EXPLANATION

Exotic aquatic plants have been a problem in the above-listed waterbodies for several years. NHDES grant funds in the amounts outlined in the table above are earmarked for management activities to control these exotic aquatic plants in 2023. The primary purpose of New Hampshire's Exotic Aquatic Plant Program is to prevent the introduction and further dispersal of exotic aquatic weeds and to manage or eradicate exotic aquatic weed infestations in the surface waters of the state (RSA 487:17, II). The program, initiated in 1981, has five focus areas: 1) Prevention of new infestations; 2) Monitoring for early detection of new infestations to facilitate rapid control activities; 3) Control of new and established infestations; 4) Research towards new control methods with the goal of reducing or eliminating infested areas; and 5) Regional cooperation.

NHDES received 51 requests for funding to control exotic aquatic plant growth in 2023. Please refer to Attachment B for a listing of projects that are identified to receive funding.

These grant agreements are with entities that are receiving state funds through other grants or contracts; thus, they are over the \$10,00 limit, and need Governor and Council approval. These agreements have been approved by the Office of the Attorney General as to form, execution, and content.

We respectfully request your approval.

Robert R. Scott, Commissioner
