REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with Annseal, Inc. (Vendor 160681) of Johnson City, NY, on the basis of a single bid of \$322,203.50, for crack sealing of various Tier 1 and 2 roadways in the Towns/Cities of Hooksett, Bedford, Manchester, Auburn and Goffstown (Project: Statewide Crack Seal (East) #44045), from the date of Governor and Council approval through September 15, 2023, unless amended by the Department in accordance with the Standard Specifications. 100% Federal Funds.

Funding is available in State Fiscal Year 2023, and is anticipated to be available in Fiscal Year 2024 as follows, with the ability to adjust encumbrances through the Budget Office between State Fiscal Years if needed and justified:

Funding is available as follows:	<u>FY 2023</u>	<u>FY 2024</u>
04-96-96-963515-3054		
Consolidated Federal Aid		
400-500870 Highway Contract Payments	\$148,213.60	\$173,989.90

2. Further authorize that a contingency in the amount of \$32,220.35 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 10% of the contract amount.

Funding is available as follows:	<u>FY 2024</u>
04-96-96-963515-3054	
Consolidated Federal Aid	
400-500870 Highway Contract Payments	\$32,220.35

EXPLANATION

This project is part of the State's Ten-Year Transportation Improvement Plan, under the Paving-Tier-1-Resurfacing and Paving-Tier-2-Resurfacing Program. This project is part of the Calendar Year 2023 Federal Resurfacing program and involves 16.4 miles of pavement crack seal on five (5) sections in five (5) towns in Maintenance District 5.

- 22520 - Hooksett, I-93/I-293, Crack Seal Full Width, 1.0 Miles
- 22521 - Hooksett, I-93/I-293, Crack Seal Full Width, 0.4 Miles
- 23515 - Bedford, NH 101/I-293, Crack Seal Full Width, 7.7 Miles
- 23516 - Manchester-Auburn, NH 101, Crack Seal Full Width, 4.4 Miles
- 23521 - Goffstown, NH 114/NH 114A, Crack Seal Full Width, 2.9 Miles

Page 2

This project will extend the pavement lifespan through sealing cracks formed by age and temperature change, delaying costlier improvements.

The proposed contingency amount is 10% of the contract amount. This is to account for the risks associated with the unknown extent of unanticipated traffic control, field conditions will vary, and that the sections will need to endure one (1) additional winter season (from when they were measured) before the proposed work takes place.

Although the bid costs exceeded the Department's estimate by 11.12%, the sole bid received is felt to be reasonable for the work involved. There was one item (413.1 Hot-poured Crack Sealant) that was over estimated by \$92,526 that resulted in the higher than estimated bid. Re-advertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available, and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is: 80% Federal funds (Pave-T1-Resurf and Pave-T2-Resurf), with anticipated utilization of Turnpike Toll Credits for the State's 20% match, effectively using 100% Federal Funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Your approval of this resolution is respectfully requested.

Sincerely,

William Cass
Commissioner
