EXPLANATION

Exotic aquatic plants have been a problem in the above-listed waterbodies for several years. NHDES grant funds in the amounts outlined in the table above are earmarked for management activities to control these exotic aquatic plants in 2023. The primary purpose of New Hampshire's Exotic Aquatic Plant Program is to prevent the introduction and further dispersal of exotic aquatic weeds and to manage or eradicate exotic aquatic weed infestations in the surface waters of the state (RSA 487:17, II). The program, initiated in 1981, has five focus areas: 1) Prevention of new infestations; 2) Monitoring for early detection of new infestations to facilitate rapid control activities; 3) Control of new and established infestations; 4) Research towards new control methods with the goal of reducing or eliminating infested areas; and 5) Regional cooperation.

- 12.3. In the event of Termination under paragraphs 10 or 12.4 of these general provisions, the approval of such a Termination Report by the State shall in no event relieve the Grantee from any and all liability for damages sustained or incurred by the State as a result of the Grantee's breach of its obligations hereunder.
