**Robert R. Scott, Commissioner**

March 2, 2022

His Excellency, Governor Christopher T. Sununu  
 and the Honorable Council  
 State House  
 Concord, New Hampshire 03301

**REQUESTED ACTION**

Authorize the New Hampshire Department of Environmental Services (NHDES) to award an Aquatic Resource Mitigation (ARM) Fund grant to the Society for the Protection of New Hampshire Forests (SPNHF), Concord, NH (VC # 177170-B002) in the amount of \$110,000 for the purpose of conserving a 122-acre parcel of land in Rochester, effective upon Governor and Council approval through June 30, 2023. 100% ARM Funds.

Funding is available in the account as follows:

	<u>FY'22</u>
03-44-44-442010-38710000-073-500581	\$110,000
Dept. Environmental Services, In-Lieu Wetland Mitigation, Grants – Non - Federal	

**EXPLANATION**

New Hampshire RSA 482-A:3 requires a wetland permit for any proposed project that involves dredging or filling of a wetland. Before a wetland permit is issued, applicants must show that the proposed project will avoid adverse impacts to wetlands and will minimize and provide compensation for those wetland impacts which are unavoidable.

The DES wetlands program adopted a set of mitigation rules that establish what is necessary for an applicant to provide for wetland compensation. The current department rules spell out ratios for wetland compensation that include creating a new wetland, restoring a former wetland site, or protecting a high-quality aquatic resource by preserving adjacent upland habitat. One mitigation option is commonly referred to as an *in-lieu fee program*. This mitigation option is ideal for projects that have difficulty in locating an appropriate mitigation site. The ARM Fund authorizes the collection of mitigation funds in lieu of other forms of wetland mitigation as part of a Wetlands Permit Application.

The Department issued the request for proposals for ARM Funds available in the Salmon Falls-Piscataqua watershed in February, 2021. The Department received seven applications and on November 9, 2021, NHDES announced the decision to fund all seven applications including the SPNHF project. The review of the awards by the Army Corps of Engineers and the New Hampshire Wetland Council resulted in full

support of the recommendations. Attachment A lists the proposals received and Committee members involved in the decision.

The SPNHF project will protect high-value aquatic resources and their upland buffers, including 14 acres of wetlands and 3,350 feet of intermittent streams that feed the perennial waters of Clark Brook. The project will have significant wildlife habitat benefits and build upon conservation efforts in the region. This parcel creates new connections between existing conservation parcels as identified by the Forest Society and is a top priority to support landscape connectivity. Attachment B includes a map of the project location in Rochester, NH.

In the event that other funds no longer become available, general funds will not be requested to support this program. This agreement has been approved as to form, content, and execution by the Attorney General's Office.

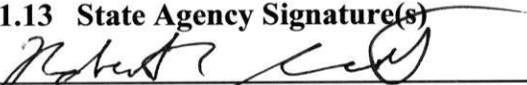

We respectfully request your approval.

  
Robert R. Scott, Commissioner

In the event of a reduction or termination of those funds, the State shall have the right to withhold payment until such funds become available, if ever, and shall have the right to terminate this Agreement immediately upon giving the Grantee notice of such termination.

    - 11.2.2 Give the Grantee a written notice specifying the Event of Default and suspending all payments to be made under this Agreement and ordering that the portion of the Grant Amount which would otherwise accrue to the Grantee during the period from the date of such notice until such time as the State determines that the Grantee has cured the Event of Default shall never be paid to the Grantee; and
    - 11.2.3 Set off against any other obligation the State may owe to the Grantee any damages the State suffers by reason of any Event of Default; and
    - 11.2.4 Treat the agreement as breached and pursue any of its remedies at law or in equity, or both.

In the event of any early termination of this Agreement for any reason other than the completion of the Project, the Grantee shall deliver to the Grant Officer, not later than fifteen (15) days after the date of termination, a report (hereinafter referred to as the "Termination Report") describing in detail all Project Work performed, and the Grant Amount earned, to and including the date of termination. In the event of Termination under paragraphs 10 or 12.4 of these general provisions, the approval of such a Termination Report by the State shall entitle the Grantee to receive that portion of the Grant amount earned to and including the date of termination.
  - 12.2. In the event of Termination under paragraphs 10 or 12.4 of these general provisions, the approval of such a Termination Report by the State shall in no event relieve the Grantee from any and all liability for damages sustained or incurred by the State as a result of the Grantee's breach of its obligations hereunder.
- 12.4. Notwithstanding anything in this Agreement to the contrary, either the State or, except where notice default has been given to the Grantee hereunder, the Grantee, may terminate this Agreement without cause upon thirty (30) days written notice.

This covenant shall survive the termination of this agreement.

No express waiver of any Event of Default shall be deemed a waiver of any provisions hereof. No such failure of waiver shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof upon any further or other default on the part of the Grantee.
