REQUESTED ACTION

Authorize the Department of Health and Human Services, Division for Behavioral Health, on behalf of the Governor's Commission on Alcohol and Other Drugs, to enter into a **Retroactive, Sole Source** amendment to an existing contract with New Hampshire Interscholastic Athletic Association, Inc. (VC#154201-B001), Concord, NH, to continue implementing Life of an Athlete programs with New Hampshire's middle and high school students, by extending the completion date from June 30, 2023 to June 30, 2024, effective retroactive to July 1, 2023, upon Governor and Council approval with no change to the price limitation of \$750,000. 100% Other Funds (Governor Commission Funds).

The original contract was approved by Governor and Council on June 19, 2019, item #26, amended on June 16, 2021, item #14, and most recently amended on June 29, 2022, item #18.

EXPLANATION

This request is **Retroactive** because additional time was needed for the Contractor to obtain the required MOP 150 documentation to complete the contract binder. The Contractor's board members are predominately school administrators and athletic directors. With the demands of the end of school activities, the Board was unable to meet in a quorum until June 19, 2023, which was after the deadline to present the contract to Governor and Executive Council for the June 28, 2023 meeting.

This request is **Sole Source** because the Department is seeking to extend the completion dates beyond the available renewal options at the discretion of the Governor's Commission on Alcohol and other Drugs. In accordance with RSA 12-J, the Department carries out the administrative functions of the Commission. The Governor's Commission on Alcohol and Other Drugs (Commission) approved the funding allocation on February 10, 2023.

The purpose of this request is for the Contractor to continue providing training, technical assistance, and education statewide to high school coaches and athletes who are implementing the Life of an Athlete program, which promotes abstinence from alcohol and other drugs, and healthy behaviors associated with improved academic and athletic performance and overall wellness. This request is for a no-cost extension of the contract to bring forward funds remaining in the State Fiscal Year 2023 budget to continue the program in State Fiscal Year 2024.

Approximately 3,350 individuals will be served during State Fiscal Year 2024.

The Life of an Athlete program is a comprehensive, peer-driven prevention program that educates high school athletes on the immediate and long-term impacts that alcohol and other drug misuse have on athletic performance. Focused on empowering students to make healthy lifestyle choices, student athletes are trained to provide education and encouragement to their peers on the positive effects, including academic and athletic performance, of abstaining from alcohol and other drugs.

The Department will monitor services by reviewing monthly and other reports provided by the Contractor.

Should the Governor and Council not authorize this request, student athletes will not have consistent access to ongoing prevention education, which may result in increases in substance misuse behavior and poor academic and athletic performance.

Area served: Statewide

In the event that the Other Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Weaver
Interim Commissioner

INDEPENDENT AUDITOR'S REPORT

To the Council
New Hampshire Interscholastic
Athletic Association, Inc.

Opinion

We have audited the accompanying financial statements of the New Hampshire Interscholastic Athletic Association, Inc. (a non-profit organization), which comprise the statements of financial position as of June 30, 2022 and 2021, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of New Hampshire Interscholastic Athletic Association, Inc. as of June 30, 2022 and 2021, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of New Hampshire Interscholastic Athletic Association, Inc. and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about New Hampshire Interscholastic Athletic Association, Inc.'s ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve

collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of New Hampshire Interscholastic Athletic Association, Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about New Hampshire Interscholastic Athletic Association, Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The schedules of game revenues and expenses are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

NEW HAMPSHIRE INTERSCHOLASTIC ATHLETIC ASSOCIATION, INC.
NOTES TO FINANCIAL STATEMENTS
For the Years Ended June 30, 2022 and 2021

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities

The New Hampshire Interscholastic Athletic Association, Inc. (the 'Association') is a non-profit association organized in 1951. The Association is responsible for the coordination of all recognized interscholastic athletic events for its member schools within the State of New Hampshire. The Association's principal sources of funding include revenue from tournament proceeds, membership dues from member schools, and corporate sponsorship programs.

The accounting policies of the Association conform to accounting principles generally accepted in the United States of America as applicable to nonprofit entities except as indicated hereafter. The following is a summary of significant accounting policies.

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Basis of Presentation

The financial statements have been prepared in accordance with the reporting pronouncements pertaining to Not-for-Profit Entities included within the FASB Accounting Standards Codification. The Association is required to report information regarding its financial position and activities according to the following net asset classifications:

Net Assets Without Donor Restrictions – Net assets available for use in general operations and not subject to donor or certain grantor restrictions. The governing board has not designated, from net assets without donor restrictions, net assets for an operating reserve.

Net Assets With Donor Restrictions – Net assets subject to donor or certain grantor-imposed restrictions. Some donor imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both.

Recognition of Donor Restrictions

Contributions are recognized when the donor makes a promise to give to the Association that is, in substance, unconditional. Contributions that are restricted by the donor are reported as an increase in net assets without restrictions, if the restriction expires in the reporting period in which the support is recognized. All other donor restricted support is reported as an increase in net assets with donor restrictions, depending on the nature of the restriction. When a restriction expires, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statements of activities as net assets released from restrictions.

Cash and Cash Equivalents

For the purposes of the statements of cash flows, the Association considers all unrestricted highly liquid investments with a maturity of 90 days or less to be cash equivalents as follows:

	<u>2022</u>	<u>2021</u>
Cash	<u>\$ 457,402</u>	<u>\$ 422,671</u>

Concentrations of Credit Risk Arising from Cash Deposits in Excess of Insured Limits

The Association maintains cash balances at several financial institutions located in New Hampshire. Accounts at each institution are insured by the Federal Deposit Insurance Corporation up to \$250,000. At June 30, 2022, the Association had uninsured cash balances totaling \$21,902.

Investments

Investments, which consist of equities and fixed-income mutual funds are carried at fair value at June 30, 2022 and 2021 in the statements of financial position. Unrealized gains and losses on investments are reflected in the statements of activities. Investment revenues are reported net of related expenses. Total investment fees for the years ended June 30, 2022 and 2021 were \$15,617 and \$16,743, respectively.

Contributions

As required by generally accepted accounting principles, contributions received are recorded as assets with donor restrictions or assets without donor restrictions depending upon the existence and/or nature of any donor restrictions.

Property and Equipment

Property and equipment are stated at cost. The Association charges depreciation to expense which allocates the cost of property and equipment over the estimated useful life of the asset. The provision for depreciation is determined by the straight-line method at rates intended to amortize the cost of related assets over their estimated useful lives as follows:

	<u>Years</u>
Land improvements	5-10
Building and improvements	10-39
Equipment	3-10

Accrued Vacation

Full time personnel accrue paid vacation at the rate of one (1) day per month or twelve (12) working days per year. Employees may accumulate unused vacation days between five (5) and forty-five (45) days based on job classification. Such accumulations are payable to the employee upon separation from employment.

For the Years Ended June 30, 2022 and 2021

Revenue and Revenue Recognition

The Association recognizes contributions, donations, and miscellaneous income when cash is received. Conditional promises to give; that is, those which contain a measurable performance or other barrier and a right of return, are not recognized until the conditions on which they depend have been met.

A portion of the Associations revenue is derived from cost reimbursable state contracts and grants, which are conditioned upon certain performance requirements and/or the incurrence of allowable qualifying expenses. Amounts received are recognized as revenue when the Association has incurred expenditures in compliance with specific contract or grant provisions. Amounts received prior to incurring qualifying expenditures are reported as revenue with donor restrictions for state contracts and grants which the Association has determined that performance requirements will be met.

The Association recognizes revenue from contracts with customers in the form of game revenue, membership assessments, corporate sponsorship, broadcast rights, and registration fees.

Game revenue

Revenues recognized from sales of tickets for admission to games is recognized at the point in time the sale takes place. All sales are paid in full at the point of sale. No revenue related assets or liabilities are reported in relation to these transactions.

Membership Assessment

Membership assessment revenue is recognized at the point in time when received, and are due prior to the start of the season. Membership assessments include a flat fee and a variable portion depending on the number of sports a District wishes to participate in. Membership assessments are refundable if the District cancels prior to specific dates. Membership assessments which are received in advance of the start of the season are deferred to the applicable period.

Corporate Sponsorship and Broadcast rights

Revenue recognized from corporate sponsorship and broadcast rights are recognized using two different approaches based on the types of revenue. If the benefit allows the customer to have a right-to-access, that revenue is recognized over time, while other benefits that allow the customers the right-to-use, that revenue is recognized at a point-in-time.

Under the Association's multimedia and sponsorship agreement, revenue related to the use of functional intellectual property such as radio and television broadcast rights are recognized as revenue at the point in time when the customer can first benefit.

Revenue recognized from symbolic intellectual property such as print, media, advertising, game programs, corporate sponsorship, and other promotional activities are recorded over time. In addition, symbolic intellectual property includes brands, team or trade names, logos, and franchise rights, which are also recognized as revenue over time.

The Association's multimedia and sponsorship agreement, which has the same period as the Association fiscal year end, includes a fixed guaranteed amount and variable portion for potential additional revenue.

NEW HAMPSHIRE INTERSCHOLASTIC ATHLETIC ASSOCIATION, INC.
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
For the Years Ended June 30, 2022 and 2021

The Association recognizes receivables for amounts which are guaranteed in the contract and agreement that have not been received prior to the end of the fiscal year.

Registrations

The Association recognizes revenue related to officials registrations and coaches registrations at a point in time attributable to commencement of the annual sports season. Registration fees received in advance of the annual sports season are deferred.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures during the reporting period. Actual results could differ from those estimates.

Functional Allocation of Expenses

The costs of program and supporting services activities have been summarized on a functional basis in the statements of activities. The statements of functional expenses present the natural classification detail of expenses by function.

The financial statements report certain categories of expenses that are attributed to more than one program or supporting function. Accordingly, certain indirect costs have been allocated among the programs and supporting services benefited, based primarily on percentage allocations calculated based on a flat percentage rate. The expenses that are allocated include salary and wages, payroll taxes, employee benefits, insurance, and travel.

Income Taxes

The Association has received determination letters from the Internal Revenue Service stating that they qualify for tax-exempt status under Section 501(c)(3) of the Internal Revenue Code for their exempt function income. In addition, the Association is not subject to state income taxes.

The Association is annually required to file a Return of Organization Exempt from Income Tax (Form 990) with the IRS. FASB Accounting Standards Codification Topic 740 entitled *Accounting for Income Taxes* requires the Association to report uncertain tax positions for financial reporting purposes. The Association had no uncertain tax positions as of June 30, 2022 and, accordingly, does not have any unrecognized tax benefits that need to be recognized or disclosed in the financial statements.

Fair Value of Financial Instruments

Cash and cash equivalents, trade receivables, accounts payable, accrued expenses and other current liabilities are carried in the financial statements at amounts which approximate fair value due to the inherently short-term nature of the transactions. The fair values determined for financial instruments are estimates, which for certain accounts may differ significantly from the amounts which could be realized upon immediate liquidation.

NOTE 2—LIQUIDITY AND AVAILABILITY

The Association's Finance Committee regularly monitors the availability of resources required to meet general expenditures and contractual commitments over a 12-month period. It is the Finance Committee's responsibility to meet with a professional financial advisor on a yearly basis to review investments and recommend changes to the investment portfolio in the long-term investment account. The Finance Committee is responsible for ensuring the Association has an annual net asset retention of six months operating costs in the long-term investment account.

The following table reflects the Association's financial assets as of June 30, 2022 and 2021, reduced by amounts that are not available to meet general expenditures within one year of the statements of financial position date because of donor restrictions.

NOTE 3—INVESTMENTS

Fair Value Measurements

The Association reports under the Fair Value Measurements pronouncements of the FASB Accounting Standards Codification (FASB ASC 820-10), which establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs of valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below.

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Association has the ability to access.

Level 2 – Inputs to the valuation include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in active markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NEW HAMPSHIRE INTERSCHOLASTIC ATHLETIC ASSOCIATION, INC.
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
For the Years Ended June 30, 2022 and 2021

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

In some cases, the inputs used to measure the fair value of an asset or a liability might be categorized within different levels of the fair value hierarchy. In those cases, the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. Assessing the significance of a particular input to entire measurement requires judgment, taking into account factors specific to the asset or liability. The categorization of an asset within the hierarchy is based upon the pricing transparency of the asset and does not necessarily correspond to our assessment of the quality, risk, or liquidity profile of the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis.

Cash or cash equivalent money market funds: Valued at acquisition cost.

Money market funds, mutual funds, and equities: Valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Association believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Association's assets at fair value:

Assets at Fair Value as of June 30, 2022				
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

Shares of the separate investment accounts are valued at quoted market prices, which represent the net value of shares held by the Association at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

EXPLANATION

The purpose of this request is to continue providing training, technical assistance, and education statewide to high school coaches and athletes who are implementing the Life of an Athlete program, which promotes abstinence from alcohol and other drugs, and healthy behaviors associated with improved academic and athletic performance and overall wellness. Contract funds are being shifted from SFY 2022 to SFY 2023 to better align the allocation and spending of funds by fiscal year in order to allow the Contractor to maximize the use of the funding. Due to the Covid pandemic, the Contractor and school districts experienced staffing challenges. As a result, the Contractor did not utilize the full amount of funding allocated in SFY '22. This request is for a no-cost extension of the contract to bring forward funds remaining in the SFY '22 budget to continue the program in SFY '23.

The Contractor has grown the program from approximately 30 school districts to over 70 since the Governor's Commission began funding Life of an Athlete in 2014. In State Fiscal Year 2022, 3,154 student athletes and 350 coaches were trained in the Life of an Athlete program. The Department anticipates 3,350 student athletes will be served in State Fiscal Year 2023.

The Life of an Athlete program is a comprehensive, peer-driven prevention program that educates high school athletes on the immediate and long-term impacts that alcohol and other drug misuse have on athletic performance. Focused on empowering students to make healthy lifestyle choices, student athletes are trained to provide education and encouragement to their peers on the positive effects, including academic and athletic performance, of abstaining from alcohol and other drugs.

The Department will monitor services by reviewing monthly and other reports provided by the Contractor.

As referenced in Exhibit C-1, Revisions to Standard Contract Language, Section 2, Renewal, Subsection 2.1. of the original agreement, the parties have the option to extend the agreement for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for the remaining one (1) year available.

Should the Governor and Council not authorize this request, student athletes will not have consistent access to ongoing prevention education, which may result in increases in substance misuse behavior and poor academic and athletic performance.

EXPLANATION

The purpose of this request is to continue providing technical assistance and education to coaches and athletes, statewide, who are implementing the Life of an Athlete Program, which promotes prevention of substance use and other healthy behaviors for performance and overall wellness.

Approximately 15,000 additional individuals are anticipated to have been served from July 1, 2019 through June 30, 2021. The Department expects another 8,000 additional individuals will be served through this amendment, from July 1, 2021 through June 30, 2022.

This program was originally funded by the Governor's Commission on Alcohol and other Drugs (Commission). On February 19, 2021 the Commission approved continued funding for State Fiscal Year 2022. The New Hampshire Interscholastic Athletic Association has grown the program from approximately 30 school districts to over 60; they consistently meet performance measures; and they have the staffing, expertise and knowledge to continue the program without disruption.

The Life of an Athlete Program is a comprehensive prevention program that educates youth in New Hampshire middle and high schools on the immediate impact alcohol and other drugs have on athletic performance and empowers them to make healthy lifestyle choices.

The Department will measure contract performance and effectiveness of the agreement by ensuring:

- Three (3) school districts conduct a middle school Life of an Athlete Program in collaboration with the high school Life of an Athlete Program.
- 80 schools implement one of the components of the Life of an Athlete Program.
- 65 schools implement the core components of the Life of an Athlete Program.
- 15 high schools base their athletic policies on the principles of the Restorative Justice Model.

As referenced in Exhibit C-1, Revisions to Standard Contract Language, Section 2, Renewal, Subsection 2.1. of the original contract, the parties have the option to extend the agreement for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval. The Department is exercising its option to renew services for one (1) of the two (2) years available.

Should the Governor and Council not authorize this request 8,000 youth athletes will not have consistent access to ongoing prevention education, which may result in increases in substance misuse behaviors and consequences.

Area served: Statewide

Source of Funds: 100% Other Funds (Governor's Commission on Alcohol and Other Drug Prevention, Treatment, and Recovery)

In the event that the Other Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lori Shabinette
Commissioner

EXPLANATION

This request is sole source because the New Hampshire Interscholastic Athletic Association, Inc. (NHIAA) serves as the leader of school-based athletics and works directly with schools to adopt and expand the successful Life of an Athlete program (LOA).

The purpose of this request is to increase participation of New Hampshire high schools, expand to middle school students statewide and change school culture and climate relative to the use of substances by empowering youth to make healthy lifestyle choices. Evaluation results have shown students involved in the Life of an Athlete programs are making healthy decisions, including the decision not to use substances.

Approximately 15,000 individuals will be served from July 1, 2019 through June 30, 2021.

Life of an Athlete is a comprehensive prevention program that educates youth on the immediate impact alcohol and other drugs have on athletic performance. The program consists of five (5) core elements, which include:

1. Codes of conduct;
2. Pre-athletic season meetings at least three (3), depending upon sports offered);
3. Training for coaches;
4. Trainings for student athlete leaders, and
5. Building community support for consistent upholding of the codes of conduct.

The Contractor will conduct surveys that evaluate the use of the Life of an Athlete program and utilize the results of those surveys to ensure program improvement. As a result of participating in this program, students will report an increase in:

- Knowledge regarding the impact of substance misuse on athletic and school performance;
- The perception of risk/harm in the use of substances; and
- The perception of peer disapproval if they use substances.

The following performance measures will be used to measure the effectiveness of the agreement:

By the end of year one of this contract:

- Ensure three (3) school districts conduct a middle school LOA program in collaboration with the high school LOA program
- Ensure seventy-five (75) schools implement one of the components of LOA;
- Ensure sixty (60) schools implement the five (5) core components of LOA; and
- Ensure ten (10) high schools base their athletic policies on the principles of the Restorative Justice Model.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council

Page 3 of 3

By the end of year two of this contract:

- Ensure five (5) school districts conduct a middle school LOA program in collaboration with the high school LOA program;
- Ensure eighty (80) schools implement at least one (1) component of LOA;
- Ensure sixty-five (65) schools implement the five (5) core components of LOA;
- Ensure ten (10) high schools base their athletic policies on the Restorative Justice Model; and
- Update LOA policies based on local data and present findings to 150 school administrators.

As referenced in the Exhibit C-1 of this contract, the Department has the option to extend contract services for up to two (2) additional years, contingent upon satisfactory delivery of services, available funding, agreement of the parties and approval of the Governor and Executive Council.

Should the Governor and Executive Council not authorize this request, the LOA program will not be expanded to middle school student-athletes.

Area served: Statewide.

Source of Funds: 100% Other Funds from the Governor's Commission of Alcohol and other Drug Prevention, Treatment, and Recovery.

In the event that the Other Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Jeffrey A. Meyers
Commissioner

The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and
