**EXPLANATION**

The Targeted Block Grant (TBG) Program was established in the 1980s to allocate funds designated for the regional planning commissions in BEA's budget to provide planning assistance to municipalities and to implement regional planning activities. This contract is sole source pursuant to RSA 12-O:58, which authorizes OPD to provide technical assistance through financial grants to each of the nine regional planning commissions in the state. Regional planning commissions were established by the state in 1968 and play an important role in the coordination of planning efforts between the state, regional and local levels.

This funding will enable UVLSRPC to continue assistance to communities on local planning and developments of regional impact and to provide educational programs for local officials on various planning and land use topics.
