EXPLANATION

This project is part of the State's Ten-Year Transportation Improvement Plan. This project provides for the demolition of buildings on two State owned parcels in the Town of Jaffrey. The work consists of the removal of a six-unit multi-family apartment structure (15 River Street) and a portion of an adjacent retaining wall, and a commercial/restaurant-tavern (4 Stratton Road), as well as removal of their respective drives and the tavern's parking lot.

Demolishing buildings to support the construction of the 16307 project which involves the construction of a five-leg roundabout at the intersection of Peterborough Street, Main Street, Blake Street, Stratton Road, and Turnpike Road, as well as the relocation of US 202 from Main Street to Blake Street, and the continuation on a new southwesterly alignment over the Contoocook River to intersect with the existing US 202 and River Street at a proposed three-leg roundabout. The town of Jaffrey has requested that these buildings (Parcel 11, 15 River Street; Parcel 26, 4 Stratton Road) be removed in advance of the construction project.

The proposed contingency amount is 10% of the contract amount. This is requested to include any cost elements related to differing site conditions that may be encountered (surface and subsurface) during demolition of these structures.

Although the bid costs exceeded the Department's estimate by 7.30%, the low bid of 2 bids received is felt to be reasonable for the work involved. One item of significance (building removal) accounted for 100% of the overage. Re-advertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

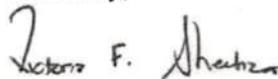

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is: 80% Federal with anticipated utilization of Turnpike Toll Credits for the State's 20% match, effectively using 100% Federal Funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Your approval of this resolution is respectfully requested.

Sincerely,

Victoria F. Sheehan
Commissioner
