Projects completed under this contract will be funded from accounts specific to each particular project. The majority of projects requiring this type of work are maintenance/repair and Capital Budget projects.

**EXPLANATION**

The Department seeks to retain Stone River Architects PLLC to expedite its project workload and provide appropriate technical expertise as required for future projects. This contract will enable the Department to respond quickly to unscheduled project requests and possible emergencies regarding architectural and building issues. The decision as to which projects will be assigned will be made on a case-by-case basis, depending on the particular expertise required and the vendor's current workload.

A Request for Qualifications was advertised on the Statewide Bids and Proposals public website for a two-year contract term with the option for two one-year renewal terms to be negotiated and mutually agreed upon by the Department and the vendor. Five vendors submitted responses and a short list was drafted in accordance with RSA 21-I:22. The Department then negotiated with the four most qualified vendors to determine fair and reasonable hourly rates of compensation. A scoring summary is attached further detailing the scores each vendor received.

Federal Funds may be used to pay for these contract services and are provided to the State of New Hampshire, Department of Military Affairs and Veterans Services by the National Guard Bureau pursuant to a Federal-State Master Cooperative Agreement for the mutual support of the New Hampshire Army National Guard. Approving this contract ensures the Department is able to maintain its daily operations, modernize its facilities, and rapidly respond to unforeseen emergencies. The contract agreement has been approved by the New Hampshire Department of Justice as to form, substance and execution.

Respectfully submitted,

**SUBJECT: Professional Architectural Services**

**SECTION 1: ENVIRONMENTAL MANAGEMENT SYSTEM**

The New Hampshire Army National Guard (NHARNG) has implemented an environmental Management System (eMS), in accordance with Executive Orders 13423 and 13514, to guide its operations in an environmentally sound manner. Under its eMS, the NHARNG has identified significant activities, products or services that can interact with the environment (known as aspects) and potential environmental impacts from its operations. The significant environmental aspects are listed below:

- Energy Use
- Vehicle Travel (fleet) Between Workstations

These significant aspects and their associated impacts are closely monitored by the NHARNG. Further, the NHARNG is tracking the success of the implementation plans established to achieve the NHARNG's objectives.

For the purposes of this notice, applicability is limited to those actions that the contractor or subsequent employees are likely to perform on NHARNG properties.

The primary purpose of this notice is to communicate the three basic tenets of the NHARNG's eMS policy:

- eMS (ISO 14001) is the management system the NHARNG uses to implement the Adjutant General's Environmental Policy;
- The eMS Environmental Policy commits the NHARNG to comply with environmental laws and regulations, to prevent pollution and to promote continual improvement of the eMS; and
- Contractors are responsible for knowing the environmental impacts of their services and must understand the management requirements for any activities that could affect any of NHARNG's significant aspects, or that could result in potential environmental impacts.

**SECTION 2: ENERGY USE**

The NHARNG is committed to reducing its consumption of energy. Reducing energy consumption may be realized by turning off electrical equipment when not in use, reducing heating temperatures and/or increasing cooling temperatures, using alternative fuels (if available, such as E85 or biodiesel), etc. Contracts that include the use or installation of equipment will seek the most energy efficient technology within the scope of the contract.

**SECTION 3: VEHICLE TRAVEL (FLEET) BETWEEN WORKSTATIONS**
