EXPLANATION

The New Hampshire Fish and Game Department is owner of lands throughout the state referred to as Wildlife Management Areas (WMA). It is NHFG's obligation to delineate and maintain in good order the boundaries of these public properties for the benefit of the public and abutting landowners. As part of the long term management of these lands NHFG tries to maintain a 15 year schedule of remarking and signing its boundaries. This contract includes the scheduled long term maintenance of the perimeter of these WMA's as described. The contractor for this work was selected through a Request for Proposals (RFP) submission and subsequent qualification assessment evaluation. The Request for Proposals was advertised on May 19, 2023, and the link to the RFP was directly emailed to 52 prospective contractors. Two proposals were received prior to the closing date for the RFP. These proposals were graded based on qualification criteria (see enclosed assessment table). White Mountain Woodland Services, LLC had the winning proposal based on this evaluation of the proposals.

- (3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.
- (4) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

5. Witness of **Boundary corners**: 1-3 separate witness trees will establish each corner. Each tree will have three painted blazes vertically aligned facing the corner. Boundary lines and corners must be clearly visible "heading to" and "leaving from" each corner monument. Within approximately (10') ten feet either side of boundary intersection/property corner, witness signs are installed facing the corner and just beyond this distance boundary signs should be placed perpendicular of the boundary line direction and facing the abutting property.
6. **State Boundary Signs** (3" x 9") will be installed approximately 250' apart along all boundary lines. **State Corner Signs** (3" x 7") will be installed at each corner. Old boundary and corner signs must be removed and properly disposed of. **Important: 2 1/2" or longer nails must be used to post signs on live trees and shall be driven 2/3rd the length of the nail shaft, leaving 1/3rd shaft and nail head proud of the face of the tree. This allows space for the sign to move as the tree continues to grow and retain the boundary signage.**
7. **CAUTION MUST BE EXERCISED** when witnessing boundary lines that cross hiking/snowmobile trails at the property line. At these intersections, paint will be absent a minimum of fifty feet (50') from the trail intersection so users do not confuse the boundary line blazes for a trail witness. Property signs will be hung at trail intersections facing the abutting property to the WMA property. Signs will be fixed every 50' for a total distance of 100' left and 100' right of the intersection along the boundary where blazes and paint are omitted.
8. **CAUTION AND APPROPRIATE DISCRETION** should be exercised in areas immediately adjacent to abutting houses and maintained yards. *Limited and minimal blazing and painting should be done in these areas* and only line blazes or side blazes on NHFG land. Property signs should still maintain the standard spacing. No blazing or signing of maintained yard trees should be performed.
9. Boundary lines in areas inundated with water year-round should be marked up to and leaving the area of inundation. Emergent marshes should also be marked in this same manor. Large areas of semi treed alder swamps should be blazed where possible or accommodations will be made for the periodic placement of metal fence posts. This method should also be used in woodland shrub areas. This will be determined on a case by case basis and communicated between NHFG and the Contractor.
10. Contract will be in force upon contract approval by the state through May 31, 2024. Work must begin and continue on a regular basis no later than one month after the day of contract approval.
