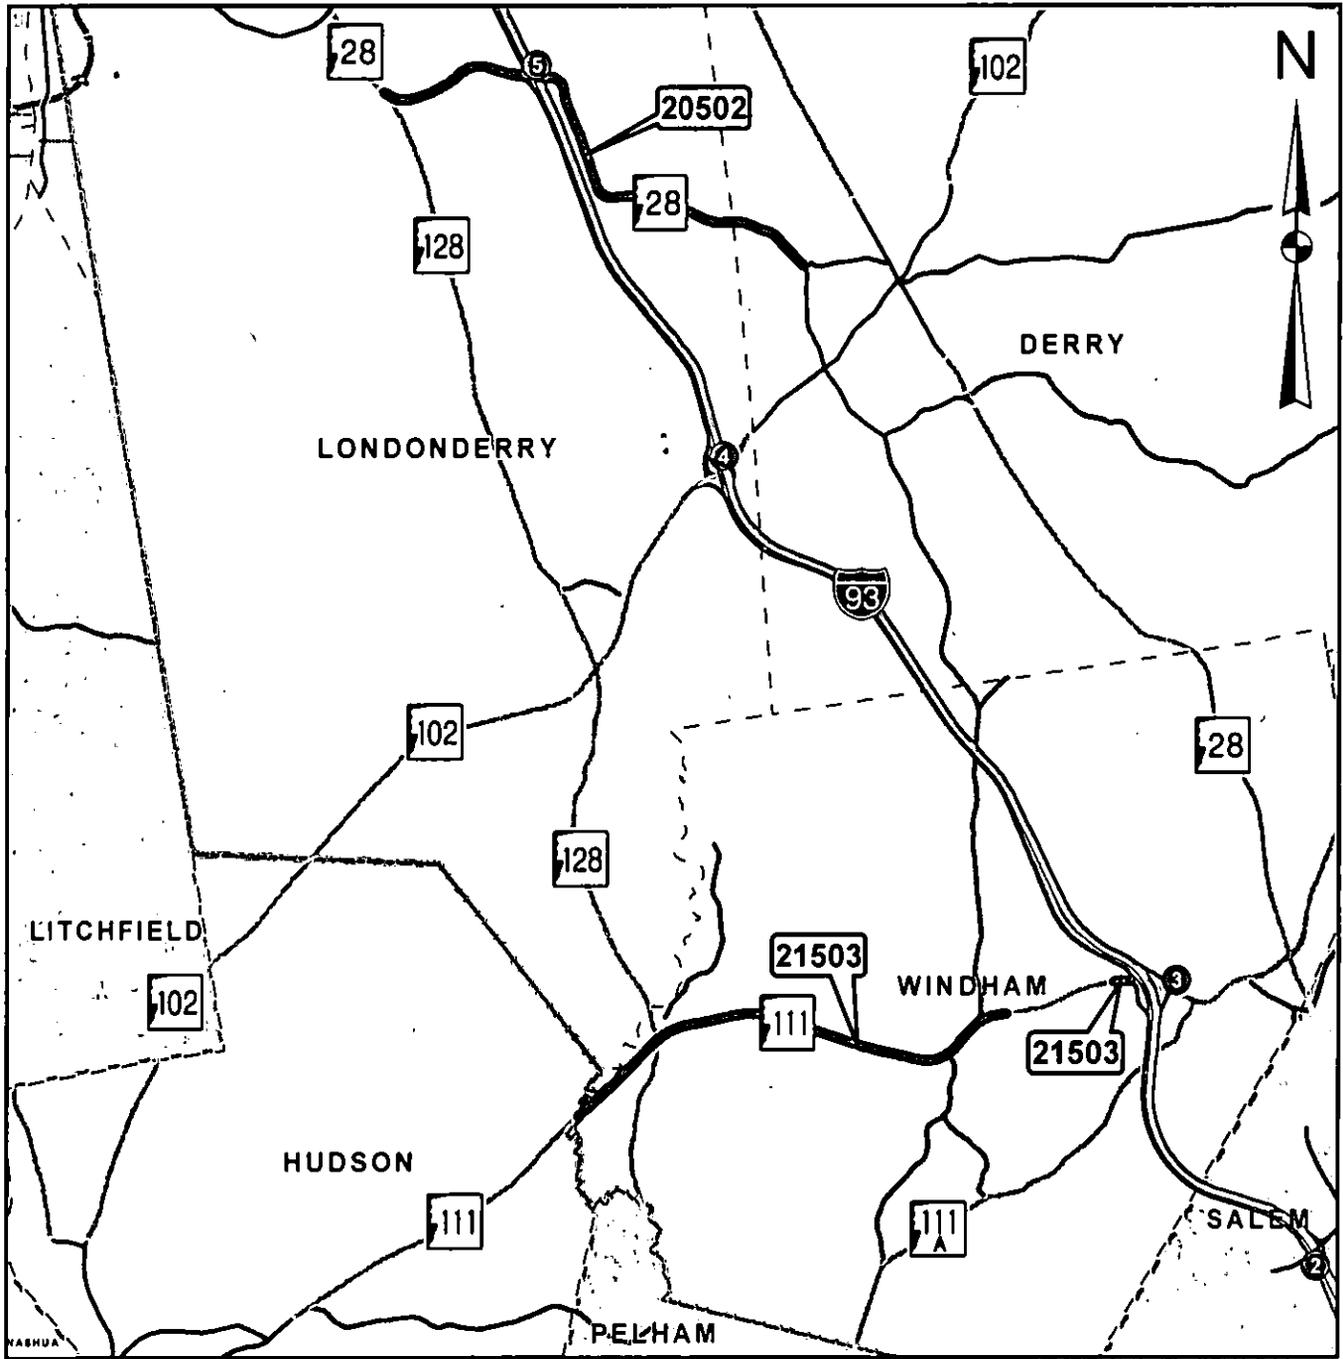

PROJECT INITIATED: This project was initiated through the CY 2022 Federal Tier 2 Resurfacing Program. The Pavement Management Section has reviewed the road segments included in this project and identified a need for pavement preservation pavement treatments. This project will improve roadway ride quality and extend pavement life.

PROJECT EXPLANATION: The purpose of this project is to extend the life of the existing pavement infrastructure and minimize the need for costlier improvements in the near future. Work efforts include roadway resurfacing, upgrading guardrail, curb ramp reconstruction, and drainage structure adjustments.

TRAFFIC IMPLICATIONS: All work (except work contained in the shoulder) on both sections will be night work. One-lane alternating, two-way traffic will be required in order to complete the work. Work contained in the shoulder (guardrail & drainage work) may be day work, in which case temporary lane shifts may be utilized.

FINAL COMPLETION DATE: September 22, 2023.
