Effective upon Governor and Council approval, full contract execution, final approval by the New Hampshire Attorney General's Office, and sub-grantee funding acceptance, through the eligible Federal Grant period of August 31, 2026. 100% Federal Funds.

Funds are available in the SFY 2024 operating budget as follows with the Federal award scheduled to end August 31, 2026

072-500575 - "Grants to Non-Profits – Federal"	\$2,104,092.00

EXPLANATION

These awards are funded as part of the 2023 Department of Homeland Security (DHS) Non-Profit Security Grant Program (NSGP) from the (DHS), Preparedness Directorate, Office of Grants and Training Directorate. Funding is awarded to eligible non-profit entities to prevent, protect against, prepare for, and respond to terrorist attacks. The objective to the FY2023 NSGP is to provide funding for physical and cyber security enhancements and other security-related activities to nonprofit organizations that are at high risk of a terrorist attack.

New Hampshire Department of Safety is the only entity eligible to submit NSGP application to DHS/Federal Emergency Management Agency (FEMA), including those applications submitted on behalf of all eligible applicants for the program from New Hampshire. A non-profit may apply if they meet the criteria described under 501(c) (3) of the Internal Revenue Code of 1986 (IRC) and exempt from tax under section 501(a) of such code. The final beneficiary of the NSGP grant award must be an eligible non-profit organization and cannot be a for-profit/fundraising extension of a nonprofit organization. All non-profit applications received were reviewed and submitted to DHS/FEMA for consideration and final decree of award.

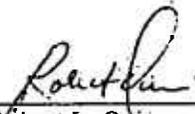

Due to the time required to fully execute and accept funding at the non-profit entity, combined with the time of future Governor and Executive Council meetings, the Department of Safety requests authorization to enter into the grant agreements noted above using the grant agreement form attached to this request. Governor and Executive Council approval of the authorizing item will permit grant agreements to become effective after being fully executed and accepted by the organization, without requiring further action by Governor and Executive Council. These agreements will remain subject to a review of form and execution by the Attorney General's Office prior to final execution and approval by the Department of Safety.

These grants are awarded to the Local Agencies as follows, in accordance with conditions previously outlined in the explanation of this item:

(2) all manufactured products used in the project are produced in the United States—this means the manufactured product was manufactured in the United States; and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation; and

- (3) the inclusion of iron, steel, manufactured products, or construction materials produced in the United States will increase the cost of the overall project by more than 25 percent.

New Hampshire Grant Terms and Conditions 2023

1. **Allowable Costs:** The allowability of costs incurred under any grant shall be determined in accordance with the general principles of allowability and standards for selected cost items as set forth in the applicable 2 CFR 200 and the FFY 2023 U.S. Department of Homeland Security, Grant Program Guidance and Application Kit. The applicant assures that it will comply and all its sub-recipients and contractors will comply, with the applicable provisions of the U.S. Department of Homeland Security, FFY 2023 Homeland Security Grant Program Guidance and Application Kit, and all other applicable federal laws, orders, circulars or regulations.
2. **Freedom of Information Act (FOIA):** FEMA recognizes that much of the information submitted in the course of applying for funding under this program or provided in the course of its grant management activities may be considered law enforcement sensitive or otherwise important to national security interests. While this information under Federal control is subject to requests made pursuant to the Freedom of Information Act (FOIA), 5. U.S.C. §552, all determinations concerning the release of information of this nature are made on a case-by-case basis by the FEMA FOIA Office, and may likely fall within one or more of the available exemptions under the Act. The applicant is encouraged to consult its own State and local laws and regulations regarding the release of information, which should be considered when reporting sensitive matters in the grant application, needs assessment and strategic planning process. The applicant may also consult FEMA regarding concerns or questions about the release of information under State and local laws. The grantee should be familiar with the regulations governing Sensitive Security Information (49 CFR Part 1520), as it may provide additional protection to certain classes of homeland security information.
3. **Availability of Federal Funds:** This grant award is contingent upon availability of federal funds approved by Congress.
4. **Bidding Requirements:** The subrecipient must comply with proper competitive bidding procedures as 2 CFR 200.310-316 and 2 CFR 200.317-326. On any items, including those bids in the aggregate, whose total cost is less than \$5,000, the bids do not have to be submitted to the DOS for review and approval; but adequate documentation must be maintained in the subrecipient's files. On any items, including those bids in the aggregate, whose total cost is \$5,000 or more, bids must be submitted to DOS, if requested.
5. In accordance with the Build America, Buy America Act (BABAA), this notice advises that FEMA grants a general applicability waiver to the Buy America Domestic Content Procurement Preference ("Buy America preference") for otherwise covered infrastructure project purchases, totaling up to 5% of the total applicable project costs¹, up to a maximum of \$1,000,000 (a de minimis threshold), to reduce the administrative burden for recipients and subrecipients. Once a Federal financial assistance recipient's total purchases of materials otherwise covered by the Buy America preference reach 5% of applicable project costs or the de minimis threshold of \$1,000,000, whichever is lower, all other applicable project purchases must comply with the Buy America preference. A de minimis waiver ensures that recipients and Federal agencies make efficient use of limited resources, especially if the cost of processing the individualized waiver(s) would risk exceeding the value of the items waived. Guidance outlining the application of the de minimis waiver is forthcoming. **DATES:** This waiver is effective upon approval date, which is March 14, 2023, and will remain in effect for all awards or funding obligated to recipients and subrecipients of FEMA financial 1 Applicable project costs are defined for the purpose of this waiver as material costs subject to the Buy America preference. 2 assistance infrastructure projects for five years from the approval date. As FEMA develops efficient waiver review capabilities, FEMA will review this waiver within five years of the date on which the waiver was issued or more often as appropriate to determine its continued utility, applicability and relevance with FEMA's missions and goals consistent with the Infrastructure Investments and Jobs Act (IIJA), and the Office of Management and Budget (OMB) Memorandum M-22-11, Initial Implementation' Guidance on Application of Buy America Preference in Federal Financial Assistance Programs for Infrastructure. **SUPPLEMENTARY INFORMATION:** 1. Build America, Buy America The Build America, Buy America Act (BABAA) was enacted on November 15, 2021, as part of the Infrastructure

Investment and Jobs Act (IIJA). Pub. L. 117-58. BABAA establishes a domestic content procurement preference, the Buy America preference, for federal infrastructure programs. Section 70914(a) of BABAA

New Hampshire Grant Terms and Conditions 2023

establishes that no later than 180 days after the date of enactment, FEMA must ensure that none of the funds made available for infrastructure projects may be obligated by FEMA unless it has taken steps to ensure that the iron, steel, manufactured products, and construction materials used in a project are produced in the United States. In section 70912, BABAA further defines a project to include "the construction, alteration, maintenance, or repair of infrastructure in the United States" and includes within the definition of infrastructure those items traditionally included along with buildings and real property. II. Waivers Under section 70914(b), FEMA has authority to waive the application of a domestic content preference when (1) application of the preference would be contrary to the public interest; (2) the materials and products subject to the preference are not produced in the United States at a sufficient and reasonably available quantity or satisfactory quality; or (3) inclusion of domestically produced materials and products would increase the cost of the overall project by more than 25%. Section 70914(c) provides that a waiver under 70914(b) must be published by the agency with a detailed written explanation for the proposed determination and provide a public comment period of not less than 15 days. Information on this waiver may be found on FEMA's website at <https://www.fema.gov/grants/policy-guidance/buy-america>. III. Public Interest in a General Applicability Waiver of Buy America Provisions for De Minimis products FEMA is approving a general applicability waiver to the Buy America preference for otherwise covered infrastructure project purchases, totaling up to 5% of the total applicable project costs, as referenced in Footnote 1 on Page 1, up to a maximum of \$1,000,000. The waiver is being established to reduce the administrative burden to recipients and subrecipients, which include small and disadvantaged communities, where the costs of compliance with the BABAA requirements could significantly distract from the focus on higher value BABAA compliant items. Without this waiver, awards may be delayed for infrastructure projects as award recipients must exert considerable effort accounting for the sourcing of miscellaneous, low-cost items and systematically undermine the opportunities and benefits to such communities requiring FEMA financial assistance, limiting the Agency's ability to deliver critical resources equitably and efficiently. The BABAA requirements apply to 23 FEMA financial assistance programs. To understand the scope of this waiver, FEMA reviewed awards for FY2020 and determined that under FEMA's Hazard Mitigation Assistance programs (which include FEMA's largest 4 financial assistance programs subject to BABAA), \$1.7 billion in project costs would be subject to BABAA. Of those \$1.7 billion, FEMA will waive otherwise covered infrastructure project purchases, totaling up to 5% of the total applicable project costs, as referenced in Footnote 1 on Page 1, up to a maximum of \$1,000,000. These figures support that a de minimis waiver is appropriate for FEMA programs because it would reduce administrative burden for smaller projects while still requiring the vast majority of FEMA funding to be subject to the domestic preference requirements of BABAA. Many of the resources and benefits delivered by these programs support projects in communities with limited technical and financial expertise to comply with complex, domestic preference requirements. Furthermore, FEMA will allocate additional personnel to process project-specific waivers. A de minimis waiver allows the Agency to dedicate critical personnel to the compliance activities of higher value BABAA compliant items and strengthen the Agency's ability to successfully implement the BABAA requirements. To date, FEMA has taken the actions below to implement the BABAA requirements: 1. Promulgated Agency-wide policy; 2. Developed Agency website on BABAA; 3. Ensured Notices of Funding Opportunity and awards were updated, as appropriate, with applicable terms and conditions; 4. Engaged in Tribal consultations; 5. Established process for waiver review and routing; 6. Developed outreach strategy plan to provide guidance and training to FEMA staff and recipients, subrecipients, and stakeholders; and 7. Developed contract provision and self-certification for recipients and subrecipients to include in their contracts and subcontracts funded by FEMA federal financial assistance for infrastructure. In addition to the

New Hampshire Grant Terms and Conditions 2023

actions above, a de minimis waiver focused on reducing administrative burden on recipients and subrecipients is also a key part of FEMA's implementation. IV. Assessment of Cost Advantage of a Foreign-Sourced Product Under OMB Memorandum M-22-11, agencies are expected to assess "whether a significant portion of any cost advantage of a foreign-sourced product is the result of the use of dumped steel, iron, or manufactured products or the use of injuriously subsidized steel, iron, or manufactured products" as appropriate before granting a public interest waiver. FEMA has concluded that this assessment is not applicable to this waiver, as this waiver is not based on the cost of foreign-sourced products. FEMA will perform additional market research during the duration of the waiver and consult with International Trade Administration (ITA) to better understand the market to limit the use of waivers caused by dumping of foreign-sourced products. V. Limited Duration of Waiver FEMA is committed to the successful implementation of the Buy America preference across its programs providing covered federal financial assistance for infrastructure projects and will move swiftly toward completing the processes outlined in this notice. This waiver is effective upon approval date, which is March 14, 2023, and will remain in effect for all awards or funding obligated to recipients and subrecipients of FEMA financial assistance infrastructure projects for five years from the approval date. As FEMA develops efficient waiver review capabilities, FEMA will review this waiver within five years of the date on which the waiver was issued or more often as appropriate to determine its continued utility, applicability and relevance with FEMA's missions and goals consistent with the IJJA, and the Office of Management and Budget (OMB) Memorandum M-22-11, Initial Implementation Guidance on Application of Buy America Preference in Federal Financial Assistance Programs for Infrastructure.
