Dept. Environmental Services, Drinking Water and Groundwater Trust Fund, Grants Non-Federal	

EXPLANATION

The Drinking Water and Ground Water Trust Fund was created in 2017, using \$276 million of MtBE trial judgement funds, as authorized by RSA 485-F. The purpose of the Trust Fund is to provide sustainable, long-term funding for the protection, preservation, and enhancement of the drinking water and groundwater resources of the state. The Drinking Water and Groundwater Advisory Commission was established to administer the Trust Fund and to provide guidance to the State on the use of the Trust Fund.

On November 14, 2022, the Advisory Commission voted to authorize a \$60,000 grant for the community of Stone Gate Acres Association to make improvements to the water system and address manganese issues. The project includes design and installation of a filtration system to reduce manganese levels, fix water line breaks, and replace portions of the original main line. The project will also include an addition to the pump house, which currently houses all equipment below ground, to accommodate the new filtration system and updated piping at the ground level.

In the event that these funds become no longer available, General funds will not be requested to support this project. This agreement has been approved by the Attorney General's Office as to form, substance and execution.

We respectfully request your approval of this item.

Robert R. Scott
Commissioner
