**EXPLANATION**

The Environmental Protection Agency (EPA) published regulatory revisions to the National Primary Drinking Water Regulation (NPDWR) for lead and copper under the authority of the Safe Drinking Water Act (SDWA). These revised requirements provide greater and more effective protection of public health by reducing exposure to lead and copper in drinking water.

NHDES released a solicitation for Lead Service Line Inventory, Sampling Plan and Replacement Plan Grant applications in September 2022. A total of 30 communities were identified as potential candidates for this grant (see Attachment A for a complete list). Funding for these grants was established from the Bipartisan Infrastructure Law (BIL) funding. The grants are being awarded on a first come, first served basis. The grant amounts were determined by the number of drinking water service connections within

the water system. Projects eligible to receive grant funding include in-house or outside services to create lead service line inventories, sampling plans, and replacement plans, digitizing historic records, building inspections, test pits/potholing, and water quality testing.

The entities listed above will use the funding to conduct a complete data mining of the drinking water systems' service line records to identify lead service lines and to construct a searchable database that will allow more effective communication with stakeholders. In addition, the entities will create replacement plans and revise the sampling plans to address lead service lines within the distribution systems. Abenaki Water Co, Inc. has exceeded the threshold for FY2024 and therefore requires Governor and Executive Council approval.

In the event grant funds become no longer available, general funds will not be requested to support this program. The grant agreement has been approved by the Attorney General's Office as to form, substance, and execution.

We respectfully request your approval of this item.

Re: Utility work

The General Liability insurance program-maintained Abenaki Water Company Inc as a whole owned subsidiary of Eversource Energy consists of a \$300,000 per occurrence layer of coverage provided through a program of self-insurance. This self-insurance program provides coverage comparable to that provided by the language in the ISO Commercial General Liability Policy, including Automobile Liability, Products and Completed Operations, Employer's Liability, Pollution Liability, and Contractual Liability coverage. The program is structured in accordance with generally accepted guidelines for programs of self-insurance and is supported by a corporate insurance fund for losses within the self-insured limit. The Eversource Energy System companies also have in place catastrophic Excess Liability insurance (above the self-insured layer) provided by Associated Electric and Gas Insurance Services, Limited. Included is a certificate confirming \$2,000,000 of General Liability excess of the self-insurance program.

The primary \$1,000,000 layer of Automobile Liability coverage is provided by Liberty Mutual Insurance Company. Coverage extends to all owned, non-owned, and hired vehicles used in connection with any of the Eversource System Companies' operations.

Please accept this letter as acknowledgment of our obligation to defend, hold harmless and indemnify State of New Hampshire as additional insured on a commercial general liability and provide insurance protection all in accordance with and to the extent by the terms and conditions of the referenced agreement.

If you have any questions or concerns as respects our corporate insurance programs, please do not hesitate to contact me at (860) 665-5622.

Sincerely,

  - 13.2. In the event of Termination under paragraphs 10 or 12.4 of these general provisions, the approval of such a Termination Report by the State shall in no event relieve the Grantee from any and all liability for damages sustained or incurred by the State as a result of the Grantee's breach of its obligations hereunder.
  - 13.3. Notwithstanding anything in this Agreement to the contrary, either the State or, except where notice default has been given to the Grantee hereunder, the Grantee, may terminate this Agreement without cause upon thirty (30) days written notice.

Re: Utility work

The General Liability insurance program-maintained by Aquarion Water Company of New Hampshire as a whole owned subsidiary of Eversource Energy consists of a \$300,000 per occurrence layer of coverage provided through a program of self-insurance. This self-insurance program provides coverage comparable to that provided by the language in the ISO Commercial General Liability Policy, including Automobile Liability, Products and Completed Operations, Employer's Liability, Pollution Liability, and Contractual Liability coverage. The program is structured in accordance with generally accepted guidelines for programs of self-insurance and is supported by a corporate insurance fund for losses within the self-insured limit. The Eversource Energy System companies also have in place catastrophic Excess Liability insurance (above the self-insured layer) provided by Associated Electric and Gas Insurance Services, Limited. Included is a certificate confirming \$2,000,000 of General Liability excess of the self-insurance program.

The primary \$1,000,000 layer of Automobile Liability coverage is provided by Liberty Mutual Insurance Company. Coverage extends to all owned, non-owned, and hired vehicles used in connection with any of the Eversource System Companies' operations.

Please accept this letter as acknowledgment of our obligation to defend, hold harmless and indemnify State of New Hampshire as additional insured on a commercial general liability and provide insurance protection all in accordance with and to the extent by the terms and conditions of the referenced agreement.

If you have any questions or concerns as respects our corporate insurance programs, please do not hesitate to contact me at (860) 665-5622.

Sincerely,

A handwritten signature in black ink, appearing to read "Shawn Cote", written in a cursive style.
