REQUESTED ACTION

Authorize the Department of Health and Human Services, Division for Behavioral Health, to enter into **Retroactive, Sole Source** amendments to existing contracts with the Contractors listed below to continue providing evidence-based prevention services for children up to 18 years of age who are exposed to adverse childhood experiences as a result of opioid and/or stimulant misuse by increasing the total price limitation by \$350,000 from \$1,009,024 to \$1,359,024 and by extending the completion dates from September 29, 2022 to September 29, 2023, effective retroactive to September 29, 2022 upon Governor and Council approval. 100% Federal Funds.

The original contracts were approved by Governor and Council on September 18, 2019, item #20A, amended on March 24, 2021, item #15, and most recently amended on October 13, 2021, item #37.

Contractor Name	Vendor Code	Area Served	Current Amount	Increase (Decrease)	Revised Amount
The Mental Health Center of Greater Manchester, Inc.	177184-B001	Greater Manchester Community	\$481,205	\$175,000	\$656,205
The Community Council of Nashua, NH d/b/a Greater Nashua Mental Health Center	154112-B001	Nashua and Hudson	\$527,819	\$175,000	\$702,819
		Total:	\$1,009,024	\$350,000	\$1,359,024

Funds are available in the following accounts for State Fiscal Year 2023, and are anticipated to be available in State Fiscal Year 2024, upon the availability and continued appropriation of funds in the future operating budget, with the authority to adjust budget line items within the price limitation and encumbrances between state fiscal years through the Budget Office, if needed and justified.

See attached fiscal details.

EXPLANATION

This request is **Retroactive** because the Department was notified by the Federal awarding agency on September 23, 2022 of the availability of funding beyond the current contract completion date of September 29, 2022. Due to the delayed notification from the Federal awarding agency, the Department was unable to present this request to the Governor and Council prior to the contract expiring.

This request is **Sole Source** because the Department is seeking to extend the contract beyond the completion dates and there are no renewal options available. Due to the limited timeframe between the funding notification from the Federal awarding agency and the contract expiration date, the Department was not able to re-procure for these services. Any delays or gaps in service provision may result in reduced or loss of access to services and supports for individuals in need of these critical services.

The purpose of this request is to continue providing evidence-based prevention services to children exposed to adverse childhood experiences as a result of opioid and/or stimulant misuse through Community-Based Adverse Childhood Experiences Crisis Teams.

Adverse Childhood Experiences, such as experiencing violence, abuse or neglect, growing up in a household with substance use disorder problems, or witnessing a drug overdose, have a tremendous impact on future drug misuse, negative health outcomes, and even death on the children that are affected, according to the CDC-Kaiser Permanente Adverse Childhood Experiences Study.

Approximately 60 individuals will be served September 30, 2022 to September 29, 2023.

The Contractors will continue to implement Community-Based Adverse Childhood Experiences Crisis Teams (Teams) who mobilize in instances of an overdose where children are present, with the ability to respond to crisis 24 hours per day, 7 days per week. Team members include police officers, crisis services advocates, and community health workers. Teams meet individuals in their homes and in other community settings to assist with the crisis as it arises and complete screenings, crisis interventions and referrals for services and supports. The Teams stabilize individuals as quickly as practicable and provide services for up to seven (7) days following the onset of the crisis.

The Department will continue to monitor services through the review of data reports, periodic surveys, and other data as requested by the Department.

Should the Governor and Executive Council not authorize this request, children within the community who are present during an overdose crisis, along with individuals who misuse opioid and/or stimulants may not have access to timely professional services and supports that concentrate on adverse childhood experiences, which could result in increased utilization of more costly future care to address the negative longer-term impacts of trauma.

Source of Federal Funds: Assistance Listing Number #93.788, FAIN #H79T1085759

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Shibinette
Commissioner

INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Manchester Mental Health
Foundation, Inc. and Affiliates

We have audited the accompanying consolidated financial statements of Manchester Mental Health Foundation, Inc. and Affiliates (the Organization), which comprise the consolidated statements of financial position as of June 30, 2021 and 2020, the related consolidated statements of activities and changes in net assets, functional expenses, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

To the Board of Directors
Manchester Mental Health
Foundation, Inc. and Affiliates

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Organization as of June 30, 2021 and 2020, and the results of its operations, changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter—Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying supplementary information is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The supplementary information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Years Ended June 30, 2021 and 2020

1. Summary of Significant Accounting Policies

Nature of Operations

The Mental Health Center of Greater Manchester, Inc. (the Center) is a not-for-profit corporation organized under New Hampshire law to provide services in the areas of mental health, and related nonmental health programs. The Center is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. Amoskeag Residences, Inc. (Amoskeag), a not-for-profit corporation formed through the Center, was organized to acquire real property in Manchester, New Hampshire and to operate thereon a project group home under a Section 202 direct loan of the National Housing Act. The project is regulated by the United States Department of Housing and Urban Development (HUD), and serves on average 12 chronically mentally ill individuals in New Hampshire. Amoskeag received funding under Section 8 of the National Housing Act and is subject to a housing assistance payments agreement.

In July 1990, the Center was reorganized and Manchester Mental Health Foundation, Inc. (the Foundation) became the sole corporate member of the Center. The Foundation is also a 501(c)(3). The Foundation's purpose is to raise and invest funds for the benefit of the Center. The Foundation had two additional affiliates, MMH Realty Corporation (Realty) and Manchester Mental Health Ventures Corporation (Ventures), both of which were formally dissolved during the year ended June 30, 2021.

In July 2017, the Center acquired commercial real estate in Manchester, New Hampshire that it previously leased a portion of. As of June 30, 2021, the Center occupies approximately 43,000 square feet of the approximately 65,000 square feet in the building (the Center occupied 43,000 square feet as of June 30, 2020). The remaining square footage is leased to unrelated third parties and the entire building is managed by an unrelated management company engaged by the Center.

Basis of Presentation and Principles of Consolidation

The consolidated financial statements include the accounts of the Foundation, Center and Amoskeag, collectively referred to as the Organization. All inter-company transactions and accounts have been eliminated in consolidation.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Years Ended June 30, 2021 and 2020

1. Summary of Significant Accounting Policies (Continued)Income Taxes

The Organization consists of not-for-profit entities as described in Section 501(c)(3) of the Internal Revenue Code, and is exempt from federal income taxes on related income pursuant to Section 501(a) of the Code. The Organization believes that it has appropriate support for the income tax positions taken and to be taken, and that its accruals for tax liabilities are adequate for all open tax years based on an assessment of many factors including experience and interpretations of tax laws applied to the facts of each matter. Management evaluated the Organization's tax positions and concluded the Organization has maintained its tax-exempt status, does not have any significant unrelated business income, has taken no significant uncertain tax positions that require disclosure in the accompanying consolidated financial statements and has no material liability for unrecognized tax benefits.

Cash, Cash Equivalents and Restricted Cash

The Organization considers cash in bank and all other highly liquid investments with an original maturity of three months or less to be cash and cash equivalents. The Organization maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. The Organization has not experienced any losses in such accounts and believes it is not exposed to any significant risk on these accounts.

Restricted cash consists of cash received by the Organization for resident deposits and replacement reserves as required by HUD. The cash received is recorded as restricted cash and a corresponding payable or deposit liability is recorded in the accompanying consolidated statements of financial position. The Organization maintains its restricted cash in bank deposit accounts which, at times, may exceed federally insured limits. The Organization has not experienced losses in such accounts and believes it is not exposed to any significant risks on these accounts.

In accordance with Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) No. 2016-18, *Statement of Cash Flows (Topic 230): Restricted Cash (a consensus of the FASB Emerging Issues Task Force)*, cash and restricted cash are presented together in the consolidated statement of cash flows.

The following table provides a reconciliation of cash and cash equivalents and restricted cash reported within the consolidated statements of financial position at that sum to the total of the same such amounts shown in the consolidated statements of cash flows:

	<u>2021</u>	<u>2020</u>
Cash and cash equivalents	\$14,209,783	\$9,525,985
Restricted cash	<u>120,368</u>	<u>92,786</u>
Total cash, cash equivalents and restricted cash	<u>\$14,330,151</u>	<u>\$9,618,771</u>

MANCHESTER MENTAL HEALTH FOUNDATION, INC. AND AFFILIATES**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

Years Ended June 30, 2021 and 2020

1. Summary of Significant Accounting Policies (Continued)**Patient Accounts Receivable**

Patient accounts receivable for which the unconditional right to payment exists are receivables if the right to consideration is unconditional and only the passage of time is required before payment of that consideration is due. The estimated uncollectible amounts are generally considered implicit price concessions that are a direct reduction to accounts receivable rather than an allowance for doubtful accounts. Implicit price concessions relate primarily to amounts due directly from patients. Estimated implicit price concessions are recorded for all uninsured accounts, regardless of the aging of those accounts. Accounts are written off when all reasonable internal and external collection efforts have been performed. The estimates for implicit price concessions are based upon management's assessment of historical writeoffs and expected net collections, business and economic conditions, and other collection indicators. Management relies on the results of detailed reviews of historical write-offs and collections as a primary source of information in estimating the collectability of its accounts receivable. Management believes its regular updates to the implicit price concession amounts provide reasonable estimates of revenues and valuations of accounts receivable. These routine, regular changes in estimates have not resulted in material adjustments to the valuations of accounts receivable or period-to-period comparisons of operations.

Other Accounts Receivable

Other accounts receivable consists of amounts due from various grants and contracts entered into with the State of New Hampshire and federal government related to providing mental health services, amounts due from third-party managed care organizations and amounts due for services provided to other not-for-profit organizations. The amounts due from not-for-profit organizations and state and federal grants billed to the respective agencies are expected to be fully collectible. Accordingly, no allowance for doubtful amounts has been established. Amounts due from third-party managed care organizations represent management's best estimate of variable consideration expected to be received, and has been constrained to ensure a significant reversal of revenue will not occur.

Property and Equipment

Property and equipment are carried at cost if purchased or at estimated fair value at date of donation in the case of gifts, less accumulated depreciation. The cost of property, equipment and improvements is depreciated over the estimated useful life of the assets using the straight line method. Assets deemed to have a useful life greater than three years are deemed capital in nature. Estimated useful lives range from 3 to 40 years. Maintenance and repairs are charged to expense as incurred. At June 30, 2021, the Organization has outstanding construction commitments totaling approximately \$2,500,000 to expand an existing facility. Construction is expected to commence in March 2022 and be completed in September 2022.

Debt Issuance Costs

Costs associated with the issuance of long-term debt are initially capitalized and amortized to interest expense over the respective life of the related obligation. The unamortized portion of debt issuance costs is presented as a component of long-term debt.

Vacation Pay and Fringe Benefits

Vacation pay is accrued and charged to the programs when earned by the employee. Fringe benefits are allocated to the appropriate program expense based on the percentage of actual time spent on the programs.

Program Service Fees

Program service fee revenue is reported at the amount that reflects the consideration to which the Organization expects to be entitled in exchange for providing patient care. These revenues generally relate to contracts with patients in which the Organization's performance obligations are to provide health care services to patients. Revenues are recorded during the period obligations to provide health care services are satisfied. Performance obligations for services are generally satisfied over a period of less than one day.

The contractual relationships with patients, in most cases, also involve a third-party payor (Medicaid, Medicare, managed care organizations and commercial insurance companies) and the transaction prices for the services provided are dependent upon the terms provided by Medicaid, Medicare, managed care organizations and commercial insurance companies, the third-party payors. The payment arrangements with third-party payors for the services provided to related patients typically specify payments at amounts less than standard charges. The Organization receives reimbursement from Medicare, Medicaid and insurance companies at defined rates for services to clients covered by such third-party payor programs. Management continually reviews the revenue recognition process to consider and incorporate updates to laws and regulations and the frequent changes in managed care contractual terms resulting from contract renegotiations and renewals.

Settlements with third-party payors are considered variable consideration and are included in the determination of the estimated transaction price for providing patient care. These settlements are estimated based on the terms of the payment agreement with the payor, correspondence from the payor and the Organization's historical settlement activity, including an assessment to ensure that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated the adjustment is subsequently resolved. Estimated settlements are adjusted in future periods as adjustments become known.

Rental Income

Rental income from operating leases leased by third parties is recognized over time on a straight-line basis in nonoperating revenue (expenses) over the noncancelable term of the related leases. Recognition of rental income commences when the tenant takes control of the space. Judgment is required to determine when a tenant takes control of the space, and accordingly, when to commence the recognition of rent. The Organization's leases generally provide for minimum rent and contain renewal options.

State and Federal Grant Revenue and Expenditures

The Center receives a number of grants from, and has entered into various contracts with, the State of New Hampshire and Federal government related to providing mental health services. Revenues and expenses under state and federal grant programs are recognized over time as the related expenditure is incurred. Grant monies that are advanced to the Organization prior to fiscal year end are recorded as deferred revenue until such time funds are expended.

Other Income

Other income predominately pertains to the portion of Medicaid capitated payments that exceed the standard fee for service reimbursement (based on a Department of Health and Human Services rate schedule) that the Center receives. Capitation is a payment methodology under which a provider receives a fixed amount per person to provide health care services to a specified population of patients during a specified time period. The Center is paid the fixed amount per person regardless of whether that person receives services or not. Other components of other income include meaningful use revenues, Medicaid directed payments, and other miscellaneous sources of income that are recognized when earned or upon receipt if the ultimate payment to be received is not estimable.

Performance Indicator

Excess of revenues over expenses is comprised of operating revenues and expenses and nonoperating revenues and expenses. For purposes of display, transactions deemed by management to be ongoing, major or central to the provision of health care services are reported as operating revenue and expenses. Peripheral or incidental transactions are reported as nonoperating revenues or expenses, which include contributions, rental activities, net investment return, other nonoperating expenses, and contributions to charitable organizations.

Net Assets With Donor Restrictions

Gifts are reported as restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires (when a stipulated time restriction ends or purpose restriction is accomplished), restricted net assets are reclassified as net assets without donor restrictions and reported in the consolidated statement of operations as either net assets released from restrictions for operations (for noncapital-related items) or net assets released from restrictions for property, plant and equipment (for capital-related items). Some restricted net assets have been restricted by donors to be maintained by the Organization in perpetuity.

Except for contributions related to capital purchases, donor-restricted contributions whose restrictions are met within the same year as received are reported as contributions without donor restrictions in the accompanying consolidated financial statements.

Assets Whose Use is Limited or Restricted

Assets whose use is limited or restricted consist of donor-restricted funds.

Investments and Investment Income

Investments, including assets whose use is limited or restricted, are measured at fair value in the consolidated statements of financial position. Interest income on operating cash is reported within operating revenues. Net investment return on investments and assets whose use is limited or restricted (including realized and unrealized gains and losses on investments, investment fees and interest and dividends) is reported as nonoperating revenues and expenses. The Organization has elected to reflect changes in the fair value of investments and assets whose use is limited or restricted, including both increases and decreases in value whether realized or unrealized in nonoperating revenues or expenses.

Investment Return Objectives, Risk Parameters and Strategies

The Foundation has board designated and endowment assets. The Foundation has adopted investment policies, approved by the Board of Directors, for endowment assets that attempt to maintain the purchasing power of those endowment assets over the long term. Accordingly, the investment process seeks to achieve an after-cost total real rate of return, including investment income as well as capital appreciation, which exceeds the annual distribution with acceptable levels of risk. Endowment assets are invested in a well-diversified asset mix, which includes equity and debt securities, that is intended to result in a consistent inflation-protected rate of return that has sufficient liquidity to make an annual distribution of accumulated interest and dividend income to be reinvested or used as needed, while growing the funds if possible. Actual returns in any given year may vary from this amount. Investment risk is measured in terms of the total endowment fund; investment assets and allocation between asset classes and strategies are managed to reduce the exposure of the fund to unacceptable levels of risk.

Spending Policy for Appropriation of Assets for Expenditure

The Board of Directors of the Foundation determines the method to be used to appropriate endowment funds for expenditure. As a guideline, approximately 5% of the total value of the three year quarterly average of available funds is intended to be distributed annually. The corresponding calculated spending allocations are distributed in an annual installment from the current net total or accumulated net total investment returns for individual endowment funds. In establishing this policy, the Board of Directors considered the expected long term rate of return on its endowment. No amounts were appropriated for expenditure during the year ended June 30, 2021.

1. Summary of Significant Accounting Policies (Continued)Retirement Benefits

The Center maintains a tax-sheltered annuity benefit program, which covers substantially all employees. Eligible employees may contribute up to maximum limitations (set annually by the IRS) of their annual salary. After one year's employment, the employee's contributions are matched by the Center up to 5% of their annual salary. The combined amount of employee and employer contributions is subject by law to yearly maximum amounts. The employer match was \$709,932 and \$670,556 for the years ended June 30, 2021 and 2020, respectively.

Extended Illness Leave Plan

The Center sponsors an unfunded extended illness leave plan for employees. Employees with at least 10 years of service are eligible to receive a lump sum payout of up to 100% of any accrued unused extended illness leave, based upon years of service at retirement. The Center incurred extended illness leave expenses totaling \$45,395 and \$37,999 during the years ended June 30, 2021 and 2020, respectively. The Center expects to make employer contributions totaling \$27,900 for the fiscal year ending June 30, 2022. Liabilities recognized are based on a third party actuarial analysis.

The following table sets forth the change in the Center's extended illness leave plan liability during the years ended June 30:

	<u>2021</u>	<u>2020</u>
Statement of financial position liability at beginning of year	\$(484,285)	\$(460,541)

Statement of financial position liability at end of year	<u>\$(489,022)</u>	<u>\$(484,285)</u>

Postretirement Health Benefit Plan

The Center sponsors an unfunded defined benefit postretirement plan covering certain of its employees (employed prior to January 1, 1997). In 2007, all eligible active employees were offered and accepted a buyout of the program leaving the plan to provide medical benefits to eligible retired employees. As a result, no additional employees will be enrolled in the plan. Only current retirees participate in the plan.

During 1997, the Center amended the plan to freeze monthly premiums at their December 31, 1996 level and to no longer provide the postretirement benefit to employees hired after December 31, 1996. The Center recognized a net postretirement health benefit totaling \$3,434 and \$4,388 during the years ended June 30, 2021 and 2020, respectively. The Center expects to make employer contributions totaling \$10,000 for the fiscal year ending June 30, 2022.

Malpractice Loss Contingencies

The Center has an occurrence basis policy for its malpractice insurance coverage. An occurrence basis policy provides specific coverage for claims resulting from incidents that occur during the policy term, regardless of when the claims are reported to the insurance carrier. The possibility exists, as a normal risk of doing business, that malpractice claims in excess of insurance coverage may be asserted against the Center. In the event a loss contingency should occur, the Center would give it appropriate recognition in its consolidated financial statements.

Functional Expense Allocation

The costs of providing program services and other activities have been summarized on a functional basis in the consolidating statement of functional expenses. Accordingly, costs have been allocated among program services and supporting services benefitted.

Recent Accounting Pronouncements

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)* (ASU 2016-02). Under ASU 2016-02, at the commencement of a long-term lease, lessees will recognize a liability equivalent to the discounted payments due under the lease agreement, as well as an offsetting right-of-use asset. ASU 2016-02 is effective for the Organization on July 1, 2022. Lessees (for capital and operating leases) must apply a modified retrospective transition approach for leases existing at, or entered into after, the beginning of the earliest comparative period presented in the consolidated financial statements. The modified retrospective approach would not require any transition accounting for leases that expired before the earliest comparative period presented. Lessees may not apply a full retrospective transition approach. The Organization is currently evaluating the impact of the pending adoption of ASU 2016-02 on the Organization's consolidated financial statements.

In September 2020, the FASB Issued ASU No. 2020-07, *Not-for-Profit Entities (Topic 958): Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets*. ASU 2020-07 enhances the presentation of disclosure requirements for contributed nonfinancial assets. ASU 2020-07 requires organizations to present contributed nonfinancial assets as a separate line item in the statement of activities and disclose the amount of contributed nonfinancial assets recognized within the statement of activities by category that depicts the type of contributed nonfinancial assets, as well as a description of any donor-imposed restrictions associated with the contributed nonfinancial assets and the valuation techniques used to arrive at a fair value measure at initial recognition. ASU 2020-07 is effective for the Organization for transactions in which they serve as the resource recipient beginning July 1, 2021, with early adoption permitted. The Organization is currently evaluating the impact of the pending adoption of ASU 2020-07 on its consolidated financial statements.

Risks and Uncertainties

On March 11, 2020, the World Health Organization declared the outbreak of coronavirus (COVID-19) a pandemic. The COVID-19 pandemic has significantly affected employees, patients, systems, communities and business operations, as well as the U.S. economy as well as certain business segments. In addition, COVID-19 could adversely affect the Organization's financial condition and results of operations if additional restrictions are put in place that limit the Organization's ability to provide in-person services. At the date of these consolidated financial statements, management is unable to quantify the potential effects of this pandemic on future operations.

The Organization believes the extent of the COVID-19 pandemic's adverse impact on operating results and financial condition has been and will continue to be driven by many factors, most of which are beyond control and ability to forecast. Such factors include, but are not limited to, the scope and duration of stay-at-home practices and business closures and restrictions, declines in patient volumes for an indeterminable length of time, increases in the number of uninsured and underinsured patients as a result of higher sustained rates of unemployment, incremental expenses required for supplies and personal protective equipment, and changes in professional and general liability exposure. Because of these and other uncertainties, the Organization cannot estimate the length or severity of the impact of the pandemic on its operations. Decreases in cash flows and results of operations may have an impact on the inputs and assumptions used in significant accounting estimates, including estimated implicit price concessions related to uninsured patient accounts, and professional and general liability reserves.

During the fourth quarter of fiscal 2020, the Organization received \$428,451 from the \$50 billion general distribution fund from the *Coronavirus Aid, Relief, and Economic Security Act* (CARES Act) Provider Relief Fund. These distributions from the Provider Relief Fund are not subject to repayment, provided the Organization is able to attest to and comply with the terms and conditions of the funding, including demonstrating that the distributions received have been used for healthcare-related expenses or lost revenue attributable to COVID-19. Such payments are accounted for as government grants, and are recognized on a systematic and rational basis as other income once there is reasonable assurance that the applicable terms and conditions required to retain the funds will be met. Based on an analysis of the compliance and reporting requirements of the Provider Relief Fund and the impact of the pandemic on operating results through June 30, 2020 and 2021, the Organization has determined that it does not qualify to retain the funds and has recorded the full amount of the Provider Relief Funds received within accrued payroll, vacation and other accruals on the accompanying consolidated statements of financial position. The Organization repaid the funds in December 2021.

During 2020 and 2021, the Organization successfully petitioned all three managed care organizations to waive the Maintenance of Effort (MOE) provisions in each of the respective provider service agreements. The waiver period is effective for the period of July 1, 2019 through June 30, 2021, and is thereafter reinstated.

Reclassifications

Certain 2020 amounts have been reclassified to permit comparison with the 2021 consolidated financial statements presentation format.

Subsequent Events

Events occurring after the consolidated statement of financial position date are evaluated by management to determine whether such events should be recognized or disclosed in the consolidated financial statements. Management has evaluated subsequent events through January 10, 2022 which is the date the consolidated financial statements were available to be issued.

2. Program Service Fees From Third-Party Payors

The Center has agreements with third-party payors that provide payments to the Center at established rates. These payments include:

New Hampshire and Managed Medicaid - The Center is reimbursed for services from the State of New Hampshire and Managed Care Organizations for services rendered to Medicaid clients on the basis of fixed fee for service and case rates.

Approximately 77% and 75% of program service fee revenue is from participation in the state and managed care organization sponsored Medicaid programs for the years ended June 30, 2021 and 2020, respectively. Laws and regulations governing the Medicaid programs are complex and subject to interpretation and change. As a result, it is reasonably possible that recorded estimates could change materially in the near term.

5. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. In determining fair value, the use of various valuation approaches, including market, income and cost approaches, is permitted.

A fair value hierarchy has been established based on whether the inputs to valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from sources independent of the reporting entity and unobservable inputs reflect the entity's own assumptions about how market participants would value an asset or liability based on the best information available. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. The standard describes a fair value hierarchy based on three levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value.

The following describes the hierarchy of inputs used to measure fair value and the primary valuation methodologies used by the Organization for financial instruments measured at fair value on a recurring basis. The three levels of inputs are as follows:

Level 1 - Observable inputs such as quoted prices in active markets;

Level 2 - Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and

Level 3 - Unobservable inputs in which there is little or no market data.

Assets and liabilities measured at fair value are based on one or more of three valuation techniques. The three valuation techniques are as follows:

- *Market approach* – Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;
- *Cost approach* – Amount that would be required to replace the service capacity of an asset (i.e., replacement cost); and
- *Income approach* – Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques).

In determining the appropriate levels, the Organization performs a detailed analysis of the assets and liabilities. There have been no changes in the methodologies used at June 30, 2021 or 2020.

The following is a description of the valuation methodologies used:

5. Fair Value Measurements (Continued)Certificate of Deposit and Fixed Income Securities

The fair value is determined by using broker or dealer quotations, external pricing providers, or alternative pricing sources with reasonable levels of price transparency, which are primarily classified as Level 1 within the fair value hierarchy.

Mutual funds

Mutual funds are valued based on the closing net asset value of the fund as reported in the active market in which the security is traded, which generally results in classification as Level 1 within the fair value hierarchy.

The following table presents by level, within the fair value hierarchy, the Foundation investment assets at fair value, as of June 30, 2021 and 2020. As required by professional accounting standards, investment assets are classified in their entirety based upon the lowest level of input that is significant to the fair value measurement.

Years Ended June 30, 2021 and 2020

9. Long-Term Debt

On April 20, 2020, the Organization entered into a promissory note for an unsecured loan in the amount of \$4,390,000 through the Paycheck Protection Program (PPP) established by the CARES Act and administered by the U.S. Small Business Administration (SBA). The PPP provides loans to qualifying organizations for amounts up to 2.5 times the average monthly payroll expenses of the qualifying organization. The loan and accrued interest had original terms that were forgivable as long as the borrower used the loan proceeds for eligible purposes, including payroll, benefits, rent and utilities, and maintains its payroll levels for an eight-week period or a 24-week covered period, as defined. The amount of loan forgiveness would be reduced if the borrower terminated employees or reduced salaries during the covered period. Certain modifications to PPP loan terms were signed into law in June 2020 and October 2020 that changed the forgiveness, covered period, deferral period and forgiveness periods. The PPP loan was made for the purpose of securing funding for salaries and wages of employees that may have otherwise been displaced by the outbreak of COVID-19 and the resulting detrimental impact on the Organization's operations. The loan bears interest at 1.0%, with principal and interest payments deferred until the date the SBA remits forgiveness to the lender or ten months following the end of the covered period. After that, the loan and interest would be paid back over a period of two years, if the loan is not forgiven under the terms of the PPP.

The Organization applied for full forgiveness in May 2021, as it believed it used the proceeds for purposes consistent with the PPP. On August 2, 2021, the Organization received approval for full forgiveness from the SBA. The Organization has accounted for the PPP loan in accordance with FASB ASC Topic 470, *Debt*, and included the full \$4,390,000 as a component of long-term debt until forgiveness was received. Upon receiving full forgiveness during the year ended June 30, 2022, the Organization will record a gain on extinguishment of long-term debt for the full \$4,390,000.

Long-term debt consisted of the following at June 30:

	<u>2021</u>	<u>2020</u>

EXPLANATION

The purpose of this request is to continue providing evidence-based prevention services to children exposed to adverse childhood experiences as a result of opioid and/or stimulant misuse through Community-Based Adverse Childhood Experiences Crisis Teams.

Adverse childhood experiences, which may include experiencing violence, abuse or neglect while growing up in a household with substance use disorder problems or witnessing a drug overdose, have a tremendous impact on future drug misuse, negative health outcomes, and death on the children that are affected, according to the CDC-Kaiser Permanente Adverse Childhood Experiences Study.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
Page 2 of 2

Like many organizations, the COVID pandemic required the Community-Based Adverse Childhood Experiences Crisis Teams to adjust their strategies from on-site school activities to community stakeholder connections, such as trainings for local police and first responders in trauma-informed responses and interventions. Many substance use calls that these teams receive are connected with other adverse childhood experiences, such as sexual assault and domestic violence so a holistic look at trauma response has been a heavier focus.

Approximately 60 individuals will be served from September 30, 2021 to September 29, 2022.

The Contractors will continue to deploy Community-Based Adverse Childhood Experiences Crisis Teams who mobilize in instances of an overdose where children are present, with the ability to respond to crisis 24 hours per day, seven (7) days per week. Team members include police officers, crisis services advocates, and community health workers. Teams meet individuals in individuals' homes and in other community settings to assist with the crisis as it arises and complete screenings, crisis interventions and referrals for services and supports. The teams stabilize individuals as quickly as practicable and provide services for up to seven (7) days following the onset of the crisis.

The Department will continue collaborating with community partners and other state agencies to collect available data and additional data needed to identify outcomes. The Department will continue monitoring contracted services using the following tools and performance measures:

- Monthly statistical reports that show that, even with the impact of COVID-19 reducing availability of school-based activities, the Contractors met their previous goal of individuals served; and
- Satisfaction surveys to service providers with a minimum target of 95% satisfaction with services provided to clients.

As referenced in Exhibit C-1, Revisions to Standard Contract Language, Paragraph 2, Sub-Paragraph 2.1 of the original contracts, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and Governor and Council approval. The Department is exercising its option to renew services for the remaining one (1) available year.

Should the Governor and Council not authorize this request, children within the community who are present during a drug overdose crisis, along with individuals battling an opioid and/or stimulant misuse issue may not have access to timely professional services and supports that concentrate on adverse childhood experiences, which could result in increased utilization of more costly future care to address the negative longer-term impacts.

Area served: Greater Manchester Community, Nashua and Hudson

Source of Funds: CFDA #93.788, FAIN #H79TI0818685, H79TI083326, and H79TI083326

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Shibinette
Commissioner

His Excellency, Governor Christopher T. Sununu
and the Honorable Council

Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the Department of Health and Human Services, Division for Behavioral Health, to **Retroactively** amend existing contracts with the vendors listed below to provide evidence-based prevention services for children up to age 18 who are exposed to adverse childhood experiences as a result of opioid misuse, by increasing the total price limitation by \$49,590.00 from \$600,000.00 to \$649,590.00 and by extending the completion dates from September 29, 2020 to September 29, 2021 effective retroactive to September 30, 2020 upon Governor and Council approval. 100% Federal Funds.

The original contracts were approved by Governor and Council on September 18, 2019, (Item #20A).

Vendor Name	Vendor Code	Area Served	Current Amount	Increase (Decrease)	Revised Amount
The Mental Health Center of Greater Manchester, Inc.	177184-B001	Greater Manchester Community	\$300,000.00	\$1,488.00	\$301,488.00
Greater Nashua Mental Health	154112-B001	Nashua and Hudson	\$300,000.00	\$48,102.00	348,102.00
Total:			\$600,000.00	\$49,590.00	\$649,590.00

Funds are available in the following accounts for State Fiscal Years 2021 with the authority to adjust budget line items within the price limitation and encumbrances between state fiscal years through the Budget Office, if needed and justified.

See attached fiscal details.

EXPLANATION

This request is **Retroactive** because the contractors continued providing services to ensure no lapse in client services. Because sufficient funds in State Fiscal Year 2021 were not available in the operating budget, and delays by the Substance Abuse and Mental Health Services Administration (SAMHSA) in approving New Hampshire's requests for continued State Opioid Response Grant funding, the efforts to add the state appropriations were deferred.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
Page 2 of 2

The purpose of this request is to continue providing evidence-based prevention services to children exposed to adverse childhood experiences as a result of opioid misuse through Community-Based Adverse Childhood Experiences Crisis Team projects.

Approximately 40 individuals will be served from September 30, 2020 through September 29, 2021.

The contractors will continue implementing teams that include safety professionals who can mobilize in cases of an overdose where children are present with the ability to respond to crisis twenty-four (24) hours per day, seven (7) days per week. The contractors will continue implementing Community-Based Adverse Childhood Experiences Crisis Teams that will be mobilized in cases of an overdose where children are present. Members of the teams include police officers, crisis services advocates and community health workers.

The contractors will continue meeting with individuals in their homes and in other natural environments and community settings to assist with the crisis as it arises to complete screenings, crisis interventions and referrals for services and supports. The teams work to stabilize individuals as quickly as practicable and provide services for up to seven (7) days following the onset of the crisis.

The Department will continue monitoring contracted services using the following tools and performance measures:

- Monthly statistical reports as outlined in Exhibit A of the Contract; and
- Satisfaction surveys to service providers with a minimum target of 95% satisfaction with services provided clients.

As referenced in Exhibit C-1, Revisions to Standard Contract Language, Paragraph 2, Sub-Paragraph 2.1 of the original contracts, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for one (1) of the two (2) years available.

Should the Governor and Executive Council not authorize this request, children within the community who are present during an overdose crisis along with individuals battling an opioid misuse issue may not have access to professional services and supports that concentrate on Adverse Childhood Experiences.

Area served: Greater Manchester Community, Nashua and Hudson.

Source of Funds: CFDA #93.788, FAIN #H79TI081685 and H79TI083326.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Shibinette
Commissioner

EXPLANATION

The purpose of this request is to provide evidence-based prevention services to children exposed to adverse childhood experiences as a result of opioid misuse through Community-Based Adverse Childhood Experiences Crisis Team projects.

20A max

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
Page 2 of 3

Approximately 70 individuals will be served from September 2019 through September 2020.

The Contractors will implement teams that include safety professionals who can mobilize in cases of an overdose where children are present. Teams will be implemented within three (3) to six (6) months of the effective date of the contracts with the ability to respond to crisis twenty (24) hours per day, seven (7) days per week.

The Contractors will develop and implement Community-Based Adverse Childhood Experiences Crisis Teams that will be mobilized in cases of an overdose where children are present. Members of the teams include police officers, crisis services advocates and community health workers.

The Contractors will meet individuals in their homes and in other natural environments and community settings to assist with the crisis as it arises to complete screenings, crisis interventions and referrals for services and supports. The teams will work to stabilize individuals as quickly as practicable continue to provide services for up to seven (7) days following the onset of the crisis.

New Hampshire's State Opioid Response Grant projects use evidence-based methods to expand treatment, recovery and prevention services to individuals with Opioid Use Disorder in New Hampshire. In 2017, New Hampshire had 488 opioid-related deaths, 2,774 emergency Naloxone (Narcan) administrations, and 6,684 emergency department opioid related visits. New Hampshire is ranked as having the third highest overdose rate in the country at 39 individuals per 100,000 population.

The scope of services in these contracts was developed, in part, through a public comment forum that identified gaps in the prevention system aimed at addressing increased exposure to Adverse Childhood Experiences in children as a result of the state's opioid crisis.

As referenced in the Exhibit C-1 of these agreements, the parties have the option to extend contract services for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and approval of the Governor and Executive Council.

The Department will monitor the effectiveness of the Contractors and the delivery of services required under these agreements using the following performance measures:

- Monthly statistical reports as outlined in Exhibit A of the Contract;
- Satisfaction surveys to service providers with a minimum target of 95% satisfaction with services provided clients.

These two (2) vendors were selected for this project through a competitive bid process. A Request for Proposal was posted on the Department of Health and Human Services website from April 4, 2019 through April 30, 2019. The Department received three (3) proposals. The proposals were reviewed and scored by a team of individuals with program-specific knowledge. The Score Summary is attached.

Should the Governor and Executive Council not authorize this request, children within the community who are present during an overdose crisis along with individuals battling an opioid misuse issue may not have access to professional services, support and advocacy. Without these services, the State may not have the necessary tools in order to further combat the epidemic in New Hampshire.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.
2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.
3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.
4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.

6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.
7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractor's costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
 - 7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

Report on the Financial Statements

We have audited the accompanying financial statements of The Community Council of Nashua, NH, Inc. d/b/a Greater Nashua Mental Health (the Organization), which comprise the statement of financial position as of June 30, 2021, and the related statements of activities and changes in net assets, functional revenues and expenses, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Organization as of June 30, 2021, and the changes in its net assets and its cash flows for the year then ended, in accordance with U.S. generally accepted accounting principles.

Report on Summarized Comparative Information

We have previously audited the Organization's 2020 financial statements, and we expressed an unmodified opinion on those audited financial statements in our report dated October 28, 2020. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2020 is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Matter

Change in Accounting Principle

As discussed in Note 1 to the financial statements, in 2021 the Organization adopted Financial Accounting Standards Board Accounting Standards Update No. 2014-09, *Revenue from Contracts with Customers* (Topic 606), and related guidance. Our opinion is not modified with respect to this matter.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 28, 2021 on our consideration of the Organization's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Organization's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control over financial reporting and compliance.

Organization

The Community Council of Nashua, NH, Inc. d/b/a Greater Nashua Mental Health (the Organization) is a comprehensive community health center located in Nashua, New Hampshire. The Organization's mission is to work with the community to meet the mental health needs of its residents by offering evaluation, treatment, resource development, education and research. The Organization is dedicated to clinical excellence and advocacy with its Child and Adolescent, Adult Outpatient Services, Older Adult Services, Deaf Services, Substance Abuse, Medical Services, and other programs.

1. Summary of Significant Accounting Policies

Recently Adopted Accounting Pronouncement

In May 2014, the Financial Accounting and Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, *Revenue from Contracts with Customers* (Topic 606), which identifies a five step core principle guide for organizations to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the organization expects to be entitled in exchange for those goods or services. This ASU and related guidance were adopted by the Organization for the year ended June 30, 2021. Adoption of this ASU did not have a material impact on the Organization's financial reporting.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Basis of Presentation

The financial statements of the Organization have been prepared in accordance with U.S. GAAP, which require the Organization to report information regarding to its financial position and activities according to the following net asset classification:

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Organization. These net assets may be used at the discretion of the Organization's management and the Board of Directors.

Net assets with donor restrictions: Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Organization or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity. Donor restricted contributions are reported as increases in net assets with donor restrictions. When a restriction expires, net assets are reclassified from net assets with donor restrictions to net assets without donor restrictions in the statement of activities and changes in net assets.

Notes to Financial Statements

**June 30, 2021
(With Comparative Totals for June 30, 2020)**

All contributions are considered to be available for operational use unless specifically restricted by the donor. Amounts received that are designated for future periods or restricted by the donor for specific purposes are reported as donor restricted support that increases that net asset class. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, donor restricted net assets are reclassified to net assets without donor restrictions and reported in the statement of activities and changes in net assets as net assets released from restrictions. The Organization records donor restricted contributions whose restrictions are met in the same reporting period as support without donor restrictions in the year of the gift.

The Organization reports contributions of land, buildings or equipment as support without donor restrictions, unless a donor places explicit restriction on their use. Contributions of cash or other assets that must be used to acquire long-lived assets are reported as donor restricted support and reclassified to net assets without donor restrictions when the assets are acquired and placed in service.

The financial statements include certain prior year summarized comparative information in total, but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with U.S. GAAP. Accordingly, such information should be read in conjunction with the Organization's June 30, 2020 financial statements, from which the summarized information was derived.

Cash and Cash Equivalents

Cash and cash equivalents include highly liquid investments with an original maturity of three months or less, excluding investments.

The Organization has cash deposits in major financial institutions which may exceed federal depository insurance limits. The Organization has not experienced any losses in such accounts. Management believes it is not exposed to any significant risk with respect to these accounts.

Accounts Receivable

Accounts receivable are stated at the amount management expects to collect from outstanding balances reduced by an allowance for uncollectible accounts. In evaluating the collectability of accounts receivable, the Organization monitors the amount of actual cash collected during each month against the Organization's outstanding accounts receivable balances, as well as the aging of balances. The Organization analyzes its past history and identifies trends for each of its major payer sources of revenue to estimate the appropriate allowance for uncollectible accounts and provision for bad debts. Management, as well as the Finance Committee of the Organization, regularly reviews the aging and collection rate of major payer sources. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to the trade accounts receivable.

Notes to Financial Statements

June 30, 2021

(With Comparative Totals for June 30, 2020)

Investments

Investments in marketable securities and debt instruments with readily determined market values are carried at fair value. Fair values are based on quoted market prices, if available, or estimated using quoted market prices for similar securities.

Dividends, interest, and net realized and unrealized gains (losses) arising from investments are reported as follows:

- Increases (decreases) in net assets with donor restrictions if the terms of the gift require that they be maintained with the corpus of a donor restricted endowment fund;
- Increases (decreases) in net assets with donor restrictions if the terms of the gift or state law imposes restrictions on the use of the allocated investment income (loss); and
- Increases (decreases) in net assets without donor restrictions in all other cases.

Property and Equipment

Property and equipment are carried at cost, if purchased, or at estimated fair value at date of donation in the case of gifts, less accumulated depreciation. The Organization's policy is to capitalize assets greater than \$5,000, while minor maintenance and repairs are charged to expense as incurred. Depreciation is recorded using the straight-line method over the following estimated lives as follows:

Furniture and equipment	3-10 years
Buildings and improvements	15-50 years
Computer equipment and software	3-10 years
Vehicles	5 years

Revenue Recognition

Program service fees, net revenue is reported at the estimated net realizable amount that reflects the consideration to which the Organization expects to be entitled in exchange for providing client services. These amounts are due from third-party payors (including health insurers and government programs), and others, and include variable consideration for retroactive revenue adjustments due to settlement of audits, reviews, and investigations. Generally, the Organization bills third-party payors several days after services are provided. Revenue is recognized as performance obligations are satisfied. It is the Organization's expectation that the period between the time the service is provided to a client and the time a third-party payor pays for that service will be one year or less.

Under the Organization's contractual arrangements, the Organization provides services to clients for an agreed upon fee. The Organization recognizes revenue for client services in accordance with the provisions of ASU No. 2014-09 and related guidance.

THE COMMUNITY COUNCIL OF NASHUA, NH, INC.
D/B/A GREATER NASHUA MENTAL HEALTH

Notes to Financial Statements

June 30, 2021
(With Comparative Totals for June 30, 2020)

Performance obligations are determined based on the nature of the services provided by the Organization. Revenue for performance obligations satisfied over time is recognized based on actual services rendered. Generally, performance obligations are satisfied over time when services are provided. The Organization measures the performance obligation from when the Organization begins to provide services to a client to the point when it is no longer required to provide services to that client, which is generally at the time of notification to the Organization.

Each performance obligation is separately identifiable from other promises in the contract with the client. As the performance obligations are met, revenue is recognized based upon allocated transaction price. The transaction price is allocated to separate performance obligations based upon the relative stand-alone selling price.

Because all of its performance obligations relate to short-term contracts, the Organization has elected to apply the optional exemption provided in FASB Accounting Standards Codification (ASC) Subtopic 606-10-50-14(a), and therefore, is not required to disclose the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied or partially unsatisfied at the end of the reporting period.

Functional Allocation of Expenses

The costs of providing various programs and other activities have been summarized on a functional basis in the statements of functional revenues and expenses. Accordingly, certain costs have been allocated among the programs and supporting services benefited. General and administrative expenses are allocated based on full time equivalents and program expenses are allocated based on client count.

Estimated Third-Party Liability

The Organization's estimated third-party liability consists of estimated amounts due to Medicaid under capitation contract agreements. During 2021, minimum threshold levels were waived by the Managed Care Organizations (MCO's) and therefore, management has not recognized a potential repayment for services provided during 2021. During 2020, management was notified by the MCO's that the Organization did not meet the minimum threshold levels for services provided in 2019 and as a result owed the MCO's a total of \$18,681 at June 30, 2020.

Income Taxes

The Organization is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code (IRC). There was no unrelated business income tax incurred by the Organization for the years ended June 30, 2021 and 2020. Management has evaluated the Organization's tax positions and concluded the Organization has maintained its tax-exempt status, does not have any significant unrelated business income and has taken no uncertain tax positions that require adjustment to, or disclosure within, the accompanying financial statements.

Subsequent Events

For purposes of the preparation of these financial statements in conformity with U.S. GAAP, management has considered transactions or events occurring through October 28, 2021, which is the date that the financial statements were available to be issued.

2. Availability and Liquidity of Financial Assets

The Organization regularly monitors liquidity required to meet its operating needs and other contractual commitments, while also striving to optimize its available funds. The Organization has various sources of liquidity at its disposal, including cash and cash equivalents, investments and a line of credit.

For purposes of analyzing resources available to meet general expenditures over a 12-month period, the Organization considers all expenditures related to its ongoing operating activities as well as the conduct of services undertaken to support those operating activities.

In addition to financial assets available to meet general expenditures over the next 12 months, the Organization operates with a balanced budget and anticipates collecting sufficient revenue to cover expenditures not covered by donor-restricted resources or, where appropriate, borrowings. Refer to the statements of cash flows, which identifies the sources and uses of the Organization's cash and cash equivalents.

The following financial assets are expected to be available within one year of the statement of financial position date to meet general expenditures as of June 30:

	<u>2021</u>	<u>2020</u>
Cash and cash equivalents available for operations	\$10,646,433	\$ 5,795,870
Accounts receivable, net	<u>1,868,512</u>	<u>2,553,814</u>
Financial assets available to meet general expenditures within one year	<u>\$12,514,945</u>	<u>\$ 8,349,684</u>

Cash and cash equivalents in the statement of financial position includes amounts that are part of the endowment and board-designated funds reserved for future capital expenditures, and thus are excluded from the above table.

The Organization's Board of Directors has designated a portion of its resources without donor-imposed restrictions to act as endowment funds. These funds are invested for long-term appreciation and current income but remain available and may be spent at the discretion of the Board of Directors.

The Organization has an available line of credit of \$1,000,000 which was fully available at June 30, 2021. See Note 8.

3. Program Service Fees and Concentrations of Credit Risk

For the years ended June 30, 2021 and 2020, approximately 83% and 80%, respectively, of the revenue and support of the Organization was derived from managed care contracts. As of June 30, 2021 and 2020, accounts receivable due from government grants was approximately 68% and 58%, respectively.

4. Investments

Investments, which are reported at fair value, consist of the following at June 30:

	<u>2021</u>	<u>2020</u>
Common stocks	\$ 889,746	\$ 744,873
Equity mutual funds	291,844	215,908
U.S. Treasury bonds	571,446	503,538
Corporate bonds	269,361	244,045
Corporate bond mutual funds	<u>122,873</u>	<u>109,001</u>
	<u>\$ 2,145,270</u>	<u>\$ 1,817,365</u>

The Organization's investments are subject to various risks, such as interest rate, credit and overall market volatility, which may substantially impact the values of investments at any given time.

5. Fair Value of Financial Instruments

FASB ASC Topic 820, *Fair Value Measurement*, defines fair value as the exchange price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants and also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

The fair value hierarchy within ASC Topic 820 distinguishes three levels of inputs that may be utilized when measuring fair value:

- Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.
- Level 2: Significant observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.
- Level 3: Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The following table sets forth by level, within the fair value hierarchy, the Organization's assets measured at fair value on a recurring basis as of June 30:

<u>2021</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Total</u>
Common stocks	\$ 889,746	\$ -	\$ 889,746

7. Endowment

The Organization's endowment primarily consists of funds established for certain programs provided by the Organization. Its endowment includes both donor-restricted endowment funds and funds designated by the Board of Directors to function as endowments. As required by U.S. GAAP, net assets associated with endowment funds, including funds designated by the Board of Directors to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretation of Relevant Law

The Organization has interpreted the State of New Hampshire Uniform Prudent Management of Institutional Funds Act (the Act) as allowing the Organization to spend or accumulate the amount of an endowment fund that the Organization determines is prudent for the uses, benefits, purposes and duration for which the endowment fund is established, subject to the intent of the donor as expressed in the gift agreement. As a result of this interpretation, the Organization has included in net assets with perpetual donor restrictions (1) the original value of gifts donated to be maintained in perpetuity, (2) the original value of subsequent gifts to be maintained in perpetuity, and (3) the accumulation to the gifts to be maintained in perpetuity made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. If the donor-restricted endowment assets earn investment returns beyond the amount necessary to maintain the endowment assets' contributed value, that excess is included in net assets with donor restrictions until appropriated by the Board of Directors and, if applicable, expended in accordance with the donors' restrictions. The Organization has interpreted the Act to permit spending from funds with deficiencies in accordance with the prudent measures required under the Act. Funds designated by the Board of Directors to function as endowments are classified as net assets without donor restrictions.

In accordance with the Act, the Organization considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- (1) The duration and preservation of the fund;
- (2) The purposes of the Organization and the donor-restricted endowment fund;
- (3) General economic conditions;
- (4) The possible effect of inflation and deflation;
- (5) The expected total return from income and the appreciation of investments;
- (6) Other resources of the Organization; and
- (7) The investment policies of the Organization.

Spending Policy

The Organization has a total return spending rate policy which limits the amount of investment income used to support current operations. The long-term target is to limit the use of the endowment to 4% of the moving average of the market value of the investments over the previous twelve quarters ending June 30 of the prior fiscal year. In 2021 and 2020, the Board of Directors approved an appropriation of \$45,003 and \$45,017, respectively, to support current operations.

Notes to Financial Statements

(With Comparative Totals for June 30, 2020)**

Return Objectives and Risk Parameters

The Organization has adopted investment policies, approved by the Board of Directors, for endowment assets that attempt to maintain the purchasing power of those endowment assets over the long term. Accordingly, the investment process seeks to achieve an after-cost total real rate of return, including investment income as well as capital appreciation, which exceeds the annual distribution with acceptable levels of risk. Endowment assets are invested in a well-diversified asset mix, which includes equity and debt securities, that is intended to result in a consistent inflation-protected rate of return that has sufficient liquidity to make an annual distribution of accumulated interest and dividend income to be reinvested or used as needed, while growing the funds if possible. Actual returns in any given year may vary from this amount. Investment risk is measured in terms of the total endowment fund; investment assets and allocation between asset classes and strategies are managed to reduce the exposure of the fund to unacceptable levels of risk.

Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or the Act requires the Organization to retain as a fund of perpetual duration. Deficiencies result from unfavorable market fluctuations that occurred shortly after the investment of new contributions with donor-imposed restrictions to be maintained in perpetuity and continued appropriation for certain programs that was deemed prudent by the Board of Directors. The Organization has a policy that permits spending from underwater endowment funds, unless specifically prohibited by the donor or relevant laws and regulations. Any deficiencies are reported in net assets with donor-imposed restrictions. There were no deficiencies of this nature as of June 30, 2021 and 2020.

11. Uncertainty

On March 11, 2020, the World Health Organization declared coronavirus disease (COVID-19) a global pandemic. Local, U.S., and world governments encouraged self-isolation to curtail the spread of COVID-19 by mandating the temporary shut-down of business in many sectors and imposing limitations on travel and the size and duration of group gatherings. Most sectors are experiencing disruption to business operations and may feel further impacts related to delayed government reimbursement. The Coronavirus Preparedness and Response Supplemental Appropriations Act of 2020 provides several relief measures to allow flexibility to providers to deliver critical care. There is unprecedented uncertainty surrounding the duration of the pandemic, its potential economic ramifications, and additional government actions to mitigate them. Accordingly, while management expects this matter to impact operating results, the related financial impact and duration cannot be reasonably estimated.

The U.S. government has responded with three phases of relief legislation, as a response to the COVID-19 outbreak. Recent legislation was enacted into law on March 27, 2020, called the Coronavirus Aid, Relief, and Economic Security Act (CARES Act), a statute to address the economic impact of the COVID-19 outbreak. The CARES Act, among other things, 1) authorizes emergency loans to distressed businesses by establishing, and providing funding for, forgivable bridge loans; 2) provides additional funding for grants and technical assistance; and 3) delays due dates for employer payroll taxes and estimated tax payments for organizations. Management has evaluated the impact of the CARES Act on the Organization, including its potential benefits and limitations that may result from additional funding.

During 2020, the Organization received \$2,048,300 under the CARES Act Paycheck Protection Program (PPP). The PPP has specific criteria for eligibility and provides for forgiveness of the funds under this program if the Organization meets certain requirements. In June 2021, the Organization received notice from the Small Business Administration and the lender that its PPP funds were forgiven. The revenue is separately reported in the statement of activities and changes in net assets during the year ended June 30, 2021.

The CARES Act also established the Provider Relief Funds (PRF) to support healthcare providers in the battle against the COVID-19 outbreak. The PRF is being administered by the U.S. Department of Health and Human Services. The Organization received PRF in the amount of \$149,673 during the year ended June 30, 2021. These funds are to be used for qualifying expenses and to cover lost revenue due to COVID-19. The PRF are recognized as income when qualifying expenditures have been incurred, or lost revenues have been identified. Management believes the Organization has met the conditions necessary to recognize the PRF funds included in other revenue in the statement of activities and changes in net assets.

During 2021, the Organization also received and recognized emergency grant funding under the CARES Act passed through the State of New Hampshire in the amount of approximately \$127,500 to help offset incremental costs related to the pandemic. This funding is commonly referred to as long-term care stabilization funds which are presented in other revenue in the statements of activities and changes in net assets.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Directors
The Community Council of Nashua, NH, Inc.
d/b/a Greater Nashua Mental Health

We have audited, in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of The Community Council of Nashua, NH, Inc. d/b/a Greater Nashua Mental Health (the Organization), which comprise the statement of financial position as of June 30, 2021, and the related statements of activities and changes in net assets, functional revenues and expenses, and cash flows for the year then ended, and the related notes to the financial statements and have issued our report thereon dated October 28, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Organization's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Organization's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Board of Directors
The Community Council of Nashua, NH, Inc.
d/b/a Greater Nashua Mental Health

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Organization's financial statements are free from material misstatement, we performed tests of their compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance for the Major Federal Program

We have audited The Community Council of Nashua, NH, Inc. d/b/a Greater Nashua Mental Health's (the Organization) compliance with the types of compliance requirements described in the Office of Management and Budget *Compliance Supplement* that could have a direct and material effect on its major federal program for the year ended June 30, 2021. The Organization's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for the Organization's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations*, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Organization's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance the major federal program. However, our audit does not provide a legal determination of the Organization's compliance.

Board of Directors

d/b/a Greater Nashua Mental Health

Opinion on the Major Federal Program

In our opinion, the Organization complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2021.

Report on Internal Control Over Compliance

Management of the Organization is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Organization's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

EXPLANATION

The purpose of this request is to continue providing evidence-based prevention services to children exposed to adverse childhood experiences as a result of opioid and/or stimulant misuse through Community-Based Adverse Childhood Experiences Crisis Teams.

Adverse childhood experiences, which may include experiencing violence, abuse or neglect while growing up in a household with substance use disorder problems or witnessing a drug overdose, have a tremendous impact on future drug misuse, negative health outcomes, and death on the children that are affected, according to the CDC-Kaiser Permanente Adverse Childhood Experiences Study.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
Page 2 of 2

Like many organizations, the COVID pandemic required the Community-Based Adverse Childhood Experiences Crisis Teams to adjust their strategies from on-site school activities to community stakeholder connections, such as trainings for local police and first responders in trauma-informed responses and interventions. Many substance use calls that these teams receive are connected with other adverse childhood experiences, such as sexual assault and domestic violence so a holistic look at trauma response has been a heavier focus.

Approximately 60 individuals will be served from September 30, 2021 to September 29, 2022.

The Contractors will continue to deploy Community-Based Adverse Childhood Experiences Crisis Teams who mobilize in instances of an overdose where children are present, with the ability to respond to crisis 24 hours per day, seven (7) days per week. Team members include police officers, crisis services advocates, and community health workers. Teams meet individuals in individuals' homes and in other community settings to assist with the crisis as it arises and complete screenings, crisis interventions and referrals for services and supports. The teams stabilize individuals as quickly as practicable and provide services for up to seven (7) days following the onset of the crisis.

The Department will continue collaborating with community partners and other state agencies to collect available data and additional data needed to identify outcomes. The Department will continue monitoring contracted services using the following tools and performance measures:

- Monthly statistical reports that show that, even with the impact of COVID-19 reducing availability of school-based activities, the Contractors met their previous goal of individuals served; and
- Satisfaction surveys to service providers with a minimum target of 95% satisfaction with services provided to clients.

As referenced in Exhibit C-1, Revisions to Standard Contract Language, Paragraph 2, Sub-Paragraph 2.1 of the original contracts, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for the remaining one (1) available year.

Should the Governor and Council not authorize this request, children within the community who are present during a drug overdose crisis, along with individuals battling an opioid and/or stimulant misuse issue may not have access to timely professional services and supports that concentrate on adverse childhood experiences, which could result in increased utilization of more costly future care to address the negative longer-term impacts.

Area served: Greater Manchester Community, Nashua and Hudson

Source of Funds: CFDA #93.786, FAIN #H79TI0818685, H79TI083326, and H79TI083326

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Shibinette
Commissioner

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the Department of Health and Human Services, Division for Behavioral Health, to **Retroactively** amend existing contracts with the vendors listed below to provide evidence-based prevention services for children up to age 18 who are exposed to adverse childhood experiences as a result of opioid misuse, by increasing the total price limitation by \$49,590.00 from \$600,000.00 to \$649,590.00 and by extending the completion dates from September 29, 2020 to September 29, 2021, effective retroactive to September 30, 2020 upon Governor and Council approval. 100% Federal Funds.

The original contracts were approved by Governor and Council on September 18, 2019, (Item #20A).

Vendor Name	Vendor Code	Area Served	Current Amount	Increase (Decrease)	Revised Amount
The Mental Health Center of Greater Manchester, Inc.	177184-B001	Greater Manchester Community	\$300,000.00	\$1,488.00	\$301,488.00
Greater Nashua Mental Health	154112-B001	Nashua and Hudson	\$300,000.00	\$48,102.00	348,102.00
Total:			\$600,000.00	\$49,590.00	\$649,590.00

Funds are available in the following accounts for State Fiscal Years 2021 with the authority to adjust budget line items within the price limitation and encumbrances between state fiscal years through the Budget Office, if needed and justified.

See attached fiscal details.

EXPLANATION

This request is **Retroactive** because the contractors continued providing services to ensure no lapse in client services. Because sufficient funds in State Fiscal Year 2021 were not available in the operating budget, and delays by the Substance Abuse and Mental Health Services Administration (SAMHSA) in approving New Hampshire's requests for continued State Opioid Response Grant funding, the efforts to add the state appropriations were deferred.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
Page 2 of 2

The purpose of this request is to continue providing evidence-based prevention services to children exposed to adverse childhood experiences as a result of opioid misuse through Community-Based Adverse Childhood Experiences Crisis Team projects.

Approximately 40 individuals will be served from September 30, 2020 through September 29, 2021.

The contractors will continue implementing teams that include safety professionals who can mobilize in cases of an overdose where children are present with the ability to respond to crisis twenty-four (24) hours per day, seven (7) days per week. The contractors will continue implementing Community-Based Adverse Childhood Experiences Crisis Teams that will be mobilized in cases of an overdose where children are present. Members of the teams include police officers, crisis services advocates and community health workers.

The contractors will continue meeting with individuals in their homes and in other natural environments and community settings to assist with the crisis as it arises to complete screenings, crisis interventions and referrals for services and supports. The teams work to stabilize individuals as quickly as practicable and provide services for up to seven (7) days following the onset of the crisis.

The Department will continue monitoring contracted services using the following tools and performance measures:

- Monthly statistical reports as outlined in Exhibit A of the Contract; and
- Satisfaction surveys to service providers with a minimum target of 95% satisfaction with services provided clients.

As referenced in Exhibit C-1, Revisions to Standard Contract Language, Paragraph 2, Sub-Paragraph 2.1 of the original contracts, the parties have the option to extend the agreements for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for one (1) of the two (2) years available.

Should the Governor and Executive Council not authorize this request, children within the community who are present during an overdose crisis along with individuals battling an opioid misuse issue may not have access to professional services and supports that concentrate on Adverse Childhood Experiences.

Area served: Greater Manchester Community, Nashua and Hudson.

Source of Funds: CDOA #93.788, FAIN #H79TI081685 and H79TI083326.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Shibillette
Commissioner

EXPLANATION

The purpose of this request is to provide evidence-based prevention services to children exposed to adverse childhood experiences as a result of opioid misuse through Community-Based Adverse Childhood Experiences Crisis Team projects.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
Page 2 of 3

Approximately 70 individuals will be served from September 2019 through September 2020.

The Contractors will implement teams that include safety professionals who can mobilize in cases of an overdose where children are present. Teams will be implemented within three (3) to six (6) months of the effective date of the contracts with the ability to respond to crisis twenty (24) hours per day, seven (7) days per week.

The Contractors will develop and implement Community-Based Adverse Childhood Experiences Crisis Teams that will be mobilized in cases of an overdose where children are present. Members of the teams include police officers, crisis services advocates and community health workers.

The Contractors will meet individuals in their homes and in other natural environments and community settings to assist with the crisis as it arises to complete screenings, crisis interventions and referrals for services and supports. The teams will work to stabilize individuals as quickly as practicable continue to provide services for up to seven (7) days following the onset of the crisis.

New Hampshire's State Opioid Response Grant projects use evidence-based methods to expand treatment, recovery and prevention services to individuals with Opioid Use Disorder in New Hampshire. In 2017, New Hampshire had 488 opioid-related deaths, 2,774 emergency Naloxone (Narcan) administrations, and 6,684 emergency department opioid related visits. New Hampshire is ranked as having the third highest overdose rate in the country at 39 individuals per 100,000 population.

The scope of services in these contracts was developed, in part, through a public comment forum that identified gaps in the prevention system aimed at addressing increased exposure to Adverse Childhood Experiences in children as a result of the state's opioid crisis.

As referenced in the Exhibit C-1 of these agreements, the parties have the option to extend contract services for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and approval of the Governor and Executive Council.

The Department will monitor the effectiveness of the Contractors and the delivery of services required under these agreements using the following performance measures:

- Monthly statistical reports as outlined in Exhibit A of the Contract;
- Satisfaction surveys to service providers with a minimum target of 95% satisfaction with services provided clients.

These two (2) vendors were selected for this project through a competitive bid process. A Request for Proposal was posted on the Department of Health and Human Services website from April 4, 2019 through April 30, 2019. The Department received three (3) proposals. The proposals were reviewed and scored by a team of individuals with program-specific knowledge. The Score Summary is attached.

Should the Governor and Executive Council not authorize this request, children within the community who are present during an overdose crisis along with individuals battling an opioid misuse issue may not have access to professional services, support and advocacy. Without these services, the State may not have the necessary tools in order to further combat the epidemic in New Hampshire.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council

SPECIAL PROVISIONS

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.
2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.
3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.
4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.
5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.
6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.
7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractor's costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
 - 7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;

 - 11.2. **Final Report:** A final report shall be submitted within thirty (30) days after the end of the term of this Contract. The Final Report shall be in a form satisfactory to the Department and shall contain a summary statement of progress toward goals and objectives stated in the Proposal and other information required by the Department.

If any governmental license or permit shall be required for the operation of the said facility or the performance of the said services, the Contractor will procure said license or permit, and will at all times comply with the terms and conditions of each such license or permit. 19. **Subcontractors:** DHHS recognizes that the Contractor may choose to use subcontractors with greater expertise to perform certain health care services or functions for efficiency or convenience, but the Contractor shall retain the responsibility and accountability for the function(s). Prior to subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

When the Contractor delegates a function to a subcontractor, the Contractor shall do the following:

- 19.1. Evaluate the prospective subcontractor's ability to perform the activities, before delegating the function
- 19.2. Have a written agreement with the subcontractor that specifies activities and reporting responsibilities and how sanctions/revocation will be managed if the subcontractor's performance is not adequate

AND OTHER RESPONSIBILITY MATTERS**

The Vendor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

Information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
- 11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
 - 11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

 - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:
