EXPLANATION

This course, Risk Management & Mitigation in System Design, will benefit the Department and Mr. Runyon as it will further develop his knowledge of risk management and mitigation. This course identifies resources on legal, cultural, and internal requirements to assess the impact of those factors on the organization's information technology (IT) environment and systems design. Mr. Runyon will learn industry best practices in order to analyze and develop risk analyses, mitigation plans, and communications to inform stakeholders, allowing him to develop the skills necessary to assist with issues that require a higher level of expertise. This knowledge will be invaluable as he continues his career in Information Technology within New Hampshire Hospital.

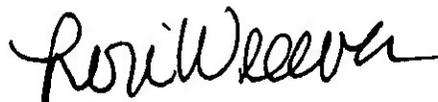

Shaun Runyon has worked for the Department of Health and Human Services, New Hampshire Hospital for ten (10) years. He is currently an Electronic Health Record (EHR) Program Specialist III in the Information Systems Division. Prior to that he worked as a Medical Records Technician for eight (8) years. As an EHR Program Specialist Mr. Runyon provides oversight and supervision of all electronic processes related to the EHR system, including record processing functions and electronic master patient index. He analyzes and interprets information; reviews and corrects data integrity problems; generates routine reports as to status of interfaces, and turnaround times as requested; and provides monthly and quarterly data analysis reports to the Information Systems Director as required. Mr. Runyon also reviews, corrects, and analyzes data received from various functions performed by record processing, including Electronic Master Patient Index (EMPI). He works closely with all departments of the hospital to solve issues arising from inaccurate patient data, and is a resource for physicians and other clinical and non-clinical staff who need training and support with electronic documentation issues.

The Department of Health and Human Services encourages and supports employees who wish to further their professional growth through continuing education in disciplines that are mutually advantageous. Successful completion of the courses will add to the overall strength of the Department to perform its mission to the residents of New Hampshire.

This course will not be taken on State time.

Attached is a fully executed Tuition Agreement for your review.

Respectfully submitted,

Lori A. Weaver
Interim Commissioner
