His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the Department of Health and Human Services, Division for Behavioral Health, to enter into a **Sole Source** amendment to an existing cooperative project agreement with University of New Hampshire (VC#177867-B046), Durham, NH 03824 for the continued provision of a substance use disorder workforce development plan, by increasing the price limitation by \$285,000 from \$1,229,435 to \$1,514,435 and by extending the completion date from March 14, 2023 to June 30, 2024, effective March 14, 2023 upon Governor and Council approval. 100% Federal Funds.

The original contract was approved by Governor and Council on June 6, 2018, item #19, amended on February 17, 2021, item #16, and most recently amended on May 4, 2022, item #13.

Funds are available in the following accounts for State Fiscal Year 2023, and are anticipated to be available in State Fiscal Year 2024, upon the availability and continued appropriation of funds in the future operating budget, with the authority to adjust budget line items within the price limitation and encumbrances between state fiscal years through the Budget Office, if needed and justified.

See attached fiscal details.

EXPLANATION

This request is **Sole Source** because the Department is seeking to extend the contract beyond the completion date and there are no renewal options available. Part of this request includes State Opioid Response (SOR) funding to build upon and complete work began by the Contractor that can only be expended through September 2023. Additionally, the Department is strategically allocating funds, which are available through June 30, 2024, through the Governor's Office For Emergency Relief and Recovery (GOFERR) to enable the continued support and advancement of the Governor's Commission on Alcohol and Other Drugs' Stimulant Task Force recommendations around prevention, treatment and recovery. The original contract was created through a competitive bid process in June 2018 to support the workforce requirements of DHHS' State Youth Treatment Implementation (SYTI) Grant through SAMHSA (Substance Abuse and Mental Health Services Administration). The Contractor is uniquely experienced and qualified to support these services within the preset time constraints of the SOR grant and are uniquely positioned for the expansion of services through GOFERR.

The purpose of this request is for the Contractor to continue expanding access to substance use treatment services for youth and young adults by increasing the state infrastructure to improve workforce development; streamlining funding policies; implementing identified evidence-based practices; and providing access to direct services for youth and young adults. The Contractor will continue supporting Creating Connections NH (CCNH), the only program in the state for 12-25 year olds with substance use disorder and co-occurring mental health disorder (SUD/COD) to receive treatment with the evidence-based practice; The Seven Challenges, which continues to be in high demand at 12 treatment sites, including six (6) Community Mental Health Centers; establishment of Alternative Peer Groups; and ongoing coaching and technical assistance. The Contractor will continue providing training and technical assistance to six (6) treatment provider sites focused on Substance Use Disorder and Substance Use Disorder with Co-Occurring Disorders.

Approximately 150 individuals will be served during State Fiscal Years 2023 and 2024.

The Contractor will continue creating and implementing a research-based screening tool and assessment; research-based treatment and services consistent with the System of Care values; and research-based peer-to-peer recovery support services that incorporate Recovery Coaching, Family Support groups, and Youth Peer Support and Alternative Peer Groups.

The Department will continue to monitor services by reviewing the monthly, quarterly, and annual reports submitted by the Contractor.

Should the Governor and Council not authorize this request, children and young people with Stimulant Use Disorders, in need of treatment and recovery supports may have reduced access to services which increases the likelihood of having to be placed on a waitlist to access care. Research shows that wait times increase the risk of negative health consequences including overdoses both fatal and non-fatal. Any delay in receiving treatment is not high quality healthcare and not only impacts the individual, but has potential consequences for families and communities as well, such as increase in homelessness, unemployment, and incarceration.

Area served: Statewide

Source of Federal Funds: Assistance Listing Number #93.788, FAIN #H79T1085759

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Weaver
Interim Commissioner

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the Department of Health and Human Services, Division for Behavioral Health, to enter into a Retroactive, Sole Source amendment to an existing cooperative project agreement with University of New Hampshire (VC#177867-B046), Durham, NH 03824 for the continued provision of a substance use disorder workforce development plan, by increasing the price limitation by \$425,592 from \$803,843 to \$1,229,435 and by extending the completion date from September 29, 2021, to March 14, 2023, effective retroactive to September 29, 2021, upon Governor and Council approval. 100% Federal Funds.

The original contract was approved by Governor and Council on June 6, 2018, Item #19 and most recently amended with Governor and Council approval on February 17, 2021, Item #16.

Funds are available in the following accounts for State Fiscal Years 2022 and 2023, with the authority to adjust budget line items within the price limitation and encumbrances between state fiscal years through the Budget Office, if needed and justified.

See attached fiscal details.

EXPLANATION

This request is Retroactive because the Department was notified by the Federal awarding agency of the ability to expend funds beyond the original contract completion date after the contract already expired. Once notified about the ability to continue to expend funds, the Department needed additional time to review and modify the contract to ensure all State Opioid Response (SOR) requirements were included. The amendment was further delayed when Supplemental Substance Use Disorder (SUD) Block Grant funding was identified for this scope of work in January 2022 and added to the contract. The addition of the SUD Block Grant funding provides an opportunity to solidify and expand the number of treatment sites using The Seven Challenges evidenced-based practice, while strengthening and expanding the four (4) established Alternative Peer Groups for adolescent recovery.

This request is Sole Source because the Department is seeking to extend the contract approximately 18 months beyond the completion date and only 12 months of renewal are available. Part of this request includes funding to build upon and complete work began by the Contractor that can only be expended through September 2022. Given the limited timeframe, the Department would not be able to re-procure for those services. Additionally, the Connection Connects NH (CCNH) program is the only program in the state for 12-25 year olds with substance use disorder and co-occurring mental health disorder (SUD/COD) to receive treatment with the

evidence-based practices (EBP), including The Seven Challenges. The Contractor therefore is uniquely experienced and qualified to support these services, which continue to be in high demand service at six (6) sites, including five (5) Community Mental Health Centers.

The purpose of this request is for the Contractor to continue expanding access to substance use treatment services for youth and young adults by increasing the state infrastructure to improve workforce development; streamlining funding policies; implementing identified evidence-based practices; and providing access to direct services for youth and young adults. The Contractor will continue providing training and technical assistance to six (6) treatment provider sites focused on Substance Use Disorder and Substance Use Disorder with Co-Occurring Disorders.

Approximately 100 individuals will be served during State Fiscal Years 2022 and 2023.

The Contractor will continue creating and implementing a research-based screening tool and assessment; research-based treatment and services consistent with the System of Care values; and research-based peer-to-peer recovery support services that incorporate Recovery Coaching, Family Support groups, and Youth Peer Support and Alternative Peer Groups.

The Department will monitor services by reviewing the monthly, quarterly, and annual reports submitted by the Contractor.

As referenced in Exhibit A, Item B, Project Period of the original Cooperative Project Agreement, the parties have the option to extend the agreement for up to 12 months, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is seeking to extend the contract for 18 months and only 12 months are available.

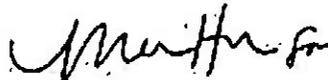

Should the Governor and Council not authorize this request, the infrastructure of the Continuum of Care for youth may be jeopardized, which may result in the Department not being in compliance with RSA 135:F Children's System of Care law. Furthermore, a reduction of these essential services at a time when the volume of substance misuse is on the rise among youth and young adults due to the negative ripple effects of the COVID-19 pandemic, leaves these individuals at a higher risk of continued use of dangerous substances and/or relapse, resulting in increased mental health symptoms and possible loss of life.

Area served: Statewide

Source of Federal Funds: Assistance Listing Number #93.768, FAIN #H79T1083328

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Shibinette
Commissioner

EXPLANATION

This request is Retroactive because the contract review and approval process took longer than anticipated. This request is Sole Source because MOP 150 requires any amendments that increase the original price limitation by more than 10% to be labelled as sole source.

The purpose of this request is to expand access to substance use treatment services for youth and young adults by increasing the state infrastructure to improve workforce development; streamlining funding policies; implementing identified Evidence Based Practices; and providing access to direct services for youth and young adults. The Contractor will be providing training and technical assistance to three additional substance use treatment sites for youth.

The Contractor will create and implement a research-based screening tool and assessment; research-based treatment and services consistent with the System of Care values; and research-based peer-to-peer recovery support services that incorporate Recovery Coaching, Family Support groups, and Youth Peer Support and Alternative Peer Groups.

The Department will monitor contracted services by reviewing:

- Monthly reporting that identifies program activities, barriers and progress toward training implementation.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
Page 3 of 3

- Quarterly reporting on de-identified client data that includes treatment program attendance; individual life plan and safety plan development and implementation rates, in addition to individual engagement.
- Annual reporting that includes a workforce development map indicating types and locations of treatment available to youth and transitional youth.

As referenced in Item B, Project Period of the original Cooperative Project Agreement, the parties have the option to extend the agreement for up to one (1) additional year, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is not exercising its option to renew at this time.

Should the Governor and Council not authorize this request, the infrastructure of the Continuum of Care for youth may be jeopardized, which may result in a reduction of services that are available to adolescents and transitional aged youth with Substance Use Disorder, including Opioid Use Disorder. Without the ability to provide these services, youth are at a higher risk of relapse and/or continued use of dangerous substances resulting in poor educational outcomes, criminal activity, increased mental health symptoms and possible loss of life with untreated Opioid Use Disorder.

Source of Funds: CFDA# 93.243, FAIN# H79TI080192, CFDA# 93.788, FAIN #6H79TI081685-02M003

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Shibinette
Commissioner

Dear Ms. Nisbet:

A negotiation agreement is being faxed to you for signature. This agreement reflects an understanding reached between your institution and a member of my staff concerning the rates or amounts that may be used to support your claim for costs on grants and contracts with the Federal Government. The agreement must be signed by a duly authorized representative of your institution and emailed to me; retain a copy for your file. Our email address is cas-ny@psc.hhs.gov. We will reproduce and distribute the agreement to awarding agencies of the Federal Government for their use.

Requirements for adjustments to costs claimed under Federal Grants and Contracts resulting from this negotiation are dependent upon the type of rate contained in the negotiation agreement. Information relating to these requirements is enclosed.

In consideration of this agreement, the following was agreed to:

1. A carry-forward under-recovery of \$15,139,276 resulted from the settlement of the full fringe benefit rate for the fiscal year ended June 30, 2016. This will be evenly split between fiscal years ending June 30, 2018 and 2019. The carry-forward amount of \$7,569,638 must be included in your fringe benefit rate proposals based on actual expenses for fiscal years ending June 30, 2018 and 2019.
2. The carry-forward under-recovery of \$295 resulting from the settlement of the partial fringe benefit rate for fiscal year ended June 30, 2016 was considered in establishing the fixed rate for fiscal year ending June 30, 2018. The carry-forward must be included in your fringe benefit rate proposal based on actual expenses for fiscal year ending June 30, 2018.

SECTION III: GENERAL

A. LIMITATIONS:

The rates in this Agreement are subject to any statutory or administrative limitations and apply to a given grant, contract or other agreement only to the extent that funds are available. Acceptance of the rates is subject to the following conditions: (1) Only costs incurred by the organization were included in its facilities and administrative cost pools as finally accepted; such costs are legal obligations of the organization and are allowable under the governing cost principles; (2) The same costs that have been treated as facilities and administrative costs are not claimed as direct costs; (3) Similar types of costs have been accorded consistent accounting treatment; and (4) The information provided by the organization which was used to establish the rates is not later found to be materially incomplete or inaccurate by the Federal Government. In such situations the rates would be subject to renegotiation at the discretion of the Federal Government.

B. ACCOUNTING CHANGES:

This Agreement is based on the accounting system purported by the organization to be in effect during the Agreement period. Changes to the method of accounting for costs which affect the amount of reimbursement resulting from the use of this Agreement require prior approval of the authorized representative of the cognizant agency. Such changes include, but are not limited to, changes in the charging of a particular type of cost from facilities and administrative to direct. Failure to obtain approval may result in cost disallowances.

C. FIXED RATES:

If a fixed rate is in this Agreement, it is based on an estimate of the costs for the period covered by the rate. When the actual costs for this period are determined, an adjustment will be made to a rate of a future period to compensate for the difference between the costs used to establish the fixed rate and actual costs.

D. USE BY OTHER FEDERAL AGENCIES:

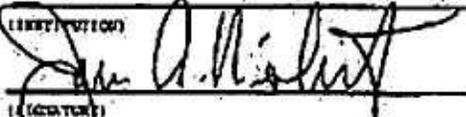

The rates in this Agreement were approved in accordance with the authority in Title 3 of the Code of Federal Regulations, Part 300.43 CFR 200, and should be applied to grants, contracts and other agreements covered by 3 CFR 200, subject to any limitations in A above. The organization may provide copies of this Agreement to other Federal Agencies to give them early notification of the Agreement.

E. OTHER:

If any Federal contract, grant or other agreement is reimbursing facilities and administrative costs by a means other than the approved rates in this Agreement, the organization should (1) credit such costs to the affected programs, and (2) apply the approved rates to the appropriate base to identify the proper amount of facilities and administrative costs allocable to these programs.
