EXPLANATION

This request is **Sole Source** because the Contractor is the only organization that possesses the required qualifications of being Evidence-Based, Administration for Community Living (ACL) accredited and approved by the Centers for Medicare and Medicaid Services (CMS) for caregiver-assessment purposes. The Contractor's Evidence-Based predictive technology, Tailored Caregiver Assessment and Referral, known as TCARE, is a research-based, proprietary model that is utilized in 56 states and territories. TCARE uses scientifically-validated algorithms to create an individualized care plan, which has proven to reduce burnout of caregivers and allows those they care for to age in place.

The purpose of this request is to increase supports to family caregivers through the NH Family Caregiver Support Program. The TCARE system is a care management protocol designed to support family members who are providing care to adults (family caregivers) with chronic or acute health conditions. The comprehensive system includes software, assessment tools, decision algorithms, and a training and technical assistance program. The TCARE protocol is designed to tailor services to the unique needs of each caregiver, in an effort to reduce the adverse physical and emotional impacts associated with caregiving (depression, stress, financial concerns, relationship impacts). TCARE provides a consistent, objective, and reliable screening and assessment process that identifies at-risk family caregivers and then provides resources and follow up to determine whether support and services are making a measurable difference.

Approximately 525 individuals will be served annually.

As referenced in Exhibit A, Special Provisions of the attached agreement, the parties have the option to extend the agreement for up four (4) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval.

Should the Governor and Council not authorize this request then the NH Family Caregiver Support Program will not have the tools to conduct and utilize evidence based assessments which will impact the ability for the NH Family Caregiver Support Program to make appropriate and timely referrals that can result in a reduction of stress and burnout for families who want to age in place within their community.

Area served: Statewide.

Source of Federal Funds: Assistance Listing Number #93.044, FAIN #2101NHSSC6-00 (ARP TIII-B), Assistance Listing Number 93.052, FAIN #231NHOAFC (Title III E).

In the event that the Federal Funds become no longer available, additional General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Weaver
Interim Commissioner

EXHIBIT B – STATEMENT OF WORK (SOW) BUSINESS AND TECHNICAL REQUIREMENTS AND DELIVERABLES

The Statement of Work, Business and Technical Requirements, and Deliverables are set forth below:

1. STATEMENT OF WORK

1.1. Project Overview

The NH Family Caregiver Support Program has the requirement for an assessment tool to assist in determining the needs of family caregivers. The Tailored Caregiver Assessment and Referral (TCARE) system is a care management protocol designed to support family members who are providing care to adults (family caregivers) with chronic or acute health conditions. The TCARE protocol is designed to tailor services to the unique needs of each caregiver, thereby reducing depression and burdens (i.e., objective, relationship, and stress burdens) associated with caregiving. TCARE provides a consistent, objective, and reliable screening and assessment process that identifies at-risk caregivers and allows care managers to target resources to those most in need and determine whether support and services are making a measurable difference to caregivers. TCARE also helps inform policy through the collection of statewide data.

TCARE is the only evidence-based, Administration for Community Living accredited, and Centers for Medicare and Medicaid Services approved Family Caregiver Support Program assessment. Its use has been shown to reduce family caregiver burnout and delay nursing home placement.

1.2. Deliverables

- 1.2.1. The Contractor must provide and host the proprietary Tailored Caregiver Assessment and Referral (TCARE) Platform as a Service for NH Family Caregiver Program use.
- 1.2.2. The Contractor must provide fifteen (15) licenses for TCARE to the Department. Two (2) of these licenses will provide direct access to TCARE and translate the TCARE platform functionality into other non-English TCARE standard languages. Languages shall include but are not limited to:

 - 1.2.2.2 French.
 - 1.2.2.3 Arabic.

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
