REQUESTED ACTION

Authorize the Department of Environmental Services to award a Local Source Water Protection grant to the Laconia Water Works (VC # 177419 B003) in the amount of \$1,250 to complete a project to protect public drinking water supplies, effective upon Governor and Council approval through May 31, 2023. 100% Federal Funds.

Funding is available in the following account:

EXPLANATION

The Department of Environmental Services issued a request for proposals for 2022 Local Source Water Protection Grants. These grants are funded by set-asides under the Drinking Water State Revolving Loan Fund. Eighteen proposals were received. The proposals were evaluated and ranked based on criteria included in the request for proposals, such as whether the project fulfills a component of a source water protection program, that the proposed project addresses appropriate threats, and that the project will deliver a valuable and useful product. Based on eligibility and the available loan management fee funding, the Department determined that it could offer grants to ten source protection planning projects and three source security projects. See Attachment A for the full list of grants awarded and list of reviewers.

The Laconia Water Works will use the source water protection grant funds to remove two old fuel oil tanks in close proximity to Paugus Bay, Laconia's primary source of drinking water. Removal of the tanks will eliminate the risk of a large oil spill or release from the tanks into the City's water supply. This grant award, while less than \$10,000 threshold, requires G&C approval as Laconia Water Works has already received funds in excess of the threshold for this fiscal year.

This agreement has been approved as to form, substance, and execution by the Office of the Attorney General. In the event that the fee funds are no longer available, General funds will not be requested to support this program.

We respectfully request your approval of this item.

Robert R. Scott, Commissioner

Work must be completed by the completion date listed on the grant agreement (section 1.7). Requests for payment along with required proof of work must be submitted no later than 90 days after the completion date or the grant will be closed out and funds will no longer be available.

If a deadline extension is requested, the grantee must make that request for approval at least two months before the completion date. Failure to do so may result in lower rankings of future grant applications.

EXHIBIT B
SCOPE OF WORK

The Laconia Water Works will use New Hampshire Department of Environmental Services (NHDES) grant funds to remove two large aging fuel oil tanks and furnaces from city-owned buildings currently at the Laconia Water Works facility along Union Avenue. The tanks are located within 200 feet of Paugus Bay, the city's primary source of drinking water. Removal of the oil tanks and furnaces, and replacement with a natural gas heating system (not part of this agreement) reduces the long-term risk of an oil release into the bay and potential contamination of the City's drinking water.

Specifically, the following tasks, as described in the application submitted to NHDES, will be accomplished:

Task 1. Removal of Two Fuel Oil Tanks

Engage a contractor to remove two oil tanks and furnaces located at the City of Laconia's Water Works facility along Union Avenue. Removal and disposal of the oil tanks and furnaces will be done in accordance with all applicable local, state and federal environmental regulations.

Deliverables: Letter from the City confirming removal with before and after images attached that show removal of the oil tanks and furnaces was completed.

Quarterly progress report forms must be completed by grant recipients or their subcontractor and submitted to NHDES every three months, beginning with the first full three (3) month quarter after grant approval from Governor & Council.
