REQUESTED ACTION

Authorize the Department of Environmental Services (NHDES) to **RETROACTIVELY** award a grant to the Rolling Ridge Water Association (VC# 439654-B001), Bartlett, NH, in the amount of \$10,000 for a drinking water consolidation study under the provisions of RSA 485:F, effective as of October 9, 2022 through June 30, 2023, upon Governor & Council approval. 100% Drinking Water and Groundwater Trust Fund.

Funding is available in the following account:

Dept. Environmental Services, Drinking Water and Groundwater Trust Fund, Grants Non-Federal	

EXPLANATION

We are requesting **RETROACTIVE** approval of this grant request. Rolling Ridge Water Association (Rolling Ridge) was approved for \$10,000 drinking water consolidation study grant on October 9, 2022, and prematurely conducted the feasibility study prior to the completion of grant application process. The Rolling Ridge did not confirm with NHDES their acceptance of the awarded grant until March 2, 2023. Upon confirmation, NHDES drafted grant documents and sent them to the recipient on March 13, 2023. Unfortunately, NHDES did not receive the signed documents back until May 11, 2023. In the interim, Rolling Ridge completed the feasibility study and submitted it to NHDES on April 10, 2023. Rolling Ridge did the study early in order to include the engineering design in their Drinking Water State Revolving Fund (DWSRF) loan application due on June 1, 2023.

In 2021, the Drinking Water and Groundwater Advisory Commission awarded \$200,000 to NHDES to create the Consolidation Study Assistance program. The program provides grants to public water systems to conduct a feasibility study to evaluate the cost-effectiveness of interconnecting to a larger community water system to address a drinking water exceedance of a maximum contaminant level (MCL) or Ambient Groundwater Quality Standard (AGQS). The feasibility study is intended to assist small public water systems in making informed decisions regarding the best long-term options for maintaining safe, reliable drinking water for their users.

His Excellency, Governor Christopher T. Sununu
And the Honorable Council
Page 2 of 2

Rolling Ridge Water Association used this grant to evaluate the capital and long-term costs associated with interconnection to the Lower Bartlett Water Precinct to address fluoride and Beryllium levels over MCL. The consolidation study included both capital and 20-year present worth operation and maintenance costs.

In the event that these funds become no longer available, General funds will not be requested to support this project. This agreement has been approved by the Attorney General's Office as to form, substance and execution.

We respectfully request your approval of this item.

Robert R. Scott, Commissioner
