EXPLANATION

Funding in this organization will represent costs associated with administering Title III ARP Grants received from the Administration for Community Living. DHHS accepted Title III ARP grant funds from the Administration for Community Living in the amount of \$6,960,025 which was approved by Fiscal Committee on October 22, 2021 (FIS 21-290) and by Governor and Council on October 27, 2021 (Item #22). The purpose of the grant is to further assist eligible adults ages 60 and older to maintain independent living in the community and are experiencing additional needs exacerbated by COVID-19. Per RSA 161-F, the Department is responsible for administering the Older Americans Act of 1965 (OAA, Title III). This act includes services to elders ranging from home-delivered and congregate meals to transportation and legal assistance. As delineated in the Notice of Award, this grant requires State matching share. Specifically, the State must provide a matching share of 15% for Title IIIB and Title IIIC initiatives and 25% for Title IIIE initiatives. Funds to meet the match requirements are available in AU9255 Social Services Block Grant as DHHS anticipates funding being available due to contracts that were not fully expended as a result of programmatic changes. The NOA also states that Program income may be used to meet match requirements.

The following is the information specifically required when transfers are requested, in accordance with the Budget Officer's instructional memorandum dated April 17, 1985, to support the above requested actions:

- A. Justification: Per RSA 161-F, the Department is responsible for administering the Older Americans Act of 1965 (OAA, Title III). This act includes services to elders ranging from home-delivered and congregate meals to transportation and legal assistance. Funding through ARPA was available to assist in addressing any OAA services that may assist older Americans and their families to continue to receive services by bridging any gaps in the delivery of services that may have been exacerbated by COVID-19.

- B. Does this transfer involve continuing programs or one-time projects? Funding in the organization will be used to further carry out Older Americans Act of 1965 (OAA, Title III) to support older Americans and their families who are most at risk of COVID-19. This funding will continue to assist in prevention and mitigation activities related to COVID-19 and the adverse effects resulting from the national pandemic such as social isolation, limited access to nutritional supports, disease prevention and health promotion programs, and family caregiver services.
- C. Is this transfer required to maintain existing program levels or will it increase the program? The transfer is required as a match for federal funds received to further support older Americans and their families. Funding will support existing programs (rate increases per meal served) but will also allow for enhancements to provider services (replace faulty equipment).
- D. Cite any requirements which make this program mandatory. RSA 161-F requires that DHHS be responsible to administer the Older Americans Act of 1965 (OAA, Title III).
- E. Identify the source of funds on all accounts listed on this transfer. Requested Action #1, request for transfer, is 100% General Funds.
- F. Will there be any effect on revenue if this transfer is not approved? No
- G. Are funds expected to lapse if this transfer is not approved? Yes
- H. Are personnel services involved?
No positions are being transferred as a result of this request.

Respectfully submitted,

EXPLANATION

This request is being made to accept and expend grant funds available for SFY 2022-2023 to administer Title III ARP grant funds from the Administration for Community Living. Funds will be used to carry out Older Americans Act of 1965 (OAA, Title III) to support older Americans and their families who are most at risk of COVID-19. This funding will

The Honorable Ken Weyler, Chairman
Fiscal Committee of the General Court

His Excellency, Governor Christopher T. Sununu
and the Honorable Council

Page 2 of 3

assist in prevention and mitigation activities related to COVID-19 and the adverse effects resulting from the national pandemic such as social isolation, limited access to nutritional supports, disease prevention and health promotion programs, and family caregiver services.

Additionally, funds will enable the Bureau of Elderly and Adult Services (BEAS) to address extended isolation among older individuals, including activities for investments in technological equipment and solutions or other strategies aimed at alleviating negative health effects of social isolation due to long-term-stay-at-home recommendations for older individuals. BEAS intends to accomplish this in part by partnering with existing OAA Title III contractors as well as other aging network local supports such as senior centers.

The funds are to be used as follows:

- Class 020 Purchase of outreach and education printed material, advertising and supplies.
- Class 041 Audit costs per state requirements.

Title III of the Older Americans Act (OAA): The purpose of the OAA is to help older individuals maintain maximum independence in their homes and communities, with appropriate supportive services and to promote a continuum of care for older Americans.

- Class 074 Address part D of the title III of OAA including Evidence Based Disease Prevention and Health Promotion Programs. These programs at the Bureau of Elderly & Adult Services are for our Falls Prevention programs (for example: Matter of Balance & Tai Chi programs) and programs that promote the management of chronic diseases (provide tools, resources and education to support that management of chronic diseases)
- Class 540 Address part B of the title III of OAA including efforts related to COVID-19 vaccination outreach, prevention and mitigation activities related to COVID-19 addressing extended social isolation. These programs focus on the promotion of health education and preventive health Services; Socialization Services; Supportive Services (The supportive services program funds social services aimed at helping older people remain independent in their own homes and communities. Unlike other OAA programs that target a specific service, this program supports a wide range of services) and Transportation Services.

The congregate and home-delivered meals programs - the oldest and perhaps most well-known OAA services are intended to address the nutritional problems of older people. The purposes of the program are to reduce hunger, food insecurity, and malnutrition; promote socialization among older people; and delay the onset of adverse health conditions among older people resulting from poor nutritional health or sedentary behavior. The program also assists older people to access other disease prevention and health promotion services. Indirectly, the program acts as income support for many low-income older people by providing food that they would otherwise purchase (in groceries or at restaurants).

- Class 541 Address part C1 of the title III of OAA including congregate meals. The State's congregate meals program contracts with nutrition service providers that provide meals in senior centers and congregate housing sites, adult day care programs, and other group settings, which helps to address concerns around social isolation in our older adult population.
- Class 544 Address part C2 of the title III of OAA including home delivered meals. The State's home-delivered meals program contracts with home-delivered meals providers that deliver meals to the homes of frail older adults.

Fiscal Committee of the General Court

Class 570

Address part E of the title III of OAA, support for family caregiver and grandparents raising grandchildren. The State recognizes that informal caregiving by family members and friends is essential for children, adults and frail older adults who have disabilities, fragile medical conditions, and/or behavioral or mental health conditions, and adults with Alzheimer's disease and related disorders to remain in the community. While caregiving for a loved one may be one of the most important and rewarding roles, it may also be the hardest. Among those counted as informal family caregivers, there is a growing number of elderly grandparents who have taken on the responsibility in their later years to raise their grandchildren due to difficult parental circumstances or due to the unavailability of parents. These program funds are used to provide support and respite to caregivers.

Area Served: Statewide.

Source of Funds: 100% Federal from the American Rescue Plan (ARP) Act.

In the event that federal funds become no longer available, general funds will not be requested to support the program expenditures.

Respectfully submitted,

Lori A. Shiblette
Commissioner
