EXPLANATION

This request is **Sole Source** because the Department is seeking to extend the contract beyond the completion date and there are no renewal options available and add funding in response to a funding directive from the Governor's Commission on Alcohol and Other Drugs. In accordance with RSA 12-J, the Department carries out the administrative functions of the Commission. The Governor's Commission on Alcohol and Other Drugs (Commission) recommended and approved the funding allocation on February 10, 2023.

The purpose of this request is to continue providing community coalition building programming to reduce and prevent substance misuse among youth in the Greater Dover region. The Contractor will continue to support operations for existing community-based prevention coalitions adhering to best practice standards and continue using the prevention planning model called the Strategic Prevention Framework to implement and expand evidence-based and promising practices and policies in Strafford County.

Approximately 4,200 youth and 1,600 adults will be served during State Fiscal Year 2024.

The New Hampshire Youth Risk Behavior Surveillance Survey (YRBS) data in the Seacoast region demonstrates a high need for prevention efforts to reduce and prevent the use of electronic nicotine delivery system (ENDS) products, and as a result the Contractor has identified this issue as a priority local substance misuse problem. The Contractor will continue to increase capacity-building efforts by working with multiple sectors within their community to raise awareness of the increased use of electronic nicotine delivery system products; updating curriculum and substance misuse school district disciplinary policies targeted at reducing and preventing the use of electronic nicotine delivery system devices; updating ordinances related to electronic nicotine delivery system products; and engaging electronic nicotine delivery system.

The Department will monitor services by reviewing quarterly reports submitted by the Contractor and conducting bi-annual site visits to ensure all deliverables are being achieved.

Should the Governor and Council not authorize this request youth in the Dover area will not have targeted prevention programming to prevent and reduce the progression of the use of electronic nicotine delivery system products, which may result in further rates of product misuse among youth.

Area served: Strafford County.

Source of Funds: 100% Other Funds (Governor's Commission Funds).

In the event that the Other Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Weaver
Interim Commissioner

EXPLANATION

The Department is seeking to extend the contract beyond the completion date and available renewal options in response to a funding directive from the Governor's Commission on Alcohol and Other Drugs to continue to support services provided through this contract.

The purpose of this request is to continue g community supports to reduce and prevent substance misuse among children and youth. The Contractor will support operations for existing community-based prevention coalitions adhering to best practice standards and continue using the prevention planning model called the Strategic Prevention Framework (SPF) to implement and expand evidence-based and promising practices and policies in Strafford County.

Approximately 4,200 individuals will be served during State Fiscal Year 2023.

The New Hampshire Youth Risk Behavior Surveillance Survey (YRBS) data in the Seacoast region demonstrates a high need for prevention efforts to reduce and prevent the use of electronic nicotine delivery system (ENDS) products, and as a result the Contractor has identified this issue as a priority local substance misuse problem. As part of its implementation of the SPF strategy, the Contractor will continue increased capacity- building efforts by working with multiple sectors within their community to raise specific awareness of the increased use of ENDS products; updating curriculum and substance misuse school district disciplinary policies targeted at reducing and preventing the use of ENDS devices; updating ordinances related to ENDS products; and engaging ENDS products retailers to change marketing practices that target adolescents.

The Department will monitor services by reviewing quarterly reports submitted by the Contractor and conducting bi-annual site visits to ensure all deliverables are being achieved.

Should the Governor and Council not authorize this request, youth in the Dover area will not have targeted prevention programming to prevent and reduce the progression of the use of ENDS products. This may result in further rates of ENDS product misuse among youth which may lead to chronic lifetime illnesses.
