The State of New Hampshire  
**Department of Environmental Services**

**Robert R. Scott, Commissioner**

201

June 13, 2023

His Excellency, Governor Christopher T. Sununu  
and The Honorable Council  
State House  
Concord, NH 03301

**REQUESTED ACTION**

Approve Whip O Will Condominium Association's request to perform the following work on Newfound Lake in Bridgewater pursuant to NH Department of Environmental Services (NHDES) Wetlands Bureau permit #2023-00168, and in accordance with RSA 482-A:3. No comments were submitted by the Bridgewater Conservation Commission regarding the project as proposed.

Replenish a 3,000 square foot beach with 55 cubic yards of sand, replenish a 1,223 square foot beach with 22 cubic yards of sand, repair a 38.5 foot breakwater, a 41 foot long breakwater, and a 56.5 foot long breakwater by placing dislodged rocks back into the structures and add a 4 foot x 40 foot seasonal dock extension to an existing 4 foot x 33 foot cantilevered dock on an average of 958 feet of frontage along Newfound Lake in Bridgewater.

NHDES imposed the following conditions as part of this approval:

1. In accordance with Env-Wt 307.16, all work shall be done in accordance with the revised plans, sheet #2 and #3 revision dated March 27, 2023 by Walker Magrauth, as received by the NH Department of Environmental Services (NHDES) on April 8, 2023 and April 15, 2023.
2. This permit shall not be effective until it has been recorded in the Grafton County Registry of Deeds and a copy of the recorded permit has been provided to the department as required pursuant to RSA 482-A:3, and Env-Wt 314.02.
3. In accordance with Env-Wt 512.07(b), the breakwater repairs may only consist of replacement of original materials that have been dislodged from the breakwater into their original location
4. No sand shall be placed below the high water line (El. 589.12) in accordance with Env-Wt 511.07(c).
5. Pursuant to RSA 483-B:9, V(a)(2)(D), (v), this permit does not authorize the removal of trees or saplings within the waterfront buffer that would result in a tree and sapling point score below the minimum required per RSA 483-B:9, V(a)(2)(D), (iv).
6. Only those structures shown on the approved plans shall be installed or constructed along this frontage as required per Env-Wt 513.22, (a).
7. The owner understands and accepts that should these docking structures be found to have an unreasonable impact on the ability of abutting owners to use and enjoy their properties or the public's right to navigation, passage, and use of the resource for commerce and recreation the structures shall be subject to removal pursuant to RSA 482-A:1, RSA 482-A:11,(II), and Env-Wt 513.03 (a).

8. The use of this structure shall be limited to the docking and securing of watercraft as required to comply with Env-Wt 307.09.
9. The seasonal dock shall be removed from the water prior to applying any paint, stain, or other preservative coating, and not returned to the water until after such coating is dry as required per Env-Wt 513.22(b)(4).
10. In accordance with Env-Wt 513.22(b)(1), the seasonal dock on this lake or pond shall be installed after ice-out and removed prior to ice-in.
11. Water quality control measures capable of minimizing erosion; collecting sediment and suspended and floating materials; and filtering fine sediment shall be selected and implemented as appropriate based on the size and nature of the project and the physical characteristics of the site, including slope, soil type, vegetative cover, and proximity to jurisdictional areas as required pursuant to Env-Wt 307.03(c).
12. In accordance with Env-Wt 307.10, (c), turbidity controls shall be installed prior to construction and maintained during construction such that no turbidity escapes the immediate dredge area; and remain in place until suspended particles have settled and water at the work site has returned to normal clarity.
13. No activity shall be conducted in such a way as to cause or contribute to any violation of surface water quality standards specified in RSA 485-A:8 or Env-Wq 1700.
14. Pursuant to RSA 482-A:14, RSA 482-A:14-b, and RSA 482-A:14-c, NHDES is authorized to take appropriate compliance actions should it be determined that, based upon additional information which becomes available, any of the structures depicted as "existing" on the plans submitted by or on behalf of the permittee were not previously permitted or grandfathered.

#### EXPLANATION

NHDES approved this project on May 15, 2023. NHDES supported its decision with the following findings:

1. This is a major impact project per Administrative Rule Env-Wt 513.25(c)(3), the dock is proposed adjacent to or attached to a breakwater.
2. The applicant has an average of 958 feet of frontage along Newfound Lake.
3. A maximum of 13 slips may be permitted on this frontage per Rule Env-Wt 513.12, Frontage Requirements for Private and Non-commercial Docking Structures.
4. The combined existing and proposed docking facility will provide 3 slips as defined per RSA 482-A:2, VIII, and therefore meets Rule Env-Wt 513.12.
5. The NHDES finds that because the project is not of significant public interest and will not significantly impair the resources of Newfound Lake a public hearing under RSA 482-A:8 is not required.
6. No concerns were received from abutters nor the local Conservation Commission related to the project.
7. The applicant has provided the NHDES with evidence that the property has insufficient water depth as required by Env-Wt 513.08(b).
8. The NHDES has accepted the evidence of the physical hardship and approved the extension of a pier beyond that permissible under Env-Wt 513.11, (a), (1), (a).
9. The NHDES finds that the project as proposed and conditioned meets the requirements of RSA 482-A and the Wetlands Program Code of Administrative Rules Chapters Env-Wt 100 - 900. No waivers of RSA 482-A or the Wetlands Program Code of Administrative Rules Chapters Env-Wt 100 - 900 were requested or approved under this permit action.

His Excellency, Governor Christopher T. Sununu  
and The Honorable Council  
Page 3 of 3

NHDES Wetlands Bureau permit #2023-00168 application documents are enclosed for review by the Governor and the Executive Council in consideration of this request and in accordance with RSA 482-A:3, II(a), as it is a major project located in New Hampshire public waters.

We respectfully request your approval of this item.

A handwritten signature in black ink, appearing to read "Robert R. Scott", is written over a horizontal line.

Robert R. Scott  
Commissioner

**STANDARD DREDGE AND FILL  
WETLANDS PERMIT APPLICATION**  
Water Division/Land Resources Management  
Wetlands Bureau  
Check the Status of your Application

RSA/Rule: RSA 482-A/Env-Wt 100-900

APPLICANT'S NAME: Whip O'Will

TOWN NAME: Bridgewater

			File No:
			Check No: <u>33711</u>
			Amount: <u>\$ 2449.00</u>
			Initials: <u>ES</u>

A person may request a waiver of the requirements in Rules Env-Wt 100-900 to accommodate situations where strict adherence to the requirements would not be in the best interest of the public or the environment but is still in compliance with RSA 482-A. A person may also request a waiver of the standards for existing dwellings over water pursuant to RSA 482-A:26, III(b). For more information, please consult the Waiver Request Form.

**SECTION 1 - REQUIRED PLANNING FOR ALL PROJECTS (Env-Wt 306:05; RSA 482-A:3, I(d)(2))**  
Please use the Wetland Permit Planning Tool (WPPIT), the Natural Heritage Bureau (NHB) DataCheck Tool, the Aquatic Restoration Mapper, or other sources to assist in identifying key features such as: priority resource areas (PRAs), protected species or habitats, coastal areas, designated rivers, or designated prime wetlands.

Has the required planning been completed?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Does the property contain a PRA? If yes, provide the following information:	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
<ul style="list-style-type: none"> <li>Does the project qualify for an Impact Classification Adjustment (e.g. NH Fish and Game Department (NHFG) and NHB agreement for a classification downgrade) or a Project-Type Exception (e.g. Maintenance or Statutory Permit-by-Notification (SPN) project)? See Env-Wt 407.02 and Env-Wt 407.04.</li> </ul>	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
<ul style="list-style-type: none"> <li>Protected species or habitat?                             <ul style="list-style-type: none"> <li>If yes, species or habitat name(s): <u>None specified</u></li> <li>NHB Project ID #: <u>22-3774</u></li> </ul> </li> </ul>	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
• Bog?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
• Floodplain wetland contiguous to a tier 3 or higher watercourse?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
• Designated prime wetland or duly-established 100-foot buffer?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
• Sand dune, tidal wetland, tidal water, or undeveloped tidal buffer zone?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
Is the property within a Designated River corridor? If yes, provide the following information:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
<ul style="list-style-type: none"> <li>Name of Local River Management Advisory Committee (LAC): <u>          </u></li> <li>A copy of the application was sent to the LAC on Month: <u>          </u> Day: <u>          </u> Year: <u>          </u></li> </ul>	

lrm@des.nh.gov or (603) 271-2147

NHDES Wetlands Bureau, 29 Hazen Drive, PO Box 95, Concord, NH 03302-0095

[www.des.nh.gov](http://www.des.nh.gov)

For dredging projects, is the subject property contaminated?  Yes  No  
 • If yes, list contaminant:

Is there potential to impact impaired waters, class A waters, or outstanding resource waters?  Yes  No

For stream crossing projects, provide watershed size (see WPPT or Stream Stats):

**SECTION 2 - PROJECT DESCRIPTION (Env. Wt 311:04(i))**  
 Provide a brief description of the project and the purpose of the project, outlining the scope of work to be performed and whether impacts are temporary or permanent. DO NOT reply "See attached", please use the space provided below.

Repair an existing breakwaters and associated dockage in-kind, replenish two existing beaches with clean sand, install a 40ft seasonal dock extending from an existing breakwater

**SECTION 3 - PROJECT LOCATION**  
 Separate wetland permit applications must be submitted for each municipality within which wetland impacts occur.

**SECTION 7 - RESOURCE-SPECIFIC CRITERIA ESTABLISHED IN Env-Wt 400, Env-Wt 500, Env-Wt 600, Env-Wt 700, OR Env-Wt 900 HAVE BEEN MET (Env-Wt 313.01(a)(3))**

Describe how the resource-specific criteria have been met for each chapter listed above (please attach information about stream crossings, coastal resources, prime wetlands, or non-tidal wetlands and surface waters):

Proposed repair of the existing breakwaters is in keeping with Env-Wt 513.24(b)

Proposed expansion of dockage will provide 2 new boat slips per RSA 482A:VIII(a). This property has a total of 1955 average frontage sufficient to support 13 boat slips. Proposed project will provide a total of 4 boat slips at this property. Proposed design is the least impacting alternative as it alleviates the necessity for another point of access to the waterfront.

Replenish two existing beaches with a 6" layer of clean sand over a combined 4223 total square feet, 7.8 cubic yards estimated to be installed above and behind full lake 589.12. All related work shall be in accordance with Env-Wt 511.07(a)(1-3) & (b)(2)

**SECTION 8 - AVOIDANCE AND MINIMIZATION**

Impacts within wetland jurisdiction must be avoided to the maximum extent practicable (Env-Wt 313.03(a)). \* Any project with unavoidable jurisdictional impacts must then be minimized as described in the Wetlands Best Management Practice Techniques For Avoidance and Minimization and the Wetlands Permitting: Avoidance, Minimization and Mitigation Fact Sheet. For minor or major projects, a functional assessment of all wetlands on the project site is required (Env-Wt 311.03(b)(10)). \*

Please refer to the application checklist to ensure you have attached all documents related to avoidance and minimization, as well as functional assessment (where applicable). Use the Avoidance and Minimization Checklist, the Avoidance and Minimization Narrative, or your own avoidance and minimization narrative.

\*See Env-Wt 311.03(b)(6) and Env-Wt 311.03(b)(10) for shoreline structure exemptions.

**SECTION 9 - MITIGATION REQUIREMENT (Env-Wt 311.02)**

If unavoidable jurisdictional impacts require mitigation, a mitigation pre-application meeting must occur at least 30 days but not more than 90 days prior to submitting this Standard Dredge and Fill Permit Application.

Mitigation Pre-Application Meeting Date: Month:  Day:  Year:

N/A - Mitigation is not required

**SECTION 10 - THE PROJECT MEETS COMPENSATORY MITIGATION REQUIREMENTS (Env-Wt 313.01(a)(1)c)**

Confirm that you have submitted a compensatory mitigation proposal that meets the requirements of Env-Wt 800 for all permanent unavoidable impacts that will remain after avoidance and minimization techniques have been exercised to the maximum extent practicable:  I confirm submittal.

N/A - Compensatory mitigation is not required

**SECTION 11 - IMPACT AREA (Env-Wt 311:04(g))**

For each jurisdictional area that will be/has been impacted, provide square feet (SF) and, if applicable, linear feet (LF) of impact and note whether the impact is after-the-fact (ATF, i.e., work was started or completed without a permit). For intermittent and ephemeral streams, the linear footage of impact is measured along the thread of the channel. Please note, installation of a stream crossing in an ephemeral stream may be undertaken without a permit per Rule Env-Wt 309.02(d), however other dredge or fill impacts should be included below. For perennial streams/ rivers, the linear footage of impact is calculated by summing the lengths of disturbances to the channel and banks. Permanent impacts are impacts that will remain after the project is complete (e.g., changes in grade or surface materials). Temporary impacts are impacts not intended to remain (and will be restored to pre-construction conditions) after the project is completed.

JURISDICTIONAL AREA		PERMANENT			TEMPORARY		
		SF	LF	ATF	SF	LF	ATF
Wetlands	Forested Wetland						
	Scrub-shrub Wetland						
	Emergent Wetland						
	Wet Meadow						
	Vernal Pool						
	Designated Prime Wetland						
	Duly-established 100-foot Prime Wetland Buffer						
Surface Water	Intermittent / Ephemeral Stream						
	Perennial Stream or River						
	Lake / Pond				160		
	Docking - Lake / Pond						
	Docking - River						
Banks	Bank - Intermittent Stream						
	Bank - Perennial Stream / River						
	Bank / Shoreline - Lake / Pond	4322					
Tidal	Tidal Waters						
	Tidal Marsh						
	Sand Dune						
	Undeveloped Tidal Buffer Zone (TBZ)						
	Previously-developed TBZ						
	Docking - Tidal Water						
<b>TOTAL</b>		<b>4322</b>			<b>160</b>		

**SECTION 12 - APPLICATION FEE (RSA 482-A:3, 1)**

<input checked="" type="checkbox"/> <b>MINIMUM IMPACT FEE:</b> Flat fee of \$400.
<input type="checkbox"/> <b>NON-ENFORCEMENT RELATED, PUBLICLY-FUNDED AND SUPERVISED RESTORATION PROJECTS, REGARDLESS OF IMPACT CLASSIFICATION:</b> Flat fee of \$400 (refer to RSA 482-A:3, 1(c) for restrictions).
<input checked="" type="checkbox"/> <b>MINOR OR MAJOR IMPACT FEE:</b> Calculate using the table below:
Permanent and temporary (non-docking): 4322 SF × \$0.40 = \$ 1729
Seasonal docking structure: 160 SF × \$2.00 = \$ 320
Permanent docking structure: SF × \$4.00 = \$
Projects proposing shoreline structures (including docks) add \$400 = \$ 400
Total = \$
The application fee for minor or major impact is the above calculated total or \$400, whichever is greater = \$ 2449

The NH Natural Heritage database has been checked for records of rare species and exemplary natural communities near the area mapped below. The species considered include those listed as Threatened or Endangered by either the state of New Hampshire or the federal government. We currently have no recorded occurrences for sensitive species near this project area.

A negative result (no record in our database) does not mean that a sensitive species is not present. Our data can only tell you of known occurrences, based on information gathered by qualified biologists and reported to our office. However, many areas have never been surveyed, or have only been surveyed for certain species. An on-site survey would provide better information on what species and communities are indeed present.

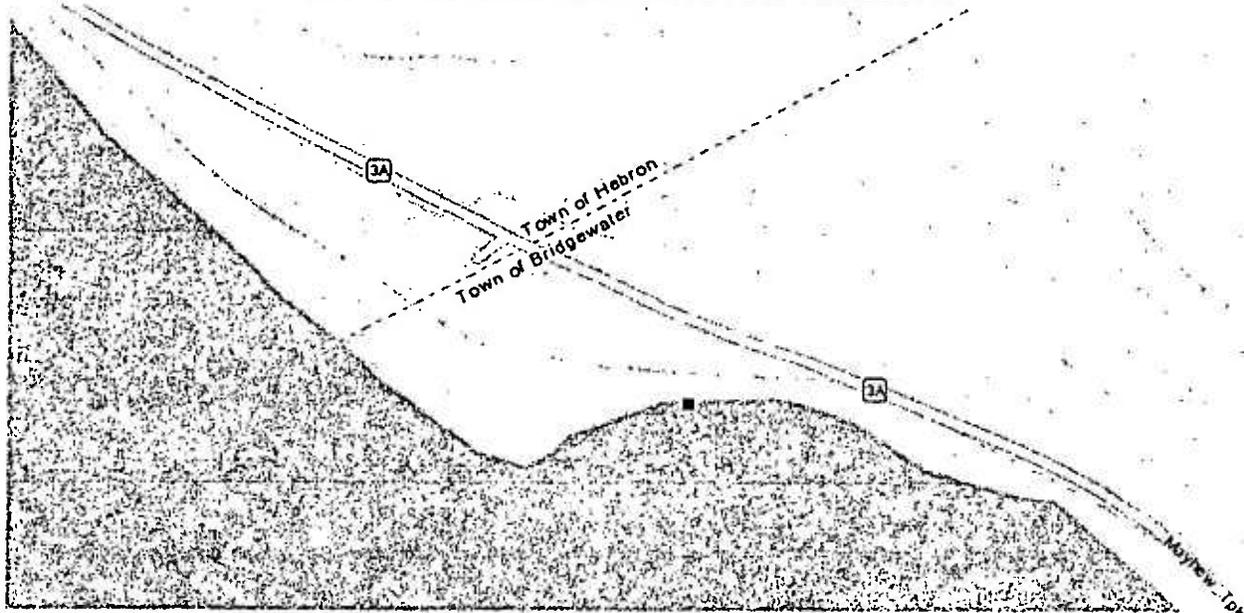

Based on the information submitted, no further consultation with the NH Fish and Game Department pursuant to Fis 1004 is required.
