His Excellency, Governor Christopher T. Sununu  
and the Honorable Council  
State House  
Concord, New Hampshire 03301

Bureau of Construction  
October 30, 2023

**REQUESTED ACTION**

1. Authorize the Department of Transportation to enter into a contract with Pike Industries, Inc. (Vendor 177300), of Belmont, NH, on the basis of a low bid of \$4,084,306.33 for pavement preservation on NH Rt. 16 in Milton and Wakefield (Project: Milton-Wakefield #44071), from the date of Governor and Council approval through September 20, 2024 unless amended by the Department in accordance with the Standard Specifications. 100% Federal Funds.

Funding is available in State Fiscal Years 2024 and 2025 as follows, with the ability to adjust encumbrances through the Budget Office between State Fiscal Years if needed and justified:

Funding is available as follows:	<u>FY 2024</u>	<u>FY 2025</u>
04-96-96-963515-3054		
Consolidated Federal Aid		
400-500870 Highway Contract Payments	\$3,165,337.45	\$918,968.88

2. Further authorize that a contingency in the amount of \$204,215.32 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 5% of the contract amount.

Funding is available as follows:	<u>FY 2025</u>
04-96-96-963515-3054	
Consolidated Federal Aid	
400-500870 Highway Contract Payments	\$204,215.32

**EXPLANATION**

This project is part of the State's Ten-Year Transportation Improvement Plan, under the Pave-Tier 2 Resurfacing/GRR Programs. This project is part of the Tier 2 Federal Resurfacing program and involves 6.8 miles of pavement resurfacing on one (1) section in two (2) towns in Districts 3.

- 24302 – Milton-Wakefield - 16, ¾" Full Width Bonded Wearing Course Inlay, 1.5" Full Width High Strength Inlay, 6.8 Miles

This project will extend the good quality life of the pavement, improve guardrail, and delay costlier improvements. The section will be resurfaced via BWC and a full-width high strength inlay. All impacted towns and utilities will be notified.

The proposed contingency amount is 5% of the contract amount. This is to account for quantity calculations that are based on aerial and street view photography and that field conditions will vary, and that the sections will need to endure one additional winter season before the proposed work takes place.

Although the bid costs exceeded the Department's estimate by 3.27%, the low bid of three bids received is felt to be reasonable for the work involved. Re-advertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is: 80% Federal funds (Pave-T2-Resurf /GRR), with anticipated utilization of Turnpike Toll Credits for the State's 20% match, effectively using 100% Federal Funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Your approval of this resolution is respectfully requested.

Sincerely,

William J. Cass, P.E.  
Commissioner

## SUPPLEMENTAL PROJECT INFORMATION SHEET

**DESCRIPTION:** This project is part of the Tier 2 Federal Resurfacing program and involves 6.8 miles of pavement resurfacing on one (1) section in two (2) towns in Districts 3.

24302 Milton-Wakefield, NH 16, ¾" Full Width Bonded Wearing Course Inlay,  
1.5" Full Width High Strength Inlay, 6.8 Miles

**FEDERAL FUNDING:** Pave-T2-Resurf / GRR (80%), Turnpike Toll Credit (20%)

**CONTINGENCY:** The proposed contingency amount is 5% of the contract amount. This is to account for quantity calculations that are based on aerial and street view photography and that field conditions will vary, and that the sections will need to endure one additional winter season before the proposed work takes place.

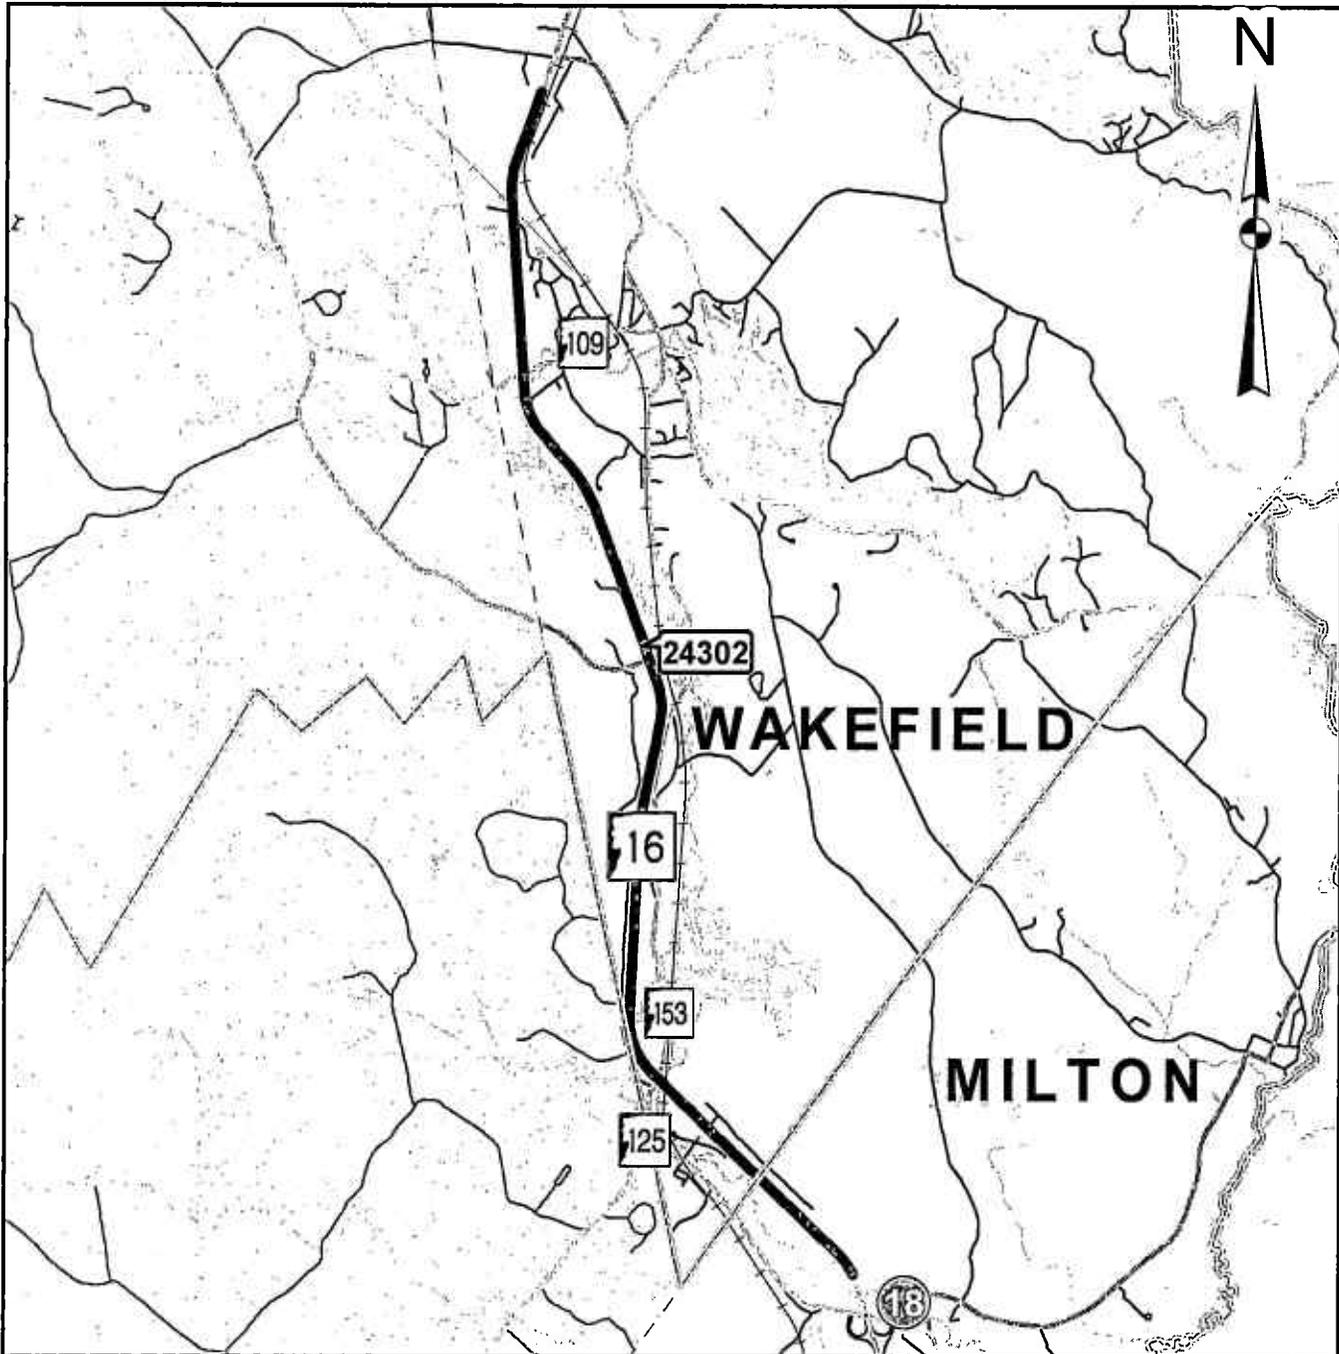

**PROJECT INITIATED:** The project is part of the CY 2024 Tier 2 Federal Resurfacing Program. The Pavement Management Section reviewed the road segment included in this project and the need for preservation treatments totaling 6.8 miles.

**PROJECT EXPLANATION:** This project will extend the good quality life of the pavement, improve guardrail, and delay costlier improvements. The section will be resurfaced via BWC and a full-width high strength inlay. All impacted towns and utilities will be notified.

**TRAFFIC IMPLICATION** One lane, alternating two-way traffic will be required. Lane closure lengths will be limited to one mile, and traffic will be restored to normal conditions at the end of each workday. Due to traffic volumes on NH 16, this project will require night work. The Work Zone was determined to be non-significant at the July 26, 2023 TCC Meeting.

**FINAL COMPLETION DATE:** September 20, 2024.
