EXPLANATION

The County of Cheshire has been awarded Federal Transit Administration (FTA) Section 5310 Enhanced Mobility of Seniors and Individuals with Disabilities (Section 5310) program funds in the amount of \$490,600 to provide expanded transportation services in the Region 5 Monadnock Regional Coordinating Council (RCC) service area.

FTA Section 5310 funds support eligible activities including operating, capital, mobility management, and volunteer driver programs.

The Department's proposed SFY 2024 and 2025 operating budget includes funds from the FTA Section 5310 Enhanced Mobility of Seniors and Individuals with Disabilities (Section 5310) that provides funds for capital, contracted services, and mobility management for seniors and individuals with disabilities in New Hampshire.

The County of Cheshire will act as the lead agency to facilitate the provision of accessible demand response transportation services for seniors and individuals with disabilities within the region and will

support mobility management and strategic planning activities in cooperation with the Region 5 Monadnock Regional Coordinating Council.

The Section 5310 RCC funds were allocated by region according to a formula based on regional populations of residents over 65 and those between the ages of 5-64 with disabilities. Each individual RCC was responsible for conducting its own project solicitation, evaluation, and prioritization and then submitting one regional application for eligible Section 5310 RCC projects through an approved lead agency. The Monadnock RCC designated the County of Cheshire as the lead agency for Region 5 and tasked the County of Cheshire with applying for Section 5310 RCC funds on behalf of Region 5. As required by FTA, all projects are identified in a locally developed coordinated public transit-human services transportation plan.

The County of Cheshire, in conjunction with its regional partners as applicable, will provide the required non-federal matching funds. In the event that Federal Funds become unavailable, general funds will not be requested to support this program.

The Agreement has been approved by the Attorney General as to form and execution and the Department will verify the necessary funds are available pending enactment of the Fiscal Year 2024 and 2025 budget. Copies of the fully executed Agreement are on file at the Secretary of State's Office and the Department of Administrative Services, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

Your approval of this resolution is respectfully requested.

Sincerely,

A handwritten signature in black ink, appearing to read "William Cass". The signature is fluid and cursive, written in a professional style.

INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners
County of Cheshire, New Hampshire

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the County of Cheshire, New Hampshire (the County), as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the County of Cheshire, New Hampshire, as of December 31, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and

therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of changes in the County's proportionate share of the net OPEB liability, schedule of County OPEB contributions, schedule of changes in the County's total OPEB liability and related ratios, schedule of changes in the County's proportionate share of the net pension liability, and schedule of County pension contributions on pages i-x and 39-46 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated May 17, 2022 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County of Cheshire, New Hampshire's internal control over financial reporting and compliance.

CHESHIRE COUNTY, NEW HAMPSHIRE MANAGEMENT'S DISCUSSION & ANALYSIS

The discussion and analysis of Cheshire County's financial performance provides an overview of the County's financial activities for the year ended December 31, 2021. The intent of this discussion and analysis is to look at the County's financial performance as a whole.

FINANCIAL HIGHLIGHTS

Key financial highlights for 2021 are as follows:

- The County's net position for year-end was \$24,762,139 an increase of \$8,653,098 which represents a 53.72% increase over the 2020 net position of \$16,109,041. The major increase is due to ARPA funds that are being invested in capital assets as well as in increase in the Counties self-funded insurance plan.
- At the end of the current year, the County's governmental funds reported a combined ending fund balance of \$21,823,007 an increase of \$4,415,767 from the prior year balance of \$17,407,240. Of this amount, \$15,888,316 is available for spending (unassigned).
- At the end of the current year, unassigned fund balance for the General Fund was \$15,888,316, which represents a 31.32% increase from the prior year balance of \$12,098,539.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of a series of financial statements. These statements are organized so the reader can understand the County as a financial whole or as an entire operating entity. The statements also provide a detailed look at specific financial conditions.

The County's basic financial statements are comprised of three components:

1. Government-wide financial statements
2. Fund financial statements
3. Notes to the financial statements.

This report also contains other supplementary information in addition to the basic financial statements themselves.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The Government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

STATEMENT OF NET POSITION AND STATEMENT OF ACTIVITIES

The statement of net position presents information on all of the County's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the balance reported as net position. The statement of activities presents information showing how the County's net position changed during the current year. These statements are prepared using the accrual basis of accounting similar to the accounting method used by private sector companies. This basis of accounting takes into consideration all of the current year's revenues and expenses, regardless of when the cash is received or paid.

CHESHIRE COUNTY, NEW HAMPSHIRE MANAGEMENT'S DISCUSSION & ANALYSIS

The change in net position is important because it tells the reader whether, for the County as a whole, the financial position of the County has improved or diminished. However, in evaluating the overall position of the County, non-financial information such as changes in the County's tax base and the condition of the County's capital assets will also need to be evaluated.

In the statement of net position and the statement of activities, the County is presented as one activity:

- **Governmental Activities**—All of the County's programs and services are reported here, including General Government, Public Safety, Human Services/Medicaid Expenses, Assisted Living Facility, Conservation and Economic Development as well as the County Nursing Home. These services are funded primarily by taxes and intergovernmental revenues, including federal and state grants and other shared revenues. The Nursing Home does generate revenue in charges for services but does require funding by taxes as well.

FUND FINANCIAL STATEMENTS

A fund is a grouping of related accounts that is used to maintain controls over resources that have been segregated for specific activities or objects. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. The funds of Cheshire County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. Fund financial statements provide detailed information about the County's major funds. Based on the restriction on the use of moneys, the County has established many funds that account for the multitude of services provided to our residents. In 2021, the County has determined the General Fund and American Rescue Plan (ARPA) Fund to be major governmental funds.

GOVERNMENTAL FUNDS—Governmental funds are used to account for essentially the same functions reported as governmental activities on the government wide financial statements. Most of the County's basic services are reported in these funds that focus on how money flows into and out of the funds and the year-end balances available for spending. These funds are reported on the modified accrual basis of accounting that measures cash and all other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the County's general government operations and the basic services being provided, along with the financial resources available.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities on the government wide financial statements. By doing so, readers may better understand the long-term effect of the government's short term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The County maintains a multitude of individual governmental funds. Information is presented separately on the governmental fund balance sheet and on the governmental fund statement of revenues, expenditures, and changes in fund balances for the major funds, identified earlier as the General Fund and ARPA Fund. Data from the other governmental funds, which includes Hemenway Fund, Deeds Surcharge, Sheriff's Forfeiture Fund and Civil Processing, Jail Canteen, Court House

**CHESHIRE COUNTY, NEW HAMPSHIRE
MANAGEMENT'S DISCUSSION & ANALYSIS**

Restoration Fund, CDBG Fund, Opiate Trust Fund, Maplewood Capital Fund, Energy Upgrade and Grant Funds are combined into a single, aggregated presentation.

PROPRIETARY FUNDS—The County has one proprietary fund. The County uses an internal service fund for its self-funded Health and Dental Insurance account.

FIDUCIARY FUNDS—Fiduciary funds are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are not reflected on the government-wide financial statements because the resources from those funds are not available to support the County's programs. The accounting method used for fiduciary funds is much like that used for the proprietary funds. The County's custodial funds account for the Registry of Deeds, Nursing Home Resident Funds and the Jail Inmate funds.

NOTES TO THE FINANCIAL STATEMENTS—The notes provide additional information that is essential to gaining a full understanding of the data provided on the government-wide and fund financial statements.

OTHER INFORMATION—In addition to the basic financial statements and accompanying notes, this report presents the General Fund's actual revenues and expenditures as compared to the legally adopted budget.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Total net position is presented in three categories: net investment in capital assets, restricted and unrestricted.

The largest portion of the County's net position is related to capital assets (e.g., land and improvements, buildings and building improvements, machinery and equipment, vehicles, and infrastructure). The figure presented, \$28,495,685, is net of any related debt incurred to acquire those assets. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

An additional portion of the County's net position, \$458,250, represents resources that are subject to restrictions on how they can be used. For Cheshire County, those restrictions include those related to limitations imposed by statutes governed by the State of New Hampshire, grants and restricted donations.

The remaining portion (-\$4,191,796) resulted in an increase of \$6,577,548 over 2020 of (-\$10,769,344).

The next statement provided shows the changes in the net position for 2020 and 2021.

Governmental Activities

Charges to users of governmental services made up \$15,953,275 or 26.01% of total government revenues and include such services as provided by the Nursing Home, Sheriff's Department, Department of Corrections, Registry of Deeds, Assisted Living Apartments and Connected Families. Additionally, the County receives revenue from operating grants and other contributions. In 2021, this totaled \$14,883,785 or 24.27% of total government revenue. Operating grants are used to fund expenses associated with programs such as the Domestic Violence Prosecutor, the Victim Witness Program and the Regional Prosecutor Program, Drug Court and Connected Families. Other contributions included in the amount are grants for Public Health initiatives as well as Pro Share Funds and MQIP receipts to support Maplewood Nursing Home.

In 2021, the County was the recipient of COVID funding from the Cares Act as well as an indirect allocation of COVID funding from the State of New Hampshire. Additionally, Cheshire County received a direct allocation of American Rescue Plan Funds. The major impact in the operating grants and contributions is attributed to the ARPA funds received and allocated in 2021.

Property tax revenues are the County's largest revenue, accounting for \$28,718,371 or 46.83% of total government revenues. As noted previously, the County is able to recover some of its expenses through user charges, however, a great deal of County operations do not have revenue sources sufficient or available to meet their expenses and as a result are funded by Property Taxes.

One of the largest expenses funded through the assessment of taxes is associated with the obligation towards the Human Service Medicaid Expenses. This area is responsible for paying the County's share of funding for those Cheshire County residents needing Medicaid assistance. As of July 1, 2008, the County took on 100% of the non-federal share for residents in Long Term Care Facilities and for County residents receiving their care at home (Choices for Independence). As a result, the State of New Hampshire took over 100% of the non-federal share of the other programs which

**CHESHIRE COUNTY, NEW HAMPSHIRE
MANAGEMENT'S DISCUSSION & ANALYSIS**

included Board and Care of Children, Old Age Assistance, Aide to the Permanently and Totally Disabled and Provider Services. As the cost of these programs outweigh the cost of the LTC and Home Care programs, there was a "Hold Harmless" provision included in the statute that protected the Counties from being exposed to additional expenditures above normal inflationary rates for State Fiscal Years 2009 and 2010. After SFY 2010, the legislature establishes caps to determine the maximum liability exposure for these expenses on a biennial basis. The amount of 2021 County Taxes attributable to the State pass through for these Medicaid State Programs was \$7,028,659 or 24.47% of County Taxes.

Although the Nursing Home is able to recover most its expenses through user charges, the Nursing does require a subsidy from property taxes:

As a government owned nursing home, the census of Medicaid residents is much higher than private nursing home levels. As of December 31, 2021, approximately 89% of the nursing home census consisted of residents needing Medicaid assistance in order to pay for their care. Based on the 2021 Medicaid cost report for Maplewood, the per diem rate was calculated to be \$608.90, however, the actual paid per diem as of December 31, 2021 was \$198.85 or \$410.05 per day short of 2021 costs. The supplemental payment provided an additional reimbursement averaging \$54.27 with the Proportionate Share Funds providing additional reimbursement of \$170.92 per day. These additional payments still leave the allowable per diem rate short by approximately \$184.86 per day.

As of January 1, 2022, the Medicaid rate for Maplewood Nursing Home increased by \$2.62 per day to a daily rate of \$201.47.

The analysis for governmental activities indicates the total cost as well as the net cost of services. The net cost of services identifies the cost of those supported by tax assessments and unrestricted revenues that are not directly related to specific charges for services or grants and contributions that would offset those services.

Financial Analysis of County Funds

Cheshire County uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

**CHESHIRE COUNTY, NEW HAMPSHIRE
MANAGEMENT'S DISCUSSION & ANALYSIS**

Governmental Funds

During the year ended December 31, 2011, the County implemented GASB Statement 54, Fund Balance Reporting and Governmental Fund Type Definitions. Under Statement 54, the County has segregated fund balance into five classifications: Nonspendable, Restricted, Committed, Assigned and Unassigned. One major example of the effects caused by the implementation of GASB 54 is that the various Capital Reserve Fund balances are now reported as part of the General Fund.

As of December 31, 2021, the County's governmental funds reported a combined ending fund balance of \$21,823,007, an increase of \$4,415,767 in comparison with the prior year. The majority of the increase is due to the receipt of ARPA funds. Approximately 72.8% of this total, \$15,888,316, represents unassigned fund balance, an increase of \$3,789,777 over 2020 or 23.46% of the County's annual budget. The County has applied \$3,663,507 towards 2022 taxes adjusting the unassigned to 18.05%.

The amount of the County's unassigned fund balance is in line with our objective of retaining a recommended level of between 13% and 17% and to evaluate the use of fund balance for anything over 18% in subsequent budgets.

A complete description of the above mentioned classifications and a more detailed breakdown may be found on page 36 of the Notes to the Basic Financial Statements.

Budgetary Highlights

By State statute, the County Convention must adopt its annual budget within 90 days after the beginning of the County's fiscal year. Therefore, any new purchases or proposed changes to the budget are not executed until the budget is adopted. On March 22, 2021, the County Convention adopted the 2021 budget. As adopted, the bottom line was down 11.48%, (\$7,261,753) for a total budget of \$56,017,994. The major decrease was due to gross proceeds of bond proceeds from 2020 in comparison to 2021. Taxes to be raised were up by .64%, \$182,712 over 2020 for total taxes to be raised of \$28,901,083.

The County became aware that it would become direct recipients of American Rescue Plan Funds (ARPA). In June, 2021, the County received its first tranche in the amount of \$7,389,309.50. The ARPA funds were placed into a separate account with a substantial amount recommended to be expended. As a result, the 2021 budget was amended. Cheshire County not only supported their own needs but also looked to the community by providing a portion of their allocation to all Cheshire County Municipalities as well as assisting small businesses and non-profits that had struggled economically during COVID. Below is a list of the 2021 allocation of the Cheshire County ARPA funds.

- \$1,000,000 – Total allocation to Cheshire County Municipalities
- \$200,000 – Aide to Small Businesses
- \$500,000 – Aide to Non Profits
- \$15,000 – Employee Retention
- \$750,000 – Employee Premium Pay
- \$2,350,258 – HVAC upgrades to County buildings
- \$6,500 – Community Arts Funding
- \$1,300,000 – Emergency Management System Capital Start-up Costs
- \$63,825 – Administrative Support
- \$12,000- MNH Entrance Access Card system
- \$1,067,542 – Maplewood Construction Project for COVID delays

**CHESHIRE COUNTY, NEW HAMPSHIRE
MANAGEMENT'S DISCUSSION & ANALYSIS**

Further the County received Pro Share funds in June, 2021 in an amount greater than what was originally budgeted. On August 10, 2021, a budget amendment was brought before the County Delegation amending the budget for the receipt of the receipt of the ARPA funds that were being recommended for expenditure as well as non-budgeted ProShare funds of \$4,065,420.

With the added Pro Share Funds received, the Delegation approved additional spending of \$450,000 as well as setting aside \$722,000 in Capital Reserves and \$2,711,633 further set aside to offset future taxes. Finally, they amended taxes to be raised by making a reduction in the amount of \$182,712 resulting in a 0% increase in taxes for 2021. The total amendments impacting the bottom line spending resulted in an amended budget of \$67,725,230.

Reconciliation of the Statement of Revenues, Expenditures and Changes in
Fund Balances of Governmental Funds to the Statement of Activities
For the Year Ended December 31, 2021

Net Change in Fund Balances - Governmental Funds (Exhibit D)	\$ 4,415,767
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation expense exceeded capital outlays in the current period.	(247,082)
Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. This is the amount of the loss on the disposal of capital assets reduced by the actual proceeds received from the disposal.	30,006
Issuance of long-term obligations are other financing sources in the funds, but issuance of long-term obligations increase liabilities in the statement of net position. Issuances in the current year are as follows: Capital leases payable	(2,420,673)
Governmental funds report the effect of bond issuance premiums and losses on debt refundings when the debt is first issued, whereas these amounts are amortized in the statement of activities over the life of the related debt. Amortization recognized in the current year is as follows: Amortization of bond issuance premium Amortization of loss on debt refunding	630,407 (130,279)
Repayment of principal on long-term debt is an expenditure in the governmental funds, but debt repayment reduces long-term liabilities in the statement of net position. Current year repayments are as follows: Principal paid on joint obligation payable Principal paid on bonds payable Principal paid on capital leases payable	26,500 3,815,000 14,750
Revenue received from the State of New Hampshire and reported in the governmental funds is reported as a reduction of the direct financing lease receivable in the statement of net position.	(130,000)
The Internal Service Fund is used by the County to charge the costs of health and dental insurance to individual funds. The net cost of the Internal Service Fund is reported in Governmental Activities.	1,089,885
Some expenses reported in the statement of activities, do not require the use of current financial resources, and therefore, are not reported as expenditures in governmental funds. These expenses are from the following sources: Accrued interest Compensated absences payable	31,205 (3,205)
Governmental funds report OPEB and pension contributions as expenditures. However, in the statement of activities, OPEB and pension expense reflects the change in the OPEB liability and net pension liability and-related deferred outflows and inflows of resources, and does not require the use of current financial resources. This is the amount by which OPEB and pension expense differed from OPEB and pension contributions in the current period: Net changes in OPEB Net changes in pension	(16,462) <u>1,547,279</u>

The County has no other separate organizational units, which meet criteria for inclusion in the financial statements as defined by the Governmental Accounting Standards Board (GASB).

Basis of Presentation

The County's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

1. Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the County as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service fund is eliminated to avoid duplicating revenues and expenses.

The statement of net position presents the financial condition of the governmental activities of the County at year end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the County's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the County. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the County.

2. Fund Financial Statements

During the year, the County segregates transactions related to certain County functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the County at this more detailed level.

NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

The focus of governmental and proprietary fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The fiduciary funds are reported by type.

Fund Accounting

The County uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The County employs the use of three categories of funds: governmental, proprietary and fiduciary.

1. Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources, and liabilities and deferred inflows of resources, is reported as fund balance. The following are the County's major governmental funds:

The *General Fund* is the main operating fund of the County and is used to account for all financial resources except those required to be accounted for in another fund.

The *ARPA Fund* is used to account for all financial resources related to the American Rescue Plan Act funding made available to the County related to the COVID-19 Stimulus package of 2021.

2. Proprietary Funds

Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position, and cash flows. Proprietary funds are classified as enterprise or internal service. The County has no enterprise funds. The following is the County's proprietary fund:

The County is self-insured for its health and dental insurance. The activity associated with this self-insurance program is accounted for in the *Internal Service Fund*.

3. Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The County maintains one type of fiduciary fund: custodial funds. The County's custodial funds are held and administered by the County for the benefit of others; assets are not available to support the County or its programs. The County's custodial funds account for Sheriff's escrow and court-forfeited funds, Registry of Deeds funds, Nursing Home resident funds, and inmate funds.

Measurement Focus

1. Government-Wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operation of the County are included on the Statement of Net Position.

2. Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets, deferred outflows of resources, current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, the proprietary fund type is accounted for on a flow of economic resources measurement focus. All assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operation of this fund are included on the statement of net position. The statement of revenues, expenses and changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net position. The statement of cash flows provides information about how the County finances and meets the cash flow needs of its proprietary activities.

The fiduciary funds are reported using the economic resources measurement focus.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue and in the presentation of expenses versus expenditures.

1. Revenues – Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available. Available means that the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the County, available means expected to be received within sixty days of year end.

COUNTY OF CHESHIRE, NEW HAMPSHIRE
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
For the Year Ended December 31, 2021

Non-exchange transactions, in which the County receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the year for which the taxes are levied (see Note 9). Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements, in which the County must provide local resources to be used for a specified purpose; and expenditure requirements in which the resources are provided to the County on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year end: property taxes, charges for services and interest on investments.

Miscellaneous revenues are recorded as revenues when received in cash because they are generally not measurable until actually received.

Grants and entitlements received before the eligibility requirements are met are recorded as advances from grantors.

2. Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Budgetary Data

The County's budget represents functional appropriations as authorized by the County Delegation. The County Delegation may transfer funds between operating categories as they deem necessary. The County adopts its budget under State regulations, which differ somewhat from accounting principles generally accepted in the United States of America in that the focus is on the entire governmental unit rather than on the basis of fund types.

State law requires balanced budgets but permits the use of beginning fund balance to reduce the property tax rate.

Investments

Investments are stated at their fair value in all funds. Certificates of deposit with a maturity of greater than ninety days from the date of issuance are included in investments.

Accounts Receivable

The County uses the reserve method for accounting for bad debts. It is the County's policy to directly charge off uncollectible receivables when management determines the receivable will not be collected.

Capital Assets

General capital assets result from expenditures in the governmental funds. These assets are reported in the government-wide statement of net position, but are not reported in the governmental fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition value as of the date received. The County maintains a capitalization threshold of \$5,000 for its governmental activities, except for its nursing home department. The capitalization threshold for assets of the nursing home is \$500. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except for land and construction in process are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Years</u>
Land improvements	5-30
Buildings and improvements	5-50
Water system	30
Wastewater system	15-30
Vehicles and equipment	3-25

Loss on Debt Refunding

Debt refundings that result in a difference between the reacquisition price of old debt and the net carrying value of that debt have been reported in the accompanying financial statements as a loss on debt refunding. Losses on debt refundings are amortized as a component of interest expense over the remaining life of the related debt using the effective interest rate method.

Bond Premium

Bond premiums are amortized as a component of interest expense over the life of the related bond using the effective interest rate method. Bonds payable are reported in the accompanying financial statements gross of any applicable unamortized bond premium.

Compensated Absences

Employees earn vacation and sick leave as they provide services. Provision is made in the annual budget for vacation and sick leave. Vacation may be accrued to one and one-half times an employee's annual earned vacation. Payout for unused vacation time is limited to a maximum of 7.5 weeks. Any unused vacation beyond this amount will be forfeited. For governmental fund financial statements, compensated absences are reported as liabilities and expenditures as payments come due each period. The entire compensated absence payable is reported on the government-wide financial statements.

Employees may accumulate sick leave days up to ten days per year, cumulative to a maximum of sixty days. Any unused sick leave days in excess of sixty days are to be paid to the employee at the end of the

COUNTY OF CHESHIRE, NEW HAMPSHIRE
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

year at a rate of one-half day for each excess day that has been accrued. No payment for unused sick leave is made upon termination.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current resources are reported as obligations of the funds. General obligation bonds and other long-term obligations that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the New Hampshire Retirement System (NHRS) OPEB Plan and additions to/deductions from NHRS's fiduciary net position have been determined on the same basis as they are reported by NHRS. For this purpose, NHRS recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for non-registered commingled funds valued at net asset value (NAV) as a practical expedient to estimate fair value.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the NHRS and additions to/deductions from NHRS's fiduciary net position have been determined on the same basis as they are reported by NHRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

Net Position

Net position represents the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances on any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Unrestricted net position is the net amount of the assets, deferred outflows of resources, liabilities and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted components of net position.

The County's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

Fund Balance Policy

The County has segregated fund balance into five classifications: Nonspendable, Restricted, Committed, Assigned, and Unassigned. These components of fund balance are defined as follows:

- **Nonspendable Fund Balance**: Amounts that are not in a spendable form (such as inventory or prepaid expenses) or are required to be maintained intact.
- **Restricted Fund Balance**: Amounts that can only be spent for the specific purposes stipulated by external resource providers (such as grantors) or the enabling legislation (federal or state law). Restrictions may be changed or lifted only with the consent of the resource providers or the enabling legislation.
- **Committed Fund Balance**: Amounts that can be used only for the specific purposes determined by a formal action of the County's highest level of decision making authority (annual meeting of the County Delegation). Commitments may be changed or lifted only by the governing body taking the same formal action that imposed the constraint originally. The resolution must either be approved or rescinded, as applicable, prior to the last day of the fiscal year for which the commitment is made. The amount subject to the constraint may be determined in the subsequent period.
- **Assigned Fund Balance**: Amounts that the County intends to use for a specific purpose. For all governmental funds other than the General Fund, any remaining positive amounts are to be classified as "assigned". The Board of Commissioners expressly delegates this authority to the County Administrator. Items that would fall under this type of fund balance classification would be encumbrances.
- **Unassigned Fund Balance**: Amounts that are not obligated or specifically designated and are available for any purpose. The residual classification of any General Fund balance is to be reported here. Any deficit fund balance of another fund is also classified as "unassigned".

Spending Prioritizations

In instances when expenditures are incurred for purposes for which both restricted and unrestricted fund balance is available, restricted fund balance is considered to have been spent first. When expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications can be used, committed resources should be reduced first, followed by assigned amounts and then unassigned amounts.

Minimum Level of Unassigned Fund Balance

In accordance with the County's fund balance policy, additional operating flexibility is important given the variable nature of the nursing home operations. The recommended minimum unassigned fund balance in the County's General Fund should equal 13% of the annual total budgeted appropriations. The recommended target balance is to maintain an unassigned fund balance between 13% and 17% of the annual total budgeted appropriations. The target level of the unassigned fund balance may be achieved by conservatively estimating revenues and by refraining from using any portion of the unassigned target balance to reduce the tax rate. As a general rule, any unassigned fund balance in excess of 18% of the total budgeted appropriations is unnecessary and may be appropriated by the Commissioners to offset property taxes as part of the budget approval process with the Delegation to set tax rates for the calendar year.

COUNTY OF CHESHIRE, NEW HAMPSHIRE
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
For the Year Ended December 31, 2021

The Board of Commissioners may recommend to the Delegation through a budget amendment to appropriate funds from the unassigned fund balance even if such use decreases the unassigned fund balance below the recommended minimum balance in the event of emergency purposes or to alleviate unanticipated short-term budgetary problems, such as revenue shortfalls.

Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in the proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary fund. Operating revenues represent charges to employees and retirees for services. Operating expenses are necessary costs incurred to provide the service that is the primary activity of the proprietary fund. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

COUNTY OF CHESHIRE, NEW HAMPSHIRE
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
For the Year Ended December 31, 2021

The County's investment policy states that any excess funds which are not immediately needed for the purpose of expenditure may only be invested in certificates of deposit, overnight repurchase agreements, U.S. Government securities – Treasury bills, the New Hampshire Public Deposit Investment Pool and others as approved by the County Commissioners and the County Executive Committee.

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The County's investment policy addresses credit risk by limiting investments to the safest types of securities and diversifying the investment portfolio. See investment instrument types noted above.

As of December 31, 2021, the County's investment in the NHPDIP, a state investment pool, had a fair value balance of \$325,836 and was rated *AAAm*.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that in the event of a bank failure, the County's deposits may not be returned. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. Currently, the County does not have a formal investment policy for assurance against custodial credit risk; however, the County has an agreement with the bank to collateralize all deposits in excess of the FDIC insurance limits.

Of the County's deposits with financial institutions at year end, \$22,403,441 was collateralized by securities held by the bank in the bank's name.

Investment in NHPDIP

The County is a voluntary participant in the New Hampshire Public Deposit Investment Pool (NHPDIP), an external investment pool. The NHPDIP is not registered with the United States Securities and Exchange Commission as an investment company. The NHPDIP was created by state law and is administered by a public body of state, local and banking officials. Financial statements for the NHPDIP can be accessed through the NHPDIP's website at www.NHPDIP.com.

The County's exposure to derivatives is indirect through its participation in the NHPDIP. The County's proportional share of these derivatives is not available. The fair value of the position in the investment pool is equal to the value of the pool shares.

COST-SHARING MULTIPLE EMPLOYER PLAN

Plan Description

The New Hampshire Retirement System (NHRS) administers a cost-sharing multiple-employer other postemployment benefit plan (OPEB Plan). The OPEB Plan provides a medical insurance subsidy to qualified retired members.

COUNTY OF CHESHIRE, NEW HAMPSHIRE
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
For the Year Ended December 31, 2021

The NHRS issues a publicly available financial report that includes financial statements and required supplementary information for NHRS. That report may be obtained by writing to New Hampshire Retirement System at 54 Regional Drive, Concord, New Hampshire 03301 or from their website at www.nhrs.org.

The OPEB Plan is divided into four membership types. The four membership types are Group II Police Officer and Firefighters, Group I Teachers, Group I Political Subdivision Employees, and Group I State Employees. The OPEB plan is closed to new entrants.

Benefits Provided

Benefit amounts and eligibility requirements for the OPEB Plan are set by state law (RSA 100-A:52, RSA 100-A:52-a and RSA 100-A:52-b), and members are designated in statute by type. The medical insurance subsidy is a payment made by NHRS to the former employer or its insurance administrator toward the cost of health insurance for a qualified retiree, his/her qualified spouse, and his/her certified dependent children with a disability who are living in the household and being cared for by the retiree. If the health insurance premium amount is less than the medical subsidy amount, then only the health insurance premium amount will be paid. If the health insurance premium amount exceeds the medical subsidy amount, then the retiree or other qualified person is responsible for paying any portion that the employer does not pay.

Group I benefits are based on creditable service, age and retirement date. Group II benefits are based on hire date, age and creditable service. Medical subsidy rates established by RSA 100-A:52 II are dependent upon whether retirees are eligible for Medicare. Retirees not eligible for Medicare may receive a maximum medical subsidy of \$375.56 for a single person plan and \$751.12 for a two-person plan. Retirees eligible for Medicare may receive a maximum medical subsidy of \$236.84 for a single person plan and \$473.68 for a two-person plan.

Funding Policy

Per RSA-100:16, contribution rates are established and may be amended by the New Hampshire State legislature and are determined by the NHRS Board of Trustees based on an actuarial valuation. The County's contribution rates for the covered payroll of public safety employees and general employees were 3.66% and 0.29%, respectively. Contributions to the OPEB plan for the County were \$97,790 for the year ended December 31, 2021. Employees are not required to contribute to the OPEB plan.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At December 31, 2021, the County reported a liability of \$858,678 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2021, and the total OPEB liability used to calculate the net OPEB liability was determined by a roll forward of the actuarial valuation from June 30, 2020. The County's proportion of the net OPEB liability was based on actual contributions by the County during the relevant fiscal year relative to the actual contributions of all participating plan members, excluding contributions to separately finance specific liabilities of individual employers or NHRS. At June 30, 2021, the County's proportion was approximately 0.2144 percent, which was a decrease of 0.0189 percentage points from its proportion measured as of June 30, 2020.

COUNTY OF CHESHIRE, NEW HAMPSHIRE
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
For the Year Ended December 31, 2021

For the year ended December 31, 2021, the County recognized OPEB expense of \$61,967. At December 31, 2021, the County reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience		\$ 179
Net difference between projected and actual earnings on OPEB plan investments		10,726
Changes in proportion and differences between County contributions and proportionate share of contributions		693

Totals	<u>\$ 47,008</u>	<u>\$ 11,598</u>

The County reported \$47,008 as deferred outflows of resources related to OPEB resulting from County contributions subsequent to the measurement date. This amount will be recognized as a reduction of the net OPEB liability in the measurement period ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense for the measurement periods as follows:

<u>June 30,</u>	
2022	\$ (3,326)
2023	(2,254)
2024	(2,526)
2025	<u>(3,492)</u>
	<u>\$ (11,598)</u>

Actuarial Assumptions

The total OPEB liability was determined by a roll forward of the actuarial valuation as of June 30, 2020, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.00%
Wage inflation	2.75% (2.25% for teachers)
Salary increases	5.60%, average, including inflation
Investment rate of return	6.75% per year, net of OPEB plan investment expense, including inflation for determining solvency contributions

Mortality rates were based on the Pub-2010 Healthy Retiree Mortality Tables with creditability adjustments for each group (Police and Fire combined) and projected fully generational mortality improvements using Scale MP-2019.

COUNTY OF CHESHIRE, NEW HAMPSHIRE
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
For the Year Ended December 31, 2021

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of the most recent actuarial experience study, which was for the period July 1, 2016 – June 30, 2019.

The long-term expected rate of return on OPEB Plan investments was selected from a best estimate range determined using the building block approach. Under this method, an expected future real return range is calculated separately for each asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return net of investment expenses by the target asset allocation percentage and by adding expected inflation.

Following is a table presenting target allocations and geometric real rates of return for each asset class:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Weighted Average Long-Term Expected Real Rate of Return</u>
Domestic equity	30%	1.14-6.46%
International equity	20%	2.37-5.53%
Fixed income	25%	3.60%
Alternative investments	15%	7.25-8.85%
Real estate	10%	6.60%
Total	<u>100%</u>	

The discount rate used to measure the collective total OPEB liability as of June 30, 2021 was 6.75%. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made under the current statutes RSA 100-A:16 and RSA 100-A:53. Based on those assumptions, the OPEB Plan's fiduciary net position was projected to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB Plan investments was applied to all periods of projected benefit payments to determine the collective total OPEB liability.

Sensitivity of the County's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the County's proportionate share of the net OPEB liability calculated using the discount rate of 6.75%, as well as what the County's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the single discount rate:

	1% Decrease <u>(5.75%)</u>	Current Discount Rate <u>(6.75%)</u>	1% Increase <u>(7.75%)</u>

NOTE 8—DEFINED BENEFIT PENSION PLAN

Plan Description

The County contributes to the New Hampshire Retirement System (NHRS), a public employee retirement system that administers a single cost-sharing multiple-employer defined benefit pension plan. The plan provides service, disability, death and vested retirement allowances to plan members and beneficiaries. Benefit provisions are established and may be amended by the New Hampshire State legislature.

The NHRS issues a publicly available financial report that includes financial statements and required supplementary information for NHRS. That report may be obtained by writing to New Hampshire Retirement System, 54 Regional Drive, Concord, New Hampshire 03301 or from their website at www.nhrs.org.

Substantially all full-time state and local employees, public school teachers, permanent firefighters and permanent police officers within the State are eligible and required to participate in the Pension Plan.

The Pension Plan is divided into two membership groups. State and local employees and teachers belong to Group I. Police and firefighters belong to Group II.

Benefits Provided

Benefit formulas and eligibility requirements for the pension plan are set by State law (RSA 100-A).

Group I benefits are provided based on creditable service and average final salary for the highest of either three or five years, depending on when service commenced.

Group II benefits are provided based on age, years of creditable service and a benefit multiplier depending on vesting status as of January 1, 2012. The maximum retirement allowance for Group II members vested by January 1, 2012 (45 years of age with 20 years of service or age 60 regardless of years of creditable service) is the average final compensation multiplied by 2.5% multiplied by creditable service. For Group II members not vested by January 1, 2012 the benefit is calculated the same way but the multiplier used in the calculation will change depending on age and years of creditable service as follows:

The County contributes 100% of the employer cost for police officers and general employees of the County.

Per RSA-100:A16, plan member contribution rates are established and may be amended by the New Hampshire State legislature and employer contribution rates are determined by the NHRS Board of Trustees based on their actuarial funding policy. The County's pension contributions to the NHRS for the year ending December 31, 2021 were \$2,192,391.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension

Discount Rate

The discount rate used to measure the collective pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. For purposes of the projection, member contributions and employer contributions are projected based on the expected payroll of current members only. Employer contributions are determined based on the pension plan's actuarial funding policy and as required by RSA 100-A:16. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the collective pension liability.

NOTE 13—SELF INSURANCE

The County established a Health and Dental Insurance Fund (an Internal Service Fund) to account for and finance its self-insurance program related to employee and retiree health benefits. Under this program, the Health and Dental Insurance Fund provides coverage for up to a maximum of \$150,000 annually for each individual plan participant. The County purchases commercial insurance for claims in excess of coverage provided by the fund and for all other risks of loss.

All funds of the County participate in the program and make payments to the Health and Dental Insurance Fund based on estimates of the amounts needed to pay prior and current year claims. The claims liability reported in the fund at year end is based on the requirements of Governmental Accounting Standards Board Statement No. 10, which requires that a liability for claims be reported if information is available

NOTE 14—RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the year ended December 31, 2021, the County was a member of and participated in a public entity risk pool (Trust) for property and liability insurance and worker's compensation coverage. Coverage has not been significantly reduced from the prior year and settled claims have not exceeded coverage in any of the past three years.

The Trust agreements permit the Trust to make additional assessments to members should there be a deficiency in Trust assets to meet its liabilities. Accounting principles generally accepted in the United States of America require members of pools with a sharing of risk to determine whether or not such assessment is probable and, if so, a reasonable estimate of such assessment. At this time, the Trust foresees no likelihood of an additional assessment for any of the past years. Claims expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. Based on the best available information there is no liability at December 31, 2021.

Property and Liability Insurance

The Trust provides certain property and liability insurance coverage to member towns, cities, and other qualified political subdivisions of New Hampshire. As a member of the Trust, the County shares in contributing to the cost of and receiving benefit from a self-insured pooled risk management program. The program includes a Self-Insured Retention Fund from which is paid up to \$200,000 for each and every covered property, crime and/or liability loss that exceeds \$1,000, up to an aggregate of \$1,200,000. Each property loss is subject to a \$1,000 deductible. All losses over the aggregate are covered by insurance policies.

Worker's Compensation

The Trust provides statutory worker's compensation coverage to member towns, cities, and other qualified political subdivisions of New Hampshire. The Trust is self-sustaining through annual member premiums and provides coverage for the statutorily required workers' compensation benefits and employer's liability coverage up to \$2,000,000. The program includes a Loss Fund from which is paid up to \$500,000 for each and every covered claim.

NOTE 15—COMMITMENTS AND CONTINGENCIES

Litigation

There may be various claims and suits pending against the County, which arise in the normal course of the County's activities. In the opinion of management, any potential claims against the County which are not covered by insurance are immaterial and would not affect the financial position of the County.

Other Contingencies

The County participates in the federally assisted Medicaid program at the County Nursing Home. This program is subject to financial and compliance audits by the grantors or their representatives. The amount, if any, of expenditures which may be disallowed by the granting agency cannot be determined at this time; although the County expects such amounts, if any, to be immaterial.

Federal Grants

The County participates in a number of federally assisted grant programs. These programs are subject to financial and compliance audits by the grantors or their representatives. The amounts, if any, of expenditures which may be disallowed by the granting agency cannot be determined at this time, although the County expects such amounts, if any, to be immaterial.

NOTE 16— IMPLEMENTATION OF FUTURE ACCOUNTING STANDARDS

The Governmental Accounting Standards Board (GASB) has issued Statement No. 87, *Leases*, which the County is required to implement in the year ending December 31, 2022. Management believes that this pronouncement will have an impact on the County's government-wide financial statements. The County will be required to recognize certain lease assets and liabilities for leases that previously were classified as operating leases and recognize as inflows of resources or outflows of resources based on the payment provisions of the contracts.

COUNTY OF CHESHIRE, NEW HAMPSHIRE
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
For the Year Ended December 31, 2021

NOTE 1—BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal award activity of the County of Cheshire, New Hampshire (the County) under programs of the federal government for the year ended December 31, 2021. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirement for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County, it is not intended to and does not present the financial position, changes in net position, or cash flows of the County.

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting, which is described in Note 1 of the County's basic financial statements. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

NOTE 3—INDIRECT COST RATE

The County has elected to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

NOTE 4—PROVIDER RELIEF FUND

During the year ended December 31, 2020, the County recognized total revenue of \$458,900 from the Provider Relief Fund (ALN #93.498). Of this amount, \$420,003 is based on lost revenue at the County's nursing home facility. This amount is reported on the Schedule of Expenditures of Federal Awards for the year ended December 31, 2021, per Uniform Guidance and based upon the Provider Relief Fund report submitted to the United States Department of Health and Human Services.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

Independent Auditor's Report

To the Board of Commissioners
County of Cheshire, New Hampshire

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the County of Cheshire, New Hampshire, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the County of Cheshire, New Hampshire's basic financial statements, and have issued our report thereon dated May 17, 2022.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County of Cheshire, New Hampshire's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County of Cheshire, New Hampshire's internal control. Accordingly, we do not express an opinion on the effectiveness of the County of Cheshire, New Hampshire's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County of Cheshire, New Hampshire's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM
AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY THE UNIFORM GUIDANCE**

Independent Auditor's Report

To the Board of Commissioners
County of Cheshire, New Hampshire

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the County of Cheshire, New Hampshire's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County of Cheshire, New Hampshire's major federal programs for the year ended December 31, 2021. The County of Cheshire, New Hampshire's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the County of Cheshire, New Hampshire complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2021.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the County of Cheshire, New Hampshire and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the County of Cheshire, New Hampshire's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the

requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the County of Cheshire, New Hampshire's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the County of Cheshire, New Hampshire's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore it is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the County of Cheshire, New Hampshire's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the County of Cheshire, New Hampshire's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the County of Cheshire, New Hampshire's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the County of Cheshire, New Hampshire's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
