Re: **PETITION – Acworth – Project #43566C**

The Department of Transportation requests placing this item on the Consent Calendar.

Under RSA 230:14, attached is a petition for a hearing to repair and reconstruct NH Route 123A and culvert, also known as Brooks Gorge, in Acworth, New Hampshire. The NH Route 123A roadway and culvert repairs are located approximately .55 miles west of Gate Mountain Road (MM 107) and are required because of the July 29-30, 2021, storm event that overtopped the roadway and damaged the existing culvert headwall and wing walls.

Since the petition is not for the limitation or control of access, a Commission of Three Persons should be appointed by the Governor with the advice of the Executive Council to hold a hearing. The Commission shall determine whether there is an occasion for the reconstruction improvements.

Suggested Commission:

Joel McCarty – Alstead
Richard Merkt – Westmoreland
Jennifer Bland - Acworth

Suggested Budget:

9 workdays @ \$50.00 = \$450.00
403 miles @ \$0.655 = \$264.00
TOTAL = \$714.00

Respectfully,

William J. Cass, P.E.
Commissioner
