This request is **Sole Source** to support the Health and Human Services Oversight Committees request to create a Privacy Impact Assessment (PIA) of the State's Vaccine Registry system to ensure that the system is collecting, maintaining, and utilizing the data being collected in accordance with State and Federal laws. Additionally, this PIA is aligned with legislation that will be contemplated by the legislature in the 2022 session as well as in compliance with federal processes for publishing these assessments on systems that collect Personally Identifiable Information (PII) and Protected Health Information (PHI). Due to the urgent request of the Health and Human Services Oversight Committee the Department requested pricing from three (3) vendors that perform this work and the Contractor is able to provide the services at the lowest cost. The Contractor has performed similar audits of systems for the Department and is positioned to work with the Department and the Department of Information Technology to address the needs.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council

The purpose of this request is for the Contractor to provide a Privacy Impact Assessment for the New Hampshire Immunization Information System. The Contractor will focus on gathering information on the data being collected, processed, stored, and used within the solution, providing details on the intended use of this data, and assessing the privacy controls implemented for its safeguard. The assessment will also examine and evaluate existing alternate processes for handling information to mitigate potential privacy concerns.

The assessment will be conducted in accordance to the Centers for Medicare & Medicaid Services of privacy impact assessment Standard Operating Procedures. The privacy impact assessment helps identify privacy risks and support compliance with federal regulations or laws, tracking implementation of privacy controls, identifying instances where the PII and/or PHI is collected or handled.

The Department will monitor services by reviewing the draft and final privacy impact assessments.

Should the Governor and Council not authorize this request the Department will not be able to provide a Privacy Impact Assessment for the New Hampshire Immunization Information System to the Health and Human Services Oversight Committee.
